ENVIRONMENTAL ENGINEERING

Our Environmental Engineering Graduate Program (http://www.colorado.edu/even) focuses on the fundamental and applied understanding of the processes which govern natural and engineered systems. The program includes 22 primary faculty, and covers topics ranging from drinking water, wastewater and water reuse treatment, ecosystem processes, fate and transport of organic contaminants, alternative energy, air quality, sustainability, and environmental engineering for developing communities. The program offers MS, Professional MS, and PhD degrees in Environmental Engineering.

Course code for this program is EVEN.
