ENGINEERING ENTREPRENEURSHIP - GRADUATE CERTIFICATE

Whether forming a brand new company, or being part of a larger organization, the Engineering Entrepreneurship Graduate Certificate (http://www.colorado.edu/emp/Engineering-Entrepreneurship-Certificate) will help students learn to launch, lead and manage a viable new business. Courses are taught by faculty with expertise who have successfully launched start-ups. This certificate culminates with the "launch" of a new business for a project of the student's choice, pitched by the student to business leaders and investors.

Requirements

This Engineering Management Graduate Certificate (http://www.colorado.edu/emp/Engineering-Entrepreneurship-Certificate) requires 12 credit hours.
