1

BUSINESS ADMINISTRATION - MASTER OF BUSINESS ADMINISTRATION (MBA)

The breadth of training that master of business administration graduates receive prepares them to become high-level managers and lead in a challenging and evolving business environment.

The MBA program is rigorous and comprehensive, and demands student commitment. The curriculum develops a set of broad-based, integrative skills. Core courses provide a solid foundation in both business management and analytical disciplines, a foundation that fosters continued career growth. In addition to core courses stressing key functional areas of business, students can choose electives specific to a chosen area of concentration.

The case study method and student projects are used broadly throughout all courses, and common areas of study such as ethics, technology, communications and international issues are integrated throughout much of the curriculum. Students learn about management theory and its practical applications in "real-world" situations. Lectures, seminars, team teaching, team projects and guest lectures are various approaches taken by the faculty to generate new ideas and encourage student input.

Diversity

The Leeds School of Business encourages qualified individuals to apply regardless of gender, race, religion, national origin, age, physical limitation or sexual orientation.

Requirements Full-Time MBA

During the first semester of study, MBA students should meet with a member of the student services team for the MBA program to review degree requirements.

Students entering the MBA program take a prescribed sequence of core classes before beginning elective coursework. A total of 55 credit hours is needed to graduate. Students entering the MBA program are expected to complete the degree in two years. Transferred coursework is not accepted into the MBA program.

MBA students may enroll in up to 6 credit hours of elective graduate coursework from CU Boulder programs other than the Leeds School of Business with explicit approval from the MBA Programs office prior to enrollment. All remaining 18 credit hours of electives must be taken within the MBA program. MBA academic internship credits will decrement the total number of non-Leeds elective credits available. Students may not take courses outside the University of Colorado Boulder and count them toward the degree. Students should contact individual departments for course listings and registration requirements for non-business courses.

All courses applied toward the 55 credit hours must be taken for a grade. Courses in which a C- or below is received are not accepted for credit toward the 55 credit hours and may have to be retaken. In this case, both grades are factored into the GPA. To withdraw from an elective course and receive a grade of W, a student must be earning a passing grade in that course. Students normally are not permitted to withdraw from courses after the sixth week of the semester. Students in the MBA program may not withdraw from specified MBAC lockstep coursework. An "I" is an incomplete grade. Use of the "I" is at the discretion of the course instructor and/or the dean. Students must ask for an incomplete grade. An "I" is given only when students, for reasons beyond their control, have been unable to complete course requirements. A substantial amount of work must have been satisfactorily completed before approval for such a grade is given.

Co-curricular activities are a critical counterpart to the classroom experience and enrich the value of the degree. Case competitions, student leadership positions, clubs, networking opportunities, guest speakers, small-group meetings with business leaders and professional mentoring all add to the immersive nature of the full-time program. Summer internship opportunities allow students to apply those core skills and develop new insights to help focus their choice of elective courses.

MBA Programs for Working Professionals (Evening/ Hybrid)

The 42-credits comprising the MBA for Working Professionals programs (Evening and Hybrid programs) mirror 30 core required classes of the full-time MBA program, plus 12 credits of elective coursework to add greater depth and specificity of knowledge, delivered in a format that accommodates students who are fully employed.

The Evening MBA program maintains a traditional classroom format, with classes convening in-person, twice per week (summer terms may vary). The Hybrid MBA is a combination of enhanced virtual instruction and traditional classroom delivery, meeting roughly one Saturday/month with variation during summer terms.

The Evening MBA Program and Hybrid MBA program each begin in May, with an innovative schedule that allows students to graduate in two years (six semesters). During the second year, students complete MBAC 6052 Capstone Projects. Students in the evening and hybrid programs have access to electives in both programs/formats, including the following options. For additional information about courses by semester, see the Plan(s) of Study tab. Elective coursework varies by term.

MBAX 6451 **Executive MBA**

The Executive MBA (EMBA) program is for experienced leaders and executives with a minimum of eight years professional experience who are looking to enhance their leadership capabilities. This program offers a cohort-based model, fostering both professional and personal networks throughout the duration of the program. Spanning four semesters over two academic years (fall and spring), the EMBA program offers a blend of in-person and enhanced virtual learning. This format provides flexibility, allowing students to balance work, personal commitments, and academic responsibilities. Throughout the program, students engage with teams and faculty, utilizing technology to maintain high levels of interaction and collaboration.

International Business and Strategy

The curriculum is designed to equip students with the skills needed to excel in a complex, global business environment while focusing on leadership, innovation, inclusion, and essential business competencies. During the first year, students focus on fundamental business disciplines including strategy, marketing, finance, and accounting. The second year delves into advanced topics including ethics, negotiation, risk management, and entrepreneurship.

Key program features include:

- · Leadership development: A suite of courses emphasizing executive, strategic, and ethical leadership principles, beginning with a team leadership challenge in year one and a nationally recognized course dedicated to inclusive leadership principles.
- · Experiential learning: A project-based curriculum with real clients allowing students to apply curriculum lessons. Year one culminates

in an innovation project that applies an innovation process integrating finance, strategy and human resources.

Entrepreneurial practices: Leeds EMBA program cultivates an entrepreneurial mindset with a new venture pitch competition and exploring strategies for high growth success from successful entrepreneurs.

In addition to the core curriculum, students have access to a range of academic enrichment opportunities, both in-person and remotely, aimed at supporting ongoing professional development, networking, and lifelong learning. Also included is one year of career coaching to help clearly articulate and realize career goals.

The EMBA program begins every August with a three-day onsite orientation held in Vail, CO. The program includes six mandatory one-week residencies that provide students with the opportunity to collaborate closely with faculty and peers. These intensive residencies, scheduled each academic year in October, January and April, allow students to apply classroom knowledge to real-world business challenges. The first five residencies take place in the United States, and the final residency is held overseas for ten days, offering a global perspective on business issues.

The EMBA curriculum consists of 45 total credits. For detailed course listings, visit the the Plans of Study tab.

Dual Degree Programs Juris Doctor/MBA

The purpose of this dual degree program is to allow students admitted to both the School of Law and the Leeds School of Business to obtain

the juris doctor (JD) and the master of business administration (MBA) degrees in four (or fewer) years of full-time study. The program is designed to train students for careers in which business administration and law overlap.

Admission

To be eligible for the JD/MBA dual degree program of the School of Law and the Leeds School of Business, a student must apply separately to and be admitted by each of the two schools under their respective admission procedures and standards.

Students may elect the dual degree program at the time of initial application to both schools, or they may apply for the dual degree program during their first year of study in the degree program of either school.

Course of Study

A student enrolled in the JD/MBA program may commence studies under the program in either the School of Law or the Leeds School of Business. Dual degree students are strongly encouraged to begin their course of study at the School of Law. However, a student must take the first year of the JD curriculum as a unit exclusively in the School of Law. Likewise, a student must take the first year of the MBA curriculum as a unit exclusively in the Leeds School of Business. Students can then take additional courses necessary to meet the requirements of the degree programs of the two schools.

No student in the dual degree program shall be allowed to take fewer than 9 credit hours or more than 16 credit hours during any term (excluding summer terms) without receiving the consent of the program advisor in each school in which courses are being taken.

Credit for Law Courses in the JD/MBA Program

The Leeds School of Business grants credit toward the MBA degree for up to 12 credit hours of acceptable performance in law courses taken by a JD/MBA student at the School of Law. Core courses required in the law school program cannot be counted toward the 12 credit hours. A student must earn at least a 77 grade in a law school course to be accepted for Leeds School of Business credit. For credit to be granted, the law school courses must be approved before enrollment by an MBA advisor. Only courses taken after admission into the MBA program are credited toward the degree.

Grading in the Dual Degree Program

Leeds School of Business credit for courses completed in the School of Law as part of the joint degree program is recorded on a *pass/fail* basis and is not included in the required MBA 3.00 cumulative average.

MBA/MD

The Leeds School of Business and the University of Colorado School of Medicine offer students the ability to earn both an MBA and a Doctor of Medicine (MD) degree.

With the MD/MBA dual degree, students acquire expertise in business essentials like leadership, finance, accounting, marketing, strategy, innovation and social responsibility. As collaborative leaders, these medical professionals with business fundamentals are positively impacting patient care and healthcare delivery by leveraging their knowledge in powerful new ways. As the medical field rapidly changes and evolves—with new technologies, shifting professional roles, a dynamic public policy landscape, and new healthcare delivery models physicians need leadership skills now more than ever to tackle complex issues and ensure high standards of care.

Admission

To ensure student success—both academically and professionally admission to the program is competitive. Each application undergoes a holistic review, including an evaluation of academic strengths and a high-level assessment of compatibility with the Leeds MBA program. SOM students must apply to become a dual degree student one year prior to beginning the MBA curriculum. All dual degree students must fulfill all requirements for each program, as well as all applicable dual degree requirements.

Course of Study

The 5-year dual degree from CU Leeds School of Business and CU School of Medicine requires 31 credits of MBA core coursework. Dual degree students begin with the MD program. Students must complete two academic years of the MD program prior to starting the MBA experience. MBA requirements will be satisfied with successful completion of core curriculum (summer/fall/spring).

MBA/MFA

The Leeds School of Business, in conjunction with the Department of Art and Art History, offers students the ability to earn an MBA and an MA in fine arts through a three-year dual degree program. Students in the MBA/ MA dual degree program pursue careers in digital marketing, web design, e-commerce, gallery/museum administration and private art consulting.

Admission

Applicants must apply to both programs and must meet the application requirements for each program separately. Students may apply simultaneously to both programs or may apply to the second program after starting the first master's program, provided they do so during the first year of study.

Course of Study

Students in the MBA/MA in fine arts spend the first year of their dual degree program exclusively in either the business school or the fine arts program. In the second year, courses are taken exclusively in the other department. The third year offers students the opportunity to take both MBA and fine arts elective courses.

Credit for Fine Arts Courses in the MBA/MA Fine Arts Program

Dual degree students in studio arts are required to complete 43 credit hours of MBA coursework and 45 credit hours of fine arts coursework. Dual degree students in art history are required to complete 43 credit hours of MBA coursework and 30 credit hours of fine arts coursework.

MBA/MA in Anthropology

The MBA/MA in anthropology dual degree program enables students to earn an MBA and an MA in anthropology simultaneously over three or four years depending on the student's subdiscipline in anthropology. Students in this MBA/MA program pursue careers in managing the business aspects of archaeological projects, working in the growing field of corporate cultural anthropology and ethnography or museum management.

Admission

Applicants must apply to both programs and must meet the application requirements for each program separately. Students may apply simultaneously to both programs or may apply to the second program after starting the first master's program, provided they do so during the first year of study.

Course of Study

Students in the MBA/MA in anthropology spend the first year of their dual degree program exclusively in either the business school or the department of anthropology. In the second year, courses are taken exclusively in the other department. The remaining year(s) offers students the opportunity to take both MBA and anthropology elective courses.

MBA/MA in German Studies

The MBA/MA in German studies dual degree program enables students to earn an MBA and an MA in German studies simultaneously over three or four years. Students in this MBA/MA program pursue careers in international business.

Admission

Applicants must apply to both programs and must meet the application requirements for each program separately. Students may apply simultaneously to both programs or may apply to the second program after starting the first master's program, provided they do so during the first year of study.

Course of Study

Students in the MBA/MA in German studies spend the first year of their dual degree program exclusively in either the Leeds School of Business or the Department of Germanic and Slavic Languages and Literatures. In the second year, courses are taken exclusively in the other department. The remaining year(s) offers students the opportunity to take both MBA and German studies elective courses.

MBA/MA in Theater and Dance

The Leeds School of Business, in conjunction with the Department of Theatre and Dance, offers students the ability to earn an MBA and an MA in theatre or dance through a three-year dual degree program. Students in the MBA/MA dual degree program pursue careers in a wide variety of fields and jobs in the world of the performing arts. Types of organizations include theatre companies, dance companies, opera companies, symphonies, arts councils, performing arts complexes, civic auditoriums and arts presenters.

Admission

Applicants must apply to both programs and must meet the application requirements for each program separately. Students may apply simultaneously to both programs or may apply to the second program after starting the first master's program, provided they do so during the first year of study.

Course of Study

Students in the MBA/MA in theatre and dance spend the first year of their dual degree program exclusively in either the business school or the theatre/dance program. In the second year, courses are taken exclusively in the other department. The third year offers students the opportunity to take both MBA and theatre/dance elective courses.

Credit for Courses

Dual degree students are required to complete 43 credit hours of MBA coursework and 24 credit hours of theatre/dance coursework. A minimum of 67 approved credit hours must be completed to earn both degrees.

MBA/MENV

An MBA degree in combination with the Masters of the Environment (MENV) degree will provide a student with a powerful set of tools and knowledge to expand career options. The MBA offers a valuable business toolkit—including leadership, critical thinking and communication skills. This option allows a student to complete two specialized master's degrees in less time than it would take to earn both separately.

Admission

Students must apply to each program separately and meet the respective application requirements and admissions standards for each program. Students admitted simultaneously to both programs are advised to begin the MBA program first. A person may elect the dual degree program at the time of initial application to both schools; or a student enrolled in the applicable degree program of either school may apply for admission to the other school and elect to be enrolled under the dual degree program.

Course of Study

Dual degree students in their second year will exclusively enroll in the Masters of the Environmental Program. Students will choose a specialization and enroll in all core and required MENV courses. MENV specializations include: Environmental Policy; Public Lands and Natural Resources; Renewable and Sustainable Energy; Sustainable Food Systems; and Urban and Regional Sustainability. Both degrees must be awarded simultaneously. Dual degree students must maintain the academic and ethical standards required of both programs. Students in good standing in one school, but not the other, may be allowed to continue in the school in which they are in good standing. Students who do not complete the dual degree program requirements (i.e., who withdraw for any reason from one of the two programs) will be required to meet the full requirements of the remaining program in which they are enrolled. Dual degree students must complete a Dual Degree Curricular Program (DDCP) form for their program and present to both advisors prior to beginning the degree. This is the initial map of the course sequence to meet the dual requirements and can change over time.

Credit for Courses

The MBA/MENV dual degree program allows for 9 MBA credits to be used for MENV degree requirements, and 12 MENV credits to be used for MBA degree requirements. Dual degree students will be required to complete 43 hours of MBA coursework and 39 hours of MENV coursework, for a total of 82 hours of combined coursework.

MBA/MS in Business Analytics or Supply Chain Management

The purpose of this dual degree program is to allow students admitted to the Leeds School of Business as a dual degree student to obtain the master of business administration (MBA) and master of science in business analytics or supply chain management degrees in two years of full-time study. An MBA degree in combination with the MS degree will provide students with a set of business tools to develop leadership, critical thinking and communications skills as well as a specialization in one of the STEM designated areas of either Business Analytics or Supply Chain Management. The MBA/MS offers students the opportunity to earn both degrees together in less time than if the degrees were earned separately.

Admission

To be eligible for the MBA/STEM dual degree program, a student must apply directly to the Leeds School of Business choosing dual degree status. Applicants must select the MBA/MS-SCMN or the MBA/MS-BUAN dual degree option at the time of application to be evaluated for admission to both programs, simultaneously. Students may not apply to the MBA program, and subsequent to the start of classes, add the dual degree designation. Students must meet the admissions standards for each program separately. The Graduate Management Admissions Test (GMAT) or Graduate Record Examinations (GRE) will be used as the standardized examination for admissions to both the Leeds School of Business MBA and MS Supply Chain Management or Business Analytics programs.

Course of Study

Dual degree students must begin with the MBA program, and will take courses exclusively in the MBA program during the first year. The second year of the dual degree program will consist of the existing MS Supply Chain Management or MS Business Analytics curriculum, in full: 33 credits over three semesters.

Credit for Courses

Students are required to complete 37 credit hours of MBA coursework and 33 credit hours of MS coursework. Certain MBA elective courses are part of the STEM curriculum and must be taken in the second year as an MS student.

MBA/MS in Environmental Studies

The MBA/MS in environmental studies enables students to earn an MBA and an MS in environmental studies over three or four years. Students in the MBA/MA program have career interests that combine corporate business and environmental protection, the management of renewal energy, water conservation or environmental programs.

Admission

Applicants must apply to both programs and must meet the application requirements for each program separately. Students may apply simultaneously to both programs or may apply to the second program after starting the first master's program, provided they do so during the first year of study.

Course of Study

Students in the MBA/MS in environmental studies spend the first year of the dual degree program exclusively in either the business school or the environmental studies department. In the second year, courses are taken exclusively in the other department. The remaining year(s) students may take both MBA and environmental studies electives.
