# THEATRE - BACHELOR OF FINE ARTS (BFA)

The BFA degree concentrations in theatre offer pre-professional training to highly-motivated students aiming at professional careers in certain disciplines. The BFA student will pursue one of three concentration areas: acting, design/technology/management or musical theatre. Students may elect to further focus within one of these degree tracks.

## Requirements

## **Admission Requirements**

Admission is based on talent, academic record, motivation, auditions and/or interviews. Enrollment is limited to ensure individual attention necessary for effective training. Interested students should identify themselves as early as possible. Contact the department for information regarding how to apply to the BFA degree concentrations.

Formal application to the:

- musical theatre concentration should be made concurrently with an application to the university. Auditions and interviews will be held at the regular spring auditions for the College of Music.
- acting concentration should be made at the beginning of the spring semester.
- design/technology/management concentrations should be made at the beginning of the spring semester.

Students are subject to the requirements in place at the time of admission to the BFA.

#### **General Degree Requirements**

The College of Arts & Sciences counts a maximum of 67 credit hours of THTR credits toward the total credit hours required for graduation. A grade of C- or higher is needed in all required courses to fulfill the requirements of the BFA degree, as well as an overall Theatre GPA of 2.00.

In addition to the specific course requirements listed for completing a BFA degree in Acting and Design/Technology/Management concentrations, students must fulfill all requirements for the BA degree in Theatre.

#### **Graduating in Four Years**

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress toward a BFA in theatre students should meet the following requirements:

- By Dec. 1 of the year before the first semester, declare in writing the intention to audition for the BFA in Musical Theatre.
- During the second semester (acting concentration) or third semester (design/technology/management concentrations), complete the audition and interview.
- Immediately upon acceptance into a BFA concentration declare the major.

 Once accepted into a BFA concentration, meet with a departmental advisor to confirm in writing specific courses to be completed within the remaining semesters of study.

#### Concentrations

#### **Acting Concentration**

The BFA in acting begins as early as the sophomore year. Interested students will begin on the CU Boulder campus as BA students taking a series of preparatory courses. This allows students to begin their training without blindly committing to an intensive curricular path.

As students are eligible to audition for all CU performance opportunities when they arrive on campus, this timeline also gives students and faculty the chance to work together before making a major commitment.

Auditions to transition from BA to BFA in acting generally take place around spring break. The BFA in acting curriculum is designed to be completed in 6 semesters, allowing a student to graduate in 4 years. For students on an alternate timeline (such as transfer students) the curriculum can be completed in as few as 4 semesters.

Visit the Theatre & Dance website (https://www.colorado.edu/theatredance/theatre/undergraduates/theatre-ba-bfa/bfa-acting/) for more information on the BFA in acting.

#### **Design/Technology/Management Concentrations**

In addition to the College of Arts and Sciences core requirements, students pursuing a BFA in design, technology or management must complete up to 67 credits in theatre and an additional 15 credits in other disciplines. Students who choose this concentration must elect one primary emphasis (design, technology or management) but may have opportunities to explore other emphases.

The BFA in design/technology/management begins as early as the sophomore year. Interested students will begin on the CU Boulder campus as BA students taking a series of preparatory courses. This allows students to begin their training without blindly committing to an intensive curricular path.

As students are eligible to be involved in all CU performance opportunities when they arrive on campus, this timeline also gives students and faculty the chance to work together before making a major commitment.

Interviews to transition from BA to BFA in design/technology/management generally take place around spring break. The BFA in design/technology/management curriculum is designed to be completed in 6 semesters, allowing a student to graduate in 4 years. For students on an alternate timeline (such as transfer students) the curriculum can be completed in as few as 4 semesters.

For more information on the BFA design/technology/management program, visit the Theatre & Dance (https://www.colorado.edu/theatredance/theatre/undergraduates/theatre-ba-bfa/bfa-design-technology-management/) website.

#### **Musical Theatre Concentration**

The BFA in musical theatre begins in the freshman year. Interested students will submit pre-screen audition materials during the fall of their high school senior year. A selection of students from the pre-screen will be invited to audition in person during the winter of their high school senior year (generally late January, early February). Invitations to the program will be made around spring break.

For application timeline, required materials and submission information for the BFA in Musical Theatre, visit the Theatre & Dance (https://www.colorado.edu/theatredance/theatre/undergraduates/theatre-ba-bfa/bfa-musical-theatre/) website.

In addition to coursework, all students are eligible to be involved in all CU performance opportunities when they arrive on campus.

# **Four-Year Plans of Study**

Through the required coursework for all concentrations in the BFA in Theatre, students will fulfill all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement.
