Explores contemporary Nordic culture and society with special focus on Iceland. Emphasis is on the relationship between historical, geographic, artistic, and political forces in Iceland and their effects on culture and society. Provides insight into the life and attitudes of contemporary Icelanders and stresses their place in the global culture of today. Taught in English.

**Recommended:** Prerequisite SCAN 2201.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Nordic Studies Courses Taught in English

**SCAN 3202 (3) Old Norse Mythology**

Presents Old Norse mythology as it is represented in medieval Nordic literature. Discusses strategies for analyzing Old Norse mythology as medieval literature that reflects social narratives in Scandinavia in the period 500-1300 AD. Interprets and contextualizes Old Norse mythology in relation to its codification in literature. Students will gain insight into the historical development and the complexity of transmission of Old Norse mythology in medieval literature and its subsequent reception in the global public. Taught in English.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Nordic Studies Courses Taught in English

**SCAN 3203 (3) 19th & 20th Century Nordic Literature**

Examines the Nordic region's influence on social realism, expressionism, and postwar literature, including such themes as women in society, nature and industrialization, and identity and angst. May include works by Ibsen, Strindberg, Dinesen, and Nobel Prize winners Lagerlof, Hamsun, Undset, and Lagerkvist. Taught in English.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Nordic Studies Courses Taught in English

**SCAN 3204 (3) Medieval Icelandic Sagas**

Advanced introduction to medieval Icelandic saga with readings in the family, outlaw, skald, and legendary sagas as well as the main scholarly approaches to this unique literature. Topics include honor, blood feud, fate, sexuality/gender, oral composition, and legend. Taught in English.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Nordic Studies Courses Taught in English

**SCAN 3205 (3) Scandinavian Folk Narrative**

Introduces the rich tradition of Scandinavian oral narrative. Looks at relationships between the various genres of oral narrative and their historical, social, and cultural contexts. Genres studied may include ballad, fairy tale, rural legend, and urban legend. Explores various interpretive methodologies. Taught in English.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Nordic Studies Courses Taught in English

**SCAN 3206 (3) Nordic Colonial History and Legacy**

Examines Nordic colonial enterprise and the relationship between the Scandinavian center and colonial peripheries from the Arctic to the Caribbean, Africa, and India. Studies colonial and postcolonial cultures, and postcolonial criticism and theory. Taught in English.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Nordic Studies Courses Taught in English

**SCAN 3207 (3) Beyond Middle Earth: Tolkien's Nordic Sources II**

Explores beyond The Lord of the Rings and reads Tolkien's sources for material in the Silmarillion as well as his re-imaginings of Nordic literature such as The Legend of Sigurd and Gudrun, The Story of Kullervo, and Old English elegiac and battle poems. Students will apply source criticism to Tolkien's inspirations, to his academic work and works of fiction. Students will gain insight into Tolkien's goals in his re-working of sources, and consider how Tolkien's work re-contextualizes the original texts for his contemporaries and for modern society. Taught in English.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**SCAN 3208 (3) Women in Nordic Society: Modern States of Welfare**

Examines the role and status of women and marginalized social classes in the Nordic countries, whose societies have been heralded as egalitarian models since the twentieth century. Texts include a variety of media, from literature to sociological works to artifacts of political and popular culture. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 3208

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Nordic Studies Courses Taught in English

**SCAN 3209 (3) Contemporary Nordic Literature and Film**

Advanced introduction to contemporary Nordic literature and film. Readings/screenings of recent translated Nordic texts and films, presenting a broad spectrum of contemporary issues, along with current critique and theoretical approaches. Topics: history, culture, translation, gender/sexuality, national identity, minority issues, etc. Taught in English.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Nordic Studies Courses Taught in English

**SCAN 3251 (3) Arctic Thrillers: Environment, Landscape and Literature of the Far North**

Explores 19th- and 20th-century Russian and Nordic literature, film and television with a special emphasis on the role of extremes of geography and climate and physical space on the development of plot and character. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** REES 3251

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**SCAN 3301 (3) Radical Nationalism in Contemporary Northern Europe**

Examines the current rise of National Socialists, white supremacists, ethnic separatists, anti-Islam activists and social and cultural ultraconservatives in northern Europe. Treats extremist nationalism as a social, cultural, aesthetic, intellectual and political movement. Consults scholarship from sociology, criminology and political science, as well as music, literature, art and film. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** IAFS 3630

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Nordic Studies Courses Taught in English

**SCAN 3302 (3) Witchcraft and Magic in Scandinavia**

Investigates witchcraft and magic in Scandinavian cultures from the Viking Age to the Burning Age. The class examines witchcraft and magic in the broad perspective of Scandinavian cultural history, tracing traditions of magic from the earliest sources in runes to film and literature in the modern era. We will investigate the styles of magic and cultural attitudes to it in Iceland, Norway, Denmark, and Sweden.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**SCAN 3303 (3) Norse Paganism: Contemporary Nordic-Germanic Neopagan Movements in America**

This course introduces to the contemporary neopagan movement in North America known as Norse paganism or Ásatrú. It surveys the historical development of the movement, its attachment to Scandinavian pre-history, and the major socio-cultural components of its identity constructions. We will investigate the movement's attitudes and conceptualizations of modern Nordic-based spirituality in light of gender, race, ethnicity, and its ecosocial ethos.

**Recommended:** Prerequisites SCAN 3202 and SCAN 3302.

**SCAN 3506 (3) Scandinavian Drama**

Examines the many contributions of Scandinavian dramatists to world theater from the 18th century to the present. With emphasis on Holberg, Bjornson, Ibsen, Strindberg, and Bjorneboe, surveys Enlightenment comedy, national romanticism, realism, naturalism, symbolism, expressionism, and Brechtian epic theater. Taught in English.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Nordic Studies Courses Taught in English

**SCAN 3631 (3) Arctic Society and Culture**

Investigates representations of the Arctic in literature, art, cinema, media and scientific, and geographical writing over the past century and a half, spanning material from North America, Britain, continental Europe and the Nordic region. Interpretive approaches include ecocriticism; post-colonialism; literary studies; indigenous studies; visual, film and media theory; Cold War studies.

**Equivalent - Duplicate Degree Credit Not Granted:** IAFS 3631

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Nordic Studies Courses Taught in English

**SCAN 3632 (3) Scandinavia and the European Union**

Examining the role that the EU plays in the Nordic region, this course is an introduction to the complex relationship between the Nordic nation states and the European project. We explore how the EU is perceived in the Nordic countries and investigate why the Nordic region is reluctant in its relation to the European Union.

**Equivalent - Duplicate Degree Credit Not Granted:** IAFS 3632

**SCAN 3900 (1-6) Independent Study**

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: Nordic Studies Courses Taught in English

**Swedish****SWED 1010 (4) Beginning Swedish 1**

**Additional Information:** Departmental Category: Swedish

**SWED 1020 (4) Beginning Swedish 2**

Department enforced prerequisite: SWED 1010 (minimum grade C-).

**Equivalent - Duplicate Degree Credit Not Granted:** SWED 1120

**Additional Information:** Departmental Category: Swedish

**SWED 1110 (4) Beginning Swedish 1 - Directed Independent Language Study**

Provides practical, communicative language skills for use in a variety of situations. Examines basic language structure and grammatical forms. Introduces students to Swedish history and contemporary culture and society.

**Additional Information:** Departmental Category: Swedish

**SWED 1120 (4) Beginning Swedish 2 - DILS**

Continuation of SWED 1110 DILS. Provides practical, communicative language skills for use in a variety of situations. Examines basic language structure and grammatical forms. Introduces students to Swedish history and contemporary culture and society. Department enforced prerequisite: SWED 1110 (minimum grade C-).

**Equivalent - Duplicate Degree Credit Not Granted:** SWED 1020

**Additional Information:** Departmental Category: Swedish

**SWED 1900 (1-6) Independent Study**

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: Swedish

**SWED 2010 (4) Intermediate Swedish 1 - DILS**

Continuation of SWED 1120 DILS. Provides practical, communicative language skills for use in a variety of situations. Examines basic language structure and grammatical forms. Introduces students to Swedish history and contemporary culture and society. Department enforced prerequisite: SWED 1120 (minimum grade C-).

**Additional Information:** Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Foreign Language

Departmental Category: Swedish

**SWED 2020 (4) Intermediate Swedish 2 - DILS**

Develops intermediate reading, writing, speaking and verbal comprehension skills. Uses the Directed Independent Language Study (DILS) model that combines in-class exercises and lectures with independent study. Reviews and continues content of SWED 2010.

Directed independent language study course requires work outside of class. Department enforced prerequisite: SWED 2010 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Swedish

**SWED 2110 (4) Second-Year Swedish Reading and Conversation 1**

Provides practical, communicative language skills for use in a variety of situations. Examines basic language structure and grammatical forms. Introduces students to Swedish history and contemporary culture and society. Department enforced prerequisite: SWED 1010 or SWED 1110 (minimum grade C-).

**Additional Information:** GT Pathways: GT-AH4 - Arts Hum: Foreign Languages

Arts Sci Gen Ed: Foreign Language

Departmental Category: Swedish

**SWED 2120 (4) Second-Year Swedish Reading and Conversation 2**

Provides practical, communicative language skills for use in a variety of situations. Examines basic language structure and grammatical forms. Introduces students to Swedish history and contemporary culture and society. Department enforced prerequisite: SWED 1020 or SWED 1120 (minimum grade C-).

**Additional Information:** Departmental Category: Swedish

**SWED 3010 (3) Advanced Swedish 1-DILS**

Continuation of Intermediate Swedish 2. Provides advanced language skills for use in a variety of situations. Examines basic language structure and grammatical forms. Exposes students to historical and modern Swedish culture and society. Directed independent language study course, requires work outside of class. Department enforced prerequisite: SWED 2020 - DILS (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Swedish

**SWED 3020 (3) Advanced Swedish 2 - DILS**

Continuation of Advanced Swedish 1. Provides advanced language skills for use in a variety of situations. Examines basic language structure and grammatical forms. Exposes students to historical and modern Swedish culture and society. Directed independent language study course, requires work outside of class. Department enforced prerequisite: SWED 3010 - DILS (minimum grade C-).

Departmental Category: Swedish

**SWED 3900 (1-6) Independent Study**

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: Swedish

## German Studies - Bachelor of Arts (BA)

The major in German studies is an interdisciplinary program focusing on study of the literary, artistic and philosophical aspects of German culture in the past and the present; the major historical events and developments in Germany and its neighboring countries; and the current political institutions and dynamics in Germany within the broader European framework.

### Requirements

#### Program Requirements

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below.

The major requirement in German studies is 32 hours beyond GRMN 1020 (with grades of C- or above). Students design their own major in consultation with the undergraduate advisor and a faculty mentor. At least 18 hours taken toward the major must be completed at the 3000 or 4000 level.

#### Required Courses and Credits

Code	Title	Credit Hours
<b>German Language Courses</b>		<b>14-17</b>
German language courses above GRMN 1020, to include either GRMN 3020 or GRMN 3030 (or both).		
GRMN 2010 & GRMN 2020	Intermediate German 1 and Intermediate German 2	
or		
GRMN 2030	Intensive Intermediate German	
Upper-division German Language courses:		
GRMN 3010	Advanced German 1	
GRMN 3020	Advanced German 2 <sup>1</sup>	
or GRMN 3030	Business German	
GRMN 4010	Advanced German III <sup>1</sup>	
<b>German Culture, Literature and Other Electives</b>		<b>15-18</b>
Take at least 5 German literature/culture courses. At least 3 courses must be upper division, and at least 3 must be taught in the German language.		
<i>Courses Taught in German</i>		
Select at least three of the following:		
GRMN 3050	German for Science and Engineering	

GRMN 3110	
GRMN 3120	German Literature from the Enlightenment to Expressionism
GRMN 3130	Issues in German Philosophy and Literature
GRMN 3140	Current Issues in German Culture
GRMN 3150	Issues in German Politics, Literature and Media
GRMN 3520	Open Topics in the Cultural Context
GRMN 3900	Independent Study
GRMN 3930	Internship
GRMN 4330	The Age of Goethe
GRMN 4340	Seminar in German Literature
GRMN 4450	Methods of Teaching German
<i>Courses Taught in English</i>	
FYSM 1000	First Year Seminar (Topic "Uncertainty")
GRMN 1601	Germany Today
GRMN 1602	Metropolis and Modernity
GRMN 1701	Nature, Climate and Environment in German Culture
GRMN 2141	Topics in Modern German Culture and Society
GRMN 2301	Inside Nazi Germany: Politics, Culture, and Everyday Life in the Third Reich
GRMN 2302	Nazis on Screen: Hollywood, War, Propaganda
GRMN 2402	Sports and Athleticism in German and Global Culture
GRMN 2501	Miniatures of Modern Life: From Berlin to Vienna and Beyond
GRMN 2502	Representing the Holocaust
GRMN 2503	Fairy Tales of Germany
GRMN 2504	Gothic, Horror, and Fantasy
GRMN 2601	Kafka and the Kafkaesque
GRMN 2603	
GRMN 3141	Topics in Modern German Culture and Society
GRMN 3301	Modern Art and Design at the Bauhaus
GRMN 3401	The German Experience in North America
GRMN 3501	The German-Jewish Experience: From the Enlightenment to the Present
GRMN 3502	Literature in the Age of Goethe
GRMN 3503	German Film Through World War II
GRMN 3504	Topics in German Film
GRMN 3505	The Enlightenment: Tolerance and Emancipation
GRMN 3506	Tracing the Criminal: Crime in 19th C Society and Culture
GRMN 3507	Engineering and the Practice of Literature
GRMN 3508	Masters of Suspicion: Marx, Nietzsche, Freud
GRMN 3513	German Film and Society 1945-1989
GRMN 3514	German Film & Society After 1989

GRMN 3601	German Women Writers
GRMN 3681	Refugees in German Culture
GRMN 3702	Dada and Surrealist Literature
GRMN 3802	Politics and Culture in Berlin 1900-1939
GRMN 4231	The Invention of Sexuality
GRMN 4251	Marxism
GRMN 4301	Gender, Race and Immigration in Germany and Europe
GRMN 4501	Seminar: Literature in Cultural Context
GRMN 4502	Nietzsche: Literature and Values
GRMN 4503	Issues in German Thought
GRMN 4504	Goethe's Faust
JWST 4544	History of Yiddish Culture
<b>Total Credit Hours</b>	<b>32-35</b>

<sup>1</sup> Students have the option of taking the exam Goethe-Zertifikat B1 or B2 in GRMN 3020 and the Goethe-Zertifikat B2 or C1 in GRMN 4010.

<sup>2</sup> With the approval of the German program faculty advisor, one course from another department may be taken in lieu of one of the four courses, provided that the course has a direct link to German studies.

<sup>3</sup> GRMN 4450 and GRMN 4460 can be taken with faculty approval and in most cases only after full admission to the teacher education program in the School of Education.

## Secondary Teacher Certification Program

In addition to other requirements as stated by CU Boulder's School of Education, the following courses are required for students in the secondary teacher certification program:

- GRMN 4450 Methods of Teaching German (3)
- GRMN 4460 High School German Teaching (6)

## Study Abroad

The department recommends that all majors take part in study abroad. Students may study through the university program in Regensburg for a full academic year or for the spring semester. The Berlin program offers options for the full academic year, fall semester, spring semester and summer terms. The Berlin program also offers an internship opportunity. Students should consult with their major advisor (<https://www.colorado.edu/alc/christine-luft/>) and visit the Education Abroad (<http://abroad.colorado.edu/>) website for program-specific information. Scholarships are available to help cover the costs of study abroad.

## Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in German studies, students should meet the following requirements:

- Begin to study the language in the freshman year, or have received AP credit.
- In consultation with the major advisor before the end of the drop/add period in the first semester, plan a tentative schedule of courses to be taken over eight semesters.
- Discuss progress toward the degree each semester with the major advisor.

*Note:* Although these requirements apply only in cases in which students are seeking to graduate under the terms of the four-year guarantee, they are good advice for all majors. Consult the major advisor about the major at any time.

## Recommended Four-Year Plan of Study

Through the required coursework for the major, students will complete all 12 credit hours of the Arts & Humanities area of the Gen Ed Distribution Requirement.

Year One	Credit Hours
GRMN 1010 and GRMN 1020 (8 credit hours) or GRMN 1030 (5 credit hours) which does not count toward the major <sup>1</sup>	8
One lower-division GRMN literature or culture course	3
Gen. Ed. Skills course (example: QRMS)	3
Gen. Ed. Distribution/Diversity course (example: Social Sciences/US Perspective)	3
Gen. Ed. Skills course (example: Lower-division Written Communication)	3
Gen. Ed. Distribution course (example: Natural Sciences with Lab)	4
Elective	3
Elective	3
<b>Credit Hours</b>	<b>30</b>

Year Two	Credit Hours
GRMN 2010 Intermediate German 1 <sup>1,2</sup> & GRMN 2020 or Intensive Intermediate German or GRMN 2030	8
One GRMN literature or culture course	3
Gen. Ed. Distribution/Diversity course (example: Social Sciences/Global Perspective)	3
Gen. Ed. Distribution course (example: Natural Sciences)	3
Upper-division Elective	3
Elective	3
Elective	3
Elective	3
Elective	3
<b>Credit Hours</b>	<b>32</b>

Year Three	Credit Hours
Study Abroad recommended	
GRMN 3010 Advanced German 1 & GRMN 3020 or Business German or GRMN 3030	6
Upper-division GRMN literature or culture course taught in German or English	3
Gen. Ed. Distribution course (example: Natural Sciences)	3
Gen. Ed. Skills course (example: Upper-division Written Communication)	3
Gen. Ed. Distribution course (example: Social Sciences)	3
Upper-division Elective	3
Upper-division Elective	3
Upper-division Elective	3
Elective	3
<b>Credit Hours</b>	<b>30</b>

**Year Four**

GRMN 4010	Advanced German III	3
Two Upper-Division GRMN literature or culture courses taught in German		6
One Upper-Division GRMN culture course taught in English		3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Gen. Ed. Distribution course (example: Social Sciences)		3
Upper-division Elective		3
Upper-division Elective		3
Upper-division Elective		3
Upper-division Elective		3
<b>Credit Hours</b>		<b>30</b>
<b>Total Credit Hours</b>		<b>122</b>

<sup>1</sup> Students who take intensive language courses (GRMN 1030 or GRMN 2030) may fulfill their additional language credits with GRMN 3030 or GRMN 4010.

<sup>2</sup> Or placement credit. Students who place out of beginning and intermediate language requirements should see the major requirements for further flexible options.

## Learning Outcomes

The following objectives are central to the undergraduate degree in German studies:

- To understand, articulate, and critically reflect on key concepts of media, history, and cultures of German-speaking societies.
- To expand historical understanding and cultivate intercultural competency.
- To engage critically and comparatively with diverse perspectives and positionalities within German-speaking societies.
- To conduct research and engage in critical analysis of the area of study.
- To develop German language skills, written and spoken, to enable communication, self-expression, and creativity in a variety of situations and contexts.

## Bachelor's–Accelerated Master's Degree Program(s)

The bachelor's–accelerated master's (BAM) degree program options offer currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first but begin taking graduate coursework as undergraduates (typically in their senior year).

Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree. In addition, staying at CU Boulder to pursue a bachelor's–accelerated master's program enables students to continue working with their established faculty mentors.

### BA and MA in German

The BAM degree program in German studies recognizes the need for master's-level training upon entering the job market in a variety of sectors that call for highly advanced proficiency in the German language,

knowledge of the German-speaking central Europe and its cultures, and the skills afforded to BA and MA graduates in the humanities (research, analysis, interpretation, translation and communication).

The degree gives highly motivated BA students the opportunity to earn an MA degree using an accelerated undergraduate program in combination with a fifth year of study.

For more information, visit the department's concurrent BAM degree in German studies webpage (<http://www.colorado.edu/gsl/german/undergraduate/concurrent-bama-degree-german-studies/>).

### Admissions Requirements

In order to gain admission to the BAM program named above, students must have an overall GPA of 3.25 or higher, and should have completed most of their MAPS/Gen Ed requirements by the end of their sophomore year. No GRE is required. It is recommended that applications be turned in by the spring semester of the sophomore year.

Students should apply for the German BAM online. Before filling out the online application, complete the German BAM application (<https://www.colorado.edu/gsl/german-bam-application/>). The German BAM application should be uploaded to the online application, along with an unofficial CU transcript. Students should apply using the BAM intent application. ([https://portal.prod.cu.edu/psc/epprod/UCB2/ENTP/s/WEBLIB\\_CU\\_EFORM.ISCRIPT1.FieldFormula.IScript\\_Populate\\_eForm/?form=UCB\\_STUDENT\\_BAM](https://portal.prod.cu.edu/psc/epprod/UCB2/ENTP/s/WEBLIB_CU_EFORM.ISCRIPT1.FieldFormula.IScript_Populate_eForm/?form=UCB_STUDENT_BAM))

### Program Requirements

Students may take up to and including 12 hours while in the undergraduate program which can later be used toward the master's degree. However, only 6 credits may be double counted toward the bachelor's degree and the master's degree. Students must apply to graduate with the bachelor's degree, and apply to continue with the master's degree, early in the semester in which the undergraduate requirements will be completed.

If you are interested in the BAM degree program, please contact the German MA program (<https://www.colorado.edu/gsl/german/graduate/>) for more information.

## Russian, East European and Eurasian Studies - Bachelor of Arts (BA)

The major in Russian, East European and Eurasian Studies (REEES) is an interdisciplinary program focusing on study of the current cultural and social context, and the literary, artistic and historical aspects of Russian, East European and Eurasian cultures in the past and present. The aim of the language curriculum is to equip students to read, write, speak and understand Russian on a level allowing communication with fluent Russian speakers. Before registering for a language course other than RUSS 1010, students should consult with the undergraduate faculty advisor (<https://www.colorado.edu/gsl/russian/programs-degrees/russian-advising/>) concerning appropriate placement.

Students interested in Russian, East European and Eurasian Studies may consider a double major in order to increase their career opportunities. Prospective teachers might combine REEES with a major in another foreign language, while those preparing for a career in government, business or social services may benefit from a combination of REEES and a social science or business major. Students structure their curriculum

according to the departmental checklist for majors, in close consultation with a departmental advisor.

## Study Abroad

The department strongly recommends that all Russian, East European and Eurasian Studies majors take part in an intensive language program, summer or semester long, in Russian-speaking countries or in the U.S. For more information on CU Study Abroad programs, visit the Education Abroad (<http://abroad.colorado.edu/>) website.

## Courses Taught in English

Many of our content courses are offered in translation. These courses generally require no previous study in the language, history or culture of the area involved, and are open to all interested students, regardless of major.

## Requirements

### General Requirements

Students must complete at least 30 credit hours in Russian, East European and Eurasian Studies (REEES), at least 18 of which must be completed at the 3000 or 4000 level, with grades of C- or better (none may be taken as pass/fail).

- RUSS 1010 and RUSS 1020 do not count toward the 30 credit hours required for the REEES major.
- Students may not receive credit for both RUSS 3060 and RUSS 4010 or RUSS 4020 and RUSS 4060. Choose either the RUSS 3060/RUSS 4060 sequence or the RUSS 4010/RUSS 4020 sequence.
- Beginning or middle-level language course requirements may be met by transfer credit or by testing out of the course. Students who enter the program at the third-year level must complete at least 18 credit hours in residence in courses numbered 3000 or above with grades of C- or better (none may be taken pass/fail).
- Students who enter at and enroll in Russian language courses at the 3000- or 4000-level may not receive credit for lower-division Russian language courses, unless lower-division language coursework was completed prior to registration for 3000- and 4000-level Russian language courses.
- No course can be used for more than one category.

Students are required to structure their curriculum for the major in close consultation with the departmental advisor. (<https://www.colorado.edu/artssciences-advising/christine-luft/>) Students with advanced Russian language skills are strongly encouraged to meet with the undergraduate faculty advisor (<https://www.colorado.edu/gsl/russian/programs-degrees/russian-advising/>) to discuss language placement. Students who have Russian language transfer credit and/or students who are Russian language native or heritage speakers may enter the program at the upper-division level, up to RUSS 4010, with faculty permission.

In the case of advanced language placement, students will be required to meet with the REEES faculty advisor for Russian course substitutions and recommendations. Students who place out of Russian language courses required for the major must replace the credits with additional coursework in Russian, East European and Eurasian Studies. Any substitutions to major coursework must be pre-approved by the REEES faculty advisor.

Note: Study abroad is recommended after the second year of language study.

## Program Tracks

### Track A: Russian Language

Code	Title	Credit Hours
<b>Required Russian Language Courses</b>		
<i>All of the following:</i>		
RUSS 2010	Second-Year Russian 1	4

#### Optional Russian Language and Culture Courses

RUSS 4050	Professional Russian
REES 4220	
RUSS 4230	Russian Cultural Idioms
RUSS 4850	Russian Film and Society

**Total Credit Hours** **32**

- <sup>1</sup> Students may not receive credit for both RUSS 3060 and RUSS 4010 or RUSS 4020 and RUSS 4060. Choose either the RUSS 3060/RUSS 4060 sequence or the RUSS 4010/RUSS 4020 sequence.
- <sup>2</sup> Course counts for appropriate category depending on topic (Undergraduate Faculty Advisor determines category).
- <sup>3</sup> Course can only count for one category (student can choose).

## Graduating in Four Years

Consult the Four-Year Guarantee Requirements (<https://www.colorado.edu/advising/programs-requirements/germanic-slavic-languages-literatures/>) for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major.

Recommended four-year plans of study appear on the Plans of Study tab. To maintain adequate progress in Germanic or Russian, East European and Eurasian studies, students should meet the following requirements:

- Begin to study the language in the freshman year, or have received AP credit.
- In consultation with the major program advisor before the end of the drop/add period in the first semester, plan a tentative schedule of courses to be taken over eight semesters.
- Discuss progress toward the degree each semester with the major advisor.

*Note:* Although these requirements apply only in cases in which students are seeking to graduate under the terms of the four-year guarantee, they are good advice for all majors. Consult the program advisor about the major at any time.

## Recommended Four-Year Plans of Study

Through the required coursework for all tracks of the major, students can complete all 12 credit hours of the Arts & Humanities area of the Gen Ed Distribution Requirement. Depending on the courses selected from options, students can potentially complete some credit hours in the Social Sciences area of the Gen Ed Distribution Requirement and the Global Perspective component of the Gen Ed Diversity Requirement.

**Track A: Russian Language**

**Credit Hours 30****Total Credit Hours 120****Learning Outcomes**

The following objectives are central to the undergraduate degree in Russian, East European and Eurasian studies:

- To understand, articulate and critically reflect on key concepts, events and movements as they relate to the study of Russian, East European and Eurasian literature, history and culture.
- To cultivate historical understanding and intercultural competency.
- To recognize, describe, and engage critically and comparatively with diverse perspectives and positionalities within Russophone societies.
- To conduct research and engage in critical analysis of the area of study.
- To develop proficiency in Russian language skills, written or spoken, to enable culturally appropriate communication, self-expression and creativity.

**Bachelor's–Accelerated Master's Degree Program(s)**

The bachelor's–accelerated master's (BAM) degree program options offer currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first but begin taking graduate coursework as undergraduates (typically in their senior year).

Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree. In addition, staying at CU Boulder to pursue a bachelor's–accelerated master's program enables students to continue working with their established faculty mentors.

## BA and MA in Russian Studies

Highly motivated undergraduates majoring in Russian studies at CU Boulder have the opportunity to enter a BAM program, thereby earning both the BA and the MA in five years. The accelerated degree program offers a unique academic credential designed to produce skilled graduates for a variety of occupations.

### Admissions Requirements

In order to gain admission to the BAM program named above, a student must meet the following criteria:

- Have a cumulative GPA of 3.0 or higher and a minimum GPA of 3.25 for all Russian Studies courses.
- Have completed a minimum of 75 credit hours of coursework.
- If a transfer student, have completed a minimum of 24 credit hours at CU Boulder.

It is recommended that applications be submitted the spring semester of the third year of study, but late applications will also be considered. Two letters of recommendation indicating strong potential for advanced, intensive work in Russian also required. Students should have completed most of their MAPS/Gen Ed requirements by the end of the sophomore year. Only CU Boulder students may apply.

### Program Requirements

Students may take up to and including 12 hours while in the undergraduate program, which can later be used toward the master's degree. However, only 6 credits may be double counted toward the bachelor's degree and the master's degree. Students must apply to graduate with the bachelor's degree, and apply to continue with the master's degree, early in the semester in which the undergraduate requirements will be completed.

BAM students are expected to take graduate courses in the fourth and fifth years only.

If you are interested in the BAM degree program, please contact the Russian MA program (<https://www.colorado.edu/gssl/graduate/>). For more information, visit the BA/MA degree in Russian studies webpage (<https://www.colorado.edu/gssl/russian/undergraduate/concurrent-bama-degree-russian-studies/>).

## German Studies - Minor

The minor in German studies is an interdisciplinary program focusing on study of German culture, including contemporary German society, current political institutions and dynamics in Germany within the broader European framework, and the history of German literature, art, politics and philosophy.

Declaration of a minor in German studies is open to any student enrolled at CU Boulder, regardless of college or school.

## Requirements

Students must complete 20 credit hours as directed below, with grades of C- or above. The GPA for all coursework taken in the minor department must be equal to 2.00 (C) or higher. Students may not apply more than 9 hours of transfer credit (including 6 upper-division credits) toward the minor. Transfer courses must be approved by the department.

## Required Courses and Credits

Code	Title	Credit Hours
<b>Required Courses</b>

GRMN 4231	The Invention of Sexuality
GRMN 4251	Marxism
GRMN 4301	Gender, Race and Immigration in Germany and Europe
GRMN 4501	Seminar: Literature in Cultural Context
GRMN 4502	Nietzsche: Literature and Values
GRMN 4503	Issues in German Thought
GRMN 4504	Goethe's Faust
<b>Total Credit Hours</b>	<b>20</b>

<sup>1</sup> Students who take GRMN 2030 cannot also receive credit for GRMN 2010 and GRMN 2020, and must take one additional 3-credit GRMN course toward the minor, such that the total number of credits for the minor equals 20.

<sup>2</sup> Students have the option of taking the exam *Goethe-Zertifikat B1* in GRMN 3020.

## Nordic Studies - Minor

Courses are offered in English on Nordic culture and civilization. Courses are also offered in Swedish language and may be offered in Danish. In addition, there is an exchange program with Uppsala University in Sweden and with the University of Copenhagen in Denmark (DIS).

The language courses satisfy College of Arts and Sciences language requirements for the BA and BFA degrees.

## Requirements

Declaration of a minor is open to any student enrolled at CU Boulder, regardless of college or school.

A minor in Nordic Studies requires the completion of 18 credit hours. A minimum of 9 credit hours must be taken in upper division courses. All courses used to fulfill requirements for the minor must receive a grade of C- or better and the GPA for all coursework taken in the minor department must be equal to 2.000 (C) or higher; no courses may be taken pass/fail.

## Russian, East European and Eurasian Studies - Minor

The Russian, East European and Eurasian Studies (REEES) minor introduces students to the culture, history and politics of Russian, East European and Eurasian countries. Students fulfilling requirements for the REEES minor must complete or test out of Russian language courses through RUSS 2020 and take a number of courses on cultural topics.

### Requirements

Declaration of a minor in Russian, East European and Eurasian Studies (REEES) is open to any student enrolled at CU Boulder, regardless of college or school.

A REEES minor requires the completion of 20 credit hours, 9 of which must be upper-division credit hours. All courses used to fulfill requirements for the minor must receive a grade of C- or better. The GPA for all coursework taken in the minor department must be equal to 2.00 (C) or higher. No courses applied to the minor may be taken pass/fail. Students may not apply more than 9 hours of transfer credit (including 6 upper-division credit hours) toward the minor. Transfer courses must be approved by the department.

### Required Courses and Credit Hours

Code	Title	Credit Hours
RUSS 2010	Second-Year Russian 1 <sup>1</sup>	4
RUSS 2020	Second-Year Russian 2 <sup>1</sup>	4

**Culture Courses in English and Optional Russian Courses** **12**

Choose 12 hours from the following (include at least 3 hours from culture courses on the 19th century and earlier):

*Culture Courses in English (19th Century and Earlier):*

REES 2121	Topics in Russian, East European and Eurasian Culture <sup>2</sup>
REES 2211	Russian Culture and Art Under Tsars Great and Terrible
REES 2231	Fairy Tales of Russia
REES 2241	Death and the Undead in Slavic and Nordic Cultures
REES 2261	Madness and Gambling: Russian Short Stories of Life on the Edge <sup>3</sup>

REES 2471	Women in Russian Culture: From Folklore to the Nineteenth Century
REES 3121	Topics in Russian, East European and Eurasian Culture <sup>2</sup>
REES 3251	Arctic Thrillers: Environment, Landscape and Literature of the Far North
REES 3601	Russian Culture Past and Present <sup>3</sup>
REES 3705	Crimes of Passion: Gender and Sexual Politics in Tolstoy's Russia
REES 4210	Topics in Russian, East European and Eurasian Culture <sup>2</sup>
REES 4251	Russian and Soviet Queer Culture <sup>3</sup>
REES 4301	American-Russian Cultural Relations <sup>3</sup>
REES 4431	Dostoevsky
REES 4441	Tolstoy
REES 4451	Chekhov
REES 4481	Rogues to Revolutionaries: Russian Rebels, Past and Present
REES 4811	Seeds of Revolt: 19th-Century Russian Literature
REES 4861	Absurd and Supernatural in Russian Literature <sup>3</sup>

*Culture Courses in English (20th and 21st Centuries):*

REES 1112	Astronauts and Astropolitics: Space Exploration from the Cold War to the Future of Innovation
REES 2121	Topics in Russian, East European and Eurasian Culture <sup>2</sup>
REES 2221	Introduction to Modern Russian and Soviet Culture
REES 2222	Sports and the Cold War
REES 2261	Madness and Gambling: Russian Short Stories of Life on the Edge <sup>3</sup>
REES 2271	Space, Invention, and Wonder in Fairy Tales, Literature and Film
REES 2311	Energy Cultures: Oil, Coal, and Atoms in Modern Literature and Film
REES 2501	Russia Beyond the Headlines: Media, Politics, Culture, and Environment
REES 3221	Space Race in Russian and American Culture
REES 3231	Laughter in Slavic Cultures
REES 3241	Red Star Trek: Russian Science Fiction Between Utopia and Dystopia
REES 3301	Russia, Eastern Europe and Eurasia Today through Film and TV
REES 3333	Spies Like Us: Espionage in the Culture of the Cold War and Beyond
REES 3701	Slavic Folk Culture: Ideals and Values in the Contemporary World
REES 4120	Russia after Communism: Post-Soviet Politics and Culture
REES 4210	Topics in Russian, East European and Eurasian Culture <sup>2</sup>
REES 4211	History of Russian and Soviet Cinema
REES 4221	Stalinism: Culture and Society

REES 4251	Russian and Soviet Queer Culture <sup>3</sup>
REES 4301	American-Russian Cultural Relations <sup>3</sup>
REES 4321	Mythological Russia and Ukraine
REES 4471	Women in 20th-21st Century Russian, East European and Eurasian Cultures
REES 4481	Rogues to Revolutionaries: Russian Rebels, Past and Present <sup>3</sup>
REES 4821	20th-Century Russian Literature and Art
REES 4831	Contemporary Russian Literature
REES 4851	Critical Thinking: Russian Film and Society
REES 4861	Absurd and Supernatural in Russian Literature <sup>3</sup>

**Total Credit Hours** **20**

- <sup>1</sup> Heritage speakers should take RUSS 3060 and RUSS 4060 as well as any other 4000-level Russian language course in lieu of RUSS 2010 and RUSS 2020. In this case, 18 credit hours will be sufficient for the minor if other requirements are fulfilled.
- <sup>2</sup> Course counts for appropriate category depending on topic (Undergraduate Faculty Advisor determines category).
- <sup>3</sup> Course can only count for one category (student can choose).

## History

Historians study the past, in all of its complexity, to better understand our contemporary world and the forces that created it. Historians analyze change over time, and they use archival and other primary-source evidence to build interpretations that explain change and put it into context. In seeking to understand historical subjects on their own terms, and by appreciating the diverse perspectives of past actors, students of history develop empathy even as they rigorously engage with the ethical dimensions of past human decisions and actions. When students study the past on its own terms, they recognize their power to understand the present and shape the future.

History faculty conduct research and teach courses in a wide range of eras—from ancient to modern times—and across most major world areas including Africa and the Middle East, South and East Asia, Europe and the Americas. History faculty also pursue multiple methodologies and approaches, including cultural, diplomatic, demographic, economic, environmental, ethnic, gender, intellectual, legal, political, religious, social and transnational history.

Many students choose history as a major or minor because of their fascination with the rich imaginative terrain of the past, but the study of history is also practical. In the complex and contentious world in which we live, history provides the tools for thoughtful public citizenship. Historians are essential experts in helping us to navigate contemporary controversies, and the study of history cultivates the interpersonal skills and cultural awareness essential to heightening civic discourse and engagement. As importantly, students of history gain valuable skills that prepare them for careers in many fields. In this knowledge economy, employers increasingly want employees who can write and speak clearly and persuasively, who can read deeply and critically, who can think independently and ethically, who can do complex research and make cogent evidence-based arguments, who can locate relevant sources and discern good information from bad, who understand how and why change occurs, who are culturally literate and understand the complex world in which we live, and who can manage the diversity of the modern

workplace in all of its forms. These are skills you will gain through the study of history and they are highly valued by today's employers.

We welcome students who wish to develop the knowledge, skills and habits of mind essential to the discipline of history. Studying history will hone your abilities in reasoning, research, analysis and expression, and it will prepare you to participate in, and adapt to, an increasingly complex and interconnected world of continual change over time.

## Courses

### HIST 1011 (3) Greeks, Romans, Kings & Crusaders: European History to 1600

Examines the history and formation of Europe from its roots in the ancient Near East to Greece to the creation of Medieval states and kingdoms. Topics may include the rise of Christianity, Barbarian migrations, religious persecution, the role of gender and minority status, the growth of trade and European encounters, the Black Death, the European Renaissance the Protestant Reformation.

**Additional Information:** GT Pathways: GT-H11 - History  
Arts Sci Core Curr: Historical Context  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Ancient and Medieval  
MAPS Course: Social Science  
MAPS Course: Social Sci World Context

### HIST 1012 (3) Empire, Revolution and Global War: European History Since 1600

Examines the history of modern Europe from 1600. Topics may include religious conflict, absolutism, the Scientific Revolution, the global impact of European colonialism and imperialism, the Enlightenment, the French and Industrial Revolutions, and the emergence of romanticism, nationalism, liberalism, socialism and modernism. Concludes by analyzing World War I and II, communist and fascist totalitarianisms, decolonization and the Cold War. Formerly HIST 1020

**Additional Information:** GT Pathways: GT-H11 - History  
Arts Sci Core Curr: Historical Context  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Modern  
MAPS Course: Social Science  
MAPS Course: Social Sci World Context

### HIST 1015 (3) American History to 1865

Examines American history from pre-Columbian times to the Civil War, including ancient cultures, exploration, colonization, Native American responses, the rise of race slavery, the American Revolution, political developments, Anglo-American expansion, slave life and culture, the market revolution, industrialization, reform and disunion. Introduces students to history as a dynamic discipline that shapes our understanding of the past and present. S. history.

**Additional Information:** GT Pathways: GT-H11 - History  
Arts Sci Core Curr: United States Context  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Chronological Periods  
MAPS Course: Social Science  
MAPS Course: Social Science US Context

### HIST 1018 (3) Introduction to Early Latin American History to 1810

Introduces students to the history of what is now called Latin America from about 1450 to the wars of independence in the nineteenth century. Examines pertinent aspects of the societies and cultures of indigenous people, the history of European conquest, and the most salient features of the Spanish and Portuguese colonial empires in America.

**Additional Information:** Arts Sci Core Curr: Historical Context  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Specific Regions

**HIST 1025 (3) American History since 1865**

Explores political, social and cultural changes in American life since Reconstruction. Focuses on shifting social and political relations as the U.S. changed from a nation of farmers and small-town dwellers to an urban, industrial society; the changing meaning of American identity in a society divided by ethnicity, race and class; and the emergence of the U.S. as a world power.

**Additional Information:** GT Pathways: GT-HI1 - History  
Arts Sci Core Curr: United States Context  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Chronological Periods  
MAPS Course: Social Science  
MAPS Course: Social Science US Context

**HIST 1028 (3) Introduction to Modern Latin American History since 1800**

Introduces students to the history of Latin America from independence to the present. Investigates the social implications of various models of economic development, the opportunities and difficulties resulting from economic ties with wealthier countries, the consequences of ethnic, gender and class divisions, and the struggles of Latin Americans to construct equitable political systems.

**HIST 1800 (3) Introduction to Global History**

The first cornerstone course for history majors applies a broad perspective to the global past in order to illuminate how common historical patterns and processes, as well as unique elements, shaped the human experience. Using a thematic approach, all topical variations of this course highlight cross-cultural interactions among societies, and, when relevant, how historical processes that began centuries ago still impact the contemporary world. Topics will vary by section. Department enforced prerequisite: 3 hours of any history coursework.

**Requisites:** Restricted to students with 27-180 credits (Sophomore, Junior, or Senior) History (HIST) majors and minors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Methodological, Comparative, and Global

Departmental Category: Asia Content

**HIST 1818 (3) Jewish History to 1492**

Focus on Jewish history from the Biblical period to the Spanish Expulsion in 1492. Study the origins of a group of people who call themselves, and whom others call, Jews. Focus on place, movement, power/powerlessness, gender, and the question of how to define Jews over time and place. Introduces Jews as a group of people bound together by a particular set of laws; looks at their dispersion and diversity; explores Jews' interactions with surrounding cultures and societies; introduces the basic library of Jews; sees how Jews relate to political power.

**HIST 2476 (3) United States Legal History**

Surveys U.S. legal history from the founding era to today. It covers legal ideas that shaped the drafting of the Constitution and examines the pressures that tested that founding document through the present. It addresses legal debates in contexts of territorial expansion, industrial development, financial crisis, shifting demographics, and both civil and world war. It considers how slavery, civil rights, race, regulation, economic expansion, privacy, and equality contributed to various understandings of citizenship.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HIST 2500 (3) Fact and Fiction in History**

Examines history and historical sources through the alternating lenses of *fact* and *fiction* in order to think not only about what happened, but how we acquire information and knowledge, and how we use sources and evidence to construct our own understandings of the past and to write history. Considers how narratives found in novels, myths, movies, television, music, visual material, monuments, or public memories, represent the past and relate to historical accounts.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Asia Content

**HIST 2516 (3) America Through Baseball**

Baseball could not have existed without America. Explains how the game fit into the larger context of social, cultural, economic and political history from the 19th century to the present. Studies the events and people who made baseball the national pastime.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 4556

**Additional Information:** Arts Sci Core Curr: United States Context  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Topical Courses 1  
Departmental Category: Asia Content

**HIST 2566 (3) Made in America: Work and Workers in American History**

Puts the working lives of Americans, and the meaning of work in American life, in historical perspective. What "counts" as work and how has that changed over time? How do people's expectations of their working lives today compare to how people thought about work trajectories in the past? Whose work has been valued and whose has not? The course focuses mainly on the nineteenth and twentieth centuries while drawing parallels to the present.

**HIST 2616 (3) History of Gender in America**

Introduces the social and cultural construction of femininity and masculinity in America from 1500 to the present. Explores gender as a status acquired and performed through tasks, clothing, adornment and bodily movement. Examines gender ideals, expression and practices such as gender crossing, gender bending and gender plan.

**HIST 2629 (3) China in World History**

Examines the multiple connections between Chinese history and other parts of the world over the course of China's long history. Specific course focus may vary by instructor/term.

**Additional Information:** Arts Sci Core Curr: Historical Context  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Comparable and General  
Departmental Category: Asia Content

**HIST 2718 (3) History of Japan Through Cinema**

Japan's incredibly rich cinematic tradition, from early 20th-century dramatic masterpieces to 21st-century anime, reveals much about its culture and history. We will use Japanese films to study key issues in the history of Japan, roughly between the years 1500-2000, including the changing role of the samurai, women and the "floating world" of pleasure, modernization, the devastation of war, economic recovery, the downside of prosperity, and nostalgia for the past.

**HIST 2728 (3) Japan: From Samurai to Kamikaze**

Death-defying warriors prepared to cut their bellies and die over the slightest insult to their honor. Conscripted soldiers who charged uphill directly into the line of fire while shouting their loyalty to the emperor. Pilots who took off knowing they wouldn't return, blowing up military targets and themselves. This course peeks beneath stereotypes in the military history of Japan from the first evidence of armed conflict through World War II and beyond.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Asia Content

**HIST 2830 (3) Disease and Public Health in Global History**

Examines the global history of health and disease from the Paleolithic to the present. Themes and topics vary by semester but may include the co-evolution of humans, microbes, and vectors; food, famine, and nutrition; mental health; contagions such as plague, smallpox, cholera, yellow fever, influenza, HIV, and coronaviruses; cultural, social, medical, and institutional developments; gender, race, and sexuality; and connections between public health and environment, climate, water supply, colonization, globalization, imperialism, migration, and transportation.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HIST 3012 (3) Seminar in Modern European History**

Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on modern European history, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a substantial and original paper based on primary sources.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).

**Recommended:** History GPA of 2.0 or higher.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Modern

**HIST 3018 (3) Seminar in Latin American History**

Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on Latin American history, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a substantial and original paper based on primary sources.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).

**Recommended:** History GPA of 2.0 or higher.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Specific Regions

**HIST 3020 (3) Historical Thinking & Writing**

The second cornerstone course for history majors centers on the essential skills all historians use. Students will advance their reading, sourcing, and research techniques, hone critical, analytical, and synthetic skills, navigate scholarly discourse, and practice historical writing. As this simultaneously satisfies the College's upper-division writing requirement, all sections involve substantial, regular, and varied writing assignments as well as instruction in methods and the revision process. All topical variations of this course are limited to a maximum of 18 students in order to focus on supporting students as they learn to write - and think - like an historian. Topics will vary by section. Recommended for sophomores or juniors, HIST 3020 may be taken concurrently with, but not prior to, HIST 1800.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prereq courses of ARSC 1080 or 1150 or CLAS 1020 or ENGL 1001 or PHIL 1500 or WRTG 1100 or 1150 or 1250 and prereq/coreq of HIST 1800 or HIST 1830 (all min grade C-). Restrctd to students with 27-180 credits (Soph, Jr, or Sr) HIST majors only.

**Additional Information:** Arts Sci Core Curr: Written Communication  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Written Communication-Upper  
Departmental Category: Methodological, Comparative, and Global

**HIST 3109 (3) Seminar in Asian History**

Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on Asian history, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a substantial and original paper based on primary sources. Previously offered as a special topics course.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).

**Recommended:** History GPA of 2.0 or higher.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Comparable and General  
Departmental Category: Asia Content

**HIST 3110 (3) Honors Seminar**

Practical historiography for students who wish to write a senior honors thesis. Emphasizes choice of topic, critical methods, research, organization, argumentation, and writing.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).

**Recommended:** History GPA of 3.5 or higher.

**Additional Information:** Arts Sciences Honors Course  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Methodological, Comparative, and Global

**HIST 3112 (3) Seminar in Renaissance and Reformation**

Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on the history of the Renaissance and Reformation, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a substantial and original paper based on primary sources.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).

**Recommended:** History GPA of 2.0 or higher.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Modern

**HIST 3113 (3) Seminar in Medieval and Early Modern English History**

The third, and final, cornerstone course for history majors is a capstone seminar. Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous classes towards producing historical knowledge about a particular area of interest. This seminar focuses on medieval and early modern English history, and will include readings and discussions in a small seminar setting. These and other class activities and assignments will support the central goal: for each student to develop an individual research project on a topic of their own choosing in relation to medieval and early modern English history. Students will then write a substantial and original research paper based on primary sources. Completion of HIST 3020 is required for history majors to enroll in a senior seminar.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).

**Recommended:** History GPA of 2.0 or higher.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Specific Countries

**HIST 3115 (3) Seminar in Early American History**

The third, and final, cornerstone course for history majors is a capstone seminar. Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous classes towards producing historical knowledge about a particular area of interest. This seminar focuses on early American history, and will include readings and discussions in a small seminar setting. These and other class activities and assignments will support the central goal: for each student to develop an individual research project on a topic of their own choosing in relation to early American history. Students will then write a substantial and original research paper based on primary sources. Completion of HIST 3020 is required for history majors to enroll in a senior seminar.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).

**Recommended:** History GPA of 2.0 or higher.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Chronological Periods

**HIST 3116 (3) Seminar in American Diplomatic History**

Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on American diplomatic history, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a substantial and original paper based on primary sources.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).

**Recommended:** History GPA of 2.0 or higher.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: United States: Topical Courses 1

**HIST 3120 (3) Honors Thesis**

Intended for students writing an Honors Thesis in History. Department enforced prerequisite: HIST 3110 and instructor consent.

**Requisites:** Requires prerequisite course HIST 3110 (minimum grade C-).

**Additional Information:** Arts Sciences Honors Course Departmental Category: Methodological, Comparative, and Global

**HIST 3133 (3) Seminar in Britain since 1688**

Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on British history since 1688, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a substantial and original paper based on primary sources.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).

**Recommended:** History GPA of 2.0 or higher.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Specific Countries

**HIST 3212 (3) Seminar in Early Modern Europe**

Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on early modern European history, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a substantial and original paper based on primary sources.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).

**Recommended:** History GPA of 2.0 or higher.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Modern

**HIST 3218 (3) Seminar in African History**

Deals with the history and anthropology of selected west African societies in the period before the imposition of European colonial rule.

**Requisites:** Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).

**Recommended:** History GPA of 2.0 or higher.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: World Areas: Specific Regions

**HIST 3317 (3) Seminar in the American West**

Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on the history of the American West, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a substantial and original paper based on primary sources.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).

**Recommended:** History GPA of 2.0 or higher.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: United States: Topical Courses 2

**HIST 3328 (3) Seminar in Middle Eastern History**

Examines selected issues in modern Middle Eastern history. Check with the department concerning the specific subject of the seminar.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).

**Recommended:** History GPA of 2.0 or higher.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: World Areas: Specific Regions Departmental Category: Asia Content

**HIST 3414 (3) Seminar in Modern European Thought and Culture**

Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on the history of modern European thought and culture, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a substantial and original paper based on primary sources.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).

**Recommended:** History GPA of 2.0 or higher.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Topical

**HIST 3415 (3) Seminar in Recent American History**

Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on recent American history, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a substantial and original paper based on primary sources.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).

**Recommended:** History GPA of 2.0 or higher.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: United States: Chronological Periods

**HIST 3416 (3) Seminar in American Society and Thought**

Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on the history of American society and thought, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a substantial and original paper based on primary sources.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).

**Recommended:** History GPA of 2.0 or higher.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: United States: Topical Courses 1

**HIST 3417 (3) Seminar in African American History**

Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on African American history, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a substantial and original paper based on primary sources.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).

**Recommended:** History GPA of 2.0 or higher.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: United States: Topical Courses 2

**HIST 3511 (3) Seminar in Medieval History**

Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on medieval history, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a substantial and original paper based on primary sources.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).

**Recommended:** History GPA of 2.0 or higher.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Ancient and Medieval

**HIST 3516 (3) American Culture and Reform, 1880--1920**

Addresses the issues of reform, religion, and culture that emerged as a 19th century world view confronted a 20th century America.

**Requisites:** Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).

**Recommended:** History GPA of 2.0 or higher.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: United States: Topical Courses 1

**HIST 3616 (3) Seminar in U.S. Women's History**

Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on U.S. women's history, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a substantial and original paper based on primary sources.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).

**Recommended:** History GPA of 2.0 or higher.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: United States: Topical Courses 1

**HIST 3628 (3) Seminar in Recent Chinese History**

Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on recent Chinese history, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a substantial and original paper based on primary sources.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).

**Recommended:** History GPA of 2.0 or higher.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: World Areas: Specific Regions Departmental Category: Asia Content

**HIST 3713 (3) Seminar in Russian History**

Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on Russian history, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a paper based on primary sources.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).

**Recommended:** History GPA of 2.0 or higher.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Specific Countries

**HIST 3718 (3) Seminar in Japanese History**

Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on Japanese history, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a substantial and original paper based on primary sources.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).

**Recommended:** History GPA of 2.0 or higher.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: World Areas: Specific Regions Departmental Category: Asia Content

**HIST 3800 (3) Seminar in Global History**

Organized around themes that change year to year, this seminar allows students to explore and research processes, phenomena, and events of global significance in historical context. Stress will be upon subjects that span multiple world areas. Possible topics include: the international arms trade; slavery; health and disease; youth culture; women's rights; genocide. See department for current theme.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).

**Recommended:** History GPA of 2.0 or higher.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Methodological, Comparative, and Global

**HIST 3840 (1-3) Independent Study**

Course content determined by faculty and student

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Departmental Category: Methodological, Comparative, and Global

**HIST 3841 (1-3) Independent Study**

Course content determined by faculty and student

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Departmental Category: Europe: Ancient and Medieval

**HIST 3842 (1-3) Independent Study**

Course content determined by faculty and student

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Departmental Category: Europe: Modern

**HIST 3843 (1-3) Independent Study**

Course content determined by faculty and student

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Departmental Category: Europe: Specific Countries

**HIST 3844 (1-3) Independent Study**

Course content determined by faculty and student

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Departmental Category: Europe: Topical

**HIST 3845 (1-3) Independent Study**

Course content determined by faculty and student

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Departmental Category: United States: Chronological Periods

**HIST 3846 (1-3) Independent Study**

Course content determined by faculty and student

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Departmental Category: United States: Topical Courses 1

**HIST 3847 (1-3) Independent Study**

Course content determined by faculty and student

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Departmental Category: United States: Topical Courses 2

**HIST 3848 (1-3) Independent Study**

Course content determined by faculty and student

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Departmental Category: World Areas: Specific Regions

**HIST 3849 (1-3) Independent Study**

Course content determined by faculty and student

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Departmental Category: World Areas: Comparable and General

**HIST 4013 (3) Law and Society in Premodern England to 1688**

Examines the origins and developments of English legal and political institutions, including kingship, the common law, procedure and the court and jury system and sets such developments in the context of broader social and religious changes from the Anglo-Saxon period to the 17th century. Emphasizes the implications of these institutions for the development of contemporary American, English and British colonial legal systems.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5013

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1011 or HIST 1113.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Specific Countries

**HIST 4018 (3) Aztecs, Incas, and the Spanish Conquest of the Americas**

Building upon contemporary texts and modern histories of both famous and ordinary people, this course examines the indigenous empires known as the Aztecs and the Incas. It also examines the encounter of Europeans and native people, following the history of exploration and conquest from the time of Columbus to about 1550. Equal consideration is given to the course's three components: Aztec, Inca and the Spanish conquest.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1018 or HIST 3020.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: World Areas: Specific Regions

**HIST 4020 (3) Topics in Comparative History**

Explores historical themes from a comparative perspective. Encourages students to think more analytically about historical change. Consult current online schedule for specific topics. Often team-taught by more than one faculty.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite two 4000-level History courses in differing content areas.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Methodological, Comparative, and Global

**HIST 4021 (3) Athens and Greek Democracy**

Studies Greek history from 800 B.C. (the rise of the city-state) to 323 B.C. (the death of Alexander the Great). Emphasizes the development of democracy in Athens. Readings are in the primary sources.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 4021 and CLAS 5021

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Ancient and Medieval

**HIST 4031 (3) Alexander the Great and the Rise of Macedonia**

Covers Macedonia's rise to dominance in Greece under Philip II and the reign and conquests of Alexander the Great.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 5031 and CLAS 4031

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite CLAS 1051 or CLAS 1509 or CLAS 2039 or CLAS 4139 or CLAS 4149 or CLAS 2041 or CLAS 4021 or CLAS 4041 or HIST 1051 or GREK 3113.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Ancient and Medieval

**HIST 4040 (3) The History of Space Exploration and Defense**

This course examines the development and impact of American, Soviet/Russian, and European civilian and military space activities from the dawn of the space age to the space challenges of the 21st century.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Methodological, Comparative, and Global

**HIST 4041 (3) Classical Greek Political Thought**

Studies main representatives of political philosophy in antiquity (Plato, Aristotle, Cicero) and of the most important concepts and values of ancient political thought. No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 4041 and CLAS 5041 and PHIL 4210

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Ancient and Medieval

**HIST 4048 (3) Latin American Revolutions**

Examines the origins, development and continuing influence of 20th-Century Latin American revolutionary movements, with a focus on placing these struggles in comparative historical context. Explores various approaches to revolution and the general role of left political formations in Latin America. Specific focus can vary by semester with examples drawn from various Latin American countries, including Mexico, Guatemala, Cuba, Chile and Nicaragua.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5048

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1018 or HIST 1028 or HIST 3020.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Specific Regions

**HIST 4050 (3) A Global History of World War II**

Examines World War II in a global perspective. This era witnessed transformations in the social, political and economic orders across the globe. Traces the domestic and international developments, including military issues, that shaped the period in Europe, Asia, Africa and North America and assesses the war's legacy.

**Requisites:** Requires prerequisite course of HIST 1012 or 1025 or 1028 or 1123 or 1228 or 1308 or 1528 or 1628 or 1708 or 1800 or 1828 (minimum grade D-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Methodological, Comparative, and Global  
Departmental Category: Asia Content

**HIST 4053 (3) Britain and the Empire, 1688-1964**

Examines the external polity of Great Britain from 1688 to 1964 in Europe, the East, Africa and the Americas.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5053

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Specific Countries

**HIST 4061 (3) Twilight of Antiquity**

Explores the reasons for the fall of the Roman Empire in the western Mediterranean and its survival in the east as Byzantium. Emphasizes Christianity; barbarians; social, economic and cultural differences; contemporary views of Rome; and modern scholarship. No Greek or Latin is required.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5061 and CLAS 4061 and CLAS 5061

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Ancient and Medieval

**HIST 4071 (3) Seminar in Ancient Social History**

Considers topics ranging from demography, disease, family structure, and the organization of daily life to ancient slavery, economics, and law. Focuses either on Persia, Greece, or Rome and includes a particular emphasis on the methodology required to reconstruct an ancient society, especially the interpretation of problematic literary and material evidence and the selective use of comparisons with better known societies. No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 4071 and CLAS 5071

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Ancient and Medieval

**HIST 4081 (3) The Roman Republic**

Studies the Roman Republic from its foundation in 753 B.C. to its conclusion with the career of Augustus. Emphasizes the development of Roman Republic government. Readings are in the primary sources. No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 4081 and CLAS 5081

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Ancient and Medieval

**HIST 4091 (3) The Roman Empire**

Studies Imperial Roman history beginning with the Roman Revolution and ending with examination of the passing of centralized political authority in the western Mediterranean. Emphasizes life, letters and personalities of the Empire.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 4091 and CLAS 5091

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Ancient and Medieval

**HIST 4101 (3) Greek and Roman Slavery**

Surveys slavery in ancient Greece and Rome beginning with its growth, economics and political effects, moving to the life experiences of slaves, resistance and revolt, and finishing with the ideology of slavery. Focuses throughout on the challenge of understanding classical slavery on the basis of scattered and biased evidence and on the controversies that have surrounded this topic.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 4101 and CLAS 5101

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Arts Sci Gen Ed: Diversity-Global Perspective

**HIST 4103 (3) England from the Viking Age to the Tudors**

During the Middle Ages Germanic values of honor and retribution became deeply ingrained in the warrior culture of the English aristocracy. This course begins with an examination of the Scandinavian and Germanic roots of this warrior culture before exploring the residue of that culture in the centuries leading up to the Tudor period.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

**Recommended:** Prerequisite HIST 1011 or HIST 1113.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HIST 4109 (3) World War II in Asia and the Pacific**

For Asia, World War II began with the Mukden Incident (1931), resulting in the Japanese domination of Manchuria and leading to a full-scale war between China and Japan in 1937. Only after the Japanese attacked the U.S. Pacific fleet at Pearl Harbor four years later did the United States enter the war. Discusses the various socioeconomic and political factors leading to the war in Asia, examines the nature of the conflict on the Asian mainland and in the Pacific, and assesses legacy of the war on all those involved.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: World Areas: Comparable and General Departmental Category: Asia Content

**HIST 4116 (3) History of U.S. Foreign Relations, 1865-1940**

Traces the rise of the United States to world power. Explores the interactions of expansionist and isolationist impulses with politics, ideology, culture and economics, with a focus on the Spanish American War and the acquisition of empire, World War I and the coming of World War II.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5116

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: United States: Topical Courses 1

**HIST 4117 (3) Colorado History**

Presents the story of the people, society, culture, and environment of Colorado from the earliest Native Americans, through the Spanish influx, the fur traders and mountain men, the gold rush, railroad builders, the cattlemen and farmers, the silver boom, the twentieth-century tourists, city-dwellers, workers and activists. Highlights the historical origins of twenty-first century institutions, problems, challenges, and opportunities.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1015 or HIST 1025.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: United States: Topical Courses 2

**HIST 4118 (3) History of Mexico to 1821**

Studies Mexican history beginning with roots and evolution of pre-Columbian civilizations and concluding with the events of Mexican independence in 1821. Emphasizes society and culture of the Aztecs and Mayans, the Spanish conquest of Mexico, and the colonial regime of New Spain.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: World Areas: Specific Regions

**HIST 4122 (3) Europe During the Renaissance**

Explores the history and culture of Western Europe, 1300-1520. Comprehensive in scope, with analysis of political, economic, social, religious, intellectual and artistic matters. Discusses significance of the Renaissance for origins of modern civilization.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1011.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Modern

**HIST 4123 (3) Kings & Commoners in an Age of Crisis: English History 1327-1487**

England in the 14th and 15th centuries endured climate change, the Black Death, peasant revolts, foreign and civil war and the forcible removal of five kings; yet this period also saw renewed forms of religious devotion, famous military victories and the exaltation of kingship. Crucially, it also saw the growing importance of the common people in English politics and the notion that government should aspire to serve the common good of the whole realm.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1011 or HIST 1113.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Specific Countries

**HIST 4125 (3) Early American History to 1763**

Explores the colonial era of American history from the pre-Columbian period to the end of the Seven Years' War. Topics include pre-contact Native societies, exploration, European settlement and Native American responses, labor system and the rise of slavery, imperial wars, and the developments in religion, society, politics and culture.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5125

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Arts Sci Gen Ed: Diversity-U.S. Perspective Departmental Category: United States: Chronological Periods

**HIST 4126 (3) History of U.S. Foreign Relations Since 1941**

Traces the development of the United States as a superpower. Details American power and diplomacy in World War II and the rise of the national security state in the Cold War. Explores the Korean, Vietnam and Persian Gulf Wars, and the era of modern-day globalization.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5126

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Topical Courses 1

**HIST 4128 (3) The History of Modern Mexico Since 1821**

Centers on the Mexican search for political consolidation and stability through the 19th, 20th and 21st centuries. Focuses on the Mexican Revolution (1910-1940) and the post revolutionary rule of the Institutional Revolutionary Party. Examines the War on Drugs and the causes of Mexican migration to the United States.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5128

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1028 or HIST 3020.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Specific Regions

**HIST 4129 (3) China, Japan, Thailand: Asia under Semicolonialism**

China, Japan, and Thailand were never formally colonized, but were nonetheless deeply impacted by imperialism. Beginning with the age of Euro-American empire-building in the nineteenth century, we trace the different ways in which China, Japan, and Siam/Thailand strategized to secure their status as independent, sovereign nations. We also investigate how these states interacted with and influenced each other, particularly during the early twentieth century when Japan itself became a colonial power in Asia.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**HIST 4131 (3) The Origins of Christianity**

Examines the history of Christianity from Jesus Christ to the eighth century, including the Roman Empire and the rise of the papacy. Topics include the religion's spread across Afro-Eurasia, the Latin West and Greek East, micro-Christendoms, monastic life, cults of relics, cities and frontiers, saints' lives, and Christianity's encounters with heresies, Greek philosophy, and the beliefs of Judaism and Islam.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1011 or HIST 1061 or HIST 2170 or CLAS 1061.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Ancient and Medieval

**HIST 4133 (3) Tudor England, 1485-1603**

Includes topics such as the aftermath of the Wars of the Roses; Henry VIII's 'Great Matter' and his six wives; Reformation and Counter-Reformation; the courtships of Elizabeth I; how Elizabeth became the Virgin Queen; Mary Queen of Scots and the perils of a queen marrying badly; the Tudors and Ireland; English pirates of the Caribbean; the Gran Armada and war against Spain; and the conspiracy that marked the end of England's most famous royal dynasty.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1011 or HIST 1113.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Specific Countries

**HIST 4143 (3) The Making of Great Britain: British History 1603-1714**

Covers the history of the British Isles from 1603 to 1714, the era of the English Civil War and the Glorious Revolution. Traces economic and social relationships, cultural change and religious and political conflict under the Stuart monarchs.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1011 or HIST 1012 or HIST 1113 or HIST 1123.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Specific Countries

**HIST 4146 (3) U.S. Military History since 1898**

Examines America's national defense and war efforts from the Spanish American War to the present, emphasizing causes and consequences of modern conflicts, and the impact of military activities on American society.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1025.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Topical Courses 1

**HIST 4166 (3) The Vietnam War in US Politics and Culture**

Examines America's second-longest and most divisive war from the beginning of the U.S. involvement in the 1950s to the repercussions echoing into the 1980s. Considers the global context, motives, and evolution of U.S. involvement, support for and opposition to the war in the USA, the war's repercussions in international policy and US politics, and representations of the war in American popular culture.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Topical Courses 1  
Departmental Category: Asia Content

**HIST 4190 (3) French Connections: Contemporary France and America in Historical Context**

Faculty-led Global Seminar, based in Bordeaux, France provides an opportunity to compare French history and contemporary culture, economy, and culture to that of the United States. Lectures in Boulder and Bordeaux are supplemented by interactions with officials, scholars, business leaders, interest groups, and organizations in France. Offered through Study Abroad.

**Equivalent - Duplicate Degree Credit Not Granted:** IAFS 3500

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Methodological, Comparative, and Global

**HIST 4205 (3) The Colonial Wars and the Coming of American Independence, 1739-1776**

Investigates imperial warfare and its effects during the late colonial period, concentrating on the French and Indian War (1754-1763), the disruption of Anglo-American relations and the origins of the War of American Independence (1775-1783).

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5205

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Chronological Periods

**HIST 4207 (3) The American West to 1800**

Addresses the history of the early West until 1800. Probes the origins of the first Americans, early cultures and civilizations, and the consequences of Spanish, French, and Russian colonization. Topics addressed include warfare, disease, diplomacy, environmental change, missionary enterprises, captives, gender, and the slave trade.

**Recommended:** Prerequisite HIST 1015.

**HIST 4212 (3) The Age of Religious Wars: Reformation Europe, 1500-1648**

Traces the history of Europe from the end of the Hundred Years War through the Thirty Years War. During this period Europe experienced tremendous changes including emerging religious heresies, the advent of the Spanish Inquisition, violent civil wars, the witch craze, and the Thirty Years War, a precursor to the World Wars of the 20th century.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1011 or HIST 1113.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Modern

**HIST 4215 (3) The Revolutionary War and the Making of the American Republic, 1775-1801**

Investigates the Revolutionary War and its impact on the creation of American political institutions, as well as its cultural, social and economic effects, from the Battles of Lexington and Concord through the inauguration of Thomas Jefferson.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5215

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Chronological Periods

**HIST 4217 (3) The American West in the 19th Century**

Explores cultural, social and political interaction in the American West during the 19th century. Themes include environmental change; conflict and syncretism across race, class, and gender lines; mythic images, and their relationship to the "Real" West.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1015 or HIST 1025.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Topical Courses 2

**HIST 4218 (3) Lost Kingdoms & Caliphates: West Africa to 1900**

Investigates the formation and dissolution of West Africa's kingdoms, caliphates and stateless societies during the era of the trans-Atlantic and trans-Saharan slave trades. Through a survey of oral and written sources, this course examines West Africa's geopolitical transformation in warfare, jihad, trade and slavery, especially in relation to the African Diaspora to the Americas and Muslim world.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: World Areas: Specific Regions

**HIST 4222 (3) War and the European State, 1618-1793**

Studies the development of the European states in response to international power struggles in the 17th and 18th centuries (up to the French Revolution).

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5222

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Modern

**HIST 4223 (3) The French Revolution and Napoleon**

Traces the origins, course, and consequences of the most important modern revolution, the French Revolution of 1789. While seeking to explain how a liberal movement for progressive change soon degenerated into the factional bloodbath of the Terror, will also examine the revolution's global impact and how three decades or revolutionary warfare lead to the rise and fall of Napoleon Bonaparte.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5223

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Specific Countries

**HIST 4227 (3) The American West in the 20th Century**

Explores cultural, social, and political interaction in the American West during the 20th century. Themes include popular culture, state-federal relationships, environmental change, urbanization, immigration, and cultural formation.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1025.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Topical Courses 2

**HIST 4232 (3) From Revolt to Revolution: Europe in an Age of Global Enlightenment, 1648-1789**

Studies how colonial and imperial expansion transformed cultural, political, and socio-economic institutions in Europe from the end of the Thirty Years War through the outbreak of the French Revolution. Central themes include state centralization, popular resistance, bureaucratization, commercialization, and cultural developments such as scientific revolution and enlightenment.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Modern

**HIST 4233 (3) History of France since 1815**

Examines the ongoing struggle between the revolutionary and counter-revolutionary traditions of France and how it shaped the political history and affected the social, cultural and intellectual character of the nation from 1815 to the present.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Specific Countries

**HIST 4235 (3) Jacksonian America**

Focuses on the social and cultural history of the Jacksonian Era. Issues include the transformation of the market economy, slavery, moral reform, Indian removal, changes in ideas about men's and women's natures and roles, western expansion, and political culture.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5235

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1015.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Chronological Periods

**HIST 4238 (3) History of Southern Africa**

Examines the history of southern Africa history from the earliest times to the present. Short background readings and lectures cover southern African's history and class discussions of novels are layered over these basics. Topics of study include Cecil Rhodes and the diamond/gold mines; Shaka and the Zulu "nation"; apartheid; Nelson Mandela and the antiapartheid movement; issues facing South Africa today.

**Requisites:** Requires prerequisite course of HIST 1218 or 1228 or 3109 or 4258 or 4218 or ANTH 1150 or ANTH 3100 or ANTH 4630 or GEOG 3862 or PSCI 3082 or WGST 3712 (minimum grade C-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: World Areas: Specific Regions

**HIST 4258 (3) Africa under European Colonial Rule**

Looks at the British, French, Portuguese and German empires that undertook the "Scramble for Africa" in the late 19th century. Themes include slavery and the slave trade; colonization and "pacification"; African resistance to European rule; missionaries and converts; decolonization and anti-colonial uprisings; issues facing Africa today, including oil, war and the Rwandan genocide.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1218 or HIST 1228 or HIST 3020 or ANTH 1150 or ANTH 3100 or ANTH 4630 or GEOG 3862 or PSCI 3082.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: World Areas: Specific Regions

**HIST 4303 (3) Venice and Florence during the Renaissance**

Comparative urban study of Florence and Venice from 13th through 16th centuries. Principal subjects are the distinctive economies of the cities, political developments, Renaissance humanism, patronage of the arts, and foreign policy.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 4303

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1011.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Specific Countries

**HIST 4304 (3) The Cosmos in Premodern Mediterranean Societies**

Through a chronological investigation of ideas about the cosmos in ancient Mediterranean societies, this course communicates how ancient and premodern people thought about, described, and made space part of their daily lives. It will expose students to primary sources such as hieroglyphs, paintings, poems, lyrics & maps. By doing so students will also develop knowledge about ancient societies. The course will include lectures, student skit presentations, learning cells & one class project.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisites HIST 1011 or CLAS 1051 or CLAS 1061.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HIST 4312 (3) 19th Century Europe**

Concerned with major social, political and cultural developments in Europe from circa 1800 to the outbreak of World War I. Special emphasis is placed upon the Napoleonic experience, the rise of modern nationalism, romanticism, Darwinism and its social applications, the Industrial Revolution, imperialism, the emergence of modern ideologies, and the background of World War I.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Modern

**HIST 4313 (3) History of Modern Italy**

Examines the major historical, economic and social factors that have shaped the identity of modern Italy, from the enthusiasm of young patriots during Italy's unification in the 1860s to the discontent and domestic terrorism of the 1960s-1980s. Focuses on Mussolini, the Fascist movement and on World War II, as well as the changing role of women. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** ITAL 4250

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Specific Countries

**HIST 4315 (3) Civil War and Reconstruction**

Describes the forces at work in the antebellum period that led to sectional warfare; social, economic, and political changes effected by the war; the American agony of reconstruction; and the long-range results of that difficult era.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1015.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Chronological Periods

**HIST 4320 (3) The History of the Mediterranean, 600 CE-1600 CE**

Familiarizes students with the Mediterranean ecumene covering concepts such as the Renaissance, the Crusades, traders and travelers, religions and cities. Explores both conflicts (military, confessional) and exchanges (commercial, artistic, scientific) thus helping students think cross culturally, comparatively and thematically. Emphasizes the Mediterranean contribution to historical developments of western Europe, the Middle East, and North Africa.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1011 or HIST 1061 or HIST 1308 or HIST 4061 or HIST 4071 or HIST 4081 or HIST 4091 or HIST 4711.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Methodological, Comparative, and Global

**HIST 4323 (3) Mafia and Terrorism: Organized Violence in Italy**

Investigates the origins and development of the Sicilian Mafia and Political Terrorism in Italy. In the first part of the course, the context of Italian politics, economy and society in which the mafia was born and flourished in the 19th and 20th century will be explored. The ramification of the Mafia in the United States in the 20th c. will also be studied.

In the second part of the course, the political and social causes of Italian left and right wing Terrorism will be examined, starting from the Piazza Fontana slaughter (1969) until the murder of Professor Marco Biagi (2002). Particular attention will be devoted to the kidnapping and murder of Democratic Christian Party President Aldo Moro and to the Red Brigades terrorist movement. The role of women in both Mafia and Terrorism will be explored.

**Equivalent - Duplicate Degree Credit Not Granted:** ITAL 4260

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HIST 4326 (3) Epidemic Disease in US History**

Focuses on the impact of infectious epidemic disease on American history, from smallpox and cholera to influenza, AIDS and Ebola. Addresses early depopulation of the Americas; contagion and social upheaval; interpretations of pestilence; social construction of disease; urbanization; doctors and alternative practitioners; public health; prejudice and infection; the ethics of quarantine; public versus individual interests; and the paradox of prevention.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-U.S. Perspective

Departmental Category: United States: Topical Courses 1

**HIST 4328 (3) The Modern Middle East, 1600 to the Present**

Primarily from 1800 to the present. Attention divided equally between the region's political history and international relations and its patterns of economic, social and cultural modernization in the main countries.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5328

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1308.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: World Areas: Specific Regions

Departmental Category: Asia Content

**HIST 4329 (3) Islam in the Modern World: Revivalism, Modernism, and Fundamentalism, 1800-2001**

Examines the more important movements of reform in Muslim world (including Africa, the Middle East and India) from the 18th century to the present, and their origins and intellectual import. Due to the trans-regional nature of this broad movement of reform, particular attention is paid to how these movements related to local political, economic and social contexts, and how they, in turn, moved across larger networks of oceanic commerce and trade. Concludes with extended case studies of Islamic reformism in modern Egypt and India, and their ultimate influence on the politics of contemporary Islamist movements, especially the intellectual position of Ussama B. Ladin.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1308.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: World Areas: Comparable and General

Departmental Category: Asia Content

**HIST 4336 (3) Nineteenth-Century American Thought and Culture**

Examines the emergence of intellectual traditions and cultural trends in their social and political contexts from the early republic to the beginning of the modern era. Addresses developing arguments about democracy, religion, transcendentalism, gender, race, union/disunion, the Darwinian revolution, utopia/dystopia realism and naturalism in literature and the arts.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: United States: Topical Courses 1

**HIST 4338 (3) History of Modern Israel/Palestine**

Explore the history culture, and politics of this crossroads of Europe and Asia from the late Ottoman period to the present. Topics include: nationalism and colonialism, development of Zionist ideology, Palestinian nationalism, the Jewish community (Yishuv) under British rule, the founding of the State of Israel, Arab-Israeli and Palestinian-Israeli relations, Israel's minorities, and the conflict of religion and state.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 4338

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1818 or JWST 1818 or HIST 1828 or JWST 1828 or HIST 1308 or JWST 2350 or other course work in Middle Eastern or Jewish History.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: World Areas: Specific Regions

Departmental Category: Asia Content

**HIST 4339 (3) Borderlands of the British Empire**

Examines the development of the borderlands of the British empire through imperial expansion, consolidation, and early decolonization. Focuses on the 19th and early 20th centuries. Topics include domination, resistance and negotiation in areas such as India, Afghanistan, the Palestine Mandate. Aims for students to acquire skills in comparative history and to develop a better understanding of the roots of contemporary conflicts.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5339

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1012 or HIST 1123 or HIST 1228 or HIST 1308 or HIST 1528.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Departmental Category: World Areas: Comparable and General

Departmental Category: Asia Content

**HIST 4343 (3) Medieval Spain: Tolerance, Conquest and Religion, 800-1600**

This course examines the culture and politics of the Iberian Peninsula focusing on the two themes of toleration and reconquest c.800-1600. We focus on how Spain's institutions and religious beliefs shaped European culture. We explore convivencia, the period of Muslim toleration that borrowed heavily from the medieval Mediterranean, when the interaction between Christians, Jews, and Muslims produced cultural vibrancy. We then analyze the Spanish monarchs' solidification of their nation through expulsions, persecution, and empire building. Formerly HIST 4064.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5343

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1011 or HIST 1018.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Europe: Topical

**HIST 4346 (3) Twentieth-Century American Thought and Culture**

Examines the emergence of intellectual traditions and cultural trends in their social and political contexts from the beginning of the modern era through the onset of the postmodern. Addresses developing arguments about democracy, science, race, gender, faith, American identity, radicalism and conservatism, modernist thinking and artistic expression, and the role of intellectuals in society.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Topical Courses 1

**HIST 4348 (3) Topics in Jewish History**

Covers topics in Jewish history from biblical beginnings to present day. Topics vary each semester. Consult the online Schedule Planner for specific topics.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 4348

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1818 or JWST 1818 or HIST 1828 or JWST 1828 or HIST 1308 or JWST 2350 or other course work in Middle Eastern or Jewish History.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Specific Regions

**HIST 4349 (3) Decolonization of the British Empire**

Examines the end of the British Empire. Focuses on connections between imperial territories, such as networks of anticolonial activists and links between British decision makers. Students will acquire research skills and develop a better understanding of the roots of contemporary conflict. Prior coursework in British imperial history and excellent writing skills are required.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5349

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1123 or HIST 1228 or HIST 1308 or HIST 1528 or HIST 4053 or HIST 4238 or HIST 4258 or HIST 4328 or HIST 4329 or HIST 4338 or HIST 4339 or HIST 4538 or HIST 4548 or HIST 4558.

Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: World Areas: Comparable and General  
Departmental Category: Asia Content

**HIST 4359 (3) The Global History of Modern Arabia**

Examines the history, politics and society of the countries of the Arabian Peninsula (modern day Saudi Arabia, Oman, Yemen, Bahrain, Qatar and the UAE) in the period between 1800 and the present. The guiding assumption will be that the histories of Arabia cannot be studied in isolation from broader histories of capital formation, imperialism, religious reform, state formation and the discourses and practices which they informed. To that end, the focus will be on Arabia as part of the British, Ottoman and Omani Empires, a participant in Indian Ocean commerce, a source and destination for migrant scholars, students and laborers, the center of the petroleum economy and a domain of struggle for activists and intellectuals representing multiple political/ideological currents-not only Islamist, but also, liberal, socialist and communist.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: World Areas: Comparable and General

**HIST 4366 (3) Culture Wars: Modernism, Mass Culture, and the Modern U.S.**

Examines how U.S. public moralists, intellectuals, and artists from the end of the nineteenth century to World War II both celebrated and attacked the rise of two characteristic features of modernity: mass culture (amusement parks, popular music, radio, movies), and modernist literary and artistic expression. Addresses how Americans both constructed and violated the line between "popular" and "high" culture.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1025.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Topical Courses 1

**HIST 4378 (3) History of Modern Jewish-Muslim Relations**

Examines the modern history and culture of Jewish communities under Islamic rule in the Middle East and North Africa; Jews' and Muslims' encounters with empire, westernization and nationalism; representations of Sephardi and Eastern Jews; Jewish-Muslim relations in Europe and the U.S.; and contact and conflict between Jews and Muslims in (and about) Israel/Palestine. Sources include memoirs, diaries, newspapers and films.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 4378

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Specific Regions  
Departmental Category: Asia Content

**HIST 4388 (3) History Today: Global Intensive in Israel/Palestine**

This global intensive analyzes history, memory and nationalism in one of the areas where the relationship between these three categories is the most fraught: Israel/Palestine. After learning the historical background to the Arab/Israeli and Palestinian conflict in Boulder, students will visit Israel and the West Bank/Occupied Territories/Judea and Samaria. Through this course, students will gain a nuanced, multi-sided perspective of Israel, Palestine and the uses of history and memory.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 4388

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HIST 4412 (3) Europe, 1890-1945**

Examines the origins, character and significance of the First and Second World Wars for the major nations of Europe during the first half of the 20th century.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Modern

**HIST 4414 (3) European Thought and Culture, 1750-1870**

Explores major developments in European thought from the Enlightenment to Nietzsche. Special attention given to the individuals whose ideas have had the greatest influence on modern intellectual history, e.g., Rousseau, Hegel, Herder, Marx, Kierkegaard, Baudelaire, Darwin, and others.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Topical

**HIST 4415 (3) Teddy Roosevelt's America - the U.S. from 1877 to 1917**

Examines the social, economic, political, and cultural history of the United States from the end of Reconstruction to the eve of World War I. Topics include the struggles of labor and industry, race and immigration, western and environmental issues, city life and new technologies, feminism and Progressivism, and Indian wars and imperialism.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1015 or HIST 1025 or ENVS 1000.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: United States: Chronological Periods

**HIST 4416 (3) Environmental History of North America**

Examines how people of North America, from precolonial times to the present, interact with, altered, and thought about the natural world. Key themes include Native American land uses; colonization and ecological imperialism; environmental impacts of food and agriculture; industrialization, urbanization and pollution; energy transitions; cultures of environmental appreciation; the growth of the conservation and environmental movements.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: United States: Topical Courses 1

**HIST 4422 (3) World War I in Europe**

Examines the origins of World War I; the military, social and cultural character of the conflict; and its enduring impact in the post-1918 world. By thinking about the war as both a military undertaking and an experience that affected domestic and global politics, the course will explore why World War I constituted an event of major importance to Europe and the 20th century world.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5422

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Modern

**HIST 4423 (3) German History 1848-1989: Weimar Republic, Nazism, State Socialism**

Cultural, political and social history of Germany from the Revolutions of 1848 to the Fall of the Berlin Wall in 1989. Emphasizes German unification & Bismarck, the effects of World War I, Weimar politics, the rise of Nazism, World War II and the Holocaust, the post-war paths of West and East Germany, and reunification.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Specific Countries

**HIST 4424 (3) Modern European Thought and Culture, 1870-Present**

Emphasizes Nietzsche and the youth revolt against middle class society, the literary and artistic avant garde (impressionism to existentialism), the psychoanalytic movement, the European right and left, and post-WWII European thought.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Topical

**HIST 4425 (3) United States History, 1917-1945**

Examines U.S. history from World War I through World War II. Key themes include: warfare; the rise of the modern state; consumer culture; the shift from conservative politics to the New Deal liberalism; the women's movement; immigration restriction; segregation; the Great Migration, and civil rights; conflicts between secular modernism and religious fundamentalism; and new technologies such as the automobile.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1025.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: United States: Chronological Periods

**HIST 4433 (3) Nazi Germany and the Holocaust**

Focuses on the political, social, and cultural origins of National Socialism, the nature of the Nazi regime, the origins and course of the Second World War, and the perpetration of the Holocaust.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Specific Countries

**HIST 4435 (3) From the Cold War to the Counterculture: U.S. History 1945-73**

Analyzes high politics, grassroots movements, and cultural change in the years of unprecedented economic prosperity and rapid change after WWII. Explores the foreign and domestic politics of the Cold War; labor unionism; the Vietnam War; the Civil Rights, antiwar, and women's rights movements; and technocultural changes like the rise of television and the growing dominance of the automobile.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1025.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: United States: Chronological Periods

**HIST 4437 (3) African American History, 1619--1865**

Explores the history of Africans in America from the first arrivals to emancipation, and their role in the social, cultural, economic, and political evolution of the United States.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1015.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: United States: Topical Courses 2

**HIST 4442 (3) Europe since 1945**

Explores Europe from the end of World War II through the present day. Topics include postwar reconstruction; the cold war; anticommunist opposition and new social movements; consumer culture and punk music; the fall of communism; the Yugoslav wars; European unity.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Modern

**HIST 4444 (3) Topics in Modern European Thought**

Explores a selected theme in European thought since the Enlightenment. Topics vary each term.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Topical

**HIST 4445 (3) United States History since 1973**

Traces political, diplomatic, economic, and social developments in the United States from 1973 to the present.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1025.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Chronological Periods

**HIST 4447 (3) African American History, 1865 - Present**

Explores the cultural, social and political history of African Americans after 1865. Focuses on African American social movements, the diversity of the African American communities, as well as a critical examination of the African Americans' relationship to the United States. Students in this course will study the advances made in the years following Emancipation as well as the continued challenges for Black freedom in the U.S.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1025.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-U.S. Perspective

**HIST 4448 (3) Wars of Liberation in Southeast Asia**

Uses the contemporary nations of Indonesia, Myanmar, and Singapore as case studies to examine the making and unmaking of European and Japanese colonialism in Southeast Asia in the years surrounding World War II. In what ways did diverse communities understand and narrate imperialism and independence? How can we understand wars of liberation as local, regional, and global experiences, with legacies for today?

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5448 and ASIA 4448

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Departmental Category: Asia Content

**HIST 4454 (3) Jewish Thought in Modern History**

Takes students on a journey from Medieval Spain to contemporary United States to explore how Jews, living in different societies, have attempted to reshape and interpret central Jewish values and beliefs in accordance with the prevailing ideas of their host societies. Focuses on the historical context of each Jewish society that produced the thinkers and ideas considered in this course.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 4454

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Topical

**HIST 4511 (3) Europe in the Dark Ages (400-1000 A.D.)**

Examines the history of Europe from the fall of the Roman Empire to the turn of the first millennium. Treats social, political and religious transformations in the barbarian kingdoms, and considers the persistence of Roman institutions and culture and the impact of Christianity in northern Europe.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1011 or HIST 2170.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Ancient and Medieval

**HIST 4516 (3) U.S. Society in the 19th Century**

Concerned with the American family and community in the changing social environments of the 19th century. Examines families of different ethnic and class backgrounds, observing how they are changed by new economic conditions, reform, or new political institutions.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1015 or HIST 1025.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Topical Courses 1

**HIST 4521 (3) Europe in the High Middle Ages (1000-1400 A.D.)**

Examines the history of Europe from the emergence of feudal institutions to the rise of nation states, with specific attention to social, intellectual and religious change, the role of law and ritual, the crusades and European expansion, and urban growth and identity in the West.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1011 or HIST 2170.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Ancient and Medieval

**HIST 4524 (3) Expulsions and Diasporas: The Jews of Spain and Portugal**

Considers the experience of Jews and converses during the Spanish Inquisition and the Iberian expulsions of the 1490s. Sephardic refugees faced social, economic, and political upheavals in the decades after their exile, leading to new communities in settings as diverse as North Africa, India, Turkey, the Caribbean, and the Americas. The study of texts and traditions from the Sephardic diaspora will explore themes including forced conversion, rabbinic authority, colonialism, and mercantile networks. Previously offered as a special topics course.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 4524

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HIST 4526 (3) Power to the People: Struggles for Equality and Liberation in the 20th Century United States**

This course focuses on the history of social movements in the 20th century United States to explore how people have attempted to make democracy work for all members of American society. We will focus on four moments: women's suffrage, the long African American struggle, the Chicano movement, and gay liberation; that allow us to consider how social identities like gender, race, class, and sexuality influenced the ideas and strategies driving these movements. Students will use our class discussions on these movements as an entry point for identifying a specific topic they would like to research further.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1025.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Topical Courses 1

**HIST 4527 (3) Mexican-American History since 1848**

Examines Mexican-origins people in the United States from the 19th century through the present. Focuses on Mexican-American history as both an integral part of American history and as a unique subject of historical investigation. Using primary and secondary sources, students will examine how Mexicans and Mexican-Americans have negotiated, influenced, and responded to political, social, cultural, and economic circumstances in the U.S.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1015 or HIST 1025.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-U.S. Perspective  
Departmental Category: United States: Topical Courses 2

**HIST 4528 (3) Islam in South and Southeast Asia (1000 to the Present)**

Examines the history of Muslim societies in South and Southeast Asia from 1000 to the present. Focuses on themes such as the rise of Islamic empires in South Asia, Sufism, trade and the spread of Islam in Southeast Asia, the rise of Muslim nationalism and religious fundamentalism, and the impact of modernization and globalization on Muslims of the region.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Requisite 6 hours of any history coursework.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Specific Regions  
Departmental Category: Asia Content

**HIST 4534 (3) Modern European Jewish History**

Focus on the last 500 years of European Jewish history, from 1492 until the present, to examine Jews' place in European history and how Europe has functioned in Jewish history. Does not end with the Holocaust, since, although Hitler and the Nazis attempted to destroy European Jewish civilization, they did not succeed. Rather, this course will spend several weeks looking at European Jewish life in the past sixty year.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 4534

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1818 or JWST 1818 or HIST 1828 or JWST 1828 or HIST 1012.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Topical

**HIST 4538 (3) History of Modern India**

Examines the history of India from the British conquest of India in the late 18th century to independence in 1947. Emphasizes the impact of British rule on the political, economic and social development of modern India.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5538

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite 6 hours of any history coursework.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Specific Regions  
Departmental Category: Asia Content

**HIST 4544 (3) History of Yiddish Culture**

Jews have produced culture in Yiddish, the vernacular language of Eastern European Jewry, for 1000 years and the language continues to shape Jewish culture today. We will look at the literature, film, theater, music, art, sound and laughter that defined the culture of Eastern European Jewry and, in the 20th century, Jews around the world.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5544 and JWST 4544

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1818 or JWST 1818 or HIST 1828 or JWST 1828 or HEBR 2350 or JWST 2350.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Topical

**HIST 4546 (3) Popular Culture in the Modern United States**

Traces the history of cultural expression in the United States since the late nineteenth century. From art, fiction, and music to the movies, amusement parks, shopping, and sports, popular culture offers clues to decipher shifting patterns of consumption, globalization, race, gender, politics, technology, and media. Includes instruction and practice interpreting cultural materials in historical context.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 4546

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1025.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Topical Courses 1

**HIST 4548 (3) Women in Modern India**

Examines the history of women and gender in India from the late 18th century to the present. Explores topics such as the changing legal status of women in the colonial and postcolonial period, marriage, domesticity and patriarchy, and women's education and participation in anti-colonial and postcolonial politics, women, work and the environment, violence against women, and women and globalization.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5548

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1528.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Specific Regions  
Departmental Category: Asia Content

**HIST 4556 (3) The History of America through Baseball**

Baseball serves as a window to view the American experience. Covers U.S. history since 1830, addressing the major topics that reflect on American society, such as professionalization, labor management conflict, race, gender, culture, politics, economics and diplomacy.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 2516

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1015 or 1025.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Topical Courses 1

**HIST 4558 (3) Buddha to Gandhi: A History of Indian Nonviolence**

Focuses on the intellectual history of nonviolence in India from the time of the Buddha to Mahatma Gandhi who led India to national independence from the British Empire in 1947. Pursues this history in light of the encounter between Indian and western cultural traditions in modern India.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Specific Regions  
Departmental Category: Asia Content

**HIST 4616 (3) History of Gender and Sexuality in the United States to 1870**

Examines the social history and cultural construction of genders and sexualities in America to 1870, exploring how discourses of race, religion, nationalism, medicine and criminality have shaped erotic encounters, informed gender and sexual identities as served as sites of political conflict.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5616 and WGST 4616

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Topical Courses 1

**HIST 4617 (3) Native North American History I: Human Settlement to 1815**

Explores the establishment and development of human societies in North America prior to 1492; the varied experiences of contact; the crises, opportunities, and transformations that attended colonialism; Indians and the inter-imperial contests of the eighteenth century; and the struggles of native peoples confronting the newly-independent United States.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Topical Courses 2

**HIST 4618 (3) From Genghis Khan to the Opium War: Early Modern China**

Examines political, social, and cultural history of China from the Song Dynasty (960-1279) to the opium War (1839-1842). Topics covered include the development of imperial political institution and gentry society, Conquest Dynasties, Neo-Confucianism, China's "medieval economic revolution", Chinese world order in East Asia, Qing multiethnic empire, Chinese overseas migration, and the coming of the West.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1618 or HIST 1628 or CHIN 1012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Specific Regions  
Departmental Category: Asia Content

**HIST 4619 (3) Women in East Asian History**

Considers major issues in the history of women in East Asia (China, Korea, Japan) in the 17th through 20th centuries. Focuses on gender roles in Asian family, state, and cultural systems. Topic varies in any given semester.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 4619 and HIST 5619

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: World Areas: Comparable and General  
Departmental Category: Asia Content

**HIST 4620 (3) A Global History of Sexuality: The Modern Era**

Provides an introduction to the history of sexuality in the modern era through engagement with recent interdisciplinary research into what sexuality has meant in the everyday lives of individuals; in the imagined communities formed by the bonds of shared religion, ethnicity, language and national citizenship; on the global stage of cultural encounter, imperialist expansion, transnational migration and international commerce.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 4620

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Methodological, Comparative, and Global

**HIST 4623 (3) History of Eastern Europe Since 1914**

Examines the struggle of nations of eastern Europe to assert their independence, from break-up of the imperial system at the end of World War I, through the Soviet bloc that emerged after World War II, to the establishment of democratic governments after the 1989 revolutions.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Specific Countries

**HIST 4626 (3) History of Gender and Sexuality in the United States from 1870**

Examines the social history and cultural construction of genders and sexualities in America from 1870, exploring how discourses of race, religion, nationalism, medicine and criminality have shaped erotic encounters, informed gender and sexual identities and served as sites of political conflict.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 4626

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Topical Courses 1

**HIST 4627 (3) Native North American History II: 1815 to Present**

Explores the longevity and continuity of human history in North America by discussing pre-European social and cultural developments. By examining ways in which Indian societies west of the Mississippi River responded to Euro-Americans, the Indians' role in western North American history is demonstrated.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Topical Courses 2

**HIST 4628 (3) Modern China: Collapse of Imperial Brilliance, 1644-1949**

Examines the brilliance of the Qing dynasty, its collapse in 1911, and the bloody and chaotic several decades that followed, up to the 1949 Communist Revolution. Focuses on such topics a Qing imperialism in Central Asia, global capitalism and Western imperialism in China, the opium trade, domestic violence, nationalism, concepts of modernity, competing revolutionary movements, and WW II in Asia.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5628

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Specific Regions  
Departmental Category: Asia Content

**HIST 4636 (3) Lesbian and Gay History: Culture, Politics, and Social Change in the United States**

Considers current theoretical approaches to the history of sexuality and traces the changing meaning of same-sex sexuality in the United States through investigation of lesbian/gay identity formation, community development, politics, and queer cultural resistance.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5636 and WGST 4636

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1015 or HIST 1025 or LGBT 2000.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Topical Courses 1

**HIST 4638 (3) Contemporary China: Radicalism and Reform, 1949 to Present**

Examines the dramatic, often tragic, and globally transformative history of China under the Chinese Communist Party. Focuses on such topics as political, social, and cultural revolution, nationalism, Maoism, the Great Leap Forward, Red Guards and the Great Proletarian Cultural Revolution, the Deng Xiaoping era, relations with Taiwan, the 1989 Tiananmen Massacre, and China's rise as a world power.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5638

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Specific Regions  
Departmental Category: Asia Content

**HIST 4640 (3) Women, Gender and War**

Study of how women experience war, how the structure, practice and memory of war, and the rights and obligations of military service (masculinity and femininity) are structured by the gender system.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 4640

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1015 or HIST 1012 or HIST 1025 or HIST 1123 or HIST 1628 or HIST 1708.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Methodological, Comparative, and Global

**HIST 4643 (3) Poland since the 16th Century: Democracy and Nation**

Traces themes of democracy and nationalism in Polish history from the "Noble Republic" of the early modern era through the struggles with fascism and communism in the 20th century, to Poland's current position on the eastern edge of Western Europe.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Specific Countries

**HIST 4648 (3) Inventing Chinese Modernity, 1800 to Present**

Examines the long and painful transformation, during the modern period of native Chinese concepts about the meaning of life, the proper order of politics and society, the role of the individual, the nature and role of human emotions, the place of the gods, the definition of nation, the proper relations between the sexes, and China's place in the global order.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1618 or HIST 1628 or CHIN 1012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Specific Regions  
Departmental Category: Asia Content

**HIST 4653 (3) Ukraine: The History Behind the Headlines**

Explores major topics in the history of Ukraine, including the impact of Russian imperialism, Ukrainian nationalism, the legacy of Soviet rule, the Second World War, and Ukraine's struggle for sovereignty, with a particular emphasis on periods in Ukrainian history that remain relevant and debated today. Over the course of the semester, we will also discuss the question of historical and cultural memory, diving into questions about the uses (and abuses) of the past.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1012, HIST 2100, HIST 4723, or HIST 4733.

**HIST 4658 (3) China and Islam from the 7th Century to the 20th Century**

Traces how "Muslims in China" transformed themselves into "Chinese Muslims" while at once accommodating and conflicting with Chinese states and people throughout history until the present time.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5658

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1618 or HIST 1628 or CHIN 1012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Specific Regions  
Departmental Category: Asia Content

**HIST 4688 (3) Window on Modern China**

Examines the relationship between China's recent history and its booming contemporary economy and society through on-location study in a Chinese city. The course makes use of a rich array of historical and other kinds of sites to teach students to think critically about themes and events that played a shaping role in the unfolding of modern Chinese history.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Specific Regions  
Departmental Category: Asia Content

**HIST 4711 (3) The Medieval Crusades: Holy War and Its History, 1095-1400**

Studies the innovation, impact and meaning of holy war and the expansion of Christendom during the High Middle Ages. Topics include the definition of crusade and crusaders, religious persecution and tolerance, the expansion of European modes of government, war memory, colonization and its aftermath, the meaning of the Holy Land and the home front.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1011 or HIST 2170.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Ancient and Medieval

**HIST 4713 (3) History of Russia through the 17th Century**

Introduces the history and culture of Russia from the 9th to the 17th century. Emphasizes selected topics in social, economic, religious and cultural history, including the formation of the Russian state conversion to Orthodox Christianity, the Mongol invasion and the reign of Ivan the Terrible.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1011.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Specific Countries

**HIST 4718 (3) Ancient, Classical, and Medieval Japanese History**

Begins with the prehistoric and protohistoric periods. Explores the development of Japan's classical age and traces the rise and attenuation of an elite warrior government.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Specific Regions  
Departmental Category: Asia Content

**HIST 4723 (3) Imperial Russia**

Surveys major cultural, social, and economic changes from the reign of Peter the Great through World War I.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Specific Countries

**HIST 4726 (3) A Nation of Immigrants: Immigration in American History**

Examines the shifting kaleidoscope of immigration to the United States in the 19th and 20th centuries. Considers immigrant motives, cultures and experiences; changing cultural and political ideas about the value of immigration; the relationship of immigration and immigration policy to ideas about the American national project; the creation and consequences of immigration law.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-U.S. Perspective  
Departmental Category: United States: Topical Courses 1

**HIST 4728 (3) Japan's Empire: Birth and Death**

Examines the origins of Japan's wartime military state in the age of the samurai and the subsequent dislocations of revolution, industrialization, Westernization, and nation-building. Topics may include: colonialism in Asia, evolving roles for women, the rise and fall of democracy, the origins of fascism, the home front, military atrocities, the atomic bombs, war memory, and the art and literature of the late nineteenth and early twentieth centuries.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5728

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Specific Regions  
Departmental Category: Asia Content

**HIST 4733 (3) The Russian Revolution and the Soviet Regime**

Covers in detail the significant social, economic and political events of Soviet Russia from the February Revolution of 1917 to the present.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Specific Countries

**HIST 4738 (3) Japan's Great Peace, 1590-1868**

When we think of early modern Japan we think of samurai: swords flashing, heads rolling. Such images circulate through popular culture via films, anime, and video games. But samurai were only one small part of a complex society, and early modern Japan was characterized by over 250 years of peace. This course spotlights factors that enabled Japan's "great peace": political stability, the growing economy, foreign relations, restructured gender and family roles, and popular culture.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Specific Regions  
Departmental Category: Asia Content

**HIST 4758 (3) Japan after World War II**

Explores political, economic, social, and cultural factors in postwar Japan. Although defeat in 1945 is often seen as a moment of breakage with the past, the outlines of Japan today emerged before and during World War II. This course traces the impact of occupation by the Allied powers, the development of a "special relationship" with the United States, high-speed economic growth, social change, globalization, war memory, and other themes in the late twentieth-century Japanese nation-state.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Specific Regions  
Departmental Category: Asia Content

**HIST 4761 (3) Roman Law**

Studies the constitutional and legal history of ancient Rome; emphasizes basic legal concepts and comparisons with American law. No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5761 and CLAS 4761 and CLAS 5761

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Ancient and Medieval

**HIST 4776 (3) History and Genealogy in American Society**

Introduces students to the uses and cultural importance of family history in American society and to the techniques of doing genealogy. It examines the subject of genealogy through its relationship to nostalgia, ethnicity, regionalism, slavery, race, sexuality, immigration, and national identity between the colonial period and the present. The course also requires students to engage in primary research on their own family or a family of their choosing.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**HIST 4800 (3) Special Topics in Global History**

Organized around themes that change yearly, this class allows students to study and research processes, phenomena, and events of global significance in historical context. Will stress historical subjects that span multiple geographic regions of the globe. Topics could include the global history of: the arms trade; slavery; health and disease; youth culture; women's rights; genocide, the environment, migration, economic trade, warfare exploration etc...

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Methodological, Comparative, and Global

**HIST 4803 (3) Special Topics in European History**

Covers specialized topics in European history, usually focusing on a specific country or theme. Formerly offered as a general special topics course.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisites HIST 1011 or HIST 1012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Specific Countries

**HIST 4806 (3) Special Topics in American History**

Focuses on special topics in U.S. history to provide a novel thematic, comparative, or methodological focus that cuts across usual geographical and temporal ranges within American history. Topics vary each semester. Students will engage in focused historical learning and research that spans across geographical and temporal ranges within American history. Topics may include: the History Animals in the American West, Slavery along the Atlantic Rim, Presidential Power in the Twentieth Century, the History of American Football, Immigration and Migration in the American Past, etc...

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HIST 4808 (3) Special Topics in World Areas History**

Covers specialized topics in the history of World Areas outside of Europe and/or North America, usually focusing on one country or region.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: World Areas: Specific Regions

**HIST 4820 (3) Human Rights: Historical Perspectives**

Examines the history of modern ideas of human rights. Focuses on themes such as the universalism/cultural relativism debate, colonialism, nationalism, refugees and stateless peoples, the United Nations and humanitarianism, ethnic genocide in Rwanda, and human rights abuses by the Taliban regime in Afghanistan.

**Requisites:** Requires a prerequisite of 6 hours of credit in any History course. Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Methodological, Comparative, and Global Departmental Category: Asia Content

**HIST 4827 (3) Modern U.S. Jewish History since 1880**

Explores the experience of Jews in the United States from the 1880's when the great migration of Jews from Eastern Europe began, through the twentieth century. Students will explore the changing ways in which Jews adapted to life in the U.S., constructed American Jewish identities, and helped to participate in the construction of the United States as a nation.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 4827

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: United States: Topical Courses 2

**HIST 4830 (3) Human Trafficking in Global Perspective**

Surveys the global history of slavery, serfdom, chattel slavery, debt bondage, pawnship, domestic servants, bonded labor, child soldiers, forced marriage, sex trafficking, abolitionism, and meanings associated with freedom from the ancient world to the modern day.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Diversity-Global Perspective Departmental Category: Asia Content

**HIST 4837 (3) Jews in the American West**

Explores the history of Jewish migration and settlement in the American West. Jewish pioneers in the nineteenth century included explorers, businessmen, and cowgirls that established small communities in territories that had not yet achieved statehood. As westward expansion progressed, Jews continued to find opportunity in the West, balancing assimilation with unique expressions of religious identity. The history of communal institutions including synagogues, hospitals and summer camps offers new perspectives on this underrepresented segment of American Jewry.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 4837

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HIST 4930 (1-6) History Internship**

Matches selected students with supervised internships in professional archives research libraries, historical associations, and special projects. Interns apply their academic area specialty to their work in the field. Internships have a work and academic (reading and writing) component.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) History (HIST) majors and minors only.

**Recommended:** Prerequisite completion of lower-level history coursework (for example HIST 1015 or HIST 1025).

**Additional Information:** Departmental Category: Methodological, Comparative, and Global

**HIST 4990 (1-3) History Lab: Methods, Sources, and Practices of the Past**

Offers students an additional, intensive, historical learning experience intended to enrich and deepen students' study of the past. Lab credit is designed to enhance the traditional three-credit upper-division lecture course by offering students supplementary training in aspects of historical methods, interpretation, application tools, and analysis. Possible lab topics might include but not be limited to: oral history lab, digital history lab, primary source lab, etc.

**Repeatable:** Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: Methodological, Comparative, and Global

## History - Bachelor of Arts (BA)

Historians study the past, in all of its complexity, to better understand our contemporary world and the forces that created it. Historians analyze change over time, and they use archival and other primary-source evidence to build interpretations that explain change and put it into context. In seeking to understand historical subjects on their own terms, and by appreciating the diverse perspectives of past actors, students of history develop empathy even as they rigorously engage with the ethical dimensions of past human decisions and actions. When students study the past on its own terms, they recognize their power to understand the present and shape the future.

History faculty conduct research and teach courses in a wide range of eras—from ancient to modern times—and across most major world areas including Africa and the Middle East, South and East Asia, Europe and the Americas. History faculty also pursue multiple methodologies and approaches, including cultural, diplomatic, demographic, economic, environmental, ethnic, gender, intellectual, legal, political, religious, social and transnational history.

The undergraduate degree in history balances the broad study of various world regions, exposure to multiple discipline-specific methods, and the freedom to pursue individual areas of interest. At the lower-division level, you are required to take one introductory course on the history of the United States, one on the history of Europe and one on the history of other areas of the world. Methods courses will provide an Introduction to Global History and more intensive practice in Historical Thinking and Writing (a sophomore-level seminar course that also serves as your upper-division writing requirement). At the upper-division level, you have greater flexibility because you take more courses, so long as you take at least one class in U.S. history, one in European history and two in the history of other areas of the world or in comparative/global history. In addition, when choosing courses to fulfill your major requirements, you will need to take at least two pre-modern history courses and two modern history courses.

While the major requires both geographical and chronological breadth, the requirements are flexible enough that you can concentrate your studies in a specific geographic area (for example Britain, China, Latin America or the U.S.), historical period (for example the Ancient world, the Medieval period or the twentieth century), or central theme (for example, environmental or diplomatic history, the history of revolution and war, imperialism and colonialism, borderlands and migration, cultural and intellectual history, or religious history). Within these areas, you are free to plan your program around a diverse set of rotating course offerings.

As you gain expertise in historical skills, knowledge of multiple regions and familiarity with diverse methodologies, you will apply that training

to a capstone project. During a one-semester capstone senior seminar or a two-semester honors sequence, you will engage in your own original research, producing either a substantial research paper or an Honors thesis. History majors also have other undergraduate research opportunities and access to history-related internships.

Many history majors and minors combine their study in fruitful ways with other humanities fields or related programs such as international affairs, Jewish studies, women and gender studies, or Asian languages and civilizations. Moreover, many of our students combine a major or minor in history with studies in other social or natural science disciplines, or even as a complement to training in CU's professional schools such as Business or Engineering and Applied Sciences.

Course code for this program is HIST.

## Requirements

### Total Credit Hours

Students must complete 42 credit hours in history courses with grades of C- or better. Of those 42 credit hours, 24 must be at the upper division. Students should complete the required 1000-level survey courses, HIST 1800 or HIST 1830 and HIST 3020 before they enroll in any 4000-level history courses.

### Required Courses and Credits

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below.

Code	Title	Credit Hours
<b>Lower-division Requirements</b>		
One 1000-level United States history course		3
One 1000-level Europe history course		3
One 1000-level world areas history course		3
One 1000-level global history course: HIST 1800 or HIST 1830		3
<b>Upper-division Requirements</b>		
HIST 3020	Historical Thinking & Writing <sup>1</sup>	3
One 4000-level United States history course		3
One 4000-level Europe history course		3
Two 4000-level World Areas or Comparative/Global history courses		6
Two 4000-level HIST electives		6
One 3000-level Capstone Senior Seminar or HIST 3110 Honors Seminar <sup>2</sup>		3
<b>Lower- or Upper-division Elective Requirement</b>		
6 credit hours in any other HIST courses		6
<b>Historical Period Requirement <sup>3</sup></b>		
6 credit hours in courses whose focus falls primarily before 1800		
6 credit hours in courses whose focus falls primarily after 1800		
<b>Total Credit Hours</b>		<b>42</b>

Code	Title	Credit Hours
<b>Ancillary Written Communication Requirement <sup>4</sup></b>		
	History Majors should select from one of the following lower-division written communication courses:	3-4

ARSC 1080	College Writing and Research
ARSC 1150	Writing in Arts and Sciences
CLAS 1020	Argument from Evidence: Critical Writing about the Ancient World
ENGL 1001	Writing, Reading, Culture
PHIL 1500	Reading, Writing and Reasoning
WRTG 1100	Extended First-Year Writing and Rhetoric
WRTG 1150	First-Year Writing and Rhetoric
WRTG 1250	Advanced First-Year Writing and Rhetoric
<b>Total Credit Hours</b>	<b>3-4</b>

<sup>1</sup> Students are highly encouraged to take HIST 1800 prior to HIST 3020, but HIST 1800 and HIST 3020 may be taken concurrently when necessary. However, HIST 3020 may not be taken prior to HIST 1800.

<sup>2</sup> HIST 1800 and HIST 3020 must be completed prior to enrolling in a Capstone Senior Seminar. Concurrent enrollment is not permitted. Any additional 3000-level seminars can fulfill requirements that normally are fulfilled by 4000-level courses.

<sup>3</sup> 2000-level HIST courses cannot be used to fulfill this requirement. (A list of courses broken down by geographic areas and historical periods is available on the History Department website.)

<sup>4</sup> Complete with a grade of C- or better.

NOTE: Under normal circumstances, no more than 45 credit hours in history may be used toward a student's total University of Colorado Boulder graduation requirements. Students must have a grade point average of at least 2.00 in the major in order to graduate. Students may receive credit for HIST 1012 and/or HIST 1025 and/or 3 lower-division elective HIST credit hours by obtaining a score of 4 or better on the high school Advanced Placement history test(s). Some types of International Baccalaureate credit are acceptable; consult one of the major advisors to determine individual applicability. Credit from a CLEP History test cannot be applied to the major.

All students majoring in history must complete at least 12 credit hours of upper-division history in courses taught by the CU Boulder faculty. In addition, HIST 3020 and the 3000-level Senior Seminar must be successfully completed on the CU Boulder campus with a C- or better.

## Graduating in Four Years

Students should consult the Four-Year Guarantee Requirements for further information on eligibility for the four-year guarantee. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in history, students must consult a history advisor each semester, but the following plan provides a rough outline of acceptable progress.

## Recommended Four-Year Plan of Study

Through the required coursework for the major, students will fulfill all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement and both components of the Written Communication Gen Ed Skills Requirement. Depending on the courses selected within the major, students can also potentially complete some of the Social Sciences area of the Gen Ed Distribution Requirement and both the US and Global Perspective categories of the Gen Ed Diversity Requirement.

<b>Year One</b>	
<b>Fall Semester</b>	
Any of the required 1000-level HIST geographic survey courses	3
Ancillary lower-division written communication course	3
Gen. Ed. Distribution course (example: Natural Sciences with Lab)	4
Elective	3
Elective	3
<b>Credit Hours</b>	<b>16</b>

<b>Spring Semester</b>	
Any of the required 1000-level HIST geographic survey courses	3
Gen. Ed. Skills course (example: QRMS)	3
Gen. Ed. Distribution/Diversity course (example: Social Sciences/US Perspective)	3
Elective	3
Elective	3
<b>Credit Hours</b>	<b>15</b>

<b>Year Two</b>	
<b>Fall Semester</b>	
Third required 1000-level HIST geographic survey course	3
1000-level Global History (usually HIST 1800)	3
Gen Ed Distribution/Diversity (example: Social Science/Global Perspective)	3
Gen. Ed. Distribution course (example: Natural Sciences )	3
Elective	3
<b>Credit Hours</b>	<b>15</b>

<b>Spring Semester</b>		
HIST 3020	Historical Thinking & Writing (fulfills Gen Ed upper division written communication)	3
Either a 2000 or 4000-level HIST elective (4000-level preferred)		3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Elective		3
Elective		3
<b>Credit Hours</b>		<b>15</b>

<b>Year Three</b>	
<b>Fall Semester</b>	
Two 4000-level HIST geographic area requirements	6
Gen. Ed. Distribution course (example: Social Sciences)	3
Gen. Ed. Distribution course (example: Natural Sciences)	3
Elective	3
<b>Credit Hours</b>	<b>15</b>

<b>Spring Semester</b>	
Two 4000-level HIST geographic area requirements	6
Gen. Ed. Distribution course (example: Social Science)	3
Elective (Upper Division)	3
Elective	3
<b>Credit Hours</b>	<b>15</b>

<b>Year Four</b>	
<b>Fall Semester</b>	
HIST 3000-level Senior Seminar	3
HIST 4000-level elective	3

Elective (Upper Division)	3
Elective (Upper Division)	3
Elective	3
<b>Credit Hours</b>	<b>15</b>
<b>Spring Semester</b>	
HIST upper or lower division level electives	6
Elective (Upper Division)	3
Elective (Upper Division)	3
Elective (Upper Division)	3
<b>Credit Hours</b>	<b>15</b>
<b>Total Credit Hours</b>	<b>121</b>

## Learning Outcomes

To study history is to develop a disciplined way of making sense of the world by inquiring about the past. The History Department has identified a common set of learning objectives that are crucial components of historical thinking. No single course will attend to all of the objectives listed below. Instructors identify learning goals specific to the course they are teaching, and so each course will reflect a unique combination of these broader objectives. However, taking multiple courses at increasing levels of difficulty during your time at CU Boulder will allow students to develop proficiency in *historical literacy*—the substantive knowledge, skills, concepts, methods and habits of mind specific to the discipline of history. These skills build upon and add to critical thinking skills shared across multiple disciplines, such as attentive reading, engaged discussion, recognition of multiple perspectives and effective writing. Mastering each cluster of historical elements will allow students to develop a portfolio of analytical and communication skills that will serve them in and beyond the discipline.

### 1. Substantive Essentials

What do we know about the past? How do we interpret it?

1. **Facts:** Call upon substantial factual knowledge about the past.
2. **Evidence:** Understand that history is an evidence-based discipline that requires identifying reliable sources of information.
3. **Questions:** Ask rigorous and open-ended questions of historical evidence in order to interpret what happened in the past.
4. **Context:** Establish relevant context to relate historical facts and/or evidence to the time and place of their original existence.

### 2. Conceptual Foundations

What foundational concepts frame how we think about the past? How do we analyze historical change?

1. **Change** over time: Understand how change over time, and continuity, shape narratives of the past.
2. **Causation:** Account for causation in explanations of historical change.
3. **Contingency:** Consider historical change as never preordained but dependent upon a set of prior conditions, actions, and events in human societies and the non-human world.
4. **Complexity:** Treat historical change as complex and not easily reduced to simple explanations or single variables.

### 3. Analysis of Historical Narrative

How do we assess accounts of history? How do we engage in scholarly conversation about the past?

1. **Argument:** Recognize historical narrative as a form of argument, built from evidence and interpretation and open to rigorous questioning and critique.
2. **Sources:** Assess authors' interpretations of sources (primary and secondary) as evidence in their historical narratives and arguments.
3. **Methods:** Identify how historians have used various sources and methodological traditions, including those drawn from other disciplines where relevant, to build their interpretations.
4. **Historiography:** Evaluate historical argument as part of a larger historiographical conversation among scholars who offer multiple and changing interpretations.

### 4. Production of Historical Knowledge

How do we develop arguments about the past? How do we share historical narratives?

1. **Research:** Conduct historical research, which includes: navigating libraries, databases, and archives; identifying, locating, and managing sources; and summarizing significant amounts of information.
2. **Explain:** Build historical explanations by evaluating, interpreting, and synthesizing historical evidence, and applying relevant theory and methods.
3. **Express:** Share historical knowledge and argument through written, oral, digital, and/or other forms of expression.

### 5. History and Perspective

Why do multiple perspectives matter to interpreting history? How can history help us to understand the present world?

1. **Global literacy:** Develop in-depth knowledge of multiple regions, countries, cultures, and communities across the world, and the factors that have shaped their historical interactions and interconnections, sometimes at a global scale.
2. **Diversity:** Identify relevant categories of analysis to frame and explore questions that aim to deepen our understanding of the complexity, richness, diversity, and power dynamics within human experience in the past and present.
3. **Public application:** Apply historical knowledge, skills, and habits of mind to the problems of the present world.

## History - Minor

Historians study the past, in all of its complexity, to better understand our contemporary world and the forces that created it. Historians analyze change over time, and they use archival and other primary-source evidence to build interpretations that explain change and put it into context. In seeking to understand historical subjects on their own terms, and by appreciating the diverse perspectives of past actors, students of history develop empathy even as they rigorously engage with the ethical dimensions of past human decisions and actions. When students study the past on its own terms, they recognize their power to understand the present and shape the future.

History faculty conduct research and teach courses in a wide range of eras—from ancient to modern times—and across most major world areas including Africa and the Middle East, South and East Asia, Europe and the Americas. History faculty also pursue multiple methodologies

and approaches, including cultural, diplomatic, demographic, economic, environmental, ethnic, gender, intellectual, legal, political, religious, social and transnational history.

Students who enjoy taking history courses may want to consider becoming either a history major or minor. In general, the major requires a more in-depth commitment from students, whereas the minor offers students an opportunity for some specialization in history without all the obligations of the major.

For those students already pursuing a major in another field, a history minor might be the more viable option, because the minor requires the completion of fewer overall history courses.

## Program Requirements

All coursework applied to the minor must be completed with a grade of C- or better. No pass/fail work may be applied. The GPA for all minor coursework must equal 2.00 or higher. At least 12 of the 21 total credits and 6 of the 12 upper-division credits in History must be in courses taught by CU Boulder faculty.

All history courses taken at any CU campus, even ones not applied to minor requirements, are figured into the minor GPA.

### Required Courses and Credits

Code	Title	Credit Hours
	One United States history course	3
	One Europe history course	3
	Two World Areas or Global/Comparative history courses	6
	Three elective history courses	9
<b>Total Credit Hours</b>		<b>21</b>

At least 12 credits must be taken at the 4000-level.

1000- 2000- and 4000-level HIST courses *are* applicable to the minor. 4000-level courses may be used to fulfill both upper-division credit hours and geographic area credit hours.

HIST 3020 and all 3000-level Senior Seminars are ordinarily restricted to history majors. 3000-level courses may occasionally be taken by minors if the course is not full as of the second week of drop-add and/or you have written permission from the instructor.

## Honors Program

### Arts & Sciences Honors Program

The Arts & Sciences Honors Program provides a community for highly motivated and academically engaged undergraduate students. It offers opportunities for intellectual engagement through Honors courses, academic-inspired events and Honors thesis research and creative work (through which student earn Latin Honors).

CU Boulder incoming honors-qualified first-year and transfer students, and continuing undergraduates who have a cumulative GPA of 3.3 or higher, are eligible to take one Honors Program course per semester. Students are not required to be enrolled full time; part-time students are also eligible to enroll in our courses. There is no extra cost to take an honors version of a course. Students are not required to take Honors courses, which means that students who take Honors Program courses are choosing to work at an honors level.

Admission for first-year and transfer students is done automatically through their application to CU Boulder's College of Arts & Sciences. Generally, students in the top 10 percent of the incoming class receive an invitation. This is based on numerous factors including high school GPA and application essays. Applicants to the College of Arts & Sciences are reviewed as the admissions process progresses and honors-eligible students will receive an invitation to the Honors Program after they have been admitted. Continuing students in the College of Arts & Sciences (those who have been at CU past their first year) who maintain a GPA of 3.3 or higher are automatically eligible to participate in the Honors Program. There is no Honors Program application; in all cases, eligibility is determined automatically.

Latin honors (<http://www.colorado.edu/honors/graduation/>) in the College of Arts & Sciences are conferred by the Honors Program. To graduate *cum laude*, *magna cum laude* or *summa cum laude*, honors-qualified students must successfully write and defend an Honors thesis. Most students pursue Latin honors in their major (based on departmental requirements), but students may also pursue General Honors (<http://www.colorado.edu/honors/generalhonors/>) via the Honors Program, providing students the opportunity to write an interdisciplinary thesis.

The Honors Residential Academic Program (Honors RAP (<http://www.colorado.edu/hrap/>)) is the optional residential component of the program. Honors RAP is open to a limited number of qualified incoming and continuing students. Students engage in small classes and co-curricular activities, forming an academic community in their residence hall. (See the Communities tab for more information about the Honors RAP.)

The Honors Program offers the certificate in Interdisciplinary Honors Studies (p. 410), which allows undergraduate students to develop skills in interdisciplinary theory and practice that they can draw on to address social problems. The certificate is founded on the principles of diversity: intellectual, social and experiential.

## Courses

### HONR 1001 (1) Honors Coseminar

Honors coseminars are designed to combine an honors seminar experience with the shared experience of an organized lecture course. Designed typically for 15 students, coseminars are taken for an additional 1 credit hour. Coseminars provide honors students with an opportunity to extend their common experience in the course lecture into an enriched interactive, critical thinking opportunity.

**Repeatable:** Repeatable for up to 4.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Enrollment allowed for first-year AS students invited into the Honors Program for the current academic year (not including Honors RAP students) and continuing AS students with a minimum cumulative GPA of 3.300.

**Additional Information:** Arts Sciences Honors Course

### HONR 1125 (3) Heroines and Heroic Traditions

Reevaluating global heroic traditions is critical to understanding power structures. In this course we will interrogate the concept of the monomyth and redefine what it means to be a hero/ine. The course will explore comparative mythology, folklore, literature, film and television in order to reinterpret and investigate heroic traditions in diverse communities.

**Equivalent - Duplicate Degree Credit Not Granted:** HONR 4025

**Requisites:** Enrollment allowed for first-year AS students invited into the Honors Program for the current academic year (not including Honors RAP students) and continuing AS students with a minimum cumulative GPA of 3.300.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sciences Honors Course

Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-U.S. Perspective

### HONR 1810 (3) Honors Diversity Seminar

Students will develop an appreciation for, and experience with, diverse perspectives. In particular this includes: racial/ethnic, gender, sexual orientation, and class perspectives, for constructing knowledge as they proceed through their undergraduate studies. Three themes provide the framework for the course: education for the next century, the 21st century citizen, and the modern individual in a diverse society. Topics explored include privilege, stigmatization, targeted and nontargeted grouping, and oppression. Engaging in independent research and experiential, empathetic experiences is required.

**Requisites:** Enrollment allowed for first-year AS students invited into the Honors Program for the current academic year (not including Honors RAP students) and continuing AS students with a minimum cumulative GPA of 3.300.

**Additional Information:** Arts Sciences Honors Course

Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-U.S. Perspective

### HONR 2250 (3) Ethics of Ambition

Through selected readings in classical literature on ethics and through more contemporary readings and films, examines critical ethical issues relating to the competition of ambitions and the alternative styles of choosing between courses of action in a dangerous world. Uses biographies of those whose lives illustrate both the complexities of the struggles and the profundity of possibilities. Considers the unconscious metaphors of national visions and ambitions, the competing ethics of ends and means, the conflicting ambitions in a pluralistic society, and the transcendent ambitions of visionaries.

**Equivalent - Duplicate Degree Credit Not Granted:** FARR 2660

**Requisites:** Enrollment allowed for first-year AS students invited into the Honors Program for the current academic year (not including Honors RAP students) and continuing AS students with a minimum cumulative GPA of 3.300.

**Additional Information:** Arts Sciences Honors Course

Arts Sci Core Curr: Ideals and Values

Arts Sci Gen Ed: Distribution-Arts Humanities

### HONR 2251 (3) Introduction to the Bible

Studies the major works, figures, and genres of the Bible and attempts to understand what they meant to their own time and why they became so important to Western civilization and contemporary America.

**Requisites:** Enrollment allowed for first-year AS students invited into the Honors Program for the current academic year (not including Honors RAP students) and continuing AS students with a minimum cumulative GPA of 3.300.

**Additional Information:** Arts Sciences Honors Course

Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

### HONR 2500 (3) Open Topics

Variety of new courses at the 2000 level. See honors program announcements for specific contents.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Enrollment allowed for first-year AS students invited into the Honors Program for the current academic year (not including Honors RAP students) and continuing AS students with a minimum cumulative GPA of 3.300.

**Additional Information:** Arts Sciences Honors Course

### HONR 2820 (3) Future of the Spaceship Earth

Examines major ecological, political, economic, cultural, legal, and ethical issues that will shape the future. Students consider how their decisions influence the future, and reflect on fundamental values and ideals underlying the search for solutions to these complex problems.

**Equivalent - Duplicate Degree Credit Not Granted:** FARR 2820

**Additional Information:** Arts Sci Core Curr: Ideals and Values

Arts Sci Gen Ed: Distribution-Arts Humanities

### HONR 2860 (3) The Figure of Socrates

Investigates why Socrates intrigued great writers like Aristophanes, Plato, Xenophon, and Aristotle and why, through his life and execution by the Athenian democracy, he still influences Western ethics, politics, and education and is central to cultural literacy.

**Additional Information:** Arts Sciences Honors Course

Arts Sci Core Curr: Literature and the Arts

Arts Sci Gen Ed: Distribution-Arts Humanities

**HONR 3004 (3) Women in Education**

Honors women in education and their legacy. Introduces women educators, beginning in the late 19th century, whose significant theories of education and work in teaching have had an impact on all of our lives, in history and in society. Explores the educational theories and methods of several representative women educators and analyzes them through an investigation of their professional and personal lives.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 3004

**Additional Information:** Arts Sciences Honors Course

Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-U.S. Perspective

**HONR 3220 (3) Advanced Honors Writing Workshop**

Intensive practice of expository writing skills, particularly argumentation in longer forms. Course includes extensive practice in researching secondary sources, synthesizing large bodies of information, structuring cogent arguments for diverse sources, etc.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sciences Honors Course

Arts Sci Core Curr: Written Communication

Arts Sci Gen Ed: Written Communication-Upper

**HONR 3270 (3) Journey Motif in Women's Literature**

Investigates literature thematically centered on forced migration, diaspora, and marginalized communities through novels, graphic novels, and short essays by women. Themes explored: feminism, identity, intersectionality, diaspora, issues of gender and borders, exile, ethnicity, and literary theory among others.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sciences Honors Course

Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-U.S. Perspective

**HONR 3550 (1-6) Open Topics**

Investigates special topics in humanities, social sciences, and natural sciences. Topics vary from semester to semester and from course to course. See Honors program announcements for specific contents. Open to Honors-qualified students beyond the freshman year. May be repeated for up to six credit hours for different topics.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sciences Honors Course

**HONR 3810 (3) Privilege and Modern Social Construction**

Examines social constructions that lead to productive interactions between and among American social communities. Using case studies and humanistic accounts, students analyze the lived experiences of a unique group or successful citizens who routinely evidence productive practices of multicultural engagement. Through interactions with policy makers and community practitioners, students design and enact activities that allow them to reconstruct their personal patterns of privilege practices of their peer groups in various settings.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sciences Honors Course

**HONR 3900 (3) Honors Internship Course**

Engages students in hands-on work in the community imparting practical knowledge and real-world experience. The course is designed to help students combine professional experiences with an academic component that involves critical thinking and interdisciplinary approaches to problem-solving. Benefits of the course include acquiring professional skills and knowledge, building a network of connections, developing insights on possible career options, and applying classroom material to real-world experiences.

**Grading Basis:** Letter Grade

**HONR 4000 (3) Open Topics**

Variety of new courses at the 4000 level, see Honors Program announcements for specific contents.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sciences Honors Course

**HONR 4025 (3) Heroines and Heroic Tradition**

Given recent controversies about the roles of women in power, this course re-evaluates heroic traditions as the stories that ground our sense of public endeavor. What do we mean by heroic? What is a heroine? Are heroines different from heroes?

**Equivalent - Duplicate Degree Credit Not Granted:** HONR 1125

**Requisites:** Enrollment allowed for first-year AS students invited into the Honors Program for the current academic year (not including Honors RAP students) and continuing AS students with a minimum cumulative GPA of 3.300.

**Additional Information:** Arts Sciences Honors Course

Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-U.S. Perspective

**HONR 4055 (3) Discourse Analysis and Cultural Criticism**

Discourse analysis critically investigates the founding assumptions by which systems of meaning operate. Its practice is aimed at a rigorous, systematic analysis of both specific cultural issues and the dynamics by which structures of meaning may be maintained or transformed.

**Requisites:** Requires a corequisite course of HONR 4056. Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sciences Honors Course

**HONR 4056 (1-3) Service Practicum: Discourse Analysis and Cultural Criticism**

Help communities in need, with credit hours varying according to time commitment. The practicum provides experiential and intellectual understanding of the discourses and dynamics that maintain major cultural hierarchies of values and of resource distribution.

**Requisites:** Requires a corequisite course of HONR 4055. Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sciences Honors Course

**HONR 4075 (3) Environmental Justice**

Examines the experiences of people who face disproportionate environmental harms related to historical marginalization correlating with race, class, and gender. Covers the history, principles, and contemporary state of the environmental justice movement in its opposition to environmental inequalities.

**Requisites:** Enrollment allowed for first-year AS students invited into the Honors Program for the current academic year (not including Honors RAP students) and continuing AS students with a minimum cumulative GPA of 3.300.

**Recommended:** Junior or Seniors with 57-180 credits completed.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-U.S. Perspective

**HONR 4490 (3) Capstone in Interdisciplinary Honors Studies**

Explores the value of interdisciplinarity for conceptualizing, investigating, and solving problems. Critical analysis of interdisciplinarity across different fields will hone creative thinking, research, writing, and communication skills. Students will create a research project that encompasses multiple disciplines, informed by an appreciation of diverse points of view. Students will also examine how an interdisciplinary perspective is vital to being an engaged citizen.

**Requisites:** Requires prerequisite course of HONR 1810 (minimum grade C-).

**HONR 4900 (1-6) Independent Study**

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sciences Honors Course

**HONR 4959 (3-6) Honors Thesis**

Requires approval of Honors Program.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sciences Honors Course

## Interdisciplinary Honors Studies - Certificate

The certificate in Interdisciplinary Honors Studies allows undergraduate students to develop skills in interdisciplinary theory and practice that they can draw on to address social problems. The certificate is founded on the principles of diversity: intellectual, social and experiential.

Students who pursue the certificate will cultivate the ability to engage in meaningful dialogue across disciplinary divides and across social differences. Completing the certificate will help students develop the ability to look at a problem from multiple perspectives and the skills to help them work with people in society from all backgrounds and identities.

Housed in the Arts & Sciences Honors Program, the certificate draws from the curriculum across the College of Arts & Sciences, complementing a student's specialization in their major field.

Participation in the certificate program allows students to engage in interdisciplinary scholarship, cultivate critical thinking skills and become engaged campus and community citizens.

## Requirements

The interdisciplinary honors certificate requires 18 credits - 9 credits in 3 required HONR courses and 9 credits in elective honors

courses. Students must complete 9 of the 18 credit hours at the upper-division level.

Code	Title	Credit Hours
<b>Required Courses</b>		
HONR 1810	Honors Diversity Seminar	3
HONR 3900	Honors Internship Course	3
HONR 4010	(Honors Capstone Seminar)	3
<b>Total Credit Hours</b>		<b>9</b>

## Additional Requirements

In addition to the three required courses, an additional 9 credits (3 courses) in the form of electives. Electives can be drawn from courses offered by the Honors Program (course sections 880-889, classified as Arts & Sciences Honors courses in the registration system). At least one elective must be an upper division course.

See lists of courses that fulfill this requirement from future, current and past semesters: Fall 2023 (<https://www.colorado.edu/honors/fall-2023-honors-program-course-information/>), Spring 2023 (<https://www.colorado.edu/honors/spring-2023-courses/>), Fall 2022 (<https://www.colorado.edu/honors/fall-2022-honors-program-course-information/>), Spring 2022 (<https://www.colorado.edu/honors/spring-2022-honors-program-course-information/>), Fall 2021 (<https://www.colorado.edu/honors/fall-2021-honors-program-course-information/>), Spring 2021 (<https://www.colorado.edu/honors/spring-2021-honors-program-course-information/>), Fall 2020 (<https://www.colorado.edu/honors/fall-2020-honors-program-courses/>) and Spring 2020 (<https://www.colorado.edu/honors/spring-2020-honors-program-courses/>).

## Learning Outcomes

The training in interdisciplinary and cross-divisional thinking central to the Certificate in Interdisciplinary Honors Studies will prepare students to learn about, ask questions about, and make connections with topics and areas unknown to them when they are in the workforce and/or in graduate studies. Similar to students' training in interdisciplinarity, their coursework addressing diversity, privilege, and social marginalization will prepare them for conversations and collaborations across difference in work and graduate studies and in their communities. The Arts & Sciences Honors Program is inherently interdisciplinary, and coursework offered by the program spans the three divisions of the College of Arts & Sciences. Drawing on the program's strengths, the certificate will teach students how to think, engage, and converse across disciplines, divisions, and differences.

Upon completing the certificate, students will:

- Become fluent in cross-disciplinary dialogue through core certificate courses and through elective courses distributed across at least 2 divisions (Arts Humanities, Social Sciences and Natural Sciences).
- Understand and engage with the challenges and advantages of interdisciplinary work in the introductory and capstone courses.
- Reflect on the internship experience from multiple disciplines and across divisions in the internship course.
- Develop a framework within which to understand interdisciplinary work, as well as communication across academic departments as well as across axes of social difference in the introductory and

capstone courses, which will explicitly address interdisciplinarity and dialogue across social differences.

## Humanities

Humanities is an interdisciplinary program that allows students to combine different fields of study from all the disciplines of the humanities as well as from the social sciences (in particular, anthropology, ethnic studies, political science, psychology, sociology, women and gender studies) and beyond. This major especially encourages students to develop their interdisciplinary interests in fields of cultural and humanistic expression such as literature, art, music, film, philosophy, history, modern media, religion and contemporary critical practice and theory, and we encourage them to think outside of these fields as well.

The undergraduate degree in humanities emphasizes knowledge and awareness of:

- the ways cultures and traditions define both themselves and each other;
- the formal, rhetorical and ideological properties of cultural texts in a variety of forms and media (literature, history, philosophy, film, music, visual arts, architecture, dance, theatre, performance);
- the dynamic relationships between texts and their social and historical contexts;
- the genres and modes of texts and their production, transformation and reception; and
- the theoretical and ideological underpinnings and implications of one's own and others' interpretive approaches and assumptions.

In addition, students completing the degree in humanities are expected to acquire the ability and skills to:

- analyze and interpret texts in a variety of forms and media;
- articulate such analyses and interpretations at a sophisticated level in both written and oral forms;
- discern similarities and differences among individual works, artistic media, historical periods and cultural traditions;
- reason critically; and
- explore the connections between contemporary issues and academic work.

Course code for this program is HUMN.

## Bachelor's Degree

- Humanities - Bachelor of Arts (BA) (p. 418)

## Minor

- Humanities - Minor (p. 419)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

## Courses

### HUMN 1001 (3) Forms of Narrative: An Introduction to Humanities

Introduces students to forms of narrative from different historical, geographical, and cultural contexts in different media in order to explore how narrative, as cognitive tool and form of representation, functions as a means of understanding human experience. Students learn to analyze and interpret narratives and improve critical thinking, the practice of close reading, and written and verbal communication. Serves to introduce students to the types of questions and methods of interpretation encountered in Humanities.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

### HUMN 1002 (3) Visualizing Culture: An Introduction to Humanities

How do we see, what do we consider worth looking at, how does this shape culture? What do visual media do to/for us and how do we endow them with meaning? This class probes such questions using a range of visual media including visual art, film, music videos, and social media. With the help of theoretical, scholarly, and popular sources, students analyze examples of visual culture and articulate their responses to the issues raised.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 1003 (3) Conflicts in History: Civilization and Culture: An Introduction to Humanities**

Introduces students to concepts of culture, history, and civilization as sites of conflict across different historical times and geographical locations. Course materials address political and artistic questions that intersect across different ages through their different histories and guiding concepts. Students will learn to read and understand critical, historical, political, and artistic works. Emphasis will be placed on developing critical thinking, close reading, and the ability to articulate and develop issues in writing and verbally.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 1004 (3) Sound and Meaning**

This course examines how music creates meaning. Topics include: How ancient and modern writers conceive of the effects of music on its listeners; how the meanings of canonic texts are transformed in contemporary digital culture; how musical works are established through music writing and sound recording; and how music is used to voice identity. Musical examples are drawn primarily from historical repertoires of western art music with comparative perspectives from more recent popular and recorded music.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 1110 (3) Introduction to Humanities: Literature 1**

Introduces students to works from the major Western literary periods (Classical, Medieval, Renaissance, Baroque) from the 8th c. BC to the early 17th c. AD comparatively, i.e., outside their national literary boundaries. Theorizes interdisciplinary, genre studies, periodization, comparativism, thematology, hermeneutics, criticism, etc. May be taken separately from HUMN 1120.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 1120 (3) Introduction to Humanities: Literature 2**

Introduces students to works from the major Western literary periods (Baroque, Enlightenment, Romanticism, Realism, Modernism) from the 17th- through the 20th-centuries comparatively, i.e., outside their national literary boundaries. Theorizes interdisciplinarity, genre studies, periodization, comparativism, thematology, hermeneutics, criticism. May be taken separately from HUMN 1110.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 1210 (3) Introduction to Humanities: Art and Music 1**

Examines the major artistic and musical works in the Western tradition from ancient Greece through the 16th century in their larger historical, interdisciplinary, and theoretical ("aesthetic") contexts. May be taken separately from HUMN 1220.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 1220 (3) Introduction to Humanities: Art and Music 2**

Examines the major artistic and musical works in the Western tradition from the 17th century to 21st-century post-modernism in their larger historical, interdisciplinary, and theoretical ("aesthetic") contexts. May be taken separately from HUMN 1210.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 1400 (3) Mediterranean Foundations**

Examines the pre-Modern Mediterranean as the foundational zone of Western Humanism and culture, beginning with Classical Antiquity and through to the dawn of Modernity. Through history, art, literature and thought, it studies the region's role as the crucible of Helleno-Persian culture, Roman society, of Judaism, Christianity and Islam, the intersection of Europe, Africa and Asia in the development of Modernity.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 1701 (3) Nature, Climate and Environment in German Culture**

Critically examines cultural products from German-speaking contexts that thematize climate and environment. Depictions of nature, climate and environment are examined in relationship to understandings of race, nation, sexuality, gender, labor, and rural versus urban spaces. Discussions span Romantic conceptions of nature and nation, to colonial resource extraction, to fascist understandings of home and nature, to contemporary political debates around contemporary Germany's environmental policies. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** GRMN 1701

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 2000 (3) Methods and Approaches to the Humanities**

Provides a transition from the introductory courses to the upper-division courses. Introduces the various technical methods and topics encountered in the department's comparative, interdisciplinary upper-division courses, including cultural studies, rhetoric, translation, hermeneutics, word/image studies.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 2100 (3) Arts, Culture and Media**

Promotes a better understanding of fundamental aesthetic and cultural issues by exploring competing definitions of art and culture. Sharpens critical and analytical abilities by asking students to read and compare different theories about arts, culture, media, and identity, and then to apply and assess those theories in relation to a selection of visual and verbal texts from a range of cultural and linguistic traditions.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 2145 (3) African America in the Arts**

Introduces interrelationships in the arts of African Americans and the African American contribution to American culture as a whole.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Core Curr: United States Context  
Arts Sci Gen Ed: Diversity-U.S. Perspective  
Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 2311 (3) Energy Cultures: Oil, Coal, and Atoms in Modern Literature and Film**

Explores the concept of energy and its influence in world culture from the 19th century to the present, paying particular attention to how writers and filmmakers from the United States, Russia, and elsewhere have responded to the accelerating production and consumption of fossil fuels and nuclear power. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** AHUM 2311 and REES 2311

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 2601 (3) Kafka and the Kafkaesque**

Exposes the students to a wide selection of Kafka's literary output and aims to define the meaning of the Kafkaesque by looking not only for traces of Kafka's influence in the verbal and visual arts, but also for traces left in Kafka's own work by his precursors in the literary tradition.

**Equivalent - Duplicate Degree Credit Not Granted:** GRMN 2601

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 3092 (3) Studies in Humanities**

Students should check with the department for specific semester offerings.

**Repeatable:** Repeatable for up to 12.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 3093 (3) Topics in Humanities**

Students should check with the department for specific semester offerings.

**Repeatable:** Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 3104 (3) Film Criticism and Theory**

Surveys the range and function of film criticism, introduces major positions and concepts of film theory and focuses on students' abilities to write about film.

**Equivalent - Duplicate Degree Credit Not Granted:** CINE 3104

**Requisites:** Requires prerequisite course of FILM 1502 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 3200 (3) Fictions of Illness: Modern Medicine and the Literary Imagination**

Examines the ways in which the rise of modern medicine fueled the literary imagination with a new focus, new patterns of perception and potent metaphors. Through a study of various works of fiction, critical theory and medical history, the course traces how medical discoveries and the increasing professionalization of medicine manifested itself in modern literature.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 3210 (3) Narrative**

Explores the nature of narrative in literature, film, and the visual arts.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 3211 (3) The Craft of Mystery**

Explores examples of and theories about the formation and growth of the genre of detective fiction, especially in the late 19th and early 20th centuries. Explores the social conditions of the times in which the texts were written and the possible resulting influences on style. Compares the texts and theories to examples from other genres and time periods.

**Requisites:** Requires either prerequisite course of HUMN 2000 (minimum grade D-) or restricted to students with 57-180 credits (Junior or Senior).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 3212 (3) Shipwrecks, Mutinies, and Other Catastrophes at Sea**

Explores the theatrical analogy that frames our understanding of catastrophes at sea and their literary and visual representation, paying particular attention to issues of gender, race, and sexuality, which are intentionally banned from such representations, but turn out to be their secret focus.

**Requisites:** Requires either prerequisite course of HUMN 2000 (minimum grade D-) or restricted to students with 57-180 credits (Junior or Senior).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 3240 (3) Tragedy**

Studies some of the great tragic works of art, music, and literature from the Greeks to the 20th century. Tragic theory is invoked as an aid to interpretation.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 3280 (3) Social Justice and the Humanities**

Provides a historical foundation for the study of cultural and political movements that aim to remedy racial, gender, economic, and environmental inequalities in order to create more egalitarian societies. Examines depictions of struggles against inequality in the Spanish-speaking world, including slave revolts in nineteenth-century Cuba, anarchist revolutionary efforts during the Spanish Civil War in 1936-39, student protests in late 1960s Mexico, and the fight for environmental rights in contemporary Spain. Taught in English.

**HUMN 3290 (3) Foundations of Disability Studies**

Introduces students to the interdisciplinary field of disability studies by investigating key concepts in disability theory, disability history and culture, media representations of people with disabilities, and pertinent bioethical issues.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-U.S. Perspective

**HUMN 3310 (3) The Bible as Literature**

No single book has been as influential to the English-speaking world as the Bible. We'll read the Hebrew Bible and the New Testament for stories, poetry, and wisdom traditions. We'll approach the Bible as literature by analyzing its plots, characters, and meanings. Students study its textual history, how there came to be a Bible, and the many writers, conflicts, and cultures from which it emerged. We'll consider the Bible's powerful influence on ethics and philosophy. Formerly ENGL 3312.

**Equivalent - Duplicate Degree Credit Not Granted:** ENGL 3310 and JWST 3310

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 3321 (3) Political Thought in Ancient China**

Focuses on the political, religious, philosophical and literary aspects of ancient Chinese civilization (1500 B.C.-A.D. 200). Special attention is paid to foundational works that influenced later developments in Chinese culture. All readings are in English and taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** CHIN 3321

**Recommended:** Prerequisite CHIN 1012 or CHIN 1051.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Asia Content

**HUMN 3341 (3) Literature and Popular Culture in Modern China**

Surveys 20th century Chinese literature and popular culture against the historical background of rebellion, revolution and reform. Emphasizes close and critical reading skills and an understanding of how aesthetic texts reflect and critically engage with historical and cultural experiences. Assignments include novels, essays, short stories, poems, plays, songs, films and scholarly articles. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** CHIN 3341

**Recommended:** Prerequisite CHIN 1012 or CHIN 1051.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Asia Content

**HUMN 3500 (3) Literatures of Consciousness**

Facilitates a complex and productive understanding of consciousness by analyzing and synthesizing interdisciplinary works (including literature, film and theoretical and scientific texts). This interdisciplinary approach enables students to think deeply about the following questions: what is consciousness? How do we think and perceive? What does it mean to be "neurotypical"? What does all of this have to do with who we are?

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 3505 (3) The Enlightenment: Tolerance and Emancipation**

Examines Enlightenment notions of reason, humanity and social progress. Topics include 18th century views on government, science, education, religion, slavery and gender roles.

**Equivalent - Duplicate Degree Credit Not Granted:** GRMN 3505

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 3600 (3) Avatars: Studies in Contemporary Posthumanism**

Seeks to introduce students to the analysis of posthuman thought via the concept of the avatar within our digital cultures. Through an interdisciplinary approach to theory, art, and culture, students will become familiar with the discourse of both humanism and posthumanism as it relates to games, virtual spaces, and digital embodiments. Formerly offered as a special topics course.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 3640 (3) Modernisms: Art and Theory from 1900 to 1960**

Offers an introduction to Modernism in various media, emphasizing in particular the historical development of the visual arts from German Expressionism and Cubism to Neo-Dada and Pop Art. Readings in literature will include Proust, Beckett, Blanchot and poets associated with various art movements. Theoretical readings range from Saussure and Freud to Adorno and Jameson. Recommend prerequisite: HUMN 2000.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 3660 (3) The Postmodern**

Analyzes the cultural and critical practices as well as the thought that defines the postmodern period at the end of 20th century.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 3666 (3) Critical Futures: Theorizing Climate Change**

This course takes an interdisciplinary approach to understanding environmental humanities and explores the insights that arts and humanities can provide in the face of climate change, environmental injustice, and our uncertain futures. By looking at diverse representations/theories about the Anthropocene, this course considers how we account for humans' relationship to nature and what the consequences of this are. It also discusses how art and fiction might harness individual and group will to sustain our world.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 3702 (3) Dada and Surrealist Literature**

Surveys the major theoretical concepts and literary genres of the Dada and Surrealist movements. Topics include Dada performance and cabaret, the manifesto, montage, the ready made, the Surrealist novel, colonialism and the avant-garde, and literary and philosophical precursors to the avant-garde.

**Equivalent - Duplicate Degree Credit Not Granted:** GRMN 3702

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 3800 (3) Paris, Modernity, and the Avant-garde (1848-1914)**

Investigates the development of the concept of the 'avant-garde' in late-nineteenth and early twentieth-century Paris against a backdrop of political and social revolution. Analyzes the innovative nature of certain works of art, theater, photography, music and literature as well as the influence of the city. Probes and problematizes the concept of the artist as social outsider and cultural critic.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 3801 (3) Muslims, Christians, Jews and the Mediterranean Origins of the West**

Provides a historical foundation for the study of western Modernity, including the Anglo-European and Islamic worlds. It focuses on the Mediterranean region in the long Middle Ages (650-1650), emphasizing the role of Christian, Muslim and Jewish peoples and cultures, in Europe, Africa and West Asia. The approach is interdisciplinary incorporating social, economic, cultural, literary and art history, combining lectures with discussions based around readings of contemporary documents and the analysis of contemporary artifacts.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 3801

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective

**HUMN 3802 (3) Politics and Culture in Berlin 1900-1939**

Examines early 20th century German culture, with emphasis on the Weimar Republic (1918-1933) in light of contemporaneous political discussions. The course presents modern art and literature (Expressionism, Dada, Brecht's epic theater) and architecture and design (Bauhaus, Werkbund) as well as political movements of women, sexual minorities, and Berlin's Jewish communities. Taught in English. Offered through CU Study Abroad Program.

**Equivalent - Duplicate Degree Credit Not Granted:** GRMN 3802

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 3811 (3) Love, Death, and Desire: Classical Japanese Literature in Translation**

Surveys the major works and authors of classical Japanese literature, both poetry and prose, from the earliest historical records and literary anthologies through the Heian period (784-1185). Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** JPNS 3811

**Recommended:** Prerequisite JPNS 1051.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Asia Content

**HUMN 3841 (3) Tradition and Transgression: Modern Japanese Literature in Translation**

Surveys the major works, authors and genres of literature from the late Meiji period and 20th century in their historical and cultural contexts.

Attention is given to various approaches of literary analysis and interpretation. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** JPNS 3841

**Recommended:** Prerequisite JPNS 1051.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Asia Content

**HUMN 3850 (3) The Mediterranean: Religion Before Modernity**

Offers an innovative approach to the multifaceted history of Christian-Muslim-Jewish interaction in the Mediterranean. It eschews established paradigms (e.g., Europe, Islamic world) that distort our understanding of these and pushes students to reconsider the accepted paradigms of Western history. Students will reappraise assumptions regarding the nature of ethnic, religious, national and cultural identity, and their role in human history.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 3850

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

**HUMN 3860 (3) Politics and the Arts in the Information Age**

Examines the political aspects of the art and literature of the information age, with a focus on conceptual practices since 1965. The course investigates political theories of art along side sculpture, performance, installation, poetry, and graphic design.

**Recommended:** Requisite HUMN 2000 or restricted to students with 57-180 credits (Junior or Senior).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 3930 (1-6) Humanities Internship**

Students gain academic credit and professional experience working in museums, galleries, arts administration, and publishing. They work 3-18 hours per week with their professional supervisor and meet regularly with a faculty advisor who determines the reading and writing requirements. An interview with faculty advisor is required.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**HUMN 3935 (1-3) Humanities Internship: Literature and Social Violence**

See HUMN 4835.

**Requisites:** Requires enrollment in corequisite course of HUMN 4835.

**HUMN 4000 (3) The Question of Romanticism**

Interdisciplinary study of literature, art, and music from 1780 to 1830 in France, England, and Germany.

**Requisites:** Requires either prerequisite course of HUMN 2000 (minimum grade D-) or restricted to students with 57-180 credits (Junior or Senior).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4004 (3) Topics in Film Theory**

Provides topic-centered analyses of controversial areas in film theory. Students read extensive materials in the topic area, analyze and summarize arguments as presented in the literature, write "position" papers and make oral presentations in which they elaborate their own arguments about specific assigned topic, establishing critical dialogue with the primary materials.

**Equivalent - Duplicate Degree Credit Not Granted:** CINE 4004 and ARTF 5004

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course of CINE 3051 (minimum grade D-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Cinema Studies or Humanities (HUMN) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4006 (3) Introduction to Game Studies**

Seeks to introduce students to the analysis, history, cultural impact, and critique of games both digital and analogue - the largest and fastest growing Media throughout the world. Through an interdisciplinary approach to theory, art, and culture, students will become familiar with the discourse of contemporary game studies and its cultural manifestations. Formerly offered as a special topics course.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4010 (3) Hitchcock and Freud**

Applies Freudian psychoanalysis to the films of Alfred Hitchcock. Students will familiarize themselves with the Freudian methodology by reading a number of books and essays and then apply both Freud's general ideas as well as specific texts to particular aspects, both formal and contentual, of his films. Particular attention will be given to the important field of "feminism and psychoanalysis" as it relates to the study of the role of women in Hitchcock's films.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4011 (3) The Criminal-Hero**

Studies various theories of literary transgression by Aristotle, Nietzsche, Freud, Bataille and others to understand the many works, beginning with Genesis and the Iliad and including contemporary works such as Norman Mailer's *The Executioners Song* and the films of Herzog (*Aguirre, Nosferatu*) and Scorsese (*Taxi Driver, Cape Fear*) which feature this paradoxical figure.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4020 (3) Reading, Chance, and Guessing**

Considers the method of the humanities as opposed to those of the natural and social sciences, especially in view of their respective ability or claim to predict the future and to master chance.

**Requisites:** Requires either prerequisite course of HUMN 2000 (minimum grade D-) or restricted to students with 57-180 credits (Junior or Senior).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4030 (3) The Art of Travel**

Examines the art of travel: not where to go and what to do, but rather philosophical concepts about why people travel. Areas of discussion will include exploration, discovery, escape, pilgrimage, the grand tour, expatriotism, exile, nomadism, armchair travel, and the sense of home. Materials will include books by travel writers, novels, films, essays, short stories, art, music, and historical documents.

**Requisites:** Requires either prerequisite course of HUMN 2000 (minimum grade D-) or restricted to students with 57-180 credits (Junior or Senior).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4050 (3) Representations of People with Disabilities**

Examines the representation of people with disabilities in canonical and contemporary literature and drama, and introduces students to disability theory and the history of people with disabilities.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-U.S. Perspective

**HUMN 4060 (3) Modern Critical Theory**

Explores, through guided discussions, the concept of theory itself and how a theory is constructed. Emphasizes the close reading of theory in order to learn to analyze critically, considering theory as something to be thought about rather than simply applied.

**Requisites:** Requires either prerequisite course of HUMN 2000 (minimum grade D-) or restricted to students with 57-180 credits (Junior or Senior).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4070 (3) Making Meaning: Language, Myths, Dreams**

Introduces students to theories concerned with signification, communication, and meaning. The course will focus on the legacy of Ferdinand de Saussure's study of the sign and examine how Saussure's insights have been put to work in a variety of intellectual contexts from literary analysis to cultural anthropology, and psychoanalysis. Formerly offered as a special topics course.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**HUMN 4082 (3) 19th Century Art and Literature**

Interdisciplinary study of English fiction and poetry together with related movements in visual arts.

**Requisites:** Requires either prerequisite course of HUMN 2000 (minimum grade D-) or restricted to students with 57-180 credits (Junior or Senior).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4092 (3) Advanced Studies in the Humanities**

Students should check with the department for specific semester offerings.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4093 (3) Advanced Topics in the Humanities**

Students should check with the department for specific semester offerings.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4100 (3) Writing the World in Traditional China**

Examines the history and implications of the central role played by writing in pre-modern China, especially with regard to traditional constructions of the world, including relations with aesthetics, the non-human, and the spiritual. Key works of Chinese literature and thought from different periods are studied, with the aim of determining a particular type of Chinese humanism. All readings in English.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Asia Content

**HUMN 4110 (3) Greek and Roman Epic**

Students read in English translation the major epics of Greco-Roman antiquity such as the Iliad, Odyssey, Argonautica, Aeneid, and Metamorphoses. Topics discussed may include the nature of classical epic, its relation to the novel, and its legacy. No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 4110 and CLAS 5110

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4111 (3) Modern and Contemporary Culture**

Examines the legacy of the historical avant-garde (1910-1930) in postwar and contemporary culture: 1945 to the present. We will study the construction of a "neo-avant-garde" in diverse fields (art, film, philosophy) as well as the methodology of "social art history" which, like the artistic neo-avant-garde, critically analyzes the relation between aesthetic production and global capitalism.

**Requisites:** Requires either prerequisite course of HUMN 2000 (minimum grade D-) or restricted to students with 57-180 credits (Junior or Senior).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4120 (3) Greek and Roman Tragedy**

Intensive study of selected tragedies of Aeschylus, Sophocles, Euripides and Seneca in English translation. No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 4120 and CLAS 5120

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4130 (3) Greek and Roman Comedy**

Studies Aristophanes, Plautus, and Terence in English translation. No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 4130 and CLAS 5130

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4131 (3) The Greek and Roman Novel**

Studies a number of complete Greek and Roman novels from Classical Antiquity and their predecessors and contemporary neighbors in the genres of Greek prose fiction. Ancient texts in English translation.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 4140 and CLAS 5140

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4135 (3) Art and Psychoanalysis**

Explores psychoanalytic theory as it relates to our understanding of literature, film and other arts. After becoming familiar with some essential Freudian notions (repression, narcissism, ego/libido, dreamwork, etc.), students apply these ideas to works by several artists (e.g., Flaubert, James, Kafka, Hoffmann and Hitchcock).

**Requisites:** Requires either prerequisite course of HUMN 2000 (minimum grade D-) or restricted to students with 57-180 credits (Junior or Senior).

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4140 (3) What the Hell?: Dante's Divine Comedy and the Meaning of Life**

Focuses on close reading of Dante's poetry with emphasis on the intellectual, religious, political, and scientific background of the medieval world. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** ITAL 4140 ITAL 4145 or ITAL 4147

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4150 (3) Boccaccio's Decameron: Tales of Sex and Death in the Middle Ages**

Studies Boccaccio's masterpiece, the Decameron, as emblematic of the post-Black Plague era in the late Middle Ages. Focuses on the art of storytelling through gendered perspectives to portray the complexity of the Middle Ages. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** ITAL 4150

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective

**HUMN 4155 (3) Philosophy, Art, and the Sublime**

Explores philosophies of art, theories of the sublime, and the relation between art and morality through philosophy, literature, and the visual arts. Includes works by Plato, Longinus, Burke, Rousseau, Kant, Mary Shelley, Melville, Friedrich, Turner, and Pollock.

**Requisites:** Requires either prerequisite course of HUMN 2000 (minimum grade D-) or restricted to students with 57-180 credits (Junior or Senior).

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4170 (3) Fiction and Reality: Literature, Science, and Culture**

Explores the significance of how one defines "fiction" and "reality". Begins by defining the core concepts and compares them with related terms. Lectures and discussions analyze the implications of these concepts from the perspective of a variety of disciplines and in the context of diverse issues in order to develop a critical awareness of them.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4502 (3) Nietzsche: Literature and Values**

Emphasis is placed on Nietzsche's major writings spanning the years 1872-1888, with particular attention to the critique of Western values. A systematic exploration of doctrines, concepts and ideas leading to the values of creativity.

**Equivalent - Duplicate Degree Credit Not Granted:** GRMN 4502

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4504 (3) Goethe's Faust**

Systematic study of the Faust motif in Western literature, with major emphasis on Faust I and II by Goethe and Thomas Mann's Doctor Faustus.

**Equivalent - Duplicate Degree Credit Not Granted:** GRMN 4504 and GRMN 5504

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4552 (3) The Harlem Renaissance: Fr Black Wmn's Club Mvmnt to Hip Hop**

Offers an interdisciplinary and intersectional overview of the origins and evolution of the Harlem Renaissance. Explores classic texts, music and works of art emerging from the Harlem Renaissance and related events and movements of its epoch: the Black Women's Club Movement, New Negro Movement, Pan-African Movement, Lost Generation, Jazz Age, World War I and World War II.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 4552 and ETHN 5552

**Requisites:** Requires prerequisite course of ETHN 1022 or ETHN 2001 or ETHN 3212 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Social Sciences

**HUMN 4555 (3) Interpreting Art**

Introduces various methods of interpretation (New Criticism; Reader Response; structuralism, post-structuralism, psychoanalysis, art history, etc.) with which to examine how one determines the meaning of the work of art. Methodologies are studied in close conjunction with particular poems, paintings, stories and films.

**Requisites:** Requires either prerequisite course of HUMN 2000 (minimum grade D-) or restricted to students with 57-180 credits (Junior or Senior).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4650 (3) Religion, Power, Modernity**

Examines the representation of religion in relationship to the claims made by modern narratives of power in fables, literature, graphic novels, visual materials and critical writings.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4720 (3) Architecture and the Feminine: Women on Space and Creativity**

Examines women's depictions of space, confinement, and liberation in literature, art, and film. Women's artistic productions have sought to conceptualize, expose, and subvert the ways that gender and power relations are inscribed into the spaces they inhabit. Students will trace the history of these visions of spaces (physical, geographical, psychological, imagined) and explore their relationship to subjectivity, power, and creativity.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4730 (3) Italian Feminisms: Culture, Theory, and Narratives of Difference**

Studies Italian women writers, artists and filmmakers. Literary and visual texts are analyzed in dialogue with readings of leading Italian gender theorists. Italian history and culture is reread by following the development of a discourse about women. Taught in English; readings in Italian for Italian majors.

**Equivalent - Duplicate Degree Credit Not Granted:** ITAL 4730

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective

**HUMN 4811 (3) 19th Century Russian Literature**

Surveys background of Russian literature from 1800 to 1900. Russian writers and literary problems in the 19th century emphasizing major authors: Pushkin, Lermontov, Gogol, Dostoevsky, Turgenev, Tolstoy, and Chekhov.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4821 (3) 20th-Century Russian Literature and Art**

Interdisciplinary course emphasizing the influence of literature and art in 20th century Russian literature. Follows the changing cultural landscape from the time when Russia was in the vanguard of modern European literature to the period of Stalinism. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** REES 4821 and REES 5821

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4835 (3) Literature and Social Violence**

Provides a theoretical understanding of heightened awareness arising from literary and sociological investigations of contemporary sources of social violence (gang culture, racism, domestic violence), combined with the concrete knowledge offered by an internship in a social service agency. Optional internship credit is available.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4840 (1-3) Independent Study**

May be repeated for a maximum of 6 total credit hours.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**HUMN 4845 (3) Reading Culture: The Meanings We Make**

Analyzes a range of literary and cultural texts through the lens of critical theory in order to come to more understanding of how we are making meaning, how those meanings make us and how we might use that awareness to open new fields of possibility, both in our readings of texts and in our reactions to cultural contexts and conventions.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**HUMN 4950 (1-6) Honors Thesis**

Supervised project on a topic of the student's own choosing. It should demonstrate ability in interdisciplinary (such as literature and art, art and music, film and literature, literature and theory), extensive research, critical thinking, and excellent writing skills. The thesis is submitted to the Honors Program of the College of Arts and Sciences and is orally defended.

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) Humanities (HUMN) majors only.

## Humanities - Bachelor of Arts (BA)

The humanities major is an interdisciplinary program designed for students who wish to concentrate in more than one field or discipline. The major leads to a Bachelor of Arts (BA) degree and offers considerable flexibility, but students should choose courses in consultation with their primary advisor.

In addition to courses taken within Humanities (HUMN), an outside area of study is required and can be fulfilled by choosing one of the following:

a major, minor or certificate in another discipline (additional courses may be necessary to meet the required 18 hours); 12 hours in one discipline plus 6 hours in a different discipline; 18 hours chosen according to a common theme (to be determined in consultation with and approved by the Director of Undergraduate Studies).

## Requirements

### Required Courses and Credits

A minimum of 54 credit hours is required for the major, including 21 upper-division HUMN credit hours. All required HUMN courses and all Outside Area of Study courses must be passed with a C- or better and cannot be taken pass/fail. No more than 45 credits in HUMN may be applied to overall graduation requirements. Students must have a GPA of at least 2.000 in the major in order to graduate.

Code	Title	Credit Hours
<b>Required Courses</b>		
<i>Any three of the following introductory courses:</i>		<b>9</b>
HUMN 1001	Forms of Narrative: An Introduction to Humanities	
HUMN 1002	Visualizing Culture: An Introduction to Humanities	
HUMN 1003	Conflicts in History: Civilization and Culture: An Introduction to Humanities	
HUMN 1004	Sound and Meaning	
HUMN 2000	Methods and Approaches to the Humanities	<b>3</b>
One lower- or upper-division HUMN course		<b>3</b>
Upper-division HUMN courses		<b>21</b>
<b>Outside Area of Study</b>		<b>18</b>
Choose one of the following courses of study outside of HUMN:		
A major, minor or certificate another discipline (additional courses may be necessary to meet the required number of credit hours if the minor or certificate requires fewer than 18 credit hours.)		
12 credit hours in one discipline plus 6 credit hours in a different discipline		
18 credit hours chosen according to a common theme (to be determined in consultation with and approved by the Director of Undergraduate Studies)		
<b>Total Credit Hours</b>		<b>54</b>

### Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. Because the humanities major is unique in requiring courses from a number of different departments in addition to its own courses, it is important that students wishing to graduate in four years declare the major early and meet regularly with a major advisor. The concept of "adequate progress" as it is used here refers only to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in humanities, students should meet the following requirements:

- Complete the lower-division courses, including three of the following four 1000-level introductory courses (HUMN 1001, HUMN 1002, HUMN 1003, HUMN 1004) and HUMN 2000 by the end of the fourth semester.

- Complete at least two courses in the outside area of study by the end of the fourth semester.
- Complete 15 of the remaining credit hours by the end of the sixth semester—at least three of these must be upper-division humanities courses.
- Complete all remaining required courses by the end of the eighth semester.

## Recommended Four-Year Plan of Study

Through the required HUMN coursework for the major, students will fulfill all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement.

### Year One

Fall Semester	Credit Hours
one 1000-level HUMN course	3
one 1000-level HUMN course	3
Gen. Ed. Distribution course (example: Natural Sciences with lab)	4
Gen. Ed. Skills course (example: lower-division Written Communication)	3
Elective	3
<b>Credit Hours</b>	<b>16</b>

### Spring Semester

one 1000-level HUMN course	3
Gen. Ed. Skills course (example: QRMS)	3
Gen. Ed. Distribution course (example: Natural Sciences)	4
Elective	3
<b>Credit Hours</b>	<b>13</b>

### Year Two

Fall Semester	Credit Hours
HUMN 2000 Methods and Approaches to the Humanities	3
Outside Area of Study	3
Gen. Ed. Distribution/Diversity course (example: Social Sciences/Global Perspective)	3
Gen. Ed. Distribution course (example: Natural Sciences)	4
Elective	3

Upper-division Elective	3
Upper-division Elective	3
<b>Credit Hours</b>	<b>15</b>
<b>Total Credit Hours</b>	<b>120</b>

## Learning Outcomes

Students with a major in Humanities will be able to:

- Understand, interpret and compare works of human expression and cultural practice (visual arts, literature, film, music, etc.) in a variety of historical and geographical contexts.
- Understand, interpret and apply critical theories about culture and cultural products.
- Develop and refine important skills such as critical thinking and close analysis.
- Learn to articulate complex ideas and interpretations through both written and verbal communication.
- Develop creative and flexible thinking and problem solving skills as they learn to integrate different interpretative approaches and disciplines into a focused program of study.

## Humanities - Minor

The depth of critical analysis as well as the breadth of knowledge covered by the Humanities Program's courses can be a great benefit to students pursuing a variety of other majors in the College of Arts and Sciences, in the Professional Schools and particularly students pursuing a pre-medical or pre-law school program of study. This minor provides students with the kinds of skills and interests that enhance employment opportunities as well as applications to graduate school.

Humanities Program courses are designed to train students to understand and analyze critical, historical, cultural, social and political issues from different perspectives and to teach students to draw independent conclusions. Our courses also help develop excellent

written and verbal communication skills—recognized by the business and scientific worlds as indicators of future innovators as well as indicators of high quality practitioners and researchers across many different fields (media, communications, arts, creative design, marketing, etc.).

## Requirements

The minor in humanities offers students the opportunity to take a range of interdisciplinary courses offered by the humanities program faculty. Total: 18 credit hours (at least 12 of which must be upper-division). All coursework applied to the minor must be completed with a grade of C- or better. No pass/fail work may be applied. The GPA for all minor coursework must equal 2.00 or higher. Students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward a minor.

### Required Courses and Credits

Students must take 18 credit hours in humanities courses (HUMN). Of these 18 credit hours, 12 must be upper-division.

There are no specific course requirements for a minor in humanities. Any six 3-credit-hour humanities (HUMN) courses will do, as long as at least four are upper division. However, for a well-rounded course of study, the humanities program recommends the courses below.

<i>Introductory Courses</i>		
Choose one of the following:		3
HUMN 1001	Forms of Narrative: An Introduction to Humanities	
HUMN 1002	Visualizing Culture: An Introduction to Humanities	
HUMN 1003	Conflicts in History: Civilization and Culture: An Introduction to Humanities	
Consider the following course to prepare for upper-division courses:		3
HUMN 2000	Methods and Approaches to the Humanities	
<i>Additional Coursework</i>		
Choose any four 3-credit-hour upper-division HUMN courses		12

## Integrative Physiology

Physiology is the branch of biology concerned with the function in living organisms. The department's academic framework is built on an understanding of how humans and animals operate at the genetic, cellular, organ and systemic levels. Our multidisciplinary curriculum requires that students enroll in foundational courses covering anatomy, mathematics, physics, physiology and statistics. With this fundamental knowledge, students pursue additional coursework in biomechanics, cell physiology, endocrinology, immunology, exercise physiology, neurophysiology and sleep physiology.

Graduates of our integrative physiology program are expected to:

- Demonstrate a mastery of core anatomical and physiological concepts.
- Apply knowledge of the human body to novel, real-world contexts.

- Extract meaning from visual representations of data, such as graphs, tables and images.
- Synthesize ideas and concepts from multiple sources to develop a more comprehensive understanding of integrative physiology.
- Apply the scientific method to address questions related to integrative physiology.
- Demonstrate effective communication and collaboration skills.

These objectives are accomplished through a curriculum that includes both required courses and elective experiences. The required courses form the foundational knowledge base, while the elective courses offer opportunities to delve into specific topics. Elective options include seminars, internships, independent study, teaching opportunities, Latin honors and research projects covering a broad spectrum of physiological disciplines.

For more information, visit the Integrative Physiology website (<http://www.colorado.edu/iphy/>).

Course code for this program is IPHY.

## Bachelor's Degree

- Integrative Physiology - Bachelor of Arts (BA) (p. 427)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Alderete, Tanya Lynn ([https://experts.colorado.edu/display/fisid\\_159723/](https://experts.colorado.edu/display/fisid_159723/))  
Assistant Professor; PhD, University of Southern California

Bekoff, Anne ([https://experts.colorado.edu/display/fisid\\_100613/](https://experts.colorado.edu/display/fisid_100613/))

Tsai, Pei-San ([https://experts.colorado.edu/display/fisid\\_115292/](https://experts.colorado.edu/display/fisid_115292/))  
Professor; PhD, University of California, Berkeley

Wright Jr., Kenneth P. ([https://experts.colorado.edu/display/fisid\\_125586/](https://experts.colorado.edu/display/fisid_125586/))  
Distinguished Professor; PhD, Bowling Green State University

## Courses

### IPHY 1020 (1) Introduction to Integrative Physiology

Introduces students to Integrative Physiology. Provides an overview of the major and how it differs from other biology programs; how to get involved in clubs, research, and/or internship opportunities; strategies for succeeding in IPHY courses; and career options. This is a first-year colloquium course specifically designed for freshman and other students exploring their educational and career opportunities.

### IPHY 1030 (1-2) Introduction to the Health Professions

Introduces students to careers in healthcare. This exploratory course is designed to expose students to the wide spectrum of healthcare occupations available and the knowledge of basic requirements and personal attributes needed to enter such career fields. Students will discover potential careers that match their skills and interests. Other topics include locations and areas healthcare professionals practice, including the lesser-known areas, as well as cultural and economic factors impacting health equity and access. This course is designed for first-year and second-year students. Open to all majors and exploratory students.

### IPHY 1040 (1) Medical Professional Speaker Series

Fall semester only, meets one time per week. For students enrolled in Health Professions Residential Academic Program (HPRAP). Introduction to careers by working professionals from a variety of medical fields.

**Grading Basis:** Pass/Fail

### IPHY 1111 (2) Analysis of Human Movement with Smart-Phone Technology

Learn how to measure and analyze human movement using a smart-phone application. After being provided with some background information on human physiology, students will learn how to acquire, process, and analyze signals detected by the app. Students will be required to participate in a group project that they present in poster format to their peers.

**Requisites:** Restricted to students with 0-56 credits (Freshmen or Sophomore) only.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab

### IPHY 1131 (2) Using model organisms to study human disease: hands-on research

Provides a hands-on laboratory research experience, including undertaking science scholarship, designing and performing experiments, and analysis of quantitative data. Students will also be exposed to basic concepts in genetics and molecular biology, as well as the rationale for current experimental approaches for understanding human disease.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences

### IPHY 1181 (2) Biological Probiotic/Drug Discovery Through Hands-on Screens

Provides introduction to research and laboratory experience. Students will work in teams to screen novel mycobacterial strains for use as probiotics or immunoregulatory/anti-inflammatory drugs using THP-1 cells, a human monocytic cell line. Topics covered include the hygiene or "Old Friends" hypothesis, the human microbiome, approaches to screening for new probiotics of therapeutics and statistical analysis of the data.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 1181

**Grading Basis:** Letter Grade

### IPHY 1211 (2)

#### Using Sensor Technology to Study the Effects of Light on Human Health

Introduces you the basics of photobiology, measurement of light (including a discussion of humancentric vs. radiometric units for quantifying light exposure), and light effects on human physiology and longterm health. You will also be taught how to program light sensors, extract raw data, process, analyze and visualize it (incl. basic statistics in R).

**Grading Basis:** Letter Grade

### IPHY 1600 (3) Basic Human Anatomy & Physiology

Focuses on basic knowledge of human body structures and functions. Topics include an orientation to the human body, basic chemistry and cell structure, the integumentary, skeletal, muscular, nervous, endocrine, cardiovascular, lymphatic, immune, respiratory, digestive, urinary, and reproductive systems. Open to all majors and exploratory students. Integrative Physiology (IPHY) majors should take IPHY 3410 and 3430 to fulfill the anatomy and physiology degree requirements.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

### IPHY 1950 (3) Introduction to Scientific Writing in Integrative Physiology

Gives students practical tools that they will need as majors in Integrative Physiology or other sciences: skills in finding, reading, and using professional scientific publications; understanding of the formats required by various scientific documents; practice in writing about science for different purposes and audiences; and tools for analyzing and developing their own writing processes.

**Requisites:** Restricted to students with 0-86 credits (Freshmen, Sophomore or Juniors) only.

**Additional Information:** Arts Sci Core Curr: Written Communication

Arts Sci Gen Ed: Written Communication-Lower

MAPS Course: English

### IPHY 2010 (1-3) Seminar in Integrative Physiology

Introduces a small group of lower-division students to current research topics in integrative physiology. Emphasizes relevant applications to real-world situations.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

### IPHY 2030 (2) Preparing for a Career in the Health Professions

This course is designed to help students learn the basic requirements and personal attributes needed to enter the healthcare professions, while building the primary elements of their application to health professional schools. Students will explore the ways in which they can gain shadowing, volunteering, and other clinical experiences that both fit their career path and reflect their personal goals and values. Students will also spend time working on one of the biggest components of their application - their personal statement. This course is specifically designed for sophomores, juniors, and seniors who are new to navigating admissions processes.

**Recommended:** Prerequisite IPHY 1030.

**IPHY 2400 (2) Introduction to Medical Terminology for Future Health Professionals**

Introduces medical terminology used within the health professions. Word roots, prefixes and suffixes used in medical records for major body systems will be examined and explained. The structure and functions of the major systems will be defined and described. Open to all majors and exploratory students.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**IPHY 2420 (3) Introduction to Nutrition**

Focuses on the basic anatomy, physiology, and chemistry of nutrition. Topics include weight management, the role of diet and lifestyle in disease prevention, specific nutrient deficiencies and toxicities, nutrition standards and guidelines, sports nutrition recommendations, agricultural practices, and food policy issues.

**Equivalent - Duplicate Degree Credit Not Granted:** IPHY 3400

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences

**IPHY 2692 (3) Foundations in Public Health**

Get a comprehensive overview of public health as well as an in-depth introduction to specific public health-related topics. Beginning with a historical overview, students will explore major public health concepts such as the basic principles of epidemiology, the biomedical basis of disease, social and behavioral determinants of health, and systems thinking. Learn about the concepts of measuring and evaluating the health of populations, principles of communicable and non-communicable diseases, environmental and occupational health, the economics of health, and the role of public health workers in society.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 2692 and PBHL 2692

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**IPHY 2910 (1-6) Practicum in Integrative Physiology**

Offers lower-division students practical experience in laboratory, clinical, or field settings with direct supervision. Students can earn 1 credit for every 45 hours of intern work. Consult with departmental internship coordinator for approval.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 0-56 credits (Freshmen or Sophomore) only.

**IPHY 3010 (1-2) Teaching in Integrative Physiology**

Provides an opportunity for students to assist in specific lecture, recitation, or laboratory sections under direct faculty supervision. Students can earn 1 credit for 30-49 hours of class contact time or 2 credits for 50+ hours. Consult with faculty member for approval.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Recommended:** Prerequisite Students must have earned B- or higher in the course they are assisting.

**IPHY 3020 (1) Next Steps: Preparing for Life After Graduation**

Helps upper-division students prepare for what comes after graduation. Topics include exploring careers; how to write a resume or CV; interviewing tips; how to build your portfolio; asking for letters of recommendations. This course is specifically designed for juniors starting to prepare for the next stage post-graduation.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 3020 and MCDB 3020

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Grading Basis:** Pass/Fail

**IPHY 3280 (4) Intro to Data Science and Biostatistics**

Builds a foundation for modern data analysis and experimental design in the context of human physiology, health and disease. An intuitive understanding of probability, statistical methods, test outcomes and data relationships are emphasized over rigorous mathematical proofs. Foundational analytical skills using R and R Studio are developed using real and simulated data.

**Additional Information:** Arts Sci Gen Ed: Quantitative Reasoning Math

**IPHY 3410 (3) Human Anatomy**

Explores the cells, tissues, and organs that compose the different anatomical systems including integumentary, skeletal, muscular, digestive, respiratory, cardiovascular, lymphatic, nervous, urinary and reproductive. All registration restrictions will be strictly enforced by the department.

**Requisites:** Requires prerequisite 1-semester biology lecture of EBIO 1210 or MCDB 1150 or CHEN 2810 (minimum grade C-).

**Recommended:** Prerequisite EBIO 1220.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**IPHY 3415 (2) Human Anatomy Laboratory**

Introduces structures of the human anatomical systems using human cadavers and animal tissue. This laboratory is meant to complement IPHY 3410.

**Equivalent - Duplicate Degree Credit Not Granted:** IPHY 3417

**Requisites:** Requires prerequisite or corequisite of IPHY 3410 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences

**IPHY 3417 (2) Virtual Human Anatomy Laboratory**

Introduces structures of the human anatomical systems using a virtual interactive anatomy program. This online laboratory is meant to complement IPHY 3410. As an online course, this lab may not fulfill prerequisites for post-baccalaureate, graduate, or other allied health programs. Please consult with your Biology advisor before enrollment.

**Equivalent - Duplicate Degree Credit Not Granted:** IPHY 3415

**Requisites:** Requires prerequisite or corequisite of IPHY 3410 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**IPHY 3430 (4) Human Physiology**

Introduces the physiology of the endocrine, nervous, muscular, cardiovascular, respiratory, urinary, digestive, reproductive and immune systems. Each system will be integrated into the larger contexts of homeostasis and adaptation during pathology and challenges. Students must enroll in lecture and recitation sections.

**Equivalent - Duplicate Degree Credit Not Granted:** IPHY 3470

**Requisites:** Requires prerequisite courses of IPHY 3410 and prerequisite or corequisite of CHEM 1133/1134 (all minimum grade C-).

**Recommended:** Prerequisite IPHY 3415.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**IPHY 3435 (2) Physiology Lab**

Introduces laboratory experience in selected aspects of human physiology with a focus on applying the scientific method in experimentation. This laboratory is meant to complement IPHY 3430. Students should take IPHY 3435 or IPHY 3437 to fulfill degree requirements. All registration restrictions will be strictly enforced by the department.

**Equivalent - Duplicate Degree Credit Not Granted:** IPHY 3437

**Requisites:** Requires prerequisite course of IPHY 3280 or EBIO 1010 or MATH 2510 or PSYC 2111 or SOCY 2061, and prerequisite or corequisite course of IPHY 3430 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences

**IPHY 3437 (2) Virtual Human Physiology Laboratory**

Introduces online laboratory experiences for select aspects of human physiology using laboratory simulations. This online laboratory is meant to complement IPHY 3430. As an online course, this lab may not fulfill prerequisites for post-baccalaureate, graduate, or other allied health programs. Please consult with your Biology advisor before enrollment. Students should take IPHY 3435 or IPHY 3437 to fulfill degree requirements.

**Equivalent - Duplicate Degree Credit Not Granted:** IPHY 3435

**Requisites:** Requires prerequisite course of IPHY 3280 or EBIO 1010 or MATH 2510 or PSYC 2111 or SOCY 2061, and prerequisite or corequisite course of IPHY 3430 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences

**IPHY 3440 (3) Clinical Nutrition**

Exploration of clinical nutrition concepts from a health care provider perspective. Examines how and why diseases develop and what nutritional therapy and intervention is appropriate for disease resolution. **Requisites:** Requires prerequisite of IPHY 2420 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Integrative Physiology (IPHY) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**IPHY 3490 (3) Introduction to Epidemiology**

Examines the history and uses of epidemiology, measures of disease frequency and occurrence, association and causality, analytic epidemiology, evidence-based screening and outbreak investigations. **Recommended:** Prerequisites IPHY 2800 or IPHY 3280; and SOCY 2061 and PSYC 3101.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**IPHY 3590 (3) Health and Function over the Adult Lifespan**

Examines topics in the field of biomedical aging in the context of public health including: lifespan, changing demographics of aging, health span, genetics of aging; physiology of aging (changes in function with age; biological mechanisms of aging); clinical disorders of aging (aging and chronic diseases; clinical syndromes in geriatric medicine); lifestyle and pharmacological strategies for preserving health and function with aging. Department enforced requisites: One year of general biology (lecture + lab) and a statistics course (IPHY 3280 or EBIO 1010 or MATH 2510 or PSYC 2111 or SOCY 2061).

**IPHY 3700 (3) Scientific Writing in Integrative Physiology**

Takes a process-based approach to writing. Assignments and classroom experiences emphasize critical thinking, using scientific evidence and reasoning to construct original arguments, and applying conventions and problem-solving skills to craft successful documents.

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) Integrative Physiology (IPHY) or Neuroscience (NRSC) majors only.

**Recommended:** Prerequisite Statistics course (IPHY 3280 or EBIO 1010 or MATH 2510 or PSYC 2111 or SOCY 2061).

**Additional Information:** Arts Sci Core Curr: Written Communication  
Arts Sci Gen Ed: Written Communication-Upper

**IPHY 4010 (1-3) Seminar in Integrative Physiology**

Introduces a small group of students to current research topics in integrative physiology, evaluation of current research and discussion of critical issues.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite Statistics course (IPHY 3280 or EBIO 1010 or MATH 2510 or PSYC 2111 or SOCY 2061).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**IPHY 4040 (3) History of Medicine**

Explores the history of western European medicine from the Middle Ages to the 19th century with a focus on the influence of social events and how these shaped the process and evolution of medicine. Projects explore topics of student interest that might include pharmacology, pathology, mental illness, optometry, dentistry, women in medicine, and the influence of war on medical practices. This is a three-week (Maymester) Education Abroad Global Seminar.

**Requisites:** Requires prerequisite course of IPHY 3410 (minimum grade C-)

**IPHY 4041 (3) Global Health and Disease**

This course will provide a comprehensive study of community health and common diseases with a specific geographical case study that will vary. Students will have the opportunity to learn about these topics through observations, discussions, visiting local clinics, and hospitals, and interaction with local communities. This is a three-week Education Abroad Global Seminar.

**Requisites:** Requires prerequisite course of IPHY 3410 (minimum grade C-).

**IPHY 4060 (4) Cell Physiology**

Focuses on the molecular machines and cellular sub-compartments that allow cells to renew, replicate, and function in the context of multicellular organisms. Students must enroll in lecture and lab sections.

**Requisites:** Requires prerequisite course of IPHY 3430 and IPHY 3435 or IPHY 3437 (all minimum grade C-). Restricted to Integrative Physiology (IPHY) or Neuroscience (NRSC) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**IPHY 4200 (3) Physiological Genetics and Genomics**

Covers fundamental concepts in molecular genetics/genomics with physiological applications. Topics include structure and function of nucleic acids, genome structure, genetic and genomic research tools, methods for identifying disease-causing mutations, regulation of gene expression, pharmacogenetics, gene therapy and ethical issues in modern genomics. First course of a 3-course series recommended for IBG students. Includes a recitation section.

**Equivalent - Duplicate Degree Credit Not Granted:** IPHY 5200

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**IPHY 4300 (3) Pathophysiology of Disease**

Uses case studies to explore various disease states of the organ systems within the body and the underlying mechanisms that contribute to the manifestations of these diseases. Additionally, students will examine the importance of epidemiology in the understanding of disease as well as discuss infectious disease, and the role of genetics in congenital defects and cancer.

**Requisites:** Requires prerequisite courses of IPHY 3410 and (IPHY 3430 or IPHY 3470) (minimum grade C-).

**Grading Basis:** Letter Grade

**IPHY 4420 (3) Nutrition and Human Performance**

Examines nutrient use during exercise and the nutrient needs of athletes and active individuals, including strategies to improve physical performance and recovery through dietary manipulations and dietary supplements.

**Requisites:** Requires prerequisite course of IPHY 2420 or IPHY 3400 (minimum grade C-).

**IPHY 4440 (4) Endocrinology**

Introduces mammalian endocrine system. Provides a thorough analysis of chemical communication by hormones and related bioregulators with emphasis on the major endocrine systems such as the thyroid, gonad, pituitary and the brain. All registration restrictions will be strictly enforced by the department.

**Equivalent - Duplicate Degree Credit Not Granted:** IPHY 5440

**Requisites:** Requires prerequisite courses of IPHY 3430 and IPHY 3435 or IPHY 3437 (minimum grade C-). Restricted to Integrative Physiology (IPHY) or Neuroscience (NRSC) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**IPHY 4470 (3) Biology of Human Reproduction**

Anatomy and physiology of human reproduction, including gender determination, embryology, puberty, menstrual cycle, pregnancy, lactation, menopause, sexual behavior, sexual abnormalities and contraception. Open to all majors. Department enforced requisite: one year of general biology (lecture + lab). Recommended: IPHY 3430 and IPHY 4440.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**IPHY 4480 (3) Comparative Reproduction**

Focuses on comparative anatomy and physiology of reproductive system and the evolution of reproductive behavior in vertebrates and invertebrates. Topics include courtship, mating, fertilization, estrous and menstrual cycles and environmental control of seasonal reproduction. Department enforced prerequisite: one year of general biology (lecture + lab). Recommended: Prerequisite IPHY 3430.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**IPHY 4490 (3) Case Studies in Public Health**

Explores case studies in public health in how they have influenced our approach to disease outbreaks and disease resolution. Examines famous case studies in infectious disease, zoonoses and non-infectious diseases, including environmental and occupational exposure to see how they have changed our understanding of disease and responses by health and medical personnel. Examines special populations within public health, as well as discuss modern public health challenges.

**Requisites:** Requires prerequisite courses of IPHY 3490 (minimum grade D-).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**IPHY 4540 (5) Biomechanics**

Applies the principles of physics and physiology to analyze the movement of humans and other animals. Assesses the mechanical properties of muscles, tendons, ligaments and bones. Quantitatively analyzes forces, torque, mechanical energy, power impulses and momentum associated with human movement. Students enroll in a lab, and the enrolled lab will have a designated recitation and lecture attached. All registration restrictions will be strictly enforced by the department.

**Equivalent - Duplicate Degree Credit Not Granted:** IPHY 5540

**Requisites:** Requires prerequisite courses of IPHY 3430 and physics (PHYS 1110 or PHYS 2010) (all minimum grade C-). Restricted to Integrative Physiology (IPHY), Neuroscience (NRSC), or College of Engineering majors only.

**Recommended:** Prerequisites IPHY 3415 and calculus (MATH 1300 or MATH 1310 or APPM 1350) and statistics (IPHY 3280 or EBIO 1010 or MATH 2510 or PSYC 2111 or SOCY 2061).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**IPHY 4580 (3) Sleep Physiology**

Describes the physiology, neurobiology, and functions of sleep and circadian rhythms; explains the impact of sleep and circadian rhythms, as well as sleep and circadian disruptions and disorders on immune, endocrine, thermoregulatory, cardiovascular, respiratory, and neural systems; examines changes in sleep and circadian rhythms across the life span. The integrative nature of sleep and circadian rhythms in normal physiological and cognitive functions and their importance in health and disease processes will be emphasized. All registration restrictions will be strictly enforced by the department.

**Equivalent - Duplicate Degree Credit Not Granted:** IPHY 5580

**Requisites:** Requires prerequisite course of IPHY 3430 (minimum grade C-). Restricted to Integrative Physiology (IPHY) or Neuroscience (NRSC) majors only.

**Recommended:** Prerequisites Statistics course (IPHY 3280 or EBIO 1010 or MATH 2510 or PSYC 2111 or SOCY 2061).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**IPHY 4600 (3) Immunology**

Studies the immune system, a multi-cellular system that functions to protect us from disease. Introduces concepts associated with the development and function of individual cells of the immune system (T-cells, B-cells, neutrophils, dendritic cells, macrophages), as well as their integrative roles in physiology and host defense. This course requires a conceptual understanding of the material and emphasizes problem-solving skills through case studies. All registration restrictions will be strictly enforced by the department.

**Equivalent - Duplicate Degree Credit Not Granted:** IPHY 5600

**Requisites:** Requires prerequisite course of IPHY 3430 (minimum grade C-). Restricted to Integrative Physiology (IPHY) or Neuroscience (NRSC) majors only.

**Recommended:** Prerequisite or corequisite IPHY 4060.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**IPHY 4650 (5) Exercise Physiology**

Examines physiological and biochemical adjustments that occur in the body with acute and chronic exercise. Topics center on physiological mechanisms pertaining to metabolic, cardiovascular, and hormonal alterations, the role of exercise in health and disease, soreness and fatigue, immune function, as well as exercise during varied environmental conditions. Students enroll in the lab, and a designated recitation and lecture are attached to the lab.

**Equivalent - Duplicate Degree Credit Not Granted:** IPHY 5650

**Requisites:** Requires prerequisite course of IPHY 3430 and IPHY 3435 or IPHY 3437 (all minimum grade C-). Restricted to Integrative Physiology (IPHY) or Neuroscience (NRSC) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**IPHY 4720 (4) Neurophysiology**

Explores the function of the nervous system, including how the properties of neurons influence nervous system activity, how the nervous system controls the activity of muscles and how the sensory effects of muscle activity influence the function of the nervous system. All registration restrictions will be strictly enforced by the department.

**Equivalent - Duplicate Degree Credit Not Granted:** IPHY 5720

**Requisites:** Requires prerequisite courses of IPHY 3430 and IPHY 3435 or IPHY 3437 (all minimum grade C-). Restricted to Integrative Physiology (IPHY) or Neuroscience (NRSC) majors only.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**IPHY 4780 (3) Sleep, Circadian Rhythms, and Health**

Examines the history of the fields of sleep and circadian rhythms; lifespan development of sleep and rhythms; observational, physiological, and clinical measures of sleep; screening for sleep and circadian disorders; associations between poor sleep and circadian misalignment and health; and evidenced-based sleep and circadian interventions/preventions in healthy and clinical samples. Dept. enforced requisite: one year of biology (lecture and lab).

**Equivalent - Duplicate Degree Credit Not Granted:** IPHY 5780

**IPHY 4800 (3) Molecular Evolution: How Natural Selection has Shaped the Molecules of Life**

This course explores how Darwin's idea has shaped the structures of DNA, RNA and proteins across the long history of life on earth. Natural selection driving the evolution these macromolecules and subsequent developmental pathways will be fully appreciated as the process that ultimately produced the amazing variety of species on this planet. Looking ahead, our recent efforts to harness the power of evolution in the test tube to develop new therapies will be covered.

**Requisites:** Requires prerequisite courses of MCDB 3135 and MCDB 3145 (minimum grade C-).

**IPHY 4850 (1) Honors Thesis Seminar**

The course is specifically designed for students who are enrolled in the IPHY Honors program and have a faculty mentor. The course follows a workshop-based approach and aims to guide students through the various stages of writing and defending a thesis. It also provides an opportunity to share and receive feedback on works in progress. Throughout the course, students will have the chance to explore the scientific writing format, improve their writing process, and effectively communicate about science. Additionally, student will have the opportunity to practice a thesis defense talk.

**Recommended:** Prerequisite IPHY 3700; and IPHY 4870 (taken concurrently).

**IPHY 4860 (1-8) Independent Study: Undergraduate**

An opportunity for upper-division students to earn academic credit for working under the individual direction of a faculty member. Twenty-five hours of work is required for each hour of academic credit given. Consult with faculty mentor and undergraduate coordinator for approval. Department enforced prerequisites: Cumulative GPA of 2.0 and completion of at least one upper-division IPHY course. Students may register for more than one section per term.

**Repeatable:** Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**IPHY 4870 (1-6) Honors Thesis**

An opportunity for students enrolled in the IPHY Honors program to earn academic credit for working on their thesis. Twenty-five hours of work is required for each hour of academic credit given. Consult for faculty mentor for approval.

**Recommended:** Prerequisites IPHY 3700; and IPHY 4850 (taken concurrently).

**Additional Information:** Arts Sciences Honors Course

**IPHY 4880 (3) Advanced Data Analysis in Biomedical Research**

Provides advanced training on statistics and scientific reasoning in laboratory and clinical research. Conceptual foundations of classical and modern statistical techniques is reviewed. Multiple class projects consist of written reports on statistical analysis of data representative of the student's field of interest. The use of statistical packages, primarily R, is required.

**Equivalent - Duplicate Degree Credit Not Granted:** IPHY 5880

**Requisites:** Requires prerequisite course of IPHY 2800 or IPHY 3280 or EB10 1010 or MATH 2510 or PSYC 2111 or SOCY 2061 (minimum grade C).

**Grading Basis:** Letter Grade

**IPHY 4900 (1-3) Public Health Practicum**

Offers practical experience in Public Health with direct supervision.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 4900 and MCDB 4900

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**IPHY 4930 (1-6) Internship**

Offers upper-division students practical experience in laboratory, clinical, and field settings with direct supervision. Students can earn 1 credit for every 45 hours of intern work. Consult with departmental internship coordinator for approval. Department enforced prerequisite: Cumulative GPA of 2.0 and completion of two upper-division IPHY courses.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**IPHY 4940 (1-6) Application for Clinical Internship**

Provides upper-division students an opportunity for internship experience in a clinic and hospital setting with an established Affiliation Agreement with CU Boulder. Students can earn 1 credit for every 45 hours of intern work. Consult with departmental internship coordinator for approval. Department enforced prerequisite: Cumulative GPA of 2.0 and completion of two upper-division courses.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**IPHY 4950 (1-6) Global Study Abroad Internship**

Provides an opportunity for students to combine international experiential learning and academic theory as a means to gain professional experience and to develop a new perspective on a career field. Contact the Study Abroad office ([abroad@colorado.edu](mailto:abroad@colorado.edu)) for information on available opportunities and to find out how to enroll in this course.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

## Integrative Physiology - Bachelor of Arts (BA)

The Department of Integrative Physiology, housed within the College of Arts and Sciences, offers a Bachelor of Arts (BA) degree. Our undergraduate courses integrate knowledge from various life-science disciplines, enabling students to explore organisms as dynamic systems composed of molecules, cells, tissues and organs. The curriculum places specific emphasis on understanding whole-body function and its relevance to human health and disease.

We actively encourage students to engage in a variety of enriching experiences, including research, internships, independent study, teaching opportunities, honors programs and extracurricular activities. By participating in these diverse activities, students can broaden their perspectives and enhance their overall learning experience.

Upon successful completion of the BA degree in integrative physiology, students will possess the knowledge, skills and expertise necessary for advanced training and diverse career paths. Our graduates are well-prepared for pursuits in allied health, industry, government, science education and research.

## Requirements

Students must complete the general requirements of the College of Arts and Sciences and the required courses below. Students must complete a minimum of 38 credit hours, 30 credit hours in courses with the IPHY subject code, including a minimum of 18 upper-division credit hours, and 8 credit hours in a biology sequence including requisite labs.

All required major courses and all required ancillary courses must be passed with a C- or better and cannot be taken pass/fail. Students must have a grade point average of at least 2.000 in the major in order to graduate.

## Required Courses and Credits

Code	Title	Credit Hours
------	-------	--------------

**Required Biology Sequence**

Select one of the following biology sequences of lectures and lab(s):

<i>Lecture</i>		6
EBIO 1210 & EBIO 1220	General Biology 1 and General Biology 2	
MCDB 1150 & MCDB 2150	Introduction to Cellular and Molecular Biology and Principles of Genetics	

<i>Lab</i>		2
EBIO 1230 & EBIO 1240	General Biology Laboratory 1 and General Biology Laboratory 2	
MCDB 1161	From Dirt to DNA: Phage Genomics Laboratory I	
or IPHY 1111	Analysis of Human Movement with Smart-Phone Technology	
or IPHY 1181	Biological Probiotic/Drug Discovery Through Hands-on Screens	
or MCDB 1171	Antibiotics Discovery Through Hands-on Screens I	
or MCDB 2161	From DNA to Genes, Phage Genomics Laboratory II	
or MCDB 2171	Chemotherapeutic Discovery Through Hands-On Screens 2	

**Required IPHY Coursework**

IPHY 3410	Human Anatomy	3
IPHY 3430	Human Physiology	3
IPHY 3435	Physiology Lab	2
or IPHY 3437	Virtual Human Physiology Laboratory	

**Advanced IPHY Coursework**

Select at least 15 credits (three courses must be taken at CU Boulder—including Main Campus, Continuing Education, and Study Abroad):

IPHY 4060	Cell Physiology	
IPHY 4440	Endocrinology	
IPHY 4540	Biomechanics	
IPHY 4580	Sleep Physiology	
IPHY 4600	Immunology	
IPHY 4650	Exercise Physiology	
IPHY 4720	Neurophysiology	

**IPHY Major Electives**<sup>1</sup> **4-6**

<sup>1</sup>The number of IPHY major elective credit hours needed to reach the requirement for 30 credit hours in IPHY coursework and 38 total major credit hours will vary based on what major courses are taken and could be unnecessary.

Code	Title	Credit Hours
------	-------	--------------

**IPHY Recommended Coursework**

Coursework recommended for allied health careers. May be used to reach IPHY 30-credit total.

IPHY 1020	Introduction to Integrative Physiology	1
IPHY 2400	Introduction to Medical Terminology for Future Health Professionals	2

IPHY 3415	Human Anatomy Laboratory	2
<b>Total Credit Hours</b>		<b>5</b>

Students apply no more than 45 major credit hours toward the degree. Contact department for current elective choices.

Code	Title	Credit Hours
<b>Required Ancillary Coursework</b>		
One of the following Statistics courses		3-4
IPHY 3280	Intro to Data Science and Biostatistics IPHY 3280 would count towards IPHY elective credits.	
or EBIO 1010	Introduction to Statistics and Quantitative Thinking for Biologists	
or MATH 2510	Introduction to Statistics	
or PSYC 2111	Psychological Science I: Statistics	
or SOCY 2061	Introduction to Social Statistics	
CHEM 1113 & CHEM 1114	General Chemistry 1 and Laboratory in General Chemistry 1	5
CHEM 1133 & CHEM 1134	General Chemistry 2 and Laboratory in General Chemistry 2	5
PHYS 2010	General Physics 1	5
<b>Total Credit Hours</b>		<b>18-19</b>

### Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in integrative physiology, students should meet the following requirements:

- By the first semester, declare the major.
- Before the beginning of the fifth semester, complete the biology and chemistry requirements.
- By the end of the sixth semester, complete the anatomy and physiology requirements.

Students must consult with a major advisor to determine adequate progress toward completion of major requirements.

### Recommended Four-Year Plan of Study

Through the required coursework for the major, students will fulfill all 12 credits of the Natural Sciences area of the Gen Ed Distribution Requirement, including the lab component, and the QRMS area of the Gen Ed Skills Requirement.

<b>Year One</b>		
<b>Fall Semester</b>		<b>Credit Hours</b>
EBIO 1210 & EBIO 1230	General Biology 1 and General Biology Laboratory 1	4
	Gen. Ed. Skills course (example: Lower-division Written Communication)	3
	Elective	3
	Elective	3
	Elective - IPHY 1020	1
<b>Credit Hours</b>		<b>14</b>

<b>Spring Semester</b>		
EBIO 1220 & EBIO 1240	General Biology 2 and General Biology Laboratory 2	4
CHEM 1113 & CHEM 1114	General Chemistry 1 and Laboratory in General Chemistry 1	5
	Gen. Ed. Distribution (example: Arts & Humanities)	3
	Elective - IPHY 2400	2
<b>Credit Hours</b>		<b>14</b>

<b>Year Two</b>		
<b>Fall Semester</b>		
CHEM 1133 & CHEM 1134	General Chemistry 2 and Laboratory in General Chemistry 2	5
IPHY 3280	Intro to Data Science and Biostatistics	3-4
or MATH 2510	or Introduction to Statistics	
or PSYC 2111	or Psychological Science I: Statistics	
or EBIO 1010	or Introduction to Statistics and Quantitative Thinking for Biologists	
or SOCY 2061	or Introduction to Social Statistics	
IPHY 3410	Human Anatomy	3
	Gen. Ed. Distribution course (example: Social Sciences)	3
<b>Credit Hours</b>		<b>14-15</b>

<b>Spring Semester</b>		
PHYS 2010	General Physics 1	5
	Gen. Ed. Distribution/Diversity course (example: Social Sciences/Global Perspective)	3
IPHY 3430	Human Physiology	4
	Gen. Ed. Distribution (example: Arts & Humanities)	3
<b>Credit Hours</b>		<b>15</b>

<b>Year Three</b>		
<b>Fall Semester</b>		
IPHY 3435 or IPHY 3437	Physiology Lab or Virtual Human Physiology Laboratory	
	Elective	3
	IPHY Major Core Course #1	3-5
	Gen. Ed. Distribution course (example: Social Sciences)	3
	Upper-division Elective	3
<b>Credit Hours</b>		<b>12-14</b>

<b>Spring Semester</b>		
	IPHY Major Core Course #2	3-5
	Gen. Ed. Skills course (example: Upper-division Written Communication)	3
	Upper-division Elective	3
	Upper-division Elective	3
	Elective	3
<b>Credit Hours</b>		<b>15-17</b>

<b>Year Four</b>		
<b>Fall Semester</b>		
IPHY 3415	Human Anatomy Laboratory	2
	IPHY Major Core Course #3	4-5
	Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/US Perspective)	3
	Gen. Ed. Distribution course (example: Social Sciences)	3

Upper-division Elective	3
<b>Credit Hours</b>	<b>15-16</b>
<b>Spring Semester</b>	
IPHY Major Core Course #4	3-5
IPHY Major Core Course If Needed	3-5
Gen. Ed. Distribution course (example: Arts & Humanities)	3
Upper-division Elective	3
Upper-division Elective	3
<b>Credit Hours</b>	<b>15-19</b>
<b>Total Credit Hours</b>	<b>114-124</b>

## Learning Outcomes

Students completing a degree in integrative physiology are expected to:

- Demonstrate a mastery of the core concepts defined by the *2011 Vision and Change in Undergraduate Biology Education: A Call to Action*, including structure and function; information flow, exchange and storage; pathways and transformations of energy and matter; and systems.
- Apply knowledge of the human body to new and real-world contexts.
- Extract meaning from visual representations of data (e.g., graphs, tables, images), and discern relevant from irrelevant information in various contexts.
- Synthesize ideas and concepts from multiple sources to create a more comprehensive understanding of integrative physiology.
- Apply the scientific method to research questions related to integrative physiology, including designing experiments, collecting and analyzing experimental data, forming evidence-based conclusions and placing results in the larger scientific context.
- Search, critically evaluate and analyze the scientific literature related to integrative physiology, and apply this knowledge to critique claims in the popular media.
- Possess effective collaborative, teamwork, and oral and written communication skills, including the ability to work with others towards shared goals and successfully communicate an understanding of integrative physiology to a wide audience.
- Recognize the limit of one's knowledge or ability and determine how to expand that knowledge or extend the ability.
- Gain experience in disciplinary settings (e.g., research, teaching, internships, leadership, outreach, volunteering) and awareness of careers suitable for those with expertise in integrative physiology.

## Bachelor's–Accelerated Master's Degree Program(s)

The bachelor's–accelerated master's (BAM) degree program options offer currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first but begin taking graduate coursework as undergraduates (typically in their senior year).

Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree. In addition, staying at CU Boulder to pursue a bachelor's–accelerated master's program enables students to continue working with their established faculty mentors.

## BA and MS in Integrative Physiology

The Department of Integrative Physiology has developed a curriculum that allows both degrees to be completed in five years. The program has been designed to provide qualified undergraduate students with an opportunity to enhance their knowledge base in the discipline, engage in research, increase their opportunities for employment and make their applications to medical/allied health professional schools more competitive.

### Admissions Requirements

In order to gain admission to the BAM program named above, a student must meet the following criteria:

- Have a cumulative GPA of 3.3 or higher
- Have completed a minimum of 24 credit hours of coursework
- Transfer students must have completed a minimum of 24 credit hours at CU Boulder
- Students must have completed one year of general biology and one year of general chemistry prerequisite courses (all with minimum grades of C-)

Candidates for the program are recruited from the undergraduate population of declared integrative physiology majors during the beginning of their junior year. All interested candidates must apply by the second semester of their junior year. To apply, students must also provide one letter of recommendation and have a faculty mentor. Approximately 3–5 of the applicants will be selected on a competitive basis to begin the program.

### Program Requirements

Students may take up to and including 12 hours of graduate credits while in the undergraduate program which can later be used toward the master's degree. In addition, 6 graduate credits may be double counted toward the bachelor's degree and 6 undergraduate credits may be double counted toward the master's degree. Students must apply to graduate with the bachelor's degree, and apply to continue with the master's degree, early in the semester in which the undergraduate requirements will be completed.

Once accepted into the program, a student must maintain a GPA of 3.00 in all coursework undertaken. After transitioning to the MS degree, students must register for at least 5 graduate course credit hours per semester. Students deciding to discontinue the program may do so at any time during their course of study. All credit hours completed toward the concurrent degree program will be counted toward the completion of the requirements for a BA degree in integrative physiology.

Please contact the Integrative Physiology graduate program ([iphygrad@colorado.edu](mailto:iphygrad@colorado.edu)) or visit the website Integrative Physiology - Master of Science (MS) (p. 1280) for more information on the BAM degree.

## International Affairs

With the increasing importance of world issues to the United States, employment opportunities in government, international organizations and business continue to expand. Today there is an urgent need for college graduates with a strong background in international affairs. To meet this need, the University of Colorado Boulder offers a comprehensive and flexible interdisciplinary program in international affairs leading to the BA degree.

Course code for this program is IAFS.

## Bachelor's Degree

- International Affairs - Bachelor of Arts (BA) (p. 432)

## Minor

- International Affairs - Minor (p. 438)

## Certificates

- European Union Studies - Certificate (p. 439)
- Global Environmental Affairs - Certificate (p. 440)
- International Media - Certificate (p. 673)
- International Affairs - Graduate Certificate (p. 1677)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

## Courses

### IAFS 1000 (4) Global Issues and International Affairs

Introduces the student to the international affairs program. The course examines political and economic development in several countries in many different world regions. Examines historical trends and development as well as current political and economic issues.

**Additional Information:** GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame

Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Asia Content

### IAFS 3000 (3) Special Topics in International Affairs

Junior or senior level umbrella seminar spanning a variety of topics relevant to the study of international affairs. Subjects addressed under this heading vary according to student interest and faculty availability.  
**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to Political Science (PSCI) majors or International Affairs (IAFS) majors or minors with 57-180 credits (Junior or Senior) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**IAFS 3010 (3) Islam, Geopolitics and Society: Gender, Identity and Place**  
Examines Islam, geopolitics and society in various locations throughout the globe, such as Afghanistan, Egypt, France, Germany, India, Indonesia, Iran, Iraq, Ireland, Israel/Palestine, Morocco, Pakistan, Saudi Arabia, Turkey, Yemen, the UK and the US. Addresses issues of gender, identity and place to illustrate the complexity and diversity of social experiences within the milieu of Islam and geopolitics.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Diversity-Global Perspective  
Arts Sci Gen Ed: Distribution-Social Sciences

### IAFS 3500 (3) French Connections: Contemporary France and America in Historical Context

Faculty-led Global Seminar, based in Bordeaux, France provides an opportunity to compare French history and contemporary culture, economy, and culture to that of the United States. Lectures in Boulder and Bordeaux are supplemented by interactions with officials, scholars, business leaders, interest groups, and organizations in France. Offered through Study Abroad.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 4190

**Additional Information:** Arts Sci Core Curr: Historical Context  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Social Sciences

### IAFS 3520 (6) Global Seminar: Justice, Human Rights and Democracy in Israel

Explore the challenges and complexities of justice, democracy and human rights in Israel and the West Bank through field trips, course work and service learning projects with Jerusalem based non-profit organizations. Acquire new knowledge and lived experience on critical issues facing Israelis and Palestinians with the wider scope of Middle East politics.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 4302

**Recommended:** Prerequisites ANTH 4050 or JWST 4050 and IAFS 3600 or JWST 3600.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Asia Content

### IAFS 3530 (3) Global Seminar: Jews and Muslims - The Multiethnic History of Istanbul

Spend two weeks in Istanbul and examine Jewish-Muslim relations in a place that was for 500 years the crossroads of civilization. The only Muslim city in the 21st century with a large, thriving Jewish community, Istanbul models how people from different social classes, ethnicities and religious backgrounds can coexist.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 3530 and RLST 3530

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective

**IAFS 3540 (3) Migration, Human Rights, and Conflict in the Mediterranean**

Faculty-led Global Seminar, based in Malta, provides the opportunity to study social, political, and economic issues surrounding international migration. Focuses on causes and consequences of recent migration flows from nations in the Middle East and Sub-Saharan Africa to European nations located in the Eastern Mediterranean. Students will interact with representatives of state governments, NGOs, and activist groups, and learn about the rich culture and history of Malta as a pivotal state promoting international diplomacy and regional security.

**Equivalent - Duplicate Degree Credit Not Granted:** PACS 3540

**Requisites:** Requires prerequisite course of PACS 2500 (minimum grade C-).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Diversity-Global Perspective

**IAFS 3600 (3) Contemporary Jewish Societies**

Uses transnational lens to explore contemporary debates about Jewish people, places and practices of identity and community; places that Jews have called 'home', and what has made, or continues to make those places 'Jewish'; issues of Jewish homelands and diasporas; gender, sexuality, food and the Jewish body; religious practices in contemporary contexts. Readings drawn primarily from contemporary journalism and scholarship.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 3600 and GSLL 3600

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-U.S. Perspective

**IAFS 3610 (3) Topics in International Affairs and Jewish Studies**

Explores topics in international affairs as it relates to Jewish culture and society. Subjects addressed under this heading vary according to student interest and faculty availability.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 3610

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**IAFS 3621 (3) Rogues to Revolutionaries: Russian Rebels, Past and Present**

Explores the tradition of dissent and opposition in Russian culture, from the medieval period to present, approaching forms of rebellion (religious, political, social, aesthetic) in historical context. This survey in intellectual history will trace this phenomenon across historical documents, literary texts, film, and the fine and performing arts, pairing these primary materials with readings in Russian history. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** REES 4481 or REES 5481

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

**IAFS 3630 (3) Radical Nationalism in Contemporary Northern Europe**

Examines the current rise of National Socialists, white supremacists, ethnic separatists, anti-Islam activists and social and cultural ultraconservatives in northern Europe. Treats extremist nationalism as a social, cultural, aesthetic, intellectual and political movement. Consults scholarship from sociology, criminology and political science, as well as music, literature, art and film.

**Equivalent - Duplicate Degree Credit Not Granted:** SCAN 3301

**Additional Information:** Arts Sci Core Curr: Ideals and Values

Arts Sci Gen Ed: Distribution-Social Sciences

**IAFS 3631 (3) Arctic Society and Culture**

Investigates representations of the Arctic in literature, art, cinema, media and scientific, and geographical writing over the past century and a half, spanning material from North America, Britain, continental Europe and the Nordic region. Interpretive approaches include ecocriticism; post-colonialism; literary studies; indigenous studies; visual, film and media theory; Cold War studies.

**Equivalent - Duplicate Degree Credit Not Granted:** SCAN 3631

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Distribution-Social Sciences

**IAFS 3632 (3) Scandinavia and the European Union**

Examining the role that the EU plays in the Nordic region, this course is an introduction to the complex relationship between the Nordic nation states and the European project. We explore how the EU is perceived in the Nordic countries and investigate why the Nordic region is reluctant in its relation to the European Union.

**Equivalent - Duplicate Degree Credit Not Granted:** SCAN 3632

**IAFS 3640 (3) Data Analysis for Global Environmental Affairs**

Develops data analysis techniques for global environmental data including demographic, economic, agricultural, fisheries and energy sectors. Designed to support the development of basic and intermediate data analysis skills for students in the Global Environmental Affairs certificate program. Includes hands-on exploration of up-to-date global data sets from a variety of sources. Fulfills the application requirement for the ENVS major.

**Equivalent - Duplicate Degree Credit Not Granted:** ENVS 3640

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**IAFS 3650 (3) History of Arab-Israeli Conflict**

Explores the origins and development of the Arab-Israeli conflict. Traces Arab-Jewish/Israeli relations from the 19th century through the Palestine Mandate, the evolution of Arab and Jewish nationalism and the creation of Israel to the present day.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 3650

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior International Affairs (IAFS) majors only).

**Recommended:** Prerequisite HIST 1308 or HIST 1828 or JWST 1828.

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Asia Content

**IAFS 3670 (3) Cities of the Global South**

Examines the geographies, processes, structural forces and everyday forms of urban life that are at the core of rapid urban transformation in the global South. Through using interdisciplinary scholarship, empirical case studies and key theoretical work, the course covers themes such as migration and urbanization, informality and governance, infrastructures of everyday life and urban environmental politics.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 3622

**IAFS 3681 (3) Refugees in German Culture**

Introduces the diversity of refugee migration in German culture through artistic and cultural "texts," including those created by or in collaboration with refugees (film, comic journalism, literature, blogs, hashtag campaigns, music, etc). These texts are discussed in relationship to theories of racism, precarity, and biopolitics together and contextualized by work from other disciplines. This interdisciplinary course is methodologically informed by the theory and practice of cultural studies. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** GRMN 3681, JWST 3681 and AHUM 3681

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**IAFS 3850 (3) International Conflict Resolution and Peacebuilding**

Provides an introduction to the interdisciplinary field of international conflict resolution and peacebuilding. Provides tools for analyzing and intervening in contemporary manifestations of violent social conflict. Argues for an approach to international affairs rooted in more nuanced understandings of the nature of violent conflict and its dynamics. Bases the quest to build sustainable peace not on military supremacy or coercive diplomacy, but rather the ability of states and peoples to work collaboratively to develop mutually beneficial solutions aimed at the satisfaction of basic needs, collective security, political representation, and respect for human dignity. Explores how international conflicts are mitigated, contained, and resolved through processes such as DDR (disarmament, demobilization, and reintegration), citizen diplomacy, and reconciliation.

**Equivalent - Duplicate Degree Credit Not Granted:** PACS 3850

**Recommended:** Prerequisite PACS 2500.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Diversity-Global Perspective

**IAFS 4500 (3) The Post-Cold War World**

Capstone course for international affairs majors. Examines the ways in which the end of the Cold War, the collapse of failed states, and the rise of global terrorism changed the world. Studies how peoples, governments and nongovernmental organizations face new social, political, economic and security challenges in an era of globalization. Includes discussion, oral reports, critical book reviews, and research papers.

**Requisites:** Restricted to students with 87-180 credits (Senior) International Affairs (IAFS) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**IAFS 4800 (3) Honors Seminar in International Affairs**

Directed research course tailored to the particular research interests of the students enrolled. Devoted to research methodology and the development of students' research. Department enforced prerequisite: overall 3.30 GPA and IAFS 3.40 GPA.

**Additional Information:** Arts Sciences Honors Course

**IAFS 4810 (3) Honors in International Affairs**

Continuation of IAFS 4800. Students complete original research begun in the fall and write, defend their honors thesis and meet regularly with the instructor.

**Requisites:** Requires prerequisite course of IAFS 4800 (minimum grade C-).

**Additional Information:** Arts Sciences Honors Course

**IAFS 4900 (1-6) Independent Study in International Affairs**

Provides an opportunity to earn academic credit for learning outside the formal class structure. Students interested in doing in-depth research propose a research project to a faculty sponsor and then work closely with that person to produce a piece of original research. Department enforced prerequisite: restricted to students with 57-180 credits (Juniors or Seniors), GPA of 3.00 or better, grade of C or better in all lower-division courses, and at least 6 upper-division courses.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**IAFS 4930 (3-6) Internship in International Affairs**

Working individually under the guidance of a public or private organization, students are assigned to projects selected for their academic suitability. Written assignments occur throughout the semester.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) International Affairs (IAFS) majors only.

## International Affairs - Bachelor of Arts (BA)

With the increasing importance of world issues to the United States, employment opportunities in government, international organizations and business continue to expand. Today there is an urgent need for college graduates with a strong background in international affairs. To meet this need, the University of Colorado offers a comprehensive and flexible interdisciplinary program in international affairs leading to the BA degree.

## Requirements

### Required Courses and Credits

Students must complete the general requirements of the College of Arts and Sciences and a minimum of 49–51 credit hours of specified courses with a grade of C- or better (none may be taken pass/fail).

### Introductory Courses (10 credit hours)

Code	Title	Credit Hours
IAFS 1000	Global Issues and International Affairs	4
PSCI 2012	Introduction to Comparative Politics	3
PSCI 2223	Introduction to International Relations	3

**Total Credit Hours** **10**

In addition to introductory courses, complete the requirements listed below for:

- Functional area
- Geographic concentration
- Economics/methods
- Off-campus experience
- Foreign language
- Senior seminar

IAFS 3000 Special Topics in International Affairs can be repeated up to 9 credit hours for different topics.

### Functional Area (18 credit hours)

Students are required to complete one upper division class in each of the four functional areas and complete two additional upper division classes

in any functional area. Students cannot apply more than four functional area classes from any one department.

Code	Title	Credit Hours
<b>Development and Culture (Functional Area I)</b>		
ANTH 4020	Explorations in Anthropology (approved topics only)	3-6
ANTH 4500	Cross-Cultural Aspects of Socioeconomic Development	3
COMM 3410	Intercultural Communication	3

### **Economics/Methods (6–8 credit hours)**

Students are required to complete 6–8 credit hours in economics/methods. Choose two courses from the following list. Some of the courses listed may have required or recommended prerequisites.

<b>Code</b>	<b>Title</b>	<b>Credit Hours</b>
ANTH 4000	Quantitative Methods in Anthropology	3
ECON 2010	Principles of Microeconomics	4
ECON 2020	Principles of Macroeconomics	4
GEOG 3023	Statistics and Geographic Data	4
GEOG 4023	Advanced Quantitative Methods for Spatial Data	4
IAFS/ENVS 3640	Data Analysis for Global Environmental Affairs	3
PSCI 2075	Quantitative Research Methods	3
PSCI 3035	Introduction to Qualitative Research Methods	3
PSCI 3075	Applied Political Science Research	3
SOCY 2061	Introduction to Social Statistics	3
WGST 3020	Feminist Methods of Inquiry and Praxis	3

### **Off-Campus Experience (3 credit hours)**

Complete 3 upper-division credit hours to fulfill the off-campus experience requirement from one of the following: IAFS 4930 Internship in International Affairs; a CU Boulder study abroad course; a CU in DC course; or other credit-bearing off-campus experience approved

by the program. The 3 credits that fulfill the off-campus experience requirement cannot be applied to any other International Affairs major requirement. Fulfillment of the off-campus experience requirement through study abroad is subject to the student's final transcript from the Office of Education Abroad. Students should contact their advisor (<https://www.colorado.edu/iafs/student-resources/advising/>) with questions.

### **Language Requirement**

A third year, university-level proficiency in a foreign language appropriate to the geographic concentration is required. This requirement may be met by completion of one or two semester-long, third year, university-level grammar courses (depending on the language) with a grade of C- or better, while also satisfying language department requirements for advancement through the sequence. See the International Affairs Program (<http://www.colorado.edu/iafs/>) website for more information.

### **Senior Seminar (3 credit hours)**

<b>Code</b>	<b>Title</b>	<b>Credit Hours</b>
Choose one of the following:		
IAFS 4500	The Post-Cold War World	3
IAFS 4800	Honors Seminar in International Affairs	
PACS 4500	Senior Seminar: Research in Conflict Contexts (for IAFS majors in PACS only)	

**Total Credit Hours** **3**

### **Recommendations**

- All international affairs majors should have a good command of the English language.
- Students should choose electives with a view to their relevance to this program or usefulness as prerequisites for upper-division work.
- Students in international affairs are encouraged to consider the possibility of participating in one of the Study Abroad programs affiliated with the University of Colorado. Students wishing to participate in such a program should contact their advisor to work out an appropriate program.
- Internships are a useful experience for students seeking a career in international affairs. The (Internship in International Affairs (IAFS 4930)) provides the opportunity to earn academic credit for appropriate internships in the field. This course is generally offered during the spring and fall semesters and during summer sessions. Interested sophomores, juniors or seniors should consult with the director of the Internship Program. An application is required for admission to the Internship Program; see the International Affairs Program (<http://www.colorado.edu/iafs/>) website for more details. IAFS 4930 could count for the off-campus experience with approval from the internship director.
- The IAFS Honors Program offers the opportunity to learn and apply research skills for a select number of IAFS majors. Entry into the IAFS Honors Program is limited to seniors with a 3.40 major GPA and a 3.30 overall GPA. The Honors Seminar in International Affairs (IAFS 4800—offered each fall semester) provides instruction in research methods and facilitates the development of a sound research project. Research continues into the spring semester under the guidance of individual faculty members and through the continuation course, Honors in International Affairs (IAFS 4810). Interested and eligible students should consult with their academic advisor and the director of the Honors Program before spring break of their junior year. An application is required for admission to the

Honors Program; see the International Affairs Program (<http://www.colorado.edu/iafs/>) website for more details. IAFS 4810 could count for either an upper-division functional area and/or a geographic concentration class with approval from the honors director.

- Students interested in international affairs may want to consider the Global Studies Residential Academic Program offered through the residence halls. See Residential Academic Programs for information.
- International affairs majors who wish to minor in political science must apply the following additional rules:
  - No more than 9 credit hours toward the PSCI minor can come from courses that count toward another major
  - International affairs majors must take at least one upper-division course in American politics and one course (lower- or upper-division) in political theory, in addition to the regular minor requirements.

The specific courses that may be counted to meet the requirements in this program are determined by the committee on international affairs and the dean of the College of Arts and Sciences.

## Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in international affairs, students should meet the following requirements:

- Declare the major by the beginning of the second semester
- Begin language study by the third semester
- Complete the introductory requirements and any lower-division economics/methods requirements by the end of the sophomore year
- Begin geographic concentration and any upper-division economic/methods courses by the first semester of the junior year
- Begin upper-division general international affairs requirements by the first semester of the junior year
- Successfully complete any remaining major requirements by the end of the eighth semester
- See your IAFS advisor by the end of sophomore year to plan study abroad, the off-campus experience, and language requirements

## Recommended Four-Year Plan of Study

Through the required coursework for the major, students will fulfill all 12 credits of the Social Sciences area of the Gen Ed Distribution Requirement. Depending on the courses selected within the major, students can also potentially complete some or all credits toward the Arts & Humanities area of the Gen Ed Distribution Requirement and both categories in the Gen Ed Diversity Requirement. The off-campus experience should be completed in the third or fourth year through an Education Abroad program, IAFS 4930 with an approved internship, or other off-campus experience course approved by IAFS.

### Year One

#### Fall Semester

		Credit Hours
IAFS 1000	Global Issues and International Affairs	4
PSCI 2223	Introduction to International Relations	3
Beginning Foreign Language 1 (if needed, does not fulfill IAFS major course requirements)		4-5

Gen. Ed. Skills course (example: Lower-division Written Communication)	3
--	---

#### Credit Hours

14-15

### Spring Semester

Lower-division Economics/Methods course (if needed; see IAFS website for options)	3-4
Beginning Foreign Language 2 (if needed, does not fulfill IAFS major course requirements)	4-5
Gen. Ed. Skills course (example: QRMS)	3
Gen. Ed. Distribution course (example: Natural Sciences with Lab)	4

#### Credit Hours

14-16

### Year Two

#### Fall Semester

Lower-division Economics/Methods course (if needed; see IAFS website for options)	3-4
Intermediate Foreign Language 1 (If needed; does not fulfill IAFS major course requirements)	3-5
Gen. Ed Distribution/Diversity course (example: Arts & Humanities/US Perspective)	3
Gen. Ed. Distribution course (example: Natural Sciences)	3
Elective	3

#### Credit Hours

15-18

### Spring Semester

PSCI 2012	Introduction to Comparative Politics	3
Intermediate Foreign Language 2 (If needed; does not fulfill IAFS major course requirements)		3-5
Gen. Ed. Distribution course (example: Natural Sciences)		3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Elective		3

#### Credit Hours

15-17

### Year Three

#### Fall Semester

Upper-Division Foreign Language (if needed; see IAFS website for options)	3-5
Upper-Division Economics/Methods course (if needed; see IAFS website for options)	3-4
IAFS Functional Area 1 - Development & Culture, e.g. (see IAFS website for options)	3
IAFS Geographic Concentration - Contemporary History (see IAFS website for options)	3
Gen. Ed. Skills course (example: Upper-division Written Communication)	3

IAFS Additional Functional Area (1 of 2 required; see IAFS website for options)	3
IAFS Additional Functional Area (2 of 2 required; see IAFS website for options)	3
Gen. Ed. Distribution course (example: Arts & Humanities) - Upper-division (if needed)	3
Elective or Upper-division Elective (if needed)	3
Elective if needed to reach 120 total credits	0-3
<b>Credit Hours</b>	<b>15-18</b>
<b>Total Credit Hours</b>	<b>121-138</b>

## Learning Outcomes

The undergraduate degree in international affairs gives students the knowledge and skills to:

- Understand and examine fundamental issues, interdisciplinary theories and approaches to the study of international affairs.
- Analyze international challenges from a political, economic, historical and cultural perspective.
- Consider issues related to a specific geographic region of the world, including historical factors that give rise to regional institutions and processes.
- Communicate, orally and in writing, about international affairs to scholars in the field and to a broader audience, including in other cultural contexts.
- Develop grammar-based proficiency in a foreign language.

## International Affairs - Minor

With the increasing importance of world issues to the United States, employment opportunities in government, international organizations and business continue to expand. Today there is an urgent need for college graduates with a background in international affairs. To meet this need, the University of Colorado Boulder offers a minor in international affairs, giving students in various programs an interdisciplinary perspective on the world today.

## Requirements

### Required Courses and Credits

Complete the lower-division, upper-division and capstone requirements below for a total of 19 credits.

- All coursework applied to the minor must be completed with a grade of C- or better (no pass/fail work may be applied).
- The grade point average for all minor degree coursework must equal 2.00 (a grade of C) or higher.
- Students may apply no more than 9 credit hours of transfer work towards the minor.

Code	Title	Credit Hours
<b>Lower-Division Requirement</b>		
IAFS 1000	Global Issues and International Affairs	4
<b>Upper-Division Electives</b>		
Complete 12 credits of upper-division electives from the IAFS functional areas. Electives must be chosen from at least three of the four IAFS functional areas. Students cannot apply more than two IAFS Functional Area classes from any one discipline/department (e.g., PSCI, ECON).		12
<i>Development and Culture (Functional Area I)</i>		
ANTH 4020	Explorations in Anthropology (approved topics only)	
ANTH 4500	Cross-Cultural Aspects of Socioeconomic Development	
COMM 3410	Intercultural Communication	
ECON 3784	Economic Development and Policy	
ECON/GEOG 4292	Migration, Immigrant Adaptation, and Development	
ECON 4774	Topics in Economic Development, History and Political Economy	
ECON 4784	Economic Development	
ECON 4794	Economic Growth	
GEOG/WGST 3672	Who Runs the World? Sex, Power, and Gender in Geography	
GEOG 3682	International Development: Economics, Power, and Place	
GEOG 3692	Introduction to Global Public Health	
GEOG 4632	Development Geography	
GEOG 4852	Health and Medical Geography	
IAFS/JWST 3600	Contemporary Jewish Societies	
IAFS/SCAN 3631	Arctic Society and Culture	
IAFS/ENVS 3640	Data Analysis for Global Environmental Affairs	
IAFS 3670/ GEOG 3622	Cities of the Global South	
LING 3545	World Language Policies	
MUEL 3862	Music and Global Health	
PACS 3860	Environmental Conflict and Conflict Resolution	
PSCI 4012	Global Development	
PSCI 4732	Critical Thinking in Development	
PSCI 4283	International Migration and Policy	

SOCY 3002	Population and Society
SOCY/WGST 3012	Gender and Development
SOCY 4007	Global Human Ecology
SOCY 4052	Social Inequalities in Health
WGST 3500	Global Gender Issues
WGST 4300	Sex, Power, Politics: International Perspectives
<i>International Economics, Business, Political Economy (Functional Area II)</i>	
ECON 3403	International Economics and Policy
ECON 3545	Environmental Economics
ECON 4413	International Trade
ECON 4423	International Finance
ECON 4504	The New Institutional Economics: Institutions, Contracts and Economic Outcomes
ECON 4545	Environmental Economics
FNCE 4060	Special Topics in Finance
INBU 3300	International Business and Management
INBU 3450	International Business and Marketing
INBU 4200	International Financial Management
PSCI 3092	Comparative Political Economy
PSCI 3213	International Political Economy
<i>Political Geography, International Security, Foreign Policy (Functional Area III)</i>	
ANTH/JWST 4580	The Holocaust: An Anthropological Perspective
GEOG 3742	Place, Power, and Contemporary Culture
GEOG 4712	Political Geography
GEOG 4742	Topics in Environment and Society (approved topics only)
GEOG 4762	Geographies of Political Islam
HIST 4050	A Global History of World War II
HIST 4126	History of U.S. Foreign Relations Since 1941
HIST 4146	U.S. Military History since 1898
HIST 4166	The Vietnam War in US Politics and Culture
IAFS 3010	Islam, Geopolitics and Society: Gender, Identity and Place
IAFS 3500/ HIST 4190	French Connections: Contemporary France and America in Historical Context
IAFS/JWST 3650	History of Arab-Israeli Conflict
PACS 3800	Security Studies
PHIL 3190	War and Morality
PSCI 3123	War, Peace, and Strategic Defense
PSCI 3143	Current Affairs in International Relations
PSCI 3163	American Foreign Policy
PSCI 3193	International Behavior
PSCI 4243	Modern Warfare: Terrorism, Ideology, Identity
<i>International Institutions, Rights and Norms (Functional Area IV)</i>	
ANTH 4525	Global Islams

HIST 4820	Human Rights: Historical Perspectives
IAFS 3630/ SCAN 3631	Radical Nationalism in Contemporary Northern Europe
INVS 4402	Nonviolent Social Movements
MUEL 3882	Music and Violence
PACS 3850	International Conflict Resolution and Peacebuilding
PACS 3870	Nonviolent Civil Resistance: Movements and Strategies
PHIL 3260	Philosophy and the International Order
PRLC 3810	Global Issues in Leadership
PSCI 3062	Revolution and Political Violence
PSCI 3183	International Law
PSCI 4173	International Organizations
PSCI 4252	Politics of Ethnicity and Nationalism
PSCI 4783	Global Issues
SOCY/ENVS 4027	Inequality, Democracy, and the Environment
SOCY 4121	Sociology of Religion
WGST 3220	Women in Islam
WGST 3712	Topics in Global Gender and Sexuality Studies (SS)
WGST 4010/ SOCY 4000	Gender, Genocide and Mass Trauma
WGST 4500/ PSCI 4391	Gender Politics and Global Activism

## European Union Studies - Certificate

The certificate in European Union studies (CEUS) allows CU Boulder undergraduates in a range of social science and humanities programs to gain skills and understanding around the European Union (EU). The certificate documents a student's expertise in European Union studies, opening opportunities for further study, internships and careers in public, private or nonprofit sectors.

CEUS is housed in the International Affairs Program (IAFS) in the College of Arts and Sciences, and the certificate curriculum is intentionally interdisciplinary. Students admitted into the program will complete coursework with EU content going beyond what they can obtain merely by completing any single major. They will also participate in cocurricular activities to augment their understanding of the development, focus, functioning and future of the EU.

Upon completion of this program, students will have a demonstrated understanding of the European Union; its politics, history, institutions, economics, policies, member states, relations with the US, role in the world and much more.

For more information, visit the program's European Union Studies (<https://www.colorado.edu/iafs/academics/certificates/european-union-studies/>) webpage.

## Requirements

### Application and Admission

For more information and to apply, contact [iafs@colorado.edu](mailto:iafs@colorado.edu) (GEAcertificate@colorado.edu). The application includes an essay describing the applicant's interests and background in EU studies and reasons or motivations for pursuing this certificate.

### Program Requirements

A total of 19 credit hours of coursework is required to complete the certificate. All credit hours must be completed with grades of C- or better and an overall GPA of 3.000. None of the required hours may be taken pass/fail.

In addition to their coursework, CEUS students will attend at least four EU-related lectures and events during their semesters of residency at CU and will submit a brief write-up of the main themes or discussion points of the events to [iafs@colorado.edu](mailto:iafs@colorado.edu).

Code	Title	Credit Hours
<b>Lower-Division Core Requirements</b>		<b>7</b>
It is essential that all students in the EU Studies Certificate program begin with a common framework for the analysis of international institutions and relations as a background for the upper-division coursework in EU studies. All students must therefore complete the following lower-division requirements:		
PSCI 2012	Introduction to Comparative Politics	
IAFS 1000	Global Issues and International Affairs	
<b>Upper-Division Core Requirements</b>		<b>3</b>
PSCI 4302	European Union Politics	
<b>Upper-Division Electives</b>		<b>9</b>
Students must complete at least 9 hours of relevant upper-division coursework, including at least 6 credit hours from outside their major or minor, selected from the list below. Courses not listed here but with a focus on EU issues may be applied to this elective requirement with approval from IAFS. This includes, in particular, courses taken on authorized study abroad program in EU countries.		
ECON 4514	Economic History of Europe	
FNCE 4060	Special Topics in Finance (certain topics)	
GEOG 4892	Geography of Western Europe	
GRMN 3150	Issues in German Politics, Literature and Media	
GRMN/WGST 4301	Gender, Race and Immigration in Germany and Europe	
HIST 4212	The Age of Religious Wars: Reformation Europe, 1500-1648	
HIST 4053	Britain and the Empire, 1688-1964	
HIST 4233	History of France since 1815	
HIST 4423	German History 1848-1989: Weimar Republic, Nazism, State Socialism	
HIST 4424	Modern European Thought and Culture, 1870-Present	
HIST 4442	Europe since 1945	
IAFS 3500	French Connections: Contemporary France and America in Historical Context	
ITAL 4250	History of Modern Italy	

PSCI 3143	Current Affairs in International Relations
PSCI 3172	Democracy and Its Citizens in the US and EU
PSCI 3183	International Law
PSCI 4002	Western European Politics
PSCI 4062	East European Politics
PSCI 4173	International Organizations
PSCI 4213	Europe and the International System
SPAN 3200	Spanish Culture
SPAN 3240	Catalan Culture 1: Nation and Art
SPAN 3250	Catalan Culture 2: Contemporary Trends and Barcelona
SPAN 3230	Discovering Barcelona: Culture and Heritage
SPAN 3270	Barcelona: Understanding Local and Immigrant Cultures

**Total Credit Hours** **19**

Students earn the certificate in European Union studies upon verification by IAFS that they have completed a series of curricular and co-curricular requirements.

## Global Environmental Affairs - Certificate

The certificate in Global Environmental Affairs provides students with opportunities to personalize undergraduate learning across disciplinary lines and to deepen student engagement with world problems. The certificate includes both formal coursework and a 3-credit off-campus experiential component. This experiential learning component may be completed through internship, study abroad or CU in DC. This requirement not only enriches the students' educational experience through applied learning and fieldwork, but it also helps students demonstrate their skills and experience as they prepare for graduation and the job market.

The certificate in global environmental affairs is offered jointly by the Program in International Affairs (IAFS) and the Department of Environmental Studies (ENVS). This certificate is open to all majors at CU Boulder, and it draws upon courses and interdisciplinary expertise in both IAFS and ENVS to link and develop knowledge of global environmental policies and practices. For IAFS and ENVS students, it will provide additional value for the two interdisciplinary majors.

For more information and to apply, contact [GEAcertificate@colorado.edu](mailto:GEAcertificate@colorado.edu).

## Requirements

### Program Requirements

The certificate requires 19–20 credits, depending on the courses chosen. All credit hours must be completed with grades of C- or better and an overall GPA of 2.50. None of the required hours may be taken pass/fail. For more details and application information, see the International Affairs Program (<http://www.colorado.edu/iafs/>) website.

## Program Tracks

### Track 1: ENVS Majors

Code	Title	Credit Hours
<b>Introductory Course</b>		
IAFS 1000	Global Issues and International Affairs	4
<b>Data Analysis Requirement</b>		
Choose one of the following:		3
ENVS/IAFS 3640	Data Analysis for Global Environmental Affairs	
EBIO 4155	Ecosystem Ecology	
PSCI 2075	Quantitative Research Methods	
<b>Experiential Requirement</b>		
Choose one of the following (courses and internships must have clear environmental content):		3
ENVS 3930	Internship	
Study abroad class		
The Washington Center class		
<b>Electives</b>		
Choose 9 credits from the following:		9
ENVS 4100	Special Topics in Environmental Studies (approved sections for the certificate)	
ENVS 4800	Capstone: Critical Thinking in Environmental Studies (approved sections for the certificate)	
ECON 3403	International Economics and Policy	
ECON 3784	Economic Development and Policy	
IAFS 3000	Special Topics in International Affairs (approved sections for certificate)	
PSCI 4012	Global Development	
PSCI 4732	Critical Thinking in Development	
<b>Total Credit Hours</b>		<b>19</b>

### Track 2: IAFS Majors

Code	Title	Credit Hours
<b>Introductory Course</b>		
ENVS 1000	Introduction to Environmental Studies	4
<b>Data Analysis Requirement</b>		
Choose one of the following:		3
ENVS/IAFS 3640	Data Analysis for Global Environmental Affairs	
EBIO 4155	Ecosystem Ecology	
PSCI 2075	Quantitative Research Methods	
<b>Experiential Requirement</b>		
Choose one of the following (courses and internships must have clear environmental content):		3
IAFS 4930	Internship in International Affairs	
Study abroad class		
The Washington Center class		
<b>Electives</b>		
Choose 9 credits from the following:		9
ENVS 4100	Special Topics in Environmental Studies (approved sections for the certificate)	

ENVS 3070	Energy and the Environment
ENVS/GEOL 3520	Energy and Climate Change: An Interdisciplinary Approach
ENVS 3525	Intermediate Environmental Problem Analysis: Topical Cornerstones
ENVS 3621	Energy Policy and Society

**Total Credit Hours** 19

### Track 3: All Other Majors

Code	Title	Credit Hours
<b>Introductory Courses</b>		
IAFS 1000	Global Issues and International Affairs	4
ENVS 1000	Introduction to Environmental Studies	4
<b>Data Analysis Requirement</b>		
Choose one of the following:		3
ENVS/IAFS 3640	Data Analysis for Global Environmental Affairs	
EBIO 4155	Ecosystem Ecology	
PSCI 2075	Quantitative Research Methods	
<b>Experiential Requirement</b>		
Choose one of the following (courses and internships must have clear environmental content):		3
ENVS 3930	Internship (or other internship class)	
Study abroad class		
The Washington Center class		
<b>Electives</b>		
Choose 6 credits from the elective list of Track 1 or Track 2.		6
<b>Total Credit Hours</b>		<b>20</b>

## Jewish Studies

The Program in Jewish Studies, which is open to all students of all backgrounds, Jewish and non-Jewish, explores Jewish culture, history, society, and thought from a broad, interdisciplinary perspective. The program reflects the core goals of Colorado's flagship university: to provide an outstanding liberal arts education, to foster critical thought, and to instill a keen appreciation of humankind's interrelatedness and diversity. At its core, the major trains students to be global citizens and to engage in and enact social justice in the world.

Jewish Studies is home to internationally acclaimed faculty engaged in cutting-edge research and provides opportunities for students to study with leading artists, scholars and professionals working in the field of Jewish Studies. The program offers an innovative and contemporary curriculum designed to provide a strong foundation in cultural education and to connect Jewish thought and text to action and people's lives.

The program offers a Bachelor of Arts in Jewish Studies (students can pursue either a culture intensive concentration or a foreign language intensive concentration), a minor in Jewish Studies and a minor in Hebrew and Israel Studies.

An undergraduate degree in Jewish Studies emphasizes knowledge and awareness of:

- the history of global Jewish communities over time, including the history of Israel and Palestine, biblical and medieval Jewish history,

history of Jewish communities in the Mediterranean, the history of the Holocaust and post-Holocaust American Judaism;

- dimensions of Jewish culture across variant Jewish communities, including differences in Jewish cultural practices, Jewish music and film, and Jewish philosophies, religious practices, mysticisms and thought;
- Jewish literature from the biblical period to the present, including Israeli literature, the Hebrew origins of western civilization, and contemporary Jewish literature; and
- global languages of the Jewish people, including Hebrew, Arabic, Spanish, French, Italian, Russian, German, Ladino and others (for students pursuing the foreign language intensive concentration).

In addition, it is expected that students completing the degree in Jewish Studies will develop:

- fundamental skills in critical thinking, comparative analysis, oral and written expression;
- a well-rounded perspective of the diversity of the Jewish experience;
- an ability to engage in dialogues with people who have different opinions;
- professional skills intended to aid them in their career ambitions.

Jewish Studies alumni have gone on to careers in politics, international policy, criminal justice, nonprofit, business, education, law, public relations, administration, marketing, real estate, and journalism. Many have pursued additional education in graduate programs and professional schools.

The study of Jewish culture, society, history, and religion is, by its nature, comparative and interdisciplinary. Our program offers many cross-listed classes with other departments on campus to facilitate a well-rounded learning experience. Many of our courses also satisfy core and general education requirements.

The program also offers many professional development opportunities to help students find employment after graduation in a field that fits their interests. The Internship in Jewish Studies (JWST 3930) pairs students with local organizations based on the student's long-term career goals. Majors are also required to complete a Capstone in Jewish Studies (JWST 4000) in which they design an artistic project or research paper under the supervision of a faculty mentor that serves as a summation of their work in Jewish Studies. Majors and minors are eligible to join the Jewish Studies Undergraduate Student Advisory Board. Jewish Studies also highly encourages students to study abroad and has instituted two Global Seminars, one to Istanbul and the other to Israel.

The Program in Jewish Studies also offers undergraduate and graduate students an opportunity to apply for fellowships in our archival collections so they can learn how to conduct primary research first-hand.

The Program in Jewish Studies is growing and new courses are continually being added. Visit the Jewish Studies (<https://www.colorado.edu/jewishstudies/>) website for the most current course information.

**Course codes for this program are JWST and HEBR.**

## Bachelor's Degree

- Jewish Studies - Bachelor of Arts (BA) (p. 447)

## Minors

- Hebrew and Israel Studies - Minor (p. 452)
- Jewish Studies - Minor (p. 453)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

## Courses

### **JWST 1040 (3) Beginning Biblical Hebrew, Second Semester**

Building on HEBR 1030, continues to build expertise in reading the Hebrew Bible. Modern language acquisition and classical grammar study methods equip students with the tools to translate and read the various genres of the Biblical material. Department enforced prerequisite: HEBR 1030 or JWST 1030 (minimum grade C-).

**Equivalent - Duplicate Degree Credit Not Granted:** HEBR 1040

### **JWST 1234 (3) Mysticism and the Jewish American Literary Tradition**

Explores the mystical tradition within Judaism from ancient times to the present. With roots in the Hebrew Bible, Jewish mysticism is one of the oldest forms of mysticism and has had an influence on some of the greatest philosophical traditions of western civilization.

**Equivalent - Duplicate Degree Credit Not Granted:** ENGL 1340

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 1818 (3) Jewish History to 1492**

Focus on Jewish history from the Biblical period to the Spanish Expulsion in 1492. Study the origins of a group of people who call themselves, and whom others call, Jews. Focus on place, movement, power/powerlessness, gender, and the question of how to define Jews over time and place. Introduces Jews as a group of people bound together by a particular set of laws; looks at their dispersion and diversity; explores Jews' interactions with surrounding cultures and societies; introduces the basic library of Jews; sees how Jews relate to political power.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 1818 and RLST 1818

**Additional Information:** Arts Sci Core Curr: Historical Context  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Asia Content

**JWST 1828 (3) Jewish History Since 1492**

Surveys the major historical developments encountered by Jewish communities beginning with the Spanish Expulsion in 1492 up until the present day. Studies the various ways in which Jews across the modern world engaged with the emerging notions of nationality, equality and citizenship, as well as with new ideologies such as liberalism, socialism, nationalism, imperialism and antisemitism.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 1828 and RLST 1828

**Additional Information:** GT Pathways: GT-HI1 - History  
Arts Sci Core Curr: Historical Context  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective

**JWST 1830 (3) Global History of Holocaust and Genocide**

Examines the interplay of politics, culture, psychology and sociology to try to understand why the great philosopher Isaiah Berlin called the 20th century, "The most terrible century in Western history." Our focus will be on the Holocaust as the event that defined the concept of genocide, but we will locate this event that has come to define the 20th century within ideas such as racism, imperialism, violence, and most important, the dehumanization of individuals in the modern world.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 1830 and RLST 1830

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Core Curr: Historical Context  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective

**JWST 1900 (3) Introduction to the Hebrew Bible/Old Testament**

Examine the content of the Hebrew Bible and critical theories regarding its development. Explore the development of these texts, as well as their foundational role for rabbinic literature and the New Testament. Assess the enduring influence of the Hebrew Bible/Old Testament in world literature and culture (such as in art and music).

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 1900

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective

**JWST 1910 (3) Introduction to the New Testament**

Examine the background, content and influence of the New Testament books. Studies the diverse perspectives contained in the various books, as well as the process of canonization. Assess the influence of the New Testament on the development of Christianity as well as world (eastern and western) culture.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 1910

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 2350 (3) Introduction to Jewish Culture**

Explores the development and expressions of Jewish cultures across the chronological and geographical map of the Jewish people, with an emphasis on the variety of Jewish ethnicities and their cultural productions, cultural syncretism, and changes, including such issues as sexuality and foodways. Sets the discussion in relevant contexts and looks at cultural representations that include literary, religious and visual texts.

**Equivalent - Duplicate Degree Credit Not Granted:** GSLL 2350

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Arts Sci Gen Ed: Diversity-U.S. Perspective

**JWST 2502 (3) Representing the Holocaust**

Examines representations of the Holocaust in film, memoirs, poetry, novels, graphic novels, memorials. Considers questions such as: How to depict an event that resists representation? How does the memory of the Holocaust transform over generations? How do representations of the Holocaust inform our understanding of other experiences of racism and genocide? What ethical issues are at stake?

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 2502

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 2551 (3) Modern Jewish Literature**

Examines Jewish experience through the study of literary texts from around the world, mainly from the 20th and 21st centuries. Discusses issues pertaining to secularism and tradition; diasporas and homelands; modernity and questions of identity raised by the intellectual transitions brought about by political and social emancipation; sexualities; enormous changes wrought by population redistributions, world wars and rapid cultural transformations.

**Equivalent - Duplicate Degree Credit Not Granted:** GSLL 2551

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Hebrew

**JWST 2600 (3) Judaism, Christianity, and Islam: Abrahamic Religions**

In Judaism, Christianity, and Islam, Abraham is described as a founding figure. In recent times, the label *Abrahamic Religions* has become increasingly important both as a way to describe the origins and beliefs of Judaism, Christianity, and Islam and as a means for finding common ground in political and religious discourse. Yet in each religion Abraham is also used in strikingly different ways and for distinct purposes. In this course, we will look at these three religious traditions and how each one imagines Abraham. In particular, the focus will be on how each religion uses Abraham to construct foundational stories of a special relationship to God, stories that ultimately serve to promote religious identity over time.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 2600

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Asia Content

**JWST 3100 (3) Judaism**

Explores Jewish religious experience and its expression in thought, ritual, ethics, and social institutions.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 3100

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Asia Content

**JWST 3110 (3) Of Jewish Legends, Folktales and the Supernatural**

Explores Jewish traditional legends, folktales and stories of the supernatural. Starts with Aggadic Talmud tales and Midrashic texts and focuses on later rabbinic and mystical texts and folktales ca 500-1900 C.E. from around the Jewish world with subjects ranging from didactic narratives extolling the virtues of the simple pure soul, to the horrors of a blood sucking vampiric outside world.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 3110

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 3120 (3) Radical Jews**

Explores major Jewish figures, and their cultural productions, who were radical in the challenges they posed and transformative in the effects they had on society. The figures we examine range from the Rabbis of the Talmud who revolutionized a sacrificial cult religion, to Western secularist Baruch Spinoza and American icons such as Allen Ginsberg, Gloria Steinem and Bob Dylan.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 3120

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 3150 (3) Jerusalem: The Holy City in History, Legend, and Religious Thought**

The history of Jerusalem and the stories that have given it prominence in the religious imagination continue to shape much of the world in which we live. In this class, we will survey approximately three millennia of the history of the city. We will ask methodological question, such as: What does it mean for a place to be conceived of as holy? How does this perceived holiness come about? What happens when holy places are destroyed and rebuilt? We will examine the biblical stories about Jerusalem not only as important sources themselves, but also for how they shape later religious traditions, specifically Judaism, Christianity, and Islam. As such, we will address what it means for the same place to be perceived as holy by differing, and often competing, groups. These contestations regarding Jerusalem will, then, allow us to engage issues of religious diversity and conflict both historically and in the present.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 3150

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 3200 (3) Religion and Feminist Thought**

Examines the origin of patriarchal culture in the theology and practices of Judaism and Christianity. Explores attitudes and beliefs concerning women as Judeo-Christian culture impacts gender roles and gender stratification through reading and discussion. Women's religious experience is studied from the perspective of feminist interpretations of religiosity.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 3200

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 3202 (3) Women, Gender & Sexuality in Jewish Texts & Traditions**

Reads some of the ways Jewish texts and traditions look at women, gender and sexuality from biblical times to the present. Starts with an analysis of the positioning of the body, matter and gender in creation stories, moves on to the gendered aspects of tales of rescue and sacrifice, biblical tales of sexual subversion and power, taboo-breaking and ethnos building, to rabbinic attitudes towards women, sexuality and gender and contemporary renderings and rereadings of the earlier texts and traditions.

**Equivalent - Duplicate Degree Credit Not Granted:** HEBR 3202 and RLST 3202 and WGST 3201

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

**JWST 3310 (3) The Bible as Literature**

No single book has been as influential to the English-speaking world as the Bible. We'll read the Hebrew Bible and the New Testament for stories, poetry, and wisdom traditions. We'll approach the Bible as literature by analyzing its plots, characters, and meanings. Students study its textual history, how there came to be a Bible, and the many writers, conflicts, and cultures from which it emerged. We'll consider the Bible's powerful influence on ethics and philosophy. Formerly ENGL 3312.

**Equivalent - Duplicate Degree Credit Not Granted:** HUMN 3310 and ENGL 3310

**Additional Information:** Arts Sci Core Curr: Ideals and Values

Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 3401 (3) The Heart of Europe: Filmmakers and Writers in 20th Century Central Europe**

Surveys the major works of 20th century central and central east European film and literature. Examines cultural production in the non-imperial countries and non-national languages of the region including Yiddish, Belarusian, Czech, Hungarian, Polish and Romanian, among others. Traces the rise of nationalism over the course of the century from the age of empires through the Cold War.

**Equivalent - Duplicate Degree Credit Not Granted:** GSLL 3401

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 3501 (3) The German-Jewish Experience: From the Enlightenment to the Present**

Provides insight into the German-Jewish identity through essays, autobiographies, fiction and journalism from the Enlightenment to the post-Holocaust period. Examines the religious and social conflicts that typify the history of Jewish existence in German-speaking lands during the modern epoch.

**Equivalent - Duplicate Degree Credit Not Granted:** GRMN 3501

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

**JWST 3530 (3) Global Seminar: Jews and Muslims - The Multiethnic History of Istanbul**

Spend two weeks in Istanbul and examine Jewish-Muslim relations in a place that was for 500 years the crossroads of civilization. The only Muslim city in the 21st century with a large, thriving Jewish community, Istanbul models how people from different social classes, ethnicities and religious backgrounds can coexist.

**Equivalent - Duplicate Degree Credit Not Granted:** IAFS 3530 and RLST 3530

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

**JWST 3600 (3) Contemporary Jewish Societies**

Uses transnational lens to explore contemporary debates about Jewish people, places and practices of identity and community; places that Jews have called 'home', and what has made, or continues to make those places 'Jewish'; issues of Jewish homelands and diasporas; gender, sexuality, food and the Jewish body; religious practices in contemporary contexts. Readings drawn primarily from contemporary journalism and scholarship.

**Equivalent - Duplicate Degree Credit Not Granted:** IAFS 3600 and GSSL 3600

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-U.S. Perspective

**JWST 3610 (3) Topics in International Affairs and Jewish Studies**

Explores topics in international affairs as it relates to Jewish culture and society. Subjects addressed under this heading vary according to student interest and faculty availability.

**Equivalent - Duplicate Degree Credit Not Granted:** IAFS 3610

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**JWST 3650 (3) History of Arab-Israeli Conflict**

Explores the origins and development of the Arab-Israeli conflict. Traces Arab-Jewish/Israeli relations from the 19th century through the Palestine Mandate, the evolution of Arab and Jewish nationalism and the creation of Israel to the present day.

**Equivalent - Duplicate Degree Credit Not Granted:** IAFS 3650

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Asia Content

**JWST 3681 (3) Refugees in German Culture**

Introduces the diversity of refugee migration in German culture through artistic and cultural "texts," including those created by or in collaboration with refugees (film, comic journalism, literature, blogs, hashtag campaigns, music, etc). These texts are discussed in relationship to theories of racism, precarity, and biopolitics together and contextualized by work from other disciplines. This interdisciplinary course is methodologically informed by the theory and practice of cultural studies. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** GRMN 3681, IAFS 3681 and AHUM 3681

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 3820 (3) Topics in Jewish Studies**

Intensive study of a selected area or problem in Jewish Studies.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 3930 (3) Internship in Jewish Studies**

Learn beyond the classroom by interning in a local non-profit organization that connects with the Program in Jewish Studies through its mission and/or program. Interns will attend class to learn about work place ethics, professional development and leadership skills through a Jewish Studies lens. Interns will be supervised by the faculty member of record as well as the employer housing the intern.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Recommended:** Prerequisites HEBR 2350 or JWST 2350 or HIST 1818 or JWST 1818 or HIST 1828 or JWST 1828.

**JWST 4000 (1-3) Capstone in Jewish Studies**

Serves as the final product for students completing the major in Jewish Studies. Students will design a project under the supervision of a mentor that serves as the summation of their past work in Jewish Studies. Capstone projects can take the form of a thesis, film or another media. Instructor consent required for JWST minors.

**Requisites:** Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Jewish Studies (JWST) BA majors only. Excludes JWST minors.

**JWST 4050 (3) Anthropology of Jews and Judaism**

Explores topics in Jewish anthropology. Uses the lens of anthropological inquiry to explore, discover and analyze different concepts within Jewish culture. Topics explored will include customs, religious practices, languages, ethnic and regional subdivisions, occupations, social composition, and folklore. Explores fundamental questions about the definition of Jewish identity, practices and communities.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 4050

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 4101 (3) Topics in Hebrew Studies**

Explores topics in Hebrew and Jewish literature and cultures. These may include topics such as diasporic literatures, Jewish artists and thinkers, courses on specific authors, figures or communities. Topics change each semester. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** HEBR 4101

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 4122 (3) Music in Jewish Culture**

Introduces students to a wide range of musical styles, traditions, genres, performers, composers, events and works that are part of Jewish culture, focusing on the twentieth and twenty-first centuries. Provides tools for understanding music on its own and in connection with issues of identity, diaspora, memory and liturgy. Includes opportunities for creative and critical engagement with Jewish music.

**Equivalent - Duplicate Degree Credit Not Granted:** MUSC 4122

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 4170 (3) God and Politics**

Explores the relationship between religion and politics. Examining traditions such as Judaism and Christianity, this course considers diverse ways in which ancient, medieval and modern sources have imagined the role of religion in civic life. Some topics include the status of religious minorities, the nature of religious freedom and contemporary debates surrounding issues such as torture, sexuality and climate change.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 4170 and RLST 5170

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 4180 (3) Is God Dead?**

Explores debates about the following questions: does it make sense to believe in God? Should believing or not believing in God make a difference for how individuals behave? Examining ancient and modern views on the existence and nature of a higher power, this course considers topics including evil and suffering, religion and science and religion's role in politics.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 4180 and RLST 5180

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 4190 (3) Love and Desire**

Explores debates about the following questions: what and whom should humans and gods love, and what role should passions play in religion? Examining traditions such as Judaism and Christianity, this course considers diverse views on topics including religion and sexuality, the promise and perils of loving gods and humans, and the relationship between love, politics, and violence.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 4190 and RLST 5190

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 4200 (3) Religion and Reproductive Politics in the United States**

Focuses primarily on how Protestant, Catholic, and Jewish conversations about sexuality and reproduction have shaped access and attitudes towards reproductive health in the US over the course of the twentieth and twenty-first centuries.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 4200, WGST 5200 and JWST 5200

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-U.S. Perspective

**JWST 4203 (3) Israeli Literature: Exile, Nation, Home**

Examines the creation and development of Israeli literature from its pre-State beginnings to the present day, from the writings of immigrants for whom Hebrew was not their mother tongue to a literature written by native Hebrew speakers. Considers texts written by Israeli Jewish and Arab writers and explores how ideas of exile, nation, and home play into the Israeli experience.

**Equivalent - Duplicate Degree Credit Not Granted:** HEBR 4203

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Recommended:** Prerequisites ENGL 4677 or JWST 4677 or GRMN 2502 or JWST 2502 or JWST 2551 or WRTG 3020.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 4260 (3) Topics in Judaism**

Examines in depth central themes, schools of thought, and movements in Judaism, along with other traditions, across a range of historical periods.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 4260 and RLST 5260

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 4301 (3) Venice: The Cradle of European Jewish Culture**

Explores the development of European Jewish culture from the late Middle Ages to the present by focusing on Jewish life in the city of Venice, Italy. Emphasis is on the development of Venetian print culture and emergence of Italy as a center of Jewish publishing in both the religious and secular world. Examines a variety of cultural and historical material including early printings of the Talmud, the creation of Yiddish popular literature, Hebrew rabbinic literature, responses to political turmoil, and the aftermath of the Nazi genocide. Taught in English. Department enforced prerequisite: HEBR 2350 or JWST 2350 (minimum grade C-).

**Equivalent - Duplicate Degree Credit Not Granted:** HEBR 4301

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 4302 (6) Global Seminar: Justice, Human Rights and Democracy in Israel**

Explore the challenges and complexities of justice, democracy and human rights in Israel and the West Bank through field trips, course work and service learning projects with Jerusalem based non-profit organizations. Acquire new knowledge and lived experience on critical issues facing Israelis and Palestinians with the wider scope of Middle East politics.

**Equivalent - Duplicate Degree Credit Not Granted:** IAFS 3520

**Recommended:** Prerequisites ANTH 4050 or JWST 4050 and IAFS 3600 or JWST 3600.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Asia Content

**JWST 4338 (3) History of Modern Israel/Palestine**

Explore the history culture, and politics of this crossroads of Europe and Asia from the late Ottoman period to the present. Topics include: nationalism and colonialism, development of Zionist ideology, Palestinian nationalism, the Jewish community (Yishuv) under British rule, the founding of the State of Israel, Arab-Israeli and Palestinian-Israeli relations, Israel's minorities, and the conflict of religion and state.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 4338

**Recommended:** Prerequisite HIST 1818 or JWST 1818 or HIST 1828 or JWST 1828 or HIST 1308 or JWST 2350 or other course work in Middle Eastern or Jewish History.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 4348 (3) Topics in Jewish History**

Covers topics in Jewish history from biblical beginnings to present day. Topics vary each semester. Consult the online Schedule Planner for specific topics.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 4348

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 4378 (3) History of Modern Jewish-Muslim Relations**

Examines the modern history and culture of Jewish communities under Islamic rule in the Middle East and North Africa; Jews' and Muslims' encounters with empire, westernization and nationalism; representations of Sephardi and Eastern Jews; Jewish-Muslim relations in Europe and the U.S.; and contact and conflict between Jews and Muslims in (and about) Israel/Palestine. Sources include memoirs, diaries, newspapers and films.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 4378

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Asia Content

**JWST 4388 (3) History Today: Global Intensive in Israel/Palestine**

This global intensive analyzes history, memory and nationalism in one of the areas where the relationship between these three categories is the most fraught: Israel/Palestine. After learning the historical background to the Arab/Israeli and Palestinian conflict in Boulder, students will visit Israel and the West Bank/Occupied Territories/Judea and Samaria. Through this course, students will gain a nuanced, multi-sided perspective of Israel, Palestine and the uses of history and memory.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 4388

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 4454 (3) Jewish Thought in Modern History**

Takes students on a journey from Medieval Spain to contemporary United States to explore how Jews, living in different societies, have attempted to reshape and interpret central Jewish values and beliefs in accordance with the prevailing ideas of their host societies. Focuses on the historical context of each Jewish society that produced the thinkers and ideas considered in this course.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 4454

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 4524 (3) Expulsions and Diasporas: The Jews of Spain and Portugal**

Considers the experience of Jews and converses during the Spanish Inquisition and the Iberian expulsions of the 1490s. Sephardic refugees faced social, economic, and political upheavals in the decades after their exile, leading to new communities in settings as diverse as North Africa, India, Turkey, the Caribbean, and the Americas. The study of texts and traditions from the Sephardic diaspora will explore themes including forced conversion, rabbinic authority, colonialism, and mercantile networks. Previously offered as a special topics course.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 4524

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 4534 (3) Modern European Jewish History**

Focus on the last 500 years of European Jewish history, from 1492 until the present, to examine Jews' place in European history and how Europe has functioned in Jewish history. Does not end with the Holocaust, since, although Hitler and the Nazis attempted to destroy European Jewish civilization, they did not succeed. Rather, this course will spend several weeks looking at European Jewish life in the past sixty year.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 4534

**Recommended:** Prerequisite HIST 1818 or JWST 1818 or HIST 1828 or JWST 1828 or HIST 1012.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 4544 (3) History of Yiddish Culture**

Jews have produced culture in Yiddish, the vernacular language of Eastern European Jewry, for 1000 years and the language continues to shape Jewish culture today. We will look at the literature, film, theater, music, art, sound and laughter that defined the culture of Eastern European Jewry and, in the 20th century, Jews around the world.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 4544 and HIST 5544

**Recommended:** Prerequisite HIST 1818 or JWST 1818 or JWST 1828 or GSSL 2350 or JWST 2350.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 4580 (3) The Holocaust: An Anthropological Perspective**

Focuses on the Holocaust during the Third Reich, which involved the murder of millions of people, including six million Jews. Reviews the Holocaust's history, dynamics and consequences as well as other genocides of the 20th century, using an anthropological approach.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 4580

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 4677 (3) Jewish-American Literature**

This course explores a variety of Jewish-American literary works from the late-nineteenth century to the present, from Abraham Cahan to Philip Roth to Cynthia Ozick. We examine a number of issues, including what a Jewish-American writer is or is not, what role the immigrant experience plays in Jewish writing, how assimilation is represented, how this literature changes over time, what the significance is of gender roles, and how it draws from spiritual and mystical traditions. Formerly ENGL 3677.

**Equivalent - Duplicate Degree Credit Not Granted:** ENGL 4677

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-U.S. Perspective

**JWST 4800 (3) Ethics, Medicine and the Holocaust: Legacies in Health and Society**

Engages the disturbing fact that German health care professionals actively participated in the architecture and machinery of the Third Reich; explores the implications of these facts for contemporary health care ethics; expands beyond the Holocaust to consider the ramifications for our understanding of the problem of evil in general.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 5800

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 4827 (3) Modern U.S. Jewish History since 1880**

Explores the experience of Jews in the United States from the 1880's when the great migration of Jews from Eastern Europe began, through the twentieth century. Students will explore the changing ways in which Jews adapted to life in the U.S., constructed American Jewish identities, and helped to participate in the construction of the United States as a nation.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 4827

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 4837 (3) Jews in the American West**

Explores the history of Jewish migration and settlement in the American West. Jewish pioneers in the nineteenth century included explorers, businessmen, and cowgirls that established small communities in territories that had not yet achieved statehood. As westward expansion progressed, Jews continued to find opportunity in the West, balancing assimilation with unique expressions of religious identity. The history of communal institutions including synagogues, hospitals and summer camps offers new perspectives on this underrepresented segment of American Jewry.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 4837

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**JWST 4900 (1-6) Independent Study in Jewish Studies**

Working with a faculty member in Jewish Studies on an independent study research project provides students with an opportunity to learn outside the formal classroom structure, with individual direction from Jewish Studies faculty on a topic of mutual interest not offered in regularly scheduled classes. (Independent study may not be used to substitute for a regular course not being offered in a given term.)

**Repeatable:** Repeatable for up to 6.00 total credit hours.

## Jewish Studies - Bachelor of Arts (BA)

The Bachelor of Arts in Jewish Studies is designed to help students develop the professional skills they need to become engaged global citizens, preparing them to obtain a job after graduation, pursue graduate studies and engage in dialogues about social justice around the world.

By studying the world through the lens of Jewish culture, history, literature, society, and thought from a broad, interdisciplinary perspective, our students gain fundamental critical thinking, problem solving and communication skills.

Students pursuing a BA in Jewish studies may choose one of the following two concentrations:

- Culture intensive concentration, in which students will pursue an in-depth study of Jewish culture.
- Foreign language intensive concentration, in which students will obtain advanced language skills in addition to considerable knowledge of Jewish culture.

The major in Jewish studies is open to all students of all backgrounds, Jewish and non-Jewish.

## Requirements

### General Requirements

In addition to the general requirements of the College of Arts and Sciences, students must complete 36 credit hours of Jewish Studies requirements, of which 18 credit hours must be in upper-division (3000- or 4000-level) courses. Of the 18 upper-division credit hours, 12 must be completed on the CU Boulder campus.

A grade of C- or better must be received in all courses used to satisfy the major requirements, with an overall average of 2.00 in the major.

No more than 6 credit hours may be taken in independent study. No pass/fail graded courses may satisfy the 36-credit-hour minimum requirement. No more than 45 credits in JWST may be applied to overall graduation requirements.

For the specific major course requirements, see the Concentration Areas tab.

### Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major.

Please speak with your advisor for specific recommendations; the following is intended to be a general outline only and there may be flexibility to this plan. To maintain adequate progress in Jewish Studies, students should meet the following requirements:

- Declare the major by the beginning of the second semester of freshman year.
- Chose to pursue either the Culture Intensive Concentration or the Foreign Language Intensive Concentration.
- For students pursuing the Foreign Language Intensive Concentration, have language study approved by Jewish Studies' Director of Undergraduate Studies by the beginning of the first semester of freshman year. Enroll in beginning language course (or language level applicable) during the first semester of freshman year.
- Enroll in JWST 2350/GSLL 2350 the second semester of freshman year.
- Each semester, complete two Jewish Studies courses.
- The last spring semester in residence, complete the Capstone in Jewish Studies (JWST 4000).

## Concentration Areas

Students pursuing a BA in Jewish studies may choose one of the following two concentrations: culture intensive or foreign language intensive.

### Culture Intensive Concentration

Code	Title	Credit Hours
<b>Required Courses</b>		<b>6</b>

JWST/GSLL 2350	Introduction to Jewish Culture	
JWST 4000	Capstone in Jewish Studies (Senior Capstone)	

<b>Fundamental Jewish Studies Requirements <sup>1</sup></b>

JWST/HIST 4837	Jews in the American West
JWST 4900	Independent Study in Jewish Studies
HEBR 3010	Third Year Modern Hebrew, First Semester
HEBR 3020	Third Year Modern Hebrew, Second Semester
HEBR 3030	Advanced Biblical Hebrew, Third Year, First Semester
WRTG 3020	Topics in Writing (After the Holocaust) <sup>4</sup>

#### *Auxiliary Courses (Optional) (maximum of 6 credit hours)*

Auxiliary courses are courses from outside the Program in Jewish Studies which may count toward a Jewish Studies major. For all auxiliary courses, all final projects must be approved for the Jewish Studies major by the Director of Undergraduate Studies for the Program in Jewish Studies. A current list of auxiliary courses eligible to be counted towards the Jewish Studies major can be found on the Program in Jewish Studies website.

#### **Total Credit Hours**

**36**

- Additional Fundamental Jewish Studies Requirement courses can be taken to fulfill another major requirement where allowed.
- For students pursuing the Culture Intensive Concentration, language courses may count as electives, but they do not count for Literature, Culture, and the Arts.
- Not subject to the 6 credit hours limit on Auxiliary courses from outside Jewish Studies.
- Electives can come from JWST, HEBR, or a range of other departments.
- For student pursuing the Language Intensive Concentration, the first three semesters of modern Hebrew (or any equivalent language being used in the required capstone course JWST 4000) do not count as credit hours toward the major.

## **Recommended Four-Year Plan of Study**

### **Culture Intensive Concentration**

Through the required coursework for this track of the major, students will complete all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement as well as one component of the Gen Ed Diversity Requirement and may complete some of the Social Sciences area of the Gen Ed Distribution Requirement.

**Year One****Fall Semester**

## Learning Outcomes

An undergraduate degree in Jewish Studies emphasizes knowledge and awareness of:

- The history of global Jewish communities over time, including the history of Israel and Palestine, biblical and medieval Jewish history, history of Jewish communities in the Mediterranean, the history of the Holocaust and post-Holocaust American Judaism.

- Dimensions of Jewish culture across variant Jewish communities, including differences in Jewish cultural practices, Jewish music and film, and Jewish philosophies, religious practices, mysticisms and thought.
- Jewish literature from the biblical period to the present, including Israeli literature, the Hebrew origins of western civilization and contemporary Jewish literature.
- Global languages of the Jewish people, including Hebrew, Arabic, Spanish, French, Italian, Russian, German, Ladino and others (for students pursuing the foreign language intensive concentration).

In addition, it is expected that through a degree in Jewish Studies:

- Students will think critically about the historical and global diversity of Jewish cultures, religion, practice and thought.
- Students will analyze a wide range of contemporary and historical events, structures and movements using perspectives drawn from fields including (among others) history, women and gender studies, religious studies, literary studies and the arts.
- Students will communicate complex ideas from the field of Jewish studies to academic and general audiences.
- Students will analyze how power and privilege function in Jewish history, cultures, religion, practice and thought, exploring the intersection of gender, sexuality, race, class, ability, nationality and colonialism.
- Students will work collaboratively to implement, and organize around, a range of theoretical and methodological perspectives used in Jewish studies.

## Hebrew and Israel Studies - Minor

A minor is offered in Hebrew and Israel studies. Any student enrolled at CU Boulder, regardless of college or school, may declare a minor in Hebrew and Israel studies.

The minor in Hebrew and Israel studies focuses on developing a student's Hebrew language skills while exploring a variety of courses on issues related to Israel and the Middle East. This minor is ideal for students who are interested in pursuing an international career or study in the Middle East.

The minor in Hebrew & Israel studies is open to all students of all backgrounds, Jewish and non-Jewish.

For more information, visit the Minor in Hebrew and Israel Studies (<http://www.colorado.edu/jewishstudies/academics/majors-minors-jewish-studies/minor-hebrew-israel-studies/>) website.

## Requirements

Students must complete 19 credit hours of Hebrew language courses and content courses focusing on Israeli and/or the Middle East. Of these 19 credit hours, 9 must be in upper-division courses. All coursework applied to the minor must be completed with a grade of C- or better. No pass/fail work may be applied. The GPA for all minor coursework must equal 2.00 or higher. Students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward a minor.

## Required Courses and Credits

Code	Title	Credit Hours
<b>Language Requirement</b>		
Modern Hebrew Language (10 credit hours minimum above the 2010 Intermediate Hebrew Level):		10
HEBR 2120	Intermediate Modern Hebrew, Second Semester	
HEBR 3010	Third Year Modern Hebrew, First Semester	
HEBR 3020	Third Year Modern Hebrew, Second Semester	
<b>Required Course</b>		<b>3</b>
JWST/GSLL 2350	Introduction to Jewish Culture	
<b>Additional Requirements</b>		
Select two of the following Hebrew/Israel Studies courses (one of which must be upper-division): <sup>1</sup>		6
JWST 2600	Judaism, Christianity, and Islam: Abrahamic Religions	
JWST 3150	Jerusalem: The Holy City in History, Legend, and Religious Thought	
JWST/IAFS 3650	History of Arab-Israeli Conflict	
JWST/ANTH 4050	Anthropology of Jews and Judaism (Cultures of Israel and Palestine)	
JWST/HEBR 4101	Topics in Hebrew Studies	
JWST 4203	Israeli Literature: Exile, Nation, Home	
JWST 4302/IAFS 3520	Global Seminar: Justice, Human Rights and Democracy in Israel	
JWST/HIST 4338	History of Modern Israel/Palestine	
JWST/HIST 4348	Topics in Jewish History (Childhood in Modern Israel/Palestine)	
JWST/HIST 4348	Topics in Jewish History (Tel Aviv: Urban History and Culture)	
JWST 4388	History Today: Global Intensive in Israel/Palestine	
<b>Total Credit Hours</b>		<b>19</b>

<sup>1</sup> Or a course approved by the faculty advisor.

## Jewish Studies - Minor

The minor in Jewish studies is designed to help students develop a unique, interdisciplinary perspective and build their critical thinking skills by exploring the world through the lens of Jewish studies. Because the program in Jewish studies is inherently interdisciplinary, many students are easily able to fulfill Jewish studies minor requirements while simultaneously completing requirements for their major.

**The minor in Jewish studies is open to all students of all backgrounds, Jewish and non-Jewish.**

## Requirements

Declaration of a minor is open to any student enrolled at CU Boulder, regardless of college or school. Students must complete 18 credit hours in Jewish studies courses, of which 12 credit hours must be upper division (3000/4000). All coursework applied to the minor must be completed with a grade of C- or better (no pass/fail work may be applied).

The GPA for all coursework taken in the minor department must be equal to 2.00 (C) or higher. Students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward a minor.

For more information, visit the program's Minor in Jewish Studies (<http://www.colorado.edu/jewishstudies/undergraduates/major-minors-jewish-studies/minor-jewish-studies/>) webpage.

## Required Courses and Credits

Code	Title	Credit Hours
<b>Required Course</b>

## Latin American and Latinx Studies

The Latin American and Latinx Studies Center provides an institutional space to support and advance research, teaching and discussion on Latin American and Latinx issues at the University of Colorado Boulder. The center brings together CU faculty, graduate and undergraduate students, and visiting scholars interested in Latin American and Latinx issues and recognizes the diversity of their interests and approaches. Center courses provide support for research and teaching in these areas and strengthens connections with Latin America and Latinx communities in the United States. The Latin American and Latinx Studies Center offers an undergraduate certificate program in Latin American and Latinx Studies.

For more information, visit the department's undergraduate certificate program (<https://www.colorado.edu/lasc/undergraduate-certificate-latin-american-and-latinx-studies/>) webpage.

**Course code for this program is LAMS.**

## Certificate

- Latin American and Latinx Studies - Certificate (p. 455)

## Courses

### LAMS 1000 (3) Introduction to Latin American and Latinx Studies

Focuses on the main topics of Latin American and Latinx Studies, exploring them through interdisciplinary approaches. Core course of the Latin American and Latinx Studies Certificate.

**Additional Information:** Arts Sci Gen Ed: Diversity-Global Perspective  
Arts Sci Gen Ed: Distribution-Social Sciences

### LAMS 3100 (3) Travel, Science and Adventure

Focuses on the expeditions of the most important scientific travelers in Ecuador during the 18th and 19th centuries: French mathematician Charles-Marie La Condamine, German naturalist Alexander von Humboldt and English naturalist Charles Darwin. In Ecuador, La Condamine proved the shape of the Earth, Humboldt designed the theory of ecosystems and their interconnections, and Darwin found evidence of evolution in the Galapagos. These travelers made important observations about Ecuador's nature, society, and history.

**Grading Basis:** Letter Grade

### LAMS 3930 (3) Internship in Latin American and Latinx Studies

Provides an academically supervised opportunity for student to work in public and private organizations on projects related to Latin American and Latinx Studies. Students must relate their academic experience to their field work experience through a portfolio and a final paper. Department consent required.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Recommended:** it is recommended for students to be enrolled in LALSC certificate, but it is not a requirement.

### LAMS 4854 (1-3) Independent Study

Work with an approved faculty sponsor to explore a topic in greater depth. Instructor consent required.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Recommended:** Prerequisite LAMS 1000 (minimum grade D-).

**QUEC 1010 (4) Beginning Quechua 1**

The course focuses on the development of written and oral communicative abilities in the Southern variety of Quechua through an interactive activity-based approach. Course includes an introduction to Andean Culture, and foundations on the sociocultural history of Quechua. Quechua is the most widely spoken indigenous language in South America, with an estimated 8-10 million speakers in Peru, Bolivia and Ecuador, Chile, Colombia, and Argentina. But decades of migration have brought Quechua to coastal cities and abroad, like New York, New Jersey and Chicago. Formerly LAMS 1010.

**QUEC 1020 (4) Beginning Quechua 2**

This course continues the study of the Southern variety of Quechua in Beginning Quechua 1. Quechua is the most widely spoken indigenous language in South America, with an estimated 8-10 million speakers in Peru, Bolivia and Ecuador, Chile, Colombia, and Argentina. Quechua is associated with people living in the Andes. But decades of migration have brought Quechua to coastal cities and abroad, like New York, New Jersey and Chicago. Quechua is more than a spoken language. Studying Quechua also provides a window into a rich indigenous culture, and alternative perspectives about space and time, family, relationships, society, and the natural world. Formerly LAMS 1020.

**Recommended:** Prerequisite QUEC 1010 (minimum grade D-).

**QUEC 2010 (4) Intermediate Quechua 1**

This course continues the study of the Southern variety of Quechua in Beginning Quechua 2. Quechua is the most widely spoken indigenous language in South America, with an estimated 8-10 million speakers in Peru, Bolivia and Ecuador, Chile, Colombia, and Argentina. Quechua is associated with people living in the Andes. But decades of migration have brought Quechua to coastal cities and abroad, like New York, New Jersey and Chicago. Quechua is more than a spoken language. Studying Quechua also provides a window into a rich indigenous culture, and alternative perspectives about space and time, family, relationships, society, and the natural world.

**Recommended:** Prerequisite QUEC 1020 (minimum grade D-).

## Latin American and Latinx Studies - Certificate

The certificate in Latin American and Latinx<sup>1</sup> Studies trains future professionals to better serve the growing Latinx population of the country and the state.

It enhances the knowledge on the region to work in and with relation to Latin America in a wide range of disciplines and professions by:

- Understanding the historical, economic and political relation of Latin America and the US
- Having familiarity with social, cultural, political, and economic developments in a historical context
- Learning about the commonalities and differences inside Latin America and between Latin American and Latinx cultures
- Understanding changing and contested constructions of identities among the diverse peoples of the region
- Learning about Latinx history and culture
- Understanding migrations in the Americas, not only to the US but also inside Latin American countries and to other countries in the world

<sup>1</sup> The term *Latinx* is used to connote a commitment to be inclusive of gender non-conforming identities, to challenge the gender binaries inherent in the Spanish language and to reflect the cutting edge of the fields traditionally called Chicano Studies and U.S. Latino studies.

## Requirements

Students are required to complete 18 credit of approved coursework, including a core course and electives as noted in the course list below.

Students must complete 9 credit hours at the upper-division level, and a minimum of 12 credit hours must be taken on the CU Boulder campus. No more than 9 credits may be in the students' major or minor.

Although not mandatory, students are strongly encouraged to acquire an intermediate level of language proficiency in Quechua, Spanish or Portuguese.

Code	Title	Credit Hours
<b>Core Course</b>

Women and Gender Studies	
WGST 3600	Latina/x Studies

**Total Credit Hours** 18

- <sup>1</sup> Only when taught with emphasis in Latinx or Chicana/o studies.
- <sup>2</sup> One course can be used both to fill the Latinx requirement and to count as 3 credits in either the Arts and Humanities or Social Sciences requirement. In that case a student would have to take an additional approved Certificate Elective course from any of the above categories to bring their total credits in the certificate to 18.

## Lesbian, Gay, Bisexual, Transgender and Queer Studies

The Lesbian, Gay, Bisexual, Transgender and Queer Studies certificate program is designed to help students develop a social, historical and cross-cultural understanding of gender and sexuality. By exploring the historical and contemporary experiences of lesbians, gay men, bisexuals and transgender people, the courses in the program encourage students to think critically about the function of sexuality and gender in the world around them. In doing so, students will be able to analyze the relationships between queer and normative sexualities and gender identities.

By developing an understanding of diverse sexual and gender identities, certificate program students are able to analyze gender and sexuality in a broad range of historical and contemporary institutions and societies.

Open to degree-seeking undergraduate students enrolled at the university, this interdisciplinary program consists of two required courses and elective courses offered by different departments.

For more information, visit the LGBTQ Studies Certificate (<https://www.colorado.edu/lgbtq/certificate/>) webpage.

Course code for this program is LGBT.

## Certificate

- LGBTQ Studies - Certificate (p. 458)

## Courses

### LGBT 2000 (3) Introduction to Lesbian, Gay, Bisexual, and Transgender Studies

Investigates the social and historical meanings of racial, gender, and sexual identities and their relationship to contemporary lesbian, bisexual, gay, and transgender communities.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 2030

**Additional Information:** GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame

Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-U.S. Perspective

### LGBT 2707 (3) Introduction to Queer Literature

How is literature shaped by cultural understandings of queer and non-normative genders and sexualities? How does it, in turn, shape those understandings? This class explores how genders, sexualities, and writing intersect with issues of race, class, nation, ability, and empire. Readings may include novels, short stories, poetry, graphic novels, films, essays, blogs, and more.

**Equivalent - Duplicate Degree Credit Not Granted:** ENGL 2707

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-U.S. Perspective

### LGBT 3710 (3) Topics in LGBT Studies

Content varies by semester and reflects contemporary issues in the field of LGBT Studies.

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

### LGBT 3796 (3) Queer Theory

Surveys theoretical, critical, and historical writings in the context of lesbian, bisexual, transgender and gay literature. Examines relationships among aesthetic, cultural and political agendas, and literary and visual texts of the 20th century.

**Equivalent - Duplicate Degree Credit Not Granted:** ENGL 3796

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

### LGBT 3930 (1-6) Lesbian, Gay, Bisexual, Transgender, and Queer Studies Internship

Matches selected students with supervised internships in university programs and advocacy groups, local businesses, human service or government agencies. Internships will focus on lesbian, gay, bisexual, transgender or queer issues, such as anti-violence programs, educational outreach, and civil rights initiatives.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Recommended:** Prerequisite LGBT 2000.

### LGBT 4287 (3) Special Topics in Queer Literature

This course will focus on a special topic in queer literature and non-normative genders and sexualities. Students will consider how literature reflects and represents understandings of sexuality, gender, desire, and more; the course may engage a variety of genres. Topics vary by semester. Check department description for details.

**Equivalent - Duplicate Degree Credit Not Granted:** ENGL 4287 and WGST 4287

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**LGBT 4400 (3) Critical Inquiries in Transgender Studies**

Examines theories, methods and debates in the emerging field of transgender studies. Drawing on interdisciplinary perspectives, this course examines transgender identities, communities and political movements in different historical and cultural contexts. Focuses on crosscutting issues that shape transgender subjectivities, with special attention given to how transgender movements negotiate race, class, sexuality, labor, culture and nation.

**Equivalent - Duplicate Degree Credit Not Granted:** LGBT 5400 and WGST 4400 and WGST 5400

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Social Sciences

**LGBT 4840 (1-6) Independent Study in LGBTQ Studies**

Self-directed research project in LGBTQ studies supervised by a faculty member and approved by one of the Co-Directors of the LGBT Studies Certificate Program.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

## LGBTQ Studies - Certificate

Lesbian, Gay, Bisexual, Transgender and Queer (LGBTQ) studies at CU Boulder is an undergraduate interdisciplinary program encompassing more than 30 courses in a dozen departments. The program offers coursework, programming and internship opportunities for students looking to explore queer and trans issues through an intersectional lens.

LGBTQ studies involves the academic investigation of sexuality in established fields such as literature, history, theatre, law, medicine, economics, sociology, anthropology, political science and the arts. With its interdisciplinary approach, LGBTQ studies interweaves complex theories and analysis into the study of sexuality and gender.

Through the certificate program and the guidance of faculty advisors, students are given an opportunity to integrate a wide variety of courses, internships, and programming in order to deepen their understanding of sexuality and gender in their academic, professional and personal lives.

For more details including application instructions, visit the LGBTQ Studies Certificate (<http://www.colorado.edu/lgbtq/certificate/>) webpage or email [lgbt@colorado.edu](mailto:lgbt@colorado.edu).

## Requirements

Completion of the certificate in LGBTQ studies requires the completion of 18 credit hours (9 upper-division) of approved courses with grades of C- or better.

### Required Courses and Credit Hours

Code	Title	Credit Hours
<b>Required Courses</b>		
LGBT 2000	Introduction to Lesbian, Gay, Bisexual, and Transgender Studies	3
LGBT 3796	Queer Theory	3
<b>Electives</b>		
Twelve credit hours of approved elective courses, with at least 6 credit hours of upper-division electives <sup>1</sup>		12
<b>Total Credit Hours</b>		<b>18</b>

<sup>1</sup> Up to six credit hours of independent study may be applied toward the certificate program.

Credits earned at other institutions may be transferred in partial fulfillment of the requirements upon approval of the program director. No more than 6 credit hours of transferred coursework may be applied to the certificate.

Students are encouraged to meet with the program directors early in their course of study and again in the semester prior to the semester of graduation, to ensure that program requirements are met.

Available elective courses are listed each semester under the "Courses" tab of the program (<http://www.colorado.edu/lgbtq/>) website.

## Linguistics

Linguistics is the study of all aspects of human language: how languages make it possible to express ideas and feelings; how and why languages are similar and different; how we develop different styles and dialects; what will be required for computers to understand and produce spoken language; and how languages are used in everyday communication as well as in formal settings. Linguists try to figure out what it is that speakers know and do by observing the structure of languages, the way children learn language, slips of the tongue, conversations, storytelling, the acoustics of sound waves and the way people's brains react when they hear speech or read. Linguists also reconstruct prehistoric languages, and try to deduce the principles behind their evolution into the thousands of languages of the world today.

The major in linguistics is useful for careers involving cognitive science, computer science, psychology, international business, language teaching, advertising, publishing, law, technical writing and social media analytics. Double majors and minors are encouraged to take coursework on specific languages, computer science, psychology, communication, sociology, anthropology, international affairs, philosophy, education, and speech, language and hearing sciences.

The core of the major is a set of courses, taught in the Department of Linguistics, on the nature of language. In addition, the major requires language courses offered by other departments (fluent speakers of languages other than English are excepted from this requirement).

The undergraduate degree in linguistics emphasizes knowledge and awareness of:

- The fundamental architecture of language in the domains of phonetics and phonology, morphology and syntax, and semantics and pragmatics;
- The diversity of language structures and how languages change over historic time;
- The major interactions among language, culture and society, including the role of language in the promulgation of cultural values and social categories, the relationship between language and ideology, and the social functions of language variation;
- The relationship between language and cognition.

In addition, students completing the degree in linguistics are expected to acquire the ability and skills to:

- Demonstrate proficiency in a second language equivalent to the third-year university level

- Infer language structures from the analysis of data from unfamiliar languages.
- Give coherent general interpretations of common language phenomena in terms of language structure and language use.

Course code for this program is LING.

## Study Abroad

Language study and some courses in the major may be completed in university or university-affiliated study abroad programs, and such study is recommended. Students interested in doing part of their major work in a study abroad program should discuss the matter with their advisor before going abroad. For information on study abroad programs, consult the Education Abroad office.

## Graduation with Honors

The Honors program in linguistics offers the opportunity for highly motivated undergraduates to undertake a deeper and more individualized study of linguistics than is provided by the regular BA curriculum. Linguistics majors with an overall grade point average of 3.30 or higher are eligible to participate in the program. Honors that may be earned are *cum laude* (with honors), *magna cum laude* (with high honors), and *summa cum laude* (with highest honors).

Students interested in pursuing departmental honors are encouraged to consult with the departmental honors advisor by the beginning of their junior year to ensure that they will be able to meet the requirements for departmental honors before graduation.

## Bachelor's Degree

- Linguistics - Bachelor of Arts (BA) (p. 464)

## Minors

- Linguistics - Minor (p. 468)
- Teaching English to Speakers of Other Languages - Minor (<https://catalog.colorado.edu/undergraduate/colleges-schools/arts-sciences/programs-study/linguistics/teaching-english-speakers-other-languages-certificate/>)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

## Courses

### English as a Second Language

#### ESLG 1130 (2) Pronunciation for International Graduate Students

Designed for international graduate students who want to polish and refine their spoken English skills. The course emphasizes producing increasingly accurate English stress, rhythm and intonation, and vowels and consonants. Students participate in listening and speaking activities targeting specific pronunciation features, prepare recordings, and deliver short presentations related to their field. Students receive weekly individualized feedback.

**Requisites:** Restricted to International Graduate students.

#### ESLG 1140 (2) Public Speaking for International Students

Designed for international graduate students to improve oral communication skills for effective academic, professional, and social interactions. Specific attention is given to presenting, explaining and clarifying ideas, negotiating, interrupting, hedging, and responding to questions. Students deliver short formal presentations and impromptu speeches, and lead and participate in group discussions. Students improve active listening skills, non-verbal communication and English pronunciation.

**Requisites:** Restricted to International Graduate students.

#### ESLG 1210 (2) Academic Writing for International Graduate Students

Designed for international graduate students who would benefit from academic and professional writing instruction and practice. This course addresses development of paragraphs and full-length papers, reports and proposals. Focus areas include organization and style, grammar and vocabulary, and using source material effectively. Assignments are customized to students' disciplines with extensive instructor feedback to improve fluency, clarity, and accuracy in writing.

**Requisites:** Restricted to International Graduate students.

#### ESLG 1222 (2) Advanced Written Composition for Foreign Students

Continued practice in academic writing, including incorporating the ideas of others and citing sources appropriately. Extensive instructor feedback provided. Preparation, writing, and revising of a full-length academic term/research paper or work on chapters for a master's thesis or doctoral dissertation. Does not fulfill humanities or major requirements.

**Recommended:** Prerequisite ESLG 1210.

#### ESLG 1410 (3) Integrated Academic English Skills for Undergraduate International Students

Designed for international undergraduate students who want to improve oral and written English communication skills. Students build confidence and accuracy through interactive reading, writing, listening and speaking activities. Students gain insight on U.S. academic culture and conventions by giving short presentations, collaborating on team projects, and writing academic papers using source materials. Course also emphasizes organization, grammar, and vocabulary.

**Requisites:** Restricted to International Undergraduate students.

## Linguistics

#### LING 1000 (3) Language in U.S. Society

Nontechnical exploration of the ways that language is used in America. Emphasizes language as a social institution and how values and goals of both public institutions and private groups shape and are shaped by language and its use.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies

Arts Sci Core Curr: United States Context

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-U.S. Perspective

MAPS Course: Social Science

#### LING 1010 (3) The Study of Words

Study of English words of Latin and Greek origin, focusing on etymological meaning by analysis of component parts (prefixes, bases, suffixes) and on the ways in which words have changed and developed semantically.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 1010

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Distribution-Social Sciences

#### LING 1020 (3) Languages of the World

Explores the issue of human diversity by examining how languages vary around the world. Outlines historical, geographic, and typological classifications of languages across human societies, and the criteria used by linguists for grouping them into language families. Theorizes the relationship between linguistic and cognitive diversity, and considers the impact of language death on humanity. No formal training in linguistics is required.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Diversity-Global Perspective

Arts Sci Gen Ed: Distribution-Social Sciences

#### LING 1200 (3) Programming for Linguistics

Presents techniques for computer programming in high level programming languages such as Python to address a range of problems with a specific focus on language processing and linguistics. The class is suitable for students with little to no prior experience in computing or programming.

**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 1200 or INFO 1701

**Recommended:** Prerequisite LING 2000.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

#### LING 1500 (3) Understanding Grammar

Presents fundamentals of grammar in the Western tradition. Emphasizes making concepts and uses of grammar (as exemplified in English and closely related foreign languages) understandable to the nonspecialist.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

#### LING 1900 (1) Community-Based Learning Practicum: Literacy and Language Learning

Student volunteers act as mentors to literacy and language learners in the Boulder community for 1-2 hours per week. Specific meeting times will be arranged at the beginning of the semester.

**Repeatable:** Repeatable for up to 3.00 total credit hours.

#### LING 2000 (3) Introduction to Linguistics

Introduces the study of languages as structural systems. Describes principles of sound patterns, word formation, meaning, and sentence structure. Gives attention to language acquisition, psycholinguistics, language families, dialects, historical change in languages, and different language types.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

MAPS Course: Social Science

**LING 2030 (3) The Ancient Roots of Modern Medicine**

Students learn the meaning and use of the Greek and Latin roots in modern medical terminology; they gain an appreciation of ancient Roman and Greek medicine history and culture in their relation to the modern practice of Western medicine and the sciences; they become familiar with common ancient bioethical principles that govern the ancient practice of medicine and the sciences and learn to appreciate how these principles inform and influence modern medicine and the sciences.

**Equivalent - Duplicate Degree Credit Not Granted:** AHUM 2030 and CLAS 2030

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Social Sciences

**LING 2400 (3) Language, Gender and Sexuality**

Familiarizes students with the effects of gender and sexuality on language use; discusses popular beliefs and scholarly theories about language and communication. Provides students with tools for exploring the role of language and gender.

**Additional Information:** GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame

Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-U.S. Perspective

**LING 2500 (3) Race, Ethnicity, and Language**

Explores the relationship between race, ethnicity, and language and how they are co-constructed. How do speakers of different racial and ethnic groups use language differently, and what are the social implications of these different language varieties? Discusses the implications of ethnolinguistic variation on racial stereotypes, education, and the law.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 2500

**Recommended:** Prerequisite LING 1000.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-U.S. Perspective

**LING 3005 (3) Cognitive Science**

Introduces cognitive science, drawing from psychology, philosophy, artificial intelligence, neuroscience, and linguistics. Studies the linguistic relativity hypothesis, consciousness, categorization, linguistic rules, the mind-body problem, nature versus nurture, conceptual structure and metaphor, logic/problem solving and judgment. Emphasizes the nature, implications and limitations of the computational model of mind.

**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 3702 and PHIL 3310 and PSYC 3005 and SLHS 3003 and CSPB 3702

**Recommended:** Prerequisites two of the following CSCI 1300 or LING 2000 or PHIL 2440 or PSYC 2145.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Distribution-Natural Sciences

Arts Sci Gen Ed: Distribution-Social Sciences

**LING 3100 (3) Language Sound Structures**

Introduces the sounds of languages and their organization into phonological structures.

**Requisites:** Requires prerequisite of LING 2000 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**LING 3185 (3) Figurative Language**

Introduces a framework for analyzing the metaphorical systems used to reason about abstract phenomena like emotion, conflict, purpose, relationships, power, causation, time, life and ideation. Explores how new word meanings develop and how meaning is grounded in embodied experience. Investigates how metaphor is distinguished from other common types of figurative language, including irony.

**Requisites:** Requires prerequisite of LING 2000 (minimum grade C-).

**Recommended:** Prerequisite or corequisite LING 3430 and junior or senior class standing.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**LING 3200 (3) Academic Oral Communication in English**

Designed for undergraduate students who speak English as an additional language, this course improves students' oral communication skills for effective academic interactions in the classroom and within their academic discipline. Specific attention is given to presentation skills and developing, explaining and clarifying ideas and discussion skills such as interrupting, hedging, and responding to questions. Students deliver formal presentations and impromptu speeches, and lead and participate in group discussions. Students improve active listening skills, non-verbal communication and English pronunciation. This course does not count toward the Linguistics major or minor.

**Recommended:** this course is restricted to non-native English-speaking students.

**Grading Basis:** Letter Grade

**LING 3210 (3) English for Academic Purposes**

Designed for undergraduate students for whom English is an additional language, this course develops academic English skills for university-level work. Students sharpen English accuracy through academic reading, writing, speaking, and listening practice. They learn to express ideas more clearly, both orally and in writing, while engaging critically in class discussions, and giving presentations, including on a researched topic related to their major. Students improve grammatical accuracy, develop academic vocabulary, and expand critical thinking skills and metacognitive strategies. This course does not count toward the Linguistics major or minor.

**Recommended:** this course is restricted to non-native English-speaking students.

**Grading Basis:** Letter Grade

**LING 3220 (3) American Indigenous Languages in their Social and Cultural Context**

A sampling of the many indigenous languages and cultures found in America. Emphasizes the United States, but also gives attention to the languages of Canada and Latin America.

**Recommended:** students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-U.S. Perspective

**LING 3430 (3) Semantics**

Theoretical and practical study of meaning in natural language. Considers both semantic theories and semantic phenomena from diverse languages.

**Requisites:** Requires prerequisite LING 2000 (minimum grade C-).

Restricted to students with 57-180 credits (Junior or Senior) Linguistic major or minors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**LING 3545 (3) World Language Policies**

Examines the economic and sociopolitical impact of choosing English vs. other languages in the U.S. Introduces the study of language policies, rights, and planning in other countries, including the worldwide use of English in social, business, and legal contexts.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-Global Perspective

**LING 3550 (3) Talk at Work: Language Use in Institutional Contexts**

Provides an overview of language use in various workplace settings, with an emphasis on hands-on data analysis. Possible contexts include 911 emergency calls, doctor-patient consultations, news interviews, customer-service encounters, classroom discourse, and courtroom interaction. The course also discusses language-based inequalities in such contexts, as well as some of the laws and policies that govern language in the workplace.

**Recommended:** Prerequisite LING 1000.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**LING 3800 (3) Special Topics in Linguistics**

Intensive study of a selected area or problem in linguistics.

**Repeatable:** Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires prerequisite of LING 2000 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**LING 3832 (3) Computational Linguistics**

Surveys the fundamental problems, models, and algorithms found and used in the processing of natural language. Computational linguistics is a large field and we will only be able to cover a selection of the vast range of methods employed to solve tasks involving natural language. However, arguably there exists a "core vocabulary" of techniques shared by most practitioners and researchers in the field, which we will focus on.

**Requisites:** Requires Prerequisite of LING 1200 or CSCI 1200 or CSCI 1300 or INFO 2201 (all minimum grade C-).

**Recommended:** Prerequisite or corequisite LING 2000.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**LING 4050 (3) Japanese Sociolinguistics**

Explores issues related to contemporary Japanese language and society, such as language and identity, language and ideology, and language variation and change in Japan. More specifically, we will reconsider topics such as diversity in gender language, honorifics, dialects, and use of English in Japanese society that have been unidirectionally taught in Japanese language classrooms. The course aims to provide students opportunities to incorporate critical perspectives of sociolinguistics into analyses of Japanese literature and Japanese language education.

**Equivalent - Duplicate Degree Credit Not Granted:** JPNS 4050

**Requisites:** Requires prerequisite course of JPNS 3110 (minimum grade C).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective

**LING 4100 (3) Perspectives on Language**

Provides extended critical examination of a few selected issues, chosen each term for their general interest and relevance, e.g., the relation between language and thought, or human language vs. animal languages, and computer languages.

**Repeatable:** Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.

**Recommended:** Prerequisite LING 2000.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**LING 4200 (3) Introduction to Computational Corpus Linguistics**

This course includes extensive introduction (with lab) to the use of Python programming language, UNIX corpus tools, concordance programs, syntactic treebanks, probanks, and corpora for linguistic analysis and natural language processing. discourse and phonology research. A major focus is the development of computational skills, preparing the student for CSCI 5832 (Natural Language Processing). Previous completion of LING 1200 or CSCI 1300 highly recommended.

**Equivalent - Duplicate Degree Credit Not Granted:** LING 5200

**Recommended:** Prerequisite LING 1200.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**LING 4220 (3) Language and Mind**

Studies topics such as speech perception, word recognition, sentence comprehension, language acquisition, bilingualism, reading and writing. Examines the role of language as a product and producer of the mind, studying interactions between language and cognition from an interdisciplinary perspective. Students will become familiar with the methods of psycholinguistics and design and conduct a psycholinguistic experiment on their own.

**Equivalent - Duplicate Degree Credit Not Granted:** PSYC 4220

**Recommended:** Prerequisites PSYC 1001 and LING 2000.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**LING 4225 (4) Interdisciplinary Research Methods in Child Language Acquisition**

Explores fundamental issues in language acquisition cross-culturally, combining methods from Linguistics, Anthropology, Psychology and Computer Science. Students will explore theoretical issue using a hands-on approach that involves acquiring skills such as designing and conducting experiments, investigating corpus data, and computational modeling.

**Equivalent - Duplicate Degree Credit Not Granted:** PSYC 4225

**Recommended:** Prerequisites PSYC 1001 and LING 2000.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**LING 4420 (3) Morphology and Syntax**

Introduces principles of word formation and sentence structure. Covers major morphological and syntactic structures found in the world's languages, and methods for describing grammatical structures, and includes practice in analyzing data from a variety of languages.

**Equivalent - Duplicate Degree Credit Not Granted:** LING 5420

**Requisites:** Requires prerequisite course of LING 2000 (minimum grade C-). Restricted to Linguistic (LING) majors or minors with 57-180 credits (Junior or Senior) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**LING 4450 (3) Introduction to Formal Syntax**

Introduces formal generative grammar, including determining constituent structure, drawing trees, writing rules, understanding the properties of the lexicon and their interaction with syntax, X-bar theory and its modifications and movement analysis. Recommend pre-req: LING 4420

**Requisites:** Requires prerequisite of LING 2000 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**LING 4560 (3) Language Development**

Covers the development of language in childhood and into adult life, emphasizing the role of environment and biological endowment in learning to communicate with words, sentences, and narratives.

**Equivalent - Duplicate Degree Credit Not Granted:** SLHS 4560 and PSYC 4560

**Requisites:** Restricted to Linguistics (LING) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**LING 4610 (3) Pedagogical Grammar for Teachers of English to Speakers of Other Languages**

Provides an introduction to the study of English grammar from the perspective of the nonnative learner and user of English. The focus is on understanding the form, meaning, and use of grammatical constructions and on how to teach these constructions in an ESL/EFL context.

**Equivalent - Duplicate Degree Credit Not Granted:** LING 5610

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**LING 4620 (3) Teaching Second Language (L2) Oral Skills and Communication**

This course explores pedagogical approaches for developing nonnative speakers' oral English proficiency and communication skills. We explore the practical and theoretical aspects of teaching the macroskills

- listening and speaking - as well as related microskills, including pronunciation, fluency, vocabulary, and comprehension. Pedagogical concepts are considered through the lens of various teaching contexts for learners of all ages and backgrounds. Praxis occurs through lesson development and analysis and interactions with language learners in the community. Recommended prerequisite: LING 3100.

**Equivalent - Duplicate Degree Credit Not Granted:** LING 5620

**Recommended:** Prerequisite or corequisite LING 4630.

**LING 4622 (3) Statistical Analysis for Linguistics**

Aims to acquaint students with the fundamentals of quantitative analysis in linguistics and provide a practical introduction to the R statistical computing environment. Topics that will be covered include examining and manipulating data, tests for independence, regression modeling, mixed models, measures of association, and data visualization. It is suitable for students with no prior experience with statistics or statistical software packages.

**Equivalent - Duplicate Degree Credit Not Granted:** LING 5622

**Requisites:** Requires prerequisite of LING 2000 (minimum grade C-).

**Recommended:** recommended to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Quantitative Reasoning Math  
Arts Sci Gen Ed: Distribution-Social Sciences

**LING 4630 (3) TESOL and Second Language Acquisition: Principles and Practices**

Provides an overview of methods and materials for teaching English as an additional language, along with opportunities for students to observe, discuss and analyze these in relation to language teaching principles, second language acquisition, linguistic considerations, and global and local contexts. Aimed primarily at the teaching of English to non-native speaking adults, the course also addresses second and foreign language teaching.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**LING 4632 (3) Machine Learning and Linguistics**

Is an introduction to machine learning, with a focus on linguistic applications. It is oriented toward students who want to understand the basics of machine learning and apply well-known techniques to address problems related to language and linguistics. The main goal is to achieve a practical grasp of the fundamental and most successful concepts in machine learning and to be equipped with techniques to apply this knowledge in linguistic domains. The course is also intended to provide a perspective on natural language acquisition and learning, namely, insight into what types of language acquisition problems are truly difficult, and what types of learning problems can be solved by fairly straightforward pattern recognition techniques. Formerly offered as a special topics course.

**Requisites:** Requires prerequisite course of LING 1200 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**LING 4640 (3) Teaching Language Skills: Focus on Social Justice**

Introduces the underlying theories and classroom practices for teaching second language reading, writing, listening and speaking. The course highlights the nature of literacy and oral language development, beginning language skills (phonemic awareness, phonics, pronunciation), and meaning-focused language instruction. This unique iteration of the course, designed for CU Boulder's Global Seminar program takes a theme-based and project-based approach, contextualizing the study of language teaching around an exploration of social justice issues that are pressing both in Armenia and globally.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Social Sciences

**LING 4650 (3) Language Teaching Materials Design**

This course introduces the role of English as an international language and its impact on languages, cultures, and communities around the world. Students evaluate approaches to teaching English against the backdrop of sociopolitical and historical factors. This course utilizes a project-based approach to study language teaching in a Zapotec speech community. The project involves co-creating language teaching materials for use by Zapotec speakers in efforts to maintain and revitalize the Zapotec language among young learners.

**Equivalent - Duplicate Degree Credit Not Granted:** LING 5650

**LING 4700 (3) Conversation Analysis and Interactional Linguistics**

Provides an introduction to the theories and methods of Conversation Analysis (CA) and Interactional Linguistics (IL), which aim to uncover the procedural infrastructure of language use in social interaction. The course emphasizes hands-on experience in analyzing naturally-occurring interactional data. Topics may include: turn-taking, sequence and preference organization, repair, reference, epistemics, and identity.

**Equivalent - Duplicate Degree Credit Not Granted:** LING 5700

**Requisites:** Requires prerequisite of LING 2000 (minimum grade C-).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**LING 4800 (3) Language and Culture**

Principles of language structure and how language and culture interrelate, how language and language use are affected by culture and how culture may be affected by use of, or contact with, particular languages.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 4800

**Recommended:** Prerequisite LING 1000 or LING 2400 or ANTH 2100.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**LING 4830 (1-3) Honors Thesis**

Required for students who elect departmental honors. Students write an honors thesis based on independent research under the direction of a faculty member.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sciences Honors Course

**LING 4900 (1-3) Independent Study**

**Repeatable:** Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.

**LING 4910 (3) TESOL Practicum**

Provides the field-based component and practical experience in English language teaching for the TESOL Certificate. Work on site includes class observations and supervised teaching in community-based programs/ESL providers. Weekly meetings provide opportunities to debrief/discuss teaching practice and connect theory, methods and practice. Supports professional development, completion of a teaching resume and portfolio and the job search process.

**Equivalent - Duplicate Degree Credit Not Granted:** LING 5910

**Requisites:** Requires prerequisite course of LING 3630 or LING 4630 (minimum grade C).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**LING 4920 (3) Speakers and the Structure of their Languages**

This is a summer intensive course that introduces various areas of Linguistics (specifically phonology, morphology, and syntax) at the same time that highlights the importance of language documentation, description and revitalization. The target language for Summer 2024 is Zapotec. 50% of this course is designed so that students can get a basic knowledge of this language as a second language and be able to interact with the community of speakers.

**Equivalent - Duplicate Degree Credit Not Granted:** LING 5920

**Repeatable:** Repeatable for up to 6.00 total credit hours.

## Linguistics - Bachelor of Arts (BA)

The CU Department of Linguistics has a strong commitment to excellence in teaching at both the graduate and undergraduate levels. The linguistics faculty offers a wide range of research strengths—including syntactic theory, sociocultural linguistics, computational and psycholinguistics, phonetics/phonology and language documentation—ensuring that students gain both versatility and expertise in an array of subfields.

Our educational mission is to provide students with insight into the fundamental design features of language—its sound patterns, its word- and sentence-formation devices, its semantic structure—and to create awareness of language varieties: the diversity of human languages, the role of language as an index of social identity and the ontogenetic and historical development of language.

## Requirements

### Program Requirements

Majors in linguistics must complete a total of 32 credit hours of study in general linguistics, including 5 credits at the intermediate to advanced level of a natural language (for exceptions, see below). Language study is taken in other departments.

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below. All courses must

be completed with a grade of C- or better and cannot be taken pass/fail. Students must have a grade point average of at least 2.000 in the major in order to graduate.

In addition to the general Linguistics major the Linguistics department offers four specialized major tracks for undergraduates: Computational Linguistics; Language and Cognition; Sociocultural, Anthropological, and Interactional Linguistics (SAIL); and Teaching English to Speakers of Other Languages (TESOL). More information about these new tracks can be found on the t (<https://www.colorado.edu/linguistics/undergraduate-program/major-detail/>)he Program Tracks tab.

### Required Courses and Credits

Code	Title	Credit Hours
<b>Foundational Linguistics Courses</b>		
LING 2000	Introduction to Linguistics	3
LING 3100	Language Sound Structures	3
LING 3430	Semantics	3
LING 4420	Morphology and Syntax	3
<b>Natural Language</b>		
	Complete a minimum of 5 credit hours at the intermediate to advanced level of a natural language other than English (see details below) with a grade of C- or better.	5
<b>Electives</b>		
	Select a minimum of 15 elective credit hours from the following with a grade of C- or better.	15
ENGL 4003	Old English 1: Introduction to Old English	
FREN 3020	French Phonetics Through Musical Performance	
FREN 3010	French Phonetics and Pronunciation	
JPNS 4030	Japanese Syntax	
JPNS 4080	Kanji in Japanese Orthography	
JPNS 4070	Second Language Acquisition of Japanese	
SPAN 3050	Spanish Phonology and Phonetics	
SPAN 3150	Linguistic Analysis of Spanish	
SPAN 4430	Special Topics in Hispanic Linguistics	
SPAN 4450	Introduction to Hispanic Linguistics	
LING 1000	Language in U.S. Society	
LING 1010	The Study of Words	
LING 1020	Languages of the World	
LING 1200	Programming for Linguistics	
LING 2400	Language, Gender and Sexuality	
LING 2500	Race, Ethnicity, and Language	
LING 3005	Cognitive Science	
LING 3185	Figurative Language	
LING 3220	American Indigenous Languages in their Social and Cultural Context	
LING 3545	World Language Policies	
LING 3550	Talk at Work: Language Use in Institutional Contexts	
LING 3800	Special Topics in Linguistics	
LING 3832	Computational Linguistics	
LING 4050	Japanese Sociolinguistics	
LING 4100	Perspectives on Language	

LING 4220	Language and Mind
LING 4225	Interdisciplinary Research Methods in Child Language Acquisition
LING 4450	Introduction to Formal Syntax
LING 4560	Language Development
LING 4610	Pedagogical Grammar for Teachers of English to Speakers of Other Languages
LING 4620	Teaching Second Language (L2) Oral Skills and Communication
LING 4630	TESOL and Second Language Acquisition: Principles and Practices
LING 4632	Machine Learning and Linguistics
LING 4640	Teaching Language Skills: Focus on Social Justice
LING 4700	Conversation Analysis and Interactional Linguistics
LING 4800	Language and Culture
LING 4830	Honors Thesis
LING 4910	TESOL Practicum

Other upper-division linguistics courses may also be chosen if available; graduate courses may be taken with permission of the department.

### Natural Language

Students must complete, with a grade of C- or better, a minimum of 5 credit hours of study of a natural language other than English (including signed languages used by deaf communities). The 5 credit hours offered in satisfaction of this requirement must be at the 3000 level or above for widely-taught languages (French, German, Greek, Latin, Spanish), or at the 2000 level or above for less-widely-taught languages (Arabic, American Sign Language, Chinese, Farsi, Hebrew, Hindi, Indonesian, Italian, Japanese, Korean, Norwegian, Portuguese, Russian, Swedish).

Only courses taught in the language in question, and focused specifically on language learning, may be used for this requirement. A list of all the approved courses is available from the Department of Linguistics or the departmental undergraduate advisor.

The natural language requirement may be satisfied by examination or waived for foreign students whose native language is not English; in these cases, students must still meet the college minimum major requirement of 18 credit hours of upper-division coursework and 30 credit hours overall in the major by taking an additional 3-credit elective from the list above. Students who wish to have their language requirement waived must obtain the consent of an undergraduate advisor before registering for the fall term of the junior year.

### Additional Information

The department recommends that prospective majors complete LING 2000 and at least two 1000-level foreign language courses (in the same language) by the end of the sophomore year, unless the student's foreign language proficiency is already advanced.

The fall semester of the junior year should include LING 3430, a 2000-level foreign language course, and a linguistics elective or LING 4420. It must also include LING 2000 if that was not taken earlier. The spring semester of the junior year should include LING 3100, a linguistics elective and a further 2000-level foreign language course (if needed to prepare the student for the required upper-division foreign language credit hours).

## Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here refers only to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in linguistics, students should meet the following requirements:

- By the beginning of the spring semester of the freshman year (second semester), declare linguistics as a major.
- During the freshman or sophomore years (first through fourth semesters), take LING 2000 (required) and LING 1000 or LING 2400 (electives)
- By the end of the sophomore year (fourth semester) at the latest, complete two semesters of study of a natural (spoken or signed) language other than English.\*
- During the junior year (fifth and sixth semesters) at the latest, continue natural language study at the 2000 level.
- During the fall of the junior year (fifth semester), take one or both of LING 3430 or LING 4420.
- During the junior or senior year (fifth through eighth semesters), take the remaining courses as needed.
- During the spring of the junior year (sixth semester), take LING 3100 and an upper-division linguistics elective.
- During the senior year (seventh and eighth semesters) at the latest, take 5 credit hours of natural language study at the 3000 level. The language requirement is waived for native speakers of a language other than English, but if it is waived, 3 additional credit hours in linguistics must be taken.

*Note:* A Linguistics major who has been excluded from any upper-division linguistics course due to enrollment limitations will be given first preference for a seat in that course the following year if the exclusion is made known to the department staff within two weeks after it occurs. No declared linguistics major who still needs LING 2000 for fall of the junior year and attempts to register for it during the regular registration period for continuing students (spring of the sophomore year) will be excluded from the course.

## Program Tracks

In addition to the general Linguistics major, the Linguistics department offers four specialized major tracks for undergraduates. These tracks allow students to tailor their major coursework to better reflect their specific interest(s) within the field of linguistics. Concentrated training within a specific subfield of the discipline provides students with the in-depth knowledge and skills needed to pursue specific careers within the field of linguistics. In addition, it provides a foundation for pursuing a focused area of study for those who continue onto graduate school.

Students declaring any track will need to complete the following courses:

Code	Title	Credit Hours
<b>Foundational Linguistics Courses</b>		
LING 2000	Introduction to Linguistics	3
LING 3100	Language Sound Structures	3
LING 3430	Semantics	3
LING 4420	Morphology and Syntax	3
<b>Natural Language</b>		

Complete a minimum of 5 credit hours at the intermediate to advanced level of a natural language other than English (see details on the Requirements Tab) with a grade of C- or better.

5

**Total Credit Hours****17**

## Computational Linguistics

Students declaring the Computational Linguistics sub-plan will also complete 15 credit hours of LING electives (at least 9 at the upper division level); however, they must take 12 of these credits as the following 4 core courses listed below. For the remaining 3 elective credit hours, students can choose an elective from the list of electives, also below, some from CSCI or INFO.

Code	Title	Credit Hours
<b>Computational Linguistics Core Courses</b>		
LING 1200	Programming for Linguistics	3
LING 3832	Computational Linguistics	3
LING 4200	Introduction to Computational Corpus Linguistics	3
LING 4632	Machine Learning and Linguistics	3
<b>Electives</b>		
Select one course from the following:		3-4
LING 4700	Conversation Analysis and Interactional Linguistics	
CSCI 2270	Computer Science 2: Data Structures	
CSCI 3832	Natural Language Processing	
INFO 2201	Programming for Information Science 2	
<b>Total Credit Hours</b>		<b>15-16</b>

## Language and Cognition

Students declaring the Language and Cognition track will also complete 15 credits of LING electives (at least 9 at the upper division level); however, they must select 12 of these credits from the set of Language and Cognition-related courses below. For the remaining 3 elective credit hours, students can choose any LING course.

Code	Title	Credit Hours
<b>Language and Cognition Core Courses</b>		
Complete 12 credit hours from the following:		12
LING 1010	The Study of Words	
LING 3005	Cognitive Science	
LING 3185	Figurative Language	
LING 4220	Language and Mind	
LING 4100	Perspectives on Language (Language and Embodiment)	
LING 4225	Interdisciplinary Research Methods in Child Language Acquisition	
LING 4560	Language Development	
LING 4622	Statistical Analysis for Linguistics	
LING 4632	Machine Learning and Linguistics	
<b>Electives</b>		
Select any LING course.		3
<b>Total Credit Hours</b>		<b>15</b>

## Sociocultural, Anthropological & Interactional Linguistics (SAIL)

Students declaring the SAIL track will also complete 15 credit hours of LING electives (9 at the upper division level); however, they must select 12 of these credits from the set of SAIL-related courses below. For the remaining 3 elective credit hours, students can choose any LING course.

Code	Title	Credit Hours
<b>Sociocultural, Anthropological &amp; Interactional Linguistics Core Courses</b>		
Complete 12 credit hours from the following:		12
LING 1000	Language in U.S. Society	
LING 1900	Community-Based Learning Practicum: Literacy and Language Learning	
LING 2400	Language, Gender and Sexuality	
LING/ETHN 2500	Race, Ethnicity, and Language	
LING 3220	American Indigenous Languages in their Social and Cultural Context	
LING 3545	World Language Policies	
LING 3550	Talk at Work: Language Use in Institutional Contexts	
LING 3800	Special Topics in Linguistics (Language in Digital Media)	
LING 3800	Special Topics in Linguistics (Language and Politics)	
LING/JPNS 4050	Japanese Sociolinguistics	
LING 4700	Conversation Analysis and Interactional Linguistics	
LING/ANTH 4800	Language and Culture	
<b>Electives</b>		
Select any LING course.		3
<b>Total Credit Hours</b>		<b>15</b>

## Teaching English to Speakers of Other Languages (TESOL)

Students declaring the TESOL sub-plan will be required to take four foundational TESOL-focused courses in Linguistics for a total of 12 credit hours. In addition to these four courses, students must complete at least 3 credit hours from a limited set of TESOL-related courses.

Code	Title	Credit Hours
<b>Teaching English to Speakers of Other Languages Core Courses</b>		
LING 4610	Pedagogical Grammar for Teachers of English to Speakers of Other Languages	3
LING 4620	Teaching Second Language (L2) Oral Skills and Communication	3
LING 4630	TESOL and Second Language Acquisition: Principles and Practices	3
LING 4910	TESOL Practicum	3
<b>Electives</b>		
Select one course from the following:		3-4
LING 3545	World Language Policies	
LING/SLHS 4560	Language Development	

LING/ANTH 4800	Language and Culture
COMM 3410	Intercultural Communication
EDUC 2411	Educational Psychology for Elementary Schools
EDUC 2425	Foundations of Bilingual/Multicultural Education
EDUC 2625	Teaching English Language Development
EDUC 4125	Secondary World Language Methods
EDUC 4425	Introduction to Bilingual/Multicultural Education
EDUC 4455	Methods of Biliteracy Instruction
EDUC 4615	Language Acquisition for Bilingual Learners

**Total Credit Hours** 15-16

## Recommended Four-Year Plan of Study

Through the required coursework for the major, students will complete all 12 credits of the Social Sciences area of the Gen Ed Distribution Requirement. Depending on the courses selected as a major electives, students can potentially complete some credits in the Arts & Humanities area of the Distribution and both the U.S. Perspective and the Global Perspective components of the Gen Ed Diversity Requirement.

### Year One

Fall Semester	Credit Hours
LING 2000 Introduction to Linguistics	3
Beginning Level Foreign Language 1 (If needed, does not count toward language requirement)	4-5
Gen. Ed. Skills course (example: Lower-division Written Communication)	3
Gen. Ed. Distribution course (example: Natural Sciences)	3
Gen. Ed. Diversity course (example: Diversity: US Perspective)	3

**Credit Hours** 16-17

### Spring Semester

Beginning Level Foreign Language 2 (If needed, does not count toward language requirement)	4-5
LING Lower-Division or Upper-Division elective	3
Gen. Ed. Skills course (example: QRMS)	3
Gen. Ed. Distribution course (example: Natural Sciences and Lab)	4

**Credit Hours** 14-15

### Year Two

#### Fall Semester

Second Year Foreign Language 1 (If needed)	3-5
Gen. Ed. Distribution course (example: Natural Sciences)	3
Gen. Ed. Distribution course (example: Arts & Humanities)	3
Gen. Ed. Diversity course (example: Diversity: Global Perspective)	3
LING Lower-Division or Upper-Division elective	3

**Credit Hours** 15-17

#### Spring Semester

LING Foreign Language Requirement (if needed)	3-5
LING 3100 Language Sound Structures	3
Gen. Ed. Distribution course (example: Natural Sciences)	3

Gen. Ed. Distribution (example: Arts & Humanities)	3
Elective	3
<b>Credit Hours</b>	<b>15-17</b>

### Year Three

#### Fall Semester

LING 3430 Semantics	3
LING Foreign Language Requirement UD (if needed)	3
Gen. Ed. Distribution course (example: Arts & Humanities)	3
Gen. Ed. Skills course (example: Upper-division Written Communication)	3
Elective	3

**Credit Hours** 15

#### Spring Semester

LING Upper-Division elective	3
LING Foreign Language Requirement UD (if needed)	3
Gen. Ed. Distribution course (example: Arts & Humanities)	3
LING 4420 Morphology and Syntax	3
Upper-Division Elective	3

**Credit Hours** 15

### Year Four

#### Fall Semester

LING Upper-Division elective	3
Elective	3
Upper-Division Elective	3
Upper-Division Elective	3
Upper-Division Elective	3

**Credit Hours** 15

#### Spring Semester

LING Upper-Division Elective	3
Elective	3
Upper-Division Elective	3
Upper-Division Elective	3
Upper-Division Elective	3

**Credit Hours** 15

**Total Credit Hours** 120-126

## Learning Outcomes

- Students can identify multiple levels of linguistic structure and their interactions: sound segments, sound categories, word structure, sentence structure and semantic structure.
- Students are aware of the range of speech sounds found in languages of the world, including how they are transcribed, and have the ability to transcribe those sounds that are frequently encountered.
- Students can use transcribed data to infer the contrastive relationships among sounds in a given language.
- Students can describe the ways in which languages and language families differ with regard to word- and sentence-formation devices.
- Students can infer language structures from the analysis of data from unfamiliar languages.
- Students can describe the relationship between conceptual structure and linguistic structure at both the word and sentence level, and

identify differences between conventional and calculable linguistic meaning.

## Bachelor's–Accelerated Master's Degree Program(s)

The bachelor's–accelerated master's (BAM) degree program options offer currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first but begin taking graduate coursework as undergraduates (typically in their senior year).

Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree. In addition, staying at CU Boulder to pursue a bachelor's–accelerated master's program enables students to continue working with their established faculty mentors.

### BA and MA in Linguistics

#### Admissions Requirements

In order to apply for admission to the BAM program in Linguistics, a student must meet the following criteria:

- Have a cumulative GPA of 3.0 or higher.
- Transfer students must have completed a minimum of 24 credit hours at CU Boulder.
- Have completed at least one upper division Linguistics elective.
- Must take a graduate-level "qualifying course" in the semester they apply for admission to the BAM program.

The BAM degree program is recommended only for the most serious and able undergraduate students. For further information, see the graduate advisor in the spring of the sophomore year or during the first week of the fall semester of the junior year.

#### Program Requirements

Students may take up to and including 12 hours while in the undergraduate program which can later be used toward the master's degree. These 12 credits may be double counted toward the bachelor's degree and the master's degree. Students must apply to graduate with the bachelor's degree, and apply to continue with the master's degree, early in the semester in which the undergraduate requirements will be completed.

If you are interested in the BAM degree program, please contact the Linguistics graduate advisor for more information. Students should discuss possible BAM plans with the graduate advisor by spring of the sophomore year or during the first week of the fall semester of the junior year.

### BA in Linguistics, MS in Computational Linguistics, Analytics, Search and Informatics

#### Admission Requirements

In order to apply for admission to the BAM program, a student must meet the following criteria:

- Complete all prerequisite courses with a minimum grade of B or higher.

Code	Title	Credit Hours
LING 1200 or CSCI 1300	Programming for Linguistics Computer Science 1: Starting Computing	3
LING 4632/6632	Machine Learning and Linguistics	3
LING 3832/5832 or CSCI 3832/5832	Computational Linguistics Natural Language Processing	3
LING 4200/5200	Introduction to Computational Corpus Linguistics	3

One of the following courses in Computer Science as an elective

CSCI 3104	Algorithms
CSCI 3022	Introduction to Data Science with Probability and Statistics

One of the following courses (in the semester the student applies)

LING 5420	Morphology and Syntax
LING 5030	Linguistic Phonetics
LING 5430	Semantics and Pragmatics

- Have a cumulative GPA of 3.5 or higher.
- Have at least junior class standing.
- Provide two letters of reference, one written by the course instructor of the LING 5XXX course they are taking during the semester they apply, the other by the instructor from an upper division course in Computer Science. Letters should be sent directly to the CLASIC Program Coordinator.

#### Program Requirements

Students may take up to and including 12 hours while in the undergraduate program which can later be used toward the master's degree. However, only 6 credits may be double counted toward the bachelor's degree and the master's degree.

Students must apply to graduate with the bachelor's degree, and apply to continue with the master's degree, early in the semester in which the undergraduate requirements will be completed.

## Linguistics - Minor

Students can profitably combine the linguistics minor with a major in one of the modern languages, classics, anthropology, psychology or speech, language and hearing sciences, to name just a few possibilities.

One good reason to take the linguistics minor is that by learning to analyze language and evaluate claims about language, students can improve the quality of their writing and argumentation in their major discipline.

## Requirements

Declaration of a minor in linguistics is open to any student enrolled at CU Boulder, regardless of college or school.

Students minoring in linguistics must complete a total of 18 credit hours in linguistics, 9 of which must be at the upper-division level. Students must maintain an overall and linguistics GPA of at least 2.00 (C), and complete all LING courses with a C- or better.

## Required Courses and Credits

Code	Title	Credit Hours
<b>Required Courses</b>		
LING 2000	Introduction to Linguistics	3
<b>Electives</b>		
Select two of the following:		6
LING 3100	Language Sound Structures	
LING 3430	Semantics	
LING 4420	Morphology and Syntax	
Take the remaining one of the three courses listed above and/or select from the following electives to bring the total credit hours to 18: <sup>1</sup>		9
LING 1000	Language in U.S. Society	
LING 1010	The Study of Words	
LING 1020	Languages of the World	
LING 1200	Programming for Linguistics	
LING 2400	Language, Gender and Sexuality	
LING 2500	Race, Ethnicity, and Language	
LING 3005	Cognitive Science	
LING 3185	Figurative Language	
LING 3220	American Indigenous Languages in their Social and Cultural Context	
LING 3545	World Language Policies	
LING 3550	Talk at Work: Language Use in Institutional Contexts	
LING 3800	Special Topics in Linguistics	
LING 4050	Japanese Sociolinguistics	
LING 4100	Perspectives on Language	
LING 4220	Language and Mind	
LING 4225	Interdisciplinary Research Methods in Child Language Acquisition	
LING 4450	Introduction to Formal Syntax	
LING 4560	Language Development	
LING 4610	Pedagogical Grammar for Teachers of English to Speakers of Other Languages	
LING 4620	Teaching Second Language (L2) Oral Skills and Communication	
LING 4630	TESOL and Second Language Acquisition: Principles and Practices	
LING 4632	Machine Learning and Linguistics	
LING 4640	Teaching Language Skills: Focus on Social Justice	
LING 4700	Conversation Analysis and Interactional Linguistics	
LING 4800	Language and Culture	
LING 4830	Honors Thesis	
LING 4910	TESOL Practicum	
<b>Total Credit Hours</b>		<b>18</b>

<sup>1</sup> At least 3 credit hours of the electives must be in an upper-division course.

## Teaching English to Speakers of Other Languages - Minor

The undergraduate minor in TESOL provides CU Boulder students with foundational knowledge and skills for English teaching while also incorporating the broader perspectives of culture, language use and language learning. Housed in the linguistics department, the 18-credit minor is open to all interested students, and may be of particular relevance to students from social science, humanities, speech/language, foreign language, international affairs and communication programs or backgrounds.

The widespread role of English as an international lingua franca opens up many opportunities for trained English teachers globally. Increasingly, EFL (English as a foreign language) providers want to hire individuals with relevant training—not just those who are native or near-native speakers. Minor earners, in conjunction with their bachelor's degrees, will have the credentials to be able to tap into professional opportunities in the dynamic world of English language teaching—globally and in the U.S.

The program is focused on the teaching of English to young adults and adults while also incorporating the broader perspectives of language use and language learning from education, communication, culture and society. A one-semester practicum experience involves teaching or tutoring with a community ESL provider.

### Requirements

Students must complete a total of 18 credit hours of TESOL linguistic courses and TESOL related coursework, 9 of which must be at the upper-division level. Students must maintain a GPA of at least 2.00 (C) in all courses that can count toward the minor and complete all courses counting toward the minor with a grade of C- or better.

Students cannot declare both the major in linguistics and the minor in TESOL.

### Required Courses and Credits

Code	Title	Credit Hours
<b>Required Courses</b>		
LING 4610	Pedagogical Grammar for Teachers of English to Speakers of Other Languages	3
LING 4620	Teaching Second Language (L2) Oral Skills and Communication	3
LING 4630	TESOL and Second Language Acquisition: Principles and Practices	3
LING 4910	TESOL Practicum	3
<b>Electives</b>		
Choose two of the following courses:		6
COMM 3410	Intercultural Communication	
EDUC 2411	Educational Psychology for Elementary Schools	
EDUC 2425	Foundations of Bilingual/Multicultural Education	
EDUC 2625	Teaching English Language Development	
EDUC 4125	Secondary World Language Methods	
EDUC 4425	Introduction to Bilingual/Multicultural Education	

EDUC 4455	Methods of Biliteracy Instruction
EDUC 4615	Language Acquisition for Bilingual Learners
LING 3545	World Language Policies
LING/ANTH 4800	Language and Culture
LING/SLHS 4560	Language Development

**Total Credit Hours** **18**

## Mathematics

The Department of Mathematics offers courses leading to either a Bachelor of Arts (BA) degree in mathematics or a minor in mathematics. Students who choose to major in mathematics choose from one of five tracks for the major:

- **Comprehensive track:** The comprehensive track emphasizes theoretical mathematics and is aimed at students seeking a general background in mathematics or intending to pursue graduate work in mathematics.
- **Applicable track:** The applicable track is aimed at students seeking a background in applied and/or applicable mathematics.
- **Secondary education track:** The secondary education track is designed to align with the Colorado licensure requirements for mathematics secondary education and the university does offer a program for obtaining secondary education mathematics teaching licensure.
- **Computational track:** The computational track is designed for students with an interest in the intersection of mathematics and computer science.
- **Statistics track:** The statistics track is designed for students seeking a background in statistics and/or data science.

Course code for this program is MATH.

## Bachelor's Degree

- Mathematics - Bachelor of Arts (BA) (p. 476)

## Minor

- Mathematics - Minor (p. 479)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Baggett, Lawrence W.

Professor Emeritus

## Courses

### **MATH 1005 (3) Introduction to College Mathematics**

Introductory level mathematics course which presents a college level introduction to algebraic functions and their applications. Only offered through the Student Academic Service Center.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 1011

**Additional Information:** MAPS Course: Mathematics

### **MATH 1011 (3) College Algebra**

Covers simplifying algebraic expressions, factoring, linear and quadratic equations, inequalities, exponentials, logarithms, functions, graphs and systems of equations. Department enforced prerequisite: one year high school algebra.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 1005

**Additional Information:** Arts Sci Core Curr: Quant Reasn Mathmat Skills

Arts Sci Gen Ed: Quantitative Reasoning Math

MAPS Course: Mathematics

### **MATH 1012 (3) Quantitative Reasoning and Mathematical Skills**

Promotes mathematical literacy among liberal arts students. Teaches basic mathematics, logic, and problem-solving skills in the context of higher level mathematics, science, technology, and/or society. This is not a traditional math class, but is designed to stimulate interest in and appreciation of mathematics and quantitative reasoning as valuable tools for comprehending the world in which we live.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 1112

**Additional Information:** GT Pathways: GT-MA1 - Mathematics

Arts Sci Core Curr: Quant Reasn Mathmat Skills

Arts Sci Gen Ed: Quantitative Reasoning Math

MAPS Course: Mathematics

### **MATH 1021 (3) College Trigonometry**

Covers trigonometric functions, identities, solutions of triangles, addition and multiple angle formulas, inverse and trigonometric functions and laws of sines and cosines. Department enforced prerequisite: MATH 1011 (minimum grade C-) or 1 1/2 years of high school algebra and 1 year of high school geometry.

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 1235 or MATH 1150

**MATH 1071 (3) Finite Mathematics for Social Science and Business**

Discusses systems of linear equations and introduces matrices, linear programming, and probability.

**Requisites:** Requires prerequisite course of MATH 1011 (minimum grade C-) or a score of 46% or greater on an ALEKS math exam taken in 2016 or earlier.

**Additional Information:** Arts Sci Core Curr: Quant Reasn Mathmat Skills  
Arts Sci Gen Ed: Quantitative Reasoning Math

**MATH 1081 (3) Calculus for Social Science and Business**

Covers differential and integral calculus of algebraic, logarithmic and exponential functions. For more information about the math placement referred to in the "Enrollment Requirements", contact your academic advisor.

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 1345 or APPM 1350 or ECON 1088 or MATH 1300 or MATH 1310 or MATH 1330

**Requisites:** Requires prerequisite course of ECON 1078 or MATH 1011 or MATH 1071 or MATH 1150 or MATH 1160 (minimum grade C-) or an ALEKS math exam taken in 2016 or earlier, or placement into pre-calculus based on your admission data and/or CU Boulder coursework.

**Additional Information:** Arts Sci Core Curr: Quant Reasn Mathmat Skills  
Arts Sci Gen Ed: Quantitative Reasoning Math

**MATH 1110 (3) Mathematics for Elementary Educators 1**

Includes a study of problem solving techniques in mathematics and the structure of number systems. Department enforced prereq., one year of high school algebra and one year of geometry. Department enforced restriction: restricted to prospective elementary teachers.

**Additional Information:** Arts Sci Core Curr: Quant Reasn Mathmat Skills  
Arts Sci Gen Ed: Quantitative Reasoning Math

**MATH 1112 (4) Mathematical Analysis in Business**

Gives students experience with mathematical problem solving in real business contexts. Students will work with data and spreadsheets to build and analyze mathematical models. Themes of the course include applying logical operators to model business rules, interpreting data and using tables and graphs, finding break-even and optimal points, and addressing uncertainty and forecasting

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 1012

**Additional Information:** Arts Sci Core Curr: Quant Reasn Mathmat Skills  
Arts Sci Gen Ed: Quantitative Reasoning Math  
MAPS Course: Mathematics

**MATH 1120 (3) Mathematics for Elementary Educators 2**

Topics include geometry, measurement, probability, and statistics. Department enforced restriction: restricted to prospective elementary teachers.

**Requisites:** Requires prerequisite course of MATH 1110 (minimum grade C-).

**Additional Information:** Arts Sci Core Curr: Quant Reasn Mathmat Skills  
Arts Sci Gen Ed: Quantitative Reasoning Math

**MATH 1130 (3) Mathematics from the Visual Arts**

Introduces mathematical concepts through the study of visual arts.

**Additional Information:** Arts Sci Core Curr: Quant Reasn Mathmat Skills  
Arts Sci Gen Ed: Quantitative Reasoning Math

**MATH 1150 (4) Precalculus Mathematics**

Develops techniques and concepts prerequisite to calculus through the study of trigonometric, exponential, logarithmic, polynomial and other functions. For more information about the math placement referred to in the "Enrollment Requirements", please contact your academic advisor.

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 1235 or MATH 1021

**Requisites:** Requires prerequisite course of MATH 1011 (minimum grade C-) or an ALEKS math exam taken in 2016 or earlier, or placement into pre-calculus based on your admissions data and/or CU Boulder coursework. Requires enrollment in corequisite course MATH 1151.

**Additional Information:** GT Pathways: GT-MA1 - Mathematics

Arts Sci Core Curr: Quant Reasn Mathmat Skills  
Arts Sci Gen Ed: Quantitative Reasoning Math  
MAPS Course: Mathematics

**MATH 1151 (1) Precalculus Supplemental Lab**

Provides students concurrently enrolled in MATH 1150 with supplemental instruction.

**Requisites:** Requires enrollment in corequisite course of MATH 1150.

**Grading Basis:** Letter Grade

**MATH 1160 (3) Transition to Calculus (IBL): The Theory, Applications and Analysis of Functions**

Examines the functions of calculus and how they can be used to model concrete problems and/or change. This is an intensive study of these functions through Inquiry-Based Learning. Each class will be designed so students will be actively engaged in learning the material in small groups. For more information about the math placement referred to in the "Enrollment Requirements", please contact your academic advisor.

**Requisites:** Requires an ALEKS math exam taken in 2016 or earlier, or placement into pre-calculus based on your admissions data and/or CU Boulder coursework.

**MATH 1212 (3) Data and Models**

Engages students in statistical and algebraic problem solving through modeling data and real world questions taken from the social and life sciences. The course will emphasize these skills and the mathematical background needed for a university level statistics course.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 1011

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Core Curr: Quant Reasn Mathmat Skills  
Arts Sci Gen Ed: Quantitative Reasoning Math  
MAPS Course: Mathematics

**MATH 1300 (5) Calculus 1**

Topics include limits, derivatives of algebraic and transcendental functions, applications of the derivative, integration and applications of the definite integral. Students who have already earned college credit for calculus 1 are eligible to enroll in this course if they want to solidify their knowledge base in calculus 1. For more information about the math placement referred to in the "Enrollment Requirements", contact your academic advisor.

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 1345 or APPM 1350 or ECON 1088 MATH 1081 or MATH 1310 or MATH 1330  
**Requisites:** Requires prerequisite course of MATH 1011 and MATH 1021 or MATH 1150 or MATH 1160 or APPM 1235 (minimum grade C-) or an ALEKS math exam taken in 2016 or earlier, or placement into calculus based on your admissions data and/or CU Boulder coursework.

**Additional Information:** GT Pathways: GT-MA1 - Mathematics

Arts Sci Core Curr: Quant Reasn Mathmat Skills  
Arts Sci Gen Ed: Quantitative Reasoning Math

**MATH 1301 (1) Calculus 1 Supplemental Lab**

Provides students concurrently enrolled in MATH 1300 with supplemental instruction.

**Requisites:** Requires corequisite course of MATH 1300.

**Grading Basis:** Letter Grade

**MATH 1310 (5) Calculus for Life Sciences**

Calculus concepts are developed through the analysis and modeling of complex systems, ranging from gene networks and cells to populations and ecosystems. Fundamental concepts of probability and statistics are also developed through the lens of calculus. MATH 1300 is similar, but a greater emphasis is placed on relevance and applications in biology and other life sciences. Students who have already earned college credit for calculus 1 are eligible to enroll in this course if they want to solidify their knowledge base in calculus 1. For more information about the math placement referred to in the "Enrollment Requirements", contact your academic advisor.

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 1345 or APPM 1350 or ECON 1088 or MATH 1081 or MATH 1300 or MATH 1330

**Requisites:** Requires prerequisite course of APPM 1235 or MATH 1021 or MATH 1150 or MATH 1160 or MATH 1300 (minimum grade C-) or an ALEKS math exam taken in 2016 or earlier, or placement into calculus based on your admissions data and/r CU Boulder coursework.

**Additional Information:** GT Pathways: GT-MA1 - Mathematics  
Arts Sci Core Curr: Quant Reasn Mathmat Skills  
Arts Sci Gen Ed: Quantitative Reasoning Math

**MATH 1330 (4) Calculus for Economics and the Social Sciences**

A calculus course intended to meet the needs of social science and economics majors, including applications. Covers differential and integral calculus of algebraic, logarithmic and exponential functions and modeling. For more information about the math placement referred to in the "Enrollment Requirements", contact your academic advisor.

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 1345 or APPM 1350 or ECON 1088 or MATH 1081 or MATH 1300 or MATH 1310

**Requisites:** Requires a prerequisite course of ECON 1078 or MATH 1011 or MATH 1071 or MATH 1150 or MATH 1160 (minimum grade C-) or an ALEKS math exam taken in 2016 or earlier, or placement into calculus based on your admissions data and/r CU Boulder coursework.

**Additional Information:** Arts Sci Core Curr: Quant Reasn Mathmat Skills  
Arts Sci Gen Ed: Quantitative Reasoning Math

**MATH 2001 (3) Introduction to Discrete Mathematics**

Introduces the ideas of rigor and proof through an examination of basic set theory, existential and universal quantifiers, elementary counting, discrete probability, and additional topics.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 2002

**Requisites:** Requires prerequisite course of MATH 1300 or MATH 1310 or APPM 1345 or APPM 1350 (all minimum grade C-).

**MATH 2002 (3) Number Systems: An Introduction to Higher Mathematics**

Introduces the concepts of mathematical proofs using the construction of the real numbers from set theory. Topics include basic logic and set theory, equivalence relations and functions, Peano's axioms, construction of the integers, the rational numbers and axiomatic treatment of the real numbers.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 2001

**Requisites:** Requires prerequisite of MATH 1300 or MATH 1310 or APPM 1345 or APPM 1350 (all minimum grade C-).

**MATH 2130 (3) Introduction to Linear Algebra for Non-Mathematics Majors**

Examines basic properties of systems of linear equations, vector spaces, inner products, linear independence, dimension, linear transformations, matrices, determinants, eigenvalues, eigenvectors and diagonalization. Intended for students who do not plan to major in Mathematics. Formerly MATH 3130.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 2135 or APPM 3310

**Requisites:** Requires prerequisite course of MATH 2300 or APPM 1360 (minimum grade C-).

**MATH 2135 (3) Introduction to Linear Algebra for Mathematics Majors**

Examines basic properties of systems of linear equations, vector spaces, inner products, linear independence, dimension, linear transformations, matrices, determinants, eigenvalues, eigenvectors and diagonalization. Intended for students who plan to major in Mathematics. Formerly MATH 3135.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 2130 or APPM 3310

**Requisites:** Requires a prerequisite course of (MATH 2300 or APPM 1360) and (MATH 2001 or MATH 2002) (all minimum grade C-).

**MATH 2300 (5) Calculus 2**

Continuation of MATH 1300. Topics include transcendental functions, methods of integration, polar coordinates, differential equations, improper integrals, infinite sequences and series, Taylor polynomials and Taylor series. Department enforced prerequisite: MATH 1300 or MATH 1310 or APPM 1345 or APPM 1350 (minimum grade C-).

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 1360

**Requisites:** Requires prerequisite course of MATH 1300 or MATH 1310 or APPM 1345 or APPM 1350 (minimum grade C-).

**MATH 2380 (3) Mathematics for the Environment**

An interdisciplinary course where environmental issues, such as climate change, global epidemics, pollution, population models and kinship relations of Australian Aborigines are studied with elementary mathematics (such as fuzzy logic). Similar techniques are applied to analyze other current events, such as surveillance, economic meltdowns, identity theft and media literacy. Department enforced prerequisite: proficiency in high school mathematics.

**Additional Information:** Arts Sci Core Curr: Quant Reasn Mathmat Skills  
Arts Sci Gen Ed: Quantitative Reasoning Math

**MATH 2400 (5) Calculus 3**

Continuation of MATH 2300. Topics include vectors, three-dimensional analytic geometry, partial differentiation and multiple integrals, and vector analysis. Department enforced prerequisite: MATH 2300 or APPM 1360 (minimum grade C-).

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 2350

**Requisites:** Requires prerequisite course of MATH 2300 or APPM 1360 (minimum grade C-).

**MATH 2510 (3) Introduction to Statistics**

Elementary statistical measures. Introduces statistical distributions, statistical inference, hypothesis testing and linear regression.

Department enforced prerequisite: two years of high school algebra.

**Additional Information:** Arts Sci Core Curr: Quant Reasn Mathmat Skills  
Arts Sci Gen Ed: Quantitative Reasoning Math  
MAPS Course: Mathematics

**MATH 3001 (3) Analysis 1**

Provides a rigorous treatment of the basic results from elementary Calculus. Topics include the topology of the real line, sequences of numbers, continuous functions, differentiable functions and the Riemann integral.

**Requisites:** Requires prerequisite courses of (MATH 2001 or MATH 2002) and (MATH 2130 or MATH 3130 or MATH 2135 or MATH 3135) (all minimum grade C-).

**MATH 3110 (3) Introduction to Theory of Numbers**

Studies the set of integers, focusing on divisibility, congruences, arithmetic functions, sums of squares, quadratic residues and reciprocity, and elementary results on distributions of primes.

**Requisites:** Requires prerequisite of MATH 2001 or MATH 2002 (both minimum grade C-).

**MATH 3120 (3) Functions and Modeling**

Engages the students in daily projects and occasional in-class labs designed to strengthen and expand knowledge of the topics in secondary mathematics, focusing especially on topics from algebra, precalculus and calculus. Projects and labs involve the use of multiple representations, transformations, data analysis techniques and interconnections among ideas from geometry, algebra, probability and calculus.

**Requisites:** Requires prerequisite of MATH 2001 or MATH 2002 (both minimum grade C-).

**MATH 3130 (3) Introduction to Linear Algebra**

Examines basic properties of systems of linear equations, vector spaces, inner products, linear independence, dimension, linear transformations, matrices, determinants, eigenvalues, eigenvectors and diagonalization.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 3135 or APPM 3310

**Requisites:** Requires prerequisite course of MATH 2300 or APPM 1360 (minimum grade C-).

**MATH 3135 (3) Honors Introduction to Linear Algebra**

Examines basic properties of systems of linear equations, vector spaces, inner products, linear independence, dimension, linear transformations, matrices, determinants, eigenvalues, eigenvectors and diagonalization.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 3130 or APPM 3310

**Requisites:** Requires a prerequisite course of MATH 2300 or APPM 1360 and MATH 2001 (all minimum grade C-).

**MATH 3140 (3) Abstract Algebra 1**

Studies basic properties of algebraic structures with a heavy emphasis on groups. Other topics, time permitting, may include rings and fields.

**Requisites:** Requires prerequisite courses of (MATH 2001 or MATH 2002) and (MATH 2130 or MATH 3130 or MATH 2135 or MATH 3135) (all minimum grade C-).

**MATH 3170 (3) Combinatorics 1**

Covers basic methods and results in combinatorial theory. Includes enumeration methods, elementary properties of functions and relations, and graph theory. Emphasizes applications.

**Requisites:** Requires prerequisite of MATH 2001 or MATH 2002 (both minimum grade C-).

**MATH 3210 (3) Euclidean and Non-Euclidean Geometry**

Axiomatic systems; Euclid's presentation of the elements of geometry; Hilbert's axioms; neutral, Euclidean and non-Euclidean geometries and their models.

**Requisites:** Requires prerequisite courses of (MATH 2001 or MATH 2002) and (MATH 2130 or MATH 3130 or MATH 2135 or MATH 3135) (all minimum grade C-).

**MATH 3430 (3) Ordinary Differential Equations**

Involves an elementary systematic introduction to first-order scalar differential equations, nth order linear differential equations, and n-dimensional linear systems of first-order differential equations. Additional topics are chosen from equations with regular singular points, Laplace transforms, phase plane techniques, basic existence and uniqueness and numerical solutions. Formerly MATH 4430.

**Requisites:** Requires prerequisite courses of (MATH 2400 or APPM 2350) and (MATH 2130 or 3130 or MATH 2135 or 3135 or APPM 3310) (all minimum grade C-).

**MATH 3450 (3) Introduction to Complex Variables**

Theory of functions of one complex variable, including integrals, power series, residues, conformal mapping, and special functions. Formerly MATH 4450.

**Requisites:** Requires prerequisite courses of MATH 2400 or APPM 2350 (minimum grade C-).

**MATH 3510 (3) Introduction to Probability and Statistics**

Introduces the basic notions of Probability: random variables, expectation, conditioning, and the standard distributions (Binomial, Poisson, Exponential, Normal). This course also covers the Law of Large Numbers and Central Limit Theorem as they apply to statistical questions: sampling from a random distribution, estimation, and hypothesis testing.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 2510 or MATH 4510

**Requisites:** Requires a prerequisite course of (MATH 2300 or APPM 1360) and (MATH 2001 or MATH 2002) (all minimum grade C-).

**MATH 3850 (1) Seminar in Guided Mathematics Instruction**

Provides learning assistants with an opportunity to analyze assessment data for formative purposes and develop instructional plans as a result of these analyses. These formative assessment analyses will build on the literature in the learning sciences. Students gain direct experiences interacting with the tools of the trade, especially with actual assessment data and models of instruction. Restricted to learning assistants in Math.

**Repeatable:** Repeatable for up to 3.00 total credit hours.

**Requisites:** Requires a corequisite course of EDUC 4610.

**MATH 4000 (3) Foundations of Mathematics**

Focuses on a complete deductive framework for mathematics and applies it to various areas. Presents Goedel's famous incompleteness theorem about the inherent limitations of mathematical systems. Uses idealized computers to investigate the capabilities and limitations of human and machine computation.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 5000

**Requisites:** Requires prerequisite courses of MATH 3001 or MATH 3140 or MATH 4730 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**MATH 4001 (3) Analysis 2**

Provides a rigorous treatment of infinite series, sequences of functions and an additional topic chosen by the instructor (for example, multivariable analysis, the Lebesgue integral or Fourier analysis).

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 5001

**Requisites:** Requires prerequisite course of MATH 3001 (minimum grade C-).

**MATH 4120 (3) Introduction to Operations Research**

Studies linear and nonlinear programming, the simplex method, duality, sensitivity, transportation and network flow problems, some constrained and unconstrained optimization theory, and the Kuhn-Tucker conditions, as time permits.

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 5120 and APPM 4120 and MATH 5120

**Requisites:** Requires prerequisite course of MATH 2130 or 3130 or MATH 2135 or 3135 or APPM 3310 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MATH 4140 (3) Abstract Algebra 2**

Explores some topic that builds on material in MATH 3140. Possible topics include (but are not limited to) Galois theory, representation theory, advanced linear algebra or commutative algebra.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 5140

**Requisites:** Requires prerequisite course of MATH 3140 (minimum grade C-).

**MATH 4200 (3) Introduction to Topology**

Introduces the basic concepts of point set topology. Includes topological spaces, metric spaces, homeomorphisms, connectedness and compactness.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 5200

**Requisites:** Requires prerequisite course of MATH 3001 (minimum grade C-).

**MATH 4230 (3) Differential Geometry of Curves and Surfaces**

Introduces the modern differential geometry of plane curves, space curves, and surfaces in 3-dimensional space. Topics include the Frenet frame, curvature and torsion for space curves; Gauss and mean curvature for surfaces; Gauss and Codazzi equations, and the Gauss-Bonnet theorem.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 5230

**Requisites:** Requires prerequisite courses of (MATH 2400 or APPM 2350) and (MATH 2001 or 2002) and (MATH 2130 or MATH 3130 or MATH 2135 or MATH 3135) (all minimum grade C-).

**MATH 4240 (3) Hilbert Spaces and the Mathematics of Quantum Mechanics**

Provides an introduction to Hilbert spaces and their application in quantum mechanics. The primary goal is to prove and understand the so-called spectral theorem, which is crucial for the formulation of quantum mechanics. In addition, some examples from physics will be discussed, such as the quantum harmonic oscillator and the spectrum of the hydrogen atom.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 5240

**Requisites:** Requires prerequisite course of MATH 3001 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MATH 4330 (3) Fourier Analysis**

The notion of Fourier analysis, via series and integrals, of periodic and nonperiodic phenomena is central to many areas of mathematics. Develops the Fourier theory in depth and considers such special topics and applications as wavelets, Fast Fourier Transforms, seismology, digital signal processing, differential equations, and Fourier optics.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 5330

**Requisites:** Requires prerequisite course of MATH 3001 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MATH 4440 (3) Mathematics of Coding and Cryptography**

Gives an introduction, with proofs, to the algebra and number theory used in coding and cryptography. Basic problems of coding and cryptography are discussed.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 5440

**Requisites:** Requires prerequisite course of MATH 2130 or 3130 or MATH 2135 or 3135 (minimum grade C-).

**MATH 4470 (3) Partial Differential Equations**

Studies initial, boundary, and eigenvalue problems for the wave, heat, and potential equations. Solution by separation of variables, Green's function, and variational methods.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 5470

**Requisites:** Requires prerequisite courses of MATH 3430 (minimum grade C-).

**MATH 4510 (3) Introduction to Probability Theory**

Studies axioms, combinatorial analysis, independence and conditional probability, discrete and absolutely continuous distributions, expectation and distribution of functions of random variables, laws of large numbers, central limit theorems, and simple Markov chains if time permits.

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 3570 or ECEN 3810 or MATH 3510 MATH 5510

**Requisites:** Requires prerequisite courses of (MATH 2400 or APPM 2350) and (MATH 2130 or 3130 or MATH 2135 or 3135) (all minimum grade C-).

**MATH 4520 (3) Introduction to Mathematical Statistics**

Examines point and confidence interval estimation. Principles of maximum likelihood, sufficiency, and completeness: tests of simple and composite hypotheses, linear models, and multiple regression analysis if time permits. Analyzes various distribution-free methods.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 5520 and STAT 4520 and STAT 5520

**Requisites:** Requires prerequisite course of MATH 4510 or APPM 3570 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MATH 4530 (3) Theoretical Foundations of Data Science**

Introduces theoretical concepts from mathematics, statistics, and computer science required to understand and analyze data. Topics include randomized algorithms, machine learning, streaming, sketching, clustering, random matrices and graphs, graphical models and compressed sensing.

**Requisites:** Requires prerequisite courses of (MATH 2130 or MATH 2135) and MATH 4510 (minimum grade C-).

**MATH 4540 (3) Introduction to Time Series**

Studies basic properties, trend-based models, seasonal models, modeling and forecasting with ARIMA models, spectral analysis and frequency filtration.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 5540 and STAT 4540 and STAT 5540

**Requisites:** Requires prerequisite course of MATH 4520 or APPM 4520 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MATH 4650 (3) Intermediate Numerical Analysis 1**

Focuses on numerical solution of nonlinear equations, interpolation, methods in numerical integration, numerical solution of linear systems, and matrix eigenvalue problems. Stresses significant computer applications and software. Department enforced prerequisite: knowledge of a programming language.

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 4650

**Requisites:** Requires a prerequisite course of MATH 3430 or APPM 2360 and APPM 3310 (minimum grade C-).

**MATH 4730 (3) Set Theory**

Studies in detail the theory of cardinal and ordinal numbers, definition by recursion, the statement of the continuum hypothesis, simple cardinal arithmetic and other topics chosen by the instructor.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 5730

**Requisites:** Requires prerequisite courses of MATH 3001 or MATH 3110 or MATH 3140 or MATH 3170 or MATH 3210 or MATH 3510 or MATH 4230 (all minimum grade C-).

**MATH 4805 (1) Mathematical Teacher Training: Inclusive Pedagogy**

Designed to train students to teach mathematics in an inclusive, multicultural environment. Students teach a math course within the McNeill Academic Program (Student Academic Services Center) meeting weekly with faculty and colleagues to learn to re-design curriculum, fine-tune pedagogical practices, create assessments, mentor undergraduate instructor assistants and create an inclusive classroom environment. Department enforced restriction: experience with college-level instruction.

**Repeatable:** Repeatable for up to 4.00 total credit hours.

**Requisites:** Restricted to students with 87-180 credits (Seniors) or graduate students only.

**MATH 4810 (1-3) Special Topics in Mathematics**

Covers various topics not normally covered in the curriculum. Offered intermittently depending on student demand and availability of instructors.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 5810

**Repeatable:** Repeatable for up to 7.00 total credit hours.

**MATH 4820 (3) History of Mathematical Ideas**

Examines the evolution of a few mathematical concepts (e.g., number, geometric continuum, or proof), with an emphasis on the controversies surrounding these concepts. Begins with Ancient Greek mathematics and traces the development of mathematical concepts through the middle ages into the present.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 5820

**Requisites:** Prerequisite courses of MATH 2001 or MATH 2002 and one of the following: MATH 3001, 3110, 3120, 3140, 3170, 3210, 3430, 3450, 3510, 3850, 4000, 4001, 4120, 4140, 4200, 4230, 4330, 4440, 4510, 4520, 4540, 4650, or 4660 (all min grade C-).

**Recommended:** completion of upper division Written Communication requirement.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**MATH 4890 (1-3) Honors Independent Study**

Offered for students doing a thesis for departmental honors.

**Additional Information:** Arts Sciences Honors Course

**MATH 4900 (1-3) Independent Study**

**Repeatable:** Repeatable for up to 6.00 total credit hours.

## Mathematics - Bachelor of Arts (BA)

The undergraduate degree in mathematics emphasizes knowledge and awareness of:

- Calculus of several variables and vector analysis.
- The structure of mathematical proofs and definitions.
- Basic linear algebra and the theory of vector spaces.
- Basic real analysis of one variable.
- At least one additional specialized area of mathematics.

In addition, students completing a degree in mathematics are expected to acquire the ability and skills to:

- Move from concrete to abstract thinking and back with facility.
- Recognize patterns and connections between areas of mathematics and between mathematics and other subjects.
- Organize and construct a logical argument, provide evidence to support arguments and articulate arguments clearly and succinctly, both verbally and in writing.

## Program Tracks

The mathematics program offers five tracks that lead to the BA degree. All five tracks require Calculus 1, Calculus 2, Calculus 3, MATH 2001, MATH 2135 and MATH 3001.

### Comprehensive Track

The comprehensive track emphasizes theoretical mathematics, and is aimed at students seeking a general background in mathematics or intending to pursue graduate work in mathematics.

### Applicable Track

The applicable track is aimed at students seeking a background in applied and/or applicable mathematics.

### Secondary Education Track

The secondary education track is designed to align with the Colorado licensure requirements for mathematics secondary education, and the university does offer a program for obtaining secondary education mathematics teaching licensure.

### Computational Track

The computational track is designed for students with an interest in the intersection of mathematics and computer science.

### Statistics Track

The statistics track is designed for students seeking a background in statistics and/or data science.

## Requirements

### Program Requirements

To earn a BA in mathematics, a student must complete the general requirements of the College of Arts and Sciences, as well as the six mathematics core courses and the five additional courses for one of the five tracks (described on the Program Tracks tab).

Students must earn a grade of C- or better in each of the mathematics core courses and the five additional courses, and have at least a C average for all attempted work in mathematics.

### Required Core Courses

The following courses are required of all mathematics majors, regardless of track.

Code	Title	Credit Hours
<b>Required Courses</b>		
MATH 1300 or MATH 1310 or APPM 1350	Calculus 1 Calculus for Life Sciences Calculus 1 for Engineers	4-5
MATH 2300 or APPM 1360	Calculus 2 Calculus 2 for Engineers	4-5
MATH 2400	Calculus 3	4-5

or APPM 2350	Calculus 3 for Engineers	
MATH 2001	Introduction to Discrete Mathematics	3
or MATH 2002	Number Systems: An Introduction to Higher Mathematics	
MATH 2135	Introduction to Linear Algebra for Mathematics Majors	3
MATH 3001	Analysis 1	3
<b>Program Track Coursework</b>		<b>15-16</b>
<b>Total Credit Hours</b>		<b>36-40</b>

## Program Tracks

### Comprehensive Track

Aimed at students seeking a general background in mathematics or intending to pursue graduate work in mathematics, in addition to the coursework required of all mathematics majors, the comprehensive track requires the following courses.

#### Required Courses and Credits

Code	Title	Credit Hours
<b>Required Courses</b>		
MATH 3140	Abstract Algebra 1	3
MATH 4140	Abstract Algebra 2	3
or MATH 4001	Analysis 2	
<b>Electives</b>		
Three upper-division MATH or approved APPM courses (at least one at the 4000-level)		9
<b>Total Credit Hours</b>		<b>15</b>

### Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress," as it is used here, refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in mathematics, students should meet the following requirements.

- By the beginning of the second semester, declare the major.
- By the end of the fourth semester, complete Calculus 1, Calculus 2, Calculus 3, MATH 2001 or MATH 2002, MATH 2135, and MATH 3001.
- By the end of the sixth semester, complete MATH 3140, MATH 4140 or MATH 4001, and one additional approved MATH or APPM course.
- By the end of the eighth semester, complete the major.

### Applicable Track

Aimed at students seeking a background in applied and/or applicable mathematics, in addition to the coursework required of all mathematics majors, the applicable track requires the following courses.

#### Required Courses and Credits

Code	Title	Credit Hours
<b>Required Courses</b>		
MATH 4510	Introduction to Probability Theory	3
MATH 3430	Ordinary Differential Equations	3
MATH 4520	Introduction to Mathematical Statistics	3
or MATH 4470	Partial Differential Equations	

#### Electives

Two upper-division MATH or approved APPM courses	6
<b>Total Credit Hours</b>	<b>15</b>

### Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress," as it is used here, refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in mathematics, students should meet the following requirements.

- By the beginning of the second semester, declare the major.
- By the end of the fourth semester, complete Calculus 1, Calculus 2, Calculus 3, MATH 2001 or MATH 2002, MATH 2135, and MATH 3001.
- By the end of the sixth semester, complete MATH 4510, MATH 3430, and either MATH 4520 or MATH 4470.
- By the end of the eighth semester, complete the major.

### Secondary Education Track

Aimed at students intending to teach mathematics at the secondary level, in addition to the coursework required of all mathematics majors, the secondary education track requires the following courses.

#### Required Courses and Credits

Code	Title	Credit Hours
<b>Required Courses</b>		
MATH 3110	Introduction to Theory of Numbers	3
or MATH 3140	Abstract Algebra 1	
MATH 3120	Functions and Modeling	3
MATH 3210	Euclidean and Non-Euclidean Geometry	3
MATH 3510	Introduction to Probability and Statistics	3
MATH 4820	History of Mathematical Ideas	3
<b>Total Credit Hours</b>		<b>15</b>

*Note:* Completion of the secondary education track does not provide the student a teaching license.

### Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress," as it is used here, refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in mathematics, students should meet the following requirements.

- By the beginning of the second semester, declare the major.
- By the end of the fourth semester, complete Calculus 1, Calculus 2, Calculus 3, MATH 2001 or MATH 2002, MATH 2135, MATH 3001, and MATH 3120.
- By the end of the sixth semester, complete MATH 3510, MATH 3210, and either MATH 3110 or MATH 3140.
- By the end of the eighth semester, complete the major.

### Computational Track

Aimed at students interested in both mathematics and computation, in addition to the coursework required of all mathematics majors, the computational track requires the following courses.

**Ancillary Courses**

Code	Title	Credit Hours
<b>Ancillary Courses</b> <sup>1</sup>		
CSCI 1300	Computer Science 1: Starting Computing	4
CSCI 2270	Computer Science 2: Data Structures	4
<b>Total Credit Hours</b>		<b>8</b>

<sup>1</sup> CSCI 1300 and CSCI 2270 do not count toward hours in the major and are not part of the major GPA.

**Required Courses and Credits**

Code	Title	Credit Hours
<b>Required Courses</b>		
CSCI 3104	Algorithms	4
MATH 3430	Ordinary Differential Equations	3
MATH/APPM 4650	Intermediate Numerical Analysis I	3
<b>Electives</b>		
Two MATH or approved APPM or approved CSCI courses, at least one of which must be at the 4000-level.		6
<b>Total Credit Hours</b>		<b>16</b>

**Graduating in Four Years**

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress," as it is used here, refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in mathematics, students should meet the following requirements.

- By the beginning of the second semester, declare the major.
- By the end of the fourth semester, complete Computer Science 1, Computer Science 2, Calculus 1, Calculus 2, Calculus 3, MATH 2001 or MATH 2002, MATH 2135, and MATH 3001 .
- By the end of the sixth semester, complete CSCI 3104, MATH 3430, MATH 4650/APPM 4650 and one of the additionally required upper-division MATH classes.
- By the end of the eighth semester, complete the major.

**Statistics Track**

Aimed at students seeking a background in statistics and/or data science, in addition to the coursework required of all mathematics majors, the statistics track requires the following courses.

**Required Courses and Credits**

Code	Title	Credit Hours
<b>Required Courses</b>		
MATH 4510	Introduction to Probability Theory	3
MATH 4520	Introduction to Mathematical Statistics	3
MATH 4540	Introduction to Time Series	3
<b>Electives</b>		
Two of the following courses:		6
APPM 4560	Markov Processes, Queues, and Monte Carlo Simulations	
APPM 4590		
MATH 6550	Introduction to Stochastic Processes	
STAT 4000	Statistical Methods and Application I	

STAT 4010	Statistical Methods and Applications II	
STAT 4610	Statistical Learning	
<b>Total Credit Hours</b>		<b>15</b>

**Graduating in Four Years**

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress," as it is used here, refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in mathematics, students should meet the following requirements.

- By the beginning of the second semester, declare the major.
- By the end of the fourth semester, complete Calculus 1, Calculus 2, Calculus 3, MATH 2001 or MATH 2002, MATH 2135, and MATH 4510.
- By the end of the sixth semester, complete MATH 3001, MATH 4520, and MATH 4540.
- By the end of the eighth semester, complete the major.

**Recommended Four-Year Plan of Study**

Through the required coursework for the major, students will complete the QRMS component of the Gen Ed Skills Requirement and, depending on the track of study, potentially some credit hours in the Natural Sciences and Arts & Humanities areas of the Gen Ed Distribution Requirement.

**Year One**

Fall Semester	Credit Hours	
MATH 1300	Calculus 1	5
Gen. Ed. Distribution/diversity course (example: Social Sciences/Global Perspective)		3
Gen. Ed. Skills course (example: Lower-division Written Communication)		3
Elective		3
<b>Credit Hours</b>		<b>14</b>

**Spring Semester**

MATH 2300	Calculus 2	5
Gen. Ed. Distribution course (example: Natural Sciences with Lab)		4
Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/US Perspective)		3
Elective		3
<b>Credit Hours</b>		<b>15</b>

**Year Two**

Fall Semester	Credit Hours	
MATH 2400	Calculus 3	5
MATH 2001 or MATH 2002		3
Introduction to Discrete Mathematics or Number Systems: An Introduction to Higher Mathematics		
Gen. Ed. Distribution course (example: Natural Sciences)		3
Elective		3
Elective		3
<b>Credit Hours</b>		<b>17</b>

**Spring Semester**

MATH 2135	Introduction to Linear Algebra for Mathematics Majors	3
-----------	---	---

Gen. Ed. Distribution course (example: Natural Sciences)	3
Gen. Ed. Distribution course (example: Social Sciences)	3
Elective	3
Elective	3
<b>Credit Hours</b>	<b>15</b>
<b>Year Three</b>	
<b>Fall Semester</b>	
MATH Upper Division Elective	3

## Bachelor's–Accelerated Master's Degree Program(s)

The bachelor's–accelerated master's (BAM) degree program options offer currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first but begin taking graduate coursework as undergraduates (typically in their senior year).

Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree. In addition, staying at CU Boulder to pursue a bachelor's–accelerated

master's program enables students to continue working with their established faculty mentors.

## BA in Mathematics, MA in Mathematics or MS in Applied Mathematics

Each of the BAM degree programs offered by the Department of Mathematics allows highly motivated and successful students to experience graduate-level coursework earlier in their education than would otherwise be possible, and also allows them to obtain a master's degree in a reduced time period. Students are allowed to count 6 hours of graduate-level mathematics department coursework towards both their undergraduate and graduate degree requirements.

### Admissions Requirements

In order to gain admission to the BAM programs named above, a student must meet the following criteria:

- Have a cumulative GPA of 3.0 or higher.
- Have completed a minimum of 45 credit hours of coursework.
- If a transfer student, have completed a minimum of 24 credit hours at CU Boulder.
- Have completed a minimum of two upper-division courses from the Department of Mathematics.

The earliest admission to the program is after the successful completion of at least total 45 credit hours and a minimum of two upper-division courses from the Department of Mathematics. Students must have at least one year of coursework remaining towards the completion of their undergraduate degree in order to be admitted to the program. Students admitted to the program may not pursue a double degree or a double major; however, outside minors are allowed.

### Program Requirements

Students may take up to and including 12 hours while in the undergraduate program which can later be used toward the master's degree. However, only 6 credits may be double counted toward the bachelor's degree and the master's degree. Students must apply to graduate with the bachelor's degree, and apply to continue with the master's degree, early in the semester in which the undergraduate requirements will be completed.

If you are interested in the BAM degree program, please contact the mathematics graduate program for more information.

## Mathematics - Minor

The undergraduate minor in mathematics emphasizes knowledge and awareness of:

- Calculus of several variables and vector analysis.
- The structure of mathematical proofs and definitions.
- Basic linear algebra and the theory of vector spaces.
- At least one additional specialized area of mathematics.

## Requirements

Declaration of a minor in mathematics is open to any student enrolled at CU Boulder, regardless of college or school.

To earn a minor in mathematics, students must complete the following courses with a grade of C- or better in each course (no pass/fail work may be applied), and they must have at least a C (2.00) average for all attempted work in mathematics. Students are allowed to apply no more

than 9 credit hours, including 6 upper-division credit hours, of transfer work toward a minor.

## Required Courses and Credit Hours

Code	Title	Credit Hours
<b>Required Courses</b>		
MATH 1300 or APPM 1350	Calculus 1 Calculus 1 for Engineers	4-5
MATH 2300 or APPM 1360	Calculus 2 Calculus 2 for Engineers	4-5
MATH 2400 or APPM 2350	Calculus 3 Calculus 3 for Engineers	4-5
MATH 2001 or MATH 2002	Introduction to Discrete Mathematics Number Systems: An Introduction to Higher Mathematics	3
MATH 2130 or MATH 2135	Introduction to Linear Algebra for Non-Mathematics Majors Introduction to Linear Algebra for Mathematics Majors	3
<b>Electives</b>		
Three upper-division MATH courses (at least one at the 4000-level)		9
<b>Total Credit Hours</b>		<b>27-30</b>

## Medieval and Early Modern Studies

To the Middle Ages the modern world owes the preservation and transmission of Latin and Greek; the development of a host of vernaculars; the evolution of Judaism and Christianity, and the rise of Islam; the renewed study of Roman law; the growth of a mercantile class; the creation of musical notation; the erection of ecclesiastical monuments; the foundations of constitutional government; and the institution of universities. The early modern period inherited and elaborated all these institutions and inventions, adapting them to fit new conceptions of man (and woman), church and state.

The Center for Medieval and Early Modern Studies is founded on the convictions that the period from c. 400 to c. 1800, conceived in a global context, is a dynamic cultural continuum and ever-evolving system; that study of both periods in tandem sheds new light on each; and that the unity and diversity of the premodern world can be understood and appreciated only from an interdisciplinary perspective. Medieval and Early Modern Studies therefore crosses boundaries of period, nation, language and discipline, and the center's prime function is to facilitate and encourage interdepartmental study and teaching.

Courses throughout the curriculum are available to students whose area of specialization within a given department is the medieval and/or early modern period(s) and who wish to broaden their knowledge of the cultures of the period. With the approval of the major department, a coherent group of these courses may be accepted as a related program of study and as part of the requirements for an undergraduate degree. For additional details concerning these courses, see departmental listings.

For more information, visit the Center for Medieval and Early Modern Studies (<https://www.colorado.edu/cmems/>) website.

**Course code for this program is MEMS.**

## Certificate

- Medieval and Early Modern Studies - Certificate (p. 480)

## Courses

**MEMS 2020 (3) Introduction to Medieval and Renaissance Studies**  
Introduces students to the literature, history, culture and art of Europe and the Mediterranean basin from late antiquity through the renaissance. The course is interdisciplinary and focuses on topics which reveal the dynamism and diversity of pre-modern culture.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**MEMS 4020 (3) Medieval and Early Modern Studies: Texts and Contexts**  
Focuses on communities in the Mediterranean basin and Europe (i.e., cloister, court and city), discussing major literary texts and visual monuments associated with them and their historical context.

Emphasizes tensions between tradition and innovation, Latin and vernacular, East and West, Christian and non-Christian (Jewish and Islam), sacred and secular, authority and freedom and male and female.

**Equivalent - Duplicate Degree Credit Not Granted:** MEMS 5020

**Requisites:** Requires a prerequisite course of CLAS 1110 and CLAS 1120 and ENGL 2503 or HIST 1011 and HIST 1012 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**MEMS 4030 (3) Medieval and Early Modern Studies: Special Topics**  
Different topics offered by the faculty of the Medieval and Early Modern Studies Program in alternate semesters. Topics may include the literature of pilgrimage and travel, women and minorities, theatre, music, epic, medieval and early modern views of the classics, the Bible, and medieval and early modern theories of education.

**Equivalent - Duplicate Degree Credit Not Granted:** MEMS 5030

**Requisites:** Requires a prerequisite course of CLAS 1110 and CLAS 1120 and ENGL 2503 or HIST 1011 and HIST 1012 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

## Medieval and Early Modern Studies - Certificate

Students who pursue the medieval and early modern studies (MEMS) certificate are free to take a variety of courses offered in numerous departments across the CU Boulder campus. In consultation with the CMEMS director, each student can tailor the certificate to meet their intellectual interests in the study of premodern Europe and its global influence. Students usually earn the certificate in tandem with a BA degree in history, classics or English, and find the analytical and linguistic skills particularly useful for graduate work in history and law.

## Requirements

Students must complete at least 24 credits of approved coursework, as follows.

### Required Courses and Credits

Code	Title	Credit Hours
Select one of the following lower-division introductory survey courses:		
ARTH 1300		3
ARTH 1400		
HIST 1011	Greeks, Romans, Kings & Crusaders: European History to 1600	

HUMN 1110	Introduction to Humanities: Literature 1	
HUMN 1120	Introduction to Humanities: Literature 2	
HUMN 1210	Introduction to Humanities: Art and Music 1	
HUMN 1220	Introduction to Humanities: Art and Music 2	
Senior-level seminar:		3
MEMS 4030	Medieval and Early Modern Studies: Special Topics (or equivalent) <sup>1</sup>	
Capstone Seminar:		3
MEMS 4020	Medieval and Early Modern Studies: Texts and Contexts (or equivalent) (with a minimum grade of B) <sup>1</sup>	
Five electives, at least four of which must be upper-division and two of which must be in disciplines other than the student's major		15
<b>Total Credit Hours</b>		<b>24</b>

<sup>1</sup> Substitutions for MEMS 4020 and MEMS 4030 may be made the discretion of the MEMS advisor or faculty chair.

## Molecular, Cellular and Developmental Biology

The undergraduate program in molecular, cellular and developmental biology (MCDB) is directed toward understanding the molecular and cellular mechanisms that provide the basis for biological structure, growth, evolution, embryonic development and genetic inheritance. Undergraduate majors learn about the scientific method, experimental approaches and groundbreaking discoveries that have made modern molecular and cellular biology such an important force in medicine, agriculture and the growing biotechnology industry. They also learn about the diverse tools of modern biology, including recombinant DNA, genomic mapping, transgenic organisms, gene targeting, analysis of mutants, biochemical purification, antibody probes, laser manipulation of living cells, light and electron microscopy, and computer modeling. In addition to academic and laboratory classes, MCDB majors have many opportunities to participate in ongoing research in the department.

Learn how living systems operate at the cellular and molecular levels of organization, their assembly and structure, with heavy emphasis on genetic information and regulation, including embryonic development.

**Course code for this program is MCDB.**

## Animal Use Policy

Biology is the science of life, and a major in it must include some hands-on experience with living organisms to be complete. Exercises involving the use of living animals or animal tissues are included, therefore, in MCDB laboratory courses. Majors with objections on moral grounds may arrange to limit their participation in these exercises, although their educational experience is compromised by doing so.

Nonmajors may take MCD biology lecture courses without the accompanying laboratories. Laboratory courses in which living vertebrate animals or tissues are used are identified in the course description section of this catalog. For additional information, please contact the department.

## Bachelor's Degree

- Molecular, Cellular and Developmental Biology - Bachelor of Arts (BA) (p. 494)

## Minor

- Molecular, Cellular and Developmental Biology - Minor (p. 497)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

## Courses

### MCDB 1020 (1) Introduction to Molecular, Cellular and Developmental Biology Major

Introduces students to the Molecular and Cellular Biology major. Provides an overview of the major and how it differs from other CU biology programs; how to get involved in clubs, research, and/or internship opportunities; strategies for succeeding in MCDB courses; and career options. This is a first-year colloquium course specifically designed for freshman and other students exploring their educational and career opportunities in our department.

**Recommended:** New MCDB majors.

### MCDB 1030 (3) Introduction to Molecular Biology

Introduces the foundation of molecular, cell, developmental and evolutionary biology in the context of human development and disease. Including how the immune system works to protect us from infections and technologies being developed towards the goal of better health around the world. For nonmajors.

**Additional Information:** GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab

Arts Sci Core Curr: Natural Science Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences  
MAPS Course: Natural Science

### MCDB 1041 (3) Fundamentals of Human Genetics

Covers the basic principles of genetics, human pedigree analysis, and how genetic diseases affect DNA, RNA, and proteins. Considers implications of this research for medicine and society. For nonmajors.

**Recommended:** Requisite good background in high school chemistry and biology.

**Additional Information:** GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab

Arts Sci Core Curr: Natural Science Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences  
MAPS Course: Natural Science

### MCDB 1043 (1) Exploring Genetics Laboratory

Provides hands-on experience with fundamental genetic principles. Topics include scientific method, experimental design, mitosis, meiosis, classical genetics, molecular genetics, mutagenesis, DNA analysis, and transgenic organisms. Wherever possible, the focus of the lab will be on integrating science process skills with human-relevant experiments to encourage students to learn and apply science skills while seeing the application to humans.

**Requisites:** Restricted to Biological Sciences (MCDB) non-majors only.

**Recommended:** Corequisite MCDB 1041.

**Additional Information:** Arts Sci Core Curr: Natural Science Lab  
Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences  
MAPS Course: Natural Science Lab or Lab/Lec

### MCDB 1111 (3) Core Concepts in Biology I: Evolutionary, Molecular and Cell Biology

Web-based, in-class discussion course covering the fundamental properties shaping living systems. Uses evolutionary (including social) and physical-chemical mechanisms to frame molecular, cellular and organismic processes. Interpreting and answering questions scientifically as well as quantitative reasoning skills are stressed. Fulfills the MCDB major's requirement for MCDB 1150.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 1150

**Additional Information:** Arts Sci Core Curr: Natural Science Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences  
MAPS Course: Natural Science

### MCDB 1150 (3) Introduction to Cellular and Molecular Biology

Covers biologically important macromolecules and biological processes, together with an introduction to cell structure, function, and physiology. Provides the foundation for advanced MCDB courses to majors, and a rigorous overview of modern biology to non-majors.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 1111

**Recommended:** Prerequisite high school chemistry and algebra, and recommended corequisite of MCDB 1152.

**Additional Information:** GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab

Arts Sci Core Curr: Natural Science Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences  
MAPS Course: Natural Science Lab or Lab/Lec

### MCDB 1152 (1) Problem Solving Co-Seminar for Introduction to Molecular and Cellular Biology

Uses problem solving and other interactive group work to aid student learning in a corequisite course, MCDB 1150. Students will work in small groups on learning and practicing how to solve difficult conceptual problems, as well as using hands-on activities and concept mapping to help learn content.

**Recommended:** Corequisite MCDB 1150.

### MCDB 1161 (2) From Dirt to DNA: Phage Genomics Laboratory I

Provides laboratory experience working on a bacteriophage genomics research project. Students will study novel bacteriophage they isolate from the environment. Topics covered include phage biology, bacteria and phage culturing and amplification, DNA isolation, restriction digest analysis, agarose gel electrophoresis, and electron microscopy.

**Recommended:** Prerequisites or corequisites: MCDB 1150 or EBIO 1210.

**Additional Information:** Arts Sci Core Curr: Natural Science Lab  
Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences  
MAPS Course: Natural Science Lab or Lab/Lec

### MCDB 1171 (2) Antibiotics Discovery Through Hands-on Screens I

Provides introductory research and laboratory experience. Students will work in teams to screen small molecule libraries for novel antibiotics using the bacterium Salmonella as a model system. Topics covered include the basic biology of the model system, genetics, approaches to screening for new therapeutics, statistical analysis of the data, compound verification and lead compound development.

**Recommended:** Prerequisite or corequisite MCB 1150 or EBIO 1210.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Core Curr: Natural Science Lab  
Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences  
MAPS Course: Natural Science Lab or Lab/Lec

**MCDB 1181 (2) Biological Probiotic/Drug Discovery Through Hands-on Screens**

Provides introduction to research and laboratory experience. Students will work in teams to screen novel mycobacterial strains for use as probiotics or immunoregulatory/anti-inflammatory drugs using THP-1 cells, a human monocytic cell line. Topics covered include the hygiene or "Old Friends" hypothesis, the human microbiome, approaches to screening for new probiotics of therapeutics and statistical analysis of the data.

**Equivalent - Duplicate Degree Credit Not Granted:** IPHY 1181

**Grading Basis:** Letter Grade

**MCDB 1234 (1-9) Skills Center. Modular Laboratory of Modern Molecular Biology Skills**

Dedicated to teaching students fundamental laboratory skills in modern molecular biology. The skills are updated on a rolling basis in consultation with MCDB faculty and local Pharma/Biotech companies in an effort to provide students with real world skills that can help them transition from a traditional lab course environment to a more independent research environment. Students can mix and match various skills to receive one or more university credit hours and students who successfully complete a module are given a certificate recognizing their competency. Available skills modules and in more course information can be found at <https://skillscenter.colorado.edu/>

**Repeatable:** Repeatable for up to 15.00 total credit hours.

**Grading Basis:** Letter Grade

**MCDB 2150 (3) Principles of Genetics**

Introduces the behavior of genes and chromosomes in eukaryotic and prokaryotic organisms. Covers three areas: transmission genetics, molecular genetics, and population genetics. Attention is given to genetic mapping, recombinant DNA procedures, and gene expression.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 2222

**Recommended:** Prerequisite MCDB 1150 or EBIO 1210 or CHEN 2810 (minimum grade C-) and recommended corequisite of MCDB 2152.

**Additional Information:** GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab

Arts Sci Core Curr: Natural Science Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 2152 (1) Problem Solving Co-Seminars for Genetics**

Uses problem solving and other interactive group work to aid student learning in MCDB 2150. Students will work in small groups on learning and practicing how to solve difficult conceptual problems, as well as using hands-on activities and concept mapping to help learn content.

**Recommended:** Corequisite MCDB 2150.

**MCDB 2161 (2) From DNA to Genes, Phage Genomics Laboratory II**

Provides laboratory experience working on a bacteriophage isolated during the previous semester. Topics include bioinformatics, genome annotation, open reading frame and RNA identification, BLAST analysis, phylogenetics and submission to a genomic database.

**Requisites:** Requires prerequisite course of MCDB 1161 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 2171 (2) Chemotherapeutic Discovery Through Hands-On Screens 2**

Provides introductory research and laboratory experience. Students will work in teams to screen molecule libraries using fruit flies as a model system. Topics covered include the basic biology of the model system, genetics, approaches to screening for new therapeutics, statistical analysis of the data, compound verification and lead compound development.

**Recommended:** Prerequisite or corequisite MCBD 1150 or EBIO 1210.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Core Curr: Natural Science Lab

Arts Sci Gen Ed: Distribution-Natural Sci Lab

Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 2200 (3) Introduction to Biophysical Methods: From Brains to Bonds**

Provides a practical overview of modern biophysical methods used to study biological systems from whole body imaging methods to methods for investigating single molecules and molecular bonds. The goal of this course is to provide a broad survey of methods available to the modern biologist rather than a complete in-depth treatment of the physics and mathematics of each individual method.

**Requisites:** Requires prerequisite course of MCDB 1150 or EBIO 1210 (minimum grade C-).

**MCDB 2222 (3) Core Concepts in Biology II: Genes, Genetics and Phenotypes**

Web-based, in-class discussion course focused on the origins of genetic variation and inheritance, genome dynamics and gene expression and their relationship to phenotype(s). Interpreting, explaining and answering questions scientifically as well as quantitative reasoning are stress.

Course fulfills the departmental requirement for MCDB 2150.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 2150

**Requisites:** Requires a prerequisite course of MCDB 1111 or MCDB 1150 (minimum grade C-).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Core Curr: Natural Science Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 2350 (3) Understanding Cancer: Introduction to the disease's biology, medicine, and societal implications**

A course for students who want to learn about cancer but have little or no background in biology. It is based on a text that presents relevant science and medicine in a readable and comprehensible way. Classes will be discussion of material from the text with weekly quizzes for feedback. The ethics and economics of cancer treatments will be discussed, along with ways to minimize one's own cancer risk and live with cancer if necessary.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 2840 (1-3) Lower-Division Independent Study**

Students with adequate prerequisites should take MCDB 4840.

**Repeatable:** Repeatable for up to 8.00 total credit hours.

**MCDB 3000 (3) Synthetic Biology: Engineering Biomolecular Systems in the Laboratory**

Hands-on research experience in engineering biological systems. Students will design biological systems to address relevant medical and environmental problems facing our society. They will learn how to build their molecular designs in the lab using current synthetic biology techniques. Students will also learn how to critically evaluate current research in the field and effectively communicate their own research. Formerly offered as a special topics course.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite courses of (MCDB 1150 and MCDB 2150) or CHEN 2810 (all minimum grade C).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab

**MCDB 3001 (3) Advanced Synthetic Biology: Engineering Biomolecular Systems in the Laboratory**

This course in engineering biological systems is an extension of the hands-on research experience gained from MCDB 3000 and meant to take following completion of MCDB 3000. Students designed biological systems to address relevant medical and environmental problems facing our society in MCDB 3000. Engineering biological system in the lab often takes longer than one semester. MCDB 3001 teaches students new laboratory techniques that will allow them to take more involved projects to the next step and gain more confidence in the laboratory.

**Requisites:** Requires prerequisite course of MCDB 3000 (minimum grade C-).

**Recommended:** BCHM, ENGR and BCHM majors only.

**MCDB 3010 (2) Undergraduate Teaching in Course-Based Undergraduate Research Experiences**

To address the need for more advanced and continued participation in course-based research, MCDB 3010 is designed to train students who have taken MCDB 1171 or MCDB 2171 or MCDB 4202 as teaching assistants. The aim is to enhance the students' experience and responsibilities in course-based research and to prepare them for research and mentorship in a departmental or graduate laboratory.

**Repeatable:** Repeatable for up to 4.00 total credit hours.

**Requisites:** Requires prerequisite course of MCDB 1171 or MCDB 2171 or MCDB 1161 or MCDB 4202 (minimum grade B).

**Grading Basis:** Letter Grade

**MCDB 3020 (1) Next Steps: Preparing for Life After Graduation**

Helps upper-division students prepare for what comes after graduation. Topics include exploring careers; how to write a resume or CV; interviewing tips; how to build your portfolio; asking for letters of recommendations. This course is specifically designed for juniors starting to prepare for the next stage post-graduation.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 3020 and IPHY 3020

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Grading Basis:** Pass/Fail

**MCDB 3105 (3) Antibiotics: Functions and Failures**

Learn about treatments for infectious diseases, how the first antibiotics were discovered, where they come from, how and why they work, and how resistance develops. Understand how antibiotics make modern medicine possible. Explore ways clinicians minimize the spread of resistance to antibiotics. Examine how new antibiotics and other approaches to treating infection are being developed.

**Requisites:** Requires prerequisite course of MCDB 2150 (minimum grade C).

**Grading Basis:** Letter Grade

**MCDB 3135 (3) Molecular Biology**

Examines the central dogma of biology by discussing the most important molecules in cells (DNA, RNA and protein) and how their synthesis (DNA replication, transcription, RNA processing and translation) is regulated. Incorporated into the discussion is how recombinant DNA techniques are used to discover and dissect cellular processes, how to design and interpret experiments, and understanding the limits of experiments to draw conclusions.

**Requisites:** Requires prerequisite courses of MCDB 2150 or EBIO 2070 and CHEM 1113 or CHEM 1400 or CHEN 1201 or CHEN 1211 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 3140 (2) Cell Biology Laboratory**

Provides laboratory experience using microscopy, bioinformatics, DNA isolation, PCR and gel electrophoresis to study cell biology and gene expression in a model organism. Students will learn research skills such as interpreting data and planning experiments.

**Recommended:** Corequisite MCDB 3135 or MCDB 3145.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab

Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 3145 (3) Cell Biology**

Examines intracellular mechanisms, including transport of ions and small molecules across membranes; protein targeting to organelles; membrane trafficking between organelles; signal transduction; the cytoskeleton; and the cell cycle.

**Requisites:** Requires prerequisite courses of (MCDB 2150 or EBIO 2070) and (CHEM 1113 or CHEM 1400 or CHEN 1211) (all minimum grade C-).

**Recommended:** Prerequisite or corequisite MCDB 3140 concurrent with either this class or MCDB 3135.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 3150 (3) Biology of the Cancer Cell**

Highlights dimensions of the cancer problem; cancer as a genetic/cellular disease; chemicals, viruses, and radiation as causes of cancer; cancer and diet; cancer epidemiology; cancer risk factors; proto-oncogenes, oncogenes, and cancer suppressor genes; and prevention of cancer.

**Recommended:** Prerequisite MCDB 2150 or EBIO 2070 (minimum grade C-).

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 3160 (3) Infectious Disease**

Illustrate how cutting edge tools in genomics can be used to study, monitor and cure disease caused by new and re-emerging human pathogens such as SARS/MERS, Ebola virus, Neisseria meningitides, influenza virus and malaria parasites. Technologies covered will include genome sequencing, annotation, transcriptomics, phylogenetics and genotyping of microbial populations. An integrated approach to this topic will be presented, with these concepts threaded throughout: natural history and evolution of pathogens, molecular biology, immunology, epidemiology, public health and clinical diagnosis. There may be some overlap with material covered in MCDB 1030 and MCDB 4750.

**Requisites:** Requires prerequisite course of MCDB 2150 or EBIO 2070 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 3161 (2) From DNA to Genes, Phage Genomics Laboratory II**

Provides in-silico laboratory experience annotating bacteriophage genomes from bacteriophages that were isolated in MCDB 1161. Topics include genome annotation, predicting gene functions using BLAST and HHPred, independent research, scientific writing, and preparation of an annotation file that will be submitted to a public genome database.

**Requisites:** Requires prerequisite course of MCDB 1161 (minimum grade C-).

**MCDB 3171 (2) Advanced Discovery Based Lab - Antibiotics**

Provides students an opportunity to expand upon the research they performed in the introductory level course, Drug Discovery Through Hands on Screens I (MCDB 1171). Students will work in teams to validate potential antibiotics against human pathogens. Topics include hit validation, dose response, mechanism of action, applied statistical analysis, and an introduction to the primary literature.

**Repeatable:** Repeatable for up to 4.00 total credit hours.

**Requisites:** Requires prerequisite course of MCDB 1171 (minimum grade C-).

**Grading Basis:** Letter Grade

**MCDB 3181 (3) Microbial Planet Laboratory**

Provides beginner friendly lab & research experience working on a microbiology project. The course teaches how to conduct original scientific research from hypothesis to experimentation, evaluation and reporting. Students study non-pathogenic microorganisms they isolate themselves from nature as part of the course. Hands-on topics covered in class include how to isolate & culture new microbes; how to observe, describe and classify them; and how to examine their metabolic capabilities such as the production of antibiotics.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOL 3181

**Requisites:** Requires prerequisite courses of CHEM 1113 and CHEM 1114 or CHEM 1400 and CHEM 1401 (all minimum grade C-).

**Recommended:** Prerequisite GEOL 1180 or MCDB 1150 or EBIO 1210.

**MCDB 3300 (3) Personalized Medicine - Recent Advances in Diagnostics and Therapeutics**

Time for personalized medicine is now. Attempts to learn from and put the patient/person back into the equation because personalized medicine, at its worst, does nothing personal at all. Discusses historical perspective, recent advances in molecular biology and medicine (including OMICS) in regards to diagnostics and therapeutics for selected human diseases, and what the future holds for personalized medicine. Guest lectures (medical experts, patients, family members) will further enrich the course.

**Recommended:** Prerequisites MCDB 2150 or EBIO 2070.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 3330 (3) Evolution and Creationism**

Intensive lecture/discussion course on the interrelationships among science, religion, and social policy. Includes historical and scientific development of evolution theory, social Darwinism/sociobiology, and the public perception of science.

**Recommended:** Prerequisite MCDB 1150 or EBIO 1210 (minimum grade C-).

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 3332 (1) Scientific Ethics**

A reading/discussion course on the implications of modern biologically-based technologies, from in vitro fertilization and its variants and issues surrounding these techniques, to genomic testing of embryos and adults, the genetic engineering of organisms, including humans, to issues surrounding communicable diseases and vaccination. Discussion will include a serious consideration of various philosophical and non-scientific perspectives.

**Requisites:** Requires prerequisite course of MCDB 1150 or EBIO 1210 (minimum grade C). Restricted to students with 57-180 credits (Juniors or Seniors).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 3333 (3) Biomedical Innovations and Discoveries**

Discusses how biological inventions and discoveries fuel biomedical innovations, how important techniques in molecular biology have advanced our understanding of cellular processes and contributed to biotechnology revolution and biomedical sciences to benefit our society. Guest lectures from experts in industry and site visits will enhance the course by providing a non-academic perspective, networking opportunities, and unexpected avenues for career paths for our graduates. Department enforced prerequisite: MCDB 2150 or EBIO 2070 or instructor consent.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 3350 (3) Fertility, Sterility, and Early Mammalian Development**

Describes the production of germ cells, ovulation, fertilization, reproductive cycles, controls of reproduction, early development of the embryo, methods of contraception, and causes and treatments of sterility. Recommended for students planning careers in the health sciences.

**Recommended:** Prerequisite MCDB 1150 or EBIO 1210 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 3450 (3) Biological Data Science**

The central function of data science is to extract information from complex datasets. Biology is an increasingly large-data endeavor with health care records, genomics datasets, and extensive imaging. This course will develop core data science skills, including statistical analysis, visualization, data management, machine learning, and modeling.

**Recommended:** Prerequisite MCDB 2150 or EBIO 2070 (minimum grade C-), or exposure to probability theory.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 3456 (1-9) Skills Center: Modular Laboratory of Advanced Modern Molecular Biology Skills**

Dedicated to teaching students fundamental laboratory skills in modern molecular biology. The skills are updated on a rolling basis in consultation with MCDB faculty and local Pharma/Biotech companies in an effort to provide students with real world skills that can help them transition from a traditional lab course environment to a more independent research environment. Students can mix and match various skills to receive one or more university credit hours and students who successfully complete a module are given a certificate recognizing their competency. Available skills modules can be viewed at <https://skillscenter.colorado.edu/>

**Repeatable:** Repeatable for up to 15.00 total credit hours.

**Recommended:** Prerequisite MCDB 1234, MCDB 1150, MCDB 1111 or EBIO 1220.

**Grading Basis:** Letter Grade

**MCDB 3501 (3) Structural Methods for Biological Macromolecules**

Newest developments in cryo-electron microscopy opened new avenues to study cellular and molecular processes with high structural detail. The class will explore the most recent strategies in Structural Biology to study protein structure and function with a special focus on viral host-pathogen interactions and cell infection and its implications to cell function and architecture. The class will be composed of lectures, scientific paper discussions and hands-on problem solving and demonstrations on microscopes and software.

**Recommended:** Prerequisite MCDB 2150 or EBIO 2070 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 3650 (3) The Brain - From Molecules to Behavior**

Examines the molecular basis of the brain's role in thought, action, and consciousness by exploring issues such as relationship of cognition and localized brain function, sensory systems and their role in cognition, learning and memory, and behavioral neurochemistry.

**Recommended:** Prerequisite MCDB 2150 or EBIO 2070 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 3651 (3) The Brain: Dysfunction to Disease**

Misregulation of synaptic function results in abnormal brain function and behavior that is manifested in numerous neurological and psychiatric diseases. Explores the molecular mechanisms responsible for altered synaptic plasticity in neurological diseases such as frontotemporal dementia (FTD), Parkinson's disease, Huntington's disease, Creutzfeldt-Jakob disease, Down syndrome, epilepsy, autism, and Alzheimer's disease.

**Recommended:** Prerequisites MCDB 3650 or NRSC 2100 (minimum grade C-) or instructor consent required.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 3700 (3) Poisons in Cell Biology and Society**

Investigate the inner workings of our cells by studying how poisons disrupt these processes. We will learn how selected poisons affect critical processes inside the cell to cause death or destruction. The scientific aspects of the poison will be discussed in the context of its historical significance or impact on society and popular culture.

**Requisites:** Requires prerequisite course of MCDB 2150 or EBIO 2070 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 3990 (3) Introduction to Systems Biology for Biologists**

Introduces majors with relatively little mathematical experience to the major concepts in systems biology, in the context of key processes (cell growth, division, adaptation, development, and disease). Designed to help students master the necessary mathematical tools involved.

**Recommended:** Prerequisites MCDB 3135 and MCDB 3145 and MATH 1310 (minimum grade C-).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4001 (3) The What, The Why, and The How of Neural Tube Defects**

Neural tube defects (NTDs) involve incomplete neural tube closure in embryos, resulting in embryonic death or lifelong health complications. Students will select a gene from a list of candidate human NTD genes and investigate whether its loss leads to an NTD in chick embryos. This course will train students in CRISPR, cloning, embryology, and "softer" research skills such as publication formatting, with the ultimate goal of supporting students' development as researchers.

**Requisites:** Requires prerequisite course of MCDB 3140 (minimum grade D-).

**Recommended:** Junior or Senior standing.

**MCDB 4100 (1-6) Special Topics**

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Recommended:** Prerequisites MCDB 3135 and MCDB 3145 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4101 (3) Manipulating Genomes-Discovering Gene Functions**

Discover novel gene function in vertebrate embryonic development using the latest gene-editing technology, CRISPR-Cas9. Pick your gene of interest and design experiments to mutate the gene, confirm the mutation and characterize the phenotype. Search scientific databases to learn more about the gene and formulate a hypothesis about the gene function. Discuss and present your findings to your peer and faculty.

**Recommended:** Prerequisites MCDB 3135 and MCDB 3145.

**Grading Basis:** Letter Grade

**MCDB 4105 (3) Function of Cellular and Nuclear, Assemblies, and Machines**

Maintaining cellular functions requires a coordinated interaction of all kinds of organelles, assemblies and machines. This course will explore the structure, function, regulation and interactions of cellular organelles, supramolecular assemblies, and molecular machines (motors, ribosomes, polymerases, channels, etc.). Students will be exposed to a set of lectures and prepare specific papers that will be discussed in the group.

**Grading Basis:** Letter Grade

**MCDB 4111 (3) Experimental Design and Research in Cell and Molecular Biology**

Learning molecular and cell biology experimental design and approaches through independent research projects. Students, working in pairs, will explore the research process and gain extensive first-hand experience in: hypothesis formation; experimental design; solution preparation and experimental methodology; proposal presentation and defense (oral and written); formal presentation of results and conclusions (oral and written in a publication-style format); the publication process; critical reading and evaluation of primary scientific literature.

**Recommended:** Prerequisite MCDB 1150 or EBIO 1210 (minimum grade C-) and recommended corequisite of MCDB 3135.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4150 (3) Biology of Aging and Longevity**

Through lectures and reading assignments, this capstone course will introduce fascinating cellular and molecular mechanisms underlying aging and longevity based on historical and recent research achievements. We will discuss major aging theories and multiple cellular regulatory systems that prominently affect lifespan. The course will integrate basic concepts from multiple other courses by addressing specific physiological problems in the aging field and present students with the opportunity to learn the reasoning process in cutting-edge biomedical research.

**Requisites:** Requires prerequisite courses of (MCDB 1150 or EBIO 1210) AND (MCDB 2150 or EBIO 2070) (minimum grade of C-).

**Recommended:** Prerequisite MCDB 3135 or MCDB 3145 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4185 (3) Geomicrobiology**

Examines how microbial and chemical processes interact on the Earth's surface today and have shaped the planet throughout its history. Emphasis will be placed on how the life styles and chemical ingenuity of microorganisms drive key biogeochemical processes including weathering and transformations of carbon, oxygen, sulfur, iron and nitrogen. Towards this goal, major geologic and evolutionary events will be examined through the lens of microbial diversity, metabolic energetics, microbe-mineral interactions, and molecular biomarkers.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOL 5185, ENVS 4185, and GEOL 4185

**Requisites:** Requires prerequisite courses of CHEM 1113 and CHEM 1114 or CHEM 1400 and CHEM 1401 (minimum grade D-).

**Recommended:** Prerequisites GEOL 1180 or MCDB 1150 or GEOL 3320 or EBIO 3400 or ENVS 4160 or EVEN 4484.

**Grading Basis:** Letter Grade

**MCDB 4201 (3) From Bench to Bedside: The Role of Science in Medicine**

Demonstrates the breadth of research in the life sciences and how such research (not just in medical schools) can lead to medical applications. Lecturers from life sciences, the medical school and biotechnology, discuss drug development and the transfer of research into the clinical arena. Students also prepare a paper and presentation on the development of a commercial drug.

**Recommended:** Prerequisites MCDB 3135 and MCDB 3145 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4202 (3) The Python Project**

Studies how python hearts grow after they consume a meal. Understanding the molecular processes of growth and regression in the python heart could lead to development of therapeutics for heart disease. Students work in groups in the laboratory and generate novel data by using modern molecular biology and bioinformatic techniques to clone and sequence candidate molecules of the python genome. May be repeated once.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Recommended:** Prerequisites MCDB 3135 and MCDB 3145 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4234 (3) Research Methods**

Presents a rigorous and pedagogically coherent introduction into the experimental process used to collect data, formulate hypotheses, and answer scientific questions in general, and biological questions in particular. Includes a detailed consideration of the elements of experimental design, data collection and analysis, and the interpretation of results in the context of effective science teaching. Part of the CU Teach course sequence for teacher certification in science and mathematics.

**Requisites:** Restricted to Biological Sciences (MCDB) majors or School of Education (EDUC) undergraduate students only.

**Recommended:** Prerequisites MCDB 3135 and MCDB 3145 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4300 (3) Immunology**

Emphasizes cellular and molecular mechanisms by which organisms protect themselves from pathogens and the experimental basis for our understanding of these processes. Discusses development, function, and malfunction of t-cells, b-cells and other components of the immune system, focusing on the human immune system.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 5301

**Requisites:** Requires prerequisite courses of MCDB 3135 and MCDB 3145 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4310 (3) Microbial Genetics and Physiology**

Examines the physiology and genetics of bacteria, Archaea and viruses. Particular emphasis will be on metabolism, regulation of gene expression and protein function, mechanisms of interactions with and manipulation of the environment, and evolution in response to environmental pressures.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 5310

**Recommended:** Prerequisites MCDB 3135 and MCDB 3145 (minimum grade C-) and recommended corequisite of CHEM 4611.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4312 (3) Quantitative Optical Imaging**

Explores the fundamentals of optical imaging in biology, especially molecular and cellular biology. Covered topics include an introduction to optics and microscopes, fluorescence microscopy and image analysis, and biological applications. MATLAB will be taught at the beginning of the course and used throughout for image processing. Prior experience with MATLAB (or Python) is highly recommended but not required.

**Equivalent - Duplicate Degree Credit Not Granted:** BCHM 4312,

MCDB 5312 and BCHM 5312

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4350 (3) Microbial Diversity and the Biosphere**

Provides a molecular phylogeny-based perspective on microbial diversity and the interactions between organisms that result in the biosphere. Provides overview of recent methods and findings in microbial ecology, as well as computer-based workshop in molecular phylogeny. Fulfills MCDB scientific reasoning requirement.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 5350

**Recommended:** Prerequisites MCDB 1150 or EBIO 1210 and CHEM 1133 and EBIO 3400 and/or CHEM 3311 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4361 (3) Evolution and Development**

Relates how recent discoveries in the molecular mechanisms of development are shaping our understanding of animal evolution. Reviews basic principles of molecular developmental biology and applies these concepts to critically discuss current research in the field of Evo-Devo (evolution and development). Fulfills MCDB scientific reasoning requirement.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 5361

**Recommended:** Prerequisites MCDB 3135 and MCDB 3145 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4410 (3) Human Molecular Genetics**

Studies the human organism as a genetic system, including effect of mutation on protein structure and function, biochemical basis of human genetic disease, polymorphic gene loci, gene mapping and identification, gene cloning and characterization, and impact of human genetics on medicine and society. Fulfills MCDB scientific reasoning requirement.

**Recommended:** Prerequisite MCDB 3135 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4420 (3) Genetics of Brain and Behavior**

Examines the genetic underpinnings of animal behavior, including an examination of behavioral evolution and the use of genes as tools to examine neural architecture. We will cover topics including foraging, social behavior, personality, parental care and fear. We will explore these behaviors at multiple levels, including genomics, population genetics, molecular genetics, epigenetics, endocrinology and neurobiology. Fulfills MCDB scientific reasoning requirement.

**Equivalent - Duplicate Degree Credit Not Granted:** NRSC 4420

**Requisites:** Requires prerequisite courses of NRSC 2100 and EBIO 2070 or (MCDB 2150 and (MCDB 1161 or MCDB 1171 or MCDB 1181 or MCDB 2171)) (all minimum grade C).

**Grading Basis:** Letter Grade

**MCDB 4422 (3) Molecular Biology of Free Radicals: Role(s) in Oxidative Stress, Signaling, Disease, Aging**

Examines how free radicals are formed in biological systems and their roles in oxidative stress, cell signalling, aging, and disease. Emphasis will be placed on the recent literature. Fulfills MCDB scientific reasoning requirement.

**Recommended:** Prerequisites MCDB 3135 and MCDB 3145 and CHEM 3311 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4425 (3) Topics in Membrane Biology: Cell Biology, Physiology and Disease**

Students will apply their knowledge of basic biology to exploring several of the most exciting topics in biomedicine including protein folding and stress responses, nutrient sensing and balance and signal transduction across membranes. Emphasis will be placed upon human physiology and associated human diseases including Alzheimer's disease, diabetes and cardiovascular disease. Fulfills MCDB scientific reasoning requirement.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 5425

**Recommended:** Prerequisites MCDB 3135 and MCDB 3145 or instructor consent.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4426 (3) Cell Signaling and Developmental Regulation**

Introduces several cell signaling processes and their biological functions. Students read and analyze original research articles to learn the thinking processes of scientific research. Writing assignments and oral presentations are required. Fulfills MCDB scientific reasoning requirement.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 5426

**Recommended:** Prerequisites MCDB 3135 and MCDB 3145 and CHEM 4700 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4427 (3) Biology of the Visual System**

Explores the neurobiology, cell biology, genetics and developmental biology of the visual system. Discusses neurodegenerative and vascular diseases that lead to blindness. Students read and analyze original research articles to train scientific reasoning. Involves student-organized presentations and classroom discussion. Fulfills MCDB scientific reasoning requirement.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 5427

**Recommended:** Prerequisites MCDB 3135 and MCDB 3145 (minimum grade C-) or instructor consent required.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4428 (3) Regulation of Lifespan**

Lectures and literature reading/discussion will introduce students to historical, fascinating and cutting-edge research achievements, as well as the basic genetic/biochemical approaches, towards understanding cellular signaling systems and mechanisms that regulate the aging process and lifespan of animals and humans. Through the combination of presentation, discussion, homework and two exams, students will learn the reasoning process of scientific research in the aging field, become familiar with typical experimental approaches and improve their communication ability.

**Requisites:** Requires prerequisite course of MCDB 3135 (minimum grade C-).

**Grading Basis:** Letter Grade

**MCDB 4441 (4) Animal Developmental Diversity**

Surveys development in a range of vertebrate and invertebrate systems to reconstruct the common bilaterian ancestor, and elucidate the developmental genetic changes underlying animal diversification. Lab focuses on vertebrate embryos and explores key methods in evolutionary developmental biology including in situ hybridization, embryo microinjection, and transgenesis.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 5441 and EBIO 4440 and EBIO 5440

**Recommended:** Prerequisites MCDB 1150 or EBIO 1210 and MCDB 2150 or EBIO 2070 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4444 (3) Cellular Basis of Disease**

Explores the cellular basis of disease. Discusses diseases arising from defects in intracellular targeting, cytoskeletal function, intracellular signaling, genomic instability, gene regulation, cell proliferation, and cell death. Involves student-organized presentations and classroom discussion. Fulfills MCDB scientific reasoning requirement.

**Recommended:** Prerequisites MCDB 3135 and MCDB 3145 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4471 (3) Mechanisms of Gene Regulation in Eukaryotes**

Focuses on manifestations of regulated gene expression. Studies gene regulation at multiple steps, including transcription, RNA processing and translation. Is based on critical analysis of primary research papers. Written assignments and oral presentations are required. Fulfills MCDB scientific reasoning requirement.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 5471

**Recommended:** Prerequisite MCDB 3135 (minimum grade C-) or instructor consent required.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4520 (3) Bioinformatics and Genomics**

Computational and experimental methods in bioinformatics and genomics, and how these methods provide insights into protein structure and function, molecular evolution, biological diversity, cell biology and human disease. Topics include database searching, multiple sequence alignment, molecular phylogeny, microarrays, proteomics and pharmacogenomics.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 5520

**Recommended:** Prerequisites MCDB 3135 or CHEM 4700 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4521 (1) Bioinformatics and Genomics Laboratory**

Provides experience with, and exposure to, computational and experimental methods in bioinformatics and genomics. Meets once a week. Students are expected to read original research papers, discuss findings, plan and execute data analysis in selected areas.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 5521

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab

Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4550 (3) Cells, Molecules and Tissues: A Biophysical Approach**

Focuses on the biophysics governing the structure/function of enzymes, cells, extracellular matrix and tissue. Synthesizes ideas from molecular biology, physics, and biochemistry, emphasizing how low Reynolds number physics, not Newtonian physics, is relevant to life inside a cell. Fulfills MCDB scientific reasoning requirement.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 5550 and PHYS 4550 and PHYS 5550

**Recommended:** Prerequisites MCDB 3135 and MCDB 3145 and PHYS 2010 and PHYS 2020 and CHEM 1133 and MATH 1300 and/or CHEM 3311 (minimum grade C-) or instructor consent required.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4560 (3) Introduction to Biophysics**

Covers an introduction to the physics of living systems. Focuses on how living systems are able to generate order, with both physical principles and biological examples. Covers the development of quantitative models for biological systems, including estimates. Taught from a physics perspective, with biology background introduced as needed.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 5560 and PHYS 4560 and PHYS 5560

**Requisites:** Requires a prerequisites course of PHYS 2210 (minimum grade C-).

**Recommended:** Prerequisite PHYS 4230.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4567 (3) Skills Center Linked Lab Research Project**

This course is a Skills Center Linked Lab independent project. Students who have successfully completed linked lab (<https://skillscenter.colorado.edu/labs.html>) skills through MCDB 1234/3456 are eligible to take MCDB 4567. Student work with a linked lab advisor and the Skills Center proctors to develop a research project and the student completes the project in the Skills Center or in the Linked Lab and learn research skills such as interpreting data and planning and executing experiments, data interpretation, statistical analysis and presentation.

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Requires prerequisite course of MCDB 3456 (minimum grade C-).

**Grading Basis:** Letter Grade

**MCDB 4615 (3) Biology of Stem Cells**

Stem cells have received considerable notice in both the scientific and social arena. Examines the stem cell concept by a critical examination of the primary scientific literature. Topics will include pluripotency and plasticity, environment, technology, self-renewal, transdifferentiation, molecular signature, epigenetic programming and stem cell versus cancer cell. Fulfills MCDB scientific reasoning requirement.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 5615

**Recommended:** Prerequisite MCDB 3135 or MCDB 3145 or instructor consent required.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4621 (3) Genome Databases: Mining and Management**

Develops essential skills for performing genomic analyses, with focus on developing practical research tools. Introduces human genome and microbiome projects, Python/Sql scripting, accessing and understanding genomic data, sequence alignment and search, evolutionary models, expression data, biological networks, and macromolecular structure.

**Equivalent - Duplicate Degree Credit Not Granted:** BCHM 4621, MCDB 5621 and BCHM 5621

**Requisites:** Requires prerequisite course of BCHM 2700 or BCHM 4700 or CSCI 3104 or MCDB 3500 (minimum grade C-).

**Recommended:** Prerequisite MCDB 3135 or CSCI 3104 or CHEM 4700 and recommended corequisite of CSCI 2270.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4650 (3) Developmental Biology**

Explores the development of invertebrate and vertebrate organisms, emphasizing cellular, molecular and genetic mechanisms. Focuses on conceptual understanding and experimental approaches to topics such as embryology, developmental control of gene expression in eukaryotic cells, mechanisms of differentiation and morphogenesis and developmental genetics.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 5651

**Requisites:** Requires prerequisite courses of MCDB 3135 and MCDB 3145 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4680 (3) Mechanisms of Aging**

Studies aging as a developmental process emphasizing genetic, cellular and molecular mechanisms. Fulfills MCDB scientific reasoning requirement.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 5680

**Recommended:** Prerequisites MCDB 3135 and MCDB 3145 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4750 (3) Animal Virology**

Encompasses the structure and replication of both lytic and transforming animal viruses. Emphasizes diversity of naturally occurring genomic structures and the resulting strategies of infection as well as the impact of viral epidemics on society. Includes critical analysis of primary research papers. Fulfills MCDB scientific reasoning requirement.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 5750

**Recommended:** Prerequisite MCDB 3135 (minimum grade C-) or instructor consent required.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4777 (3) Molecular Neurobiology**

Introduces the functional anatomy of the nervous system and explores current knowledge regarding the molecular and genetic basis of the development and function of the nervous system. Studies recent insights into the molecular basis of neurodegenerative diseases, in the last portion of the course.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 5777

**Requisites:** Requires prerequisite courses of MCDB 3135 and MCDB 3145 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4790 (3) Oocytes, Stem Cells, Organisms: Experiments to Discoveries**

Develop critical thinking, scientific reasoning and communication skills by reading and presenting primary research articles and Nobel Prize winning research on patterning, stem cells, cell death, genetic and epigenetic mechanisms that regulate embryonic development. Learn about experimental approaches from a historical and present view, while discussing their ethical implications.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4800 (3) Molecular Evolution: How Natural Selection has Shaped the Molecules of Life**

This course explores how Darwin's idea has shaped the structures of DNA, RNA and proteins across the long history of life on earth. Natural selection driving the evolution these macromolecules and subsequent developmental pathways will be fully appreciated as the process that ultimately produced the amazing variety of species on this planet. Looking ahead, our recent efforts to harness the power of evolution in the test tube to develop new therapies will be covered.

**Requisites:** Requires prerequisite courses of MCDB 3135 and MCDB 3145 (minimum grade C-).

**MCDB 4810 (3) Insane in the Membrane: The Biology and Biophysics of the Membrane**

Studies the biology and physics of the biomembrane. Topics include structure and mechanism of membrane proteins; membrane biogenesis; membrane protein folding and stability; membrane homeostasis; mechanisms of membrane fusion and fission; lipid trafficking. Fulfills MCDB scientific reasoning requirement.

**Recommended:** Prerequisite CHEM 4700 (minimum grade C-) or instructor consent required.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4811 (3) Teaching and Learning Biology**

Provides an introduction to recent research into student learning on the conceptual foundations of modern biology, together with pedagogical methods associated with effective instruction and its evaluation. Students will be involved in active research into conceptual and practical issues involved in biology education, methods to discover student preconceptions, and the design, testing and evaluation of various instructional interventions.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 6811 and EDUC 4811 and MCDB 5811 and EBIO 4811

**Recommended:** Prerequisites MCDB 1150 or EBIO 1210 and MCDB 2150 and MCDB 3145.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**MCDB 4840 (1-6) Upper-Division Independent Study**

An independent study contract is required.

**Repeatable:** Repeatable for up to 8.00 total credit hours.

**Recommended:** Prerequisite MCDB 2150.

**MCDB 4900 (1-3) Public Health Practicum**

Offers practical experience in Public Health with direct supervision.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 4900 and IPHY 4900

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**MCDB 4960 (1) Research Communication: Analyzing Data and Effectively Communicating Science for Honors Students**

This course is intended for MCDB honors students and to be taken the same semester as their undergraduate thesis defense. The course will teach honors students how to analyze their research data with proper statistics and effectively write their undergraduate honors thesis. Students will also gain experience in presenting their research to an audience with constructive feedback given.

**Requisites:** Requires prerequisite courses of MCDB 3135 and MCDB 3145 (minimum grade C-).

**MCDB 4980 (3) Honors Research**

Provides faculty-supervised research for students who have been approved by the departmental honors committee. Normally taken during the semester before completion of the honors thesis.

**Recommended:** Prerequisite MCDB 4840 or comparable research experience, and minimum GPA of 3.20.

**Additional Information:** Arts Sciences Honors Course

**MCDB 4990 (3) Honors Thesis**

Involves the preparation and defense of an honors thesis, based on faculty-supervised original research, including final phases of the research project.

**Recommended:** Prerequisites MCDB 4840 or MCDB 4980 or comparable research experience, and minimum GPA of 3.3 and approval by the MCDB Honors Committee.

**Additional Information:** Arts Sciences Honors Course

**MCDB 5201 (1) Graduate Lab in Molecular Evolution**

Ever wonder what functional clues might reside in the DNA sequence of your favorite gene? In this course, graduate students will learn the fundamentals of phylogenetics with an emphasis on evolutionary models that infer selective pressures in protein-coding DNA sequences (genes). During the course, students will be working on their favorite gene and using it as a case study for applying all of the concepts that we will cover. By the end of the course they will have generated a publication-quality summary figure, along with appropriate supplemental figures, of the selective pressures shaping their favorite gene. Additionally, they will learn how to design and execute an experimental approach based off of findings from the evolutionary analysis.

**Requisites:** Restricted to graduate students only.

**Grading Basis:** Letter Grade

**MCDB 5210 (3) Cell Structure and Function (Lecture and Discussion)****MCDB 5220 (3) Graduate Core 2**

**Requisites:** Restricted to graduate students only.

**MCDB 5230 (3) Graduate Core 1**

**Requisites:** Restricted to graduate students only.

**MCDB 5250 (3) Topics in Developmental Genetics (Methods and Logic)**

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**MCDB 5301 (3) Immunology**

Emphasizes cellular and molecular mechanisms by which organisms protect themselves from pathogens and the experimental basis for our understanding of these processes. Discusses development, function, and malfunction of t-cells, b-cells and other components of the immune system, focusing on the human immune system.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 4300

**Requisites:** Restricted to Biological Sciences (MCDB) graduate students only.

**MCDB 5310 (3) Microbial Genetics and Physiology**

Examines the physiology and genetics of bacteria, Archaea and viruses. Particular emphasis will be on metabolism, regulation of gene expression and protein function, mechanisms of interactions with and manipulation of the environment, and evolution in response to environmental pressures.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 4310

**MCDB 5312 (3) Quantitative Optical Imaging**

Explores the fundamentals of optical imaging in biology, especially molecular and cellular biology. Covered topics include an introduction to optics and microscopes, fluorescence microscopy and image analysis, and biological applications. MATLAB will be taught at the beginning of the course and used throughout for image processing. Prior experience with MATLAB (or Python) is highly recommended but not required.

**Equivalent - Duplicate Degree Credit Not Granted:** BCHM 5312, MCDB 4312 and BCHM 4312

**Grading Basis:** Letter Grade

**MCDB 5350 (3) Microbial Diversity and the Biosphere**

Provides a molecular phylogeny-based perspective on microbial diversity and the interactions between organisms that result in the biosphere. Provides overview of recent methods and findings in microbial ecology, as well as computer-based workshop in molecular phylogeny.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 4350

**Requisites:** Restricted to graduate students only.

**MCDB 5361 (3) Evolution and Development**

Relates how recent discoveries in the molecular mechanisms of development are shaping our understanding of animal evolution. Reviews basic principles of molecular developmental biology and applies these concepts to critically discuss current research in the field of Evo-Devo (evolution and development).

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 4361

**MCDB 5425 (3) Topics in Membrane Biology: Cell Biology, Physiology and Disease**

Students will apply their knowledge of basic biology to exploring several of the most exciting topics in biomedicine including protein folding and stress responses, nutrient sensing and balance and signal transduction across membranes. Emphasis will be placed upon human physiology and associated human diseases including Alzheimer's disease, diabetes and cardiovascular disease.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 4425

**Requisites:** Restricted to graduate students only.

**MCDB 5426 (3) Cell Signaling and Developmental Regulation**

Introduces several cell signaling processes and their biological functions. Students read and analyze original research articles to learn the thinking processes of scientific research. Writing assignments and oral presentations are required.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 4426

**MCDB 5427 (3) Biology of the Visual System**

Explores the neurobiology, cell biology, genetics and developmental biology of the visual system. Discusses neurodegenerative and vascular diseases that lead to blindness. Students read and analyze original research articles to train scientific reasoning. Involves student-organized presentations and classroom discussion.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 4427

**Requisites:** Requires prerequisite courses of MCDB 3135 and MCDB 3145 (all minimum grade C-).

**MCDB 5441 (4) Animal Developmental Diversity**

Surveys development in a range of vertebrate and invertebrate systems to reconstruct the common bilaterian ancestor, and elucidate the developmental genetic changes underlying animal diversification. Lab focuses on vertebrate embryos and explores key methods in evolutionary developmental biology including in situ hybridization, embryo microinjection, and transgenesis.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 4441 and EBIO 4440 and EBIO 5440

**Requisites:** Restricted to graduate students only.

**MCDB 5471 (3) Mechanisms of Gene Regulation in Eukaryotes**

Focuses on manifestations of regulated gene expression. Studies gene regulation at multiple steps, including transcription, RNA processing and translation. Is based on critical analysis of primary research papers. Written assignments and oral presentations are required.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 4471

**MCDB 5520 (3) Bioinformatics and Genomics**

Computational and experimental methods in bioinformatics and genomics, and how these methods provide insights into protein structure and function, molecular evolution, biological diversity, cell biology and human disease. Topics include database searching, multiple sequence alignment, molecular phylogeny, microarrays, proteomics and pharmacogenomics.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 4520

**Requisites:** Restricted to graduate students only.

**MCDB 5521 (1) Bioinformatics and Genomics Laboratory**

Provides experience with, and exposure to, computational and experimental methods in bioinformatics and genomics. Meets once a week. Students are expected to read original research papers, discuss findings, plan and execute data analysis in selected areas.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 4521

**Grading Basis:** Letter Grade

**MCDB 5550 (3) Cells, Molecules and Tissues: A Biophysical Approach**

Focuses on the biophysics governing the structure/function of enzymes, cells, extracellular matrix and tissue. Synthesizes ideas from molecular biology, physics, and biochemistry, emphasizing how low Reynolds number physics, not Newtonian physics, is relevant to life inside a cell.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 4550 and PHYS 4550 and PHYS 5550

**MCDB 5560 (3) Introduction to Biophysics**

Covers an introduction to the physics of living systems. Focuses on how living systems are able to generate order, with both physical principles and biological examples. Covers the development of quantitative models for biological systems, including estimates. Taught from a physics perspective, with biology background introduced as needed.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 4560 and PHYS 4560 and PHYS 5560

**Grading Basis:** Letter Grade

**MCDB 5615 (3) Biology of Stem Cells**

Stem cells have received considerable notice in both the scientific and social arena. Examines the stem cell concept by a critical examination of the primary scientific literature. Topics will include pluripotency and plasticity, environment, technology, self-renewal, transdifferentiation, molecular signature, epigenetic programming and stem cell versus cancer cell. Fulfills MCDB scientific reasoning requirement.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 4615

**Requisites:** Restricted to graduate students only.

**MCDB 5621 (3) Genome Databases: Mining and Management**

Lec. Develops essential skills for performing genomic analyses, with focus on developing practical research tools. Introduces human genome and microbiome projects, Python/Sql scripting, accessing and understanding genomic data, sequence alignment and search, evolutionary models, expression data, biological networks, and macromolecular structure.

**Equivalent - Duplicate Degree Credit Not Granted:** BCHM 5621, MCDB 4621 and BCHM 5621

**MCDB 5650 (2) Teaching and Learning in Undergraduate Science Courses**

Discusses recent research on how students learn and applications to the teaching of undergraduate science courses. Conducted as an interactive workshop, in which active-engagement in learning approaches are modeled and experienced by participants. Open to undergraduate and graduate students. May be used to fulfill the pedagogical training requirement for undergraduate Learning Assistants in upper division science courses. Post-doctoral and faculty auditors are welcome to participate as regular auditors.

**MCDB 5651 (3) Developmental Biology**

Explores the development of invertebrate and vertebrate organisms, emphasizing cellular, molecular and genetic mechanisms. Focuses on conceptual understanding and experimental approaches to topics such as embryology, developmental control of gene expression in eukaryotic cells, mechanisms of differentiation and morphogenesis and developmental genetics.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 4650

**Requisites:** Restricted to graduate students only.

**MCDB 5680 (3) Mechanisms of Aging**

Studies aging as a developmental process emphasizing genetic, cellular and molecular mechanisms.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 4680

**Requisites:** Restricted to graduate students only.

**MCDB 5750 (3) Animal Virology**

Encompasses the structure and replication of both lytic and transforming animal viruses. Emphasizes diversity of naturally occurring genomic structures and the resulting strategies of infection as well as the impact of viral epidemics on society. Includes critical analysis of primary research papers. Fulfills MCDB scientific reasoning requirement. Course has additional graduate student level requirements.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 4750

**Requisites:** Restricted to graduate students only.

**MCDB 5776 (1) Scientific Ethics and Responsible Conduct in Research**

Lect. Advanced discussion of topics in scientific ethics, including requirements for responsible conduct of research, case histories of fraud, research misconduct, ethical misconduct and development of professional values and ethical standards.

**Equivalent - Duplicate Degree Credit Not Granted:** BCHM 5776

**Requisites:** Requires a corequisite course of MCDB 5230 or BCHM 5771.

**MCDB 5777 (3) Molecular Neurobiology**

Introduces the functional anatomy of the nervous system and explores current knowledge regarding the molecular and genetic basis of the development and function of the nervous system. Studies recent insights into the molecular basis of neurodegenerative diseases, in the last portion of the course.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 4777

**MCDB 5811 (3) Teaching and Learning Biology**

Provides an introduction to recent research into student learning on the conceptual foundations of modern biology, together with pedagogical methods associated with effective instruction and its valuation. Students will be involved in active research into conceptual and practical issues involved in biology education, methods to discover student preconceptions, and the design, testing and evaluation of various instructional interventions.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 4811 and EDUC 4811 and EDUC 6811

**Requisites:** Restricted to graduate students only.

**MCDB 6000 (3) Introduction to Laboratory Methods**

Introduces methodology and techniques used in biological research. Designed as a tutorial between a few students and one faculty member. Students are expected to read original research papers, discuss findings, and to plan and execute experiments in selected areas.

**Repeatable:** Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to Biological Sciences (MCDB) graduate students only.

**MCDB 6440 (1-3) Special Topics in MCD Biology**

Acquaints students with various topics not normally covered in the curriculum. Offered intermittently or upon student demand, and often presented by visiting professors.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to graduate students only.

**MCDB 6441 (1) Faculty Res Seminar**

Acquaints students with various topics not normally covered in the curriculum. Offered intermittently or upon student demand, and often presented by visiting professors.

**Requisites:** Restricted to graduate students only.

**Grading Basis:** Letter Grade

**MCDB 6442 (2) Research Grant Writing**

Acquaints students with various topics not normally covered in the curriculum. Offered intermittently or upon student demand, and often presented by visiting professors.

**Requisites:** Restricted to graduate students only.

**Grading Basis:** Letter Grade

**MCDB 6940 (1) Master's Candidate for Degree**

Registration intended for students preparing for a thesis defense, final examination, culminating activity, or completion of degree.

**MCDB 6950 (1-6) Master's Thesis**

Students seeking a master's degree should consult a departmental advisor. Plan I or Plan II is offered.

**MCDB 7840 (1-6) Graduate Independent Study**

An independent study contract is required.

**Repeatable:** Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

**MCDB 7910 (2) Seminar Practicum**

Designed for graduate students to give oral presentations on their thesis research, field questions, respond to critiques, and present background information. Students attend weekly seminar presentations to gain knowledge on specialized research.

**Repeatable:** Repeatable for up to 4.00 total credit hours.

**Requisites:** Restricted to graduate students only.

**Grading Basis:** Letter Grade

**MCDB 8990 (1-10) Doctoral Dissertation**

All doctoral students must register for not fewer than 30 hours of dissertation credit as part of the requirements for the degree. For a detailed discussion of doctoral dissertation credit, refer to the Graduate School section.

**Repeatable:** Repeatable for up to 30.00 total credit hours.

**Requisites:** Restricted to graduate students only.

## Molecular, Cellular and Developmental Biology - Bachelor of Arts (BA)

The undergraduate degree in molecular, cellular and developmental biology emphasizes knowledge and awareness of:

- the biological sciences in general and a detailed understanding of currently important aspects of cellular biology, molecular biology, biochemistry, genetics and developmental biology; and
- the relationship of the specialty area to broader areas of science and to society in general, including ethical issues raised by current biological research and by the rapid growth of biotechnology as an important shaping force for the future.

In addition, students completing the degree in molecular, cellular and developmental biology are expected to acquire the ability and skills to:

- learn detailed laboratory procedures rapidly when the need arises;
- demonstrate a scientific vocabulary and an understanding of research methods that permits the comprehension of current journal

articles, extraction of pertinent information and judgment of the quality of the work described;

- evaluate a biological problem, determine which aspects are understood and apply basic research methods and techniques to the unknown aspects; and
- communicate scientific concepts and analytical arguments clearly and concisely, both orally and in writing.

### Prerequisites

It is MCDB policy to enforce the course prerequisites listed in the course catalog. If you have not either taken and passed (C- or better) the prerequisites for a course, or obtained permission from the instructor or a departmental advisor to take the course based on equivalent preparatory coursework or experience here or elsewhere, you may be administratively dropped from the course.

### Course Requirements

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below. All required major courses and all required ancillary courses must be passed with a C- or better and cannot be taken pass/fail. Students must have a grade point average of at least 2.000 in the major in order to graduate.

It is strongly recommended that MCDB majors consult with a departmental advisor before applying AP, IB or CLEP credit. Students majoring in MCDB who transfer biology credit from other institutions also must consult a departmental advisor.

Students who plan to double major with biochemistry or chemistry are encouraged to meet with an academic advisor to understand how their chemistry courses will apply to the MCDB major.

Students who plan to also pursue a degree in engineering are encouraged to meet with an academic advisor to understand how their chemistry and calculus courses will apply to the MCDB major.

### Required Courses and Credits

Code	Title	Credit Hours
------	-------	--------------

#### Required Major Courses

<i>Introductory Coursework</i>		
Select one:		3
MCDB 1150	Introduction to Cellular and Molecular Biology (MCDB 1152 is a recommended coseminar for MCDB 1150) <sup>1</sup>	
MCDB 1111	Core Concepts in Biology I: Evolutionary, Molecular and Cell Biology (MCDB 1152 is not a recommended coseminar for MCDB 1111)	
<i>Genetics</i>		
Select one:		3
MCDB 2150	Principles of Genetics (MCDB 2152 is a recommended coseminar for MCDB 2150) <sup>2</sup>	
MCDB 2222	Core Concepts in Biology II: Genes, Genetics and Phenotypes (MCDB 2152 is not a recommended coseminar for MCDB 2222)	
<i>Research-Based Introductory Labs</i>		
Select one:		2

MCDB 1161	From Dirt to DNA: Phage Genomics Laboratory I
MCDB 1171	Antibiotics Discovery Through Hands-on Screens I
MCDB 1181	Biological Probiotic/Drug Discovery Through Hands-on Screens
MCDB 2171	Chemotherapeutic Discovery Through Hands-On Screens 2

*Cell Biology* 8

MCDB 3135	Molecular Biology
MCDB 3140	Cell Biology Laboratory
MCDB 3145	Cell Biology

*Development Biology* 3

MCDB 4650	Developmental Biology
-----------	-----------------------

**Upper-division capstone and scientific reasoning requirements**

*Capstone* 3

Select one:

MCDB 4300	Immunology
MCDB 4777	Molecular Neurobiology
MCDB 4150	Biology of Aging and Longevity

*Scientific Reasoning*

Select one (see department for full list of approved courses) 3

MCDB 4350	Microbial Diversity and the Biosphere
MCDB 4361	Evolution and Development
MCDB 4410	Human Molecular Genetics
MCDB 4420	Genetics of Brain and Behavior
MCDB 4422	Molecular Biology of Free Radicals: Role(s) in Oxidative Stress, Signaling, Disease, Aging
MCDB 4425	Topics in Membrane Biology: Cell Biology, Physiology and Disease
MCDB 4426	Cell Signaling and Developmental Regulation
MCDB 4427	Biology of the Visual System
MCDB 4444	Cellular Basis of Disease
MCDB 4471	Mechanisms of Gene Regulation in Eukaryotes

MCDB 4550	Cells, Molecules and Tissues: A Biophysical Approach
-----------	--

MCDB 4615	Biology of Stem Cells
-----------	-----------------------

MCDB 4680	Mechanisms of Aging
-----------	---------------------

MCDB 4750	Animal Virology
-----------	-----------------

MCDB 4810	Insane in the Membrane: The Biology and Biophysics of the Membrane
-----------	--

MCDB 4811	Teaching and Learning Biology
-----------	-------------------------------

**Electives**

An additional 6 credit hours of upper-division electives (any MCDB 3000 or MCDB 4000 level)<sup>3</sup> 6

**Total Credit Hours** 31

Code	Title	Credit Hours
------	-------	--------------

**Required Ancillary Courses:**

Complete the following chemistry and biochemistry courses: 18

CHEM 1113 & CHEM 1114	General Chemistry 1 and Laboratory in General Chemistry 1
CHEM 1133 & CHEM 1134	General Chemistry 2 and Laboratory in General Chemistry 2
CHEM 3311 & CHEM 3321	Organic Chemistry 1 and Laboratory in Organic Chemistry 1
BCHM 4611	Principles of Biochemistry

Select one of the following calculus or statistics courses:<sup>4</sup> 3-5

**Calculus:**

MATH 1300	Calculus 1
-----------	------------

MATH 1310	Calculus for Life Sciences
-----------	----------------------------

APPM 1350	Calculus 1 for Engineers
-----------	--------------------------

**Statistics:**

MATH 2510	Introduction to Statistics
-----------	----------------------------

EBIO 1010	Introduction to Statistics and Quantitative Thinking for Biologists
-----------	---

EBIO 4410	Biological Statistics
-----------	-----------------------

IPHY 3280	Intro to Data Science and Biostatistics
-----------	---

PSYC 2111	Psychological Science I: Statistics
-----------	-------------------------------------

**Total Credit Hours** 21-23

<sup>1</sup> EBIO 1210 is an acceptable alternative to MCDB 1150.

<sup>2</sup> EBIO 2070 is accepted in place of MCDB 2150.

<sup>3</sup> Up to 6 hours of MCDB 4840 Upper-Division Independent Study, MCDB 4980 Honors Research, MCDB 4990 Honors Thesis, or select courses from outside MCDB may be used. A minimum of 3 credit hours of MCDB upper-division electives must be taken on the Boulder campus. See department for details.

<sup>4</sup> Not all the courses in this category will also meet the QRMS component of the Gen Ed Skills Requirement.

## Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in molecular, cellular and developmental biology, students should meet the following requirements:

- In the first semester, declare the MCDB major. (If the major is not started in the first year, the student must meet with an MCDB academic advisor to ensure that it is still possible to complete the major in four years.)
- During the first and second semesters, complete either general chemistry or the introductory MCDB sequence.
- By the end of the fourth semester, complete general chemistry and the introductory MCDB sequence with a C- or better.
- By the end of the eighth semester, complete the major.

## Recommended Four-Year Plan of Study

Through the required coursework for the major, students will fulfill all 12 credits of the Natural Sciences area of the Gen Ed Distribution Requirement, including the Lab requirement, and, potentially, the QRMS component of the Gen Ed Skills Requirement.

**Year One****Fall Semester**

MCDB 1150 or MCDB 1111	Introduction to Cellular and Molecular Biology or Core Concepts in Biology I: Evolutionary, Molecular and Cell Biology	3
MCDB 2 Credit Hour Lab		2
MCDB 1152	Problem Solving Co-Seminar for Introduction to Molecular and Cellular Biology (strongly recommended in conjunction with MCDB 1150, not required)	1
CHEM 1113 & CHEM 1114	General Chemistry 1 and Laboratory in General Chemistry 1	5
Gen. Ed. Skills course (example: Lower-division Written Communication)		3
<b>Credit Hours</b>		<b>14</b>

**Spring Semester**

MCDB 2150 or MCDB 2222	Principles of Genetics or Core Concepts in Biology II: Genes, Genetics and Phenotypes	3
MCDB 2152	Problem Solving Co-Seminars for Genetics (strongly recommended in conjunction with MCDB 2150, not required)	1
CHEM 1133 & CHEM 1134	General Chemistry 2 and Laboratory in General Chemistry 2	5
Gen. Ed. Distribution course (example: Social Sciences)		3
Gen. Ed. Skills course (example: QRMS) or Elective if QRMS is fulfilled by major requirement.		3
<b>Credit Hours</b>		<b>15</b>

**Year Two****Fall Semester**

MCDB 3135 or MCDB 3145	Molecular Biology or Cell Biology	3
MCDB 3140 or MCDB 3145	Cell Biology Laboratory (MCDB 3140 may be taken at the same time as MCDB 3135 or MCDB3145) or Cell Biology	
CHEM 3311 & CHEM 3321	Organic Chemistry 1 and Laboratory in Organic Chemistry 1	5
Gen. Ed. Distribution/Diversity course (example: Social Sciences/Global Perspective)		3
Elective		3
<b>Credit Hours</b>		<b>14</b>

**Spring Semester**

MCDB 3145	Cell Biology	3
MATH 1300 OR Statistics: Calculus 1 or Statistics OR (some students may decide to take Organic Chemistry 2 as an approved out of department, upper division MCDB elective, in that case, taking stats or calc is advised for later semesters)		3-5
Gen. Ed. Distribution course (example: Social Sciences)		3
Gen. Ed. Distribution course (example: Arts & Humanities)		3

Elective (only if taking Statistics) 3

**Credit Hours****15-17****Year Three****Fall Semester**

MCDB 4650	Developmental Biology	3
BCHM 4611	Principles of Biochemistry	3
Gen. Ed. Skills course (example: Upper-division Written Communication)		3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Free Elective		3
<b>Credit Hours</b>		<b>15</b>

**Spring Semester**

Free elective		3
MCDB Science Reasoning		3
Gen. Ed. Distribution course (example: Social Sciences)		3
Upper-Division Elective		3
Upper-Division Elective		3
<b>Credit Hours</b>		<b>15</b>

**Year Four****Fall Semester**

MCDB Capstone		3
MCDB upper division elective		3
Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/US Perspective)		3
Free Elective		3
Free Elective		3
<b>Credit Hours</b>		<b>15</b>

**Spring Semester**

MCDB Upper-division Elective		3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Upper-Division Elective		3
Free elective		3
Free elective		3
<b>Credit Hours</b>		<b>15</b>

**Total Credit Hours****118-120**

## Learning Outcomes

Upon completing the program, students will be able to:

- Connect the principles of evolution to the cellular, molecular and genetic properties of organisms, including how genomes and allele frequencies change over time.
- Describe the assembly and properties of macromolecular complexes and membranes, the movement of molecules and macromolecules, and the chemical properties that underlie these functions.
- Describe how the genetic information in a cell is stored, replicated, transcribed and translated, and compare the different mechanisms and consequences of gene expression regulation.
- Describe the basic features of inter- and intra-cellular signaling systems and interpret the ways that they can influence, directly and indirectly, gene expression, cellular behaviors, and organismic phenotypes.

- Describe the mechanisms of inheritance, including deducing information about genes, alleles, mutations and gene functions from analyses of genetic crosses and patterns of inheritance.
- Distinguish between different experimental techniques, justify their use to test specific hypotheses and interpret conclusions from experimental data.
- Carry out basic research using standard cell and molecular biology techniques and communicate that research through both written and oral presentations.

## Molecular, Cellular and Developmental Biology - Minor

The department offers a minor in molecular, cellular and developmental biology. Declaration of the minor is open to any student enrolled at CU Boulder, regardless of college or school.

### Requirements

Students must complete a total of 20 credit hours of molecular, cellular and developmental biology coursework, 12 of which must be at the upper-division level. Students must maintain an overall and minor GPA of at least 2.00 (C), and complete all MCDB courses with a C- or better.

Students may apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward the minor.

### Required Courses and Credits

## Peace, Conflict and Security Studies

The Certificate in Peace, Conflict and Security Studies (PACS) is designed to help students explore why conflict and violence occur, and to develop

practical, nonviolent skills to analyze, intervene and resolve conflicts in their personal life, in their communities and between countries. The certificate is granted by the College of Arts and Sciences. All enrolled CU Boulder undergraduate students, regardless of school or major, may apply for and earn the PACS Certificate.

The program utilizes an interdisciplinary perspective on the study of conflict, cooperation, violence, war and peacemaking. Coursework focuses on theorizing and analyzing various levels of conflict, from the interpersonal to international and related possibilities for personal and social change. Coursework also emphasizes the development of transferable skills and experiential learning in conflict resolution and civic activism. The program encourages hands-on, "in the field" engagement through volunteer service, enrollment in study-abroad programs and internship placement with related agencies and programs.

For more information or an application, visit the Peace, Conflict and Security Studies Program (<http://www.colorado.edu/pacs/>) website.

Course code for this program is PACS.

### Certificate

- Peace, Conflict and Security - Certificate (p. 499)

### Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

English, Michael D. ([https://experts.colorado.edu/display/fisid\\_164260/](https://experts.colorado.edu/display/fisid_164260/)) Instructor, Associate Faculty Director; PhD, George Mason University

### Courses

#### **PACS 2500 (3) Introduction to Peace, Conflict and Security Studies**

Introduces the related fields of peace, conflict and security studies. Examines causes and dynamics of conflict and violence (interpersonal to global). Examines theory and research concerning peace movements, conflict resolution and security institutions. Explores career options in related fields.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Diversity-Global Perspective  
Arts Sci Gen Ed: Distribution-Social Sciences

#### **PACS 3540 (3) Migration, Human Rights, and Conflict in the Mediterranean**

Faculty-led Global Seminar, based in Malta, provides the opportunity to study social, political, and economic issues surrounding international migration, Focuses on causes and consequences of recent migration flows from nations in the Middle East and Sub-Saharan Africa to European nations located in the Eastern Mediterranean. Students will interact with representatives of state governments, NGOs, and activist groups, and learn about the rich culture and history of Malta as a pivotal state promoting international diplomacy and regional security.

**Equivalent - Duplicate Degree Credit Not Granted:** IAFS 3540

**Requisites:** Requires prerequisite course of PACS 2500 (minimum grade C-).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Diversity-Global Perspective

**PACS 3700 (3) Communication and Conflict Management**

Examines interdisciplinary concepts and theories enabling students to better understand different types of conflict, sources of conflict, and communication patterns that serve to create, maintain and transform conflict. Teaches practical skills in conflict management areas such as bargaining, facilitation, mediation and negotiation.

**Equivalent - Duplicate Degree Credit Not Granted:** COMM 3700

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite PACS 2500.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PACS 3800 (3) Security Studies**

Provides an introduction to the academic field of "Security Studies". Focuses on motives, institutions and processes associated with societal defense against threats posed to cherished possessions and the pursuit of stable, autonomous and prosperous existence. Reviews related theoretical traditions associated with militarism, war and conflict. Covers key concerns of (in-)security in post 9/11 global society, including surveillance, terrorism, genocide and insurgency.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PACS 3850 (3) International Conflict Resolution and Peacebuilding**

Provides an introduction to the interdisciplinary field of international conflict resolution and peacebuilding. Provides tools for analyzing and intervening in contemporary manifestations of violent social conflict. Argues for an approach to international affairs rooted in more nuanced understandings of the nature of violent conflict and its dynamics. Bases the quest to build sustainable peace not on military supremacy or coercive diplomacy, but rather the ability of states and peoples to work collaboratively to develop mutually beneficial solutions aimed at the satisfaction of basic needs, collective security, political representation, and respect for human dignity. Explores how international conflicts are mitigated, contained, and resolved through processes such as DDR (disarmament, demobilization, and reintegration), citizen diplomacy, and reconciliation.

**Equivalent - Duplicate Degree Credit Not Granted:** IAFS 3850

**Recommended:** Prerequisite PACS 2500.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Diversity-Global Perspective

**PACS 3860 (3) Environmental Conflict and Conflict Resolution**

This course focuses on the environment as a source of conflict in international and intranational contexts. Considers natural resource scarcity and extraction as causes of conflict and violence, the growing phenomenon of climate-change-induced migration, as well as the effects of war on the environment. Prospects for conflict intervention involving multiparty stakeholders, international cooperation, and environmentally sustainable development practices are explored as methods for resolving these situations.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PACS 3870 (3) Nonviolent Civil Resistance: Movements and Strategies**

Explores the development of nonviolent practices for creating social change. Examines cases from around the globe, both historical and contemporary, to understand the reasons actors form social movements, as well choices in tactics and strategies associated with nonviolent civil resistance to achieve their aims. Special attention is paid to the relationship between community organizing, social movement activism, and nonviolent revolution.

**Recommended:** Prerequisite PACS 2500.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PACS 4000 (3) Special Topics in Peace, Conflict and Security Studies**

Upper division umbrella seminar spanning a variety of topics relevant to the study of peace, conflict and security related issues. Subjects addressed under this heading vary according to student interest and faculty availability.

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Recommended:** Prerequisite PACS 2500, PACS 3700 or PACS 3850.

**Grading Basis:** Letter Grade

**PACS 4100 (3) Managing Organizational Conflict**

This course introduces students to organizational conflict from a leadership perspective, the facilitative role leaders play in conflict intervention, and how leadership styles can affect organizational dynamics. Engaging with conflict productively requires leaders to recognize relational and structural factors that generate conflict. Leaders must guide difficult conversations and manage a range of situations. This includes challenges such as working in teams, remote/hybrid formats, cultural dimensions, and those related to gender discrimination and racial harassment.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite PACS 3700 or PACS 3860.

**Grading Basis:** Letter Grade

**PACS 4150 (3) Mediation Skills**

This 3-credit seminar trains students in facilitative mediation. The essential skills learned in this course are for anyone interested in helping people navigate, manage, and resolve conflicts in personal and professional settings. Students will engage in hands-on, experiential learning, participating in role plays and other exercises designed to teach them the basics of mediation as well as how to strengthen their communication and listening skills while working with those experiencing conflict. Formerly offered as a special topics course.

**Recommended:** Prerequisite PACS 3700.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PACS 4500 (3) Senior Seminar: Research in Conflict Contexts**

Course prepares students interested in working in the field of peace, conflict, and security studies with necessary research skills to navigate conflict contexts and collaborate with conflict-affected populations. Students conduct in-depth research projects, and develop data collection and analysis skills, specifically focusing on interviews, surveys, and secondary sources. Emphasizes use of critical thinking skills in writing, presentations, and class discussion, as well as explores ethical considerations faced in conflict zones.

**Recommended:** Prerequisite course of PACS 2500, PACS 3700, PACS 3850, or PACS 3860 (minimum grade C-).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PACS 4900 (3) Undergraduate Independent Study**

Provides opportunities for independent study at the upper-division undergraduate level. Students work on research or a creative project guided by PACS faculty. May only be taken once for 3 credit hours. Department consent required prior to registration.

**Requisites:** Requires prerequisite courses of PACS 2500 and PACS 3700 or PACS 3850 (minimum grade C). Restricted to students with 57-180 credits (Junior or Seniors).

**Recommended:** Prerequisite C average or higher in all PACS coursework and enrollment in the PACS Certificate Program.

**Grading Basis:** Letter Grade

## Peace, Conflict and Security - Certificate

The Certificate in Peace, Conflict and Security Studies (PACS) is designed to help students explore why conflict and violence occur, and to develop practical, nonviolent skills to analyze, intervene and resolve conflicts in their personal life, in their communities and between countries. The certificate is granted by the College of Arts and Sciences. All enrolled CU Boulder undergraduate students, regardless of school or major, may apply for and earn the PACS Certificate.

The program utilizes an interdisciplinary perspective on the study of conflict, cooperation, violence, war and peacemaking. Coursework focuses on theorizing and analyzing various levels of conflict, from the interpersonal to international, and related possibilities for personal and social change. Coursework also emphasizes the development of transferable skills and experiential learning in conflict resolution and civic activism. The program encourages hands-on, "in the field" engagement through volunteer service, enrollment in study-abroad programs and internship placement with related agencies and programs.

For more information or an application, visit the Peace, Conflict and Security Studies Program (<http://www.colorado.edu/pacs/>) website.

**Course code for this program is PACS.**

## Requirements

Completion of the certification requires 18 credit hours (9 upper-division) of study, up to six (6) of these credit hours may be completed through approved transfer credit. Each of these courses must be completed with a grade of C- or better. These courses must also include:

### Required Courses and Credit Hours

Code	Title	Credit Hours
<b>Required Courses</b>		
PACS 2500	Introduction to Peace, Conflict and Security Studies	3
PACS 3700	Communication and Conflict Management	3
or PACS 3850	International Conflict Resolution and Peacebuilding	
PACS 4500	Senior Seminar: Research in Conflict Contexts	3
or PACS 4900	Undergraduate Independent Study	
<b>PACS Elective <sup>1</sup></b>		
Choose one course (3 credits) from the following:		3

PACS 3540	Migration, Human Rights, and Conflict in the Mediterranean	
PACS 3700	Communication and Conflict Management	
PACS 3800	Security Studies	
PACS 3850	International Conflict Resolution and Peacebuilding	
PACS 3860	Environmental Conflict and Conflict Resolution	
PACS 3870	Nonviolent Civil Resistance: Movements and Strategies	
PACS 4500	Senior Seminar: Research in Conflict Contexts	
PACS 4900	Undergraduate Independent Study	
<b>Outside PACS Electives <sup>2</sup></b>		
6 credit hours of relevant course work related to PACS from non-PACS courses		6
<b>Total Credit Hours</b>		<b>18</b>

<sup>1</sup> Students may select a PACS elective of their choice as long as it differs from the PACS required courses. For instance, a student may take PACS 3700 as required and PACS 3850 as their PACS elective.

<sup>2</sup> The PACS website contains a list of approved courses (<https://www.colorado.edu/pacs/approved-courses-category/>) that students may complete to fulfill the outside course requirements. The PACS director may allow for substitutions of approved outside courses on a case by case basis.

## Philosophy

Philosophy provides an essential component in any sound general education: that form of education designed not to prepare one for a specific career, but to give one a broad and general understanding of the world, the place of human beings in the world and human values, as well as general intellectual skills that can be brought to bear on diverse subject matters.

**Course code for this program is PHIL.**

## Courses

### PHIL 1000 (3) Introduction to Philosophy

Discusses fundamental questions concerning human existence and the nature of reality. Questions may include: Does God exist? Am I the same person I was when I was born? Will I survive the death of my body? Do I have free will? How do I know whether the world around me really exists? What is knowledge? What is truth? What is morality, and how do I know what's right to do?

**Additional Information:** GT Pathways: GT-AH3 - Arts Hum: Ways of Thinking

Arts Sci Core Curr: Ideals and Values

Arts Sci Gen Ed: Distribution-Arts Humanities

### PHIL 1010 (3) Introduction to Western Philosophy: Ancient

Introduces major philosophical ideas originating in ancient Greece, including the concepts of eudaimonia (happiness), sophia (knowledge), philosophia, psychê (soul), aretê (virtue), erôs (love), and democracy, placing these in historical context and relating them to subsequent philosophical developments. Topics may include the nature of happiness; why philosophy and democracy flourished in ancient Greece; the ancient Greek origins of science; whether being a virtuous person makes you happier; and ancient Greek thinking about life, love, and death.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 1030

**Additional Information:** GT Pathways: GT-AH3 - Arts Hum: Ways of Thinking

Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

### PHIL 1020 (3) Introduction to Western Philosophy: Modern

Introduces philosophy through core ideas of the seventeenth and eighteenth centuries, examining Enlightenment-era controversies such as: What are the foundations of scientific thinking? How does sense perception contribute to knowledge? How do we explain the movement of bodies in the natural world? What, if anything, is God's role in nature? How do societies form, and how should they be governed? Are human beings free? If so, how is human freedom compatible with political authority?

**Additional Information:** GT Pathways: GT-AH3 - Arts Hum: Ways of Thinking

Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

### PHIL 1030 (3) Introduction to Global Philosophy

Examines and compares different approaches to philosophy from across the globe, including Indian, Chinese, African, Islamic, Judaic, and European traditions. Topics may include: the nature of the self and reality, the foundations and limits of human knowledge, the role of the individual in the political community, the basic principles of ethics, and the meaning of life as a whole.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

### PHIL 1040 (3) Introduction to African Philosophy

Introduces the philosophical ideas of several African ethnic groups and contemporary African philosophers, also exploring cross-cultural comparisons between African philosophy and the Western tradition, with special attention to historical context and the post-colonial condition. Topics may include both methodological differences between African and Western philosophy and fundamental philosophical questions concerning human existence, such as the nature and value of persons, knowledge, custom and morality, human rights, and meaning.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 1100 (3) Ethics**

Introduces students to moral philosophy by having them study and evaluate prominent moral theories and their application to a selection of real-world moral problems. Theories studied may include utilitarianism, rights theory, virtue ethics, social contract theory, divine command theory, cultural relativism, and natural law theory. Social problems covered may include abortion, world poverty, animal rights, reparations for slavery, gun rights, or similar such controversies.

**Additional Information:** GT Pathways: GT-AH3 - Arts Hum: Ways of Thinking

Arts Sci Core Curr: Ideals and Values

Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 1160 (3) Introduction to Medical Ethics**

Introduces students to moral dilemmas in medical practice, biomedical research, and health policy, placing them in the context of comprehensive ethical theories and core principles of bioethics. Topics may include: euthanasia; abortion; organ procurement; moral status; research on nonhuman animals; navigating cultural differences between patients and health professionals; and the fair distribution of healthcare resources; as well as the bioethical issues arising from technological advances in medicine, including genetic engineering, cloning, and assistive reproductive technologies.

**Additional Information:** Arts Sci Core Curr: Ideals and Values

Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 1200 (3) Contemporary Social Problems**

Examines competing positions in debates over a wide variety of controversial moral, social and political issues. Topics may include: abortion, world poverty, animal rights, immigration, physician-assisted suicide, freedom of religion, hate speech, cloning, income inequality, pornography, gun rights, racial profiling, capital punishment, overpopulation, prostitution, drug legalization, torture. Formerly titled 'Philosophy and Society'.

**Additional Information:** GT Pathways: GT-AH3 - Arts Hum: Ways of Thinking

Arts Sci Core Curr: Ideals and Values

Arts Sci Core Curr: United States Context

Arts Sci Gen Ed: Distribution-Arts Humanities

MAPS Course: Social Science

**PHIL 1250 (3) Poverty, Power, and Patriotism: Issues of Global Justice**

Explores justice (and injustice) in global and local contexts, introducing students to major traditions in political philosophy and core concepts like equality, liberty, reciprocity, and distributive justice. Specific topics may include: racism; sexism; reparations; colonialism; famine; immigration; patriotism; exploitation; labor justice; climate change; terrorism; and war. Relates political topics in U.S. society to their global context, challenging students to consider marginalization along axes of race, gender, and class across cultural boundaries.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

**PHIL 1350 (3) Knowledge, Mind, and Reality**

Introduces philosophy by exploring fundamental questions concerning the nature of reality and our knowledge. Possible questions include: Does God exist? Are you the same person you were when you were born? Does the past exist? Are we free to choose our actions? Is the mind something distinct from the body? Can a computer think? How can we know anything at all?

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 1400 (3) Philosophy and the Sciences**

Considers philosophical topics and concepts related to the natural sciences, such as the following: science and pseudo-science; scientific method; the nature of explanation, theory, confirmation, and falsification; the effect of science on basic concepts like mind, freedom, time, and causality; ethics of experimentation; and the relation of science to society.

**Additional Information:** GT Pathways: GT-AH3 - Arts Hum: Ways of Thinking

Arts Sci Core Curr: Natural Science Non-Sequence

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Distribution-Natural Sciences

**PHIL 1440 (3) Critical Thinking**

Develops students' skills in evaluating arguments and other aspects of critical thinking, focusing on the ways people reason and attempt to justify their beliefs. Activities may include modeling arguments, detecting common fallacies, examining the use (and misuse) of scientific evidence, and learning the basics of symbolic logic. Formerly titled "Introductory Logic."

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 1500 (3) Reading, Writing and Reasoning**

Teaches students how to write argumentative papers. Each seminar will focus narrowly on some controversial topic. For example, one seminar might focus on the existence of God, whereas another might question whether we have free will. In all cases, a significant portion of the course will be devoted to learning how to write cogent argumentative papers about controversial topics.

**Additional Information:** Arts Sci Core Curr: Written Communication

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Written Communication-Lower

**PHIL 1600 (3) Philosophy and Religion**

Philosophical introduction to some of the central concepts and beliefs of religious traditions, focusing particularly on the question of the existence of God and on the relation between religious beliefs and moral beliefs.

**Additional Information:** GT Pathways: GT-AH3 - Arts Hum: Ways of Thinking

Arts Sci Core Curr: Ideals and Values

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Asia Content

**PHIL 1700 (3) Philosophy and the Arts**

Explores controversial questions in aesthetics (philosophy of art), such as: What counts as art? What makes art, music, or even the natural world beautiful? What's the proper way to appreciate beauty? Do some people have better taste in music or art than others? If so, what does 'good taste' mean? Is pop music bad? What about cultural appropriation? Is it wrong when, e.g., white people perform music traditionally associated with black culture?

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 1750 (3) Philosophy through Literature**

Introduces philosophy through literature. Selected novels, plays, and short stories that exemplify traditional problems in philosophy are read and discussed.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 1800 (3) Open Topics/Philosophy**

**Repeatable:** Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 2140 (3) Environmental Justice**

Studies the intersection of environmental health and social justice, examining how political and economic institutions affect our planet and considering environmental problems in light of social problems that produce them. Topics may include sustainable development, climate justice, responsibility to future generations, global poverty, environmental racism, and the relation between economic systems (e.g., capitalism) and environmental concerns. Part philosophy, part policy, this class weaves together moral and factual issues, addressing fairness, rights, equality, and responsibility.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 2150 (3) Ethics and Sex**

Explores a variety of moral questions relating to sex and procreation. Topics may include arguments for and against the wrongness of masturbation, incest, pedophilia, bestiality, necrophilia, voyeurism, pornography, sadomasochism, prostitution, abortion, commercial surrogacy and cloning, as well as arguments addressing such additional subjects as what constitutes rape and whether procreation is morally obligatory, optional, or forbidden.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 2160 (3) Ethics and Information Technology**

Examines contemporary ethical issues concerning the use, misuse, and development of information technologies, with particular focus on the consequences such changes may have on the lives of individuals and on the shape of societies. Topics may include hacking and cyber crime; artificial intelligence; robotics and automation technologies, such as drones and self-driving cars; mass surveillance; use of personal information by corporate, law enforcement, and media interests; as well as gaming and virtual reality.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Social Sciences

**PHIL 2170 (3) Ethics and Economics**

Examines a variety of perspectives on problems at the intersection of ethics and economics, using both empirical data and moral reasoning to evaluate arguments concerning topics such as: government regulation of private industry, protectionist economic policies, fair work compensation, retirement benefits, and access to health care.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 2200 (3) Major Social and Political Theories**

Explores fundamental questions concerning the nature and legitimacy of major social and political institutions. Topics may include the nature of freedom; the meaning and value of democracy; competing conceptions of justice; the basis of political authority; civil disobedience; human dignity and individual rights; social conflict, tyranny, and war; just and unjust distributions of wealth; the relation between ethics and politics; the nature of political belief; and arguments for and against socialism, communism, libertarianism, and anarchism.

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 2220 (3) Philosophy and Law**

Considers controversies about the law in general and the U.S. system in particular. Questions may include: What is law? What should the law prohibit (e.g., abortion, drug use, prostitution, cloning)? Is there a moral obligation to obey the law? Can civil disobedience be justified? How do we justify punishing those who break the law? Is capital punishment morally justifiable?

**Additional Information:** Arts Sci Core Curr: United States Context  
Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 2240 (3) Philosophy and Sports**

Introduces students to philosophical issues surrounding sport. Topics may include: paying college athletes, sex testing in sports, the use of performance enhancing drugs, sports and gambling, the nature and value of sports and sportsmanship, gender equity and sports, the ethics of strategic fouling, sports fandom, the coach-athlete relationship, athletes as role models, and the risk of extreme bodily harm.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Social Sciences

**PHIL 2250 (3) Philosophy and Video Games**

Introduces philosophical issues raised in and by video games. Students will discuss ethical, aesthetic, and/or metaphysical questions such as: Is it okay to engage in otherwise immoral behavior (like violence or murder) in video games? What do in-game choices say about you? What is the relationship between you and your avatar? Is gaming culture misogynistic? Are video games art? Is virtual reality *real*? Is social media a kind of video game?

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 2260 (3) Philosophy and Food**

Introduces students to topics and issues connected to the nature of food. Helps students investigate questions about our food choices, production and distribution, as well as connection food bears to culture and identity. No previous experience in philosophy required or presupposed.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 2270 (3) Philosophy and Race**

Explores the historical relationship between western philosophy and race and investigates the ways in which philosophy can be used to address contemporary racial issues.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Arts Sci Gen Ed: Diversity-U.S. Perspective

**PHIL 2290 (3) Philosophy and Gender**

Analyzes critically the concepts of sex, gender, and their intersection with other aspects of identity, exploring how these impact the extent to which people face injustice because of their gender.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 2290

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Arts Sci Gen Ed: Diversity-U.S. Perspective

**PHIL 2380 (3) Philosophy and Psychiatry**

Introduces problems at the intersection of psychiatry and philosophy, combining philosophy's critical thinking tools with psychiatry's empirical grounding. Considers theoretical problems (What is mental disorder? Is there a boundary between normality and psychopathology at all? Is autism, e.g., a disorder?), as well as ethical problems (Is it permissible to administer psychiatric treatment against a patient's will? Is it permissible to amputate the limb of a patient with Body Integrity Dysphoria who strongly desires the amputation?).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 2390 (3) Philosophy and Psychology**

Interdisciplinary course on issues where philosophy and psychology meet. For example, topics such as selfhood, motivation, psychotherapy, freedom, and human behavior are examined. Selected readings in philosophy and psychology are required.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 2440 (3) Symbolic Logic**

Introduces students to sentential logic, the logic of quantification and some of the basic concepts and results of metalogic (interpretations, validity and soundness).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 2490 (3) The Power of Words**

Discusses philosophical problems about language and how our using it shapes the world. Topics may include: what language is, what we can do with words, how social norms affect meaning and communication, the relationship of language to features of the social world like race, gender, and ideology, the nature of speech acts, hate speech, propaganda, pejoratives, slurs, freedom of speech, humor, deception, translation, how language conveys thoughts, and how language shapes thought.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 2710 (3) Philosophy and Film**

Introduces students to issues in philosophy through film, including consideration of film itself as an artistic medium. Students will watch films and wrestle with the philosophical problems they present. Topics will vary according to film selection and may include: the distinction (if any) between high and low art; aspects of film production that support or create aesthetic value; and how (if at all) film can and should be used to foment socio-political change.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 2750 (3) Philosophy and Science Fiction**

Explores philosophical issues in science fiction literature and film. Topics may include time travel, artificial intelligence, free will, personal identity, and how scientific advances will change human life and society. Students may read science fiction stories and philosophical articles, and watch several movies.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 2800 (3) Open Topics/Philosophy**

**Repeatable:** Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 2840 (1-3) Independent Study**

Department-enforced prerequisite: 6 hours of philosophy course work (minimum grade D-).

**Repeatable:** Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to Philosophy (PHIL) majors or minors with 27-180 credits (Sophomores, Juniors, Seniors) only.

**PHIL 3000 (3) History of Ancient Philosophy**

Surveys developments in metaphysics, ethics, logic, and philosophy of mind from the Pre-Socratics through Hellenistic philosophy, focusing primarily on the arguments of the philosophers. Topics may include: Zeno's paradoxes of time and motion; Democritean atomism; Plato on knowledge, reality, ethics, and politics; Aristotle on logic and natural philosophy; Epicurus on pleasure and friendship; Epicurean atomism; the Stoics on materialism, determinism, and vagueness; and the coherence and practicality of global skepticism.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite 6 hours of philosophy coursework.

**Additional Information:** Arts Sci Core Curr: Historical Context  
Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 3010 (3) History of Modern Philosophy**

Introduces modern philosophy, focusing on the period from Descartes through Kant. In addition to careful analysis of philosophical arguments, attention is paid to the ways in which philosophers responded to and participated in major developments in the 17th and 18th century, such as the scientific revolution.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite 6 hours of philosophy coursework.

**Additional Information:** Arts Sci Core Curr: Historical Context  
Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 3030 (3) Asian Philosophies**

Explores various topics in Asian philosophy. Students will be exposed to and critically engage with a range of ethical, metaphysical, epistemological, and other philosophical issues in Chinese, Indian, and other Asian traditions, including discussion of how major Asian traditions relate to other approaches to philosophy. Specific topics and themes vary from term to term.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 3040 (3) African Philosophy: Personhood and Morality**

Examines conceptions of personhood, humanity, and morality among several African ethnic groups (including the Akan and Nso), employing a comparative approach that challenges traditional Western philosophical presuppositions and builds sensitivity to unfamiliar conceptions of morality and politics. Gives special attention to the effects of history, geography, and the environment on different societies; ways of conceptualizing ethical questions. Topics include human rights; free will and responsibility; custom and morality; and methodological questions concerning cross-cultural comparisons.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite 6 hours of Philosophy course work.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

**PHIL 3050 (3) Continental Philosophy**

Considers texts, figures, and/or movements in Continental philosophy from the nineteenth century onwards. While diverse, Continental thought tends to involve radical reflection on the methodology of philosophy, challenging traditional conceptions of subjectivity and objectivity while contextualizing knowledge and rationality within the structures of human existence, history, and culture. Topics may be drawn from German idealism, phenomenology, psychoanalysis, existentialism, hermeneutics, poststructuralism, postmodernism, critical theory, Continental feminism, gender theory, queer theory, new materialism, and contemporary Marxist thought.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite 6 hours of philosophy coursework.

**PHIL 3100 (3) Ethical Theory**

Examines important doctrines and arguments in various areas of theoretical ethics, such as the normative ethics of behavior, axiology, virtue theory and metaethics. Department enforced prerequisite: 3 hours of philosophy course work (minimum grade C-).

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite 6 hours of philosophy course work.

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 3110 (3) Feminist Practical Ethics**

Examines issues of public policy and personal ethics in light of the feminist commitment to gender justice. Readings for the course will present competing feminist points of view on topics such as: the environment, sex trafficking, immigration, abortion rights, the fashion and beauty industries, cosmetic surgery, food, and militarism. Contributes to an understanding of gender diversity from a U.S. perspective, fostering further insight into social, political, economic, and cross-cultural relations in America.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 3110

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite PHIL 2290 or WGST 2000 or WGST 2290.

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-U.S. Perspective

**PHIL 3140 (3) Environmental Ethics**

Examines major traditions in moral philosophy to see what light they shed on value issues in environmental policy and the value presuppositions of the economic, ecological, and juridical approaches to the environment.

**Equivalent - Duplicate Degree Credit Not Granted:** ENVS 3140

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PHIL 1100 or PHIL 1200 or PHIL 2200 or PHIL 3100 or PHIL 3200.

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 3160 (3) Bioethics**

Analysis of ethical problems involved in such issues as abortion, euthanasia, organ transplants, eugenics, treatment of the patient as a person and the institutional nature of the health care delivery system.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite 6 hours of philosophy coursework.

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 3170 (3) Philosophy and Ethics of Artificial Intelligence**

Examines the philosophy and ethics of artificial intelligence (AI), exploring existing machine learning algorithms, autonomous AI systems of the near future (e.g., self-driving cars, autonomous weapons), and advanced AI of the distant future (e.g., superintelligence, robot rights), with applications to medicine, criminal justice, social media, and warfare. Questions may include: Are machine learning systems biased? Who deserves blame when autonomous systems make mistakes? Will AI systems ever be conscious or deserve rights?

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 3180 (3) Critical Thinking: Contemporary Topics**

Looks at a selected topic such as nuclear disarmament, racial and sexual discrimination, animal rights, or abortion and euthanasia by examining issues through the lens of critical philosophical analysis. Reviews the reasoning behind espoused positions and the logical connections and argument forms they contain.

**Repeatable:** Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite 6 hours of philosophy coursework.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 3190 (3) War and Morality**

Focuses on moral issues raised by war. When, if ever, can war be morally justified? Are rules of war globally applicable, or are they affected by local religious and cultural frameworks? Are colonized nations bound by the same rules of war as their colonizer states? Are states ever obligated to intervene to stop massacres or genocides in other states?

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite 6 hours of PHIL coursework.

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 3200 (3) Social and Political Philosophy**

Introduces students to an in-depth examination and analysis of central operational ideas in social and political philosophy, such as power, freedom, equality, democracy, justice, rights, community, individuality, civil disobedience, and law. A thorough treatment of any of these ideas may call for some cross-cultural and/or comparative political and social analysis.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite 6 hours of philosophy coursework.

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 3260 (3) Philosophy and the International Order**

Considers philosophical topics concerning the international economic, political and legal systems. Topics that may be considered include the nature of international law, war and peace, humanitarian intervention, international justice, world hunger and human rights.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite 6 hours of philosophy coursework.

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective

**PHIL 3290 (3) War and Morality and the Enduring Struggle for Freedom**

Explores normative theories of just war, political obligation, and collective self-determination, and select empirical studies of the causes and effects of violent revolutions. Designed primarily for PHIL, PSCI, IAFS, and PACS students, this interdisciplinary course involves an intensive two-week abroad study in Budapest, Hungary, where students will visit diverse historical sites that bear out normative and empirical lessons learned in the classroom about collective armed conflict and the enduring struggle for freedom.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite Three hours of PHIL coursework.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 3310 (3) Cognitive Science**

Introduces cognitive science, drawing from psychology, philosophy, artificial intelligence, neuroscience, and linguistics. Studies the linguistic relativity hypothesis, consciousness, categorization, linguistic rules, the mind-body problem, nature versus nurture, conceptual structure and metaphor, logic/problem solving and judgment. Emphasizes the nature, implications and limitations of the computational model of mind.

**Equivalent - Duplicate Degree Credit Not Granted:** LING 3005 and CSCI 3702 and PSYC 3005 and SLHS 3003 and CSPB 3702

**Recommended:** Prerequisites two of the following CSCI 1300 or LING 2000 or PHIL 2440 or PSYC 2145.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Social Sciences

**PHIL 3410 (3) History of Science: Ancients to Newton**

Surveys the history of science up to Newton, tracing the emergence of scientific thinking from religious and philosophical roots in the Near East and Greece to its development in the Middle Ages and Renaissance, culminating with Newton and the seventeenth-century Scientific Revolution. Additional topics may include early discoveries concerning mathematics; technological advancement and its relation to the evolution of scientific theory; and cross-cultural comparisons of scientific and technological traditions (e.g., Chinese traditions).

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite 6 hours of philosophy coursework.

**Additional Information:** Arts Sci Core Curr: Historical Context  
Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Natural Sciences

**PHIL 3430 (3) History of Science: Newton to Einstein**

Surveys the development of modern scientific thought, with an emphasis on the natural sciences, beginning with Newton and ending with the radical and controversial implications of relativity theory and quantum mechanics. Topics may include the rise of modern chemistry, Darwin's earth-shattering achievements in biology, the beginnings of the social sciences (and their relationship with the natural sciences), the rise of ecology and holistic science, and the philosophical interpretation of scientific method and explanation.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite 6 hours of philosophy coursework.

**Additional Information:** Arts Sci Core Curr: Historical Context  
Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Natural Sciences

**PHIL 3480 (3) Critical Thinking/Writing in Philosophy**

Focuses upon the fundamental skills, methods, concepts and distinctions that are essential for the study of philosophy. Basic skills covered include the writing of philosophy papers, the reading of articles and the extraction and evaluation of arguments.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) Philosophy (PHIL) majors only (excluding minors).

**Recommended:** Prerequisites 6 hours of philosophy course work.

**Additional Information:** Arts Sci Core Curr: Written Communication  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Written Communication-Upper

**PHIL 3600 (3) Philosophy of Religion**

Explores fundamental questions concerning major world religions, especially the Abrahamic religions. Possible topics include: the divine attributes (Is perfect goodness compatible with the existence of hell? Can God be truly omnipotent?), the problem of evil, divine hiddenness and evidence of the existence of God, religious experience, the legitimacy of faith, the dilemma of freedom and divine foreknowledge, God and morality, tensions between religion and science, conceptions of the self in Abrahamic religions and in Buddhism.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite 6 hours of philosophy coursework.

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 3700 (3) Aesthetic Theory**

Introduces major theories of aesthetics and contemporary discussions of problems, such as the nature of art and the problem of evaluations in art.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite 6 hours of philosophy coursework.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 3800 (3) Open Topics in Philosophy**

See current departmental announcements for specific content.

Department enforced prerequisite: 6 hours of philosophy course work.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 3840 (1-3) Independent Study**

Department enforced prerequisite: Minimum of 6 completed hours of philosophy course work (minimum grade D-).

**Repeatable:** Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) Philosophy (PHIL) majors only.

**PHIL 3930 (1-6) Internship in Applied Philosophy**

Provides an academically supervised opportunity for junior and senior Philosophy students to work in public or private organizations to gain practical knowledge and experience, allowing students to apply philosophical theory to real-world problems while enriching their understanding of philosophy itself through its application. Requires the student to pursue an academic research project and compose an original research paper. Department consent required, as well as a minimum 3.0 cumulative GPA.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite 9 hours philosophy course work.

**PHIL 4010 (3) Single Philosopher**

Discusses the work of a single historical figure in philosophy with the aim of reaching a broad and deep understanding of the philosopher's thought.

**Equivalent - Duplicate Degree Credit Not Granted:** PHIL 5010

**Repeatable:** Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite 12 hours philosophy course work.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 4020 (3) Topics in the History of Philosophy**

Examines a specific philosophical problem over an extended historical period.

**Equivalent - Duplicate Degree Credit Not Granted:** PHIL 5020

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisites 12 hours of philosophy course work including PHIL 3000 and PHIL 3010.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 4030 (3) Medieval Philosophy**

Introduces philosophy from the late Roman era to the 14th century. Philosophers studied may include Augustine, Boethius, Aquinas, and Ockham. Topics range over religion, ethics, mind, and metaphysics.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite 12 hours philosophy course work.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 4040 (3) Studies in 20th Century Philosophy**

Studies two or three major philosophies prominent during the last century.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite 12 hours philosophy course work.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 4070 (3) Existentialist Philosophy**

Examines central figures and texts in the existential tradition, from Kierkegaard and Nietzsche to Heidegger and Sartre.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite 12 hours philosophy course work.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 4110 (3) Contemporary Moral Theory**

Provides an in-depth look at some recent work in moral theory, usually organized around a single topic. Topics vary from year to year. Previous topics include: consequentialism and its critics, virtue theory, deontological ethics, moral psychology, well-being, and metaethics.

**Equivalent - Duplicate Degree Credit Not Granted:** PHIL 5110

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires prerequisite or corequisite of PHIL 3100 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

Restricted to PHIL majors or PHIL minors.

**Recommended:** Prerequisite 12 hours of PHIL coursework (all minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 4120 (3) Philosophy and Animals**

Examines the moral status of nonhuman animals, and its implications for the common use of animals as food and experimental subjects for humans.

**Equivalent - Duplicate Degree Credit Not Granted:** PHIL 5120

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisites PHIL 1100 or PHIL 1200 or PHIL 3100.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 4150 (3) Topics in Applied Ethics**

Discusses advanced work in applied normative philosophy. Topics vary from semester to semester and may focus on one or two specific areas (e.g., race, procreative ethics, military ethics, sports ethics) or take a broader approach that includes issues from across a wider range of subjects.

**Equivalent - Duplicate Degree Credit Not Granted:** PHIL 5150

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite 12 hours of PHIL coursework.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 4200 (3) Contemporary Political Philosophy**

Provides a survey of recent approaches to political philosophy: liberalism (Rawls, Dworkin); libertarianism (Nozick); communitarianism (Sandel, Macintyre); feminism (Jaggar). Topics and readings vary with the instructor.

**Equivalent - Duplicate Degree Credit Not Granted:** PHIL 5200

**Requisites:** Requires prerequisite courses of PHIL 2200 or PHIL 3200 (all minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite 12 hours of philosophy course work.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 4210 (3) Classical Greek Political Thought**

Studies main representatives of political philosophy in antiquity (Plato, Aristotle, Cicero) and of the most important concepts and values of ancient political thought. No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 4041 and CLAS 5041 and HIST 4041

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 4250 (3) Marxism**

Examines the economic, political, and philosophical thought of Karl Marx, placing it in the context of his predecessors in the classical German tradition and his successors (and critics) in the twentieth century. Themes may include the development of historical materialism; Marx's analysis of estranged labor; the critique of utopian socialism; the categories of Marxist economic analysis; the relation between politics, philosophy, and economics; theories of labor, surplus value, and exploitation; and the fate of communism.

**Equivalent - Duplicate Degree Credit Not Granted:** GRMN 4251

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite 12 hours of GRMN or PHIL course work or instructor consent.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Distribution-Social Sciences

**PHIL 4260 (3) Philosophy of Law**

Considers philosophical topics concerning law and the U.S. legal system. Topics that may be considered include the nature of law, relations between law and morality, justifications of punishment, the moral duty to obey the law, and law and liberty.

**Equivalent - Duplicate Degree Credit Not Granted:** PHIL 5260

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite 12 hours philosophy course work.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 4300 (3) Philosophy of Mind**

Discusses topics in the philosophy of mind, including the mind-body problem, consciousness, intentionality, rationality, mental causation and the nature of mental states.

**Equivalent - Duplicate Degree Credit Not Granted:** PHIL 5300

**Requisites:** Requires prerequisite courses PHIL 2440 and PHIL 3010 and PHIL 3480 and PHIL 4340 (all minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 4340 (3) Epistemology**

Studies some of the main topics of theory of knowledge, such as evidence, justification, prediction, explanation, skepticism, and concept acquisition.

**Equivalent - Duplicate Degree Credit Not Granted:** 5340

**Repeatable:** Repeatable for up to 15.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) Philosophy (PHIL) majors only.

**Recommended:** Prerequisites PHIL 3480 and 12 credit hours of philosophy including PHIL 2440 and PHIL 3010.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 4360 (3) Metaphysics**

Examines philosophical questions and debates about the general nature of reality. Specific topics may include: existence; identity; change; particulars and universals; parts and wholes; space and time; possibility and necessity; freedom and determinism; laws of nature; causation; and the posits of mathematical and physical theories.

**Equivalent - Duplicate Degree Credit Not Granted:** PHIL 5360

**Requisites:** Requires prerequisite courses PHIL 2440 and PHIL 3010 and PHIL 3480 (all minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 4370 (3) Free Will and Determinism**

Explores the full range of questions relating to the problem of free will and determinism. Topics may include; the scientific evidence for determinism, hard versus soft determinism, arguments for and against the compatibility of free will and determinism, moral responsibility and the principle of alternate possibilities, hierarchical motivation, the deep self, reactive attitudes, the intelligibility question for libertarianism, divine foreknowledge.

**Equivalent - Duplicate Degree Credit Not Granted:** PHIL 5370

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite 12 hours philosophy course work.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 4400 (3) Philosophy of Science**

Advances students' knowledge of topics in philosophy of science and develops students' ability to think and write clearly about science. Topics may include scientific methodology; distinguishing science from pseudoscience; characterizing experimental and historical sciences; interpretations of special and general relativity; interpretations of quantum mechanics; the nature of biological species; approaches to defining life; criteria for identifying alien life; artificial intelligence; neuroscience and consciousness; fundamental physical properties and laws of nature; chance and probability; and causation.

**Equivalent - Duplicate Degree Credit Not Granted:** PHIL 5400

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite 12 hours philosophy course work including PHIL 2440.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 4440 (3) Topics in Logic**

Provides for offering courses in a variety of topics in logic, including, but not limited to, mathematical logic, philosophical issues in logic, probability theory, decision theory, and inductive logic.

**Equivalent - Duplicate Degree Credit Not Granted:** PHIL 5440

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite 12 hours PHIL coursework, including PHIL 2440.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 4450 (3) History and Philosophy of Physics**

Discusses the epistemic question of what characterizes good physics research as well as the metaphysical question of what our best physics research tells us about the world. Topics may include case studies of physics experiments, theory choice, and scientific methodology in physics, as well as foundational metaphysical questions in statistical mechanics, quantum mechanics, special and general relativity, chance and probability, and the laws of nature.

**Equivalent - Duplicate Degree Credit Not Granted:** PHIL 5450 and PHYS 4450 and PHYS 5450

**Requisites:** Requires prerequisite course PHYS 1020 or PHYS 1120 or PHYS 2020 or PHIL 1400 or PHIL 2440 or PHIL 3410 or PHIL 3430 or PHIL 4400 (all minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Natural Sciences

**PHIL 4460 (3) Modal Logic**

Introduces the most philosophically relevant kind of logic that builds on PHIL 2440. Modal logic is the logic of the concepts of necessity, possibility and contingency. A variety of systems of sentential modal logic will be covered, along with the standard system of first-order modal logic.

**Equivalent - Duplicate Degree Credit Not Granted:** PHIL 5460

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite PHIL 2440.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 4470 (3) Probability and Rational Choice**

Examines issues in four related areas: probability theory (e.g. the interpretation of probability, the raven paradox, and the principle of indifference), decision theory (e.g., the Newcomb problem, the toxin puzzle, and Pascal's wager), game theory (e.g., Prisoner's dilemma, tragedy of the commons, and Schelling points), and social choice theory (e.g., Arrow's theorem). Familiarity with symbolic logic is strongly recommended.

**Equivalent - Duplicate Degree Credit Not Granted:** PHIL 5470

**Recommended:** Prerequisite PHIL 2440 and 12 hours philosophy course work.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 4480 (3) Formal Methods in Philosophy**

Introduces formal methods used in contemporary philosophy beyond classical first-order logic. Specific topics may vary. Examples: extensions of and alternatives to first-order logic (including propositional and quantified modal logic and higher-order and plural logic), alternatives to classical logic (including many-valued and intuitionistic systems), generalized and substitutional quantifiers, the lambda calculus, indicative and subjunctive conditionals, probability theory, inductive logic, and decision theory.

**Equivalent - Duplicate Degree Credit Not Granted:** PHIL 5480

**Requisites:** Requires prerequisite course of PHIL 2440 (minimum grade B). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 4490 (3) Philosophy of Language**

Examines the nature of language through topics such as truth, reference, meaning, and use, as well as the general relationships between language and action, cognition, logic, and reality.

**Equivalent - Duplicate Degree Credit Not Granted:** PHIL 5490

**Requisites:** Requires prerequisite course PHIL 2440 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 4800 (3) Open Topics in Philosophy**

See current departmental announcements for specific content.

**Repeatable:** Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite 12 hours philosophy course work.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 4830 (3) Senior Seminar in Philosophy**

Critical in-depth examination of a selected philosophical topic.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) Philosophy (PHIL) majors only.

**Recommended:** Prerequisite 15 hours philosophy course work.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PHIL 4840 (1-3) Independent Study**

Department enforced prerequisite: Minimum of 6 completed hours of philosophy course work (minimum grade D-).

**Repeatable:** Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to Philosophy (PHIL) majors or minors with 87-180 credits (Seniors, Fifth Year Senior) only.

**PHIL 4950 (3) Honors Thesis**

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite 12 hours philosophy course work.

**Additional Information:** Arts Sciences Honors Course

## Philosophy - Bachelor of Arts (BA)

The undergraduate degree in philosophy emphasizes knowledge and awareness of:

- Some of the principal philosophical texts in the history of western philosophy, from its beginnings in Greece to the late 19th century.
- Some of the main currents in 20th century philosophy, including some acquaintance with contemporary philosophical issues and modes of inquiry.

- A single major author or a single philosophical movement.
- Elementary formal logic.

In addition, students completing the major will develop the knowledge and skills to:

- Form reasoned opinions about the issues—moral, religious, political, etc.—that educated people debate.
- Understand, analyze and evaluate complex arguments and theories.
- Distinguish between the main thrust of an argument or position and what is ancillary to it.
- Discover and critically examine the underlying presuppositions of major systems of ideas or programs for action.
- See important connections between different systems of ideas or programs for action.
- Explain difficult ideas and concepts in an informed, effective and coherent manner.
- Develop a thesis and present a coherent argument for it.
- Write a clear and coherent essay.
- Engage in rational and productive discussion of issues and arguments.

In addition to the general philosophy major, the department offers two topically oriented major tracks that are interdisciplinary in nature: Law and Society; and Values and Social Policy.

## Requirements

### Program Requirements

For the undergraduate degree in philosophy, students must take 33 to 45 credit hours in philosophy, no fewer than 18 of which must be upper division, earning 33 credit hours with a grade of C- or better in each course in philosophy and a C (2.000) average for all work attempted in philosophy. No fewer than 12 of those credit hours must be completed on the Boulder campus. No more than 3 credit hours of independent study may count toward the minimum requirement. No more than 3 hours of internship credit (PHIL 3930) may count towards the elective requirement. A single course can count towards at most one area requirement.

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below.

### Required Courses and Credits

Code	Title	Credit Hours
<b>History</b>		
PHIL 3000	History of Ancient Philosophy	3
PHIL 3010	History of Modern Philosophy	3
Select one of the following: 3		
PHIL 4010	Single Philosopher	
PHIL 4020	Topics in the History of Philosophy	
PHIL 4030	Medieval Philosophy	
PHIL 4040	Studies in 20th Century Philosophy	
PHIL 4070	Existentialist Philosophy	
PHIL 4250	Marxism	
<b>Logic</b>		
Select one of the following: 3		
PHIL 2440	Symbolic Logic	

PHIL 4440	Topics in Logic (Mathematical Logic)	
PHIL 4460	Modal Logic	
<b>Philosophical Writing</b>		
PHIL 3480	Critical Thinking/Writing in Philosophy	3
<b>Values</b>		
PHIL 3100	Ethical Theory	3
Select one of the following:		3
PHIL 2140	Environmental Justice	
PHIL 2150	Ethics and Sex	
PHIL 2160	Ethics and Information Technology	
PHIL 2170	Ethics and Economics	
PHIL 2200	Major Social and Political Theories	
PHIL 2220	Philosophy and Law	
PHIL 2270	Philosophy and Race	
PHIL 2290	Philosophy and Gender	
PHIL 3040	African Philosophy: Personhood and Morality	
PHIL 3110	Feminist Practical Ethics	
PHIL 3140	Environmental Ethics	
PHIL 3160	Bioethics	
PHIL 3170	Philosophy and Ethics of Artificial Intelligence	
PHIL 3190	War and Morality	
PHIL 3200	Social and Political Philosophy	
PHIL 3260	Philosophy and the International Order	
PHIL 3700	Aesthetic Theory	
PHIL 4110	Contemporary Moral Theory	
PHIL 4120	Philosophy and Animals	
PHIL 4150	Topics in Applied Ethics	
PHIL 4200	Contemporary Political Philosophy	
PHIL 4250	Marxism	
PHIL 4260	Philosophy of Law	
<b>Metaphysics and Epistemology</b>		
PHIL 4340	Epistemology	3
Select one of the following:		3
PHIL 3600	Philosophy of Religion	
PHIL 4040	Studies in 20th Century Philosophy	
PHIL 4300	Philosophy of Mind	
PHIL 4360	Metaphysics	
PHIL 4370	Free Will and Determinism	
PHIL 4400	Philosophy of Science	
PHIL 4490	Philosophy of Language	
<b>Electives</b>		
Any two PHIL courses that are not taken to satisfy any of the above requirements		6
<b>Total Credit Hours</b>		<b>33</b>

## Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in philosophy, students should meet the following requirements:

- By the beginning of the second semester, declare the major and meet with an undergraduate advisor at the time the major is declared.
- In each of the next five semesters, complete an average of 6.7 credit hours of required philosophy courses.
- By the end of the fifth semester of study, complete PHIL 2440, PHIL 3480, PHIL 3000 and PHIL 3010.

## Program Tracks

The department also offers two topically oriented tracks within the major that are interdisciplinary in nature: law and society and values and social policy. These tracks require two semesters in the history of philosophy, as well as a series of core courses that vary according to the track. A student intending to complete a topical track within the philosophy major should see the departmental undergraduate advisor as soon as possible.

### Values and Social Policy Track

Students must take 33 to 45 credit hours in philosophy, no fewer than 18 of which must be upper division, earning 33 credit hours with a grade of C- or better in each course in philosophy and a C (2.000) average for all work attempted in philosophy. No fewer than 12 of the upper-division credit hours must be completed on the Boulder campus. No more than 3 credit hours of independent study and no more than 3 hours of internship credit (PHIL 3930) may count toward the minimum credit requirements.

Students must complete the required philosophy courses listed below, 15 credit hours in allied fields, and the general requirements of the College of Arts and Sciences.

Code	Title	Credit Hours
<b>Group I</b>		
Required courses:		
PHIL 1440	Critical Thinking	3
or PHIL 2440	Symbolic Logic	
PHIL 2200	Major Social and Political Theories	3
PHIL 3000	History of Ancient Philosophy	3
PHIL 3010	History of Modern Philosophy	3
PHIL 3100	Ethical Theory	3
PHIL 3200	Social and Political Philosophy	3
<b>Group II</b>		
Select four of the following courses:		12
PHIL 2140	Environmental Justice	
PHIL 2150	Ethics and Sex	
PHIL 2160	Ethics and Information Technology	
PHIL 2170	Ethics and Economics	
PHIL 2220	Philosophy and Law	
PHIL 2270	Philosophy and Race	
PHIL 2290	Philosophy and Gender	
PHIL 3040	African Philosophy: Personhood and Morality	
PHIL 3110	Feminist Practical Ethics	
PHIL 3140	Environmental Ethics	
PHIL 3160	Bioethics	
PHIL 3190	War and Morality	
PHIL 3260	Philosophy and the International Order	
PHIL 3700	Aesthetic Theory	
PHIL 3930	Internship in Applied Philosophy	

PHIL 4110	Contemporary Moral Theory	
PHIL 4120	Philosophy and Animals	
PHIL 4150	Topics in Applied Ethics	
PHIL 4200	Contemporary Political Philosophy	
PHIL 4250	Marxism	
PHIL 4260	Philosophy of Law	
Other courses with advisor's approval		
<b>Elective</b>		<b>3</b>
Any PHIL course that is not taken to satisfy any of the above requirements		
<b>Allied Fields</b>		
15 credit hours of approved courses in allied fields. For further information, contact the Track Advisor, Dave Youkey.		15

**Recommended Four-Year Plan of Study**

Through the required coursework for the major, students will complete all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement and the Upper-division Written Communication component of the Gen Ed Skills Requirement. Depending on the courses selected in the major electives, students can potentially complete some credits in the Natural Sciences and Social Sciences areas of the Distribution and both the U.S. Perspective and the Global Perspective components of the Gen Ed Diversity Requirement.

**Year One**

<b>Fall Semester</b>		<b>Credit Hours</b>
PHIL 1000	Introduction to Philosophy	3
Gen. Ed. Distribution/Diversity course (example: Social Sciences/US Perspective)		3
Gen. Ed. Skills course (example: QRMS)		3
Elective		3
Elective		3
<b>Credit Hours</b>		<b>15</b>

**Spring Semester**

PHIL required elective		3
Gen. Ed. Skills course (example: Lower-division Written Communication--PHIL 1500, if possible)		3
Gen. Ed. Distribution course (example: Natural Sciences with Lab)		4
Elective		3
Elective		3
<b>Credit Hours</b>		<b>16</b>

**Year Two**

<b>Fall Semester</b>		
PHIL 3480	Critical Thinking/Writing in Philosophy	3
PHIL 2440	Symbolic Logic	3
Gen. Ed. Distribution/Diversity course (example: Social Sciences/Global Perspective)		3
Gen. Ed. Distribution course (example: Natural Sciences)		4
<b>Credit Hours</b>		<b>13</b>

**Spring Semester**

PHIL 3000	History of Ancient Philosophy	3
PHIL 3010	History of Modern Philosophy	3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Elective		3
Elective		3
<b>Credit Hours</b>		<b>15</b>

**Year Three**

<b>Fall Semester</b>		
PHIL 3100	Ethical Theory	3
PHIL Values Course (see Degree Audit for choices)		3
Gen. Ed. Distribution course (example: Natural Sciences)		4
Upper-Division Elective		3

Upper-Division Elective	3
Free Elective	3
<b>Credit Hours</b>	<b>15</b>

<b>Total Credit Hours</b>	<b>120</b>
---------------------------	------------

## Learning Outcomes

Upon completing the program, students will be able to:

- Understand the mechanics of critical thinking. Students on the general track will be competent in the basics of symbolic logic. Students on the values social policy and law society tracks will be able to model and evaluate arguments.
- Construct organized argumentative papers.
- Interpret and criticize texts and arguments from the history of philosophy.
- Engage with questions concerning human values and assess arguments for and against the ethical theories responding to them.
- Recognize the main theories in epistemology, assess arguments for and against them and apply them to analyze problems and cases. (General track)
- Apply philosophical reasoning to contemporary social, political and/or legal problems. (Values social policy and law society tracks)

## Bachelor's–Accelerated Master's Degree Program(s)

The bachelor's–accelerated master's (BAM) degree program options offer currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first but begin taking graduate coursework as undergraduates (typically in their senior year).

Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree. In addition, staying at CU Boulder to pursue a bachelor's–accelerated master's program enables students to continue working with their established faculty mentors.

## BA and MA in Philosophy

The Philosophy Department offers a five-year program that leads to both the BA and MA in philosophy. For complete details on the program, please see the Philosophy Department website (<https://www.colorado.edu/philosophy/undergraduate/concurrent-ba-ma-program/>).

### Admissions Requirements

In order to gain admission to the BAM program named above, a student must meet the following criteria:

- Have a cumulative GPA of 3.0 or higher.
- Not have any MAPS deficiencies (students admitted to CU Boulder prior to Summer 2023 only).
- Transfer students must have completed a minimum of 24 credit hours at CU Boulder with degree-seeking status.
- Have completed the prerequisite course requirements as described below.

### Prerequisite Course Requirements

The applicant must have taken all of the following courses and received a grade of A- or better in each of them:

- PHIL 2440 (or either PHIL 4440 or PHIL 4460)
- PHIL 3000 (or PHIL 3010)
- PHIL 3100
- PHIL 3480

Additionally, the applicant must either have taken PHIL 4300, PHIL 4340, PHIL 4360, PHIL 4400 or PHIL 4490, earning a grade of A- or better, or be enrolled in one of those courses during the semester in which the student applies for admission to the BAM program. In the latter case, admission to the BAM program will not be decided until the student's midterm grade for the 4000-level course in question has been furnished to the Graduate Admissions Committee; the midterm grade must be an A- or better.

### Application Process

To apply to the BAM program, submit the online application. Additional application requirements:

- *Letters of recommendation:* Please ask each of your letter-writers to submit a letter of recommendation to the Philosophy Department's Associate Chair for Graduate Studies.
- *GRE scores* need not be submitted.
- *Deadlines:* A student can apply to this program no earlier than the second semester of their junior year. Fall applications must be received before October 25. Spring applications must be received by the Friday before Spring Break.
- *Commitment:* Students who are admitted to the BAM program may not pursue a double-degree or double-major of any other kind.
- *Minimum cumulative GPA:* All students enrolled in the BAM program must maintain a cumulative GPA of 3.0 throughout their time in the program. The time limit for the program is 5 years.

### Program Requirements

To complete the BAM program, the student will fulfill separately all requirements for the BA and thesis-based MA, with the exception that two 4000-level courses can satisfy requirements for both the BA and the MA. In addition to these two overlapping 4000-level courses, the student must complete *all of the remaining requirements* for the general track ([http://www.colorado.edu/philosophy/sites/default/files/attached-files/major\\_reqs.pdf](http://www.colorado.edu/philosophy/sites/default/files/attached-files/major_reqs.pdf)) of the philosophy major, as well as all of the

remaining requirements for the thesis-based MA in Philosophy (<http://www.colorado.edu/philosophy/graduate/ma-program/>). Students may take up to and including 12 hours while in the undergraduate program which can later be used toward the master's degree. Students must apply to graduate with the bachelor's degree, and apply to continue with the master's degree, early in the semester in which the undergraduate requirements will be completed.

In order to make it possible for the student to finish both degrees in five years, during the fourth year the student will be required to take two graduate-level courses (5000-level or above), which will *not* count toward the student's BA requirements. One of these two courses will be a three-credit version of PHIL 5840, to be taken in the second semester of the student's fourth year. In this Independent Study, the student will work individually with their projected thesis advisor to identify a topic for the student's MA thesis and will do research on that topic. This ensures that the student will enter their fifth year having done a significant amount of work on the master's thesis project. During each semester of the student's fifth year, they will typically take two 5000-level courses and three credits of master's thesis hours. As indicated above, the two graduate-level courses taken during the student's fourth year will *not* satisfy requirements for the BA. Thus, the student must be in a position (perhaps as a result of having entered with AP credits or having taken summer courses at CU) to fit two demanding courses into the fourth-year schedule, in addition to whatever courses are needed to satisfy remaining BA requirements.

Note that beyond the required Independent Study course referred to above, no independent study courses can be used to fulfill MA course requirements for students in the BAM program.

During the second semester of the fifth year, the student must successfully defend their master's thesis in an oral examination before a committee consisting of the student's thesis advisor and two other regular faculty members.

## Philosophy - Minor

A minor is offered in philosophy. Declaration of a philosophy minor is open to any student enrolled at CU Boulder, regardless of college or school.

## Requirements

For the minor in philosophy, students must take 18 credit hours in philosophy (PHIL), earning 18 credit hours with a grade of C- or better and a 2.00 (C) average for all work attempted in philosophy. Of these 18 credit hours in philosophy, 9 must be upper-division with grades of C- or better. Students may apply toward a minor no more than 9 hours of transfer credits, no more than 6 hours of which may be upper-division.

**There are no distribution requirements for a minor in philosophy:** any six 3-credit-hour philosophy courses will do, so long as at least three are upper-division. However, for a well-rounded course of study, the Philosophy Department *recommends* the courses below.

## Recommended Courses

Code	Title	Credit Hours
<b>Logic</b>		
At least one course in Logic, such as:		
PHIL 1440	Critical Thinking	

PHIL 2440	Symbolic Logic
<b>History of Philosophy</b>	
At least one course in the History of Philosophy, such as:	
PHIL 1010	Introduction to Western Philosophy: Ancient
PHIL 1020	Introduction to Western Philosophy: Modern
PHIL 3000	History of Ancient Philosophy
PHIL 3010	History of Modern Philosophy
<b>Values</b>	
At least one course in Values, such as:	
PHIL 1100	Ethics
PHIL 1200	Contemporary Social Problems
PHIL 1250	Poverty, Power, and Patriotism: Issues of Global Justice
PHIL 2270	Philosophy and Race
PHIL 2290	Philosophy and Gender
PHIL 3100	Ethical Theory
PHIL 3200	Social and Political Philosophy
<b>Metaphysics/Epistemology</b>	
At least one course in Metaphysics/Epistemology, such as:	
PHIL 1350	Knowledge, Mind, and Reality
PHIL 1400	Philosophy and the Sciences
PHIL 1600	Philosophy and Religion
PHIL 3600	Philosophy of Religion
PHIL 4370	Free Will and Determinism
PHIL 4400	Philosophy of Science

## Plan(s) of Study

The philosophy minor is entirely elective, though students should pay attention to required and recommended prerequisites when selecting their classes.

## Physics

The curriculum offered by the Department of Physics provides knowledge of the physical concepts that are basic to the laws of nature and the ability to use these fundamental concepts to answer questions and solve real problems. Students also gain an understanding of the relationship of physics to other fields such as astronomy, biology, engineering, chemistry and medicine.

**Course code for this program is PHYS.**

## Areas of Study

Students can choose from one of three plans leading to the Bachelor of Arts degree. Plan 1 is designed primarily for students who plan to pursue graduate study in physics or go directly into professional employment. Plan 2 is intended for students who wish to combine a physics major with an interdisciplinary focus. Interdisciplinary focuses include applied mathematics, biotechnology, biophysics, chemical physics, environmental science, electronic devices, history, optics and philosophy of science, or premedicine. Plan 3 is a program designed specifically for those who wish to become secondary school teachers. It includes a teaching licensure in cooperation with the School of Education. A bachelor's-accelerated master's degree (BAM) is also available.

The Department of Physics also offers a Bachelor of Science degree in Engineering Physics (p. 882) through the College of Engineering and Applied Science.

*Note:* Students may not earn a bachelor's degree in physics from the College of Arts & Sciences as well as a bachelor's degree in engineering physics from the College of Engineering & Applied Science. Furthermore, the physics minor may not be earned with either of these two baccalaureate programs.

## Research Opportunities

Physics majors are strongly encouraged to work in a research laboratory. Such experience is especially useful in pursuing a career in science or engineering. Involvement in laboratory experimentation provides knowledge of modern electronic equipment and computerized instrumentation. As contributing members of a research group, students also get a real sense of the creative processes that are part of modern physics research.

## Career Opportunities

Physics provides an excellent background for a wide variety of careers, as well as preparation for admission to graduate school in physics and related fields. Design and development work in industrial firms, government and academic laboratories, and nonprofit research centers present opportunities to apply theory to specific problems. In such settings, physics graduates often work closely with engineers, complementing specific disciplines with a broader physics perspective. Graduates can also go on to careers in business, law, finance or medicine after appropriate graduate work.

## Bachelor's Degree

- Physics - Bachelor of Arts (BA) (p. 521)

## Minor

- Physics - Minor (p. 526)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Professor; PhD, University of Chicago

## Courses

### PHYS 1000 (3) Preparatory Physics

Introduces basic physics, emphasizing an analytical approach to prepare for PHYS 1110 and PHYS 1120, the engineering majors sequence.

Does not satisfy any MAPS deficiency in either the sciences or math.

Department enforced prerequisite: 1 year high school algebra.

**Additional Information:** Arts Sci Core Curr: MAPS Course

### PHYS 1010 (3) Physics of Everyday Life 1

Intended primarily for nonscientists, this course covers physics encountered in everyday life. Topics include balls, scales, balloons, stoves, insulation, light bulbs, clocks, nuclear weapons, basics of flashlights, and microwave ovens. Department enforced prereq., high school algebra or equivalent. This course should not be taken if the student has a MAPS deficiency in math.

**Additional Information:** GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab

Arts Sci Core Curr: Quant Reasn Mathmat Skills

Arts Sci Core Curr: Natural Science Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

Arts Sci Gen Ed: Quantitative Reasoning Math

MAPS Course: Chemistry

MAPS Course: Physics

### PHYS 1110 (4) General Physics 1

First semester of three-semester sequence for science and engineering students. Covers kinematics, dynamics, momentum of particles and rigid bodies, work and energy, gravitation, and simple harmonic motion.

**Equivalent - Duplicate Degree Credit Not Granted:** PHYS 1115

**Requisites:** Requires prerequisite course of GEEN 3830 (minimum grade C-) or prerequisite or corequisite course of APPM 1345 or APPM 1350 or MATH 1300 or MATH 1310 (minimum grade C-).

**Additional Information:** GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab

Arts Sci Core Curr: Natural Science Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

### PHYS 1115 (4) General Physics 1 for Majors

First semester of three semester sequence for physics, engineering physics and astronomy majors. Covers kinematics, dynamics momentum of particles and rigid bodies, work and energy, gravitation, and simple harmonic motion.

**Equivalent - Duplicate Degree Credit Not Granted:** PHYS 1110

**Requisites:** Requires prerequisite course of GEEN 3830 or prerequisite or corequisite course of APPM 1345 or APPM 1350 or MATH 1300 or MATH 1310 (minimum grade C-). Restricted to Physics (PHYS-BA) or Engineering Physics (EPEN-BS) or Astronomy (ASTR-BA) majors only.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Core Curr: Natural Science Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

**PHYS 1120 (4) General Physics 2**

Three lect., one rec. per week, plus three evening exams in the fall and spring semesters. Second semester of three-semester introductory sequence for science and engineering students. Covers electricity and magnetism, wave motion and optics. Normally is taken concurrently with PHYS 1140.

**Equivalent - Duplicate Degree Credit Not Granted:** PHYS 1125

**Requisites:** Requires prerequisite courses of PHYS 1110 or PHYS 1115 and a prerequisite or corequisite course of APPM 1360 or MATH 2300 (all minimum grade of C-).

**Additional Information:** GT Pathways: GT-SC2 -Natural Physical Sci:Lec Crse w/o Req Lab

Arts Sci Core Curr: Natural Science Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

**PHYS 1125 (4) General Physics 2 for Majors**

Three lect., one rec per week, plus three evening exams in the fall and spring semesters. Second semester of three semester introductory sequence for physics, engineering and astronomy majors. Covers electricity and magnetism, wave motion and optics. Normally is taken concurrently with PHYS 1140.

**Equivalent - Duplicate Degree Credit Not Granted:** PHYS 1120

**Requisites:** Requires a prerequisite course of PHYS 1110 or PHYS 1115.

Requires a prerequisite or corequisite course of APPM 1360 or MATH 2300 (all minimum grade C-). Restricted to Physics (BA), Engineering Physics (BS) and Astronomy (BA) students only.

**Additional Information:** Arts Sci Core Curr: Natural Science Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

**PHYS 1140 (1) Experimental Physics 1**

Introduces experimental physics through laboratory observation of a wide range of phenomena. Covers experiments on physical measurements, including mechanics, electricity & magnetism, and optics, with the mathematical analysis of physical errors associated with the experimental process.

**Requisites:** Requires a prerequisite or corequisite course of PHYS 1120 or PHYS 1125 (minimum grade C-).

**Additional Information:** GT Pathways: GT-SC1 - Natural Physical Sci:Lec Crse w/ Req Lab

Arts Sci Core Curr: Natural Science Lab

Arts Sci Gen Ed: Distribution-Natural Sci Lab

Arts Sci Gen Ed: Distribution-Natural Sciences

**PHYS 1230 (3) Light and Color for Nonscientists**

Discusses light, color, vision, and perception. Covers reflection, refraction, lenses, and applications to photography and other methods of light sensing. Other topics include lasers and holography. Course is geared toward nonscience majors. Department enforced prereq., high school algebra or equivalent. Should not be taken by students with a math MAPS deficiency.

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

MAPS Course: Chemistry

MAPS Course: Natural Science

MAPS Course: Physics

**PHYS 1240 (3) Sound and Music**

Explores the physical processes that underlie the diversity of sound and musical phenomena. Topics covered include the physical nature of sound, the perception of sound, the perception of pitch and harmony, musical instruments, synthesizers and samplers, and room acoustics. Geared toward nonscience majors. Department enforced prereq., high school algebra or equivalent. Should not be taken by students with a math MAPS deficiency.

**Additional Information:** GT Pathways: GT-SC2 -Natural Physical Sci:Lec Crse w/o Req Lab

Arts Sci Core Curr: Natural Science Non-Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

MAPS Course: Chemistry

MAPS Course: Natural Science

MAPS Course: Physics

**PHYS 1400 (1) Fundamentals of Scientific Inquiry**

Engages students in discussions and experimentation to uncover the aspects of physics that won't be found in a textbook, centered around how to do scientific research and be a part of the greater scientific community. Topics include model-building, metacognition, failure in science, and presentation skills. Students will have the opportunity to interact with real scientists through panels, lab tours, and direct mentorship as they engage in a hands-on group research project culminating in a poster presentation session. Geared toward first-year and transfer physics and engineering physics students. Does not count toward the PHYS-BA major requirements. For more information, please visit: <http://www.cuprime.org/class>.

**PHYS 1580 (3) Energy and Interactions**

Engages non-physics majors in hands-on, minds-on activities and labs to investigate the physical world, the nature of science, and how science knowledge is constructed. This introductory course is especially relevant for future elementary and middle school teachers although it will meet the needs of most non-physics and non-science majors. Physical content focuses on interactions and energy.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 1580

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

MAPS Course: Chemistry

MAPS Course: Natural Science

MAPS Course: Physics

**PHYS 2010 (5) General Physics 1**

Includes three lectures, one two-hour laboratory/recitation per week, plus three evening exams in the fall and spring semesters. Covers mechanics, heat and sound. Thorough presentation of fundamental facts and principles of physics using algebra and trigonometry. Designed for life science majors, including premed students. Natural science majors with a knowledge of calculus and others taking calculus are urged to take the calculus-based courses PHYS 1110, PHYS 1120, PHYS 1140 and PHYS 2130, rather than PHYS 2010 and PHYS 2020. Department enforced prerequisites: ability to use high school algebra and trigonometry.

**Additional Information:** GT Pathways: GT-SC1 - Natural Physical Sci:Lec Crse w/ Req Lab

Arts Sci Core Curr: Natural Science Sequence

Arts Sci Core Curr: Natural Science Lab

Arts Sci Gen Ed: Distribution-Natural Sci Lab

Arts Sci Gen Ed: Distribution-Natural Sciences

MAPS Course: Natural Science

**PHYS 2020 (5) General Physics 2**

Includes three lectures, one two-hour laboratory/recitation per week, plus three evening exams in the fall and spring semesters. Covers electricity and magnetism, light and modern physics. Designed for life science majors, including premed students. Natural science majors with a knowledge of calculus and others taking calculus are urged to take the calculus-based courses PHYS 1110, PHYS 1120, PHYS 1140 and PHYS 2130, rather than PHYS 2010 and PHYS 2020.

**Requisites:** Requires a prerequisite course of PHYS 1110 or PHYS 2010 (minimum grade C-).

**Additional Information:** GT Pathways: GT-SC1 - Natural Physical Sci:Lec Crse w/ Req Lab

Arts Sci Core Curr: Natural Science Sequence

Arts Sci Core Curr: Natural Science Lab

Arts Sci Gen Ed: Distribution-Natural Sci Lab

Arts Sci Gen Ed: Distribution-Natural Sciences

**PHYS 2130 (3) Introduction to Quantum Mechanics and Its Applications**

Learn about a leading edge of physics and engineering along with its applications to much of modern technology. Topics include quantum theory, atomic physics, solid state and nuclear physics. Applications discussed may include special relativity, lasers, diodes/transistors, nuclear energy, quantum computing and encryption. Third semester of introductory sequence for science and engineering students. Physics majors should take PHYS 2170 instead of this course. May be taken concurrently with PHYS 2150.

**Requisites:** Requires a prerequisite course of PHYS 1120 or PHYS 1125, and a prerequisite or corequisite course of MATH 2400 or APPM 2350 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**PHYS 2150 (1) Experimental Physics 2**

One lect., one 2-hour lab per week. Includes many experiments of modern physics, including atomic physics, solid state physics, electron diffraction, radioactivity and quantum effects. Normally taken concurrently with PHYS 2130 or PHYS 2170, this course may be taken after PHYS 2130 or PHYS 2170.

**Requisites:** Requires a prerequisite course of PHYS 1140 and a prerequisite or corequisite course of PHYS 2130 or PHYS 2170 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab

Arts Sci Gen Ed: Distribution-Natural Sciences

**PHYS 2170 (3) Foundations of Modern Physics**

Covers special relativity, quantum mechanics and atomic structure. Completes the three-semester sequence of general physics for physics and engineering physics majors. Normally taken with the laboratory PHYS 2150.

**Equivalent - Duplicate Degree Credit Not Granted:** PHYS 2130

**Requisites:** Requires a prerequisite course of PHYS 1120 or PHYS 1125, and a prerequisite or corequisite course of MATH 2400 or APPM 2350 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**PHYS 2210 (3) Classical Mechanics and Mathematical Methods 1**

Theoretical Newtonian mechanics, including position and velocity dependent forces, oscillation, stability, non-inertial frames and gravitation from extended bodies. Ordinary differential equations, vector algebra, curvilinear coordinates, complex numbers, and Fourier series will be introduced in the context of the mechanics.

**Requisites:** Requires a prerequisite course of PHYS 2130 or PHYS 2170 and a prerequisite or corequisite course of APPM 2350 or MATH 2400 and a prerequisite or corequisite course of APPM 2360 or MATH 3430 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**PHYS 2600 (3) Introduction to Programming and Scientific Computing**

Covers basic concepts in programming and scientific computing, including numerical integration and simulation of physical systems. Students will learn the programming language Python and associated graphics libraries. Programming examples will be drawn from classical physical systems that can only be solved numerically, such as projectile motion with drag and N-body problems.

**Equivalent - Duplicate Degree Credit Not Granted:** ASTR 2600

**Requisites:** Requires prerequisite course of PHYS 1120 (minimum grade C-). Requires prerequisite or corequisite course of PHYS 2170 or PHYS 2130 (minimum grade C-).

**PHYS 2840 (1-3) Independent Study**

Selected topics for undergraduate independent study. Subject matter to be arranged.

**Repeatable:** Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

**PHYS 3000 (3) Science and Public Policy**

For nonscience majors. Reading, discussions, debates and lectures are used to study how science affects society economically, intellectually, and in terms of health and national security. Another focus is how government fosters and funds scientific activities. Department enforced prerequisite: completion of core science requirement.

**Equivalent - Duplicate Degree Credit Not Granted:** ARSC 3200

**PHYS 3050 (3) Writing in Physics: Problem-Solving and Rhetoric**

Teaches strategies used in scientific writing with an emphasis on argument, reviews and reinforces essential writing skills, provides experience in writing both academic and professional communications in a style appropriate to the literature of physics. Department enforced prerequisite: lower-division core writing requirement. Does not count toward the PHYS-BA major requirements or major GPA.

**Requisites:** Requires a prerequisite course of PHYS 2130 or PHYS 2170 (minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Core Curr: Written Communication

Arts Sci Gen Ed: Written Communication-Upper

**PHYS 3070 (3) Energy and the Environment**

Contemporary issues in energy consumption and its environmental impact, including fossil fuel use and depletion; nuclear energy and waste disposal; solar, wind, hydroelectric, and other renewable sources; home heating; energy storage; fuel cells; and alternative transportation vehicles. Included are some basic physical concepts and principles that often constrain choices. No background in physics is required.

**Equivalent - Duplicate Degree Credit Not Granted:** ENVS 3070

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

**PHYS 3090 (3) Introduction to Quantum Computing**

Covers the basics of quantum computation, including the basics of quantum information; axioms of quantum mechanics; quantum circuits and universality; the relationship between quantum and classical complexity classes; simple quantum algorithms such as the quantum Fourier transform; Shor factoring algorithm; Grover search algorithm; physical implementation of quantum computation; error correction and fault tolerance.

**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 3090 and ECEN 3090

**Requisites:** Requires prerequisite course of APPM 2360 or APPM 3310 or CSCI 2820 or MATH 2130 or MATH 2135 (minimum grade C-).

**PHYS 3210 (3) Classical Mechanics and Mathematical Methods 2**

Lagrangian and Hamiltonian treatment of theoretical mechanics, including coupled oscillations, waves in continuous media, central force motion, rigid body motion and fluid dynamics. The calculus of variations, linear algebra, tensor algebra, vector calculus, and partial differential equations will be introduced in the context of the mechanics.

**Requisites:** Requires a prerequisite course of PHYS 2210 and a prerequisite course of APPM 2350 or MATH 2400 and a prerequisite course of MATH 3430 or APPM 2360 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**PHYS 3220 (3) Quantum Mechanics 1**

Introduces quantum mechanics with wave, operator and matrix computational techniques. Investigates solutions for harmonic oscillator, potential well and systems with angular momentum. Develops a quantitative description of one-electron atoms in lowest order.

**Requisites:** Requires a prerequisite course of PHYS 3210 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**PHYS 3221 (1) Tutorial Practicum for Quantum Mechanics 1**

Uses interactive group work to aid student learning in corequisite course PHYS 3220. In this tutorial, students will work in small groups to practice how to solve challenging problems and their underlying conceptual basis, as well as using hands-on activities, demonstrations, and other techniques to help learn content.

**Requisites:** Requires a corequisite course of PHYS 3220.

**PHYS 3310 (3) Principles of Electricity and Magnetism 1**

Covers mathematical theory of electricity and magnetism, including electrostatics, magnetostatics, and polarized media, and provides an introduction to electromagnetic fields, waves, and special relativity.

**Requisites:** Requires a prerequisite course of PHYS 2210 and a prerequisite course of APPM 2350 or MATH 2400 and a prerequisite course of MATH 3430 or APPM 2360 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**PHYS 3311 (1) Tutorial Practicum for Electricity & Magnetism 1**

Uses interactive group work to aid student learning in corequisite course PHYS 3310. In this tutorial, students will work in small groups to practice how to solve challenging problems and their underlying conceptual basis, as well as using hands-on activities, demonstrations, and other techniques to help learn content.

**Requisites:** Requires a corequisite course of PHYS 3310.

**PHYS 3320 (3) Principles of Electricity and Magnetism 2**

Continuation of PHYS 3310. Electromagnetic induction; magnetic energy; microscopic theory of magnetic properties; AC circuits; Maxwell's Equations; planewaves; waveguides and transmission lines; radiation from electric and magnetic dipoles and from an accelerated charge.

**Requisites:** Requires a prerequisite course of PHYS 3310 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**PHYS 3330 (2) Electronics for the Physical Sciences**

Introduces laboratory electronics for physical science students. Includes basic electronic instruments, dc bridge circuits, operational amplifiers, bipolar transistors, field-effect transistors, photodiodes, noise in electronic circuits, digital logic and microcontrollers. Students gain hands-on experience in designing, building and debugging circuits. Two lectures and one three hour laboratory per week. Concludes with a three-week project in which students design and build an experiment of their choice and present a seminar on the results.

**Requisites:** Requires prerequisite courses of PHYS 2150 and PHYS 2130 or PHYS 2170 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences

**PHYS 4130 (3) Biological Electron Microscopy: Principles and Recent Advances**

Covers basic mechanisms for imaging and recent advances used in current biological research, elements of electron optics, image optimization, resolution, radiation damage, various imaging modes (TEM, HVEM, Sem, Stm, Stm), specimen quantitation and reconstruction (stereo and 3-D), microanalysis and electron diffraction. Specimen preparation treated only incidentally.

**Equivalent - Duplicate Degree Credit Not Granted:** PHYS 5130

**Requisites:** Requires a prerequisite course of EBIO 1220 or MCDB 1150 or MCDB 4550 or MCDB 5550 or PHYS 1120 or PHYS 2020 (minimum grade D-).

**PHYS 4150 (3) Plasma Physics**

Discusses the fundamentals of plasma physics, including particle motion in electromagnetic fields, wave propagation, collisions, diffusion, and resistivity. Presents examples from space plasmas, astrophysical plasmas, laboratory fusion plasmas, and plasmas in accelerators.

**Requisites:** Requires a prerequisite course of PHYS 3310 and a prerequisite or corequisite course of PHYS 3320 (all minimum grade of C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**PHYS 4230 (3) Thermodynamics and Statistical Mechanics**

Statistical mechanics applied to macroscopic physical systems; statistical thermodynamics, classical thermodynamics systems; applications to simple systems. Examines relationship of statistical to thermodynamic points of view.

**Requisites:** Requires a prerequisite course of PHYS 2210 and a prerequisite or corequisite course of PHYS 3220 (all minimum grade of C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**PHYS 4340 (3) Introduction to Solid State Physics**

Discusses crystal structure, lattice dynamics, band theory, semiconductors and ferromagnetism.

**Requisites:** Requires a prerequisite course of PHYS 3220 (minimum grade of C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**PHYS 4410 (3) Quantum Mechanics 2**

Extends quantum mechanics to include perturbation theory and its applications to atomic fine structure, multi-particle systems, interactions with external forces, the periodic table and dynamical processes including electromagnetic transition rates.

**Requisites:** Requires prerequisite courses of PHYS 3220 and PHYS 3310 (all minimum grade of C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**PHYS 4420 (3) Nuclear and Particle Physics**

Introduces structure of the atomic nucleus, spectroscopy of subnuclear particles, scattering, reactions, radioactive decay, fundamental interactions of quarks and leptons.

**Requisites:** Requires prerequisite courses of PHYS 3320 and PHYS 4410 (all minimum grade of C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**PHYS 4430 (3) Advanced Laboratory**

Two lectures, one lab per week. Experiments introduce students to realities of the experimental physics so they gain a better understanding of theory and an appreciation of the vast amount of experimental work done in the physical sciences today.

**Equivalent - Duplicate Degree Credit Not Granted:** PHYS 5430

**Requisites:** Requires a prerequisite course of PHYS 3330 (minimum grade of C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences

**PHYS 4450 (3) History and Philosophy of Physics**

Discusses the epistemic question of what characterizes good physics research as well as the metaphysical question of what our best physics research tells us about the world. Topics may include case studies of physics experiments, theory choice, and scientific methodology in physics, as well as foundational metaphysical questions in statistical mechanics, quantum mechanics, special and general relativity, chance and probability, and the laws of nature.

**Equivalent - Duplicate Degree Credit Not Granted:** PHIL 5450 and PHIL 4450 and PHYS 5450

**Requisites:** Requires a prerequisite course of PHYS 1020 or PHYS 1120 or PHYS 1125 or PHYS 2020 (minimum grade of C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Natural Sciences

**PHYS 4460 (3) Teaching and Learning Physics**

Learn how people understand key concepts in physics. Through examination of physics content, pedagogy and problems, through teaching, and through research in physics education, students will explore the meaning and means of teaching physics. Students will gain a deeper understanding of how education research is done and how people learn. Useful for all students, especially for those interested in physics, teaching and education research.

**Equivalent - Duplicate Degree Credit Not Granted:** PHYS 5460 and EDUC 4460 and EDUC 5460

**Requisites:** Requires prerequisite courses of PHYS 3210 and PHYS 3310 (all minimum grade of C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**PHYS 4510 (3) Optics**

Basic electromagnetic theory of light, using Maxwell's equations. Examples in geometrical optics; extensive applications in physical optics including diffraction and polarization. Spectra, including Zeeman effect and fluorescence. Recent advances in experimental techniques: microwaves, lasers, image converters.

**Requisites:** Requires a prerequisite course of PHYS 3320 (minimum grade of C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**PHYS 4550 (3) Cells, Molecules and Tissues: A Biophysical Approach**

Focuses on the biophysics governing the structure/function of enzymes, cells, extra-cellular matrix and tissue. Synthesizes ideas from molecular biology, physics, and biochemistry, emphasizing how low Reynolds number physics, not Newtonian physics, is relevant to life inside a cell. Fulfills MCDB scientific reasoning requirement.

**Equivalent - Duplicate Degree Credit Not Granted:** PHYS 5550 and MCDB 4550 and MCDB 5550

**Recommended:** Prerequisites MCDB 3135 and MCDB 3145 and PHYS 2010 and PHYS 2020 and CHEM 1133 or MATH 1300 and/or CHEM 3311 (minimum grade C-) or instructor consent required.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**PHYS 4560 (3) Introduction to Biophysics**

Covers an introduction to the physics of living systems. Focuses on how living systems are able to generate order, with both physical principles and biological examples. Covers the development of quantitative models for biological systems, including estimates. Taught from a physics perspective, with biology background introduced as needed.

**Equivalent - Duplicate Degree Credit Not Granted:** PHYS 5560 and MCDB 4560 and MCDB 5560

**Requisites:** Requires a prerequisites course of PHYS 2210 (minimum grade C-).

**Recommended:** Prerequisite PHYS 4230.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**PHYS 4610 (2) Physics Honors**

Students are matched with a faculty member and work independently on a research topic. Typically, the honors program lasts three semesters. A senior thesis and an oral presentation of the work are required. See also PHYS 4620 and PHYS 4630. Department enforced prerequisite: minimum 3.00 GPA. Registration by special arrangement with the Department of Physics.

**Additional Information:** Arts Sciences Honors Course

**PHYS 4620 (2) Physics Honors**

Students are matched with a faculty member and work independently on a research topic. Typically, the honors program lasts three semesters. A senior thesis and an oral presentation of the work are required. See also PHYS 4610 and PHYS 4630. Department enforced prerequisite: minimum 3.00 GPA. Registration by special arrangement with the Department of Physics.

**Additional Information:** Arts Sciences Honors Course

**PHYS 4630 (2) Physics Honors**

Students are matched with a faculty member and work independently on a research topic. Typically, the honors program lasts three semesters. A senior thesis and an oral presentation of the work are required. See also PHYS 4610 and PHYS 4620. Department enforced prerequisite: minimum 3.00 GPA. Registration by special arrangement with the Department of Physics.

**Additional Information:** Arts Sciences Honors Course

**PHYS 4700 (3) Quantum Forge I**

Provides junior- and senior-level engineering and physical science students an opportunity to gain professional and technical quantum science skills and experience through participation in real-world projects in collaboration with industry leaders and academic investigators. Alongside project activity, students will engage in skill- and concept-focused modules to ensure proficiency in the skills necessary to participate in the quantum workforce. This capstone experience is intended for students who do not intend to continue on to graduate study in physics or engineering, but rather to enter the workforce directly.

**Equivalent - Duplicate Degree Credit Not Granted:** MCEN 4700

**Requisites:** Requires prerequisite course of PHYS 3330 (minimum grade C-).

**Recommended:** Prerequisite or corequisite PHYS 4410.

**PHYS 4710 (3) Quantum Forge II**

Continuation of PHYS 4700, Quantum Forge I. The Quantum Forge provides junior- and senior-level engineering and physical science students an opportunity to gain professional and technical quantum science skills and experience through participation in real-world projects in collaboration with industry leaders and academic investigators. In the second semester, students will expand upon the knowledge and skills gained through the first-semester to bring projects to a point of completion and readiness for deployment in the industry context. As with Quantum Forge I, this capstone experience is intended for students who do not intend to continue on to graduate study in physics or engineering, but rather to enter the workforce directly.

**Equivalent - Duplicate Degree Credit Not Granted:** MCEN 4710

**Requisites:** Requires prerequisite course of PHYS 4700 or MCEN 4700 (minimum grade C-).

**PHYS 4810 (1-3) Special Topics in Physics**

Various topics not normally covered in the curriculum. Offered intermittently depending on student demand and availability of instructors.

**Repeatable:** Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**PHYS 4840 (1-3) Independent Study**

Selected topics for undergraduate independent study. Subject matter to be arranged. See also PHYS 4850.

**Repeatable:** Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

**PHYS 4850 (1-3) Independent Study**

Selected topics for undergraduate independent study. Subject matter to be arranged. See also PHYS 4840.

**Repeatable:** Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

**PHYS 4970 (3) Seminar on Physical Methods in Biology**

Covers basic mechanisms and applications of physical methods used in current biological research, microprobe analysis, EELS, elementary electron and x-ray crystallography, biomedical imaging (NMR, MRI, PET, CAT), Fourier analysis, synchrotron radiation, EXAFS, neutron scattering and novel ultramicroscopy techniques. Includes lectures, student presentations, occasional demonstrations. Emphasis depends on student interest.

**Equivalent - Duplicate Degree Credit Not Granted:** PHYS 5970

**Requisites:** Requires a prerequisite course of PHYS 1120 or PHYS 2020 and MCDB 1150 or EBIO 1220 (all minimum grade D-).

## Physics - Bachelor of Arts (BA)

The undergraduate degree in physics emphasizes knowledge and awareness of:

- the basic subfields of physics (classical mechanics, electricity and magnetism, quantum mechanics, statistical mechanics and thermodynamics), as well as at least one specialty area of application (e.g., solid state physics or optics);
- the major principles of physics, their historical development and the roles they play in the various subfields of physics;
- the interrelations between theory and observation, the role of systematic and random experimental errors and methods used to analyze experimental uncertainty and compare experiment with theory;
- physical phenomena and experience in the use of basic experimental apparatus and measuring instruments;
- mathematics sufficient to facilitate the acquisition and application of physical principles; and
- the importance of physics in other fields such as chemistry, biology, engineering, medicine and in society at large.

In addition, students completing the degree in physics are expected to acquire the ability and skills to:

- apply physical principles to new situations;
- construct and assemble experimental apparatus, conduct and analyze measurements of physical phenomena, analyze experimental uncertainty and make meaningful comparisons between experiment and theory; and
- communicate results of scientific inquiries verbally and in writing.

## Plans of Study

Three different plans are available to students in physics. Because there is some flexibility within each plan, the department encourages students to pursue their own interests in setting up their curriculum. The final responsibility for fulfilling the requirements for the degree rests with the student.

*Note:* Students may not earn a bachelor's degree in physics from the College of Arts & Sciences as well as a bachelor's degree in engineering physics from the College of Engineering & Applied Science. Furthermore, the physics minor may not be earned with either of these two baccalaureate programs.

### Plan I

This plan is primarily for students planning graduate work in physics.

### Plan II

This plan is for students desiring an interdisciplinary physics program.

The interdisciplinary program includes a combination of a physics major with a focus in another area such as astrophysics, atmospheric sciences, applied mathematics, biophysics, biotechnology, chemical physics, computer science, electronic devices, environmental sciences, geophysics, optics, philosophy and history of science, and pre-medicine.

### Plan III

This plan is for students intending to become secondary school teachers.

## Requirements

### Program Requirements

Students who have declared physics as a major are required to consult with a physics faculty mentor at least once per semester. First-year students considering physics as a major, are strongly encouraged to visit the physics academic advisor and discuss the situation. Because most of the advanced physics courses have various prerequisites, failure to settle on an appropriate plan of study early in the college career can result in delay and complications later. Students must receive a "C-" or better in all major courses, as well as in ancillary courses. These courses cannot be taken pass/fail. If a course is a pre-requisite for another course, the student may not register for the subsequent course until the grade in the pre-requisite is a "C-" or better. Students must have a grade point average of at least 2.000 in the major in order to graduate, and no more than 45 credits in PHYS may be applied to overall graduation requirements.

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below.

### Plans of Study

#### Plan I

This plan includes 45 credit hours of physics courses.

#### Required Courses and Credits

Code	Title	Credit Hours
<b>Required Physics Courses</b>		
PHYS 1115 or PHYS 1110	General Physics 1 for Majors General Physics 1	4
PHYS 1125 or PHYS 1120	General Physics 2 for Majors General Physics 2	4
PHYS 1140	Experimental Physics 1	1
PHYS 2150	Experimental Physics 2	1
PHYS 2170	Foundations of Modern Physics	3
PHYS 2210	Classical Mechanics and Mathematical Methods 1	3
PHYS 3210	Classical Mechanics and Mathematical Methods 2	3
PHYS 3220	Quantum Mechanics 1	3
PHYS 3310	Principles of Electricity and Magnetism 1	3
PHYS 3320	Principles of Electricity and Magnetism 2	3
PHYS 3330	Electronics for the Physical Sciences	2
PHYS 4230	Thermodynamics and Statistical Mechanics	3
PHYS 4410	Quantum Mechanics 2	3
<b>Physics Electives</b>		<b>9</b>
Select a research activity - see details below (3-6 credit hours):		
PHYS 4430	Advanced Laboratory	
PHYS 4610	Physics Honors	
PHYS 4620	Physics Honors	
PHYS 4630	Physics Honors	
PHYS 4700	Quantum Forge I	
PHYS 4710	Quantum Forge II	
PHYS 4840	Independent Study	
Select physics theory electives from the list below (3-6 credit hours):		

PHYS 2600	Introduction to Programming and Scientific Computing
PHYS 3090	Introduction to Quantum Computing
PHYS 4150	Plasma Physics
PHYS 4340	Introduction to Solid State Physics
PHYS 4420	Nuclear and Particle Physics
PHYS 4450	History and Philosophy of Physics
PHYS 4460	Teaching and Learning Physics
PHYS 4510	Optics
PHYS 4550	Cells, Molecules and Tissues: A Biophysical Approach
PHYS 4560	Introduction to Biophysics
PHYS 4810	Special Topics in Physics
PHYS 5030	Intermediate Mathematical Physics 1
PHYS 5040	Intermediate Mathematical Physics 2
PHYS 5770	Gravitational Theory (Theory of General Relativity)
Other PHYS or ASTR upper-division courses as approved in advance by advisor.	

**Total Credit Hours** **45**

#### Ancillary Mathematics & Chemistry Coursework

Code	Title	Credit Hours
<b>Ancillary Mathematics Courses</b>		
MATH 1300 or APPM 1350	Calculus 1 Calculus 1 for Engineers	4-5
MATH 2300 or APPM 1360	Calculus 2 Calculus 2 for Engineers	4-5
MATH 2400 or APPM 2350	Calculus 3 Calculus 3 for Engineers	4-5
Select one of the following Linear Algebra and Differential Equations options:		4-6
<i>Option 1</i>		
APPM 2360	Introduction to Differential Equations with Linear Algebra	
<i>Option 2</i>		
MATH 2130 & MATH 3430	Introduction to Linear Algebra for Non-Mathematics Majors and Ordinary Differential Equations	
<b>Ancillary Chemistry Course</b>		
CHEM 1113 & CHEM 1114	General Chemistry 1 and Laboratory in General Chemistry 1	5
<b>Total Credit Hours</b>		<b>21-26</b>

#### Ancillary Programming Requirement

The programming requirement may be completed in one of the following ways:

- Complete PHYS 2600, ASTR 2600, CSCI 1300 or APPM 1650. (PHYS 2600 will count toward the 45 required PHYS credit hours while the other programming courses will not.)
- By documentation of programming experience (i.e., a letter from a job or internship, or evidence of substantial contributions to an open-source code base). Approval by a physics department faculty mentor

is required for this option and no academic credit is earned under this option.

### Research Activity Requirement

The research activity may be completed in one of the following ways:

- Between 3 and 6 credit hours may be earned from: PHYS 4430, PHYS 4610/PHYS 4620/PHYS 4630, PHYS 4700, PHYS 4710 or PHYS 4840.
- By documentation of your accomplishments as an intern with a research activity within the physics department or a suitable cognate department, institute or external entity such as NCAR, NIST, NOAA, etc.
  - Approval by a physics department advisor is required for option (2) and should be obtained in advance.
  - No academic credit is earned under the internship option (2), so if an internship is taken, students must still earn 9 credit hours of physics electives.

### Plan II

For the interdisciplinary program, 33 credit hours of physics courses, plus 12 credit hours of interdisciplinary courses are required. Courses in the interdisciplinary subjects may not be double-counted with the required 33 credit hours of physics courses. Students may not double-major in Astrophysics (though the APS department) and Physics Plan 2 with an astrophysics concentration.

Interdisciplinary courses must be approved by the physics department, either by the pre-approved list of courses in each discipline or by a physics department mentor on a course-by-course basis. It is therefore imperative that students in Plan II be in close contact with the physics department advisor.

### Required Courses and Credits

Code	Title	Credit Hours
<b>Required Physics Courses</b>		
PHYS 1115 or PHYS 1110	General Physics 1 for Majors General Physics 1	4
PHYS 1125 or PHYS 1120	General Physics 2 for Majors General Physics 2	4
PHYS 1140	Experimental Physics 1	1
PHYS 2150	Experimental Physics 2	1
PHYS 2170	Foundations of Modern Physics	3
PHYS 2210	Classical Mechanics and Mathematical Methods 1	3
PHYS 3210	Classical Mechanics and Mathematical Methods 2	3
PHYS 3220	Quantum Mechanics 1	3
PHYS 3310	Principles of Electricity and Magnetism 1	3
PHYS 3320	Principles of Electricity and Magnetism 2	3
PHYS 3330	Electronics for the Physical Sciences	2
PHYS 4230	Thermodynamics and Statistical Mechanics	3
<i>Interdisciplinary Program</i>		
Select 12 credit hours from an interdisciplinary focus. <sup>1</sup>		12
<b>Total Credit Hours</b>		<b>45</b>

### Ancillary Mathematics & Chemistry Coursework

Code	Title	Credit Hours
<b>Ancillary Mathematics Courses</b>		
MATH 1300 or APPM 1350	Calculus 1 Calculus 1 for Engineers	4-5
MATH 2300 or APPM 1360	Calculus 2 Calculus 2 for Engineers	4-5
MATH 2400 or APPM 2350	Calculus 3 Calculus 3 for Engineers	4-5
Select one of the following Linear Algebra and Differential Equations options:		4-6
<i>Option 1</i>		
APPM 2360	Introduction to Differential Equations with Linear Algebra	
<i>Option 2</i>		
MATH 2130 & MATH 3430	Introduction to Linear Algebra for Non-Mathematics Majors and Ordinary Differential Equations	
<b>Ancillary Chemistry Course</b>		
CHEM 1113 & CHEM 1114	General Chemistry 1 and Laboratory in General Chemistry 1	5
<b>Total Credit Hours</b>		<b>21-26</b>

### Ancillary Programming Requirement

The programming requirement may be completed in one of the following ways:

- Complete PHYS 2600, ASTR 2600, CSCI 1300 or APPM 1650. (PHYS 2600 could count as the 3-credit PHYS elective in the interdisciplinary program.)
- By documentation of programming experience (i.e., a letter from a job or internship, or evidence of substantial contributions to an open-source code base). Approval by a physics department faculty mentor is required for this option and no academic credit is earned under this option.

<sup>1</sup> Departmental lists of approved courses for the interdisciplinary plan are available in the advising guide on the Department of Physics website (<http://www.colorado.edu/physics/>).

### Plan III

This plan involves a minimum of 30 credit hours of physics and a minimum of 6–7 credit hours in education courses. To earn a Secondary Science teacher license from the School of Education, students must complete additional education courses as well as courses in biology and earth/space science. Students should check with an advisor in the School of Education for the most updated teacher licensure requirements.

### Required Courses and Credits

Code	Title	Credit Hours
<b>Required Physics Courses</b>		
PHYS 1115 or PHYS 1110	General Physics 1 for Majors General Physics 1	4

EDUC 4050	Knowing and Learning in Mathematics and Science	3
EDUC 5385	Phenomenon-Based Science Instruction	4

**Total Credit Hours** 37**Ancillary Astronomy, Mathematics, and Chemistry Coursework**

Code	Title	Credit Hours
------	-------	--------------

**Ancillary Astronomy Course**

ASTR 1030	Accelerated Introductory Astronomy 1	4
-----------	--------------------------------------	---

**Ancillary Chemistry Courses**

Select one of the following options: 7-10

*Option 1*

CHEM 1011 & CHEM 1031	Environmental Chemistry 1 and Environmental Chemistry 2	
--------------------------	--	--

*Option 2*

CHEM 1113 & CHEM 1114	General Chemistry 1 and Laboratory in General Chemistry 1	
--------------------------	--	--

CHEM 1133 & CHEM 1134	General Chemistry 2 and Laboratory in General Chemistry 2	
--------------------------	--	--

**Ancillary Mathematics Courses**

MATH 1300 or APPM 1350	Calculus 1 Calculus 1 for Engineers	4-5
---------------------------	--	-----

MATH 2300 or APPM 1360	Calculus 2 Calculus 2 for Engineers	4-5
---------------------------	--	-----

MATH 2400 or APPM 2350	Calculus 3 Calculus 3 for Engineers	4-5
---------------------------	--	-----

Select one of the following Linear Algebra and Differential Equations options: 4-6

*Option 1*

APPM 2360	Introduction to Differential Equations with Linear Algebra	
-----------	--	--

*Option 2*

MATH 2130 & MATH 3430	Introduction to Linear Algebra for Non-Mathematics Majors and Ordinary Differential Equations	
--------------------------	---	--

**Total Credit Hours** 27-35**Graduating in Four Years**

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a

requirement for the major. To maintain adequate progress in physics plans I and II, students should meet the following requirements:

- In the first semester, declare the physics major.
- By the end of the second semester, complete the following courses: PHYS 1110 or PHYS 1115; PHYS 1120 or PHYS 1125; PHYS 1140, MATH 1300 or APPM 1350, and MATH 2300 or APPM 1360.
- By the end of the fourth semester, complete the following courses: PHYS 2150, PHYS 2170, PHYS 2210, CHEM 1113, MATH 2400 or APPM 2350; and APPM 2360. MATH 2130 and MATH 3430 can substitute for APPM 2360.
- Before the fifth semester, meet with the physics advisor to get approval for completion plan (FSACP). In addition to completing PHYS 4230 and PHYS 4410, Plan I students must get approval to complete 9 credit hours in physics electives, with a research participation component. In addition to completing PHYS 4230, interdisciplinary Plan II students must complete 12 credit hours of interdisciplinary courses.
- By the end of the sixth semester, complete PHYS 3210, PHYS 3220, PHYS 3310, PHYS 3320 and PHYS 3330.
- Early in the seventh semester, meet with the physics advisor to have the statement of major status filled in. This includes a plan for completing the requirements of the major during the senior year and must be signed by the student and the advisor. Further details concerning the execution of the guarantee can be obtained from the department.

**Sample Four-Year Plan of Study**

Through the required coursework for the major, students will fulfill all 12 credits of the Natural Sciences area of the Gen Ed Distribution Requirement, including the Lab requirement, and the QRMS component of the Gen Ed Skills Requirement. See the department for Plan-specific Four-Year Plans of Study.

**Year One**

Fall Semester		Credit Hours
PHYS 1115 or PHYS 1110	General Physics 1 for Majors or General Physics 1	4
MATH 1300 or APPM 1350	Calculus 1 or Calculus 1 for Engineers	5
Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/Global Perspective)		3
Gen. Ed. Skills course (example: Lower-division Written Communication)		3
<b>Credit Hours</b>		<b>15</b>

**Spring Semester**

PHYS 1125 or PHYS 1120	General Physics 2 for Majors or General Physics 2	4
PHYS 1140	Experimental Physics 1	1
MATH 2300 or APPM 1360	Calculus 2 or Calculus 2 for Engineers	5
Gen. Ed. Distribution course (example: Social Sciences)		3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
<b>Credit Hours</b>		<b>16</b>

**Year Two**

Fall Semester		Credit Hours
PHYS 2170	Foundations of Modern Physics	3

PHYS 2150	Experimental Physics 2	1
MATH 2400 or APPM 2350	Calculus 3 or Calculus 3 for Engineers	4-5
MATH 2130	Introduction to Linear Algebra for Non-Mathematics Majors (or elective if completing APPM track)	3
Programming Requirement		3-4
<b>Credit Hours</b>		<b>14-16</b>
<b>Spring Semester</b>		
PHYS 2210	Classical Mechanics and Mathematical Methods 1	3
MATH 3430 or APPM 2360	Ordinary Differential Equations or Introduction to Differential Equations with Linear Algebra	3
CHEM 1113	General Chemistry 1	4
CHEM 1114	Laboratory in General Chemistry 1	1
Gen. Ed. Distribution/Diversity course (example: Social Sciences/US Perspective)		3
<b>Credit Hours</b>		<b>14</b>
<b>Year Three</b>		
<b>Fall Semester</b>		
PHYS 3210	Classical Mechanics and Mathematical Methods 2	3
PHYS 3310	Principles of Electricity and Magnetism 1	3
PHYS 3330	Electronics for the Physical Sciences	2

PHYS: Elective from approved list		3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Upper-division elective		3
Lower or Upper-division elective		3
<b>Credit Hours</b>		<b>15</b>
<b>Total Credit Hours</b>		<b>118-120</b>

## Learning Outcomes

Upon completing the program, students will have acquired:

- Knowledge of the basic subfields of physics (classical mechanics, electricity and magnetism, quantum mechanics, statistical mechanics and thermodynamics), as well as at least one specialty area of application (e.g., condensed matter physics or optics).
- The ability to apply major principles of physics towards solving problems in various subfields of physics, including the use of mathematical and computational tools as appropriate.
- Skills in assembling and using experimental apparatus to conduct and analyze measurements of physical phenomena.
- Knowledge of the role of systematic and random experimental errors, along with methods used to analyze experimental uncertainty and compare experiment with theory.
- Skills in collaborating effectively and communicating results of scientific inquiries verbally and in writing.

## Bachelor's–Accelerated Master's Degree Program(s)

The bachelor's–accelerated master's (BAM) degree program options offer currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first but begin taking graduate coursework as undergraduates (typically in their senior year).

Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree. In addition, staying at CU Boulder to pursue a bachelor's–accelerated master's program enables students to continue working with their established faculty mentors.

### BA and MS in Physics

The BAM program in physics aims to provide new opportunities for undergraduate physics majors. The program is specifically addressed to the students in the Plan 1 Major Program of the Department of Physics. The Plan 1 physics major gives students a thorough grounding in theoretical physics so that they are well prepared either to proceed with graduate work or with professional employment. For students interested in graduate studies, this program in physics allows for participation in graduate coursework and research in a broad range of areas. For students interested in immediate professional employment, this program would serve as a terminal degree program that qualifies students for a higher level of employment.

### Admissions Requirements

In order to gain admission to the BAM program named above, a student must meet the following criteria:

- Have a cumulative GPA of 3.30 or higher and a physics major GPA of 3.30 or higher.
- Have completed a minimum of 75 credit hours of coursework.
- Transfer students must have completed a minimum of 24 credit hours at CU Boulder.
- Have a letter of support from a faculty advisor to complete master's level research.

## Program Requirements

Students may take up to and including 12 hours while in the undergraduate program which can later be used toward the master's degree. However, only 6 credit hours may be double counted toward the bachelor's degree and the master's degree. Students must apply to graduate with the bachelor's degree, and apply to continue with the master's degree, early in the semester in which the undergraduate requirements will be completed.

If you are interested in the BAM degree program, please see the Department of Physics website (<http://www.colorado.edu/physics/academics/undergraduate-students/concurrent-bachelorsmasters-degree/>).

## Physics - Minor

A minor is offered in physics. Declaration of a minor is open to any student enrolled at CU Boulder, regardless of college or school, except for students pursuing the physics major, engineering physics major or the astrophysics/physics track of the astronomy major. For more information, see the Department of Physics Minor in Physics (<http://www.colorado.edu/physics/academics/undergraduate-students/minoring-physics/>) webpage.

## Requirements

Declaration of a minor is open to any student enrolled at CU Boulder, regardless of college or school, except for students pursuing the engineering physics major or the astrophysics/physics track of the astronomy major. The minimum number of credit hours for a student without advanced placement or transfer credit is 25 hours (16 lower-division and 9 upper-division). *All of the required physics classes listed below have co-requisite or prerequisite mathematics courses. Students should check to see if they meet these requisites.*

All coursework applied to the minor must be completed with a grade of C- or better (no pass/fail work may be applied). The GPA for all coursework taken in the minor department must be equal to 2.00 (C) or higher. Students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward a minor.

## Required Courses and Credit Hours

Code	Title	Credit Hours
<b>Required Physics Courses</b>		<b>16</b>
PHYS 1110	General Physics 1	
PHYS 1120	General Physics 2	
PHYS 1140	Experimental Physics 1	
PHYS 2130	Introduction to Quantum Mechanics and Its Applications	
or PHYS 2170	Foundations of Modern Physics	
PHYS 2150	Experimental Physics 2	
PHYS 2210	Classical Mechanics and Mathematical Methods 1	
<b>Upper-Division Physics Electives</b>		<b>9</b>

Select three of the following upper-division courses:

PHYS 3210	Classical Mechanics and Mathematical Methods 2
PHYS 3220	Quantum Mechanics 1
PHYS 3310	Principles of Electricity and Magnetism 1

PHYS 3320	Principles of Electricity and Magnetism 2
PHYS 4230	Thermodynamics and Statistical Mechanics

**Total Credit Hours**

**25**

## Political Science

The political science major is a social science major. Students learn about political institutions, behavior, ideas and the methods used to study these phenomena. Work within the department is organized around six fields: American government and politics, comparative politics, international relations, public policy, political theory and empirical theory and methodology. The department's mission is to understand the political world and give students skills for a lifetime of inquiry, engagement and analysis.

In the undergraduate program, students develop skills in critical thinking, writing, analysis, research methods, and communication of social science findings. Political science majors go on to work in business, government, non-governmental organizations and many other fields. The major also prepares students for study at the graduate level in political science, public policy, law and other disciplines.

Our mission is to help students understand important political ideas, institutions (domestic and international), and actors. Students learn a number of broad concepts, including:

- The philosophical basis of justice, equality, and representation.
- The meaning of diversity and its political consequences.
- The origins and function of the American political system.
- The political behavior of individuals and groups and why it matters.
- The political and social organization of other countries.
- The reasons that some countries cooperate while others engage in conflict.

**Course code for this program is PSCI.**

## Sample Courses

Below is a sample of current courses which represent areas of inquiry within our curriculum.

Code	Title	Credit Hours
PSCI 2116	Introduction to Environmental Policy and Policy Analysis	3
PSCI 3062	Revolution and Political Violence	3
PSCI 3183	International Law	3
PSCI 3021	U.S. Campaigns and Elections	3
PSCI 3174	Sex, Power, and Politics: U.S. Perspectives	3
PSCI 4012	Global Development	3
PSCI 4221	Political Psychology	3
PSCI 3075	Applied Political Science Research	3

## Learning Outcomes

The undergraduate political science curriculum produces the following learning outcomes:

- Students will communicate political science concepts clearly, both orally and in writing.

- Students will locate the evidence necessary to evaluate arguments in political science research and the current political world.
- Students will create well-designed arguments using relevant theories of political science.
- Students will answer research questions using logical inference from quantitative and qualitative evidence.
- Students will understand political dynamics at the subnational, national and international levels.
- Students will develop an appreciation for various ideological perspectives and for the complex political environment around them.
- Students will acquire a sense of efficacy for changing the political environment.

Students interested in political science may also want to consider the Global Studies Residential Academic Program (RAP) (p. 1063).

## Bachelor's Degree

- Political Science - Bachelor of Arts (BA) (p. 537)

## Minor

- Political Science - Minor (p. 539)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

## Courses

### **PSCI 1101 (3) Introduction to American Politics**

Emphasizes interrelations among levels and branches of government, formal and informal institutions, processes, and behavior.

**Additional Information:** GT Pathways: GT-SS1 - Soc Behav Sci: Econ or Pol Systems

Arts Sci Core Curr: Contemporary Societies  
Arts Sci Core Curr: United States Context  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: American  
MAPS Course: Social Science  
MAPS Course: Social Science US Context

### **PSCI 2004 (3) Survey of Western Political Thought**

Studies main political philosophies and political issues of Western culture, from antiquity to 20th century.

**Additional Information:** GT Pathways: GT-SS1 - Soc Behav Sci: Econ or Pol Systems

Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Political Theory

### **PSCI 2012 (3) Introduction to Comparative Politics**

Most countries confront a variety of common political problems, including how to gain popular support, what kinds of political institutions are most appropriate, and how to distribute burdens and benefits to different segments of the population. Concentrates on learning how to compare different political systems and provides illustrative examples from several countries in both the industrialized and nonindustrialized world.

**Additional Information:** GT Pathways: GT-SS1 - Soc Behav Sci: Econ or Pol Systems

Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Comparative

### **PSCI 2028 (3) Special Topics**

Offers subjects not covered by existing courses. Offered when department approves a special topic.

**Repeatable:** Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: General

### **PSCI 2075 (3) Quantitative Research Methods**

Introduces quantitative research methods used in political science. Focuses on basic tools of analysis: data collection, processing, and evaluation, with special attention to survey techniques. Includes elite and case study analysis; aggregate, cluster, and content analysis; and the use of computers in political research.

**Additional Information:** Arts Sci Core Curr: Quant Reasn Mathmat Skills  
Arts Sci Gen Ed: Quantitative Reasoning Math  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Empirical Theory and Research Methodology  
MAPS Course: Mathematics

### **PSCI 2106 (3) Introduction to Public Policy Analysis**

Studies policymaking processes in American government, factors shaping public decision, and issues and questions relevant to political inquiry.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Public Policy

### **PSCI 2116 (3) Introduction to Environmental Policy and Policy Analysis**

Teaches a systematic general framework for the analysis of environmental policy issues. Analyzes the interaction of environmental sciences, ethics, and policy across a range of environmental policy problems. Stresses critical thinking and practical applications.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Public Policy

### **PSCI 2223 (3) Introduction to International Relations**

Introduces the field of international relations, with general survey of the theories, histories, and problems of historical and contemporary relations among state and nonstate actors.

**Additional Information:** GT Pathways: GT-SS1 - Soc Behav Sci: Econ or Pol Systems

Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: International Relations

**PSCI 2481 (3) Introduction to the Legal Process**

Covers basic legal concepts and processes emphasizing the American system. Gives special attention to political functions of law. Recommended as preparation for PSCI 4241.

**Recommended:** Prerequisite PSCI 1101.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: American

**PSCI 3011 (3) The American Presidency and the Executive Branch**

Examines the constitutional, institutional and historical development of the presidency and the federal bureaucracy. Explores the changing role of the executive branch in the U.S. political system over time and competing views of executive power.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Core Curr: United States Context  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: American

**PSCI 3021 (3) U.S. Campaigns and Elections**

Introduces students to the subjects, techniques, and findings of Political Science research on campaigns and elections. Particular emphasis is placed on the study of voting, campaign effects, partisan coalitions, electoral rules, campaign finance, and the policy impact of elections.

**Recommended:** Prerequisite PSCI 1101.

**Additional Information:** Arts Sci Core Curr: United States Context  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: American

**PSCI 3022 (3) Russian Politics**

Covers the important and pressing issues in modern Russia politics since 1990. How and why did Communism end? How did Putin come to power, what are his goals, and how long will he stay in power? What is going on with the Russian-Ukrainian conflict? Does the Russian government interfere in the politics of other countries? Come learn about the politics of this major world power.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Comparative

**PSCI 3031 (3) Political Parties and Interest Groups**

Highlights the practice of party politics in the United States, including the nature, structure, organization, and functions of political parties and interest groups. Analyzes interest group politics and political behavior.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 1101.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: American

**PSCI 3032 (3) Democracy, Inequality and Violence in Latin America**

Stresses different perspectives on Latin American politics and understanding key political actors and processes. Country focus varies.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 2012.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Comparative

**PSCI 3035 (3) Introduction to Qualitative Research Methods**

Enables students to create and critique qualitative research designs including comparative case studies, process tracing, interviews, archival research, and mixed methods. Includes lectures and in- or out-of-class exercises in which students use ideas discussed in the course to develop their own applied knowledge of these methods. Previously offered as a special topics course.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PSCI 3041 (3) The American Congress**

Provides intensive examination of the role of Congress in American government, including congressional elections, representation, the organization of Congress, and congressional policy making. Examines larger context of congressional politics, including political parties, the president, and interest groups.

**Recommended:** Prerequisite PSCI 1101.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: American

**PSCI 3051 (3) Public Opinion and Political Behavior**

Examines measurement of public opinion and evaluation of its impact on governmental policy formation, including survey research techniques.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 1101.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: American

**PSCI 3052 (3) Gender and Politics in Latin America**

Examines Latin American politics with particular focus on women's participation in social movements, war, revolution, and elections. Compares women's and men's politics and activism and examines changing gender and sexuality policies, gender relations, and the differential impact of political, economic, and social changes on men and women.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 3650

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite WGST 2600 or PSCI 3032.

**Additional Information:** Arts Sci Gen Ed: Diversity-Global Perspective  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Comparative

**PSCI 3054 (3) American Political Thought**

Highlights the development of American political theories and ideas from colonial period to present. Can also be taken for American field credit.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 2004.

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Core Curr: United States Context  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Political Theory

**PSCI 3061 (3) State Government and Politics**

Examines politics in the American states from a comparative and historical perspective. Considers major political actors—interest groups, citizens (direct democracy), and political parties, as well as central institutions, in the state political arena. Also focuses on major state public policy concerns.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 1101.

**Additional Information:** Arts Sci Core Curr: United States Context  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: American

**PSCI 3062 (3) Revolution and Political Violence**

Studies and evaluates alternative theoretical frameworks for the analysis of revolution and political violence. Theoretical material is firmly couched in case situations, such as ethnic, class, colonial, urban, racial, and religious conflicts.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 1101 or PSCI 2012 or IAFS 1000.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Comparative

**PSCI 3064 (3) Environmental Political Theory**

Examines environmental discourses as conceptual means for theorizing environmental politics, and applies normative political theories to contemporary environmental policy issues. Considers the roles of political actors (individuals, groups, the state) in defining and addressing environmental problems on local, national, and global levels.

**Equivalent - Duplicate Degree Credit Not Granted:** ENVS 3064

**Recommended:** Prerequisite PSCI 2004.

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Political Theory

**PSCI 3071 (3) Urban Politics**

Examines the structure of political, social, and economic influence in urban areas. Focuses on the relationship of the political system to governmental, social, and economic institutions and the contemporary policy processes in American cities.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 1101.

**Additional Information:** Arts Sci Core Curr: United States Context  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: American

**PSCI 3072 (3) Government and Politics in Southeast Asia**

Surveys historical and contemporary forces shaping politics in Southeast Asia. Gives special attention to comparative political economy, including development strategies and transitions to democracy.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 2012 or IAFS 1000.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Comparative  
Departmental Category: Asia Content

**PSCI 3075 (3) Applied Political Science Research**

Introduces the types of research design and quantitative methodology used in applied political science research. Directly builds on the data analysis performed in Quantitative Research Methods (PSCI 2075).

**Requisites:** Requires prerequisite course of PSCI 2075 (minimum grade C-).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Empirical Theory and Research Methodology

**PSCI 3082 (3) Political Systems of Sub-Saharan Africa**

Analyzes post-independence and post-Cold War change in sub-Saharan Africa and provides intensive case studies of selected countries exemplifying each type with South Africa seen as a special case.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 2012 or IAFS 1000.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Comparative

**PSCI 3084 (3) Diversity, Disagreement, and Democracy: an Introduction to the Theory and Practice of Democracy**

Examines the justification and limits for moral, political and religious pluralism. Students will be trained in the practice of dialogue and research the historical context of a subject that would be appropriate for a dialogue, and then interview members of the community who have different perspectives on the subject.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Political Theory

**PSCI 3091 (3) Politics of Social Movements**

Examines theoretical and empirical research on social movements from a U.S. perspective. Considers why social movements arise, who participates in them, the tactics they employ, obstacles they face, and their political impact.

**Recommended:** Prerequisite PSCI 1101.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: American

**PSCI 3092 (3) Comparative Political Economy**

Presents theories on the interaction between policies and economics, economic models of politics, and familiarizes students with an approach that will prove useful in understanding current developments in both economics and politics. Explores relationships between financial markets, currency regimes and politics with some special consideration of the behavioral foundations of political and economic developments. Recommended prerequisite: PSCI 2012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Comparative

**PSCI 3101 (3) Black Politics**

Examines structure of political, social, and economic influence in urban areas. Focuses on the relationship of political processes to governmental, social, and economic institutions and contemporary policy processes in American cities.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 1101.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-U.S. Perspective  
Departmental Category: American

**PSCI 3102 (3) South Asian Politics**

Examine the diverse political trajectories of four South Asian countries: India, Pakistan, Nepal, and Sri Lanka. Using a comparative lens, we will take into account historical, cultural, and economic, in addition to political, factors in deciphering this diversity of political paths.

**Recommended:** Prerequisite PSCI 2012 or IAFS 1000.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Comparative  
Departmental Category: Asia Content

**PSCI 3105 (3) Designing Social Inquiry: An Introduction to Analyzing Political Phenomena**

Tackles conceptualization and measurement with a focus on reliability and validity of measures at the individual level. Explores how improper measurement and conceptualization can affect our inferences.

Investigates how to use the tools of causal logic with statistical tools to differentiate linear, spurious, intervening and conditional relationships with a particular focus on what it means to "control for other factors".

**Requisites:** Requires prerequisite course of PSCI 2075 (minimum grade C-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

**Additional Information:** Arts Sci Core Curr: Quant Reasn Mathmat Skills  
Arts Sci Gen Ed: Quantitative Reasoning Math  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Empirical Theory and Research Methodology

**PSCI 3122 (3) Authoritarianism in the Digital Age**

Introduces students to cutting edge research on how changes in information communication technologies (ICTs) have shaped politics in authoritarian regimes. Drawing on longstanding theories in the comparative politics literature, students will learn how governments, citizens, and non state actors use digital technologies to achieve their goals.

**Recommended:** Prerequisite PSCI 2012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PSCI 3123 (3) War, Peace, and Strategic Defense**

Analyzes employment, or the threat of employing force, in securing American interests in the post-Cold War world. Gives special attention to utilities claimed for nuclear weapons, and alternatively, to weapons control and disarmament.

**Equivalent - Duplicate Degree Credit Not Granted:** PACS 3800

**Recommended:** Prerequisite PSCI 2223.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: International Relations

**PSCI 3142 (3) Politics, History and Society of Cuba**

Provide students with general knowledge about Cuba, its history, government, and economy, with a particular emphasis on the Cuban Revolution and more current events such as changes to travel restrictions and US policy toward Cuba under Obama, Trump and Biden. As a global intensive, it also involves a 10-day travel/educational program in Cuba that will occur after the semester.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PSCI 3143 (3) Current Affairs in International Relations**

Analyzes the various theoretical and policy challenges facing the post-Cold War world, with an emphasis on examining alternative conceptions of and approaches to such challenges.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 2223.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: International Relations

**PSCI 3155 (3) Survey Design and Analysis**

Provides the unique experience of involvement in ongoing survey research. Designed for students from different disciplines who will learn about what makes a good versus bad survey, how to write effective questions and how to put survey questions together into a cohesive questionnaire. Gain insight into the pitfalls of survey research and how to overcome them. Provides hands-on, real world experience on the design, implementation and analysis of the annual Colorado Political Climate survey.

**Requisites:** Requires prerequisite course ANTH 4000 or APPM 4570 or BCOR 1020 or ECON 3818 or GEOG 3023 or GEOL 3023 or MATH 2510 or PSCI 2075 or PSYC 2111 or SOCY 2061 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Empirical Theory and Research Methodology

**PSCI 3163 (3) American Foreign Policy**

Examines foundations, assumptions, objectives, dynamics, and methods of U.S. foreign policy since WWII. Gives special attention to domestic and external problems of adapting U.S. policy to the changing world environment.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 2223.

**Additional Information:** Arts Sci Core Curr: United States Context  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: International Relations

**PSCI 3172 (3) Democracy and Its Citizens in the US and EU**

Explores the political institutions of the US and the EU and asks questions pertaining to the very citizenship experience in these two places; including policy, rights and liberties, quality of life, national identity, and immigration.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Comparative

**PSCI 3174 (3) Sex, Power, and Politics: U.S. Perspectives**

Explores how norms of sex, gender, race and sexuality find expression in institutions and policies in ways that legitimize only certain individuals as political actors, certain identities as politically relevant, and certain relationships as important. Critically examines how norms may be exposed, resisted, and changed by studying the politics of the women's, gay liberation, and men's movements in the U.S.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 3174

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 2004 or WGST 2000 or LGBT 2000.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Political Theory

**PSCI 3183 (3) International Law**

Investigates the legal principles and landmark judicial cases that govern relations between countries and other international actors. Explores the development and effectiveness of law on issues such as human rights, war crimes, and the use of military force.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 2223.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: International Relations

**PSCI 3184 (3) Race, Power, and Politics**

Examines the fraught relationship between democracy and racial inequality in the US expressed in the founding contradiction between the Declaration of Independence and the recognition of slavery in the US Constitution. Explores these issues through study of the abolition movement, the Jim Crow era, Civil Rights and Black Power movements, immigrant activism, the American Indian movement, and Black Lives Matter.

**Recommended:** Prerequisite PSCI 2004.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PSCI 3191 (3) National Security Organization and Policy Making**

Analyzes how the American governmental and political system is structured to define, select, and implement national security policies. Examines roles of the president, Congress, bureaucracy, interest groups, and other actors.

**Recommended:** Prerequisite PSCI 1101.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: American

**PSCI 3193 (3) International Behavior**

Presents alternate theoretical frameworks for the explanation of international processes. Applies theories of conflict behavior and social organization to problems of war and peace.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 2223.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: International Relations

**PSCI 3205 (3) Undergraduate Research Experience**

Broadens and strengthens social science methodological skills and training by providing research collaboration between undergraduates and advanced graduate students and faculty. Promotes hands-on learning, immersion in the research process, and professional relationships. Students will collectively design and execute an original research project on a topic chosen with guidance by the instructor.

**Requisites:** Requires prerequisite course of PSCI 2075 (minimum grade C-). Restricted to students with 27-180 credits (Sophomore, Junior or Senior) Political Science (PSCI) majors or minors only. Restricted to students with a cumulative GPA of 3.0 or higher.

**Grading Basis:** Letter Grade

**Additional Information:** Departmental Category: Empirical Theory and Research Methodology

**PSCI 3206 (3) The Environment and Public Policy**

Considers constitutional, political, and geographic factors in development of public policy affecting the use of natural resources and management of the environment; organization, procedures, and programs for use of natural resources; and administration of environmental policies.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 1101 or PSCI 2012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Public Policy

**PSCI 3211 (3) The Politics of Economic Inequality in the United States**

Explores empirical and normative origins and current state of economic inequality in the United States from a political science perspective. Evaluates how ideas about democracy and public policy address economic inequality, including the roles of gender, race and class in inequality. Examines the relationship between economic inequality and political inequality in both political behavior and political institutions.

**Requisites:** Requires a prerequisite course of PSCI 1101 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-U.S. Perspective  
Departmental Category: American

**PSCI 3213 (3) International Political Economy**

Analyzes issues at the intersection of international politics and international economics. Utilizes theories and concepts from both economics and political science to understand issues in trade, finance, development and migration. Formerly PSCI 4193.

**Recommended:** Prerequisite PSCI 2223.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: International Relations

**PSCI 3216 (3) Politics of Social Policy**

Examines theoretical assumptions, political processes, program content, and analytical methods used in development of US social policy. Current social policy issues are put in historic context and include assessment of social, economic, and political influences on policy choices and outcomes. Students have opportunity to compare policy approaches and gain practice in evaluating the politics and content of public policy alternatives.

**Recommended:** Prerequisite PSCI 1101, PSCI 2106 or PSCI 2012.

**PSCI 3223 (3) International Human Rights**

Introduces the basic concepts behind international human rights. We define human rights and learn how human rights norms have developed. We explore why countries regularly violate the human rights of their own citizens. We learn how politics complicates the interactions between countries and other actors to protect human rights. Finally, we analyze the promise and limits of international cooperation and law in promoting human rights.

**Recommended:** Prerequisite PSCI 2223.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PSCI 3225 (3) Strategy and Politics**

Focuses on the rational choice approach to understanding political decision making. Introduces students to the tools and methods of game-theoretic reasoning, and examines the strategic logic of many forms of political decision-making, including voting, lawmaking, and international conflict.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 1101 or PSCI 2012 or PSCI 2223.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Empirical Theory and Research Methodology

**PSCI 3271 (3) Law and Society: Legal Institutions and Human Behavior**

Examines relationship between human behavior and legal system, looking closely at the voluntary relationship between the citizen and the state, the use of law to balance economic liberty and equality, support for civil liberties, and procedural, distributive, and retributive justice.

**Recommended:** Prerequisite PSCI 1101.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: American

**PSCI 3274 (3) Capitalism and its Critics**

Examines competing theoretical approaches to questions related to origins, development, and purposes of modern government in the United States; particular attention paid to impact of transformations in the underlying structure of the capitalist economy. Formerly PSCI 3171.

**Recommended:** Prerequisite PSCI 1101 or PSCI 2004.

**Additional Information:** Arts Sci Core Curr: United States Context  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Political Theory

**PSCI 3281 (3) Development of American Political Institutions**

Learn about the evolution of major American political institutions including the presidency, Congress, the judiciary, the party system and the right to vote.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: American

**PSCI 3294 (3) Theories of Identity**

What is identity? How does it shape politics, and vice-versa? What are identity politics, and how do they shape the current political landscape? This course uses political theory, law, and case studies to give a three-part introduction to related core concepts: modern and contemporary theories of identity; the legal construction of identity in the United States; and the relationship between identity, policy, and activism in U.S. history and contemporary politics.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-U.S. Perspective

**PSCI 3301 (3) Gender, Sexuality and U.S. Law**

Contemporary and historic overview of U.S. courts' treatment of sex and gender. Using the case method, examines policy issues including, but not limited to: same sex marriage and civil unions; privacy; affirmative action; abortion; reproductive technologies; and discrimination based on sex and sexual orientation in education and in the workplace.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 3300

**Recommended:** Prerequisite PSCI 1101 or WGST 2000.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-U.S. Perspective  
Departmental Category: American

**PSCI 3311 (3) Gender and U.S. Politics: Protest, Polls and Policy**

Provides an overview and critical examination of women as political actors within the United States. Students will examine the gendered components of citizenship, election, political office and public policy. Furthermore, students will explore the ways in which gender intersects with class, race, ethnicity, sexual orientation and other identities in U.S. politics.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 3311

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: American

**PSCI 3774 (3) Free Speech and Dangerous Ideas**

Examines in depth various philosophical and legal justifications of First Amendment rights of speech, press, association and religion. Assesses these justifications in relation to broader normative theories of liberal democracy. Can also be taken for American field credit. Formerly PSCI 4774.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisites PSCI 2004 and PSCI 2481.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Political Theory

**PSCI 4002 (3) Western European Politics**

Comparatively analyzes development of the political systems and processes of European democracies. Emphasizes contemporary institutions, decision making patterns, and policy issues. Special attention to challenges of welfare systems.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 2012.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Comparative

**PSCI 4012 (3) Global Development**

Analyzes development theory, case studies in development strategies, and the problems and promises of development: specifically issues of gender, environment, labor, corruption and poverty. The primary focus is on explanations for variation in level of development over time and across countries.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 2012.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Diversity-Global Perspective  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Comparative

**PSCI 4015 (3) Social Media & Politics Research Methods**

Introduces students to state-of-the-art methods for using data from Twitter, Facebook, Instagram, Youtube, and TikTok in quantitative political science research. In this hands-on course, students will conduct original research projects using social media data, while learning text analysis and machine learning techniques that can be applied to diverse types of data.

**Requisites:** Requires prerequisite course of PSCI 2075 (minimum grade B).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PSCI 4016 (3) Inequality and Public Policy in the U.S. and Europe**

Provides an in-depth understanding of factors that change the level of inequality in the U.S. and in Europe and its economic, political, and social consequences across these states over time.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 1101 or PSCI 2012 or PSCI 2106.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Public Policy

**PSCI 4022 (3) Chinese Foreign Policy**

History of China's external relations and theories of foreign policy decision making. Explores two vital bilateral relations (Sino-U.S. and Sino-Japanese) and several key issues (like Taiwan) in China's 21st century foreign policy.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 2012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Comparative  
Departmental Category: Asia Content

**PSCI 4024 (3) Senior Seminar in Political Theory**

Intensively analyzes and discusses major theories and issues of both contemporary political thought and the history of political philosophy. The topic is announced by the instructor, but might include analysis of concepts (justice, human rights, democracy, etc.) or major theories. Emphasizes advanced discussion plus individual research.

**Recommended:** Prerequisite PSCI 2004.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Political Theory

**PSCI 4028 (3) Special Topics**

Offers subjects not covered by existing courses. Offered when the department approves a special topic.

**Repeatable:** Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: General

**PSCI 4052 (3) Chinese Politics**

Explores the politics of 20th century China to speculate on China's future in the 21st century. Begins with an extensive look at the political history of the People's Republic, before turning to social, cultural, economic, and political issues today. Concludes with an examination of Chinese foreign policy, with a focus on Sino-American relations.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 2012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Comparative  
Departmental Category: Asia Content

**PSCI 4062 (3) East European Politics**

Studies developments in the former Soviet satellites and Yugoslavia, their governmental organizations, and their relation to the former Soviet Union and the West.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Comparative

**PSCI 4106 (3) Issues and Challenges in American Green Energy Policy**

Explores growth of contemporary American green energy industry. Explores different types of green energy policies and how government institutions and regularly arrangements affect the development of green energy policy.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Public Policy

**PSCI 4131 (3) Latinos and the U.S. Political System**

Examines the political status and activities of Mexican Americans and other Latino groups (Cuban Americans and Puerto Ricans) in the U.S. Also covers Latino political attitudes and behaviors; Latino efforts to influence the major national, state, and local institutions of the American government; and public policy concerns of Latinos.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 1101.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-U.S. Perspective  
Departmental Category: American

**PSCI 4173 (3) International Organizations**

Explores if and how countries cooperate under anarchy. Investigates cooperation over a number of international issues, including peace and security, trade and development, human rights, and justice for victims of war crimes. Gives special attention to organizations including the United Nations, European Union, International Monetary Fund, and World Trade Organization.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: International Relations

**PSCI 4213 (3) Europe and the International System**

Covers the past, present and future of Europe's global role.

**Recommended:** Prerequisite PSCI 2223.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: International Relations

**PSCI 4221 (3) Political Psychology**

Examines the psychological foundations of political decision-making among citizens and elites. Considers the role of political psychology in explaining political behavior and outcomes at the individual and collective level.

**Recommended:** Prerequisite PSCI 1101.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: American

**PSCI 4241 (3) Constitutional Law**

Focuses on the nature and scope of American constitutional principles as developed by the U.S. Supreme Court, including federalism, separation of powers, commerce, due process and equal protection.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 1101.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: American

**PSCI 4242 (3) Middle Eastern Politics**

Explores the domestic politics of various Middle Eastern countries as well as the development and globalization of the region. Includes topics such as the ongoing prevalence of dictatorships, political Islamism, oil politics, economic growth and stagnation, and relations with the U.S.

**Recommended:** Prerequisite PSCI 2012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Comparative  
Departmental Category: Asia Content

**PSCI 4243 (3) Modern Warfare: Terrorism, Ideology, Identity**

Explores the evolution of warfare and origins of terrorism. Ideological and identity differences have come to the forefront of violent political conflicts while the emerging doctrine of warfare has placed civilians in the middle of modern conflicts. Tracks potential changes in the means of and reasons for fighting, roles of civilians and media, and rules of war.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisites PSCI 2223 and PSCI 3193.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: International Relations

**PSCI 4252 (3) Politics of Ethnicity and Nationalism**

Analyzes ethnic identity as a factor in contemporary politics. Deals extensively with the role of ethnic groups in political mobilization, the development of national collective consciousness, nation building, and international relations. Explores the influence of religion, language, history, culture and class on ethnic group formation and behavior.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 2012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Comparative

**PSCI 4253 (3) Politics of Identity and Inter-Ethnic Violence**

Discusses politics of identity and why identity is such a potent source of violence. Is inter-ethnic conflict an end in itself, or are ethnic groups trying to achieve other goals through violence? What can be done to prevent or ameliorate inter-ethnic strife? Examines theoretical aspects of identity, inter-ethnic conflict, as well as specific examples of ethnic crises.

**Recommended:** Prerequisite PSCI 2223 or PSCI 2012.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: International Relations

**PSCI 4283 (3) International Migration and Policy**

Explores the politics of international migration, including public attitudes toward immigration, special interests politics of immigration policy making and the dynamics between political institutions and international migrations. Students will learn about the politics of international migration across different receiving and sending states over the past two centuries with an emphasis on the current debates over immigration in the U.S. and Western Europe.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: International Relations

**PSCI 4302 (3) European Union Politics**

Explores the development, functioning, focus and future of the European Union. Examines history, institutions, policies and politics as well as governance theories that have been developed to explain origins and evolution of the EU.

**Recommended:** Prerequisite PSCI 2012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Comparative

**PSCI 4322 (3) Indigenous People's Politics**

Explore critical concepts, conversations, and issues surrounding Indigenous peoples' politics and politics around the globe. Analyze the ways in which Indigenous peoples have been impacted by colonization and look at how Indigenous peoples continue to respond to forces such as colonialism and capitalism in different geographical regions with a focus on the Americas. We will also draw on the experiences of indigenous peoples in Australia and New Zealand.

**Recommended:** Prerequisite PSCI 2012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PSCI 4341 (3) Media and Politics**

Examines aspects of political communication as it applies to citizens, political decision makers, and specific public policies.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

**Recommended:** Prerequisite PSCI 1101.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: American

**PSCI 4374 (3) Global Seminar: Revolutions in Paris**

Study the French Revolution (1789-1799) and the Paris Commune (1871) through immersive role-playing games, while learning about the ideas, history, and impact of these events through visits to important sites in and around the city of Paris. Learn about conservatism, republicanism, proto-socialism, slavery abolition, and anti-colonialism in the French Revolution; and socialism, Marxism, anarchism, and feminism in the Paris Commune.

**PSCI 4391 (3) Gender Politics and Global Activism**

Addresses the problems and challenges women face around the world and the ways in which women have mobilized to address them. Explores political activism at the local, national, regional and global levels. Focuses on different forms of activism, including strategies aimed at working with and within governmental institutions, as well as outside and against them.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 4500

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite WGST 2000 or WGST 2600.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: American

**PSCI 4701 (3) Symbolic Politics**

Introduces uses and abuses of symbols as instruments and indicators of political change.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite PSCI 1101.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: American

**PSCI 4703 (3) Technology, Society and the Future**

Explores some of the remarkable technological advances made in recent years such as Artificial Intelligence, Robotics, Social Media, "Big Data," Internet-Interconnectivity, etc. in order to better understand how they are reshaping the world around us. Looks at the implications of these technological advances for a variety of social and political issues including education, communication, medicine, international development, international relations, work, social life, politics, elections and democracy. Recommended Prerequisites: PSCI 2012 and/or IAFS 1000.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: International Relations

**PSCI 4714 (3) Liberalism and Its Critics**

Examines contemporary arguments for and against liberalism. Focuses on the analysis, evaluation, and understanding of the philosophical contributions to this debate. Gives special attention to the concepts of justice, freedom, equality, and individualism.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 2004.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Political Theory

**PSCI 4715 (3) Honors Political Science Seminar**

Involves writing and discussion of selected topics in political science. Critically reviews the major methodological and conceptual features of the discipline. Students begin their honors papers in the seminar. Department enforced prerequisite: minimum 3.3 GPA. Generally offered in fall term only.

**Additional Information:** Arts Sciences Honors Course  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Empirical Theory and Research Methodology

**PSCI 4716 (3) Selected Policy Problems**

Integrates general principles of policy inquiry with documents and other literature on specific problems in public policy, in order to evaluate courses of action.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Public Policy

**PSCI 4725 (3) Political Science Honors Thesis**

Involves writing an honors thesis. Formerly PSCI 4008.

**Requisites:** Requires prerequisite course of PSCI 4715 (minimum grade B-).

**Additional Information:** Arts Sciences Honors Course  
Departmental Category: Empirical Theory and Research Methodology

**PSCI 4731 (3) Civic Engagement in America**

Closely examines the various understandings of democracy, the arguments for and against democracy, and the progress of and prospects for democratic politics in the United States. Particular attention is paid to economic, social, and political developments in the United States that affect popular sovereignty, political equality, and liberty.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 1101.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: American

**PSCI 4732 (3) Critical Thinking in Development**

Exposes students to current issues in the political economy of development. Subjects range from globalization, democratization and economic development. Specifically explores the international and domestic determinants of economic development with special reference to currency markets, foreign direct investment, trade and democratization.

**Equivalent - Duplicate Degree Credit Not Granted:** INVS 4302

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite PSCI 2012.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Comparative

**PSCI 4734 (3) Politics and Literature**

Broadly examines political topics as they are presented in important literary works and analyzes the possibilities involved in using the literary mode to present political teachings.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 2004.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Political Theory

**PSCI 4751 (3) The Politics of Ideas**

Examines theoretical arguments and case studies of interactions of ideas, interests, and institutions in policymaking. Analyzes processes through which ideas come to the public agenda, how institutional settings shape those ideas, and why some ideas and interests are more successful.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite PSCI 1101.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: American

**PSCI 4771 (3) Civil Rights and Liberties in America**

Implementation of rights and liberties in America. Examines fundamental issues of free speech, press, association, and religion along with rights to due process and equal protection under the law.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: American

**PSCI 4783 (3) Global Issues**

Studies the principal issues confronting humanity that affect stability and survivability and their economic, social, and political implications.

**Requisites:** Restricted to Political Science (PSCI), International Affairs (IAFS) or Environmental Studies (ENVS) majors only.

**Recommended:** Prerequisite PSCI 2012 or PSCI 2223.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: International Relations

**PSCI 4792 (3) Issues in Latin American Politics**

Studies several Latin American countries in some depth including history and contemporary politics. Teaches students to listen to and evaluate different sides of political controversies, and critically evaluate arguments.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite PSCI 2012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Comparative

**PSCI 4841 (1-3) Independent Study in American Politics**

Subjects are chosen and arrangements are made to suit the needs of each student. Independent study is for upper-division students who have completed 9 credit hours of political science and who have an overall GPA of at least 3.00. Not more than 6 credit hours of independent study may be credited toward the minimum requirements in the political science major. A special independent study approval agreement form must be obtained from the department.

**Repeatable:** Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

**Recommended:** Prerequisite PSCI 1101.

**Additional Information:** Departmental Category: American

**PSCI 4842 (1-3) Independent Study in Comparative Politics**

Subjects chosen and arrangements made to suit needs of each student. Independent study is for upper-division students who have completed 9 credit hours of political science and who have an overall GPA of at least 3.00. Not more than 6 credit hours of independent study may be credited toward the minimum requirements in the political science major. Special independent study approval agreement form must be obtained from the department.

**Repeatable:** Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

**Recommended:** Prerequisite PSCI 2012 or IAFS 1000.

**Additional Information:** Departmental Category: Comparative

**PSCI 4843 (1-3) Independent Study in International Relations**

Subjects chosen and arrangements made to suit needs of each student. Independent study is for upper-division students who have completed 9 credit hours of political science and who have an overall average of at least 3.00. Not more than 6 credit hours of independent study may be credited toward the minimum requirements in the political science major. Special independent study approval agreement form must be obtained from the department.

**Repeatable:** Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

**Recommended:** Prerequisite PSCI 2223.

**Additional Information:** Departmental Category: International Relations

**PSCI 4844 (1-3) Independent Study in Political Theory**

Subjects and arrangements suit individual student needs. Independent study is for upper-division students who have completed 9 credit hours of political science and who have an overall GPA of at least 3.00. Not more than 6 credit hours of independent study may be credited toward the minimum requirements in the political science major. Special independent study approval agreement form must be obtained from the department.

**Repeatable:** Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

**Recommended:** Prerequisite PSCI 2004.

**Additional Information:** Departmental Category: Political Theory

**PSCI 4846 (1-3) Independent Study in Public Policy**

Subjects chosen and arrangements made to suit needs of each student. Independent study is for upper-division students who have completed 9 credit hours of political science and who have an overall average GPA of at least 3.00. Not more than 6 credit hours of independent study may be credited toward the minimum requirements in the political science major. Special independent study approval agreement form must be obtained from the department.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Grading Basis:** Letter Grade

**Additional Information:** Departmental Category: Public Policy

**PSCI 4848 (1-3) Independent Study**

Subjects chosen and arrangements made to suit needs of each student. Independent study is for upper-division students who have completed 9 credit hours of political science and who have an overall average of at least 3.00. Not more than 6 credit hours of independent study may be credited toward the minimum requirements in the political science major. Special independent study approval agreement form must be obtained from the department.

**Repeatable:** Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: General

**PSCI 4938 (3-6) Internship in Government**

With instructor's assistance, students secure an internship with a political or governmental organization. In addition to the internship, the class consists of regular seminars, course readings and assignments, and individual conferences with the instructor. Student pursues an academic research project and writes an original research paper. Instructor approval required in semester preceding internship. Contact instructor prior to early registration.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Recommended:** Prerequisite PSCI 1101.

**Additional Information:** Departmental Category: General

## Political Science - Bachelor of Arts (BA)

A degree in political science provides students with the ability to think critically about challenges facing the world today. Students develop research, writing and analytical skills to prepare them for careers in fields such as:

- Government
- Civil service
- Journalism
- Business management
- Legislative analysis
- Criminology
- City planning
- Population studies

Students can combine the major with credentials to teach government, political science and civics in secondary schools. If a student plans to go on to the graduate level, the political science minor is an excellent complement to fields such as law, economics and a number of other social science disciplines.

Career Services (<http://www.colorado.edu/career/>) offers a number of programs and services designed to help political science students plan their career, including workshops, internships and placement services after graduation.

## Requirements

### Program Requirements

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below. Total credit hours required in Political Science courses: 42 credit hours, including 24 upper-division credit hours.

No courses for the PSCI major may be taken pass/fail, and a student must have a grade of C- or better in all 42 required credit hours in political science, and a cumulative GPA of 2.0 or better in political science courses.

No more than 45 credit hours in political science credit will count toward the Arts and Sciences graduation requirement of 120 credit hours. This may be exceeded by 6 credit hours (for a total of 51 credit hours), provided that the excess credit hours are taken in PSCI 4715 and PSCI 4725 (honors thesis credit).

### Required Courses and Credit Hours

Code	Title	Credit Hours
<b>PSCI Lower-division Distribution</b>		
PSCI 1101	Introduction to American Politics	3
PSCI 2012	Introduction to Comparative Politics	3
PSCI 2223	Introduction to International Relations	3
PSCI 2004	Survey of Western Political Thought	3
<b>Empirical Theory and Research Methodology</b>		
PSCI 2075	Quantitative Research Methods	3
Choose one of the following:		3
PSCI 3075	Applied Political Science Research	
PSCI 3105	Designing Social Inquiry: An Introduction to Analyzing Political Phenomena	
PSCI 3155	Survey Design and Analysis	
PSCI 3205	Undergraduate Research Experience	
PSCI 3225	Strategy and Politics	
<b>PSCI Upper-division Distribution</b>		
Select one course in four of the following six primary fields:		12
American		
Comparative		
International Relations		
Political Theory		
Empirical Theory and Research Methodology <sup>1</sup>		
Public Policy		
<b>Political Science Electives</b>		
Three upper-division PSCI elective courses		9
One lower or upper-division PSCI elective course		3
<b>Total Credit Hours</b>		<b>42</b>

<sup>1</sup> Note that the second Empirical Theory and Research Methodology course taken in sequence, PSCI 3075, PSCI 3105, PSCI 3155, PSCI 3205 or PSCI 3225, will not count toward the upper-division distribution requirement for the Empirical Theory/Research Methodology field.

### Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in political science, students should meet the following requirements:

- By the end of the second semester, declare the major.
- By the end of the third semester, complete PSCI 1101 and two of the following required courses: PSCI 2012, PSCI 2223, PSCI 2004 or PSCI 2075.
- By the end of the fourth semester, complete the remaining lower-division political science courses.
- By the end of the sixth semester, complete 12 upper-division credit hours of political science courses, including at least one course in three of the following fields: American, comparative, international relations, methodology, policy and theory. In addition, complete three upper-division or lower-division political science elective credit hours.
- During the seventh and eighth semesters, complete 12 credit hours of political science courses, including at least 9 upper-division political science elective credit hours and all remaining upper-division field distribution requirements.

## Recommended Four-Year Plan of Study

Through the required coursework for the major, students will complete all 12 credits of the the Social Sciences area of the Gen Ed Distribution Requirement, as well as the QRMS component of the Gen Ed Skills Requirement. Depending on the courses selected in the major, students can also potentially complete the U.S. Perspective component of the Gen Ed Diversity Requirement.

### Year One

Fall Semester		Credit Hours
PSCI 1101	Introduction to American Politics	3
PSCI 2012 or PSCI 2223	Introduction to Comparative Politics or Introduction to International Relations	3
Gen. Ed. Distribution course (example: Natural Sciences with Lab)		4
Gen. Ed. Skills course (example: Lower-division Written Communication)		3
Elective or MAPS (If needed)		3
<b>Credit Hours</b>		<b>16</b>

Spring Semester		Credit Hours
PSCI 2223 or PSCI 2012	Introduction to International Relations or Introduction to Comparative Politics	3
PSCI 2004	Survey of Western Political Thought	3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Elective or MAPS		3
Elective or MAPS		3
<b>Credit Hours</b>		<b>15</b>

### Year Two

Fall Semester		Credit Hours
PSCI 2075	Quantitative Research Methods	3
PSCI Required Upper-Division course (Four Area courses required)		3
Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/US Perspective)		3
Elective		3
Elective		3
<b>Credit Hours</b>		<b>15</b>

**Spring Semester**

PSCI 3105 or PSCI 3075 or PSCI 3225 or PSCI 3155 or PSCI 3205	Designing Social Inquiry: An Introduction to Analyzing Political Phenomena or Applied Political Science Research or Strategy and Politics or Survey Design and Analysis or Undergraduate Research Experience	3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/Global Perspective)		3
Elective		3

**Credit Hours 15**

**Year Three**

**Fall Semester**

PSCI Required Upper-Division course (Four Area courses required)		3
PSCI Required Upper-Division course (Four Area courses required)		3
Gen. Ed. Skills course (example: Upper-division Written Communication)		3
Elective (Upper-Division)		3
Elective		3

**Credit Hours 15**

**Spring Semester**

PSCI Required Upper-Division course (Four Area courses required)		3
PSCI Required Upper-Division Elective (Twelve elective credits required)		3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Elective (Upper-Division)		3
Elective		3

**Credit Hours 15**

**Year Four**

**Fall Semester**

PSCI Upper-Division Elective (Twelve elective credits required)		3
PSCI Upper-Division Elective (Twelve elective credits required)		3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Elective (Upper-Division)		3
Elective		3

**Credit Hours 15**

**Spring Semester**

PSCI Elective Lower or Upper-division (Twelve elective credits required)		3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Elective (Upper-Division)		3
Elective (Upper-Division)		3
Elective (Upper-Division, if needed)		3

**Credit Hours 15**

**Total Credit Hours 121**

## Learning Outcomes

Upon successfully completing the program, students will be able to:

- Communicate political science concepts clearly, both orally and in writing.
- Locate the evidence necessary to evaluate arguments in political science research and the current political world.
- Create well-designed arguments using relevant theories of political science.
- Answer research questions using logical inference from quantitative and qualitative evidence.
- Understand political dynamics at the subnational, national and international levels.
- Develop an appreciation for various ideological perspectives and for the complex political environment around them.
- Acquire a sense of efficacy for changing the political environment.

## Political Science - Minor

A minor in political science provides students with the ability to think critically about challenges facing the world today. Students develop research, writing and analytical skills to prepare them for careers in fields such as:

- Government
- Civil service
- Journalism
- Business management
- Legislative analysis
- Criminology
- City planning
- Population studies

Students can combine the minor with teaching credentials and study in an affiliated field to teach government, political science and civics in secondary schools. If a student plans to go on to the graduate level, the political science minor is an excellent complement to fields such as law, economics and a number of other social science disciplines.

Career Services (<http://www.colorado.edu/career/>) offers a number of programs and services designed to help political science students plan their career, including workshops, internships and placement services after graduation.

## Requirements

Declaration of a minor in political science is open to any student enrolled at CU Boulder, regardless of college or school.

Students must complete 21 credit hours of political science to complete the political science minor, of which 9 credit hours must be in upper-division coursework. All 21 credit hours must be completed with grades of C- or better and an overall GPA of 2.00. None of the required credit hours may be taken pass/fail.

## Required Courses and Credit Hours

Code	Title	Credit Hours
<b>Lower-Division Courses</b>		
PSCI 1101	Introduction to American Politics	3
Select two of the following:		6
PSCI 2012	Introduction to Comparative Politics	
PSCI 2223	Introduction to International Relations	
PSCI 2004	Survey of Western Political Thought	
PSCI 2075	Quantitative Research Methods	
<b>Upper-Division Courses</b>		
9 credit hours in a minimum of two of the following primary fields: <sup>1</sup>		9
American		
Comparative		
International Relations		
Political Theory		
Empirical Theory and Research Methodology		
Public Policy		
<b>Lower- or Upper-Division Political Science</b>		
3 credit hours of lower- or upper-division political science		3
<b>Total Credit Hours</b>		<b>21</b>

<sup>1</sup> PSCI 4938 will not fulfill a primary field area in the minor.

## International Affairs Majors

International affairs majors who wish to minor in political science must apply the following additional rules:

- No more than 9 credit hours toward the PSCI minor can come from courses that count toward another major.
- International affairs majors must take at least one upper-division course in American politics and one course (lower- or upper-division) in political theory, in addition to the regular minor requirements.

## Psychology and Neuroscience

At the undergraduate level, this department offers a major in psychology and a major and a certificate in neuroscience.

Psychology includes a set of interconnected disciplines that, together, seek to understand human cognition, emotion and behavior. Psychology also encompasses applied disciplines that seek to advance and apply psychological science to better understand mental health and improve lives and benefit society.

Neuroscience is the study of the mechanisms of nervous system—the brain, the spinal cord and networks of sensory nerve cells, or neurons. Neuroscientists work to describe how neural circuits transmit signals and process different types of information. The principles of neuroscience are derived from the application of methods from many scientific disciplines, including molecular and cellular biology, biochemistry, physiology, structure and computational modeling.

Students contemplating postgraduate education, either in professional or in graduate school, are encouraged to participate in the departmental honors program, which provides special opportunities for individualized attention.

CU Boulder's Department of Psychology and Neuroscience has been ranked by the National Academy of Sciences as one of the best in the country with respect to the quality of the faculty and their scholarly productivity. Moreover, the department offers undergraduates a wide range of opportunities for involvement in research.

Course codes for this program are PSYC and NRSC.

## Bachelor's Degrees

- Neuroscience - Bachelor of Arts (BA) (p. 548)
- Psychology - Bachelor of Arts (BA) (p. 551)

## Certificate

- Neurosciences - Certificate (p. 553)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Kaiser, Roselinde H. ([https://experts.colorado.edu/display/fisid\\_164070/](https://experts.colorado.edu/display/fisid_164070/))

Associate Professor; PhD, University of Colorado Boulder

Kaufmann, Vyga G. ([https://experts.colorado.edu/display/fisid\\_151089/](https://experts.colorado.edu/display/fisid_151089/))

Teaching Assistant Professor; PhD, University of Colorado Boulder

Keller, Matthew C. ([https://experts.colorado.edu/display/fisid\\_144507/](https://experts.colorado.edu/display/fisid_144507/))

Professor; PhD, University of Michigan Ann Arbor

Kilimnik, Chelsea ([https://experts.colorado.edu/display/fisid\\_169111/](https://experts.colorado.edu/display/fisid_169111/))

Assistant Professor; PhD, University of Texas at Austin

Kim, Albert E. ([https://experts.colorado.edu/display/fisid\\_143740/](https://experts.colorado.edu/display/fisid_143740/))

Associate Professor; PhD, University of Pennsylvania

King, D. Brett ([https://experts.colorado.edu/display/fisid\\_103815/](https://experts.colorado.edu/display/fisid_103815/))

Teaching Professor of Distinction; PhD, Colorado State University

Kintsch, Walter

Professor Emeritus

Knight, Erik ([https://experts.colorado.edu/individual/fisid\\_167412/](https://experts.colorado.edu/individual/fisid_167412/))

Assistant Professor; PhD, University of Oregon

Kodish, Tamar

Assistant Professor; PhD, University of California Los Angeles

Maier, Steven F.

Distinguished Professor; PhD, University of Pennsylvania

McClelland, Gary H.

Professor Emeritus

Miyake, Akira ([https://experts.colorado.edu/display/fisid\\_107321/](https://experts.colorado.edu/display/fisid_107321/))

Professor; PhD, Carnegie Mellon University

Molas, Susanna

Assistant Professor; PhD, Pompeu Fabra University

Olson, Richard

Professor Emeritus

Park, Bernadette ([https://experts.colorado.edu/display/fisid\\_103732/](https://experts.colorado.edu/display/fisid_103732/))

Professor Emeritus; PhD, Northwestern University

Pedersen, Eric ([https://experts.colorado.edu/display/fisid\\_159278/](https://experts.colorado.edu/display/fisid_159278/))

Assistant Professor; PhD, University of Miami

Pierotti, Chelsea ([https://experts.colorado.edu/individual/fisid\\_155551/](https://experts.colorado.edu/individual/fisid_155551/))

Teaching Assistant Professor; PhD, University of Northern Colorado

Pietri, Evava

Associate Professor; PhD, Ohio State University

Pittman Wagers, Tina ([https://experts.colorado.edu/display/fisid\\_117148/](https://experts.colorado.edu/display/fisid_117148/))

Emerita Teaching Professor of Distinction; PsyD, University of Denver

Polson, Peter G.

Professor Emeritus

Ramirez, Albert

Associate Professor Emeritus

Reynolds, Chandra

Professor; PhD, University of Southern California

Rhee, Soo H. ([https://experts.colorado.edu/display/fisid\\_123401/](https://experts.colorado.edu/display/fisid_123401/))

Associate Professor; PhD, Emory University

Richardson, Emily ([https://experts.colorado.edu/display/fisid\\_115007/](https://experts.colorado.edu/display/fisid_115007/))

Clinical Associate Professor; PhD, University of Iowa

Root, David H. ([https://experts.colorado.edu/display/fisid\\_159444/](https://experts.colorado.edu/display/fisid_159444/))

Assistant Professor; PhD, Rutgers University

Rudy, Jerry W.

Professor Emeritus; PhD, University of Virginia

Saddoris, Michael Paul ([https://experts.colorado.edu/display/fisid\\_152979/](https://experts.colorado.edu/display/fisid_152979/))

Assistant Professor; PhD, Johns Hopkins University

Smutzler, Natalie ([https://experts.colorado.edu/individual/fisid\\_113933/](https://experts.colorado.edu/individual/fisid_113933/))

Teaching Associate Professor; PhD, Indiana University Bloomington

Spencer, Robert L. ([https://experts.colorado.edu/display/fisid\\_104362/](https://experts.colorado.edu/display/fisid_104362/))

Professor; PhD, University of Arizona

Stallings, Michael C. ([https://experts.colorado.edu/display/fisid\\_108745/](https://experts.colorado.edu/display/fisid_108745/))

Professor; PhD, University of Southern California

Stratford, Jennifer M. ([https://experts.colorado.edu/display/fisid\\_157880/](https://experts.colorado.edu/display/fisid_157880/))

Teaching Associate Professor; PhD, Florida State University

Taylor, Ronald G.

Professor Emeritus

Van Boven, Leaf D. ([https://experts.colorado.edu/display/fisid\\_126291/](https://experts.colorado.edu/display/fisid_126291/))

Professor; PhD, Cornell University

Watkins, Linda R. ([https://experts.colorado.edu/display/fisid\\_101513/](https://experts.colorado.edu/display/fisid_101513/))

Distinguished Professor; PhD, Virginia Commonwealth University

Wehner, Jeanne M.

Professor Emerita

Wertheimer, Michael

Professor Emeritus

Whisman, Mark ([https://experts.colorado.edu/display/fisid\\_113391/](https://experts.colorado.edu/display/fisid_113391/))

Professor; PhD, University of Washington

Willcutt, Erik G. ([https://experts.colorado.edu/display/fisid\\_113861/](https://experts.colorado.edu/display/fisid_113861/))

Wilson, James R.

Professor Emeritus

Yuan, Lei ([https://experts.colorado.edu/individual/fisid\\_167699/](https://experts.colorado.edu/individual/fisid_167699/))

Assistant Professor; PhD, Northwestern University

## Courses

### Neuroscience

#### NRSC 1020 (1) Exploring the Neuroscience Major

This course familiarizes students to the neuroscience major at CU Boulder, and helps students develop key skills needed for academic success. Students will learn about department and campus resources, and how to get involved in the wider neuroscience community, including clubs and research. An overview of select neuroscience-related topics, and possible career paths, helps students determine goodness of fit. This elective course is designed for first-year and other students exploring educational and career opportunities in this exciting field.

#### NRSC 2100 (4) Introduction to Neuroscience

Provides an introduction to fundamental concepts in neuroscience. The goal of this first course is to provide a strong foundation in neurobiology-cell biology, physiology of the neuronal membrane, interneuronal communication, neurotransmission, gross anatomy, and how the brain develops. Students will also learn principles of sensory systems functions. Recitation will reinforce lecture concepts through discussion of current research.

**Requisites:** Requires prerequisite courses of MCDB 1111 or MCDB 1150 or EBIO 1210 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

#### NRSC 2101 (1-4) Topics in Neuroscience

Provides students with the opportunity to focus on a specific area of Neuroscience in depth.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

#### NRSC 2125 (4) Introduction to Neuroscience I: Foundations

Provides an introduction to fundamental knowledge and principles in neuroscience. The goal of this first semester of an Introduction to Neuroscience two semester sequence is to provide a strong foundation in neurobiology-cell biology, physiology of the neuronal membrane, synaptic neurotransmission, neurochemistry, gross anatomy and introduction to sensory perception. Recitation will reinforce lecture concepts.

**Requisites:** Requires prerequisite course of MCDB 1150 or EBIO 1210 (minimum grade C-).

#### NRSC 2150 (4) Introduction to Neuroscience II: Systems

Extends understanding of fundamental knowledge in neuroscience with a focus on systems function. The goal of this second semester of an Introduction to Neuroscience two semester sequence is to develop deeper understanding of neurobiological systems function. Featured is the neurophysiology, neuroanatomy and function of human sensory systems, motor systems, sensorimotor integration and higher level neurosystem function.

**Requisites:** Requires prerequisite course of NRSC 2100 or NRSC 2125 (minimum grade C-).

**NRSC 2200 (2) Laboratory Techniques in Neuroscience**

Introduces students to many basic and essential laboratory skills in neuroscience research. Students will learn experimental methods and perform experiments depicting principles in neurophysiology, neuroanatomy, neurochemistry, and the fundamentals of neuroimaging techniques.

**Requisites:** Requires a prerequisite course of NRSC 2100 or NRSC 2125 (minimum grade C-). Restricted to Neuroscience (NRSC) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences

**NRSC 4011 (1-3) Senior Thesis**

Senior Thesis credits are available for students during the semester that they write and defend a departmental Honors Thesis. A neuroscience honors thesis must be based on an empirical research project that the student directs/participates in under guidance from a faculty member. Contact the neuroscience director for further information.

**NRSC 4015 (3) Affective Neuroscience**

Experiencing and learning from affect—emotional value—is a fundamental part of the human experience. When people started thinking of brains as computers, research on emotion fell by the wayside. Recently however, this has changed, and there is an explosion of work on the brain mechanisms of affective value. Covers recent advances in understanding the emotional brain.

**Equivalent - Duplicate Degree Credit Not Granted:** NRSC 5015

**Requisites:** Requires a prerequisite course of PSYC 2012 or NRSC 2100 or NRSC 2125 (minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**NRSC 4032 (3) Neurobiology of Learning and Memory**

Provides a comprehensive treatment of how the brain acquires, stores, and retrieves memories. To do this we will consider (a) the methods used to address these issues, (b) what we know about how brain systems are organized to support memories of different types, and (c) the synaptic mechanisms that are involved.

**Equivalent - Duplicate Degree Credit Not Granted:** NRSC 5032

**Requisites:** Requires a prerequisite course of NRSC 2100 or NRSC 2150 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**NRSC 4062 (3) The Neurobiology of Stress**

Provides an introduction to the concept of stress and the physiological systems involved. Factors modulating stress vulnerability versus resilience, and stress interactions with other systems with health relevance will be explored. Emphasis will be placed on current research on brain mechanisms. Formerly PSYC 4062.

**Requisites:** Requires a prerequisite course of NRSC 2100 or NRSC 2150 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**NRSC 4072 (3) Clinical Neuroscience: A Clinical and Pathological Perspective**

Provides a review of the anatomy and physiology of the nervous system and then explores how alterations in these systems can result in neurologic or psychiatric disorders. Emphasizes pathological neuroanatomy, neurophysiology and neuropharmacology, which is essential for understanding problems related to health and disease.

**Equivalent - Duplicate Degree Credit Not Granted:** NRSC 5072

**Requisites:** Requires prereq of NRSC 2100 or NRSC 2150 and EBIO 2070 or MCDB 2150 (all min grade C-). Restricted to students with 57-180 credits (Junior or Senior).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**NRSC 4082 (3) Neural Circuits of Learning and Decision Making**

Provides an in-depth survey of the neural mechanisms of learning, motivated behavior and decision making. Analysis will focus on the interaction of neural circuits underlying these processes with particular attention to the cellular, molecular and information-processing aspects of identified pathways and considered into the context learning-based and neuroeconomic models of choice.

**Equivalent - Duplicate Degree Credit Not Granted:** NRSC 5082

**Requisites:** Requires a prerequisite course of NRSC 2100 or NRSC 2150 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**NRSC 4092 (3) Behavioral Neuroendocrinology**

Provides an introduction to neuroendocrinology with a focus on the interaction between hormones on brain development and behaviorally relevant brain function, including reproductive behaviors, stress, biological rhythms and mood.

**Equivalent - Duplicate Degree Credit Not Granted:** NRSC 5092

**Requisites:** Requires a prerequisite course of NRSC 2100 or NRSC 2150 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**NRSC 4132 (3) Neuropharmacology**

Study of drug action within the central nervous system. This course is designed to provide a fundamental understanding of the neurobiological and neurochemical mechanisms of drug action. Topics covered include the following: 1) principles of pharmacology; 2) brain neurotransmitter systems; 3) biochemical basis of psychiatric disorders and their pharmacological treatment.

**Equivalent - Duplicate Degree Credit Not Granted:** NRSC 5132

**Requisites:** Requires a prerequisite course of NRSC 2100 or NRSC 2150 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**NRSC 4155 (4) Cognitive Neuroscience/Neuropsychology**

Introduction to cognitive neuroscience and neuropsychology. Provides a survey of the neuropsychological underpinnings for a wide range of cognitive functions: vision, object recognition, attention, language, memory and executive function. One lab per week.

**Equivalent - Duplicate Degree Credit Not Granted:** PSYC 4155

**Requisites:** Requires a prerequisite course of PSYC 2111 and PSYC 3111 and (PSYC 2012 or NRSC 2100 or NRSC 2125) (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences

**NRSC 4420 (3) Genetics of Brain and Behavior**

Examines the genetic underpinnings of animal behavior, including an examination of behavioral evolution and the use of genes as tools to examine neural architecture. We will cover topics including foraging, social behavior, personality, parental care and fear. We will explore these behaviors at multiple levels, including genomics, population genetics, molecular genetics, epigenetics, endocrinology and neurobiology. Fulfills MCDB scientific reasoning requirement.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 4420

**Requisites:** Requires prerequisite courses of NRSC 2100 and EBIO 2070 or (MCDB 2150 and (MCDB 1161 or MCDB 1171 or MCDB 1181 or MCDB 2171)) (all minimum grade C).

**Grading Basis:** Letter Grade

**NRSC 4542 (3) The Neurobiology of Mental Illness**

Provides in depth study of what is known concerning the neurobiology of mental illnesses, with a focus on depression and anxiety. Consideration will be given to both animal models and human work, with neurochemical, circuitry level, and neuroinflammatory processes to be highlighted. There will be discussion of the intricacies of determining the effectiveness of pharmacological treatments, and what the implications of such treatments might be.

**Requisites:** Requires prerequisite courses of NRSC 2100 or NRSC 2150 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**NRSC 4545 (3) Neurobiology of Addiction**

Covers an intensive survey and synthesis of recent findings contributing to our understanding of the neurobiological basis of addiction. Analysis of both drug and behavioral addictions will be made at the molecular, cellular and neurocircuitry levels and synthesized into models utilizing common themes between various addictions and contributing pathologies.

**Equivalent - Duplicate Degree Credit Not Granted:** NRSC 5545

**Requisites:** Requires prerequisite courses of NRSC 4132 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**NRSC 4561 (1-3) Special Topics in Neuroscience**

Presents and analyzes special interest topics from the broad and interdisciplinary field of neuroscience. The instructor determines the content of a particular section. Repeatable for up to 6.00 total credit hours.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course of NRSC 2100 (minimum grade C-). Restricted to Neuroscience (NRSC) majors only.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**NRSC 4572 (3) Developmental Neurobiology**

Examines the molecular and cellular processes that generate a functional nervous system. Topics covered include cell fate determination, neurogenesis and gliogenesis, cell migration, axon pathfinding, synapse formation and synapse refinement. Also explores how alterations in development can result in neurologic or psychiatric disorders. Formerly offered as a special topics course.

**Requisites:** Requires a prerequisite course of NRSC 2100 or NRSC 2150 (minimum grade C-).

**Recommended:** Prerequisite or corequisite MCDB 3135.

**NRSC 4841 (1-3) Independent Study in Neuroscience**

**Repeatable:** Repeatable for up to 8.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) Neuroscience (NRSC) majors only.

**Psychology****PSYC 1001 (3) General Psychology**

Provides a foundation for engaging with scientific research on human behavior, and surveys the basic principles and theories of psychology. Topics include biological and hereditary influences on behavior; human perception, attention, learning, and memory; social influences; personality; psychiatric disorders and treatments.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
MAPS Course: Social Science

**PSYC 2012 (3) Biological Psychology**

Surveys biological bases of learning, motivation, emotion, sensory processes and perception, movement, comparative animal behavior, sexual and reproductive activity, instinctual behavior, neurobiology of language and thought, and neurophysiology and neuroanatomy in relation to behavior.

**Requisites:** Requires prerequisite PSYC 1001 (minimum grade C-).

**Additional Information:** GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab

Arts Sci Core Curr: Natural Science Non-Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

**PSYC 2111 (4) Psychological Science I: Statistics**

Three hours of lecture and one two-hour lab per week. Introduces descriptive and inferential statistics and their roles in psychological research. Topics include correlation, regression, T-test, analysis of variance and selected nonparametric statistics.

**Requisites:** Requires prerequisite course of MATH 1011 or MATH 1150 or MATH 1212 or MATH 1300 or ECON 1078 or ECON 1088 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab

Arts Sci Gen Ed: Distribution-Natural Sciences

**PSYC 2145 (3) Introductory Cognitive Psychology**

Introduces the study of human cognitive processes and covers perception, attention, memory, language, problem solving, reasoning, and decision making. Focuses on basic research and theory in cognitive psychology but also considers their implications for everyday applications such as effective learning and retention, multitasking, and eyewitness testimony.

**Requisites:** Requires a prerequisite course of PSYC 1001 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**PSYC 2606 (3) Social Psychology**

Covers general psychological principles underlying social behavior. Analyzes major social psychological theories, methods, and topics, including attitudes, conformity, aggression, attraction, social perception, helping behavior, and group relations.

**Requisites:** Requires a prerequisite course of PSYC 1001 (minimum grade C-).

**Additional Information:** GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame

Arts Sci Core Curr: Contemporary Societies

Arts Sci Gen Ed: Distribution-Social Sciences

**PSYC 2700 (3) Psychology of Gender and Sexuality**

Examines psychological research on gender and sexuality as they intersect with race, class and other social categories. Points of emphasis include differences in cognition, attitudes, personality and social behavior. Conceptual themes include research methodologies, implicit and explicit attitudes, stigma and stereotypes. These elucidate such areas as close relationships, leadership, career success and mental health and happiness.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 2700

**Requisites:** Requires a prerequisite course of PSYC 1001 or WGST 2000 (minimum grade C-).

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-U.S. Perspective

**PSYC 3001 (4) Honors Research Methods Seminar**

Focuses on research design. Each student prepares an original, detailed research proposal, which can become the honors thesis. Open only to students who have been accepted into the psychology departmental honors program. Instructor consent required.

**Additional Information:** Arts Sciences Honors Course

**PSYC 3005 (3) Cognitive Science**

Provides an introductory survey of influential models, theoretical approaches, and methods of cognitive science. Emphasizes and explains the convergence by work in multiple fields - including psychology and neuroscience, linguistics, computer science, and philosophy - on the idea that mental activity is a form of computation. Students from diverse backgrounds are introduced to a wide range of methods and approaches, including behavioral and neuroimaging experimental approaches, computational modeling and philosophical work. Department enforced prerequisites: two of the following CSCI 1300 or LING 2000 or PSYC 2145.

**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 3702 and LING 3005 and PHIL 3310 and SLHS 3003

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Social Sciences

**PSYC 3102 (3) Behavioral Genetics**

Introduces the basic principles of genetics, covers how these principles can be used in the study of behavior, and evaluates the evidence for genetic influences on behavioral characteristics.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**PSYC 3111 (4) Psychological Science 2: Research Methods in Psychology**

Provides a foundation in research methodology to give students the ability to design, conduct, analyze, and present (both verbally and in writing) an empirical study in psychology. Allows students to be effective producers and consumers of research.

**Requisites:** Requires prerequisite courses of PSYC 1001 and PSYC 2111 (minimum grade C-).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PSYC 3131 (3) Human Emotion**

Introduces students to a diverse array of theoretical and empirical issues related to the study of human emotion. Evolutionary theories of anger, love and disgust; emotion and morality; cultural and gender differences; emotion and the brain; relation between emotion and thinking; development of emotion; and abnormal emotions in mental illness.

**Requisites:** Requires a prerequisite course of PSYC 1001 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PSYC 3303 (3) Clinical Psychology: Psychological Disorders**

Examines etiological, theoretical, clinical, diagnostic, and experimental perspectives of major mental health disorders, with an emphasis on the main symptoms and diagnostic criteria associated with these disorders.

**Requisites:** Requires a prerequisite course of PSYC 1001 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**PSYC 3456 (3) Psychology of Personality**

Offers a psychological study of structure, organization and development of the person as a whole. Analysis of major theories, methods and research, including topics such as emotion, motivation, temperament, inner experience, identity and the self, personality change and the influence of sociocultural context.

**Requisites:** Requires a prerequisite course of PSYC 1001 (minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PSYC 3511 (3) History of Psychology**

Includes outline of development of psychological theories since the Greek philosophers, the story of experimental psychology and its problems, and schools of psychological thinking. Students read original sources in English and English translations. Formerly PSYC 4511.

**Requisites:** Requires a prerequisite course of PSYC 1001 (minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**PSYC 3684 (3) Developmental Psychology**

In-depth consideration of human developmental processes across the life span. Includes coverage of the major topics in human development, such as physical, cognitive, social, emotional, and moral development.

**Requisites:** Requires prerequisite of PSYC 1001 (minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisites PSYC 2111 and PSYC 3111 (Both require minimum grade of C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Developmental

**PSYC 4001 (3) Honors Seminar 2**

Surveys contemporary issues, explores current controversies, and examines in detail selected topics in psychology. Open to juniors and seniors pursuing departmental honors.

**Additional Information:** Arts Sciences Honors Course

**PSYC 4011 (1-3) Senior Thesis**

Critically reviews some aspect of psychological literature, scholarly analysis of a major psychological issue, and/or empirical research project. See the psychology honors director for further information.

**Additional Information:** Departmental Category: General

**PSYC 4021 (3) Psychology and Neuroscience of Exercise**

Explores social, cognitive, psychobiological and behavioral aspects of exercise and other forms of physical activity. Examines how psychological and neuroscience research have been used to study how participation in regular physical activity affects mental health and how psychological and other variables influence participation in, adherence to, enjoyment of, and consequences of exercise and physical activity.

**Requisites:** Requires a prerequisite course of PSYC 2012 or NRSC 2100 or NRSC 2125 (minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**PSYC 4031 (3) Sport Psychology**

Explores the role psychological factors play in the participation in, performance in, and enjoyment of sport. Topics include the role of motivation, attention, arousal, psychological skills training, leadership, and teamwork in sport performance; the psychological variables influencing exercise addiction, overtraining, burnout, body image, and susceptibility to, and recovery from, athletic injuries; and competition, cooperation aggression, and moral behavior in sport.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: General

**PSYC 4101 (3) Honors Thesis 1**

Completing an Honors Thesis under the direction of the course instructor will be the focus of this course. Students will each conduct an original, empirical research project, including developing the research idea, collecting and analyzing data, and writing their thesis, as well as practice their oral defense. Students will additionally acquire applied experience in research methods, statistics, and data analysis.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite courses of PSYC 2111 and PSYC 3111 (minimum grade C-). Restricted to students with 3.3 GPA or higher.

**Grading Basis:** Letter Grade

**PSYC 4114 (3) Adolescent Development and Learning for Teachers**

Examines current theory and research about adolescent learning and development and explore implications for secondary teaching. Topics include human diversity as a resource for learning, adversity and agency, connecting instruction to students' everyday lives, and the role of belonging and relationships in positive youth development. This course is appropriate for masters degree students.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PSYC 4136 (4) Judgment and Decision Making**

Introduces the study of judgment and decision making processes (estimation, prediction and diagnosis, choice under certainty, and risky decision making) and the methods that have been developed to improve these processes (statistical modeling, decision analysis, and expert systems).

**Requisites:** Requires prerequisite courses of PSYC 1001 and PSYC 2606 and PSYC 2111 and PSYC 3111 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Psychology (PSYC) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PSYC 4142 (3) Brain Injury, Plasticity and Recovery: From Neuron to Behavior**

Traumatic brain injury is prevalent in all aspects of society, with incidence rates varying according to age, gender, military affiliation and participation in certain sports. Delves into the full spectrum of consequences following injury, beginning with the individual neural cells in the brain through to the behaving individual. Covers strategies to improve functional recovery.

**Requisites:** Requires a prerequisite course of PSYC 2012 or NRSC 2100 or NRSC 2125 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) majors only.

**Recommended:** Prerequisite NRSC 4132.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**PSYC 4145 (4) Advanced Cognitive Psychology**

Advanced course in human cognitive processes. Covers key aspects of cognition, such as perception, attention, learning, memory, language and thinking. Discusses major theories and ideas in terms of the research they have inspired. Emphasis varies with instructor. One lab per week and a research project is required.

**Equivalent - Duplicate Degree Credit Not Granted:** PSYC 5145

**Requisites:** Requires prerequisite courses of PSYC 1001 and PSYC 2145 and PSYC 2111 and PSYC 3111 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**PSYC 4152 (4) Research Methods in Behavioral Genetics**

Advanced course in behavioral genetics. Focuses on current methods used in quantitative and statistical genetics, emphasizing practical application and interpretation. Students review primary-source research and reviews. Students learn and apply technological skills by exploring genome wide data in laboratory practicals and demonstrate applied and theoretical knowledge in a cumulative paper.

**Requisites:** Requires prerequisite courses of PSYC 3111 and (EBIO 2070 or MCDB 2150 or PSYC 3102) (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**PSYC 4155 (4) Cognitive Neuroscience/Neuropsychology**

Introduction to cognitive neuroscience and neuropsychology. Provides a survey of the neuropsychological underpinnings for a wide range of cognitive functions: vision, object recognition, attention, language, memory and executive function. One lab per week.

**Equivalent - Duplicate Degree Credit Not Granted:** NRSC 4155

**Requisites:** Requires a prerequisite course of PSYC 2111 and PSYC 3111 and (PSYC 2012 or NRSC 2100 or NRSC 2125) (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences

**PSYC 4165 (4) Psychology of Perception**

One lab, three lect. per week. Analyzes peripheral and central mechanisms involved in the transduction and interpretation of experience. Gives special attention to vision and audition; major theories in these areas are discussed in terms of research they have inspired.

**Requisites:** Requires a prerequisite course of PSYC 1001 and PSYC 2111 and PSYC 3111 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences

**PSYC 4175 (4) Computational Cognitive Neuroscience**

Introduction to cognitive neuroscience (how the brain gives rise to thought) using computer simulations based on the neural networks of the brain. Covers a full range of cognitive phenomena including perception and attention, learning and memory, language, and higher-level cognition based on both large-scale cortical neuroanatomy and detailed properties of cortical neural networks. One lab per week.

**Equivalent - Duplicate Degree Credit Not Granted:** PSYC 5175

**Requisites:** Requires prereq of PSYC 1001 and (PSYC 2012 or NRSC 2100 or NRSC 2125) and PSYC 2111 and PSYC 3111 (minimum grade of C-). Restricted to PSYC or NRSC majors.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences

**PSYC 4201 (3) Honors Thesis 2**

Completing an Honors Thesis under the direction of the instructor will be the focus of this course. Students will each conduct an original, empirical research project, including developing the research idea, collecting and analyzing data, and writing their thesis, as well as practice their oral defense. Students will additionally acquire applied experience in research methods, statistics and data analysis.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite courses of PSYC 2111 and PSYC 3111 (minimum grade C-). Restricted to students with GPA of 3.3 or higher.

**Grading Basis:** Letter Grade

**PSYC 4220 (3) Language and Mind**

Studies topics such as speech perception, word recognition, sentence comprehension, language acquisition, bilingualism, reading and writing. Examines the role of language as a product and producer of the mind, studying interactions between language and cognition from an interdisciplinary perspective. Students will become familiar with the methods of psycholinguistics and design and conduct a psycholinguistic experiment on their own.

**Equivalent - Duplicate Degree Credit Not Granted:** LING 4220

**Recommended:** Prerequisites PSYC 1001 and LING 2000.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PSYC 4225 (4) Interdisciplinary Research Methods in Child Language Acquisition**

Explores fundamental issues in language acquisition cross-culturally, combining methods from Linguistics, Anthropology, Psychology and Computer Science. Students will explore theoretical issue using a hands-on approach that involves acquiring skills such as designing and conducting experiments, investigating corpus data, and computational modeling.

**Equivalent - Duplicate Degree Credit Not Granted:** LING 4225

**Requisites:** Requires a prerequisite course of PSYC 1001 or LING 2000 (minimum grade C).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PSYC 4263 (3) Psychological Treatment: An Evidence-Based Approach**

Provides an intensive introduction to behavioral interventions for common mental health problems and the framework of evidence-based practice in psychology, including helping students to acquire, critically evaluate and communicate about clinical psychological science intervention research and become familiar with applied skills that are relevant to a broad range of clinical settings.

**Requisites:** Requires prerequisite courses of PSYC 2111 and PSYC 3111 and PSYC 3303 (all minimum grade C-)

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PSYC 4332 (1) Found in Translation: TBI From Bench to Bedside to Community**

Traumatic Brain Injury (TBI) is prevalent in all aspects of society. Delves into all aspects of TBI, with particular emphasis on translational clinical neuroscience. That is, the movement of knowledge from bench, to bedside, to community. All of this knowledge resulting in better treatment of and outcome for those with TBI.

**Requisites:** Requires prerequisite courses of PSYC 2012 or NRSC 2100 or NRSC 2125 (minimum grade C-). Restricted to students with 57-180 units (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**PSYC 4376 (4) Research Methods in Social Psychology**

Introduces the study of social psychological processes, emphasizing the social cognition perspective (e.g., stereotyping, person perception, theory of planned behavior) and the methods utilized in studying these processes. Students will complete research projects as part of the course.

**Requisites:** Requires prerequisite courses of PSYC 2606 and PSYC 2111 and PSYC 3111 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Psychology (PSYC) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PSYC 4443 (4) Research Methods in Clinical Psychology**

Learn to evaluate research methods as they relate to etiology, assessment, and intervention of psychological disorders. Emphasizes the importance of using sound methodological strategies in both research and clinical settings.

**Requisites:** Requires prerequisite courses of PSYC 2111 and PSYC 3111 and PSYC 3303 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PSYC 4526 (3) Social Neuroscience**

Develops greater knowledge of the general psychological principles underlying social behavior by using methods and theories from neuroscience. Students learn about common methods in human neuroscience and how they can be applied to better understand social behavior.

**Requisites:** Requires prerequisite courses of (PSYC 2012 or NRSC 2100 or NRSC 2125) and PSYC 2111 and PSYC 2606 and PSYC 3111 (all minimum grade C-). Restricted to students with 57-180 credits (junior or senior) Psychology (PSYC) or Neuroscience (NRSC) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Social Sciences

**PSYC 4541 (3) Special Topics in Psychology - Social Science**

Examines individual or social dimensions of human behavior. Students will develop expertise in basic theories, as well as in measurement techniques and data interpretation regarding issues of societal significance. Students will consider applications of that knowledge, ranging from the development of new theory to solving problems. Particular section content is determined by instructor. PSYC 4541 and/or PSYC 4551 may be taken 3 times with different topics, for a total of 9 credits

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires prerequisite courses of PSYC 1001 and PSYC 2111 and PSYC 3111 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Psychology (PSYC) majors only.

**PSYC 4543 (3) Clinical Neuropsychological Disorders**

Neuropsychological disorders are behavioral and cognitive expressions of underlying brain diseases or injury. The course will provide in-depth coverage from clinical perspectives of wide range of disorders caused by stroke, traumatic brain injury, degenerative diseases, and inflammatory diseases. Students will learn the various neurologic, neuroimaging and neuropsychological methods for assessing and diagnosing these disorders and will review specific illustrative cases.

**Requisites:** Requires prerequisite PSYC 1001 and (PSYC 2012 or NRSC 2100 or NRSC 2125) (all minimum grade C-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**PSYC 4553 (3) Women's Mental Health: A Biopsychosocial Approach**

Provides a broad overview of current research and theory related to women's mental health, emphasizing topics and problems that are prevalent among or particularly relevant to women. Teaches students to develop a critical and integrative understanding women's mental health, including historical, social, cultural, biological, behavioral, cognitive and emotional factors.

**Requisites:** Requires a prerequisite course of PSYC 3303 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Psychology (PSYC) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PSYC 4560 (3) Language Development**

Covers the development of language in childhood and into adult life, emphasizing the role of environment and biological endowment in learning to communicate with words, sentences, and narratives.

**Equivalent - Duplicate Degree Credit Not Granted:** LING 4560 and SLHS 4560

**Requisites:** Restricted to Psychology (PSYC) or Neuroscience (NRSC) majors only.

**Recommended:** Prerequisite PSYC 1001 and LING 2000.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PSYC 4606 (3) Advanced Topics in Social Psychology**

In-depth study of selected topics in social psychology. Particular section content each semester is determined by the instructor. May be repeated for a maximum of 6 credit hours, provided the topics vary.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite courses of PSYC 1001 and PSYC 2606 and PSYC 2111 and PSYC 3111 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Psychology (PSYC) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PSYC 4713 (3) Survey of Clinical Psychology**

Covers theories and practices relating to problems of ability and maladjustment. Diagnostic procedures and treatment methods with children and adults.

**Requisites:** Requires a prerequisite course of PSYC 3303 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Psychology (PSYC) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PSYC 4733 (4) Psychological Testing and Assessment**

Provides an overview of issues central to testing and assessment of psychological constructs, including types of evaluation instruments currently in use in the field, their applications and design.

**Requisites:** Requires prerequisite courses of PSYC 1001 and PSYC 2111 and 3111 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PSYC 4744 (4) Methods in Developmental Psychology**

Learn to critically read and form hypotheses from studies in the developmental literature, gain hands-on experience in testing children and in the design of methods to test children, evaluate experimental data and relate them to hypotheses, previous results and theory, and write so others can understand.

**Requisites:** Requires prerequisite courses of PSYC 1001 and PSYC 2111 and PSYC 3111 and PSYC 3684 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Psychology (PSYC) majors only.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**PSYC 4841 (1-6) Independent Study (Upper Division)**

**Repeatable:** Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) Psychology (PSYC) majors only.

**PSYC 4911 (3) Teaching of Psychology**

Students receive concrete experience in teaching general psychology under supervision of a psychology faculty member. Alternative pedagogical strategies are discussed. Students must submit an application to the undergraduate advising center.

**Additional Information:** Departmental Category: General

**PSYC 4931 (1-6) Field Placement Internship**

Offers valuable volunteer experience through a supervised field placement. Provides hands-on insight into the decisions and issues that confront professionals in psychology and related fields.

**Repeatable:** Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to Psychology (PSYC) majors only.

**Recommended:** Prerequisite completion of 15 or more hours of psychology course work.

**Additional Information:** Departmental Category: General

## Neuroscience - Bachelor of Arts (BA)

Our neuroscience major provides a fundamental understanding of brain function that emerges from knowledge of the interplay of the molecular, cellular and systems-level operation of the nervous system. Our distinguished faculty also teach excellent upper division courses in areas of expertise that include, but are not limited to, learning and memory, addiction, mental illness, stress, neuroendocrinology, neurogenetics and neurocircuits of motivated behavior.

## Requirements

### Prerequisites

It is policy to enforce the course prerequisites listed in the course descriptions. If a student has not either taken and passed (C- or better) the prerequisites for a course, or obtained permission from the instructor or a departmental advisor to take the course based on equivalent preparatory coursework or experience here or elsewhere, the student may be administratively dropped from the course.

### Degree Requirements

The neuroscience major requires a minimum of 37 credit hours in neuroscience coursework, including a minimum of 21 upper-division credit hours, and additional ancillary foundation coursework.

Students must complete the general requirements of the College of Arts and Sciences and the requirements listed below. Students must fulfill all of the following requirements with a grade of C- or better. None of the courses taken to fill these requirements may be taken pass/fail; courses must be taken for a letter grade. The cumulative GPA in courses that can count toward the major must be at least 2.000. Additional explanatory notes are available in the department advising office, Muenzinger D260.

The department recommends taking NRSC 2125, NRSC 2150 and NRSC 2200, the genetics and statistics requirements and the ancillary biology, and general chemistry sequences during the first 2.5 years (5 semesters) of study.

### Required Courses and Credits

Code	Title	Credit Hours
<b>Required Major Courses</b>		
NRSC 2125	Introduction to Neuroscience I: Foundations	4
NRSC 2150	Introduction to Neuroscience II: Systems	4
NRSC 2200	Laboratory Techniques in Neuroscience	2
Select one of the following genetics courses: <sup>1</sup>		3-4
MCDB 2150	Principles of Genetics (preferred)	
EBIO 2070	Genetics: Molecules to Populations	

Select one of the following statistics/computation courses:	3-4
PSYC 2111 Psychological Science I: Statistics (preferred)	
EBIO 1010 Introduction to Statistics and Quantitative Thinking for Biologists	
ECON 3818 Introduction to Statistics with Computer Applications	
IPHY 3280 Intro to Data Science and Biostatistics	
MATH 2510 Introduction to Statistics	
BCOR 1025 Statistical Analysis in Business	
CSCI 3022 Introduction to Data Science with Probability and Statistics	
SOCY 2061 Introduction to Social Statistics	

**Upper-division Neuroscience Requirements**

MCDB 3135 Molecular Biology	3
or MCDB 3145 Cell Biology	

Select at least four of the following Neuroscience courses: 12

NRSC 4032 Neurobiology of Learning and Memory	
NRSC 4062 The Neurobiology of Stress	
NRSC 4545 Neurobiology of Addiction	
NRSC 4572 Developmental Neurobiology	
NRSC 4072 Clinical Neuroscience: A Clinical and Pathological Perspective	
NRSC 4082 Neural Circuits of Learning and Decision Making	
NRSC 4092 Behavioral Neuroendocrinology	
NRSC 4132 Neuropharmacology	
NRSC/MCDB 4420 Genetics of Brain and Behavior	

**Upper-division major electives**

Select 6 credit hours of upper-division elective coursework by taking additional courses from the upper-division requirements above or from the following neuroscience and general science electives.<sup>1</sup> 6

BCHM 4611 Principles of Biochemistry	
BCHM 4631 Computational Genomics Lab	
EBIO 3240 Animal Behavior	
EBIO 4420 Computational Biology	
IPHY 3410 Human Anatomy	
IPHY 3430 Human Physiology	
IPHY 3590 Health and Function over the Adult Lifespan	
IPHY 4200 Physiological Genetics and Genomics	
IPHY 4580 Sleep Physiology	
IPHY 4720 Neurophysiology	
IPHY 4780 Sleep, Circadian Rhythms, and Health	
IPHY 4880 Advanced Data Analysis in Biomedical Research	
MCDB 3450 Biological Data Science	
MCDB 4312 Quantitative Optical Imaging	
or BCHM 4312 Quantitative Optical Imaging	
MCDB 4426 Cell Signaling and Developmental Regulation	
MCDB 4444 Cellular Basis of Disease	
MCDB 4680 Mechanisms of Aging	

MCDB 4777 Molecular Neurobiology	
NRSC 4011 Senior Thesis	
NRSC 4015 Affective Neuroscience	
NRSC/PSYC 4155 Cognitive Neuroscience/ Neuropsychology	
NRSC 4561 Special Topics in Neuroscience	
PSYC 4152 Research Methods in Behavioral Genetics	
PSYC 4165 Psychology of Perception	
PSYC 4526 Social Neuroscience	
PSYC 4543 Clinical Neuropsychological Disorders	
SLHS 4576 Communication Neuroscience	

**Total Credit Hours 37-39**

Code	Title	Credit Hours
------	-------	--------------

**Ancillary Foundation Courses**

*Ancillary introductory biology and laboratory requirement—select one of the two following:* 4-5

MCDB 1150 Introduction to Cellular and Molecular Biology (with 2 credit lab MCDB 1161, MCDB 1171, MCDB 1181/IPHY 1181, MCDB 2161, MCDB 2171)	
EBIO 1210 & EBIO 1230 General Biology 1 and General Biology Laboratory 1	

*Ancillary general chemistry sequence requirement—select one of the following options:* 10

Option 1:	
CHEM 1113 & CHEM 1114	General Chemistry 1 and Laboratory in General Chemistry 1
CHEM 1133 & CHEM 1134	General Chemistry 2 and Laboratory in General Chemistry 2
Option 2:	
Biochemistry/Chemistry double majors: the for-majors CHEM courses count. Discuss with you NRSC advisor.	

**Total Credit Hours 14-15**

<sup>1</sup> Please check all prerequisites and corequisites before enrolling in courses.

<sup>2</sup> Students planning graduate/medical school or work in the biotechnology industry should also take CHEM 3311 and CHEM 3331. Students should verify program requirements for any additional chemistry prerequisites.

**Graduating in Four Years**

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major.

To maintain adequate progress in neuroscience, students should meet the following requirements:

- The neuroscience major ideally should be started in the first semester. Adequate progress is defined as cumulative completion of at least one fourth of the required coursework for the major during each academic year, including the following specific requirements:

a) The ancillary introduction to biology requirement and the genetics requirement ideally should be completed during the first year; b) All ancillary requirements and Introduction to Neuroscience I and II ideally should be completed by the end of the second year.

- The neuroscience major requires at least 51 hours of required coursework.
- The four-year guarantee also requires completion of 30 hours of General Education courses by the end of the sophomore year.

## Recommended Four-Year Plan of Study

Through the required coursework for the major, students will complete all 12 credits of the Natural Sciences area of the Gen Ed Distribution Requirement, including the lab component, and possibly the QRMS component of the Gen Ed Skills Requirement.

### Year One

#### Fall Semester

		Credit Hours
MCDB 1150	Introduction to Cellular and Molecular Biology	3
MCDB 1161 or MCDB 1171	From Dirt to DNA: Phage Genomics Laboratory I or Antibiotics Discovery Through Hands-on Screens I	2
MCDB 1152	Problem Solving Co-Seminar for Introduction to Molecular and Cellular Biology	1
General Education Requirement (example: Lower-division Written Communication)		3
General Education Requirement (example: Arts & Humanities, Social Science)		3
Elective		3
<b>Credit Hours</b>		<b>15</b>

#### Spring Semester

Genetics (MCDB 2150 or EBIO 2070)		3-4
MCDB 2152	Problem Solving Co-Seminars for Genetics	1
CHEM 1021	Introductory Chemistry	4
General Education Requirement (example: Arts & Humanities, Social Science)		3
General Education Requirement (example: Arts & Humanities, Social Science)		3
Elective (lower-division or upper-division)		1-3
<b>Credit Hours</b>		<b>15-18</b>

### Year Two

#### Fall Semester

CHEM 1113 & CHEM 1114	General Chemistry 1 and Laboratory in General Chemistry 1	5
NRSC 2125	Introduction to Neuroscience I: Foundations	4
General Education Requirement (example: Arts & Humanities, Social Science)		3
General Education Requirement (example: Diversity)		3
<b>Credit Hours</b>		<b>15</b>

### Spring Semester

CHEM 1133 & CHEM 1134	General Chemistry 2 and Laboratory in General Chemistry 2	5
NRSC 2150	Introduction to Neuroscience II: Systems	4
General Education Requirement (example: Diversity)		3
General Education Requirement (example: Arts & Humanities, Social Science)		3
<b>Credit Hours</b>		<b>15</b>

### Year Three

#### Fall Semester

NRSC 2200	Laboratory Techniques in Neuroscience	2
MATH 2510	Introduction to Statistics	3
MCDB 3135 or MCDB 3145	Molecular Biology or Cell Biology	3
Upper-division Elective		3
Upper-division Elective		3
Elective (lower-division or upper-division)		1-3
<b>Credit Hours</b>		<b>15-17</b>

#### Spring Semester

Upper-division NRSC Core course		3
Upper-division NRSC Core course		3
General Education Requirement (example: Upper-division Written Communication)		3
Upper-division Elective		3
Upper-division Elective		3
<b>Credit Hours</b>		<b>15</b>

### Year Four

#### Fall Semester

Upper-division NRSC Core course		3
Upper-division NRSC Core course		3
Upper-division Elective		3
Upper division Elective		3
General Education Requirement (example: Arts & Humanities, Social Science)		3
<b>Credit Hours</b>		<b>15</b>

#### Spring Semester

Upper-division NRSC Elective		3
Upper-division NRSC Elective		3
Upper-division Elective		3
Elective (lower-division or upper-division)		3
Elective (lower-division or upper-division)		3
<b>Credit Hours</b>		<b>15</b>
<b>Total Credit Hours</b>		<b>120-125</b>

## Learning Outcomes

Upon completing the program, students will:

- Demonstrate knowledge of the structural organization and functional components of the nervous system, including intracellular and intercellular signaling.
- Demonstrate understanding of the systems and circuits of the brain and nervous system that control specific functions.

- Demonstrate understanding of the important mechanistic relationship between nervous system function and health (physiological, neurological and psychological health).
- Read, evaluate and interpret primary literature in the neuroscience field.
- Design experiments, critically evaluate experimental design and analyze experimental data related to the neuroscience field.
- Effectively communicate information in the neuroscience field.

## Psychology - Bachelor of Arts (BA)

The psychology major provides a fundamental understanding of the principles of human cognition, emotion, behavior, social interactions and mind-brain relationships. Our distinguished faculty also teach specialized upper-division courses in behavioral genetics, neuroscience, cognitive psychology, clinical psychology, child development, social psychology, and judgment and decision making.

### Requirements

#### Prerequisites

It is policy to enforce the course prerequisites listed in the course descriptions. If you have not either taken and passed (C- or better) the prerequisites for a course or obtained permission from the instructor to take the course based on equivalent preparatory coursework, you may be administratively dropped from the course.

#### Degree Requirements

Students must complete the general requirements of the College of Arts and Sciences and the requirements for the major, listed below.

A major in psychology requires a minimum of 36 credit hours in psychology courses. At least 20 of these credit hours must be in upper-division PSYC or NRSC coursework that includes a minimum of 10 credit hours at the 4000 level. Students must complete a minimum of 12 upper-division credit hours of psychology coursework on the Boulder campus with a C- or better. Of those 12 credit hours, one laboratory and methods course must be included.

All required major courses and all required ancillary courses must be passed with a C- or better and cannot be taken pass/fail. Students must have a GPA of at least 2.000 in the major in order to graduate, and no more than 45 credits in PSYC may be applied to overall graduation requirements.

#### Required Courses and Credits

Code	Title	Credit Hours
<b>Psychology Core</b>		
PSYC 1001	General Psychology	3
PSYC 2111	Psychological Science I: Statistics	4
PSYC 3111	Psychological Science 2: Research Methods in Psychology	4
<b>Required Courses</b>		
Select 4 out of 5 from the following options:		12
PSYC 2012	Biological Psychology	
PSYC 2145	Introductory Cognitive Psychology	
PSYC 2606	Social Psychology	
PSYC 3102	Behavioral Genetics	

PSYC 3303 Clinical Psychology: Psychological Disorders

<b>Laboratory and Methods Course</b>		
Select at least one upper-division course from the following:		4
PSYC 4136	Judgment and Decision Making	
PSYC 4145	Advanced Cognitive Psychology	
PSYC 4152	Research Methods in Behavioral Genetics	
PSYC/NRSC 4155	Cognitive Neuroscience/Neuropsychology	
PSYC 4165	Psychology of Perception	
PSYC 4376	Research Methods in Social Psychology	
PSYC 4443	Research Methods in Clinical Psychology	
<b>Upper-Division Major Electives</b>		
Complete 9 credits of applicable electives, including:		9
3 credits of upper-division elective in PSYC or NRSC (3000 or 4000-level)		
3 credits of 4000-level elective in PSYC or NRSC		
3 credits of 4000-level elective either in PSYC/NRSC or from an approved list of external elective courses, including SOCY 4014, SOCY 4031, SOCY 4024, SOCY 4086, SOCY 4063. A maximum of one (3 credit) external elective can be counted toward the PSYC major requirements and hours.		
<b>Total Credit Hours</b>		<b>36</b>

Code	Title	Credit Hours
------	-------	--------------

#### Ancillary Natural Science sequence (some courses may have required labs):

Select one of the following natural science sequences: <sup>1</sup>		6-10
CHEM 1011 & CHEM 1031	Environmental Chemistry 1 and Environmental Chemistry 2	
CHEM 1113 & CHEM 1133	General Chemistry 1 and General Chemistry 2	
CHEM 1400 & CHEM 2100	Foundations of Chemistry and Foundations of Chemistry 2	
EBIO 1210 & EBIO 1220	General Biology 1 and General Biology 2	
MCDB 1150 & MCDB 2150	Introduction to Cellular and Molecular Biology and Principles of Genetics	
MCDB 1150 & EBIO 1220	Introduction to Cellular and Molecular Biology and General Biology 2	
PHYS 1110 & PHYS 1120	General Physics 1 and General Physics 2 (calculus based)	
PHYS 2010 & PHYS 2020	General Physics 1 and General Physics 2 (algebra based)	
<b>Ancillary Math requirement:</b>		
Select one of the following courses: <sup>1</sup>		3-5
MATH 1011	College Algebra	
MATH 1150	Precalculus Mathematics	
MATH 1212	Data and Models	
MATH 1300	Calculus 1	

<sup>1</sup> The student is required to pass with a grade of C- or better.

## Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The department recommends taking PSYC 1001, PSYC 2111 and three of the four required courses (select from PSYC 2012, PSYC 2145, PSYC 2606, PSYC 3102 and PSYC 3303) by the end of the sophomore year. It is recommended that the math prerequisite for PSYC 2111 be taken by the end of the first year. It is also recommended that the two-part sequence, PSYC 2111 and PSYC 3111, be taken in consecutive semesters if possible, although completing the two classes over three semesters is also acceptable. It is recommended that PSYC 3111 be completed by the end of the fifth semester.

## Recommended Four-Year Plan of Study

This is a *sample* four-year plan. Consulting with a departmental advisor every semester is recommended to create a four-year plan most applicable to students' individual circumstances and goals.

*Note:* Wherever "elective" is listed, students may take coursework that applies to a second major, minor or certificate program instead. Work with an advisor to help plan for additional academic credentials.

Through the required coursework for the major, students will complete at least 7 credits in the Social Sciences area and all 12 credits of the Natural Sciences area of the Gen Ed Distribution Requirement. This may include the lab component (PSYC 2111 meets the Gen Ed Natural Science lab requirement) as well as the Quantitative Reasoning and Mathematical Skills (QRMS) component of the Gen Ed Skills Requirement.

### Year One

Fall Semester		Credit Hours
PSYC 1001	General Psychology	3
Gen. Ed. Distribution/Diversity course (example: Social Sciences/US Perspective)		3
Psychology approved Ancillary Natural Science sequence part 1 (example: EBIO 1210; also partially fulfills Gen. Ed.: Natural Sciences) <sup>1</sup>		3
Gen. Ed. Skills or Distribution course (example: Foreign Language or Arts & Humanities)		3
Elective		3
<b>Credit Hours</b>		<b>15</b>

### Spring Semester

Required Psychology Course 1 of 4 (e.g. PSYC 2012, PSYC 2145, or PSYC 2606)		3
MATH Ancillary course (MATH 1212, MATH 1011, MATH 1150, or MATH 1300, also fulfills Gen. Ed. Skills: QRMS)		3
Psychology approved Ancillary Natural Science sequence part 2 (example: EBIO 1220; also partially fulfills Gen. Ed.: Natural Sciences) <sup>1</sup>		3
Gen. Ed. Skills or Distribution course (example: Arts & Humanities or lower-division Written Communication)		3-5
Elective		3
<b>Credit Hours</b>		<b>15-17</b>

### Year Two

Fall Semester		Credit Hours
PSYC 2111	Psychological Science I: Statistics	4

Required Psychology Course 2 of 4 (e.g. PSYC 2012, PSYC 2145, or PSYC 2606)		3
Gen Ed. Distribution course (example: Social Sciences)		3
Elective		3

**Credit Hours 13**

### Spring Semester

PSYC 3111	Psychological Science 2: Research Methods in Psychology <sup>2</sup>	4
Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/Global Perspective)		3
Required Psychology Course 3 of 4 (PSYC 2012, PSYC 2145, PSYC 2606, PSYC 3102, or PSYC 3303)		3
Elective		3
Elective		3

**Credit Hours 16**

### Year Three

#### Fall Semester

Required Psychology Course 4 of 4 (PSYC 2012, PSYC 2145, PSYC 2606, PSYC 3102, or PSYC 3303)		3
PSYC Elective: 3000 level		3
Gen. Ed. Skills course (example: Upper-division Written Communication)		3
Elective		3
Elective		3

**Credit Hours 15**

PSYC Elective: 4000 level (or external elective from approved list)		3
Upper-division Elective		3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Elective		3
Elective		3

**Credit Hours 15**

### Year Four

#### Fall Semester

PSYC Approved Laboratory and Methods course (or PSYC Elective: 4000 level)		4
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Upper-division Elective		3
Upper-division Elective		3
Upper-division Elective		3

**Credit Hours 16**

#### Spring Semester

PSYC Elective: 4000 level (or PSYC Approved Laboratory and Methods course if not taken in 7th semester)		3
Upper-division Elective		3
Upper-division Elective		3
Upper-division Elective		3
Upper-division Elective		3

**Credit Hours 15**

**Total Credit Hours 120-122**

<sup>1</sup> Other choices for PSYC approved Ancillary Natural Science sequence can be found on the Requirements page, but EBIO 1210 (<https://catalog.colorado.edu/search/?P=EBIO%201210>) and EBIO 1220 (<https://catalog.colorado.edu/search/?P=EBIO%201220>) are the most common. Recommended to be completed by the end of the sophomore year.

<sup>2</sup> It is recommended that the two-part sequence, PSYC 2111 and PSYC 3111, be taken in consecutive semesters if possible, although completing the two classes over three semesters is also acceptable. It is recommended that PSYC 3111 be completed by the end of the 5th semester.

## Learning Outcomes

Upon completing the program, students will:

- Achieve a fundamental understanding of the principles of human cognition, emotion, behavior, social interactions and mind-brain relationships; including the scientific basis for this knowledge and methods by which this knowledge is obtained.
- Learn the principles and application of psychological statistical analysis including how to analyze and report experimental results.
- Learn the principles and application of psychological research design.
- Learn how to evaluate and interpret relevant primary literatures.
- Learn how to apply knowledge of psychological principles and the study of human behavior.

## Neurosciences and Behavior - Certificate

The neurosciences certificate program encourages undergraduate students interested in how the brain controls behavior to take courses in the basic sciences while providing the means to specialize in neuroscience.

Since this subdiscipline of the biological sciences spans a number of departments at the university (e.g., integrative physiology, psychology & neuroscience, and MCD biology), students are encouraged to obtain greater academic breadth through interdepartmental course selection.

For more information, visit the Undergraduate Certificate in Neuroscience (<https://www.colorado.edu/neuroscience/undergraduate-education/>) website.

## Requirements

To obtain the certificate, a student must satisfy the requirements of a major other than the NRSC major and the requirements of the neuroscience certificate, and maintain a grade point average of 3.20 or better. All courses must be taken for a letter grade (no pass/fail).

Code	Title	Credit Hours
<b>Required Courses</b>		
<i>General Chemistry sequence with lab (or equivalent sequence)</i>		
CHEM 1113 & CHEM 1114	General Chemistry 1 and Laboratory in General Chemistry 1	5
CHEM 1133 & CHEM 1134	General Chemistry 2 and Laboratory in General Chemistry 2	5
<i>Organic Chemistry sequence (or equivalent sequence)</i>		

CHEM 3311 & CHEM 3321	Organic Chemistry 1 and Laboratory in Organic Chemistry 1	5
CHEM 3331 & CHEM 3341	Organic Chemistry 2 and Laboratory in Organic Chemistry 2	5
<i>General Physics sequence with lab (or equivalent sequence)</i>		
PHYS 2010 & PHYS 2020	General Physics 1 and General Physics 2	10
<i>Biology with lab</i>		
Select one of the two options (or approved equivalent biology courses):		
MCDB 1150 & MCDB 1152	Introduction to Cellular and Molecular Biology and Problem Solving Co-Seminar for Introduction to Molecular and Cellular Biology	6
or MCDB 1161	From Dirt to DNA: Phage Genomics Laboratory I	
or MCDB 1171	Antibiotics Discovery Through Hands-on Screens I	
or MCDB 1181	Biological Probiotic/Drug Discovery Through Hands-on Screens	
EBIO 1210 & EBIO 1230	General Biology 1 and General Biology Laboratory 1	3
<i>Either:</i>		
PSYC 2012	Biological Psychology <sup>1</sup>	3
or NRSC 2125	Introduction to Neuroscience I: Foundations	
<i>General Genetics</i>		
Select one of the following:		
EBIO 2070	Genetics: Molecules to Populations	3
MCDB 2150	Principles of Genetics	
IPHY 4200	Physiological Genetics and Genomics	
Or an approved equivalent general genetics course		
<i>Statistics</i>		
Select one of the following:		
PSYC 2111	Psychological Science I: Statistics	3
IPHY 3280	Intro to Data Science and Biostatistics	
EBIO 1010	Introduction to Statistics and Quantitative Thinking for Biologists	
EBIO 4410	Biological Statistics	
MATH 2510	Introduction to Statistics	3
Or an approved equivalent statistics course		
<i>Electives</i>		
At least two additional upper - division Neuroscience/Behavior courses in IPHY, MCDB, PSYC and/or another department; one of these courses has to be outside of the home department. In the case of double majors, one advanced neuroscience course from each major department fulfills this requirement.		

**Total Credit Hours** **51**

<sup>1</sup> Taking PSYC 2012 or NRSC 2125 alone does not meet the prerequisites for upper-division NRSC courses. Students must take NRSC 2150 in order to take upper-division NRSC courses.

For more information on this certificate and answers to frequently asked questions, see the Neuroscience Undergraduate Certificate (<https://www.colorado.edu/neuroscience/undergraduate-education/>) website or email Professor Serge Campeau (Serge.Campeau@Colorado.EDU), director of the program.

## Public Health

As the world becomes more interconnected, our communities and populations face increasingly complex health challenges emerging through the interaction of individual vulnerability and behavior, cultural and social factors, environmental and geographic influences, as well as economic and political dynamics. Addressing these public health challenges requires innovative approaches arising from multiple disciplines.

According to the Association of Schools & Programs of Public Health (ASPPH) (<http://aspph.org/discover/>), public health is the science and art of protecting and improving the health of communities through education, promotion of healthy lifestyles, and research for disease and injury prevention. Public health helps improve the health and well being of people in local communities and around the globe. Public health works to prevent health problems before they occur.

### Core Areas of Public Health

While public health is defined in many different ways, the following is a list of core areas that are often associated with public health. For more information, visit the What is Public Health? (<http://aspph.org/study/>) website.

- **Biostatistics:** Statistical science applied to health and biomedical data.
- **Environmental health:** The impact of air, water and the built environment on health.
- **Epidemiology:** The study of the frequency, distribution and determinants of disease.
- **Health administration and management:** Managing human and fiscal resources to deliver public health services.
- **Global health:** Addressing health challenges across the world.
- **Maternal and child health:** Improving the health of women, children and their families.
- **Nutrition:** How food and nutrients impact the health of populations.
- **Public health laboratory practice:** Diagnose, prevent, treat and control infectious disease.
- **Public health policy:** The role of policy and policy decisions on public health.
- **Public health practice:** Incorporating public health principles into clinical practice.
- **Social and behavioral science:** The study of social and behavioral determinants of health.

### Certificate

- Public Health - Certificate (p. 554)

## Public Health - Certificate

The undergraduate certificate in public health encourages students to extend the breadth of their undergraduate education to include elements of public health. Students are encouraged to take courses from a variety of participating departments to develop an appreciation of the interdisciplinary nature of public health.

For more information, visit the Public Health Certificate Program (<http://www.colorado.edu/certificate/publichealth/>) website.

## Requirements

The certificate requirements include a minimum of 22 credit hours of coursework, including at least 9 upper-division credit hours. A maximum of 6 semester credit hours from other institutions will be accepted.

### Required Courses and Credit Hours

Code	Title	Credit Hours
<b>Required Courses</b>		<b>10</b>
GEOG/IPHY 2692	Foundations in Public Health	
GEOG 3692	Introduction to Global Public Health	
IPHY 3490	Introduction to Epidemiology	
<i>Required biology course:</i>		<b>3</b>
EBIO 1100	Biology and Society	
or EBIO 1210	General Biology 1	
or MCDB 1030	Introduction to Molecular Biology	
or MCDB 1150	Introduction to Cellular and Molecular Biology	
<i>At least one of the following courses in statistics:</i>		<b>3-4</b>
ANTH 4000	Quantitative Methods in Anthropology	
or BCOR 1025	Statistical Analysis in Business	
or CHEN 3010	Applied Data Analysis	
or EBIO 1010	Introduction to Statistics and Quantitative Thinking for Biologists	
or EBIO 4410	Biological Statistics	
or ECON 3818	Introduction to Statistics with Computer Applications	
or GEOG 3023	Statistics and Geographic Data	
or MATH 2510	Introduction to Statistics	
or PSCI 2075	Quantitative Research Methods	
or PSYC 2111	Psychological Science I: Statistics	
or SOCY 2061	Introduction to Social Statistics	
or STAT 2600	Introduction to Data Science	
<b>Electives</b>		<b>6</b>
Six credit hours of public health electives. At least one course (at least 3 credits) must be at the upper-division level, and at least one course (at least 3 credits) must be from outside of the student's major.		
<i>Biomedicine and Health</i>		
EBIO 3400	Microbiology	
EBIO 3630	Parasitology	
IPHY 2420	Introduction to Nutrition	
IPHY 3440	Clinical Nutrition	
MCDB 3160	Infectious Disease	
MCDB 4201	From Bench to Bedside: The Role of Science in Medicine	
SLHS 3014	Hearing Loss Epidemiology	
<i>Global, Population and Environmental Health</i>		
ECON 4646	Topics in Health Economics	
ENVS 3525	Intermediate Environmental Problem Analysis: Topical Cornerstones	
ENVS 4800	Capstone: Critical Thinking in Environmental Studies	
GEOG 3682	International Development: Economics, Power, and Place	

GEOG 4732	Population Geography
GEOG 4852	Health and Medical Geography
IAFS 3000	Special Topics in International Affairs
PSCI 4012	Global Development
SLHS 1010	Disabilities in Contemporary American Society
SOCY 4007	Global Human Ecology
<i>Medical Humanities</i>	
HIST 4326	Epidemic Disease in US History
MUEL 3862	Music and Global Health
PHIL 1160	Introduction to Medical Ethics
PHIL 3160	Bioethics
SPAN 3080	Spanish Health Professions
WGST 3510	Gender, Sexuality and Global Health
WRTG 3020	Topics in Writing
<i>Social, Cultural and Behavioral Health</i>	
ANTH 4060	Nutrition and Anthropology
ANTH 4610	Medical Anthropology
PSYC 3102	Behavioral Genetics
PSYC 4263	Psychological Treatment: An Evidence-Based Approach
PSYC 4443	Research Methods in Clinical Psychology
PSYC 4606	Advanced Topics in Social Psychology
SOCY 1022	Ethics and Social Issues in U.S. Health and Medicine
SOCY 3032	Social Epidemiology
SOCY 3042	Topics in Population and Health
SOCY 3045	Sociology of Death and Dying
SOCY 3052	Medical Sociology
SOCY 4052	Social Inequalities in Health
SOCY 4062	Suffering and Care in Society

**Total Credit Hours** **22-23**

Global Public Health is an unofficial track of the Public Health Certificate designed specifically for IAFS students. Students interested in pursuing the Global Public Health track of the Public Health Certificate can find additional information on the International Affairs Program (<http://www.colorado.edu/iafs/academics/certificates/global-public-health/>) website.

## Religious Studies

The curriculum in the Department of Religious Studies at CU Boulder trains students in the scholarly understanding and interpretation of the complex phenomenon we call religion through careful study of history, texts, rituals, narrative, art and media. The program offers the skills to approach the comparative study of religion with the option of gaining deeper knowledge in Islam, Hinduism, Buddhism, Judaism, Christianity, religions in America, religions in the Mediterranean, religions in Asia and several indigenous traditions. We also allow students to develop expertise in thematic areas such as religion and the body; ritual studies; religion and the environment; ethics, politics and law; religion, gender and sexuality; and ancient and medieval religions.

The undergraduate degree in religious studies emphasizes the application of various theoretical and methodological approaches to the study of religion; the understanding of religious practices and traditions

with attention to historical context and present-day impact; and the development of media literacy, critical thinking, effective oral and written communication, and research skills in our increasingly globalized and religiously diverse world.

In addition, students with a degree in religious studies are expected to achieve basic religious literacy: the ability to communicate and analyze practical information regarding religious diversity as educated citizens of a pluralistic society and thereby to effectively understand and participate in public debates and discussions about religion.

**Course codes for this program are RLST and SNSK.**

## Bachelor's Degree

- Religious Studies - Bachelor of Arts (BA) (p. 562)

## Minor

- Religious Studies - Minor (p. 564)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

## Courses

### Religious Studies

#### RLST 1620 (3) Religious Dimensions of Human Experience

Surveys different approaches to the study of religion. Students will grow familiar with key thinkers, texts, and movements that shape how we understand religious phenomena. Students will also examine critiques of how religion is studied. In the end, students will have gained insight into significant aspects of religious life, belief, and practice that will empower them to navigate a world in which religion is increasingly relevant.

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Arts Humanities

#### RLST 1818 (3) Jewish History to 1492

Focus on Jewish history from the Biblical period to the Spanish Expulsion in 1492. Study the origins of a group of people who call themselves, and whom others call, Jews. Focus on place, movement, power/powerlessness, gender, and the question of how to define Jews over time and place. Introduces Jews as a group of people bound together by a particular set of laws; looks at their dispersion and diversity; explores Jews' interactions with surrounding cultures and societies; introduces the basic library of Jews; sees how Jews relate to political power.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 1818 and JWST 1818

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective

#### RLST 1820 (3) Religion and Politics in Ancient Egypt

Studies the literature, politics, religions and other traditions of Ancient Egypt.

**Repeatable:** Repeatable for up to 3.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

#### RLST 1828 (3) Jewish History Since 1492

Surveys the major historical developments encountered by Jewish communities beginning with the Spanish Expulsion in 1492 up until the present day. Studies the various ways in which Jews across the modern world engaged with the emerging notions of nationality, equality and citizenship, as well as with new ideologies such as liberalism, socialism, nationalism, imperialism and antisemitism.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 1828 and JWST 1828

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective

#### RLST 1830 (3) Global History of Holocaust and Genocide

Examines the interplay of politics, culture, psychology and sociology to try to understand why the great philosopher Isaiah Berlin called the 20th century, "The most terrible century in Western history." Our focus will be on the Holocaust as the event that defined the concept of genocide, but we will locate this event that has come to define the 20th century within ideas such as racism, imperialism, violence, and most important, the dehumanization of individuals in the modern world.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 1830 and JWST 1830

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Core Curr: Historical Context  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective

#### RLST 1850 (3) Ritual and Media

Ritual continues to play an important role in contemporary societies in both religious and secular contexts. This course examines the elements and genres of ritual activity from African rites of passage to the Beijing Olympics, paying close attention to how the media documents, appropriates and transforms aspects of ritual.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Distribution-Arts Humanities

#### RLST 1900 (3) Introduction to the Hebrew Bible/Old Testament

Examine the content of the Hebrew Bible and critical theories regarding its development. Explore the development of these texts, as well as their foundational role for rabbinic literature and the New Testament. Assess the enduring influence of the Hebrew Bible/Old Testament in world literature and culture (such as in art and music).

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 1900

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective

#### RLST 1910 (3) Introduction to the New Testament

Examine the background, content and influence of the New Testament books. Studies the diverse perspectives contained in the various books, as well as the process of canonization. Assess the influence of the New Testament on the development of Christianity as well as world (eastern and western) culture.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 1910

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

#### RLST 2100 (3) American Beliefs and Values

An in-depth analysis of beliefs and values that have dominated American life in modern and postmodern eras, and of diverse belief and value systems that offer alternatives for the future. The analysis will be based on influential theories from the academic study of religion, and the course will give special attention to the influence of religious factors on secular American life.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

#### RLST 2200 (3) Religion and Dance

Connecting dancing to religions across the globe demonstrates the near synonymy of the two in most cultures, the remarkable potential for dancing to articulate cultural identity, and finally that dancing is strongly connected to what distinguishes being human. Provides an enriched appreciation of dancing and the introduction to dancing in many cultures.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

#### RLST 2202 (3) Islam

Introduces students to foundational Islamic concepts, texts, core practices, historical narratives and intellectual, spiritual and literary traditions. Topics covered include: the figure of Muhammad; the Quran; the emergence of distinct Muslim identities; Hadith; Sharia; Islamic theology; Islamic philosophy; science in Islamic civilization; Islamic mysticism; the impact of colonialism and modernity on the Muslim world; gender and sexuality; political Islam.

**Additional Information:** Arts Sci Core Curr: Ideals and Values

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Arts Sci Gen Ed: Diversity-U.S. Perspective

**RLST 2320 (3) The Muslim World, 600-1250**

Focusing on the history of the Muslim World in the age of the caliphates, this course takes an interdisciplinary, comparative approach to the development of Islamic society, focusing on social structure, politics, economics and religion. Students will use primary and secondary sources to write a research paper, and make in-class presentations to cultivate critical thinking, research and writing skills.

**Equivalent - Duplicate Degree Credit Not Granted:** ARAB 2320

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Departmental Category: Asia Content

**RLST 2400 (3) Religion, Ethics and Politics**

Explores the role of religion in today's world, focusing on debates around religion, ethics and politics. Examining diverse voices from Christianity, Judaism and other traditions, this course considers religion's role in debates about issues such as same-sex marriage, race, climate change, war, criminal justice, torture, sexual ethics, abortion and economic justice.

**Additional Information:** GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame

Arts Sci Core Curr: Contemporary Societies

Arts Sci Gen Ed: Distribution-Arts Humanities

**RLST 2500 (3) Religions in the United States**

Explores the development of various religions within the shaping influences of American culture, including separation of church and state, the frontier experience, civil religion, and the interaction of religions of indigenous peoples, immigrants, and African Americans.

**Additional Information:** GT Pathways: GT-AH2 - Arts Hum: Lit Humanities

Arts Sci Core Curr: Ideals and Values

Arts Sci Core Curr: United States Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-U.S. Perspective

**RLST 2600 (3) Judaism, Christianity, and Islam: Abrahamic Religions**

In Judaism, Christianity, and Islam, Abraham is described as a founding figure. In recent times, the label "Abrahamic Religions" has become increasingly important both as a way to describe the origins and beliefs of Judaism, Christianity, and Islam and as a means for finding common ground in political and religious discourse. Yet in each religion Abraham is also used in strikingly different ways and for distinct purposes. In this course, we will look at these three religious traditions and how each one imagines Abraham. In particular, the focus will be on how each religion uses Abraham to construct foundational stories of a special relationship to God, stories that ultimately serve to promote religious identity over time.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 2600

**Additional Information:** GT Pathways: GT-AH3 - Arts Hum: Ways of Thinking

Arts Sci Core Curr: Ideals and Values

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Asia Content

**RLST 2610 (3) Happiness and Nirvana: Enlightenment in Indian Religions**

Addresses religious and spiritual practices geared towards ideals of enlightenment across various religious traditions in India, including Buddhism, Hinduism, Jainism and Sikhism, in relation to different social groups historically. Examines the concept of happiness (sukh) and its connections to spiritual enlightenment.

**Additional Information:** GT Pathways: GT-AH2 - Arts Hum: Lit Humanities

Arts Sci Core Curr: Ideals and Values

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Asia Content

**RLST 2612 (3) Yoga: Ancient and Modern**

Addresses the history and philosophy of yoga, beginning from its earliest articulations in Vedic India 1200 BCE up to contemporary understandings of yoga. Examines yoga's historical evolution from a primarily mental practice to a bodily centered practice. Looks at the shifts yoga undergoes as it becomes popular in the modern West.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

**RLST 2614 (3) Paganism to Christianity**

Offers a cultural history of Greek and Roman religion. Students read ancient texts in translation and use evidence from archaeology to reconstruct the shift from paganism to Christianity in antiquity. No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 2610

**Additional Information:** Arts Sci Core Curr: Ideals and Values

Arts Sci Gen Ed: Distribution-Arts Humanities

**RLST 2620 (3) Religions of East Asia**

Introduces literature, beliefs, practices, and institutions of Taoism, Confucianism, Buddhism, and Shintoism in historical perspective.

**Additional Information:** Arts Sci Core Curr: Ideals and Values

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Asia Content

**RLST 2650 (3) Meditation: Ancient and Modern**

Explores the roots of today's mindfulness movement in ancient forms of Buddhist meditation. Topics covered include the array of meditation techniques in Buddhism, colonial-period origins of lay meditation in Asia, Buddhism's transmission to North America and Europe in the 20th century, the emergence of secular forms of mindfulness, and scientific studies on mindfulness and compassion.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**RLST 2700 (3) Native American and Indigenous Religious Traditions**

Studies the religious lifeways of diverse Indigenous peoples in North America. The course considers how these religious lifeways facilitate healing, movements of social protest, and efforts for self-determination in response to ongoing forms of colonialism. Students will critically explore the impact of colonial structures on Native American religious traditions, such as missionization, and evaluate the meaning of decolonization as both a pathway and goal supporting Native liberation.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 2703

**Additional Information:** GT Pathways: GT-AH2 - Arts Hum: Lit Humanities

Arts Sci Core Curr: Human Diversity

Arts Sci Core Curr: Ideals and Values

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-U.S. Perspective

**RLST 2800 (3) Women and Religion**

Examines roles of women in a variety of religious traditions including Judaism, Christianity, Hinduism, Buddhism, and goddess traditions.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 2800

**Additional Information:** GT Pathways: GT-AH2 - Arts Hum: Lit Humanities  
Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-U.S. Perspective

**RLST 2840 (1-3) Independent Study**

**Repeatable:** Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.

**RLST 3000 (3) Christian Traditions**

Serves as an introduction to the academic study of Christianity, understood in its historical context, beginning with its most remote Mesopotamian origins and through to beginnings of the Protestant Reformation. Coverage is global, but "Western" Christian tradition are emphasized, as is the evolution of doctrine, ritual and institutions in relation to social, cultural and political factors.

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

**RLST 3001 (3) Modern Christianity: Culture, Politics, Religion**

Studies development of various aspects of global Christian traditions from the Reformation to the present day, as expressed through scripture, theology, ritual, media, politics, ethics, popular culture, and the arts.

Includes topics such as colonialism, modernism and liberalism, secularism, pluralism, ecumensim, globalization, and the impact of new technologies. Recommended prerequisite: RLST 3000

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**RLST 3010 (3) Religion and the Senses**

Expanding the five common senses so they are grounded on a more fundamental kinesthetic sense, that is, sense of movement, this course focuses on the study of religion and culture on all those marvelous richly and sensuously textured aspects of religious behavior: movement, experience, feeling, action, sensation, gesture, art, music, dancing, architecture, costume, food, and ritual.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**RLST 3020 (3) Advanced Writing in Religious Studies**

Seminar for religious studies majors that emphasizes the development of writing skills for use inside as well as outside the academy. Writing assignments are focused on one or more core topics in religious studies.

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) Religious Studies (RLST) majors only.

**Additional Information:** Arts Sci Core Curr: Written Communication

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Written Communication-Upper

**RLST 3040 (3) The Quran**

Examines how Christian constructions of religion and scripture have shaped Muslim understandings of the Quran and marginalized other views with a much longer history. Helps students appreciate how this process of marginalization is negotiated and explores the Quran from other perspectives including sound, performance, embodiment, and occultism. By highlighting marginalized approaches to the Quran, it promotes a better understanding of how social and religious differences are shaped by different political legacies. Previously offered as a special topics course.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Departmental Category: Asia Content

**RLST 3050 (3) Religion and Literature in America**

Studies religious dimensions of American culture through representative literature, beginning with the Puritans and focusing on diversity in the 19th and 20th centuries.

**Additional Information:** Arts Sci Core Curr: United States Context

Arts Sci Gen Ed: Distribution-Arts Humanities

**RLST 3060 (3) Fundamentalism and Islam**

Explores the global rise of fundamentalism, particularly Islamic fundamentalism. Students will analyze fundamentalism as a function of modernity, and in metaphysical rather than geostrategic or cultural terms. Students will examine the arguments of Muslim fundamentalists, and the counterarguments of their critics.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Asia Content

**RLST 3070 (3) Islamic Mysticism: Ibn Arabi, Rumi, and the Sufi Tradition**

Introduces students to the philosophical, literary, and musical traditions of Islamic Mysticism or Sufism. Figures covered include: Rumi, Hallaj, Ibn Arabi, Mulla Sadra, Ghazali, Hafez, Ibn al-Farid, Ghalib, and Nusrat Fateh Ali Khan. Students will learn how Islamic Mysticism differs across cultural contexts and how it compares to other mystical traditions.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**RLST 3100 (3) Judaism**

Explores Jewish religious experience and its expression in thought, ritual, ethics, and social institutions.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 3100

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Asia Content

**RLST 3110 (3) Of Jewish Legends, Folktales and the Supernatural**

Explores Jewish traditional legends, folktales and stories of the supernatural. Starts with Aggadic Talmud tales and Midrashic texts and focuses on later rabbinic and mystical texts and folktales ca 500-1900 C.E. from around the Jewish world with subjects ranging from didactic narratives extolling the virtues of the simple pure soul, to the horrors of a blood sucking vampiric outside world.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 3110

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**RLST 3120 (3) Radical Jews**

Explores major Jewish figures, and their cultural productions, who were radical in the challenges they posed and transformative in the effects they had on society. The figures we examine range from the Rabbis of the Talmud who revolutionized a sacrificial cult religion, to Western secularist Baruch Spinoza and American icons such as Allen Ginsberg, Gloria Steinem and Bob Dylan.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 3120

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**RLST 3150 (3) Jerusalem: The Holy City in History, Legend, and Religious Thought**

The history of Jerusalem and the stories that have given it prominence in the religious imagination continue to shape much of the world in which we live. In this class, we will survey approximately three millennia of the history of the city. We will ask methodological questions, such as: What does it mean for a place to be conceived of as holy? How does this perceived holiness come about? What happens when holy places are destroyed and rebuilt? We will examine the biblical stories about Jerusalem not only as important sources themselves, but also for how they shape later religious traditions, specifically Judaism, Christianity, and Islam. As such, we will address what it means for the same place to be perceived as "holy" by differing, and often competing, groups. These contestations regarding Jerusalem will, then, allow us to engage issues of religious diversity and conflict both historically and in the present.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 3150

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**RLST 3200 (3) Yoga, Castes and Magic: Hindu Society and Spirituality**

Addresses yoga, religious asceticism and practices of magic in Hinduism from ancient India up to the modern period. Gives an overview of the variety of traditions in Hinduism, focusing on how spiritual practices affect social roles. Looks at how spiritual practices approach happiness and social change, from ancient India's secret Upanisads through medieval mystic poets like Mirabai, through Gandhi in the 20th century, focusing on figures using mystical experience to overturn social and political powers.

Departmental Category: Asia Content

**RLST 3202 (3) Women, Gender & Sexuality in Jewish Texts & Traditions**

Reads some of the ways Jewish texts and traditions look at women, gender and sexuality from biblical times to the present. Starts with an analysis of the positioning of the body, matter and gender in creation stories, moves on to the gendered aspects of tales of rescue and sacrifice, biblical tales of sexual subversion and power, taboo-breaking and ethnos building, to rabbinic attitudes towards women, sexuality and gender and contemporary renderings and rereadings of the earlier texts and traditions.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective

**RLST 3300 (3) Foundations of Buddhism**

Introduction to Buddhist thought and practice in the variety of its historical and cultural contexts. The course begins with an exploration of narrative, cosmology, doctrine and ritual in early Buddhism and the Theravada of South and Southeast Asia. Through case studies, we then trace diverse conceptions of the Buddhist path in Tibet and East Asia where the Mahayana spread.

Departmental Category: Asia Content

**RLST 3530 (3) Global Seminar: Jews and Muslims - The Multiethnic History of Istanbul**

Spend two weeks in Istanbul and examine Jewish-Muslim relations in a place that was for 500 years the crossroads of civilization. The only Muslim city in the 21st century with a large, thriving Jewish community, Istanbul models how people from different social classes, ethnicities and religious backgrounds can coexist.

**Equivalent - Duplicate Degree Credit Not Granted:** IAFS 3530 and JWST 3530

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

**RLST 3550 (3) Tibetan Buddhism**

Explores Tibetan Buddhism through literature and film, including sacred biographies, treatises on the Buddhist path and films providing a visual window into Tibetan life worlds. We examine different kinds of Tibetan journeys: moving through the life cycle, treading the path of self-cultivation, embarking on solitary retreat, traversing from death to rebirth and traveling on pilgrimage and into exile.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**RLST 3750 (3) Women in Buddhism**

Explores diverse representations of the female in Buddhist literature and the social realities of actual women in Asian historical contexts. Through case studies that traverse Buddhist Asia, we delve into monastic views of the female body, philosophical analyses of the emptiness of gender, idealized images of the feminine in Buddhist tantra, and contemporary issues such as the nun's revival moment.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 3750

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Asia Content

**RLST 3800 (3) Chinese Religions**

Studies classical Confucianism, Taoism, Buddhism, and Neo-Confucianism within the historical context of Chinese culture.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Asia Content

**RLST 3801 (3) Muslims, Christians, Jews and the Mediterranean Origins of the West**

Provides a historical foundation for the study of western Modernity, including the Anglo-European and Islamic worlds. It focuses on the Mediterranean region in the long Middle Ages (650-1650), emphasizing the role of Christian, Muslim and Jewish peoples and cultures, in Europe, Africa and West Asia. The approach is interdisciplinary incorporating social, economic, cultural, literary and art history, combining lectures with discussions based around readings of contemporary documents and the analysis of contemporary artifacts.

**Equivalent - Duplicate Degree Credit Not Granted:** HUMN 3801

**Additional Information:** Arts Sci Gen Ed: Diversity-Global Perspective  
Arts Sci Gen Ed: Distribution-Arts Humanities

**RLST 3820 (3) Topics in Religious Studies**

Intensive study of a selected area or problem in religious studies.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**RLST 3850 (3) The Mediterranean: Religion Before Modernity**

Offers an innovative approach to the multifaceted history of Christian-Muslim-Jewish interaction in the Mediterranean. It eschews established paradigms (e.g., Europe, Islamic world) that distort our understanding of these and pushes students to reconsider the accepted paradigms of Western history. Students will reappraise assumptions regarding the nature of ethnic, religious, national and cultural identity, and their role in human history.

**Equivalent - Duplicate Degree Credit Not Granted:** HUMN 3850

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

**RLST 4030 (3) Religions in America**

Studies various religious movements in the U.S. and other parts of the Americas. Includes American religion and religions, religion and nationalism, revitalization and religion and Asian religions in America.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 5030

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**RLST 4050 (3) Topics in Christian Studies**

Studies a particular topic in Christian theology and culture such as early Christianity, medieval Christianity, Christianity in the United States, women and Christianity, liberation theologies, Christianity and literature, and modern Christian thought.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 5050

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Recommended:** Prerequisite 6 hours of RLST courses at any level or instructor consent.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**RLST 4170 (3) God and Politics**

Explores the relationship between religion and politics. Examining traditions such as Judaism and Christianity, this course considers diverse ways in which ancient, medieval and modern sources have imagined the role of religion in civic life. Some topics include the status of religious minorities, the nature of religious freedom and contemporary debates surrounding issues such as torture, sexuality and climate change.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 5170 and JWST 4170

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**RLST 4180 (3) Is God Dead?**

Explores debates about the following questions: does it make sense to believe in God? Should believing or not believing in God make a difference for how individuals behave? Examining ancient and modern views on the existence and nature of a higher power, this course considers topics including evil and suffering, religion and science and religion's role in politics.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 5180 and JWST 4180

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**RLST 4190 (3) Love and Desire**

Explores debates about the following questions: what and whom should humans and gods love, and what role should passions play in religion? Examining traditions such as Judaism and Christianity, this course considers diverse views on topics including religion and sexuality, the promise and perils of loving gods and humans, and the relationship between love, politics, and violence.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 5190 and JWST 4190

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**RLST 4200 (3) Topics in Hinduism**

Examines in depth central themes, schools of thought and movements in Hinduism, such as myth and ritual, renunciation, Vedanta, Tantra and Yoga.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 5200

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite 6 hours of RLST courses at any level or instructor consent.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Asia Content

**RLST 4250 (3) Topics in Buddhism**

Examines in depth central themes, schools of thought and movements in Buddhism, such as Theravada in Southeast Asia, Mahayana and Tantrayana thought, Zen and Buddhism in America. Department enforced prerequisite: RLST 2610 or RLST 2620 or RLST 3300 or instructor consent.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 5250

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Asia Content

**RLST 4260 (3) Topics in Judaism**

Examines in depth central themes, schools of thought, and movements in Judaism, along with other traditions, across a range of historical periods.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 5260 and JWST 4260

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**RLST 4280 (3) Body and Magic in India**

Addresses ideas of the body and its use and functions within magic, particularly in Tantric traditions. Uses classical Hinduism and Tantra as a point of departure, focusing on subtle bodies and Tantric bodies and will also supplement this with writing about the body and its connection to mind in contemporary Western thought addressing the mind-body problem.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 5280

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**RLST 4300 (3) Topics in Native American Religions**

Examines a topic (varies at different offerings) focusing on religions of peoples indigenous to the Americas. May consider mythology; shamanism and medicine; trickster, clown and fool; crisis cult movements.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 5300

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires prerequisite course of RLST 2700 (minimum grade C-).

**Recommended:** Prerequisite 3 additional credit hours of RLST course work or instructor consent.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**RLST 4353 (3) Indigenous Traditions and Law: A Global Perspective**

Explores intersections of indigenous religions and law through historical and contemporary case studies. American Indian and Hawaiian contexts will be featured, as well as the study of the United Nations Declaration on the Rights of Indigenous Peoples and its recent implementation in places as diverse as Bolivia, Norway and Nagaland. Theoretical issues in the academic study of religion and ethnic studies will be emphasized.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 5353 and ETHN 4353 and ETHN 5353

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**RLST 4450 (3) Religion and Nonviolence**

Studies theories of nonviolence developed by major thinkers and movements, especially in the U.S., in the context of their religious commitments and beliefs and their historical circumstances.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**RLST 4610 (3) Topics in Islam**

A detailed exploration of diverse intellectual approaches to central questions in Islamic traditions. Department consent required.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 5610

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**RLST 4650 (3) Islam in the Modern World**

Globally surveys Islam, covering religion and politics; Islam and the West; the Islamic revival and its varied forms in Iran, Indonesia, Libya and Pakistan; development and change; the status of women; media and academic stereotyping.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 5650

**Recommended:** Prerequisite 6 credit hours of religious studies at any level or instructor consent.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Asia Content

**RLST 4750 (3) Daoism**

Traces the development of Daoism from its origin as an organized, communal religion in the second century CE to the vibrant living religion of today, encompassing meditative monastics, martial exorcists, solemn ritual masters and lay practitioners of inner alchemy and other self-cultivation techniques. Focuses on the extensive Daoist ritual tradition and the community of believers who created and used it.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 5750 and CHIN 4750 and CHIN 5750

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Asia Content

**RLST 4780 (3) New Religions of East Asia**

Explores the new religious movements of modern China, Japan and Korea, which have arisen over the last century due to the influence of the West and in response to the pressures of modernization. Previous coursework in religious studies or Asian languages and civilizations is recommended.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 5780

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**RLST 4800 (3) Critical Studies in Religion**

Focuses on a current issue or area of research in the study of religion. Students analyze the way theories develop and learn to develop their own critical analysis. Topics vary, e.g., comparative kingship, colonialism, ritual theories, feminist analysis.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to Religious Studies (RLST) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**RLST 4810 (3) Honors Thesis**

Students write an honors thesis based on independent research under the direction of a faculty member. Required for students who elect departmental honors.

**Additional Information:** Arts Sciences Honors Course

**RLST 4820 (3) Interdisciplinary Seminar on Religion**

Variable topics in religion, drawing from a variety of disciplines and methodologies as they shed light on specific traditions and issues.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 5820

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Recommended:** Requisite 6 credit hours of religious studies at any level or instructor consent.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**RLST 4830 (3) Senior Majors Seminar**

Topics and instructors vary. Brings advanced majors together in order to focus their major experience on significant topics and issues of common interest.

**Requisites:** Restricted to students with 87-180 credits (Senior, Fifth Year Senior).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**RLST 4840 (1-6) Senior Independent Study**

**Repeatable:** Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.

**RLST 4850 (3) Gender in Hagiography**

Explores gendered ideals of sainthood in medieval hagiographic literature. We draw primarily from the lives of female mystics in Buddhist and Christian sources and also examine the construction of mendicant masculinities. Reading from an array of primary sources, we query the category of mysticism and ask why visionary experience has so often been gendered female.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 5850 and WGST 4850

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**Sanskrit****SNSK 1010 (3-4) Introductory Sanskrit 1**

**Repeatable:** Repeatable for up to 4.00 total credit hours.

**Additional Information:** Departmental Category: Sanskrit

**SNSK 1020 (3-4) Introductory Sanskrit 2****Repeatable:** Repeatable for up to 4.00 total credit hours.**Requisites:** Requires prerequisite course of SNSK 1020 (minimum grade C-).**Additional Information:** Departmental Category: Sanskrit**SNSK 2110 (3-4) Intermediate Sanskrit 1**

Continued study of the grammar of classical Sanskrit and translation of selected readings from the literature.

**Repeatable:** Repeatable for up to 4.00 total credit hours.**Requisites:** Requires prerequisite course of SNSK 1020 (minimum grade C-).**Additional Information:** Departmental Category: Sanskrit**SNSK 2120 (3-4) Intermediate Sanskrit 2**

Continuation of SNSK 2110.

**Repeatable:** Repeatable for up to 4.00 total credit hours.**Requisites:** Requires prerequisite course of SNSK 2110 (minimum grade C-).**Additional Information:** Departmental Category: Sanskrit

## Religious Studies - Bachelor of Arts (BA)

The curriculum in the Department of Religious Studies at CU Boulder trains students in the scholarly understanding and interpretation of the complex phenomenon we call religion through careful study of history, texts, rituals, narrative, art and media. The program offers the skills to approach the comparative study of religion with the option of gaining deeper knowledge in Islam, Hinduism, Buddhism, Judaism, Christianity, religions in America, religions in the Mediterranean, religions in Asia and several indigenous traditions. The program also allows students to develop expertise in thematic areas such as religion and the body; ritual studies; religion and the environment; ethics, politics and law; religion, gender, and sexuality; and ancient and medieval religions.

The undergraduate degree in religious studies emphasizes the application of various theoretical and methodological approaches to the study of religion; the understanding of religious practices and traditions with attention to historical context and present-day impact; and the development of media literacy, critical thinking, effective oral and written communication, and research skills in our increasingly globalized and religiously diverse world.

In addition, students with a degree in religious studies are expected to achieve basic religious literacy: the ability to communicate and analyze practical information regarding religious diversity as educated citizens of a pluralistic society and thereby to effectively understand and participate in public debates and discussions about religion.

### Graduation with Honors

The Honors Program in religious studies offers the opportunity for highly motivated undergraduates to undertake a deeper and more individualized study than is provided by the regular BA curriculum and to earn an honors designation on their diploma. Religious studies majors with at least a 3.30 overall GPA and 3.50 in the major are eligible to participate in the program. Honors that may be earned are cum laude (with honors), magna cum laude (with high honors) and summa cum laude (with highest honors).

Students interested in pursuing departmental honors are encouraged to consult with the departmental undergraduate advisor by the beginning of their junior year.

## Requirements

### Program Requirements

Students must complete the general requirements of the College of Arts and Sciences and, in addition:

- Complete a minimum of 36 credit hours in the major, of which at least 27 credits hours must be in RLST designated courses.
- More than half of the credit hours (19 or greater) counted toward the major need to be in upper-division courses.
- All courses counted towards the major must be completed with a grade of C- or better and none of the courses may be taken for a Pass/Fail grade.
- The cumulative Grade Point Average (GPA) in courses counted toward the major must be at least 2.0.

### Required Courses and Credits

Code	Title	Credit Hours
<b>Academic Study of Religion Requirement</b>		
RLST 1620	Religious Dimensions of Human Experience	3
RLST 4830	Senior Majors Seminar	3
<b>Cluster Requirement</b>		
<i>Select three courses in either of the following:</i>		9
A single religious tradition (i.e. Buddhism, Christianity, East Asian Religions, Hinduism, Islam, Judaism, Native American and Indigenous Religions)		
A particular theme (i.e. ancient and medieval religions, gender and sexuality, interreligious interactions, law and politics, media, culture, and contemporary society, philosophy and ethics, religion and violence, ritual, performance, and the body)		
<b>Electives</b>		<b>21</b>
<b>Total Credit Hours</b>		<b>36</b>

### Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in religious studies, students should meet the following requirements:

- At the beginning of the second semester of study, declare the major.
- Each semester, complete two religious studies courses.
- The last spring semester in residence, take the senior seminar.

### Recommended Four-Year Plan of Study

Through the required coursework for the major, students will fulfill all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement and possibly could fill one or both of the categories of the Gen Ed Diversity Requirement (U.S. and/or Global Perspective.)

**Year One****Fall Semester**

## Bachelor's–Accelerated Master's Degree Program(s)

The bachelor's–accelerated master's (BAM) degree program options offer currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first but begin taking graduate coursework as undergraduates (typically in their senior year).

Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree. In addition, staying at CU Boulder to pursue a bachelor's–accelerated master's program enables students to continue working with their established faculty mentors.

### BA and MA in Religious Studies

#### Admissions Requirements

In order to gain admission to the BAM program named above, a student must meet the following criteria:

- Have a cumulative GPA of 3.0 or higher
- Transfer students must have completed a minimum of 24 credit hours at CU Boulder
- Students must have completed 24 RLST credit hours with a GPA of 3.5 or higher

#### Program Requirements

Students may take up to and including 12 hours while in the undergraduate program which can later be used toward the master's degree. However, only 6 credits may be double counted toward the bachelor's degree and the master's degree. Students must apply to graduate with the bachelor's degree, and apply to continue with the master's degree, early in the semester in which the undergraduate requirements will be completed.

If you are interested in the BAM degree program, please contact the graduate program assistant for more information.

## Religious Studies - Minor

The Department of Religious Studies offers a minor in religious studies in addition to the BA. The minor in religious studies allows students to learn about many of the world's longstanding religious traditions, including Buddhism, Christianity, Islam, Hinduism, Judaism, Native and Indigenous traditions, while working toward a BA in another major at CU Boulder. Minors will also gain familiarity with theoretical, comparative and interdisciplinary approaches to the academic study of religion through topics such as gender and sexuality, interreligious interactions, law, politics, ethics, sacred texts and decolonization. Students are subject to the College of Arts and Sciences minor requirements.

### Requirements

Students must complete at least 18 credit hours in religious studies coursework, including at least 6 hours of lower division and 9 hours of upper division coursework. Students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward a minor.

All coursework applied to the minor must be completed with a grade of C- or better. No pass/fail work may be applied. The GPA for all RLST coursework must equal 2.00 or higher.

Code	Title	Credit Hours
RLST	lower-division coursework	6
RLST	lower- or upper-division coursework	3
RLST	upper-division coursework	9
<b>Total Credit Hours</b>		<b>18</b>

### Sociology

Sociology is the study of society. Students who major in sociology have the opportunity to learn in-depth about social structures and processes, and to gain skills in critical thinking, writing and data analysis. Sociology graduates go into many different fields, as described by a recent study by the American Sociological Association.

Course code for this program is SOCY.

### Bachelor's Degree

- Sociology - Bachelor of Arts (BA) (p. 572)

### Minor

- Sociology - Minor (p. 573)

### Certificates

- Animals & Society - Certificate (p. 574)
- Care, Health and Resilience - Certificate (p. 575)
- Social Innovation - Certificate (p. 575)

### Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

## Courses

### **SOCY 1001 (3) Introduction to Sociology**

Examines basic sociological ideas including social relations, social interaction, social structure, and social change. Examples are drawn from societies around the world.

**Additional Information:** GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame

Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: General Sociology  
MAPS Course: Social Science

### **SOCY 1004 (3) Deviance in U.S. Society**

Examines the social construction of deviance in the U.S., the process of acquiring a deviant identity and managing deviant stigma, and the social organization of deviant act, lifestyles, relationships and careers.

**Additional Information:** GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame

Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Deviance and Criminology

### **SOCY 1006 (3) The Social Construction of Sexuality**

Discusses the social determinants of sexuality. Analyzes the economic, psychological, and cultural influences on human sexuality. Interactional perspective of human sexuality is presented.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 1006

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-U.S. Perspective  
Departmental Category: Sex and Gender

### **SOCY 1016 (3) Sex, Gender, and Society 1**

Examines status and power differences between the sexes at individual and societal levels. Emphasizes historical context of gender roles and status, reviews major theories of gender stratification.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 1016

**Additional Information:** GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame

Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-U.S. Perspective  
Departmental Category: Sex and Gender

### **SOCY 1021 (3) United States Race and Ethnic Relations I**

Examines how concepts of race and ethnicity have manifested historically and manifest currently in U.S. society. Covers foundational concepts such as prejudice, discrimination, and privilege. Also addresses the structural causes and consequences of race and ethnicity in various aspects of U.S. society, such as the housing market, the criminal justice system, and education.

**Additional Information:** GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame

Arts Sci Core Curr: United States Context  
Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-U.S. Perspective  
Departmental Category: General Sociology

**SOCY 1022 (3) Ethics and Social Issues in U.S. Health and Medicine**

Explores current ethical and policy issues in U.S. health and medical practices. Includes such issues as alcohol and drug abuse, organ transplants and substitutes, genetic engineering, contraception, abortion, occupational safety and health, and euthanasia.

**Additional Information:** Arts Sci Core Curr: Ideals and Values

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Population and Health Issue

**SOCY 1841 (1-6) Independent Study in Sociology**

**Repeatable:** Repeatable for up to 7.00 total credit hours.

**Additional Information:** Departmental Category: General Sociology

**SOCY 2011 (3) Contemporary Social Issues and Human Values**

Explores contemporary societies on a global scale. Focuses on such issues as capitalism, socialism, race and ethnic problems, sex discrimination, poverty and the concentration of wealth, crime and deviance, human rights and human values, peace and war.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: General Sociology

**SOCY 2022 (3) Happiness in Society**

Examines the measurement, meaning, and causes of happiness and its relationship to social life in the contemporary United States as well as in other countries. Students will also learn about and critically evaluate existing strategies for enhancing happiness in their lives. Formerly offered as a special topics course.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**SOCY 2031 (3) Social Problems**

Examines various social problems in the U.S. through a traditional sociological framework focused on race, class, and gender. Considers such problems as economic, racial, and gender inequality as manifestations of broader structural dynamics rooted in unequal relations of power. Addresses topics such as mass incarceration, poverty, segregation, drug use, immigration, and war and terrorism.

**Additional Information:** GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame

Arts Sci Core Curr: Ideals and Values

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: General Sociology

**SOCY 2034 (3) Drugs in United States Society**

Examines the relationship between drugs and social contexts. Lends insight into why people find consciousness alteration meaningful, what kinds of experiences and problems arise, and what types of social policies emerge to control drug use.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Deviance and Criminology

**SOCY 2044 (3) Crime and Society**

Explores issues related to crime, the criminal justice system, and crime-related public policy. It addresses what we know about crime and how we know it, how our society responds to crime, how the institutions designed to address crime (police, courts, corrections) function, and diversity in experiences with the criminal justice system.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 2044

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Deviance and Criminology

**SOCY 2061 (3) Introduction to Social Statistics**

Introduces students to quantitative analysis of social phenomena. Emphasizes understanding and proper interpretation of graphs; measures of central tendency, dispersion, and association; and the concept of statistical significance. Assumes students have only limited mathematical background.

**Additional Information:** Arts Sci Core Curr: Quant Reasn Mathmat Skills

Arts Sci Gen Ed: Quantitative Reasoning Math

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: General Sociology

MAPS Course: Mathematics

**SOCY 2077 (3) Environment and Society**

Examines interactions between societies and their natural and built environments through the lens of inequality. Describes how environmental problems vary along, are shaped by, and exacerbate disparities along lines of race, socioeconomic status, and other forms of social status. Also examines collective efforts to address social and environmental problems.

**Additional Information:** Arts Sci Core Curr: Ideals and Values

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Environment and Society

**SOCY 2080 (3) Sociology of the Helping Professions**

Investigates how today's helping professionals are trained and socialized to care for clients, the challenges they face in working within modern bureaucracies and with advanced technologies and the importance of inter-professional care.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: General Sociology

**SOCY 2091 (3) Topics in Sociology**

Variety of courses taught by visiting and regular faculty. See current departmental announcements for specific content. Students may receive credit for this course up to three times for different topics.

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: General Sociology

**SOCY 2092 (3) Sex, Power and Reproduction**

Examines fertility, contraception and abortion with an emphasis on demographic trends, social stratification and policy impacts. Sociological, demographic and public health perspectives will be presented.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**SOCY 2150 (3) Gender, Race, and Chainsaws**

Practice fundamental skills of visual literacy with an emphasis on understanding the sociological importance of popular media's representation of different groups of people and the implications of these representations for social justice. We will analyze how historical and current social conditions influence the creation, distribution, and interpretation of visual media in our culture, focusing on films in the horror genre. Formerly offered as a special topics course.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**SOCY 3001 (3) Classical Theory**

In-depth study of classical sociological theorists, particularly Marx, Durkheim, and Weber. Examines their roles in defining the discipline of sociology.

**Requisites:** Requires a prerequisite course of SOCY 1001 (minimum grade C-). Restricted to students with 27-180 credits (Sophomore, Junior or Senior) Sociology (SOCY) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: General Sociology

**SOCY 3002 (3) Population and Society**

Examines population, its structure and processes, and its relationships to selected areas of the social structure. Examines Malthusian, neo-Malthusian, and Marxist perspectives.

**Requisites:** Restricted to Sociology (SOCY) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Population and Health Issue

**SOCY 3011 (3) Contemporary Theory**

Continuation of SOCY 3001. In-depth study of modern and post-modern theories of the 20th century, including structural-functionalist, conflict, symbolic interactionist, feminist, and world system theories.

**Requisites:** Requires a prerequisite course of SOCY 3001 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: General Sociology

**SOCY 3012 (3) Gender and Development**

Provides a sociological perspective on gender, globalization, and economic development in the Global South. Examines a variety of topics, including feminist theories of development; poverty and inequality; women's work in the context of globalization; and women's activism and feminism(s).

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 3012

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite SOCY 3001.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Diversity-Global Perspective  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Population and Health Issue  
Departmental Category: Asia Content

**SOCY 3016 (3) Marriage and the Family in the United States**

Comparative and historical examination of marriage and the family within the U.S. Emphasizes changing family roles and family structures. Also considers alternatives to the nuclear family and traditional marriage exploring new definitions of family.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 3016

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Core Curr: United States Context  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Sex and Gender

**SOCY 3032 (3) Social Epidemiology**

Introduces students to social epidemiology. Identifies how social structures, institutions, norms, relationships, and neighborhood context affect health. Particular attention is paid to ways in which economic inequality, racism, and gender discrimination increase groups' risk of exposure to factors that undermine health.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: General Sociology

**SOCY 3041 (3) Self and Consciousness**

Explores human development from a psychosocial perspective, focusing on the interplay between psychological patterns and social forms. Issues such as self-image and social consciousness are studied within the larger context of individual and collective forces leading to transformation.

**Equivalent - Duplicate Degree Credit Not Granted:** INVS 3041

**Requisites:** Requires a prerequisite course of SOCY 3001 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: General Sociology

**SOCY 3042 (3) Topics in Population and Health**

A variety of courses in population and/or health will be taught, usually by visiting lecturers. See current departmental announcements for specific content.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires a prerequisite course of SOCY 1001 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Population and Health Issue

**SOCY 3044 (3) Race, Class, Gender, and Crime**

Overview of race, class, gender and ethnicity issues in offending, victimization and processing by the justice system. Examines women and people of color employed in the justice system.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 3044 and WGST 3044

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite SOCY 1001 or SOCY 1004 or SOCY 1021 or SOCY 2044.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Deviance and Criminology

**SOCY 3045 (3) Sociology of Death and Dying**

Addresses sociological aspects of thanatology (the study of death and dying). Includes study of the social meaning of death and its normative treatment in western civilization, with a focus on the contemporary United States.

**Requisites:** Requires a prerequisite course of SOCY 1001 or SOCY 3001 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Population and Health Issue

**SOCY 3046 (3) Topics in Sex and Gender**

Faculty present courses based on their area of expertise and specialization in the field of sex and gender. Students should check current sociology department notices of course offerings for specific topics.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 3046

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Sex and Gender

**SOCY 3052 (3) Medical Sociology**

Explores the role of medicine and medical systems in society. How does society shape health, how does health shape social position, and how do societies make sense of health and illness? Topics may include epidemiology, social demography of health, social stress, health behavior, experiences of illness and recovery, health care provision, and health care delivery systems.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Population and Health Issue

**SOCY 3141 (3) Social Movements and the Politics of Protest**

Considers theory and research about social movements and other forms of protest within and beyond the United States. Examines their impacts as well as factors shaping their success and failure, including leadership, ideology, recruitment, strategy, organizational dynamics, and broader social context.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: General Sociology

**SOCY 3151 (3) Self in Modern Society**

Explores how modern social institutions and culture shape our personal experiences, how personal experiences can affect the nature of those, institutions and culture, and how strategies can be developed for achieving balance between the individual and society.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite SOCY 3001.

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Core Curr: United States Context  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: General Sociology

**SOCY 3161 (3) Global Perspectives on Race and Ethnicity**

Explores various manifestations of race and ethnicity in different parts of the world. Includes in-depth coverage of various subtopics, such as racial and ethnic stratification, identity formation, social movements, politics, citizenship, and migration.

**Recommended:** Prerequisite SOCY 1021.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: General Sociology

**SOCY 3171 (3) Whiteness Studies**

Uses the conceptual framework of the sociology of race and ethnic relations to explore whiteness as a racial category that is centered and privileged in American society. Investigates the development of whiteness from past white supremacy, current colorblindness, to possible future multiculturalism. Analyzes the consequences of whiteness as a racial identity and a social structure.

**Requisites:** Requires a prerequisite course of SOCY 1001 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: General Sociology

**SOCY 3201 (3) Sociological Research Methods**

Introduces students to the logics and methods of sociological research. This requirement for majors teaches ways to answer sociological questions by collecting and analyzing different types of data. Students are trained in research ethics and learn how to collect their own data and conduct original sociological research. Collection and analysis of both qualitative and quantitative data are included.

**Requisites:** Requires prerequisite course of SOCY 2061 or ANTH 4000 or EBIO 4410 or ECON 3818 or GEOG 3023 or IPHY 2800 or IPHY 3280 or MATH 2510 or PSCI 2075 or PSYC 2111 or EDUC 4716 (minimum grade C-). Restricted to Sociology (SOCY) majors only.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: General Sociology

**SOCY 3301 (3) Survey Methods**

Teaches quantitative research methods and, particularly, methods of survey research. Topics include sampling, interviewing, schedule construction, data analysis, computer methods, index construction, and statistical analysis. Students participate in a survey project, design, collect data, and prepare a research paper on the basis of collected data.

**Requisites:** Requires prerequisite courses of SOCY 2061 and SOCY 3001 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: General Sociology

**SOCY 3314 (3) Violence Against Women and Girls**

Focuses on aspects of the victimization of women and girls that are "gendered" - namely, sexual abuse and intimate partner abuse. Also explores the importance of race, class, and sexuality in gendered violence.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 3314 and WGST 3314

**Recommended:** Prerequisite SOCY 1016 or WGST 1016.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Deviance and Criminology

**SOCY 3401 (3) Field Methods**

Skill development prepares students to conduct qualitative sociological research. Emphasizes ethnographic techniques, including intensive interviewing, direct observation, coding, participant observation, and report writing. Students conceive and execute a field research project with data collection, analysis, and a report.

**Requisites:** Requires a prerequisite course of SOCY 3001 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: General Sociology

**SOCY 4000 (3) Gender, Genocide and Mass Trauma**

Studies the persistence of genocide and the effects of mass trauma on women and girls. Within the framework of political and social catastrophe, examines cataclysmic world events and the traumatic consequences for women of religious persecution, colonialism, slavery and the genocides of the 20th and 21st centuries.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 4010

**Recommended:** Prerequisite SOCY 1016 or WGST 1016 or WGST 2000 or SOCY 3314 or WGST 3314.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Sex and Gender

**SOCY 4002 (3) Sociology of Aging**

Studies present and future roles of the aged in the family, the community, and the larger society. Considers economic, political, and health consequences of various retirement systems.

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.

**Recommended:** Prerequisite SOCY 3001.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Population and Health Issue

**SOCY 4004 (3) Advanced Topics in Criminology**

Variety of courses in criminology. See current departmental announcements for specific content.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite SOCY 1001 or SOCY 1004 or SOCY 2044.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Deviance and Criminology

**SOCY 4007 (3) Global Human Ecology**

Examines global environmental issues using sociological perspectives. A variety of critical contemporary challenges are explored that link social and ecological processes. These include the social dimensions of climate change, inequitable distribution of pollution, the environmental aspects of population growth, and resource shortages. Policies and strategies for change are explored.

**Equivalent - Duplicate Degree Credit Not Granted:** SEWL 2000

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Environment and Society

**SOCY 4014 (3) Criminology**

Examines the scientific study of types of criminal behavior and explanations for criminal behavior, with special attention to social factors affecting criminal behavior.

**Requisites:** Requires a prerequisite course of SOCY 1001 or SOCY 1004 or SOCY 2044 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Deviance and Criminology

**SOCY 4016 (3) Sex, Gender and Society 2**

Studies status and power differences between the sexes at individual, group, and societal levels. Examines empirically established sex differences, and reviews biological, psychological, and sociological explanations for gender differences.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 4016

**Requisites:** Requires a prerequisite course of SOCY 1016 or WGST 1016 or WGST 2000 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Sex and Gender

**SOCY 4017 (3) Animals and Society**

Examines the role of non-human animals in human society. Investigates the social construction of the human/animal boundary. Challenges ideas that animals are neither thinking nor feeling. Examines the many ways humans rely on animals. Considers the link between animal cruelty and other violence. Explores the moral status of animals.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Environment and Society

**SOCY 4018 (3) Sport in Society**

Investigates the world of sport via the social structures and processes that underlie this ubiquitous and much-pursued area of social life. Elucidates social dimensions of sport by highlighting and debating different theoretical and methodological dimensions of sociology of sport research. Examines demographics of sport, including gender, race, and sexual orientation, as well as inequalities within sport, along with the politics, economics, globalization, and commodification of sport.

**Recommended:** Prerequisites SOCY 1001 and SOCY 3001.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**SOCY 4024 (3) Juvenile Justice and Delinquency**

Examines the history, incidence and prevalence of delinquent behavior among youth.

**Requisites:** Requires a prerequisite course of SOCY 1001 or SOCY 1004 or SOCY 2044 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Deviance and Criminology

**SOCY 4027 (3) Inequality, Democracy, and the Environment**

Focuses on the structural forces affecting environmental degradation and environmental behavior by examining the relationships between (a) inequality and democratic decision making and (b) undemocratic decision making; U.S. and corporate food and energy policy; and global environmental degradation. Focuses on the role that global inequality plays in fostering environmental degradation.

**Equivalent - Duplicate Degree Credit Not Granted:** ENVS 4027

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Environment and Society

**SOCY 4030 (3) Sociology of Climate Change**

Examines the human drivers and causes of climate change, the health and security risks it creates and the efforts of societies to mitigate and adapt to its effects.

**Equivalent - Duplicate Degree Credit Not Granted:** ENVS 4030

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Environment and Society

**SOCY 4031 (3) Social Psychology**

Studies individuals in social context. Reviews philosophical and sociological treatments of the relation between the individual and society. More specific topics include the socialization process, theories of human development and personality formation, language acquisition, conformity, aggression, sex differences in personality and gender identity, and the relation between attitudes and overt behavior.

**Requisites:** Requires a prerequisite course of SOCY 3001 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: General Sociology

**SOCY 4037 (3) Hazards, Disasters and Society**

Explores the societal dimensions of hazards and disasters, emphasizing disaster theory and research, and key issues in the sociological study of disasters, social vulnerability, and the impacts of disasters in the U.S. and worldwide.

**Equivalent - Duplicate Degree Credit Not Granted:** SOCY 5037

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Environment and Society

**SOCY 4042 (3) Economic Sociology**

Defines relationship between economy and society; sociological approach to study of economic activity and organization; difference from the theoretical and methodological assumptions orienting the discipline of economics; tackles these questions in two ways: studies foundations as established in works of Smith, Marx, Weber, Polanyi, and Schumpeter, and considers current research in economic sociology, focusing on concepts of markets, networks, and embeddedness.

**Requisites:** Requires a prerequisite course of SOCY 1001 (minimum grade D-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) Sociology (SOCY) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Population and Health Issue

**SOCY 4047 (3) Topics in Environment and Society**

Variety of courses taught by visiting and regular faculty. See current departmental announcements for specific content.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Environment and Society

**SOCY 4052 (3) Social Inequalities in Health**

Focuses on social inequalities in health in both U.S. and international contexts. Reviews the link between health status and various types of social statuses, including but not limited to socioeconomic status, gender, race and ethnicity. Explanations for the relationships between these factors and various health outcomes are discussed. Focuses on multiple levels of analysis, from the physician-patient interactions to health care systems and social policies. Students have the opportunity to develop their own specific research interests in this field.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-U.S. Perspective  
Departmental Category: Population and Health Issue

**SOCY 4062 (3) Suffering and Care in Society**

Examines how modern societies understand and respond to the reality of human suffering, how care systems are organized, and the experiences of professional caregivers.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Population and Health Issue

**SOCY 4063 (3) Risk and Resilience in Society**

Explores the growing dangers of modern life and the ability of society and its members to recover from epidemics, terrorism, financial disasters, natural catastrophes and other harmful events. Special attention is given to the social (as opposed to the individual) sources of risk and resilience and their implications for the helping professions.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: General Sociology

**SOCY 4071 (3) Social Inequalities and Social Change**

Provides a sociological perspective on social inequalities in the United States, such as those pertaining to social class, race, ethnicity, sex, gender, sexuality, and age. Examines current data of patterns and trends of such inequalities, reviews scholarship on their roots, and critically evaluates social change efforts to redress them.

**Equivalent - Duplicate Degree Credit Not Granted:** SOCY 5071

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: General Sociology

**SOCY 4081 (1-3) Sociology of Education**

Analyzes the school as a social organization. Among topics considered are power and control in the school; classroom interaction and its relation to learning and personality development in students; roles of educators; and reciprocal relations of school and community.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: General Sociology

**SOCY 4084 (3) Punishment, Law and Society**

Places the current state of punishment in the U.S. in historical and cross national context. Examines key features of penal systems and key sociological theories about the relationship between punishment and society.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 4084

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite SOCY 1001 or SOCY 1004 or SOCY 2044.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Deviance and Criminology

**SOCY 4086 (3) Family and Society**

Studies the changing relationship between family and social structure. Examines variations in family organization and considers political, social, ideological, demographic, and economic determinants of family formation.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 4086

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite SOCY 3001.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Sex and Gender

**SOCY 4104 (3) The Death Penalty in America**

Examines the historical and international use of capital punishment, and then focuses on its use and status in the United States in this century, with a special look at Colorado. Critically examines the arguments for and against capital punishment. The inmates on death row and their families will be examined, as well as the needs of families of homicide victims.

**Requisites:** Requires a prerequisite course of SOCY 4014 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Deviance and Criminology

**SOCY 4117 (3) Food and Society**

Examines the food system along the lines of social justice and environmental sustainability. Investigates the institutional and cultural supports of major food system problems and contemporary efforts to address those problems, including the realms of food production, processing, distribution, marketing, policy, regulation, consumption, and activism.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Environment and Society

**SOCY 4121 (3) Sociology of Religion**

Examines complex interactions between religious and other social structures, such as the economy, government, and the family, and how globalization is affecting religious traditions across the globe. Includes discussion of how various religions are used or misused to justify terrorism and other acts of violence.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite SOCY 3001.

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: General Sociology

**SOCY 4131 (1-3) Advanced Topics in Sociology**

Variety of advanced specialty courses taught by visiting and regular faculty designed for upper division sociology majors. See current departmental announcement for specific content.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires a prerequisite course of SOCY 1001 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: General Sociology

**SOCY 4132 (3) Gender, Islam and Modernity**

Examines gender in contemporary Muslim societies, with emphasis on Asia and the Middle East. Explores issues such as veiling, feminism, sexuality, family, women's participation in politics and social movements.

**Requisites:** Requires prerequisite course of SOCY 1001 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**SOCY 4141 (3) The Social Psychology of Friendships**

Studies friendships between individuals and groups, applying social psychological theories of interaction and group processes. Examines the effects of hierarchies of status and power and of norms and social pressure on friendships. Attempts to answer questions like how social categories like gender, race, and class affect friendships, what are the unwritten rules of behavior among friends in different situations, and what happens when we violate them.

**Requisites:** Requires a prerequisite course of SOCY 1001 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: General Sociology

**SOCY 4160 (3) Designing Social Innovations**

Introduces students to theory and research on social entrepreneurship with special emphasis on the role of design thinking.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**SOCY 4161 (3) Executing Social Innovations**

Introduces students to the skills and strategies involved in developing a business plan for a social business or an organization wanting to increase its social impact.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**SOCY 4441 (3) Senior Honors Seminar 1**

Helps students design and initiate an honors thesis based on original sociological research.

**Requisites:** Requires prerequisite courses of SOCY 3001 and SOCY 3301 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.

**Additional Information:** Arts Sciences Honors Course  
Departmental Category: General Sociology

**SOCY 4451 (3) Senior Honors Seminar 2**

Helps students complete an honors thesis based on original sociological research. Emphasizes analyzing data, writing research reports, and presenting results.

**Requisites:** Requires prerequisite courses of SOCY 3001 and SOCY 3201 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.

**Additional Information:** Arts Sciences Honors Course  
Departmental Category: General Sociology

**SOCY 4841 (1-8) Independent Study in Sociology**

Upper-division variable credit. Instructor consent required.

**Repeatable:** Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires a prerequisite course of SOCY 3001 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.

**Additional Information:** Departmental Category: General Sociology

**SOCY 4911 (1-3) Teaching Sociology**

Students participate in a teaching seminar under the supervision of a faculty member. Includes pedagogical strategies for implementing concrete educational goals and encouraging higher levels of creativity and analysis in a large, lower-division class. Emphasizes mentorship and personal development. Instructor consent required.

**Requisites:** Requires a prerequisite course of SOCY 1001 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.

**Additional Information:** Departmental Category: General Sociology

**SOCY 4931 (1-6) Internship in Sociology**

Provides an academically supervised opportunity for junior and senior sociology majors to work in public or private organizations to gain practical knowledge and experience, and allows students to make a connection between sociological theory and the "real world". Instructor consent required.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires a prerequisite course of SOCY 3001 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.

**Additional Information:** Departmental Category: General Sociology

**SOCY 4932 (3) Internship in Care, Health and Resilience**

Provides an academically supervised opportunity for juniors and seniors interested in the helping professions to work in a job that provides them valuable hands-on experience, allows them to apply insights learned in their formal coursework and helps them make informed career choices upon graduation. This course cannot be applied to the SOCY major or minor requirements.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Departmental Category: Population and Health Issue

**SOCY 4935 (3) Internship in Social Innovation**

Provides an academically supervised opportunity for juniors and seniors interested in social innovation to work in a job that provides them valuable hands-on experience, allows them to apply insights learned in their formal coursework and helps them make informed career choices upon graduation. This course cannot be applied to the SOCY major or minor requirements.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors) with a minimum GPA of 2.0.

## Sociology - Bachelor of Arts (BA)

Sociology is the scientific study of human social behavior. It considers how society influences individuals and how individuals influence society. Sociologists describe and explain the actions of persons, groups, organizations, classes and entire societies. They also design and evaluate social programs and public policy.

The study of sociology includes social theory, research methods, social stratification, race relations, social change, criminology, demography, gender roles, religion, social psychology and the environment.

## Requirements

### General Requirements

Students must complete the graduation requirements of the College of Arts and Sciences and the required courses listed below. A minimum of 36 credit hours (but not more than 45) in sociology is required for the degree. Of the 36 credit hours, 21 must be upper division with a minimum

of 15 upper-division credit hours of coursework in the major taken on the Boulder campus.

All required major courses must be completed with a grade of C- or better. The cumulative GPA required in sociology courses is 2.00.

In addition to formal coursework, the degree offers opportunities for internships with various organizations, including social service agencies, the criminal justice system and nonprofit organizations. There is also the opportunity to design and complete an honors thesis based on the student's original research, as well as to work closely with a faculty member through the UROP program.

### Required Courses and Credits

Code	Title	Credit Hours
SOCY 1001	Introduction to Sociology	3
SOCY 2061	Introduction to Social Statistics <sup>1</sup>	3
SOCY 3001	Classical Theory	3
SOCY 3201	Sociological Research Methods	3
<b>Electives</b>		
SOCY Lower or Upper-division electives		9
SOCY Upper-division electives <sup>2</sup>		15
<b>Total Credit Hours</b>		<b>36</b>

<sup>1</sup> A non-SOCY statistics course (C- grade or higher) can be used to substitute for SOCY 2061, but then an additional 3 credit SOCY elective would need to be taken to reach the 36 required SOCY credits.

<sup>2</sup> SOCY 4932 cannot be applied to the SOCY major or minor requirements.

### Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility (p. 74). The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in sociology, students should meet the following requirements:

- By the beginning of the second semester, declare the major.
- By the end of the fourth semester, complete SOCY 1001 and SOCY 3001 and 6 credit hours of sociology electives.
- By the end of the sixth semester, complete SOCY 2061 and SOCY 3201 and 15 credit hours of sociology electives (with a minimum of 9 of the 15 being upper-division credit hours).
- By the end of the eighth semester, complete 36 credit hours (but not more than 45), in sociology with at least 21 of those credit hours in upper-division courses.

### Recommended Four-Year Plan of Study

Through the required coursework for the major, students will fulfill all 12 credits of the Social Sciences area of the Gen Ed Distribution Requirement and one, or potentially, both categories of the Gen Ed Diversity Requirement, as well as the QRMS component of the Gen Ed Skills Requirement.

**Year One**

<b>Fall Semester</b>		<b>Credit Hours</b>
SOCY 1001	Introduction to Sociology	3
Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/US Perspective)		3
Gen. Ed. Skills course (example: Lower-division Written Communication)		3
Gen. Ed. Distribution course (example: Natural Sciences with Lab)		4
Elective/MAPS		3
<b>Credit Hours</b>		<b>16</b>
<b>Spring Semester</b>

Upper-Division Elective		3
Upper-Division Elective		3
Elective		3
<b>Credit Hours</b>		<b>15</b>
<b>Total Credit Hours</b>		<b>121</b>

## Learning Outcomes

After completing a BA in sociology, students will be able to:

- Use sociological theories and evidence to understand, analyze and explain the causes and consequences of social stratification; ethnic, racial, religious, gender and other forms of differentiation and inequality; and variations in the composition and form of basic social institutions.
- Learn to use a variety of research methods to help describe and explain social phenomena.
- Employ critical thinking skills to evaluate data, sociological writings and other work.
- Locate and consult works relevant to a sociological investigation and write a sociological paper that makes an argument that is coherent, cogent and grounded in a review of relevant scholarship.
- Understand processes of social change and the opportunities for and barriers to them.

## Sociology - Minor

Sociology is the scientific study of human social behavior. It considers how society influences individuals and how individuals influence society. Sociologists describe and explain the actions of persons, groups, organizations, classes and entire societies. They also design and evaluate social programs and public policy. The study of sociology includes social theory, research methods, social stratification, race relations, social change, criminology, demography, gender roles, religion, social psychology and the environment.

To declare a minor in sociology, students can visit Buff Portal and fill out a declaration form. For information on the sociology minor (or major), students can email michael.lynn@colorado.edu (Michael.Lynn@colorado.edu) from their CU email account.

Students must complete minimum of 18 credit hours in sociology courses, including at least 9 hours of upper-division coursework, and the required course listed below. Students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward a minor. All courses applied to the minor must be completed with a grade of C- or better. The GPA for all SOCY coursework must equal 2.00 or higher.

## Required Courses and Credit Hours

Code	Title	Credit Hours
SOCY 1001	Introduction to Sociology	3
SOCY Lower or Upper-division electives		6
SOCY Upper-division electives		9
<b>Total Credit Hours</b>		<b>18</b>

Note: SOCY 4932 cannot be applied to the SOCY major or minor requirements.

## Animals and Society - Certificate

The animals and society certificate builds on a rapidly growing interdisciplinary field devoted to the critical examination and evaluation of the relationships between humans and nonhuman animals, whether historical or contemporary, factual, fictional or symbolic, beneficial or detrimental. The program requirements emphasize scholarship from the social sciences and humanities, but include elective options in the natural sciences. The interdisciplinary approach helps students explore the complexities of animals' lives, human-animal relationships, ethical and moral concerns about animals, representations of animals and humans, and the significance of animals in human evolution, history and civilization.

This certificate has an especially practical use for students in the social sciences and humanities who would like to pursue careers or interests related to wild or domesticated animals, but do not wish to become biologists, zoologists or veterinarians. Examples of career options include:

- development, management, policy work, research, outreach, marketing, lobbying or other work in animal protection or environmental organizations;
- administrative, fundraising, marketing or outreach jobs at animal shelters;
- humane or environmental education;
- jobs with government agencies, such as the U.S. Department of Agriculture, the Fisheries and Wildlife Service or others;
- animal-assisted therapy (with a master's degree in social work);
- wildlife rehabilitation;
- humane law enforcement.

Students might also consider pursuing graduate degrees in human-animal studies, anthrozoology or related fields.

For more information or to apply to the certificate in animals and society, contact Professor Leslie Irvine (leslie.irvine@colorado.edu).

## Requirements

The animals and society certificate requires 18 credits through three main areas. Students must complete 9 of the 18 credit hours at the upper-division level; a minimum of 12 credit hours must be taken on campus. If applicable, a maximum of 6 transfer credit hours from other institutions will be accepted. No more than 3 courses (or 9 credits), not including the internship, may be taken in one department.

- *Core Courses:* Students must take *Animals and Society* (SOCY 4017) and two of the classes listed, all of which examine the research in

relevant areas of human-animal studies. Courses not taken to fulfill the core requirement may be taken as electives.

- *Electives:* Students must take either two or three classes (depending on whether they will complete an internship) from the list of those offered in the College of Arts and Sciences that provide essential perspectives on human-animal interactions and relationships.
- *Internship (or third elective course):* In either the second semester of the junior year or the senior year, students may opt to take a semester-long, 3-credit internship. Alternatively, students may enroll in an additional 3-credit course. The internships allow students to apply knowledge gained in courses to practical experience. The internship is not applicable to the sociology major or minor.

## Required Courses and Credits

Code	Title	Credit Hours
<b>Core Courses</b>		
SOCY 4017	Animals and Society	3
Select two of the following: <sup>1</sup>		6
ANTH 3010	The Human Animal	
PHIL 4120	Philosophy and Animals	
FREN 4700	Encountering Animals: Contemporary Discourse and the Dialog of Species	
ENVS 4100	Special Topics in Environmental Studies (Dogs, Wolves and Human Evolution) <sup>2</sup>	
or ENVS 4135	Dogs, Wolves, and Humans	
ENVS 3007	Animal Ethics and Policy	
<b>Electives<sup>3</sup></b>		<b>6</b>
Select at least 6 credits of elective course work; labs may result in 7 credits.		
ANTH 3000	Primate Behavior	
ANTH 4110	Human Evolutionary Biology	
EBIO 2040	Principles of Ecology	
EBIO 3040	Conservation Biology	
EBIO 3240	Animal Behavior	
HIST 4117	Colorado History	
HIST 4326	Epidemic Disease in US History	
HIST 4416	Environmental History of North America	
MCDB 1030	Introduction to Molecular Biology	
MCDB 1041	Fundamentals of Human Genetics	
SOCY 4117	Food and Society	
<b>Internship</b>		<b>3</b>
<b>Total Credit Hours</b>		<b>18</b>

<sup>1</sup> Courses not taken to fulfill core requirements may be taken as electives.

<sup>2</sup> ENVS 4135 (Dogs, Wolves and Humans) was taught as a topic under ENVS 4100 before the 2021-2022 academic year.

<sup>3</sup> No more than 3 courses (or 9 credits), not including the internship, may be taken in one department.

### Internship

Students can choose from the several animal welfare-related Boulder County internship sites. Students can also locate their own internship sites, with the director's approval. Students taking internships must work a minimum of 40 hours for each hour of academic credit. For 3

credits, this means 90 hours on site (i.e., 6 hours per week), 10 hours of classroom time and 20 hours of reading and writing assignments.

In collaboration with the program director and site supervisors, students will outline tasks and responsibilities that support their learning goals. Consequently, students who achieve their learning goals acquire experience and a set of transferable skills that prepare them for professional positions or further academic study.

## Care, Health and Resilience - Certificate

The certificate in care, health and resilience prepares undergraduates for working in today's helping professions: nursing, medicine, counseling, teaching, community services, ministry, emergency management and related fields. It emphasizes the skills and practices expected of paid care providers, ranging from the ability to nurture clients' physical, emotional and social well-being to helping people thrive despite life-altering circumstances.

The program's curriculum:

- Provides students an opportunity to explore a variety of care-related occupations.
- Addresses the needs of suffering people and at-risk populations.
- Examines the ethical dilemmas posed by medical technologies and bureaucracies.
- Links students to Colorado's only academic health sciences center, the University of Colorado Anschutz Medical Campus, and other local hospitals through its internship program.

## Requirements

The certificate is open to degree seeking CU Boulder undergraduates in good standing from any declared major and non-degree seeking students. There is no GPA requirement for admission into the program. Completion of the certificate requires the completion of 18 credit hours (9 upper-division) of approved courses with grades of C- or better. No more than 6 credit hours from other institutions will be accepted.

### Required Courses and Credit Hours

Code	Title	Credit Hours

PSYC 3456	Psychology of Personality
SLHS 1010	Disabilities in Contemporary American Society
SLHS 3014	Hearing Loss Epidemiology
WGST 3400	Gender, Personality, and Culture

**Total Credit Hours** **18**

- <sup>1</sup> Given the difficulties of securing internships caused by the coronavirus, students are allowed to substitute one of the remaining core courses for the internship until further notice.
- <sup>2</sup> SOCY 4932 cannot be applied to the SOCY major or minor requirements. For more information about the internship program, contact Dr. Glenda Walden (glenda.walden@colorado.edu).

## Social Innovation - Certificate

The certificate in social innovation prepares students for working in fields whose primary mission is to improve the lives of society's most vulnerable and disadvantaged people. The program will teach students how to design and execute evidence-based strategies for advancing human welfare.

The program's curriculum will provide students with:

- A substantive understanding of social problems;
- A methodology for conceiving solutions to such complex problems;
- A broad set of skills needed to implement solutions in new or existing organizations; and
- The tools for critically evaluating the effectiveness and sustainability of solutions.

## Requirements

### Admission Requirements

Degree seeking and non-degree seeking CU Boulder undergraduate students in good standing from any discipline will be eligible to participate in the social innovation certificate program. There will not be a grade point average requirement to enroll in the program; however, students will be required to achieve a C- or better in all coursework that applies toward the certificate.

### Required Courses and Credits

The certificate requires the completion a minimum of 18 credits, of which 9 credits must be at the upper-division level. A maximum of 6 semester credit hours from other institutions will be accepted.

Code	Title	Credit Hours
<b>Required Courses</b>		
SOCY 4160	Designing Social Innovations	3
SOCY 4161	Executing Social Innovations <sup>1</sup>	3
<b>Electives</b>		<b>12</b>
Students will complete four of the following courses (only one of which can be from SOCY and no more than three of which may be from the any one other department) and, depending on their career goals, can choose all from the same area or from multiple areas.		
<i>Care, Health and Resilience</i>		
GEOG 3692	Introduction to Global Public Health

PSCI 3143	Current Affairs in International Relations
PSCI 4012	Global Development
<i>Society</i>	
ANTH 3170	America: An Anthropological Perspective
ANTH 4500	Cross-Cultural Aspects of Socioeconomic Development
ARSC 3001	
ETHN 2001	Foundations of Comparative Ethnic Studies: Race, Gender and Culture(s)
ETHN 2013	Critical Issues in Native North America
ETHN 2432	African American History
ETHN 2536	Survey of Chicana/o History and Culture
ETHN 3201	Social Justice, Leadership and Community Engagement Internships
GEOG 3742	Place, Power, and Contemporary Culture
IAFS 3000	Special Topics in International Affairs (Humanitarianism)
INVS 3302	Facilitating Peaceful Community Change
PACS 2500	Introduction to Peace, Conflict and Security Studies
PACS 3700	Communication and Conflict Management
SLHS 2000	Introduction to Communication Disorders
SOCY 2011	Contemporary Social Issues and Human Values
SOCY 2031	Social Problems
SOCY 2044	Crime and Society
SOCY 3141	Social Movements and the Politics of Protest
SOCY 4081	Sociology of Education
WGST 2000	Introduction to US Gender, Race and Sexuality Studies
WGST 3500	Global Gender Issues
<i>Technology</i>	
ATLS 4519	Advanced Special Topics in Creative Technology & Design (Design for Change)
EMEN 4200	Engineering and Entrepreneurship for the Developing World
EMEN 4825	New Venture Creation

ENES 1850	Engineering in History: The Social Impact of Technology
ENES 2130	History of Modern Technology from 1750 to the Atomic Bomb
ENES 2210	Modern Science and Technological Society
MCEN 4045	Mechanical Engineering Design Project 1
MCEN 4085	Mechanical Engineering Senior Design Project 2
MCEN 4228	Special Topics in Mechanical Engineering (Cookstove Assessment; Project-based Learning in Rural Schools)

**Total Credit Hours** **18**

<sup>1</sup> Students may substitute SOCY 4935, subject to director approval.

## Spanish and Portuguese

The Department of Spanish and Portuguese offers three major tracks and two minors. Language courses at the elementary and intermediate levels are also offered in Spanish, Portuguese and Catalan.

The department has identified the following as educational outcomes for the three tracks within the Spanish major.

The undergraduate degree in Spanish language and literature emphasizes knowledge and awareness of:

- The fundamental outlines of the history of literary and cultural expressions of the Spanish-speaking world.
- Major creative writers in both Spanish and Spanish American literature.
- Basic critical methodologies in the study of different genres ranging from fiction to poetry in a variety of textual forms, and from the written word to cinema, media and other visual arts.
- The cultural and historical contexts in which Spanish-speaking societies developed and continue to develop.

In addition, students completing the degree in Spanish language and literature are expected to acquire the ability and skills to:

- Read sophisticated Spanish texts at a level at which literary and cultural analyses can be performed.
- Write and speak Spanish sufficiently to participate in critical discussions and write critical essays.
- Analyze and interpret texts in terms of themes, characters, structure, style and overall textual strategies.
- Relate analysis and interpretations of different texts to one another.
- Communicate such interpretations competently in written form in Spanish.

The undergraduate degree in Spanish and Portuguese language and culture emphasizes knowledge and awareness of the same topics listed in the degree in Spanish language and literature, in addition specifies electives to focus on:

- The culture of the Portuguese-speaking world.
- Knowledge of the Portuguese language.

The undergraduate degree in Spanish for the professions emphasizes knowledge and awareness of:

- Several professional practices including business, health, media and sustainable development practices as applied to the Spanish-speaking world.
- Fundamental Professional Spanish terminology related to these areas.
- The cultural environment in which these professions are conducted in the Spanish-speaking world.
- Basic disciplinary practices according to the canons of each discipline.
- Best practices in cross-cultural communication.
- Best practices in the field of translation, interpretation and language services in the targeted professional areas.

In addition, students completing the degree in Spanish for the professions are expected to acquire the ability and skills to:

- Read and interpret in cultural and professional-related terms sophisticated Spanish texts concerning business, health, media and sustainable development practices.
- Write and speak Spanish sufficiently to communicate effectively on professional-related issues, be involved in critical discussions and write critical essays on the subject.
- Analyze a particular professional problem in order to place it in a relevant context and formulate an appropriate response.
- Adequately translate professional-related documents.

**Course codes for these programs are SPAN and PORT.**

## Bachelor's Degree

- Spanish - Bachelor of Arts (BA) (p. 584)

## Minors

- Portuguese - Minor (p. 588)
- Spanish - Minor (p. 588)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

## Courses

### Portuguese

#### PORT 1010 (5) Beginning Portuguese 1

Provides students with basic vocabulary and fundamentals of grammar through practice in speaking, listening comprehension, reading and writing, based on the Communicative Approach. Introduces the cultures of the Portuguese speaking world, with a focus on Brazil.

**Additional Information:** Departmental Category: Portuguese

#### PORT 1020 (5) Beginning Portuguese 2

Provides students with basic vocabulary and fundamentals of grammar through practice in speaking, listening comprehension, reading and writing, based on the Communicative Approach. Introduces the cultures of the Portuguese speaking work, with a focus on Brazil. Continuation of PORT 1010. Department enforced prerequisite: PORT 1010 (minimum grade C-).

**Additional Information:** Departmental Category: Portuguese

#### PORT 2110 (3) Second-Year Portuguese 1

Involves practice in speaking, listening comprehension, reading and writing at an intermediate level. Explores relevant topics of the Brazilian culture through different media. Besides introducing grammar topics corresponding to the intermediate level of the Portuguese languages, it includes grammar review (PORT 1010 and PORT 1020) and extra work on vocabulary acquisition. Department enforced prerequisite: PORT 1020 (minimum grade C-).

**Additional Information:** GT Pathways: GT-AH4 - Arts Hum: Foreign Languages

Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Foreign Language

Departmental Category: Portuguese

#### PORT 2120 (3) Second-Year Portuguese 2

Includes practice in speaking, listening comprehension, reading and writing at intermediate level, based on the Communicative Approach. Includes grammar and extra work on vocabulary acquisition, both explored through literary texts by renowned authors of the Portuguese speaking world, with a focus on Brazilian literature.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Portuguese

#### PORT 2350 (3) Portuguese for Romance Language Speakers

Focusing on Brazilian Portuguese, this course constitutes an intensive introduction to Portuguese language for those who speak a Romance language. Comprehends basic vocabulary and fundamentals of grammar through practice in speaking, listening comprehension, reading and writing, based on the Communicative Approach. Uses different media to explore cultural aspects of the Portuguese speaking world.

**Recommended:** Require three semesters of college equivalent in any Romance language.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Portuguese

**PORT 2800 (3) Brazil: Past and Present**

Discusses contemporary Brazil through the lenses of its literary, as well as socio-political movements. Students acquire a broader perspective of the country's current dynamics based on the formation of its national identity from 1500 to today. History serves as background to analyze literature and arts and critically understand Brazilian culture. Taught in English. Does not count toward Portuguese minor or Spanish and Portuguese major.

**Equivalent - Duplicate Degree Credit Not Granted:** AHUM 2800

**Additional Information:** Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Portuguese

**PORT 3003 (3) Advanced Portuguese Language Skills**

Consists of an advanced language course focused on current socio-environmental issues in Brazil. Involves reading academic texts in different areas of study, writing essays, watching documentaries, conducting class presentations and discussions, and studying grammar and vocabulary in the context of a more sophisticated written Portuguese.

**Requisites:** Requires prerequisite course of PORT 2120 or PORT 2350 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Portuguese

**PORT 3170 (3) Lisbon as a Global City: Cosmopolitanism, Diversity, and Innovation**

Experience the city of Lisbon, Portugal, one of the oldest cities in the world. Known for its cosmopolitanism and cultural diversity since the Age of Discovery, Lisbon will be the center of our exploration of how multicultural heritage has created new social, economic and cultural dynamics that have molded the city as a singular destination to visit and to invest.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective

**PORT 3220 (3) Latin American Culture: Spanish America and Brazil**

Examines literary, artistic, and philosophical currents in Spanish America and Portuguese America (Brazil), from pre-Columbian times to the present. Taught in Spanish.

**Equivalent - Duplicate Degree Credit Not Granted:** SPAN 3220

**Requisites:** Requires prerequisite course of SPAN 3000 (minimum grade C-).

**Recommended:** Prerequisites PORT 2110 and PORT 2120.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Portuguese

**PORT 3230 (3) Transatlantic Relations in the Portuguese Speaking World**

Examines cultural movements in Brazil, Portugal and Portuguese-speaking Africa, from the 15th century period of Portuguese expansion to the postcolonial present. Includes articles on culture as seen through literary, artistic, historical and sociological lenses. Taught in Portuguese.

**Requisites:** Requires prerequisite courses of PORT 2110 and PORT 2120 and PORT 2350 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Portuguese

**PORT 3270 (3) Socio-Environmental Dynamics in Brazil**

Gives students the opportunity to immerse themselves in the language, culture and contemporary realities of rural Maranhao, Brazil. Explores some of the most pressing issues in Brazil today with a focus on sustainable development, environmental governance and social entrepreneurship.

**Requisites:** Requires a prerequisite course of PORT 2110 or PORT 2350 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Portuguese

**PORT 4110 (3) Brazilian Literature**

Focuses on Brazilian literature through the lenses of literary and cultural studies. May address fiction, poetry and/or the relationship between literature and film. In addition to reading literary texts, students read academic essays.

**Equivalent - Duplicate Degree Credit Not Granted:** PORT 5110

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires a prerequisite course of PORT 2120 or PORT 2350 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Portuguese

**PORT 4150 (3) Literature of the Portuguese Speaking World**

Examines major works of Portuguese literature and/or Portuguese-speaking African literature through the lenses of cultural and literary studies. May address fiction, poetry, and/or the relationship between literature and cinema.

**Equivalent - Duplicate Degree Credit Not Granted:** PORT 5150

**Requisites:** Requires a prerequisite course of PORT 2120 or PORT 2350 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Portuguese

**PORT 4230 (3) Special Topics in Luso-Brazilian and/or African Literature**

Designed to examine intensively particular topics or issues concerning the literatures of Portugal, Brazil and/or the African countries of Portuguese colonization. Taught in Spanish.

**Equivalent - Duplicate Degree Credit Not Granted:** SPAN 4230

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires prerequisite course of PORT 3230 and SPAN 3100 (all minimum grade C-).

**Recommended:** Prerequisites SPAN 3120 and an additional course above SPAN 3000.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Portuguese

**PORT 4840 (1-3) Independent Study**

**Repeatable:** Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: Portuguese

## Spanish

### SPAN 1000 (3) Cultural Difference through Hispanic Literature

For freshmen only. Organized around the general topic of cultural differences. Focuses on a related issue such as gender or history articulated in the literature of Spain, Latin America, and the Hispanic United States. Taught in English; students read selected literary texts in English from the various traditions. Does not count towards the Spanish major.

**Requisites:** Restricted to students with 0-26 credits (Freshmen) only.

**Additional Information:** GT Pathways: GT-AH2 - Arts Hum: Lit Humanities  
Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

### SPAN 1010 (5) Beginning Spanish 1

A beginning course that assumes no prior knowledge or experience with Spanish. A variety of language-teaching approaches are used to help students develop all four basic language skills: listening, speaking, reading and writing.

**Equivalent - Duplicate Degree Credit Not Granted:** SPAN 1150

**Additional Information:** Departmental Category: Spanish

### SPAN 1020 (5) Beginning Spanish 2

Continuation of SPAN 1010. Department enforced prerequisite: SPAN 1010 (min. grade C-).

**Equivalent - Duplicate Degree Credit Not Granted:** SPAN 1150

**Additional Information:** Departmental Category: Spanish

### SPAN 1150 (5) Intensive First Year Spanish

An intensive beginning course covering the same material as SPAN 1010 and 1020.

**Equivalent - Duplicate Degree Credit Not Granted:** SPAN 1010 or SPAN 1020

**Additional Information:** Departmental Category: Spanish

### SPAN 2110 (3) Second-Year Spanish 1

Grammar review. Emphasizes reading, writing, and speaking skills. Department enforced prerequisite: SPAN 1020 (min. grade C-).

**Equivalent - Duplicate Degree Credit Not Granted:** SPAN 2150

**Additional Information:** GT Pathways: GT-AH4 - Arts Hum: Foreign Languages

Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Foreign Language

Departmental Category: Spanish

### SPAN 2120 (3) Second-Year Spanish 2

Grammar review. Emphasizes reading, writing and speaking skills. Department enforced prerequisite: SPAN 2110 (min. grade C-).

**Equivalent - Duplicate Degree Credit Not Granted:** SPAN 2150

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

### SPAN 2150 (5) Intensive Second-Year Spanish

Intensive review of grammar and other subjects covered in SPAN 2110 and SPAN 2120.

**Equivalent - Duplicate Degree Credit Not Granted:** SPAN 2110 or SPAN 2120

**Requisites:** Requires prerequisite course of SPAN 1020 (minimum grade C-).

**Additional Information:** GT Pathways: GT-AH4 - Arts Hum: Foreign Languages

Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Foreign Language

Departmental Category: Spanish

### SPAN 2450 (3) Catalan for Spanish Speakers

Offers an intensive introduction to the Catalan language for those able to speak Spanish. By the end of the course students should be able to communicate well in all language-skills areas: listening comprehension, speaking, reading and writing. Students will also have gained a better understanding and appreciation of the singularity of Catalan.

**Recommended:** Prerequisite SPAN 3000 or placement or five semesters of college Spanish or department consent required.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

### SPAN 3000 (5) Advanced Spanish Language Skills

Moves students beyond the intermediate level toward an advanced command of Spanish with a focus on communication appropriate for academic research and professional interactions. Course activities focus on solidifying and deepening interpretive, interpersonal and presentational communication skills through close exploration of authentic texts and media and creation of both formal and informal writing and oral presentations. The course prepares students for continued study of literature, art, history, linguistics, culture, business, medical and other professional topics in Spanish. SPAN 3000 is the first required course for the Spanish major and minor and is one of the prerequisites for all upper-division Spanish courses except SPAN 3001.

**Requisites:** Requires prerequisite course of SPAN 2120 or SPAN 2150 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

### SPAN 3001 (3) Spanish Conversation

Emphasizes vocabulary acquisition and speaking fluency. This is an intermediate-level course intended for those who are learning Spanish as a second-language. Native speakers of Spanish who have pursued formal education in a Spanish speaking country will not be admitted to the course. Heritage speakers of Spanish (native speakers who have pursued formal education in a non-Spanish speaking setting) as well as students from bi-lingual K-12 programs must meet with the coordinator to determine appropriate class level. This is a 5th semester course offered at the same level as SPAN 3000. It is not part of a sequence and it does not serve as a prerequisite for any other course. This course does not count toward the Spanish major or minor.

**Equivalent - Duplicate Degree Credit Not Granted:** SPAN 3002

**Requisites:** Requires prerequisite course of SPAN 2120 or SPAN 2150 (minimum grade C-).

**Additional Information:** Departmental Category: Spanish

### SPAN 3002 (3) Advanced Spanish Conversation

Focuses on refining fluency in both informal and formal discourse through group discussions, class work and individual and group presentations in order to prepare students for communication in professional settings. To that end, the materials used in the course will emphasize themes and problems relevant to the contemporary Hispanic world. This course is designed for Spanish majors, minors and students seeking state certification as instructors of Spanish.

**Equivalent - Duplicate Degree Credit Not Granted:** SPAN 3001

**Requisites:** Requires prerequisite course of SPAN 3000 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

**SPAN 3010 (3) Advanced Rhetoric and Composition**

Designed to refine expository and argumentative writing in Spanish, this course will center around four main areas of study: culture, linguistics, sociopolitical and economic reality, and literature and criticism. A multi-draft process-based approach will guide the writing and revision of essays. Additionally, there will be a focus on grammar and lexical issues that are the most challenging for students at the third-year level.

**Requisites:** Requires prerequisite course of SPAN 3000 (minimum grade C-).

**Additional Information:** Arts Sci Core Curr: Written Communication

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Written Communication-Upper

Departmental Category: Spanish

**SPAN 3030 (3) Professional Spanish for Business 1**

Develops advanced Spanish-language skills, trans-cultural knowledge, and regional, historical, and sociocultural understanding in order to expand the critical apparatus necessary for pursuing business-related professions in the Spanish-speaking world. Includes the study of essential business terminology and documents.

**Requisites:** Requires prerequisite course of SPAN 3000 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Spanish

**SPAN 3040 (3) Professional Spanish for Business 2**

Complements SPAN 3030 with a focus on different business topics and countries. Emphasizes interpreting and elementary translation. Attention is given to the writing of resumes and application letters, as well as the entire job search process.

**Requisites:** Requires prerequisite course of SPAN 3000 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Spanish

**SPAN 3050 (3) Spanish Phonology and Phonetics**

Designed to teach some of the methods, techniques, and tools of descriptive linguistics as they apply to articulatory phonetics. Students analyze important contrasts between sounds of Spanish and English by means of phonetic transcription.

**Requisites:** Requires prerequisite course of SPAN 3000 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Spanish

**SPAN 3060 (3) Spanish for Careers in Environmental Studies and Sustainable Development**

Provides advanced Spanish language competency and transcultural knowledge of issues pertaining to the environment, energy and sustainable development in the Spanish-speaking world. Students will develop a critical apparatus for analyzing, reading, listening, speaking and writing about the social, cultural and economic parameters of these countries and the U.S.

**Requisites:** Requires prerequisite course of SPAN 3000 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Spanish

**SPAN 3070 (3) Spanish 21st Century Media Professions**

Develops advanced Spanish language skills, trans-cultural knowledge and regional and historical understanding necessary for using Spanish in media related professions. Examines the production, representations and cultural meaning of Hispanic and Latino media within the United States and globally, drawing on films, videos and readings in political economy, cultural studies, history and sociology. Students create five media products in Spanish.

**Requisites:** Requires prerequisite course of SPAN 3000 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Spanish

**SPAN 3080 (3) Spanish Health Professions**

Develops advanced Spanish language competency and trans-cultural knowledge and skills for health related contexts both in the United States and abroad in order to develop a critical apparatus for analyzing, reading, listening, speaking and writing about health and understanding health fields in historical and sociocultural contexts of the Spanish speaking world.

**Requisites:** Requires prerequisite course of SPAN 3000 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Spanish

**SPAN 3100 (3) Literary and Cultural Analysis in Spanish**

Fosters critical thinking and the ability to discuss texts from a historical, sociological, ideological and formalistic viewpoint. Analyzes literary and cultural expressions from Latin America, Spain and the US Latino traditions in different genres, ranging from fiction to poetry, and media from the written word to cinema and other visual arts.

**Requisites:** Requires prerequisite course of SPAN 3000 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Spanish

**SPAN 3120 (3) Advanced Spanish Grammar**

Develops a deeper understanding of grammatical features of Spanish. Advancement of Spanish language skills and development of metalinguistic awareness is achieved through examination of grammar usage in both texts and spontaneous speech productions within communities.

**Requisites:** Requires prerequisite course of SPAN 3000 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Spanish

**SPAN 3150 (3) Linguistic Analysis of Spanish**

Introduces students to fundamental areas of linguistic analysis with special attention paid to Spanish (and Portuguese). The structural systems of language will be introduced (principles of sound patterns, word formation, meaning, and sentence structure). Different types of language variation will be discussed (historical, social, regional).

**Requisites:** Requires prerequisite course of SPAN 3000 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Spanish

**SPAN 3200 (3) Spanish Culture**

Examines historical bases of modern Spain's cultural and political currents. Department enforced prerequisite: SPAN 3000.

**Requisites:** Requires prerequisite course of SPAN 3000 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

**SPAN 3215 (3) Urban History and Culture in the Spanish-Speaking World**

Understanding the complex history, social fabric, material life and cultural diversity of Latin American and Iberian cities is the goal of this course, which in its iterations will be devoted to analyzing and discussing different urban centers on either side of the Atlantic Ocean. Materials from a wide variety of media and genres such as literature, visual arts, historiography, and film, will be used. Taught in Spanish.

**Requisites:** Requires prerequisite course of SPAN 3000 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

**SPAN 3220 (3) Latin American Culture: Spanish America and Brazil**

Examines literary, artistic, and philosophical currents in Spanish America and Portuguese America (Brazil), from pre-Columbian times to the present.

**Equivalent - Duplicate Degree Credit Not Granted:** PORT 3220

**Requisites:** Requires prerequisite course of SPAN 3000 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

**SPAN 3230 (3) Discovering Barcelona: Culture and Heritage**

Presents more than 2,000 years of Barcelona's cultural heritage in the city of Barcelona from the Romans to the present. Students read works by locals and foreign authors to understand how the city has been a hub of the European and Mediterranean cultures for centuries. A faculty sponsored Global Seminar to Barcelona, Spain, offered through the Study Abroad Program.

**Requisites:** Requires prerequisite course of SPAN 3000 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

**SPAN 3240 (3) Catalan Culture 1: Nation and Art**

Introduces students to the literary, artistic and historical currents of Catalonia, an economically vibrant area of the Iberian Peninsula with 10 million people, its capital Barcelona, and a distinct culture and language. Examines national identity and major works from renowned Catalan artists, spanning architecture, painting and literature, like Dali, Gaudi, or Miro. Department enforced prerequisite: SPAN 3000.

**Requisites:** Requires prerequisite course of SPAN 3000 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

**SPAN 3250 (3) Catalan Culture 2: Contemporary Trends and Barcelona**

Introduces students to the contemporary social and cultural trends of Catalonia, primarily in its capital of Barcelona. Examines current developments in fields such as theatre, art, fashion, cooking, urban design and/or architecture.

**Requisites:** Requires prerequisite course of SPAN 3000 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

**SPAN 3260 (3) Late 19th and 20th Century Argentine Narrative**

Considers a series of late 19th and 20th century canonical works from several genres (poetry, short story, essay, and the novel). Students will acquire a specific knowledge of late 19th and 20th century Argentine literature, and its relationship to specific social actors and specific historical processes. A faculty-sponsored Global Seminar to Rosario, Argentina, offered through the Study Abroad Program.

**Requisites:** Requires prerequisite course of SPAN 3000 (minimum grade C-).

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

**SPAN 3270 (3) Barcelona: Understanding Local and Immigrant Cultures**

Explores the history of Barcelona from an interdisciplinary, European perspective that emphasizes the city's cultural diversity and pluralism. A range of historical, literary, artistic, and sociological texts will be examined. Taught in Spanish. Offered through the Study Abroad Program.

**Requisites:** Requires prerequisite course of SPAN 3000 (minimum grade C-).

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Spanish

**SPAN 3280 (3) Introduction to Catalan Literature & Film**

Introduces students to the rich and diverse literary and film traditions of Catalonia, an economically vibrant area of the Iberian Peninsula with 10 million people and a distinct culture and language. Taught in Spanish.

**Requisites:** Requires prerequisite course of SPAN 3000 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

**SPAN 3290 (3) Argentine Culture and History in a Latin American Context**

This course examines the historical trends in Latin America from 1880 to the present and compares and contrasts Argentina's unique cultural identity to the larger Latin American context. The course then considers how said history plays a role in the literary, artistic, philosophical and social currents (including identity issues related to race, ethnicity and gender) that shape contemporary Argentine culture.

**Requisites:** Requires prerequisite course of SPAN 3000 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective

**SPAN 3310 (3) 20th Century Spanish Literature**

Surveys leading writers of Spain from 1898 until the present.

**Requisites:** Requires prerequisite course of SPAN 3100 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

**SPAN 3340 (3) 20th Century Spanish American Literature**

Introduces contemporary Spanish American literature.

**Requisites:** Requires prerequisite course of SPAN 3100 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

**SPAN 3700 (3) Selected Readings: Spanish Literature in Translation**

Introduces selected Spanish literature masterpieces. Taught in English. Does not count toward requirements for Spanish major or minor.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

**SPAN 3800 (3) Selected Readings: Latin American Literature in Translation**

Introduces selected Latin American (Spanish and Portuguese) literature masterpieces. Taught in English. Does not count toward requirements for the Spanish major or minor.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

**SPAN 3900 (3) Cosmos Latinos: Hispanic Science Fiction and New Worlds**

Examines how Hispanic science fiction (from both Spain and Latin America) in literature and film portrays and addresses topics such as technological development, the exploration (and exploitation) of space, life in on other planets, alternative paradigms of modernity, and the cultural and social landscape of technologically saturated societies. Course taught in English. Does not count towards the requirements for the Spanish major or minor.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**SPAN 4060 (3) Problems of Translation for Professions in Spanish 1**

Develops skills in English-Spanish and Spanish-English translation and interpretation.

**Requisites:** Requires a prerequisite course of SPAN 3000 and SPAN 3010 or SPAN 3030 or SPAN 3040 or SPAN 3060 or SPAN 3070 or SPAN 3080 or SPAN 3120 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

**SPAN 4070 (3) Problems of Translation for Professions in Spanish 2**

Presents documents from different professional areas (business, health, media and environmental studies and sustainable development) which are studied, prepared, translated and discussed in context in order to enable students to perform successfully in real translation situations.

**Requisites:** Requires a prerequisite course of SPAN 3000 and SPAN 3010 or SPAN 3030 or SPAN 3040 or SPAN 3060 or SPAN 3070 or SPAN 3080 or SPAN 3120 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

**SPAN 4110 (3) Hispanic Women Writers**

Discusses the image of women in Spanish literature through the centuries using works by representative female writers.

**Requisites:** Requires prerequisite course of SPAN 3100 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

**SPAN 4120 (3) Literature and Cinema in Spain and Latin America**

Studies film and fiction in different periods and about main topics of the Hispanic world. It will provide a historical and cultural overview, introduce students to film theory, narrative theory and the vocabulary associated with both, and integrate critical texts about all the material studied. Topics may vary each semester. This course will be taught entirely in Spanish.

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Requires prerequisite course of SPAN 3100 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

**SPAN 4130 (3) The Power of Storytelling: Oral, Textual and Digital Narratives**

Examines the ways in which oral, textual and digital narratives have shaped, and continue to shape, our lives and the different communities we inhabit. Students consider stories from the Hispanic tradition produced in a variety of historical settings and across different media.

**Requisites:** Requires prerequisite course of SPAN 3100 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

**SPAN 4150 (3) Major Works and Trends in Literature and Culture in Spain Up to 1700**

Examines major works and trends in literature, visual arts and/or other cultural expressions of Spain from its origins to the end of the Baroque period,

**Requisites:** Requires prerequisite course of SPAN 3100 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

**SPAN 4160 (3) Major Works and Trends in Literature and Culture in Spain: 1700-Present**

Examines major works and trends in literature, visual arts and/or other cultural expressions of Spain from 1700 to the present day.

**Requisites:** Requires prerequisite course of SPAN 3100 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

**SPAN 4170 (3) Major Works/Trends in Literature and Culture in Latin America Up to the 19th Century**

Examines major works and trends in literature, visual arts and/or other cultural expressions of Latin America from the colonial period to the end of the 19th century.

**Requisites:** Requires prerequisite course of SPAN 3100 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

**SPAN 4180 (3) Major Works and Trends in Literature and Culture in Latin America: 1900-Present**

Examines major works of literature, visual arts and/or other cultural expressions of Latin America from the beginning of the 20th century to the present day.

**Requisites:** Requires prerequisite course of SPAN 3100 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

**SPAN 4215 (3) Spanish in the United States**

Describes the linguistic characteristics of U.S. Spanish, Spanish-English bilingualism and direct contact, including the study of borrowing, code switching, phonological and grammatical convergence, leveling, accommodation and attrition, among other linguistic phenomena. Discusses the relationships between language and identity, as well as the role of Spanish in U.S. education, media and social institutions.

**Requisites:** Requires a prerequisite course of SPAN 3000 or SPAN 3010 or SPAN 3050 or SPAN 3120 or SPAN 3150 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

**SPAN 4220 (3) Special Topics in Spanish and/or Spanish American Literature**

Examines intensively particular topics or issues concerning Spanish and/or Spanish American literature selected by the instructor.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires prerequisite course of SPAN 3100 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

**SPAN 4230 (3) Special Topics in Luso-Brazilian and/or African Literature**

Designed to examine intensively particular topics or issues concerning the literatures of Portugal, Brazil and/or the African countries of Portuguese

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires prerequisite course of PORT 3230 and SPAN 3100 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

**SPAN 4430 (3) Special Topics in Hispanic Linguistics**

Examines intensively particular topics or issues concerning Hispanic linguistics selected by the instructor.

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Requires a prerequisite course of SPAN 3000 or SPAN 3010 or SPAN 3050 or SPAN 3120 or SPAN 3150 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Spanish

**SPAN 4450 (3) Introduction to Hispanic Linguistics**

Introduces students to the main areas of inquiry within the field of Hispanic linguistics. Topics to be covered include speech and language, phonetics and phonology, morphology and syntax, semantics, linguistic change and variation and Spanish spoken in the United States.

**Equivalent - Duplicate Degree Credit Not Granted:** SPAN 5450

**Requisites:** Requires a prerequisite course of SPAN 3000 or SPAN 3010 or SPAN 3050 or SPAN 3120 or SPAN 3150 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Spanish

**SPAN 4620 (3) Cervantes**

Works of Cervantes.

**Requisites:** Requires prerequisite course of SPAN 3100 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

**SPAN 4650 (3) Methods of Teaching Spanish**

Familiarizes students with second-language acquisition theories and current methodology and techniques in foreign-language teaching. The opportunities to observe Spanish classes, teach mini-lessons and perform volunteer work 2 hours a week in a local school or language program provide students with real-world teaching experience.

**Equivalent - Duplicate Degree Credit Not Granted:** SPAN 5650

**Requisites:** Requires a prerequisite course of SPAN 3000 and SPAN 3010 and SPAN 3002 or SPAN 3030 or SPAN 3040 or SPAN 3050 or SPAN 3150 or SPAN 3200 or SPAN 3220 or SPAN 3240 or SPAN 3250 or SPAN 3280 or SPAN 3310 or SPAN 3340 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Spanish

**SPAN 4660 (6) High School Spanish Teaching**

Part of supervised secondary school teaching required for state certification to teach Spanish. These hours do not count toward student hours in the major nor in the total departmental hours allowed.

**Requisites:** Requires prerequisite course of SPAN 4650 or SPAN 5650 (minimum grade D-).

**Additional Information:** Departmental Category: Spanish

**SPAN 4840 (1-3) Independent Study**

Departmental approval required.

**Repeatable:** Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: Spanish

**SPAN 4930 (1-4) Languages Internship for Professions**

Participants interested in public service or management-oriented careers in government or business are able to work as interns in public sector agencies or in private industry, on campus, or abroad.

**Requisites:** Requires prerequisite course of SPAN 3100 (minimum grade C-).

**Recommended:** Prerequisites SPAN 3200 and an additional course above SPAN 3000.

**Additional Information:** Departmental Category: Spanish

**SPAN 4980 (1) Methods Language Learn/Pedagogy**

Required, intensive mini-course for Teaching Assistants in Spanish and Portuguese. Provides teachers with the opportunity to learn about language-learning theory and pedagogy.

**Requisites:** Restricted to graduate students only.

**Additional Information:** Departmental Category: Spanish

**SPAN 4990 (3) Spanish Honors Thesis**

Recommended restriction: 18 hours of upper-division Spanish, 3.00 GPA overall, and 3.50 GPA in Spanish.

**Repeatable:** Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

**Recommended:** Prerequisite 18 hours of upper-division Spanish, 3.00 GPA overall, and 3.50 GPA in Spanish.

**Additional Information:** Arts Sciences Honors Course  
Departmental Category: Spanish

## Spanish - Bachelor of Arts (BA)

### Program Tracks

The Department of Spanish and Portuguese offers a Bachelor of Arts in Spanish with three program tracks.

#### Spanish Language and Literatures Track

This track emphasizes knowledge and awareness of:

- The fundamental outlines of the history of Spanish literature and of Spanish American literature.
- The major creative writers in both Spanish and Spanish American literature.
- Basic critical methodologies in the study of poetry, drama, narrative fiction, nonfiction and cinema.
- The cultural and historical contexts in which particular traditions develop.

The program focuses on critical thinking and communication skills (written and oral) and their application in today's real-world global setting. Our internationally recognized professors and instructors integrate their research with their teaching in a fruitful manner. The degree supports an active secondary teaching certification program, which prepares future Spanish instructors for the growing demand for secondary Spanish teachers. Catalan language courses are also offered to broaden students' linguistic spectrum. Advanced students, particularly honor's program students, are invited to begin their MA work in our program by taking graduate seminars during their senior year.

## Spanish and Portuguese Languages and Culture Track

This track focuses on the literature and culture of Spanish-speaking and Lusophone countries, guiding students through readings on the history of Spain, Portugal, Brazil and Latin America. Along with major authors and literary movements of the Spanish and Portuguese-speaking worlds, students read a variety of complex texts across academic disciplines.

The linguistic and cultural mastery of Spanish and Portuguese is key in opening endless possibilities to the European Union (Portugal and Spain), as well as Brazil and the whole of Latin America. Through this bilingual combination, students will gain the tools needed to conduct business in the Western Hemisphere in today's competitive global market.

## Spanish for the Professions Track

This interdisciplinary track offers exciting career possibilities, both in government and private industry, at home and abroad. Languages and cultural understanding are essential in business, engineering, commerce, civil service, law, library science, media, science, economics, health and social sciences.

The degree emphasizes knowledge and awareness of the cultural environment in which professions are practiced in the Spanish-speaking world. Students develop an advanced level of language proficiency and trans-cultural competence in addition to taking courses in a professional field of their choice.

## Education Abroad

The department strongly recommends that all majors include a period of study in a Spanish or Portuguese-speaking country in the course of their undergraduate education. Please visit Education Abroad (<https://abroad.colorado.edu/>) for more information.

Although the 4-year graduation guarantee does not apply to those who study abroad, it is still entirely possible to go abroad for a semester or a year and graduate in 4 years. The Department of Spanish and Portuguese sponsors Summer Global Seminars in Argentina (<https://abroad.colorado.edu/?FuseAction=Programs.ViewProgramAngular&id=740>), Portugal (<https://abroad.colorado.edu/?FuseAction=Programs.ViewProgramAngular&id=10349>)

and Spain (<https://abroad.colorado.edu/?FuseAction=Programs.ViewProgramAngular&id=766>).

## Concurrent Degree Program BA/MSIB in Spanish

This program is designed for students who wish to combine their BA in Spanish for the Professions with a one-year MS in international business (MSIB) from the University of Colorado Denver. Students seeking this option should complete the Leeds Business Minor.

Students apply for the MSIB program during their third year by declaring their intention to the Spanish for the Professions faculty director, submitting the standard MSIB application forms, and completing admissions requirements, which include the GMAT (Graduate Management Admissions Test). Students are notified of acceptance to the program before the start of their fourth year. Students must have at least a 3.00 GPA to be considered for admission.

## Requirements

### General Requirements

The following requirements apply to all program tracks.

The College of Arts and Sciences does not allow more than 45 credit hours in any one discipline to be counted toward the 120 credit hours required for a BA degree. This rule does not mean that a student may not take more than 45 credit hours in Spanish, but rather that one must have at least 75 credit hours in courses other than Spanish. PORT 2120 will be accepted as partially fulfilling upper-division courses in other foreign languages.

To fulfill the requirements for any major track, students must complete at least 12 upper-division credits at CU Boulder. For the Spanish Language and Literature track and the Spanish and Portuguese Language and Culture track, 9 of the 12 credits must be from the major works/trends courses listed (SPAN 4150 or SPAN 4160, and SPAN 4170 or SPAN 4180) and SPAN 3100. For the Spanish for the Professions track, students must take at least two of the 3000-level profession courses and SPAN 4070 and SPAN 3100 on the Boulder campus.

No more than 3 independent study credit hours may count toward the major. No grade lower than a C- will be counted in the major requirements. The ancillary GPA (made up of the combined grades from area courses) must be at least 2.00.

Please note that students seeking Colorado State Teaching Certification should complete the Spanish Language and Literature Track. Students seeking teaching certification in Spanish must take certain classes. For full requirements, please contact the advisor for the Secondary Spanish Teaching Certificate program in the department.

Students must complete the general requirements of the College of Arts and Sciences and the required courses. All Spanish majors are encouraged to consult with the Spanish and Portuguese Department professional advisor (<http://www.colorado.edu/mycuhub/>) before they register each semester.

Transfer credit must be approved by the Associate Chair for Undergraduate Studies. Study Abroad courses must be approved; contact the Spanish and Portuguese Department Professional Advisor (<http://www.colorado.edu/mycuhub/>) to begin the process.

## Program Track Requirements

### Spanish Language and Literatures Track

Code	Title	Credit Hours
<b>Required Courses</b>		
SPAN 3000	Advanced Spanish Language Skills	5
SPAN 3100	Literary and Cultural Analysis in Spanish	3
SPAN 3010 or SPAN 3120	Advanced Rhetoric and Composition Advanced Spanish Grammar	3
<b>Hispanic Linguistics Requirement</b>		<b>3</b>
SPAN 3050 or SPAN 3150 or SPAN 4430 or SPAN 4450	Spanish Phonology and Phonetics Linguistic Analysis of Spanish Special Topics in Hispanic Linguistics Introduction to Hispanic Linguistics	
<b>4000-level Spanish Language and Literature courses</b>		<b>9</b>
<i>Spanish Literature and Culture</i>		
SPAN 4150 or SPAN 4160	Major Works and Trends in Literature and Culture in Spain Up to 1700 Major Works and Trends in Literature and Culture in Spain: 1700-Present	
<i>Latin American Literature and Culture</i>		
SPAN 4170 or SPAN 4180	Major Works/Trends in Literature and Culture in Latin America Up to the 19th Century Major Works and Trends in Literature and Culture in Latin America: 1900-Present	
<i>Additional 4000-level Spanish Literature course</i>		
Choose one of the following courses not used to fulfill a requirement above:		
SPAN 4110 or SPAN 4150 or SPAN 4160 or SPAN 4170 or SPAN 4180 or SPAN 4220 or SPAN 4620	Hispanic Women Writers Major Works and Trends in Literature and Culture in Spain Up to 1700 Major Works and Trends in Literature and Culture in Spain: 1700-Present Major Works/Trends in Literature and Culture in Latin America Up to the 19th Century Major Works and Trends in Literature and Culture in Latin America: 1900-Present Special Topics in Spanish and/or Spanish American Literature Cervantes	
<b>Upper-Division Spanish Electives</b>		<b>9</b>
9 credit hours of upper-division SPAN electives. 3 credit hours must be 4000-level. Can include courses not used to fulfill an above requirement.		
<b>Total Credit Hours</b>		<b>32</b>

### Spanish and Portuguese Languages and Culture Track

Note that prerequisites for the program include sufficient Spanish knowledge to be admitted to 3000-level courses and sufficient knowledge of Portuguese to be admitted to 2000-level courses.

Code	Title	Credit Hours
<b>Required Courses</b>		
PORT 2110 or PORT 2350	Second-Year Portuguese 1 Portuguese for Romance Language Speakers	3
PORT 2120 or PORT 2800	Second-Year Portuguese 2 (or SPAN/PORT upper-division) <sup>1</sup> Brazil: Past and Present	3
PORT 3003 or PORT 3170	Advanced Portuguese Language Skills <sup>2</sup> Lisbon as a Global City: Cosmopolitanism, Diversity, and Innovation	3
or PORT 3220 or PORT 3230	Latin American Culture: Spanish America and Brazil Transatlantic Relations in the Portuguese Speaking World	
4000-level PORT course <sup>2</sup>		3
<b>Required Spanish Language and Literature Courses</b>		
SPAN 3000	Advanced Spanish Language Skills	5
SPAN 3100	Literary and Cultural Analysis in Spanish	3
SPAN 3010 or SPAN 3120	Advanced Rhetoric and Composition Advanced Spanish Grammar	3
<b>Hispanic Linguistic Requirement</b>		<b>3</b>
Choose one of the following:		
SPAN 3050 or SPAN 3150 or SPAN 4430 or SPAN 4450	Spanish Phonology and Phonetics Linguistic Analysis of Spanish Special Topics in Hispanic Linguistics Introduction to Hispanic Linguistics	
<b>Spanish Literature and Culture Course</b>		<b>3</b>
SPAN 4150 or SPAN 4160	Major Works and Trends in Literature and Culture in Spain Up to 1700 Major Works and Trends in Literature and Culture in Spain: 1700-Present	
<b>Latin American Literature and Culture Course</b>		<b>3</b>
SPAN 4170 or SPAN 4180	Major Works/Trends in Literature and Culture in Latin America Up to the 19th Century Major Works and Trends in Literature and Culture in Latin America: 1900-Present	
<b>SPAN or PORT Elective</b>		<b>3</b>
Upper division (3000/4000 level) SPAN or PORT literature, culture and/or language.		
<b>Total Credit Hours</b>		<b>35</b>

<sup>1</sup> Native speakers of Portuguese, and in general, all students whose Portuguese skills are beyond the PORT 2120 level, are not required to take Portuguese lower-division courses. However, students have to make up these credit hours by taking 6 hours of upper-division SPAN or PORT courses or any related courses outside the department. Related courses must be approved by the department.

<sup>2</sup> Some 3000-level and 4000-level Portuguese (PORT) courses are repeatable for up to 6 credits each.

### Spanish for the Professions Track

The department offers an interdisciplinary major in Spanish for the Professions, which includes the completion of 12 credits in a professional field, in a second major or in a second degree. It offers students

numerous career possibilities, both in government and private industry at home and abroad. Those choosing this major are not able to enter the CU Boulder graduate program in Spanish without fulfilling the requirements in the language and literature major.

Prerequisites for the program include sufficient Spanish to be admitted to 3000-level courses and any pertinent prerequisites for the 12 credits in the professional field. SPAN 4070 must be taken at CU Boulder.

Code	Title	Credit Hours
<b>Professional Spanish Courses</b> <sup>1</sup>		<b>9</b>
Choose three of the following:		
SPAN 3030	Professional Spanish for Business 1	
SPAN 3060	Spanish for Careers in Environmental Studies and Sustainable Development	
SPAN 3070	Spanish 21st Century Media Professions	
SPAN 3080	Spanish Health Professions	
<b>Required Courses</b>		
SPAN 4060	Problems of Translation for Professions in Spanish 1	3
SPAN 4070	Problems of Translation for Professions in Spanish 2	3
<b>Spanish Language Courses</b>		
SPAN 3000	Advanced Spanish Language Skills	5
SPAN 3100	Literary and Cultural Analysis in Spanish	3
SPAN 3010	Advanced Rhetoric and Composition	3
or SPAN 3120	Advanced Spanish Grammar	
<b>Upper-Division SPAN Elective</b>		
One Upper Division course (SPAN 3000 or 4000 level)		3
One SPAN 4000-level course. SPAN 4930 is an option.		3
<b>Non-SPAN Electives</b>		<b>12</b>
Students are required to take 12 credit hours outside of Spanish in a certificate program, minor, second major or degree related to their professional interests. Students must fulfill the prerequisites for the relevant program. The Business Minor, or the Public Health Certificate, or the Technology, Arts and Media Certificate are recommended. Courses meeting this requirement must be approved by the faculty director of the major.		
<b>Total Credit Hours</b>		<b>44</b>

<sup>1</sup> No substitutions permitted.

## Recommended Four-Year Plan of Study

Through the required coursework for the major, students can complete all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement and potentially the Upper-division Written Communication component of the Gen Ed Skills Requirement.

### Year One

Fall Semester	Credit Hours	
SPAN 1010	Beginning Spanish 1 (If needed, does not fulfill Spanish major course requirements)	5

Gen. Ed. Skills course (example: Lower-division Written Communication)	3
Gen. Ed. Distribution course (example: Natural Sciences with Lab)	4
Elective	3

**Credit Hours 15**

### Spring Semester

SPAN 1020	Beginning Spanish 2 (If needed, does not fulfill Spanish major course requirements)	5
Gen. Ed. Skills course (example: QRMS)	3	
Gen. Ed. Distribution course (example: Natural Sciences)	4	
Elective	3	

**Credit Hours 15**

### Year Two

#### Fall Semester

SPAN 2110	Second-Year Spanish 1 (If needed, does not fulfill Spanish major course requirements)	3
Gen. Ed. Distribution/Diversity course (example: Social Sciences/Global Perspective)	3	
Gen. Ed. Distribution course (example: Natural Sciences)	3	
Elective	3	
Elective	3	

**Credit Hours 15**

#### Spring Semester

SPAN 2120	Second-Year Spanish 2 (If needed, does not fulfill Spanish major course requirements)	3
Related Fields course outside of Spanish (see degree audit for details and instructions)	3	
Gen. Ed. Distribution course (example: Natural Sciences)	3	
Elective	3	
Elective	3	

**Credit Hours 15**

### Year Three

#### Fall Semester

SPAN 3000	Advanced Spanish Language Skills	5
Related Fields course outside of Spanish (See Degree Audit for details and instructions)	3	
Gen. Ed. Distribution/Diversity course (example: Social Sciences/US Perspective)	3	
Gen. Ed. Distribution course (example: Natural Sciences)	3	
Elective	3	

**Credit Hours 17**

#### Spring Semester

SPAN 3100	Literary and Cultural Analysis in Spanish	3
SPAN 3120	Advanced Spanish Grammar	3
SPAN 3010	Advanced Rhetoric and Composition (Also fulfills Gen. Ed. Skills course: Upper-division Written Communication)	3
Gen. Ed. Distribution course (example: Social Sciences) - Upper-Division	3	

Upper-Division Elective		3
<b>Credit Hours</b>		<b>15</b>
<b>Year Four</b>		
<b>Fall Semester</b>

SPAN Upper-Division elective		3
Upper-Division Elective		3
Upper-Division Elective		3
<b>Credit Hours</b>		<b>15</b>
<b>Total Credit Hours</b>		<b>122</b>

## Portuguese - Minor

The Portuguese minor focuses on Brazilian Portuguese and provides the students with knowledge of the Portuguese-speaking world and the relations between the different national contexts in which the language is spoken. The courses are designed to cover a variety of topics that are relevant to Brazil and other Portuguese-speaking countries. Students acquire a wider comprehension of Portuguese in a multi-cultural context.

The topics of the courses range from language to literature; from academic writing to performing arts; from sixteenth century letters on colonial issues to contemporary issues of biodiversity; from documentary films to soap operas; from nineteenth century Brazilian opera to twenty-first century *funk ostentação*.

The faculty in the Portuguese program incorporate their international research into their teaching. Their innovative pedagogical approaches aim to contribute to students' cultural intelligence, in addition to language fluency.

## Requirements

Declaration of a minor in Portuguese is open to any student enrolled at CU Boulder, regardless of college or school. To declare the Portuguese

Minor, make an appointment with the Spanish and Portuguese Department Professional Advisor (<http://www.colorado.edu/mycuhub/>).

The minor in Portuguese consists of 18 credit hours, at least nine of which must be upper-division credit hours. A grade of C- or better is required for a course to apply to the requirements of the minor, and a cumulative GPA in all Portuguese courses of at least 2.0 is required for completion of the minor.

Transfer credit must be approved by the Associate Chair of Undergraduate Studies. A maximum of two courses may be taken abroad; this may be in addition to transfer credits. Study Abroad courses must be approved; contact the Spanish and Portuguese Department Professional Advisor (<http://www.colorado.edu/mycuhub/>) to begin the process.

## Required Courses and Credit Hours

Code	Title	Credit Hours
<b>Required Courses</b>		
<b>2000-level Portuguese courses</b>		
Choose two of the following:		6
PORT 2110	Second-Year Portuguese 1	
or PORT 2350	Portuguese for Romance Language Speakers	
PORT 2120	Second-Year Portuguese 2	
PORT 2800	Brazil: Past and Present	
<b>3000-level Portuguese courses</b>		
Choose two of the following:		6
PORT 3003	Advanced Portuguese Language Skills	
PORT 3170	Lisbon as a Global City: Cosmopolitanism, Diversity, and Innovation	
PORT 3230	Transatlantic Relations in the Portuguese Speaking World	
PORT 3270	Socio-Environmental Dynamics in Brazil	
<b>4000-level Portuguese courses</b>		
Choose two of the following:		6
PORT 4110	Brazilian Literature	
PORT 4150	Literature of the Portuguese Speaking World	
PORT 4230	Special Topics in Luso-Brazilian and/or African Literature	
<b>Total Credit Hours</b>		<b>18</b>

## Spanish - Minor

The minor in Spanish offered through the Department of Spanish and Portuguese will help students gain an understanding of the Spanish language, as well as a grasp of primary cultural concepts and practices, and current literary and cultural trends.

In a global economy and a competitive market environment, a Spanish minor adds value to an existing CU degree. Cultural and linguistic competence broaden a student's understanding of the nuances and complexities of today's world. Spanish, Portuguese and English are the most spoken languages in the Western Hemisphere.

## Requirements

The minor in Spanish consists of 20 credit hours, including a total of 17 upper-division credit hours. A maximum of 9 credits, with no more than 6 upper-division credits, can be transferred from other US institutions toward the minor. A maximum of 6 credits can be taken abroad; this may be in addition to transfer credits.

All coursework applied to the minor must be completed with a grade of C- or better (no pass/fail work may be applied). The GPA for all coursework taken in the minor department must be equal to 2.00 (C) or higher.

Transfer credit must be approved by the Associate Chair for Undergraduate Studies. A maximum of two courses may be taken abroad; this may be in addition to transfer credits. Study Abroad courses must be approved; contact the Spanish and Portuguese Department Professional Advisor (<http://www.colorado.edu/mycuhub/>) to begin the process.

### Required Courses and Credit Hours

Code	Title	Credit Hours
<b>Required Courses</b>		
SPAN 2120 or SPAN 2150	Second-Year Spanish 2 <sup>1</sup> Intensive Second-Year Spanish	3
SPAN 3000	Advanced Spanish Language Skills <sup>2</sup>	5
<b>Electives</b>		
Twelve upper-division credits from any course offered by the department and taught in Spanish <sup>3</sup>		12
<b>Total Credit Hours</b>		<b>20</b>

<sup>1</sup> If students take SPAN 2150 instead of SPAN 2120, only 3 out of the 5 credits from SPAN 2150 will be counted toward the minor.

<sup>2</sup> Students who test into SPAN 3000 (i.e., who do not need to take SPAN 2120) must take 15 upper-division elective credits instead of 12.

<sup>3</sup> Courses below SPAN 2120 do not count toward the minor, nor does SPAN 3001. SPAN 3100 is not required for the minor, but it is a prerequisite for all 4000-level literature courses.

## Speech, Language and Hearing Sciences

The undergraduate program in speech, language and hearing sciences (SLHS) introduces concepts basic to human communication and provides opportunities for students to acquire an understanding of normal and disordered speech, language and hearing processes. The curriculum for the undergraduate degree in SLHS provides a strong academic foundation for students interested in a wide variety of careers related to the fields of disabilities, healthcare and education. Additionally, it provides the appropriate undergraduate background for students interested in continuing onto graduate school in speech pathology, audiology and/or special education.

The undergraduate degree in speech, language and hearing sciences emphasizes knowledge of:

- The anatomy of the speech and hearing mechanisms, as well as the processes of speech production, transmission and reception.

- The development of language.
- Scientific methods used in investigating speech/language/learning and hearing processes.
- The etiologies, characteristics and treatments of speech, language, learning and hearing disorders.
- The role of the professional speech-language pathologist and audiologist, including the scientific traditions of the discipline and the ethical issues in providing service to individuals with communication disorders.

In addition, students completing the degree in speech, language and hearing sciences are expected to acquire the ability and skills to:

- Express themselves effectively both orally and in written scientific and clinical discipline-specific reports.
- Critically evaluate literature in the discipline.
- Analyze the acoustic output of the speech production process auditorily and/or instrumentally.

Course code for this program is SLHS.

## Bachelor's Degree

- Speech, Language and Hearing Sciences - Bachelor of Arts (BA) (p. 592)
- Speech, Language and Hearing Sciences - Minor (p. 593)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

## Courses

### **SLHS 1010 (3) Disabilities in Contemporary American Society**

Addresses the issue that 50 percent of all individuals experience disability in their lifetime. Introduces students to the social, cultural, psychological, economic, political, legal, and health-care issues related to society and individuals with disabilities.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-U.S. Perspective  
Departmental Category: Didactic: All-Department

### **SLHS 2000 (3) Introduction to Communication Disorders**

Surveys communication disorders, including hearing impairments, learning disabilities, and speech-language disorders, as well as an introduction to basic speech and hearing science.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Didactic: All-Department

### **SLHS 2010 (3) Science of Human Communication**

Discusses how human communication (the process by which a thought is transmitted from the brain of a speaker to the brain of a listener) involves a complex interaction of acoustics, anatomy, physiology, neurobiology, and psychology.

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences  
Departmental Category: Didactic: All-Department

### **SLHS 2305 (4) American Sign Language 1**

Introduces basic sign vocabulary, grammatical structures of ASL, and the culture of deaf people. Classes are taught using ASL without the use of spoken English.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: American Sign Language

### **SLHS 2315 (4) American Sign Language 2**

Develops more complex vocabulary and grammatical structures, and an understanding of deaf culture. Classes are taught using ASL without the use of spoken English.

**Requisites:** Requires a prerequisite course of SLHS 2305 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: American Sign Language

### **SLHS 2325 (4) American Sign Language 3**

Continuation of SLHS 2315. Covers ASL literature, advanced grammatical structures, idiomatic expressions, and deaf culture.

**Requisites:** Requires a prerequisite course of SLHS 2315 (minimum grade C-).

**Additional Information:** Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Foreign Language

Departmental Category: American Sign Language

### **SLHS 3003 (3) Cognitive Science**

Introduces cognitive science, drawing from psychology, philosophy, artificial intelligence, neuroscience, and linguistics. Studies the linguistic relativity hypothesis, consciousness, categorization, linguistic rules, the mind-body problem, nature versus nurture, conceptual structure and metaphor, logic/problem solving and judgment. Emphasizes the nature, implications and limitations of the computational model of mind.

**Equivalent - Duplicate Degree Credit Not Granted:** LING 3005 and PHIL 3310 and PSYC 3005 and CSCI 3702 and CSPB 3702

**Recommended:** Prerequisites two of the following CSCI 1300 or LING 2000 or PHIL 2440 or PSYC 2145.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Distribution-Natural Sciences

Arts Sci Gen Ed: Distribution-Social Sciences

### **SLHS 3006 (3) Phonetics**

Focuses on production of speech sounds, transcribing speech using the International Phonetic Alphabet, analyzing the acoustic properties of speech sounds, understanding how speech sounds vary depending on the context. Provides a foundation for understanding normal and atypical speech development, atypical speech problems and patterns, regional and foreign accents, and speech recognition by computers.

**Requisites:** Requires a prerequisite course of LING 2000 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Didactic: Speech-Hearing Science

### **SLHS 3014 (3) Hearing Loss Epidemiology**

Introduces students to basic epidemiological concepts related to hearing loss. Provides an overview of the hearing mechanism, assessment and identification of hearing loss, prevalence of hearing disorders, treatment and intervention. Noise pollution, aging and toxic agents are discussed. Focuses on risk factors for hearing impairment and comorbidities.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Didactic: Audiology

**SLHS 3106 (3) Hearing Science**

Focuses on the three main aspects of the hearing process: sounds in the environment (physical acoustics), sounds encoded within the auditory system (physiological acoustics) and perception of sound (psychological acoustics).

**Requisites:** Requires a prerequisite course of SLHS 2010 (minimum grade C-). Restricted to Speech, Language and Hearing Sciences (SLHS) undergraduate majors minors with a minimum of 27 credits (Sophomore), or SLHS master's students, or Audiology (AUDD) majors only

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Departmental Category: Didactic: Speech-Hearing Science

**SLHS 3116 (3) Anatomy, Physiology, and Science of Speech**

Provides a basic understanding of the structural organization (anatomy), function (physiology), and neural controls of the structures used to produce speech, swallowing, respiration, and related behaviors in humans.

**Requisites:** Requires a prerequisite course of SLHS 2010 (minimum grade C-).

**Recommended:** Prerequisite SLHS 3106.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Departmental Category: Didactic: Speech-Hearing Science

**SLHS 4000 (3) Multicultural Aspects of Communication Differences and Disorders**

Examines perceptions and attitudes regarding differences in communication as a function of cultural-linguistic diversity. Discusses implications of differing verbal and nonverbal communication styles of various cultural groups in terms of professional responsibilities.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Departmental Category: Didactic: All-Department

**SLHS 4100 (1-3) Special Topics in Speech, Language, and Hearing Sciences**

Studies selected topics in speech, language, hearing sciences, communication disorders, and other professional issues.

**Additional Information:** Departmental Category: Didactic: All-Department

**SLHS 4502 (3) Language Disorders Across the Lifespan**

Provides students with an introductory understanding of the causes, characteristics, assessment and treatment of developmental and acquired language disorders in children and adults. Examines a variety of disorders including specific language impairment, learning disabilities, and language and cognitive disorders due to brain damage. Considers the challenge of identifying language disorders in children and adults from culturally and linguistically diverse backgrounds.

**Requisites:** Requires a prerequisite or corequisite course of SLHS 4560 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Didactic: Speech-Language Pathology

**SLHS 4512 (3) Speech Disorders Across the Lifespan**

Provides students with an introductory understanding of the causes, characteristics, assessment and treatment of speech disorders including those involving articulation, voice, resonance, and fluency. Examines a variety of disorders including stuttering, speech sound disorders, cleft lip and palate, vocal pathology, as well as dysarthria and apraxia due to stroke, trauma, and progressive neurological diseases.

**Requisites:** Requires a prerequisite course of SLHS 2010 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Didactic: Speech-Language Pathology

**SLHS 4560 (3) Language Development**

Covers the development of language in childhood and into adult life, emphasizing the role of environment and biological endowment in learning to communicate with words, sentences, and narratives.

**Equivalent - Duplicate Degree Credit Not Granted:** LING 4560 and PSYC 4560

**Requisites:** Restricted to Speech, Language and Hearing Sciences (SLHS) undergraduate majors and minors, or SLHS master's students, or Audiology (AUDD) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Didactic: All-Department

**SLHS 4576 (3) Communication Neuroscience**

Provides an introduction to neuroscience with an emphasis on the systems that support human communication including speech perception and production, language, memory and cognition. Topic areas will include auditory processing, language, memory and motor systems. Development of brain systems and structures will be explored, as well as neurologically based disorders. Neuroscientific methods surveyed will include MRI, fMRI, EEG, MEG, NIRS, lesion studies and electrophysiology.

**Requisites:** Requires a prerequisite course of SLHS 2010 or NRSC 2100 (both minimum grade C-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**SLHS 4704 (3) Audiological Evaluation**

Studies basic principles and techniques of hearing evaluation, including pure-tone, speech, immittance, and advanced audiometry; hearing conservation in hospital, school, and industrial settings; and identification and evaluation of auditory pathologies. Required projects in screening and pure-tone audiometry.

**Requisites:** Requires a prerequisite course of SLHS 3106 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Departmental Category: Didactic: Audiology

**SLHS 4714 (3) Audiological Rehabilitation**

Covers basic principles and techniques related to the habilitation and rehabilitation of individuals who are deaf or hard of hearing: amplification, speech, language, auditory, speech reading, and educational issues.

**Requisites:** Requires prerequisite courses of LING 3100 or SLHS 3006. Requires a prerequisite or corequisite course of SLHS 4704 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Didactic: Audiology

**SLHS 4849 (1-6) Independent Study for Undergraduates**

Instructor consent required.

**Repeatable:** Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: Independent Study

**SLHS 4918 (2) Introduction to Clinical Practice**

Introduces students to the clinical processes and key components of assessment and interventions. Explores the applications of theoretical and scientific information to clinical settings. Students complete supervised observation of assessment and intervention with individuals with communication challenges.

**Requisites:** Requires a prerequisite course of SLHS 2000 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Speech, Language and Hearing Sciences (SLHS) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Practica

**SLHS 4938 (1-6) Internship: Speech-Language Intervention**

Provides a supervised clinical experience with children or adults who have communication challenges. Instructor consent required.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: Practica

## Speech, Language and Hearing Sciences - Bachelor of Arts (BA)

The undergraduate major in speech, language and hearing sciences (SLHS) at CU Boulder includes coursework in three general areas:

- Characteristics, causes and treatment of disorders that impact speech, language and/or hearing (e.g., stuttering, head injury, deafness, autism, learning disabilities, etc.).
- The science behind human communication (e.g., the anatomy and physiology of the speech and hearing mechanisms, acoustics of sound, etc.).
- Linguistics, specifically the normal development of language in children, phonetic transcription and the various component parts of language.

The program leads to a Bachelor of Arts (BA) degree. In addition to learning in the classroom about normal and disordered communication, students will observe graduate students and professionals engaged in clinical work with individuals exhibiting speech, language, learning and hearing problems. Internships are optional but are encouraged throughout a student's program.

## Requirements

### Program Requirements

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below. The major includes 35 credit hours of required coursework plus a 3-credit course in general psychology.

All required major courses and the required general psychology course must be passed with a C- or better and cannot be taken pass/fail. No more than 45 credits in SLHS may be applied to overall graduation requirements. Students must have a grade point average of at least 2.000 in the major in order to graduate.

### Required Courses and Credits

Code	Title	Credit Hours
<b>Required Courses</b>		
LING 2000	Introduction to Linguistics	3
LING 3100	Language Sound Structures	3
SLHS 2000	Introduction to Communication Disorders	3
SLHS 2010	Science of Human Communication	3
SLHS 3106	Hearing Science	3
SLHS 3116	Anatomy, Physiology, and Science of Speech	3
SLHS 4502	Language Disorders Across the Lifespan	3
SLHS 4512	Speech Disorders Across the Lifespan	3
SLHS 4560	Language Development	3
SLHS 4704	Audiological Evaluation	3
SLHS 4714	Audiological Rehabilitation	3

SLHS 4918	Introduction to Clinical Practice	2
<b>Total Credit Hours</b>		<b>35</b>

### Required Ancillary Course

Code	Title	Credit Hours
PSYC 1001	General Psychology	3

### Recommended Electives

Code	Title	Credit Hours
------	-------	--------------

The following courses are recommended, but not required:

SLHS 1010	Disabilities in Contemporary American Society
SLHS 2305	American Sign Language 1
SLHS 3014	Hearing Loss Epidemiology
SLHS 4576	Communication Neuroscience
Speech-Language Assistant Certificate Program	

If planning to attend graduate school for SLHS, students should take one course from each of the following categories (graduate school prerequisite courses):

<i>Statistics</i>		
EDUC 4716/5716	Basic Statistical Methods	
SOCY 2061	Introduction to Social Statistics	
MATH 2510	Introduction to Statistics	
<i>Biological Science</i>		
EBIO 1100	Biology and Society	
EBIO 1210	General Biology 1	
EBIO 1220	General Biology 2	
PSYC 2012	Biological Psychology	
<i>Physics or Chemistry</i>		
CHEM 1011	Environmental Chemistry 1	
CHEM 1021	Introductory Chemistry	
PHYS 1010	Physics of Everyday Life 1	
PHYS 1020		
PHYS 1230	Light and Color for Nonscientists	
PHYS 1240	Sound and Music	
PHYS 1580	Energy and Interactions	

### Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in the Department of Speech, Language and Hearing Sciences students should meet the following requirements:

- Declare the major by the beginning of the sophomore year
- Complete prerequisite courses—LING 2000, SLHS 2010 and PSYC 1001—by the end of spring semester of sophomore year.

### Recommended Four-Year Plan of Study

Through the required coursework for the major, students will complete all 12 credits of the Social Sciences area and all 12 credits of the Natural Sciences area of the Gen Ed Distribution Requirement.

**Year One****Fall Semester**

		<b>Credit Hours</b>
SLHS 2000	Introduction to Communication Disorders	3
LING 2000	Introduction to Linguistics	3
Gen. Ed. Diversity course (example: Diversity: US Perspective)		3
Gen. Ed. Skills course (example: Lower-division Written Communication)		3
Elective/MAPS course		3
<b>Credit Hours</b>		<b>15</b>

**Spring Semester**

PSYC 1001	General Psychology	3
SLHS 2010	Science of Human Communication	3
Gen. Ed. Skills course (example: QRMS - if going onto SLHS grad school, take statistics)		3
Gen. Ed. Diversity course (example: Diversity: Global Perspective)		3
Elective/MAPS course		3
<b>Credit Hours</b>		<b>15</b>

**Year Two****Fall Semester**

LING 3100	Language Sound Structures	3
SLHS 4560	Language Development	3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Elective		3
Biological Science course with lab		4
<b>Credit Hours</b>		<b>16</b>

**Spring Semester**

SLHS 3106	Hearing Science	3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Elective		3
Elective		3
<b>Credit Hours</b>		<b>15</b>

**Year Three****Fall Semester**

SLHS 3116	Anatomy, Physiology, and Science of Speech	3
SLHS 4502	Language Disorders Across the Lifespan	3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Elective		3
Elective		3
<b>Credit Hours</b>		<b>15</b>

**Spring Semester**

SLHS 4704	Audiological Evaluation	3
SLHS 4918	Introduction to Clinical Practice	2
Gen. Ed. Skills course (example: Upper-division Written Communication)		3
Elective: upper-division		3
Elective		3
<b>Credit Hours</b>		<b>14</b>

**Year Four****Fall Semester**

SLHS 4512	Speech Disorders Across the Lifespan	3
Elective: upper-division		3
Elective: upper-division		3
Elective: upper-division		3
Elective		3
<b>Credit Hours</b>		<b>15</b>

**Spring Semester**

SLHS 4714	Audiological Rehabilitation	3
Elective: upper-division		3
Elective: upper-division		3
Elective		3
Elective		3
<b>Credit Hours</b>		<b>15</b>
<b>Total Credit Hours</b>		<b>120</b>

## Learning Outcomes

Upon completion of the degree program, students can expect to gain the following specific knowledge and skills:

- An understanding of foundational knowledge of human communication sciences and its disorders.
- An understanding of how diversity impacts human communication disorders.
- The ability to critically analyze and communicate research in speech, language and hearing sciences.
- An ability to apply scientific evidence in the field of speech-language-hearing sciences to the analysis of real-world problems.
- A knowledge of the professional pathways available to graduates in the field of communication sciences and disorders.

## Speech, Language and Hearing Sciences - Minor

The undergraduate minor in speech, language and hearing sciences (SLHS) introduces concepts basic to human communication and provides opportunities for students to acquire an understanding of normal and disordered speech, language and hearing processes. The minor in SLHS provides a basic academic foundation for students interested in a wide variety of careers related to the fields of disabilities, healthcare, education, integrated physiology, linguistics, psychology and communication.

## Requirements

Students must complete a minimum of 18 credit hours in SLHS courses, including at least 9 hours of upper-division coursework, and the required courses listed below. Students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward a minor. All minor courses must be completed with a grade of C- or better, no pass/fail work may be applied. The GPA for all minor coursework must equal 2.00 or higher.

Code	Title	Credit Hours	
<b>Required Courses</b>			
SLHS 2000	Introduction to Communication Disorders	3	Bergner, Bruce Alan ( <a href="https://experts.colorado.edu/display/fisid_113315/">https://experts.colorado.edu/display/fisid_113315/</a> ) Associate Professor; MFA, University of Illinois at Chicago
SLHS 2010	Science of Human Communication	3	Cobin, Martin T. Professor Emeritus
Additional lower- or upper-division SLHS coursework		3	Coleman, Bertram E. ( <a href="https://experts.colorado.edu/display/fisid_103065/">https://experts.colorado.edu/display/fisid_103065/</a> ) Endowed/Named Professor, Dean, Endowed Chair; PhD, University of Texas at Austin
Additional upper-division SLHS coursework		9	Devin, Richard Professor Emeritus
<b>Total Credit Hours</b>		<b>18</b>	Diachenko, Nada Professor Emerita; MA, New York University

## Theatre & Dance

The Department of Theatre and Dance offers undergraduate and graduate degrees in both theatre and dance, a graduate and undergraduate certificate in hip-hop studies (p. 618) and a graduate certificate in applied Shakespeare (<http://www.colorado.edu/connect/certificate-programs/applied-shakespeare/>). These programs combine traditional studies with practical training. Ambitious seasons of theatre productions and dance concerts feature student performers, designers, directors, choreographers and guest artists of national and international fame whom often participate in curricular and extracurricular activities.

Previous guests have included Uri Shafir, Claudia La Vista, Sidra Bell, Faye Driscoll, Lux Boreal, Jonathan Becker, Diane J. Rayor, Ralph Lemon, Ana Prada, Asia One, Teena Marie Custer, Nina Flagg, Nina Martin, Millicent Johnnie, Ananya Chatterjea, Maria Bauman, Jane Hawley, Tim O'Donnel, Ms. Prissy, April Rose, Chris Aiken and Angie Hauser, Art Bridgman/ Myrna Packer, Rennie Harris, Heidi Henderson, Kathleen Hermesdorf, Deborah Jowitt, Darrell Jones, Susan Marshall & Co., Bebe Miller, David Dorfman, Joe Goode, Kevin Wynn, John Scott and Shelley Senter; Lisa Wolpe, Jennifer Hubbard, Geoffrey Kent, Eric Van Baars, Silvia Gregory, Gary John LaRosa and Ami Dayan.

Students interested in theatre and dance are urged to consult with an advisor in the appropriate field to obtain both advice and the most current information concerning program opportunities and expectations.

Course codes for this department are THTR, DNCE, and THDN.

## Bachelor's Degrees

- Dance - Bachelor of Arts (BA) (p. 607)
- Dance - Bachelor of Fine Arts (BFA) (p. 609)
- Theatre - Bachelor of Arts (BA) (p. 611)
- Theatre - Bachelor of Fine Arts (BFA) (p. 614)

## Minors

- Dance - Minor (p. 617)
- Theatre - Minor (p. 617)

## Certificate

- Hip-Hop Studies - Certificate (p. 618)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Williams, Letitia S.  
Senior Instructor Emerita

Yang, Daniel  
Professor Emeritus

## Courses

### Dance

#### **DNCE 1000 (2) Beginning Contemporary Dance Technique**

Introduces students to the dynamic capabilities of the body as an articulate means of expression. Presents basic concepts and skills from contemporary dance forms that may include Afro-modern, floor work, inversion, classical modern and improvisation. Classwork develops efficient alignment, strength, flexibility, coordination, rhythm, dynamics and spatial awareness. No experience necessary.

**Repeatable:** Repeatable for up to 4.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Nonmajor Technique

#### **DNCE 1012 (2) Dance Production**

Provides the dancer with an introduction to the types of performance venues available today, and their technical systems and equipment. It will also establish an awareness of how technical theatre design arts may be utilized by a choreographer.

**Requisites:** Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Production

#### **DNCE 1013 (2) Dance Improvisation**

An opportunity for students to develop skills of dance improvisation through the exploration of structured movement problems. Students study selected contemporary dance artists whose work stresses improvisation in performance and/or as a training vehicle. Department consent required for dance minors.

**Requisites:** Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Creative Process

#### **DNCE 1017 (3) Dance in Popular Culture and Media**

Explores and contextualizes contemporary popular culture and dance. Introduces methods of critical analysis that reveal the rich heritage hidden within and around the dances students commonly encounter at the club, on the street, on television, on the big screen and elsewhere in everyday life. Through watching, reading, and discussion, students discover new meaning in their lived cultural experience.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Dance and Cultural Studies

#### **DNCE 1020 (1) Beginning Contemporary Dance with Experience**

Invites students to deepen their somatic awareness, efficient athleticism, and creative voice through the medium of contemporary dance.

Continues the investigation of contemporary dance forms that may include Afro-modern, floor work, inversions, classical modern, and improvisation. Classwork will deepen students' alignment, strength, flexibility, coordination, rhythm, dynamics and spatial awareness.

**Repeatable:** Repeatable for up to 2.00 total credit hours.

**Recommended:** Prerequisite DNCE 1000 or previous dance experience.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Nonmajor Technique

#### **DNCE 1027 (3) Dance in Cultural Perception and Expression**

Explores how the practice of dance can reflect, disrupt, subvert, support, and reinforce cultural expectations, norms and practices. Introduces international and domestic dance traditions and provides context for an interdisciplinary examination. Comparative readings from sociology, anthropology, gender studies, history, post-colonial studies, and political science provide a foundation to understand how cultural identities are negotiated and represented through movement.

**Additional Information:** GT Pathways: GT-AH1 - Arts Hum: Arts Expression  
Arts Sci Core Curr: Literature and the Arts

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Departmental Category: Dance and Cultural Studies

Departmental Category: Asia Content

#### **DNCE 1091 (1) Modern 1**

Introduces basic skills of modern dance. In-class technique work increases muscle strength, flexibility, and coordination.

**Repeatable:** Repeatable for up to 2.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Major Technique

**DNCE 1100 (1) Beginning Ballet**

Introduces beginning students to fundamental aspects of classical ballet technique; no previous experience required. Basic principles of alignment, rotation, and movement quality are introduced as the building blocks for success in advanced material. Foundational movements and ballet vocabulary are learned and refined. Students work toward mastery of simple combinations and rhythmic patterns.

**Repeatable:** Repeatable for up to 2.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Nonmajor Technique

**DNCE 1120 (1) Beginning Ballet with Experience**

Relies on a demonstrated comprehension of kinesthetic and conceptual principles mastered at the beginning level. New movements from the classical ballet vocabulary are introduced with continued emphasis on alignment, rotation, and movement quality. Ballet sequences are longer and more complex.

**Repeatable:** Repeatable for up to 2.00 total credit hours.

**Recommended:** Prerequisite DNCE 1100 or previous ballet experience.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Nonmajor Technique

**DNCE 1190 (1) Ballet 1**

Beginning ballet covering the basic vocabulary of classical ballet technique.

**Repeatable:** Repeatable for up to 2.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Nonmajor Technique

**DNCE 1200 (1) Beginning Jazz Dance**

Introduces various styles of movement unique to jazz dance including improvisation, isolations, and African-influenced polyrhythms. Working within a range of dynamic performance styles, students will learn fundamental dance skills and jazz vocabulary, from which more advanced skills can be developed. Designed for students with little or no dance experience.

**Repeatable:** Repeatable for up to 2.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Nonmajor Technique

**DNCE 1220 (1) Beginning Jazz with Experience**

Digs deeper into syncopated movement style of the jazz vernacular by continuing the embodied investigation of the Africanist influence on the form. Demands a rigorous awareness of efficient alignment while engaging with complex movement and challenging rhythmic structures.

**Repeatable:** Repeatable for up to 2.00 total credit hours.

**Recommended:** Prerequisite DNCE 1200 or previous dance experience.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Nonmajor Technique

**DNCE 1290 (1) Jazz 1**

Introduces jazz dance, consisting of a technique warm-up, locomotion across the floor, and a series of dance phrases developed into a short dance combination.

**Repeatable:** Repeatable for up to 2.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Nonmajor Technique

**DNCE 1301 (2) Hip-Hop Dance Technique 1**

Introduces students to Hip-Hop dance as a culturally significant form. Students learn history, the social and political forces at work, and the fundamental techniques (Campbell Locking, Popping, Breaking etiquette/movements, Hip-Hop Party Dance and House). Intellectual challenge is offered through the lens of critical race theory and historical context. Training addresses flexibility, sequencing, coordination, and performance skills.

**Repeatable:** Repeatable for up to 4.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Technique

**DNCE 1401 (1) Transnational Fusion Dance: USA and Middle East/North Africa**

Introduces a fusion form popularized in 2000: secular dance traditions of the Middle East/North African (MENA) communities in dialog with popular dances of the hip-hop and underground electronic dance music communities. Stretching, hip work, spinal undulations and poly-rhythmic orientations are covered. Educational highlights include discourse regarding cultural appropriation and gender coding in human movement.

**Repeatable:** Repeatable for up to 2.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**DNCE 1411 (2) Aerial Dance Technique**

Study of basic technique skills in aerial dance on single point, low-flying trapeze. Additional skills include choreographic techniques, improvisation, and a historical overview of aerial dance. Through theoretical readings and discussions, this course defines the place of aerial dance in the lineage of modern dance and addresses aesthetics, philosophical approaches to teaching, and safety issues.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**DNCE 1501 (1) Tap Technique**

Introduces students to the basic steps and timing of tap technique to develop rhythm, style and clear tap sounds. Exercises focus on building flexibility of the knee and ankles, coordination and speed of movement. A variety of tap styles from Broadway to Rhythm tap will be taught.

**Repeatable:** Repeatable for up to 2.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Technique

**DNCE 1849 (1-3) Independent Study**

Involves creative or scholarly investigation of an area of interest to the student not addressed in the curriculum. Work must be arranged with and advised by a faculty member. Freshman level course.

**Repeatable:** Repeatable for up to 7.00 total credit hours.

**Additional Information:** Departmental Category: Independent Study

**DNCE 1901 (1-3) Technique Practicum**

Broadens students' exposure to a range of diverse movement material. Topical course in dance technique, see subtopic for specific form.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: Technique

**DNCE 1908 (1) First Year Dance Seminar**

Designed for new dance majors as an introduction to the place of dance within academia and the professional/public spheres. Through the practice of descriptive dance writing, theoretical and physical exploration of discrete pedagogical and choreographic procedures, and interactions with in-class guest artists of different disciplines, students will engage in independent research and physical experimentation, culminating in a final personal presentation and group performance.

**Repeatable:** Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Performance

**DNCE 2021 (2) Major Technique**

Designed for Dance majors. Enrollment by audition only.

**Repeatable:** Repeatable for up to 16.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Major Technique

**DNCE 2091 (1) Modern 2**

Continuation of Modern 1. a developmental sequence of modern dance technique designed to refine the technical/expressive skills required of the professional dancer.

**Repeatable:** Repeatable for up to 2.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Major Technique

**DNCE 2098 (1) Performance/Repertory**

Students learn and perform dances from the repertory of guest artists. Offered summers only.

**Repeatable:** Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Performance

**DNCE 2141 (1) Low Intermediate Ballet**

Builds on an existing understanding of alignment, rotation, and movement quality to introduce more mentally and physically difficult movements and enchainements of the classical ballet vocabulary. Students must be able to demonstrate an embodied familiarity with all traditional barre exercises on the first day of class.

**Repeatable:** Repeatable for up to 2.00 total credit hours.

**Recommended:** Prerequisite DNCE 1120 or previous ballet experience.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Technique

**DNCE 2191 (1) Ballet 2**

Intermediate ballet, covering the complete vocabulary of classical ballet technique. Enchainements are of complex structure.

**Repeatable:** Repeatable for up to 2.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Major Technique

**DNCE 2290 (1) Jazz 2**

Continuation of Jazz 1. Studies coordination, rhythm, style, and advanced body part isolation in depth.

**Repeatable:** Repeatable for up to 2.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Nonmajor Technique

**DNCE 2501 (2) African Dance**

Explores the technique, styles, and rhythms of regional and national cultures of Africa. Areas of concentration may vary each semester (e.g. Ghana, Mali, Guinea, etc.). Introduces signature attributes common to different countries' dance traditions and features discussions of the musical traditions, histories, cosmologies, philosophies and aesthetics to contextualize and increase familiarity.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Technique

**DNCE 2701 (2) Contact Improvisation 1**

Investigates movement vocabulary and kinesthetic understanding through physical contact and weight-sharing between two or more dancers. Fundamental skills of contact will be introduced and employed in duets and larger group improvisations: rolling, falling, giving and receiving weight, and the use of momentum and gravity.

**Repeatable:** Repeatable for up to 4.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Major Technique

**DNCE 2849 (1-3) Independent Study**

Involves creative or scholarly investigation of an area of interest to the student not addressed in the curriculum. Work must be arranged with and advised by a faculty member. Sophomore level course.

**Repeatable:** Repeatable for up to 7.00 total credit hours.

**Additional Information:** Departmental Category: Independent Study

**DNCE 2901 (1-3) Technique Practicum 2**

Topical course (second level) in dance technique, see subtopic for specific form. May require an audition.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: Major Technique

**DNCE 2909 (1-4) Special Topics**

Explores topics and research in relation to areas such as technology, environment, teaching methods, performance, world dance, arts in society, and/or criticism that the normal sequence of offerings may not allow.

**Equivalent - Duplicate Degree Credit Not Granted:** DNCE 4909 and DNCE 5909

**Repeatable:** Repeatable for up to 7.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Independent Study

**DNCE 3001 (2) Intermediate/Advanced Contemporary Dance Technique**

Challenges intermediate and advanced students to refine their understanding and personal approach to the study of international contemporary dance. Demands a deep sense of somatic awareness, efficient athleticism, and creative voice. Floor work, inversions, and improvisation may be included. No audition required.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Recommended:** Prerequisite DNCE 1000 or DNCE 1020 or any major technique course ending in "1" or previous dance experience.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Technique

**DNCE 3005 (3) Movement Awareness and Injury Prevention for the Dancer**

Advances safe and effective dance practices supporting longevity and wellness. Areas explored include experiential anatomy, conditioning, alignment, nutrition, injury prevention, care of common dance injuries, and experience with various somatic practices. Instructor approval required to enroll if outside dance major or minor. Formerly DNCE 2005.

**Requisites:** Restricted to Dance (DNCE or DBFA) majors or minors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Somatic Awareness

**DNCE 3014 (2) Inside the Groove: Developing Rhythmic Skills**

Enhances rhythmic acuity through intensive rhythmic drills, analytical listening, drumming, notating and creating rhythm-based performance work. Course material explores non-Western rhythmic paradigms, irregular meters, mixed meters, polyrhythms, etc., and how to communicate clearly with a live accompanist in technique class.

**Requisites:** Restricted to Dance (DNCE or DBFA) majors or minors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Music

**DNCE 3024 (2) SOUND Choices: Enhancing the Music/Dance Relationship**

Examines how musical choices can profoundly affect audiences, dancers and the creative process. Surveys historic and contemporary music styles and influential artists through guided listening and experimentation. Deepens understanding of music, including vocabulary, technology, collaboration skills, ethics, and copyright issues.

**Requisites:** Restricted to Dance (DNCE or DBFA) majors or minors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Music

**DNCE 3033 (3) Choreographic Resources**

Explores movement invention and strategies of choreographic manipulation of body, space and time. Students add to their toolbox of compositional resources through solo and duet studies. Class interrogates and supports the students' developing language for addressing, critiquing and comprehending compositional choices and structures through verbal and written feedback practice. Can be taken out of sequence with DNCE 3043. Formerly DNCE 2033.

**Requisites:** Requires a prerequisite course of DNCE 1013 and DNCE 2021 or DNCE 3041 or DNCE 4061 (minimum grade C-). Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Creative Process

**DNCE 3035 (1) Production Practicum**

Practical production activities and projects within a designated area of dance design, stage technology, or stage management, normally related to the department's season. Instructor consent required.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: Production

**DNCE 3041 (2) Major Technique**

Designed for dance majors. Enrollment by audition only.

**Repeatable:** Repeatable for up to 16.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Major Technique

**DNCE 3043 (3) Choreographic Process**

Examines physical and spatial relationships via group and site specific work. New methods of creative problem solving unearth and mine one's imagination and inspiration, cultivating the individual's unique process of dance-making. Class interrogates and supports students' developing language for addressing, critiquing and comprehending compositional choices and structures through verbal and written feedback practice. Can be taken out of sequence with DNCE 3033.

**Requisites:** Requires prerequisite courses of DNCE 1013 and DNCE 2021 or DNCE 3041 or DNCE 4061 (all minimum grade C-). Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Creative Process

**DNCE 3101 (1-3) Ballet Practicum**

Practical studio training in ballet at the advanced/professional level with a professional company. Designed for dance majors. Enrollment by audition only.

**Repeatable:** Repeatable for up to 4.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires a prerequisite course of DNCE 2141 or DNCE 3161 or DNCE 4181 (minimum grade C-).

**Additional Information:** Departmental Category: Major Technique

**DNCE 3161 (1) Intermediate Ballet**

Surveys a wide range of the intermediate-level classical ballet vocabulary, focusing on an anatomically sound approach to the material. Students must work efficiently to execute the technique with rhythmic accuracy, clarity of line, propriety of style, and fluency in translating names of steps. Enrollment by audition only.

**Repeatable:** Repeatable for up to 8.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Technique

**DNCE 3241 (1) Intermediate Jazz**

Expands student's performance of the syncopated movement style of the jazz vernacular. Designed for the experienced jazz dancer. Includes dance techniques that further improves alignment, strength, flexibility, and coordination within the jazz idiom through an emphasis on style, rhythm, and more challenging dance combinations.

**Repeatable:** Repeatable for up to 2.00 total credit hours.

**Recommended:** Prerequisite DNCE 1220 or previous dance experience.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Technique

**DNCE 3301 (2) Hip-Hop Dance Technique 2**

Builds on fundamentals established in Hip-Hop Dance Technique 1. Students deepen their understanding of Hip-Hop history through fundamental movement techniques, specifically, House, and study the social/political forces at work. The course focuses on increasing dancers' capacity for variation, sequencing, musicality and free-styling in Hip-Hop dance. Enrollment by audition only. Meets with DNCE 5331.

**Repeatable:** Repeatable for up to 4.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Technique

**DNCE 3601 (2) Alexander Technique for Actors and Dancers**

Studies how human reaction, coordination, and movement play a role in all activities. Through in-depth class discussions, movement, exploration, and individualized hands-on lessons, actors and dancers gain an understanding of the technique and its benefits to performance. Meets with DNCE 5601.

**Requisites:** Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) or Theatre (THTR or TBFA, excludes THTR-MIN) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Technique

**DNCE 3849 (1-3) Independent Study**

Involves creative or scholarly investigation of an area of interest to the student not addressed in the curriculum. Work must be arranged with and advised by a faculty member. Junior level course.

**Repeatable:** Repeatable for up to 7.00 total credit hours.

**Additional Information:** Departmental Category: Independent Study

**DNCE 3901 (1-3) Technique Practicum**

Topical course (intermediate level) in dance technique. See subtopic for specific form. May require an audition.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: Technique

**DNCE 3909 (1-4) Special Topics**

Explores topics and research in relation to areas such as technology, environment, teaching methods, performance, world dance, arts in society, and/or criticism that the normal sequence of offerings may not allow.

**Repeatable:** Repeatable for up to 7.00 total credit hours.

**DNCE 4012 (1) Concert Production**

Provides practical experience in producing formal and informal dance concerts. Introduces basic familiarity with production and promotional responsibilities, backstage and front-of-house duties and procedures. Meets with DNCE 5012.

**Requisites:** Requires a prerequisite course of DNCE 1012 (minimum grade C-). Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Major Technique

**DNCE 4015 (3) Movement Analysis**

Introduces Rudolf Laban's theories of movement and exposes several body therapies to heighten students' awareness of movement as a multifaceted (neuromuscular/spatial/dynamic) event. Emphasizes refinement of movement, observation skills, and improvement of performance. Meets with DNCE 5015.

**Requisites:** Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Movement Awareness Injury Prevent for the Dancer

**DNCE 4016 (3) Creative Dance for Children**

Methods course for prospective teachers of creative dance for children. Lectures, readings and laboratory experiences are followed by observation and teaching in primary grades.

**Equivalent - Duplicate Degree Credit Not Granted:** DNCE 5016

**Requisites:** Requires a prerequisite course of DNCE 2033 (minimum grade C-). Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Pedagogy

**DNCE 4017 (3) Dancing Histories: Sex, Gender and Race in U.S. Concert Dance**

Traces the evolution of American concert dance through roots in select dance forms, including dances of the African Diaspora, Ballet, Social Dance, Jazz, Modern, and Folklorico. Studies specific dance artists against the backdrop of social, political, economic, and environmental issues.

**Equivalent - Duplicate Degree Credit Not Granted:** DNCE 5017

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Dance and Cultural Studies

**DNCE 4023 (2) Performance Improvisation Techniques**

Explores movement and vocal improvisational techniques to enhance creative, interdisciplinary, collaborative and performance skills. Helps individuals expand their definition of performance, discover and access the diversity of the human instrument and employ improvisation to create personal and social commentary.

**Equivalent - Duplicate Degree Credit Not Granted:** DNCE 5023

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Creative Process

**DNCE 4036 (2) Dance Teaching Practices: Inclusive Approaches to Instruction**

Examines legal, practical, pedagogical and philosophical issues in current dance education. Goals and content of professional and recreational dance training are considered and strategies for effective teaching practice are discussed. All genres of dance may be utilized depending on the specialities of participants.

**Requisites:** Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Pedagogy

**DNCE 4037 (3) Contemporary Concert Dance: Shifting Perspectives in Performance**

Focuses on the development of perceptual, descriptive, and analytical skills as well as the ability to apply cultural and critical theory to 20th and 21st century concert dance. Specific pieces of choreography are looked at from a broad range of perspectives.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite or corequisite a Human Diversity core requirement course.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Dance and Cultural Studies

**DNCE 4038 (1-3) Dance Repertory**

Learning and performing dances from the repertory of current faculty members, artists-in-residence and upon occasion from the repertory of historic modern dancers. Dance majors may repeat up to 9 total credit hours with different instructors. Enrollment by audition only.

**Equivalent - Duplicate Degree Credit Not Granted:** DNCE 5038

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Performance

**DNCE 4046 (1) Teaching Practicum**

Designed to give students supervised practical teaching skills through practice teaching, discussion, observation (in-person and video), reflection and feedback. Students will develop age appropriate lesson plans, define and refine principles of classroom management and understand the needs of diverse groups of students in a community, academic (K-12) and/or studio setting. All genres of dance are topic relevant.

**Requisites:** Requires a prerequisite course of DNCE 4036 (minimum grade C-). Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.

**Additional Information:** Departmental Category: Pedagogy

**DNCE 4047 (3) Hip-Hop Dance History**

Addresses the origin and evolution of American Hip-Hop dance rooted in a theoretical structure that springs from the elemental nature of the African Diaspora. Emphasis placed on the social, political, and economic environment in which it was fashioned. Pioneers, innovators, terminology, and styles will be identified. Course includes lectures, readings, audio/video analysis and discussion. Meets with DNCE 5047.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Dance and Cultural Studies

**DNCE 4053 (3) Advanced Dance Composition**

Focuses on deepening the artistic voice and engaging with other art forms. Students explore the integration of technology and collaboration in creative projects and continue to engage in an objective critical process of their own work and the work of others. Meets with DNCE 5053.

**Requisites:** Requires a prerequisite course of DNCE 3043 (minimum grade C-). Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Creative Process

**DNCE 4061 (2) Major Technique**

Designed for dance majors. Enrollment by audition only.

**Repeatable:** Repeatable for up to 16.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Major Technique

**DNCE 4128 (1) Ballet Repertory**

Develops understanding of the ballet canon through practice of major solos from Romantic, Classical, and New-Classical ballets. For the advanced classical ballet student. Enrollment by audition only. Meets with DNCE 5128.

**Repeatable:** Repeatable for up to 2.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Performance

**DNCE 4181 (1) Advanced Ballet**

Investigates the full range of the advanced-level classical ballet vocabulary, focusing on an anatomically sound approach to the material. Exercises require strength and a deeply subtle understanding of principles of alignment, rotation, epaulement, and movement quality. Class moves quickly through enchainements of complex structure. Enrollment by audition only.

**Repeatable:** Repeatable for up to 8.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Technique

**DNCE 4261 (1) Advanced Jazz Dance Technique**

Refines advanced students' approach to the nuances and virtuosity of jazz idiom. Emphasis is placed on efficient use of alignment, complex polyrhythmic explorations and improvisations, and dynamic performance style. Class moves quickly through material and demands a high level of proficiency. Enrollment by audition only. Meets with DNCE 5261.

**Repeatable:** Repeatable for up to 4.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Technique

**DNCE 4701 (2) Contact Improvisation 2**

Builds upon skills introduced in DNCE 2701 and moves into more rigorous exploration of weight sharing principles. Emphasis will be placed on ease and efficiency in partnering, and integrating this work into choreography and performance. Meets with DNCE 5701.

**Repeatable:** Repeatable for up to 4.00 total credit hours.

**Requisites:** Requires a prerequisite course of DNCE 2701 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Major Technique

**DNCE 4849 (1-3) Independent Study**

Involves creative or scholarly investigation of an area of interest to the student not addressed in the curriculum. Work must be arranged with and advised by a faculty member. Senior level course.

**Repeatable:** Repeatable for up to 7.00 total credit hours.

**Additional Information:** Departmental Category: Independent Study

**DNCE 4909 (1-4) Special Topics**

Explores topics and research in relation to areas such as technology, environment, teaching methods, performance, world dance, arts in society, and/or criticism that the normal sequence of offerings may not allow.

**Equivalent - Duplicate Degree Credit Not Granted:** DNCE 2909 and DNCE 5909

**Repeatable:** Repeatable for up to 7.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Independent Study

**DNCE 4919 (1-3) Dance Practicum**

Project in dance under supervision of senior faculty.

**Equivalent - Duplicate Degree Credit Not Granted:** DNCE 5919

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: Independent Study

**DNCE 4939 (1-3) Dance Internship**

Provides an opportunity for upper-division dance majors to serve apprenticeships in the community in work areas related to their major interests and career goals. Internships are available in areas such as arts administration, dance therapy, and technical production. Instructor consent required.

**Repeatable:** Repeatable for up to 3.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Departmental Category: Independent Study

## Theatre

### THTR 1003 (3) Acting 1

Introductory course designed to explore creativity, collaboration and communication in the craft of acting. Focuses on basic terms and concepts of psychological realism fundamental to the actors' process through solo work and ensemble exercises. Open to majors and non-majors.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Performance

### THTR 1009 (3) Theatre and Society

Explores the importance of telling (and listening) to stories from the stages of the world; in theatre we learn what people value in their time and place. Investigates the range of genres of theatre in today's society and how theatrical artwork is devised and presented. Ideal for non-majors.

**Additional Information:** GT Pathways: GT-AH1 - Arts Hum: Arts Expression  
Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-U.S. Perspective  
Departmental Category: Special Courses in Theatre

### THTR 1011 (3) Global Theatre 1: Live Performance to Shakespeare

Travels across four continents exploring live performance from the beginning of recorded history to Shakespeare through various forms of theatrical storytelling including masked dramas, shadow puppets, kabuki, passion plays and commedia.

**Additional Information:** GT Pathways: GT-AH1 - Arts Hum: Arts Expression  
Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: History/Dramaturgy/Directing

### THTR 1019 (3) Script Laboratory: Text Analysis and Practice for the Theatre

Introduces fundamental methods of text analysis for performance. Equips theatre makers with common vocabulary and concepts to more effectively communicate when collaborating with other artists. Provides tools for analyzing any narrative art form.

**Requisites:** Restricted to students with 0-56 credits (Freshmen or Sophomore) Theatre (THTR or TBFA) majors only (excluding minors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Special Courses in Theatre

### THTR 1050 (2) Introduction to Production Process

All performance  $\hat{c}$  film, theatre, dance, even theme parks and rock concerts  $\hat{c}$  is supported by technical elements. Via lecture, hands-on projects and guest artists, this course will introduce student to the collective technical processes and personnel that make performances happen. At the end of the semester, students will begin to understand the collaborative roles that Designers, Technicians and Managers play in the support, production and enhancement of any performance.

**Grading Basis:** Letter Grade

### THTR 1105 (3) Stage Technologies

Introduces technical production elements and procedures, including materials, organizations, methods and equipment to realize theatrical scenery, properties, lighting and sound.

**Requisites:** Restricted to students with 0-56 credits (Freshmen or Sophomore) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Theatre Design and Technology

### THTR 1115 (3) Costume Technologies

Introduces technical production elements and procedures including materials, organizations, methods and equipment to realize theatrical costuming and make-up.

**Requisites:** Restricted to students with 0-56 credits (Freshmen or Sophomore) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Theatre Design and Technology

### THTR 1117 (2) Musical Theatre Studio I

Explores creativity, collaboration, and communication in the craft of acting both in musical theatre and stage acting, specifically directed to the Musical Theatre degree student. Focuses on terms and concepts of psychological realism fundamental to the actors' process through solo work and ensemble exercises. Emphasis on developing a character through analysis and scene study. Various acting modalities will be introduced.

**Equivalent - Duplicate Degree Credit Not Granted:** PMUS 1117

**Grading Basis:** Letter Grade

### THTR 1217 (2) Musical Theatre Lab 2

Focus on building terms and concepts introduced in THTR 1117. A more thorough emphasis is placed on developing character, utilizing analysis tools, and scene study of musical theatre works. Both lecture and performance-based class. Includes advanced repertoire and further song/monologue study in terms of crafting a character and building an arc for the character in a song and/or an identified specific moment.

**Requisites:** Restricted to BFA Musical Theatre and BM Musical Theatre students only.

**Grading Basis:** Letter Grade

### THTR 2021 (3) Global Theatre 2: Forms of Modern Theatre and Drama

Explores the dramatic literature, performance traditions and cultural contexts in world theatre from 1600s to the present, through discussion, writing and theatre practice, with an emphasis on the impacts of modernity and colonialism.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: History/Dramaturgy/Directing

### THTR 2035 (3) Design Fundamentals

Introduces principles and techniques relevant to the expression of dramatic mood and idea through visual elements of the theatre, giving practice in conceptdevelopment, style selection, and rendering techniques in scenery and costume design.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Theatre Design and Technology

### THTR 2043 (3) Voice and Movement for the Stage

Natural resources of the human voice and body are studied as artistic resources for the performing artist. Designed to examine both the process and products of vocal and physical craft work. Please consult professor if you are interested in taking this class but do not fill the prerequisites.

**Requisites:** Restricted to Theatre (THTR, TBFA) or Dance (DNCE or DBFA) majors only (excluding minors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Performance

**THTR 2050 (2) Technical Theatre for Performance**

Hands on learning in an immersive environment, students are embedded into the Theatre and Dance department workshops and crews. Students gain direct experience in scenic construction, painting, props, costumes, stage lighting, media and projections, sound, and performance design as determined by the production season. This course is ideal for students interested in theatre, film, dance, performance art, design, and technical theater.

**THTR 2059 (3) Open Topics in Theatre and Drama**

Covers topics not otherwise listed in the curriculum. Topics for each semester are specified in the online schedule planner.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Special Courses in Theatre

**THTR 2105 (3) Introduction to Performance Design**

Introduces the creative/collaborative process of design for theatre and dance, including scenery, costume, lighting, and sound. Students create design projects and evaluate them with regard to artistic and practical concerns. Much of the course work is hands-on, experiential, and team-oriented.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Theatre Design and Technology

**THTR 2117 (2) Musical Theatre Studio III**

Explores the creation of extended musical theatre performance using acting, movement and vocal techniques, with an emphasis on the ensemble. Topics: finding the arc of a role, staging techniques for small and large ensembles, rehearsal and performance skills for a range of contexts from summer stock to Broadway.

**Equivalent - Duplicate Degree Credit Not Granted:** PMUS 2117

**Requisites:** Restricted to College of Music undergraduates (MUSCU) and BFA Musical Theatre (TBFA-BFA) students only.

**Grading Basis:** Letter Grade

**THTR 2849 (1-3) Independent Study**

**Repeatable:** Repeatable for up to 3.00 total credit hours.

**Additional Information:** Departmental Category: Special Courses in Theatre

**THTR 3005 (3) Costume Design 1**

Hands on studio course for students interested in theatre, dance, film, media studies, clothing, design, watercolor painting, psychology, sociology, history, art, art history, period styles, literature and cosplay. Students will learn, explore and practice literary analysis, character profiling, figure drawing, painting, fashion and clothing history and fabric selection to research, conceive, design and paint costume plates for several performance pieces over the course of the semester.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Theatre Design and Technology

**THTR 3011 (3) American Musical Theatre History**

This course investigates diversity in American musical theatre through the disciplinary frameworks of critical race theory, intersectional feminism, the American Myth, Jewish and LGBTQIA+ theories, and music and performance theory. In addition to increasing students' knowledge, understanding, and appreciation of this uniquely American art form, this course encourages students to examine larger historical and/or political events and movements through the lens of the reception and development of musicals in a given time period.

**Recommended:** Prerequisite 3 credits in THTR, DNCE or MUSC.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-U.S. Perspective  
Departmental Category: History/Dramaturgy/Directing

**THTR 3013 (3) Studio 1: Building a Character**

Students learn to deepen and develop their proficiency with specific acting techniques. Explores the craft elements of acting, as well as text analysis.

**Requisites:** Requires prerequisite course of THTR 1003 (minimum grad C-). Restricted to Theatre (TBFA) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Performance

**THTR 3015 (3) Scene Design 1**

Engages students in the creative process of creating spatial worlds for dramatic texts. Students learn to read and analyze scripts and scores, conceptualize and envision environments, express design ideas, draw, draft and build scale 3D models of stage sets.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Theatre Design and Technology

**THTR 3020 (3) Filmmaking Abroad: Acting & Directing Internationally**

Offers an intensive three-week production seminar to realize a short narrative film. Students immerse themselves in a city abroad, in collaboration with fellow CU students and the host population, as they scout locations and film their projects. Requires production responsibilities on both sides of the camera. A Global Seminar offered during Maymester through CU International Education.

**Equivalent - Duplicate Degree Credit Not Granted:** CINE 3020

**Requisites:** Requires prerequisite course of CINE 3400 or THTR 1003 (minimum grade C-).

**THTR 3023 (3) Studio 2: Creating a Role**

Continued development of acting technique and tools for play analysis, with particular emphasis on scene study. Special attention will be given to the Master Teachers of Acting and their pedagogies.

**Requisites:** Requires prerequisite course of THTR 3013 (minimum grade C-). Restricted to Theatre (TBFA) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Performance

**THTR 3031 (3) Development of Theatre 3: 20th Century International Drama**

Introduces 20th century international drama. Discusses selected plays by major African, Asian, and European authors and explores different dramatic traditions and their increasing interactions throughout the 20th century.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: History/Dramaturgy/Directing

**THTR 3033 (1-3) Production Research and Practicum: Acting**

Allows students to undertake an acting project, either within the major season or approved departmental production. Requires detailed preparational research, rehearsal commitments, and public presentation of theories and concepts in practice. Following the performance, students present written reports and evaluations.

**Repeatable:** Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: Performance

**THTR 3035 (1-2) Production Practicum**

Practical production projects within a designated area of technical theatre, design, stage management, normally related to the department's season.

**Repeatable:** Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: Theatre Design and Technology

**THTR 3037 (2-3) Shakespeare Practicum**

Students are assigned to work with production artisans of the Colorado Shakespeare Festival. While there are many possible areas, production designs for each season determine the number of available positions. May substitute for two credits of THTR 3035.

**Requisites:** Requires prerequisite courses of THTR 1105 and THTR 1115 (all minimum grade C-).

**Additional Information:** Departmental Category: Shakespearean Production

**THTR 3043 (3) Advanced Voice for the Stage**

Continues the work begun in THTR 2043. Studies advanced vocal techniques with the goal of integrating these skills into the working process of the performing artist.

**Requisites:** Requires prerequisite course of THTR 1003 or PMUS 1117 or PMUS 1217 and THTR 2043 (all minimum grade C-). Restricted to Theatre (THTR or TBFA) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Performance

**THTR 3045 (3) Stage Management**

Covers stage management from the inception of a production concept through the process of mounting a production, focusing on the interrelationships of the various artists involved, management and scheduling of time, and the psychology of handling a wide range of personalities.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Theatre Design and Technology

**THTR 3053 (3) Acting 2**

Continuation of the techniques introduced in Acting 1 (THTR 1003). Emphasis is placed on monologues and scene study of contemporary plays. Basic technique in developing a character are explored.

**Requisites:** Requires prerequisite course of THTR 1003 or PMUS 1117 or PMUS 1217 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Performance

**THTR 3055 (3) Stage Lighting Design 1**

Hands on learning in a creative lab-based environment exploring introductory practices of performance lighting design. Ideal for students excited by storytelling, technology, creating moods, the science of the human eye, human perception, and for students studying theatre, film, dance, art, design, architecture, architectural lighting, and game design.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Theatre Design and Technology

**THTR 3075 (3) Sound Design**

Hands on practical and creative exploration of the theatrical sound design process. Students will expand their understanding of sound design in the theatre through explorations in audio tools and technologies, sound system design and application, live mixing and troubleshooting skills, and enhancing theatrical performances using sound as an artistic medium.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Theatre Design and Technology

**THTR 3085 (3) Fashion, Society and Decor**

Hands on survey course for students interested in history, art history, decorative arts, sociology, psychology, politics, fashion, costume design, theatre, film, dance, media studies and cosplay. Students will create research projects based in numerous historical eras spanning from Ancient Egypt, Roman and Greek civilizations to the palaces and opulence of the Baroque and Rococo eras. Students will explore the social and technological advances in fashion creation and manufacture during the Industrial Revolution and Victorian era to the technological advances of modern Haute Couture fashion and important fashion designers.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Theatre Design and Technology

**THTR 3117 (2) Musical Theatre Studio Class IV**

Explores the development of solo performance sets of songs in cabaret and small theatre venues incorporating a range of musical styles. Topics include: How to create an audition video, Commercial auditions, Conceive, construct and perform a cabaret and/or small theatrical event, and how to collaborate with a musical production team.

**Equivalent - Duplicate Degree Credit Not Granted:** PMUS 3117

**Requisites:** Restricted to College of Music undergraduates (MUSCU) and BFA Musical Theatre (TBFA-BFA) students only.

**Grading Basis:** Letter Grade

**THTR 3149 (1) Professional Orientation: Exploring Professional Potentials for THTR & DNCE Majors**

Explores and identifies a wide range of professional opportunities connected to personal strengths and interests in theatre and dance by studying current professional practices, trends and cross-disciplinary connections. Instructor will: provide information/learning needed from representative professionals; open avenues to find/create employment opportunities towards internship consideration/post-graduation; and mentor structured self-assessment/professional development.

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) Theatre (THTR or TBFA) or Dance (DNCE or DBFA) majors (excluding minors).

**Additional Information:** Departmental Category: Special Courses in Theatre

**THTR 3213 (3) Improvisation I: Thinking On Your Feet**

Provides students with an introduction to several forms of improvisation, including short form, long-form, playback theatre and clown. A useful course for anyone interested in improving confidence with public speaking, communication and/or performance. Attendance and participation are mandatory.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Performance

**THTR 3849 (1-3) Independent Study**

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Departmental Category: Special Courses in Theatre

**THTR 4003 (3) Acting 3**

Continuation of the techniques explored in Acting 1 (THTR 1003) and Acting 2 (THTR 3053). Emphasis is placed on monologues and scene study of Shakespeare and other classical plays.

**Requisites:** Requires prerequisite course of THTR 1003 or PMUS 1117 or PMUS 1217 (minimum grade C-).

**THTR 4005 (3) Costume Design 2**

Advanced studio course building on experiences and techniques studied in THTR 3005, with additional emphases on portfolio quality painting/ rendering techniques, fabrics/ fabric manipulation and costume production technology as it affects and is affected by the designer and the creative impulse.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course of THTR 3005 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Theatre Design and Technology

**THTR 4013 (3) Studio 3: Acting Shakespeare**

In-depth study of Shakespearean texts from the perspective of their demands on the actor, including the conventions and performance styles of Elizabethan theatre.

**Requisites:** Requires prerequisite courses of (THTR 1003 or PMUS 1117 or PMUS 1217) and THTR 3035 (all minimum grade C-) or Theater BFA (TBFA) majors.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Performance

**THTR 4015 (3) Scene Design 2**

Advanced projects in theatrical scene design. Provides intensive practice in sketching, rendering, drafting and model-building. Emphasizes portfolio development and preparing the student designer for graduate training or professional work.

**Requisites:** Requires prerequisite course of THTR 3015 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Theatre Design and Technology

**THTR 4021 (3) American Theatre and Drama**

Explores American theatre and drama in the 18th centuries to the present. Examines productions, their creators and performers. Contains lecture, discussion, writing and theatre practice.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: History/Dramaturgy/Directing

**THTR 4023 (3) Studio 4: Playing with Styles**

Studies selected styles of theatre performance such as Greek Drama, Comedy of Manners, Commedia dell'arte, Modern Realism, Theatre of the Absurd, and Non-Western Theatre, including vocal and physical style elements.

**Requisites:** Requires prerequisite courses of THTR 3013, THTR 3023 and THTR 4013 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Performance

**THTR 4025 (3) Costume Patterning and Construction**

Includes techniques for the patterning and construction of contemporary and period costumes. Hands-on format covers techniques, materials and equipment particular to theatrical production.

**Equivalent - Duplicate Degree Credit Not Granted:** THTR 5025

**Requisites:** Requires prerequisite courses of THTR 1105 and THTR 1115 (all minimum grade C-).

**THTR 4029 (3) Performance and Community Engagement**

Engages students in the power of performance for effecting positive social change. Students research collaboratively to create performances and workshop experiences to intentionally author the future they want. Readings provide theoretical foundations that serve as the basis for creative work. Students engage in creative explorations. Open to all forms of performance.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Special Courses in Theatre

**THTR 4033 (3) Advanced Movement for the Stage**

Continues the work begun in THTR 2043 and explores a wide range of physical actor training methods and practices that support the fundamentals of mask training and mask performance for the actor. Students will experience each mask by gaining an understanding of its historical and performative relevance and directly bring into play the authentic life required of the specific mask. Department consent required.

**Equivalent - Duplicate Degree Credit Not Granted:** THTR 5033

**Requisites:** Requires prerequisite course of THTR 2043 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Performance

**THTR 4035 (3) Scene Painting**

Exposes students to the crafts involved in painting large and colorful backgrounds for stage productions through hands-on projects. Introduces students to scenic art techniques such as layout, representational painting, trompe l'oeil, faux finishing and related skills. Students are taught about proper tool use and care, paint products, and the profession.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Theatre Design and Technology

**THTR 4039 (3) Musical Theatre Repertory**

Developed around the learning of complete scenes, songs and dances that are representative of the major periods and styles within musical comedy from the 1920s to the present. Emphasizes in-class performance. Admission by audition.

**Equivalent - Duplicate Degree Credit Not Granted:** THTR 5039

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to Theatre (THTR, TBFA) or Dance (DNCE or DBFA) or Music (MUSA-BAMUS, MUSC-BMUS or MUSE-BMUE) majors only (excluding minors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Special Courses in Theatre

**THTR 4040 (3) Theatrical Tailoring**

Explores classic and theatrical tailoring techniques and theories through the construction of classical men's wear: trousers, vest/waistcoats and coats. Student work with hand and machine sewing techniques, patterning skills and appropriate tailoring materials. Period of exploration will vary by semester.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Recommended:** Prerequisite THTR 1050.

**Grading Basis:** Letter Grade

**THTR 4046 (3) Costume Crafts**

Covers basic and advanced techniques in casting/molding, mask making, dyeing, painting, jewelry making, ventilating and wig style and millinery via a series of projects. Culminates in a final project encompassing all techniques. Instruction consent required.

**Equivalent - Duplicate Degree Credit Not Granted:** THTR 5046

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course of THTR 1115 (minimum grade C-).

**THTR 4049 (1-4) Special Topics in Theatre**

Opportunity for students to explore, upon consultation with the instructor, areas in theatre that the normal sequence of offerings may not allow.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Special Courses in Theatre

**THTR 4051 (3) Playwriting**

Introductory course in craft of playwriting; primary focus on technique of developing short plays.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: History/Dramaturgy/Directing

**THTR 4055 (3) Stage Lighting Design 2**

Hands on learning in a creative lab-based environment exploring advanced practices of performance lighting design. Ideal for students excited by technology, working with computers, and complex systems. This course is excellent for students interested in design, lighting design, concert, festival, dance, and nightclub lighting design, all styles of kinetic art, music, storytelling, themed environments, and architecture.

**Requisites:** Requires prerequisite course of THTR 3055 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Theatre Design and Technology

**THTR 4059 (3) Open Topics in Theatre and Drama**

Covers topics not otherwise listed in the curriculum. Topics for each semester are specified in the online Schedule Planner.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Special Courses in Theatre

**THTR 4061 (3) Directing**

Theory and practice of directing for the stage.

**Requisites:** Requires prerequisite courses of THTR 1003 or PMUS 1117 or PMUS 1217 or THTR 3053 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: History/Dramaturgy/Directing

**THTR 4063 (3) Audition Techniques**

Prepares students for the demands of the acting profession. Trains students in various audition techniques including general auditions, prepared auditions, cold readings, on-camera auditions, and commercial auditions. Shows how to prepare and perfect audition material in a professional and exemplary way. Discusses agents, casting directors, and the process of becoming a professional actor.

**Requisites:** Requires prerequisite course of THTR 1003 or PMUS 1117 or PMUS 1217 (minimum grade C-). Restricted to students with 27-180 credits (Sophomore, Junior or Senior) Theatre (THTR or TBFA) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Performance

**THTR 4073 (3) Performing Voices of Women**

Explores theories underlying the "feminine voice," varied perspectives in prose and poetry, ways of embodying these voices and perspectives in performance forms and ultimately the students' own voices through creation of autobiographical performance pieces (some to be presented for student audiences). Open to both men and women.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 4073

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Performance

**THTR 4075 (1-3) Advanced Technical Projects**

Students assume responsibility, under faculty supervision, for planning and executing specific technical responses to a design concept in the department's season productions.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Grading Basis:** Letter Grade

**THTR 4081 (3) Senior Seminar**

Intellectual and conceptual capstone course for departmental majors with separate sections for theatre and dance students. Course promotes integration of ideas regarding history, criticism, and theory in performance and production. All inquiry throughout the semester relates to the theme of creative process.

**Requisites:** Restricted to Theatre (THTR, TBFA) or Dance (DNCE or DBFA) majors only (excluding minors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: History/Dramaturgy/Directing

**THTR 4085 (3) Theatre Management**

Students will learn how arts companies are run and managed, how non profit boards function and more. We will discuss budgeting, season planning, grant writing, unions, marketing and development. The class will include a wide range of guest speaker experts in the industry.

**Requisites:** Requires prerequisite courses of THTR 1105 and THTR 1115 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Theatre Design and Technology

**THTR 4095 (1-3) Special Topics in Theatre Design and Technology**

Intensive study of specialized topics in theatre technology and design. Topics and credits specified in the online Schedule Planner.

**Repeatable:** Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Theatre Design and Technology

**THTR 4103 (3) Acting and Directing for the Camera**

Offers an intensive production workshop to prepare actors and directors to work collaboratively and effectively for the medium of the camera. Directing vocabulary, script interpretation, film terminology and acting techniques are applied. Explores situations in which actors and directors interact, from auditions to rehearsals to filming. Requires attendance, textbook readings, research and production responsibilities on both sides of the camera.

**Requisites:** Requires prerequisite course of THTR 1003 or PMUS 1117 or PMUS 1217 (minimum grade C-). Restricted to students with 27-180 credits (Sophomore, Junior or Senior) Theatre (THTR or TBFA) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Performance

**THTR 4105 (3) Theatre Make-Up Design**

Hands on studio course for students interested in theatre, film, television, entertainment, cosplay and fashion make-up styles and applications. Students will research and create various make-up designs and learn various make-up application techniques and products to conceive and create characters ranging from clowns to 17th, 18th and 19th period and historical styles and stages of old age and special effect make-up. Techniques include ombre blending, removing eyebrows, changes facial features, 3D prosthetics and latex, silicone and foam appliances in the creation of wounds, stages of healing and zombies.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Special Courses in Theatre

**THTR 4113 (3) Comedy Matters**

Examines the role of comedy in performance within various cultures through readings, viewings and a participatory exploration. We will analyze comedy within various societies to understand the underlying ideals and values. Throughout this investigation we will seek to understand what makes something comedic, why, for whom, for what purpose, when and under what circumstances.

**Equivalent - Duplicate Degree Credit Not Granted:** THTR 5113

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Performance

**THTR 4117 (1-3) Musical Theatre Lab 5: Senior Showcase Experience**

Research and identify material from a variety of mediums (theatre, film, television, web-based work, commercial) that best fit preferred performance type and style. Emphasis placed on topically/timely relevant material so that the student becomes most knowledgeable of current trends and practices. Prepared work will be presented at an organized showcase featuring agents, casting professionals and directors providing feedback for continued growth, learning and a new network of industry colleagues.

**Repeatable:** Repeatable for up to 4.00 total credit hours.

**Recommended:** Prerequisites TBFA Acting students & completion of Studios 1-4, for PMUS, BMMT and TBFA Musical Theatre students, completion of Labs 1-4, PMUS 1117, 1217, 2117, 3117.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**THTR 4125 (3) Watercolor Illustration and Rendering Techniques**

Hands on studio course for the student interested in theatre, film, art and art history, scenic art, illustration, drawing, and painting. This course explores watercolor, gouache, pen and ink, chalk pastels, color pencils and multi-media painting techniques and approaches. Students will gain fluency in exploring, analyzing, and copying various paintings and illustration styles and approaches by famous illustrators and artists to expand their skillset and painting techniques. Painting supplies must be supplied by the student.

**Equivalent - Duplicate Degree Credit Not Granted:** THTR 5125

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Theatre Design and Technology

**THTR 4135 (3) Technical Production**

Examines the process of and technology for producing theatrical scenery on a limited production timeline.

**Repeatable:** Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires prerequisite course of THTR 1105 (minimum grade C-).

**Additional Information:** Departmental Category: Theatre Design and Technology

**THTR 4143 (3) Shakespeare in Community**

Surveys a growing field of arts practitioners who are intersecting Applied Theatre, Shakespeare and community in meaningful ways, including Shakespeare in Prisons, Shakespeare with Veterans and Shakespeare for Inclusive Audiences. Students will explore a variety of methodologies for teaching and practicing Shakespeare and create original work using Shakespeare as a lens for examining a particular theme, topic or social issue.

**Equivalent - Duplicate Degree Credit Not Granted:** THTR 5143

**THTR 4149 (1-3) Theatre Internship**

Provides opportunities for theatre majors to explore career opportunities in theatre fields other than, or in addition to, those with performance emphasis. Students apply knowledge and skills developed in their major studies to a practical work experience.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Recommended:** Requisite 30 credit hours in THTR.

**Additional Information:** Departmental Category: Special Courses in Theatre

**THTR 4173 (3) Creative Climate Communication**

We generate multimodal compositions on the subject of climate change and engage with various dimensions of issues associated with sustainability. We work to deepen our understanding of how issues associated with climate change are or can be communicated, by analyzing previously created expressions from a variety of media (interactive theatre, film, fine art, television programming, blogs, performance art, for example) and then be creating our own work.

**Equivalent - Duplicate Degree Credit Not Granted:** ENVS 3173 and ATLS 3173

**Recommended:** Prerequisite ENVS 1000.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Performance

**THTR 4175 (3) Conceptualization**

Fosters creativity and collaboration through a variety of diverse projects where students conceive of live, performative productions, events and experiences. Offers both individual and team exercises that stimulate visualization, expression, documentation and communication of creative ideas, including their overall scope, aesthetic, style, audience relationship and mode of presentation.

**Equivalent - Duplicate Degree Credit Not Granted:** THTR 5175

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Special Courses in Theatre

**THTR 4193 (1-3) Studio 5: Senior Project**

Students engage in a project or projects of their own undertaking that takes a broader experience to apply the craft utilizing self-initiative, collaborative approaches and public exhibition. Instructor consent required for non-BFA THTR performance majors.

**Equivalent - Duplicate Degree Credit Not Granted:** PMUS 4117

**Repeatable:** Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires prerequisite course of THTR 3013 and THTR 3023 and THTR 4013 and THTR 4023 (all minimum grade C-).

**Additional Information:** Departmental Category: Performance

**THTR 4213 (3) Improvisation II: Advanced Improvisation**

Continues the student's study of improvisation as a collaborative art form. Whereas Improvisation I introduces students to a variety of techniques, forms and applications of improvisation, this course focuses specifically on long-form improvisation in performance. Previous experience with long-form improvisation is necessary to enroll in this course.

**Requisites:** Requires prerequisite course of THTR 3213 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Performance

**THTR 4555 (1-2) Production Studio**

Requires participation in a Theatre Department production assignment in the areas of design, technology, or management, as well as participation in a semester portfolio review. May be repeated upto 6 total credit hours.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to Theatre (TBFA) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Theatre Design and Technology

**THTR 4849 (1-3) Independent Study**

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Departmental Category: Special Courses in Theatre

## Dance - Bachelor of Arts (BA)

The University of Colorado Boulder offers a well-established, nationally recognized dance program that encourages the pursuit of one's artistic voice, embodied scholarship and pedagogical exploration.

CU Boulder has an exciting and diversified dance program. Our curriculum is designed to use dance and the body to challenge assumptions about practices, values, technology and sustainability. Our program scaffolds entrepreneurial approaches to art-making based in personal initiative, curiosity and versatility.

We support the vital cultivation of self-awareness alongside a nuanced appreciation of one's positionality within the global conversation. Somatic studies serve as the integrative tissue in our highly diverse and forward-thinking program.

We are a contemporary program—one that values and provides study in a range of styles and fusion of forms that influence and reflect the multifaceted nature of dance performance today. Our curriculum is designed to develop concrete skills in performance and choreography and to instill an appreciation of the role that dance plays in human culture around the world.

## Requirements

### Required Courses and Credits

The Bachelor of Arts provides a well-rounded dance education in both technique and theory courses. Students must receive a C- or better in all required courses. No more than 45 credits in DNCE may be applied to overall graduation requirements. Students must have a grade point average of at least 2.000 in the major in order to graduate. Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below.

Students are expected to take a variety of technique styles. A minimum of three different styles, as well as African dance, are required. Students who have not placed in the major technique class (DNCE 2021, DNCE 3041 or DNCE 4061) by their second semester in dance program are strongly advised not to continue in the major program in dance. Placement into and successful completion of major technique is a prerequisite for enrollment in other required dance courses.

Code	Title	Credit Hours
<b>Required Lower-Division Courses</b>		
DNCE 1012	Dance Production	2
DNCE 1013	Dance Improvisation	2
DNCE 1027	Dance in Cultural Perception and Expression	3
DNCE 1908	First Year Dance Seminar	1
DNCE 2501	African Dance	2
<b>Required Major Technique Courses</b>		
Take 6 credit hours from the following courses: <sup>1</sup>		6
DNCE 2021	Major Technique	
DNCE 3041	Major Technique	
DNCE 4061	Major Technique	
<b>Upper-Division Music Course</b>		
Choose one of the following courses:		2
DNCE 3014	Inside the Groove: Developing Rhythmic Skills	
DNCE 3024	SOUND Choices: Enhancing the Music/Dance Relationship	
<b>Upper-Division Creative Process Course</b>		
Choose one of the following courses:		3
DNCE 3033	Choreographic Resources	
DNCE 3043	Choreographic Process	
<b>Required Production Practicum Courses</b>		
Take 2 credit hours of production practicum, including 1 credit of Run Crew.		2
DNCE 3035	Production Practicum	
<b>Required Upper-Division Courses</b>		
DNCE 3005	Movement Awareness and Injury Prevention for the Dancer	3
DNCE 4017	Dancing Histories: Sex, Gender and Race in U.S. Concert Dance	3
or DNCE 4037	Contemporary Concert Dance: Shifting Perspectives in Performance	
or DNCE 4047	Hip-Hop Dance History	
DNCE 4036	Dance Teaching Practices: Inclusive Approaches to Instruction	3

DNCE 4939	Dance Internship	1
THTR 4029	Performance and Community Engagement	3
THTR 4081	Senior Seminar	3
<b>Electives in Dance Technique</b>		
Take 6 credit hours of DNCE courses with course numbers that end in 1.		6
<b>Required Theatre Production Course</b>		
Choose one of the following courses:		2-3
THTR 2105	Introduction to Performance Design	
THTR 3005	Costume Design 1	
THTR 3015	Scene Design 1	
THTR 3045	Stage Management	
THTR 3055	Stage Lighting Design 1	
THTR 3075	Sound Design	
THTR 4035	Scene Painting	
THTR 4055	Stage Lighting Design 2	
THTR 4095	Special Topics in Theatre Design and Technology (Some sections including Tailoring or Product Design)	
THTR 4105	Theatre Make-Up Design	
THTR 4175	Conceptualization	
THTR 5025	Costume Patterning and Construction	
<b>Total Credit Hours</b>		<b>47-48</b>

<sup>1</sup> Students are placed at the appropriate level based on audition. Students without sufficient training will be asked to take nonmajor technique classes to make up the deficiency. These classes will not count toward the major requirement.

## Graduating in Four Years

Consult the Four-Year Guarantee Requirements for more information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress toward a BA in dance, students should meet the requirements in the Four-Year Plan section.

## Recommended Four-Year Plan of Study

Through the required coursework for the major, students will fulfill all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement and will fulfill the Global Perspective category in the Gen Ed Diversity Requirement.

### Year One

Fall Semester		Credit Hours
DNCE 1012	Dance Production	2
DNCE 1027	Dance in Cultural Perception and Expression	3
DNCE 1908	First Year Dance Seminar	1

<b>Total Credit Hours</b>		<b>120</b>

## Learning Outcomes

The following areas of knowledge and experience are central to all the undergraduate degrees in dance:

- Physical accomplishment in a range of dance styles and within fusions of various forms, including contemporary, ballet, jazz, hip-hop, transnational fusion, African dance, performance improvisation and other dance traditions from around the world.
- Experience with the process and underlying aesthetics of dance creation, composition and collaboration.
- Basic familiarity with cultural, sociological and aesthetic issues important to the contemporary realities of the field of dance, including a working knowledge of major world dance styles, works of dance literature, theoretical lenses and the history of dance.
- Knowledge of the various means, such as stagecraft, costuming, lighting, make-up, production and projections, through which a public presentation of dance is realized.
- Study and practical experience in dance pedagogy, identifying our purpose, goals and objectives as future educators.
- Basic knowledge of tactics for sustaining wellness, including various somatic approaches to dance training, injury prevention and rehabilitation from injury.
- Experiential study of the relationship between dance and music, including concrete practice of skills in playing and hearing music.
- Opportunities to explore the power of performance for effecting positive social change.

In addition, students completing a degree in dance are expected to acquire the ability and skills to:

- Define their positionality as a maker and thinker of art with responsibility and awareness within their local setting and global conversations.
- Create and perform through dance, theatre, design, technology, research, scholarship and writing.

- Make art that is relevant to their medium of expression, that generates resistance to and expands developed techniques towards contemporary relevance, and aesthetic and artistic excellence.
- Apply diverse theories to critically analyze various performance practices, approaches, compositions, forms, histories, events and scripts.
- Engage with the histories of their art form and the impact of these histories on contemporary performance challenges and opportunities.
- Build communities of greater equity and inclusion within the cultures of theatre and dance, and the broader world.
- Cultivate their responsibility as artist-citizens to have a positive impact on the world and the future.

## Dance - Bachelor of Fine Arts (BFA)

The University of Colorado Boulder offers a well-established, nationally recognized dance program that encourages the pursuit of one's artistic voice, embodied scholarship and pedagogical exploration.

Our BFA program is designed to meet the needs of highly curious and motivated students interested in preparing for a professional dance career in performance and/or choreography while in an academic setting. Our curriculum is designed to use dance and the body to challenge assumptions about practices, values, technology and sustainability. Our program scaffolds entrepreneurial approaches to art-making based in personal initiative, curiosity and versatility.

We support the vital cultivation of self-awareness alongside a nuanced appreciation of one's positionality within the global conversation. Somatic studies serve as the integrative tissue in our highly diverse and forward-thinking program.

We are a contemporary program—one that values and provides study in a range of styles and fusion of forms that influence and reflect the multifaceted nature of dance performance today. Our curriculum is designed to develop concrete skills in performance and choreography and to instill an appreciation of the role that dance plays in human culture around the world.

## Requirements

### Admission Requirements

Students who did not pre-audition into the BFA program and who wish to pursue the BFA can audition during the fall semester of their freshman or sophomore year. If the student is a sophomore auditioning for the BFA, they must be enrolled in or have taken DNCE 3033 or DNCE 3043 in order to be on track to graduate in four years.

Application guidelines for the BFA track are posted each fall semester. The undergraduate director will notify students of faculty decisions regarding their audition. If a student is admitted to the program, they should talk to their primary advisor to have their degree status officially changed from BA to BFA.

The characteristics that the faculty looks for in BFA students are:

- Exceptional technical/expressive ability as demonstrated in class work and performance.
- Choreographic skill or potential as demonstrated through movement invention and appropriate clarity of structure

- Willingness and drive necessary to pursue a professional career in dance.
- Exceptional musicality and rhythmic precision.
- Maturity, organization and a positive attitude.

THTR 4105	Theatre Make-Up Design
THTR 4175	Conceptualization
THTR 5025	Costume Patterning and Construction
Some sections of the following including Tailoring or Projection Design:	
THTR 4095	Special Topics in Theatre Design and Technology
<b>Total Credit Hours</b>	
<b>72-76</b>	

<sup>1</sup> Students are placed at the appropriate level based on audition. Students without sufficient training will be asked to take nonmajor technique classes to make up the deficiency. These classes will not count toward the major requirement.

## Additional Requirements

In addition to specified coursework, the BFA student must meet the following requirements:

- Show original choreographic work each semester in Open Space, FRESH or Dance Class Showings.
- Present a concert in conjunction with other senior BFA's in the spring of their senior year.
- By December of their junior year, the student must have formed a committee of two faculty members who will evaluate their concert. The student and First Reader (lead faculty member) of the committee will complete a BFA Concert Form that is given to the Director of Dance Production by January 31 junior year. The Director of Dance Production will help you plan and oversee the production aspects of the show.
- Maintain a 3.2 GPA in required dance and theatre courses. If a student drops below the required GPA by the time of their concert proposal submission (January 31), they will be removed from the BFA and their concert proposal will no longer be considered.

## Graduating in Four Years

Consult the Four-Year Guarantee Requirements for more information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress toward a BFA in dance, students should meet the requirements in the Four-Year Plan section.

## Four-Year Plan of Study

Through the required coursework for the major, students will fulfill all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement and will fulfill the Global Perspective category of the Gen Ed Diversity Requirement.

## Theatre - Bachelor of Arts (BA)

The BA program in theatre is a broad-based program of theatre practice and study embracing creativity, research and diversity. Through performance and practice, process and research, the BA student will investigate the role of creativity within a liberal arts education. The BA in theatre investigates theatre and performance via historical context, forward-looking practice and a multiplicity of ways of knowing and making.

The BA in theatre also serves as the core of studies for a student who wishes to pursue further theatre training in one of the BFA areas of concentration.

## Requirements

### Program Requirements

The BA degree program in theatre requires 37 credit hours in theatre, 3 in dance and 6 in dramatic literature and/or global arts outside the department. A grade of C- or better is needed in each required course toward the BA degree, as well as an overall theatre GPA of 2.00. No more than 45 credits in THTR may be applied to overall graduation requirements. Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below.

**Required Courses and Credits**

Code	Title	Credit Hours
<b>Required Courses</b>		
THTR 1003	Acting 1	3
THTR 1011	Global Theatre 1: Live Performance to Shakespeare	3

## Learning Outcomes

The undergraduate degrees in theatre emphasize knowledge and awareness of:

- The major works of dramatic literature that are representative of the most important eras in the development of theatre and drama.
- The history of theatrical production—its styles, conventions and socially related mores—from ancient civilizations to the present time.
- The various means through which a theatrical concept is realized.
- The aesthetic and intellectual relationship between theatre in its various 21st century modes and contemporary society.

In addition, students completing a degree in theatre are expected to acquire the ability and skills to:

- Define their positionality as a maker and thinker of art with responsibility and awareness within their local setting and global conversations.
- Create and perform through dance, theatre, design, technology, research, scholarship and writing.
- Make art that is relevant to their medium of expression, that generates resistance to and expands developed techniques towards contemporary relevance, and aesthetic and artistic excellence.
- Apply diverse theories to critically analyze various performance practices, approaches, compositions, forms, histories, events and scripts.

- Engage with the histories of their art form and the impact of these histories on contemporary performance challenges and opportunities.
- Build communities of greater equity and inclusion within the cultures of theatre and dance, and the broader world.
- Cultivate their responsibility as artist-citizens to have a positive impact on the world and the future.

## Bachelor's–Accelerated Master's Degree Program(s)

The bachelor's–accelerated master's (BAM) degree program options offer currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first but begin taking graduate coursework as undergraduates (typically in their senior year).

Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree. In addition, staying at CU Boulder to pursue a bachelor's–accelerated master's program enables students to continue working with their established faculty mentors.

### BA and MA in Theatre Admissions Requirements

In order to gain admission to the BAM program named above, a student must meet the following criteria:

- Have a cumulative GPA of 3.0 or higher.
- Have completed a minimum of 60 credit hours of coursework.
- Transfer students must have completed a minimum of 24 credit hours at CU Boulder.
- Complete all MAPS deficiencies (students admitted to CU Boulder prior to Summer 2023 only).

The typical student will be a student writing an honors thesis who will use that project as the basis for developing the MA thesis, though this is not mandatory. This new degree program is open only to students enrolled in the BA in theatre degree program at CU Boulder.

Interested students should apply for admission to the BAM by December 15 of their junior year.

### Program Requirements

Students may take up to and including 12 hours while in the undergraduate program which can later be used toward the master's degree. However, only 6 credits may be double counted toward the bachelor's degree and the master's degree. Students must apply to graduate with the bachelor's degree, and apply to continue with the master's degree, early in the semester in which the undergraduate requirements will be completed.

If you are interested in the BAM degree program, please contact the theatre graduate program for more information.

### Course Requirements

Students must complete the following in addition to the BA requirements.

Code	Title	Credit Hours
<b>Required Courses</b>		
THDN 5010 or THTR 5011	Introduction to Performance Studies Seminar: Theory and Criticism	3
THDN 6009	Research and Teaching in Theatre, Dance and Performance Studies	2
<b>Electives</b>		
<b>6</b>		
THTR 6011	Theatre and Performance Histories 1	
THTR 6041	Theatre and Performance Histories 2	
<b>Master's Thesis <sup>1</sup></b>		
THTR 6959	Master's Thesis	4
<b>Graduate Electives <sup>2</sup></b>		
<b>6</b>		
<b>Total Credit Hours</b>		<b>21</b>

<sup>1</sup> The master's thesis is optional. Students choosing the thesis plan complete 4–6 thesis hours. Students choosing the non-thesis plan take additional electives.

<sup>2</sup> Thirty credit hours are required to complete the Master of Arts degree. BAM students transfer six undergraduate credits toward their graduate degree.

For more information, visit the department's BAM in Theatre and Performance Studies (<https://www.colorado.edu/theatredance/theatre/undergraduates/bam-theatre/>) webpage.

## Theatre - Bachelor of Fine Arts (BFA)

The BFA degree concentrations in theatre offer pre-professional training to highly-motivated students aiming at professional careers in certain disciplines. The BFA student will pursue one of three concentration areas: acting, design/technology/management or musical theatre. Students may elect to further focus within one of these degree tracks.

## Requirements

### Admission Requirements

Admission is based on talent, academic record, motivation, auditions and/or interviews. Enrollment is limited to ensure individual attention necessary for effective training. Interested students should identify themselves as early as possible. Contact the department for information regarding how to apply to the BFA degree concentrations.

Formal application to the:

- musical theatre concentration should be made concurrently with an application to the university. Auditions and interviews will be held at the regular spring auditions for the College of Music.
- acting concentration should be made at the beginning of the spring semester.
- design/technology/management concentrations should be made at the beginning of the spring semester.

Students are subject to the requirements in place at the time of admission to the BFA.

### General Degree Requirements

The College of Arts & Sciences counts a maximum of 67 credit hours of THTR credits toward the total credit hours required for graduation. A grade of C- or higher is needed in all required courses to fulfill the

requirements of the BFA degree, as well as an overall Theatre GPA of 2.00.

In addition to the specific course requirements listed for completing a BFA degree in Acting and Design/Technology/Management concentrations, students must fulfill all requirements for the BA degree in Theatre.

### Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress toward a BFA in theatre students should meet the following requirements:

- By Dec. 1 of the year before the first semester, declare in writing the intention to audition for the BFA in Musical Theatre.
- During the second semester (acting concentration) or third semester (design/technology/management concentrations), complete the audition and interview.
- Immediately upon acceptance into a BFA concentration declare the major.
- Once accepted into a BFA concentration, meet with a departmental advisor to confirm in writing specific courses to be completed within the remaining semesters of study.

### Concentrations

#### Acting Concentration

The BFA in acting begins as early as the sophomore year. Interested students will begin on the CU Boulder campus as BA students taking a series of preparatory courses. This allows students to begin their training without blindly committing to an intensive curricular path.

As students are eligible to audition for all CU performance opportunities when they arrive on campus, this timeline also gives students and faculty the chance to work together before making a major commitment.

Auditions to transition from BA to BFA in acting generally take place around spring break. The BFA in acting curriculum is designed to be completed in 6 semesters, allowing a student to graduate in 4 years. For students on an alternate timeline (such as transfer students) the curriculum can be completed in as few as 4 semesters.

Visit the Theatre & Dance website (<https://www.colorado.edu/theatredance/theatre/undergraduates/theatre-ba-bfa/bfa-acting/>) for more information on the BFA in acting.

#### Design/Technology/Management Concentrations

In addition to the College of Arts and Sciences core requirements, students pursuing a BFA in design, technology or management must complete up to 67 credits in theatre and an additional 15 credits in other disciplines. Students who choose this concentration must elect one primary emphasis (design, technology or management) but may have opportunities to explore other emphases.

The BFA in design/technology/management begins as early as the sophomore year. Interested students will begin on the CU Boulder campus as BA students taking a series of preparatory courses. This allows students to begin their training without blindly committing to an intensive curricular path.

As students are eligible to be involved in all CU performance opportunities when they arrive on campus, this timeline also gives

students and faculty the chance to work together before making a major commitment.

Interviews to transition from BA to BFA in design/technology/management generally take place around spring break. The BFA in design/technology/management curriculum is designed to be completed in 6 semesters, allowing a student to graduate in 4 years. For students on an alternate timeline (such as transfer students) the curriculum can be completed in as few as 4 semesters.

For more information on the BFA design/technology/management program, visit the Theatre & Dance (<https://www.colorado.edu/theatredance/theatre/undergraduates/theatre-ba-bfa/bfa-design-technology-management/>) website.

### Musical Theatre Concentration

The BFA in musical theatre begins in the freshman year. Interested students will submit pre-screen audition materials during the fall of their high school senior year. A selection of students from the pre-screen will be invited to audition in person during the winter of their high school senior year (generally late January, early February). Invitations to the program will be made around spring break.

For application timeline, required materials and submission information for the BFA in Musical Theatre, visit the Theatre & Dance (<https://www.colorado.edu/theatredance/theatre/undergraduates/theatre-ba-bfa/bfa-musical-theatre/>) website.

In addition to coursework, all students are eligible to be involved in all CU performance opportunities when they arrive on campus.

## Four-Year Plans of Study

Through the required coursework for all concentrations in the BFA in Theatre, students will fulfill all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement.

### Acting Concentration

#### Year One

Fall Semester		Credit Hours
THTR 1003	Acting 1	3
THTR 1019	Script Laboratory: Text Analysis and Practice for the Theatre	3

## Dance - Minor

The minor in dance is designed to provide the student with a broad overview of dance as an art form.

Our curriculum is designed to use dance and the body to challenge assumptions about practices, values, technology, sustainability and personal and global positionality. Our program scaffolds entrepreneurial approaches to art-making based in personal initiative, curiosity and versatility. Required courses introduce students to basic elements of dance while the remaining plan is created by the student in conjunction with their primary advisor. If you have specific dance questions, please contact the director of dance or the undergraduate director of dance.

The rules of the College of Arts and Sciences apply in designing each student's program.

## Requirements

Declaration of a dance minor is open to any undergraduate student enrolled at CU Boulder, regardless of college or school affiliation.

- A minimum of 18 credit hours must be taken in DNCE courses,<sup>1</sup> including a minimum of 9 upper-division credit hours.<sup>2</sup>
- All coursework applied to the dance minor must be completed with a grade of C- or better. No pass/fail work may be applied. The GPA in all minor coursework must equal 2.00 (C) or greater.
- Students will be allowed to apply no more than 9 credit hours (including 6 upper-division) of transfer work toward a minor.
- Coursework applied toward minor requirements may also be applied toward Gen Ed requirements.

As long as they meet the above requirements, students are free to choose DNCE courses that suit their interests.

<sup>1</sup> Up to six credits from the following THTR courses may be used in place of the required DNCE courses: THTR 1003 Acting 1, THTR 3055 Stage Lighting Design 1, THTR 3075 Sound Design, THTR 4039 Musical Theatre Repertory, THTR 4073 Performing Voices of Women, or THTR 4555 Production Studio.

<sup>2</sup> Some upper-division DNCE courses may require prerequisites. DNCE classes with 800–900 sections are controlled enrollment sections and require an audition or instructor consent for enrollment.

## Theatre - Minor

The minor in theatre is designed to provide students with a broad overview of theatre. Students may declare a theatre minor by

contacting their advisor through the Academic Advising Center (<https://www.colorado.edu/advising/>).

## Requirements

Requirements include a minimum of 18 credit hours from the courses below, 9 credit hours of which must be upper-division. Students select courses from the theatre curriculum based on their interests and course availability.

All coursework applied to the minor must be completed with a grade of C- or better (no pass/fail work may be applied). The GPA for all coursework taken in the minor department must be equal to 2.00 (C) or higher.

Students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward the theatre minor.

### Required Courses and Credits

<b>Total Credit Hours</b>		<b>18</b>

## Hip-Hop Studies - Certificate

The certificate in hip-hop studies is designed to emphasize both the theory and practice of Hip-hop. Classes immerse students in the culture of Hip-hop, as well as develop the critical thinking skills and theoretical context required for understanding Hip-hop's socio-historical development and political efficacy.

Hip-hop, which arose in youth communities of color in the 1970s amid political abandonment and economic devastation, has become the most important cultural movement of the last half-century. Practiced in nearly every corner of the globe, it is now one of the most important through-lines in human culture. To understand Hip-hop is to understand the world in which we live. Inclusive excellence is the bedrock of Hip-hop; membership in its community is not defined by subscription to a particular place or race but rather to its unique ethos, which privileges virtuosic innovation as much as historic and self knowledge.

Hip-hop is fundamentally an interdisciplinary form. It does not live in one field alone. Rather, it is a dialogue that occurs across dance, music, visual and verbal arts, as well as history and theory. While the Hip-hop Studies Undergraduate Certificate is housed in the Department of

Theatre & Dance, courses are available in other departments, such as History, English, Sociology and Ethnic Studies. Organized in this way, with offerings from several campus departments, the consolidated certificate program is the best way to give students a sense of the richness, complexity, and vitality of Hip-hop.

The certificate in Hip-hop Studies is designed to be an enriching, interdisciplinary supplement to other areas of study. It provides a broad base, which can serve as an entry point to more focused study and practice. While offering rich and rewarding experiences, the undergraduate certificate is not a professional endorsement from Rennie Harris or Larry Southall of the student's skills. Rather, it develops students' appreciation and respect for one of the most important American cultural forms to have emerged in the last half-century.

## Requirements

### Prerequisites

All currently matriculated undergraduate students at CU Boulder are eligible for admission to the certificate program. Students must submit a one-page statement of intent to formally enroll.

### Program Requirements

To earn this certificate, students must complete a total of 18 undergraduate credit hours comprised of both practice-based movement courses and writing/research-based theory courses.

Students must complete a total of 8 credit hours in both the required core theory courses as well as a movement course option as listed below. Students select the remaining 10 credits from an array of pre-approved courses offered on a regular basis in the departments of Theatre & Dance, History, Sociology, Ethnic Studies and English. Additionally, nine of the certificate's 18 credits must be awarded in upper-division courses and no more than nine can come from any one department. Students may petition to have special topics courses in these and other departments approved by their hip-hop studies advisor.

To earn the certificate, students must earn above a grade of C- in each course and meet the undergraduate school's overall GPA requirement.

## Western American Studies

The Center of the American West offers an 18-credit undergraduate certificate program in Western American studies for students who have an intellectual commitment to any of a broad range of issues and aspects of the American West, including history and literature, culture and society and economic and environmental challenges facing western communities. Courses involve students in an exploration of the past, an appreciation for traditional and contemporary stories and art in the region and an understanding of western landscapes, ecosystems and the factors that affect them. For more information, visit the department's undergraduate certificate program (<https://www.colorado.edu/center/west/academics/undergraduate-certificate-program/>) webpage.

Course code for this program is CAMW.

## Certificate

- Western American Studies - Certificate (p. 619)

## Courses

### CAMW 2001 (3) The American West

Students tour the cultural, social, and natural features of the American West, based on readings and presentations by guest speakers from the CU faculty and from important professions and positions in the West. Designed as the foundation course in the Western American Studies certificate program.

**Requisites:** Restricted to students with 0-56 credits (Freshmen or Sophomores).

**Additional Information:** GT Pathways: GT-H11 - History

Arts Sci Core Curr: United States Context

Arts Sci Gen Ed: Distribution-Arts Humanities

### CAMW 3939 (1-3) Center of the American West Internship

Work for public and private organizations on projects that enhance the understanding of various Western American topics and issues (environmental, cultural, public policy, etc.), and which foster students' development as community leaders working for a sustainable West.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite CAMW 2001.

### CAMW 4840 (1-4) Independent Study: The American West

Independent Study for Western American Studies certificate program

**Requisites:** Requires prerequisite course of CAMW 2001 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior).

## Western American Studies - Certificate

The certificate in Western American studies offers students at CU Boulder a unique regional studies curriculum. The interdisciplinary format allows an exploration of the region's characteristic and evolving issues: from its flora and fauna to its history and literature; and from the political, social, cultural, economic and environmental concerns facing Westerners to the landscapes and ecosystems that they inhabit.

The Center of the American West believes in community and in helping students feel more at home within the larger university. As such, the center hosts gatherings each semester where students and faculty can get to know each other as well as various noteworthy featured guests in a more social, off-campus environment. Students enrolled in the program are also eligible to apply for the Beardsley Family Scholarship.

## Requirements

The certificate requires 18 credit hours (9 of which must be at the upper-division level and 9 of which must be outside the student's major). It includes an introductory course and a capstone course, and it allows students to choose the remaining four classes from a variety of academic areas. In this way, students are able to piece together a survey of the American West that aligns with their own unique interests. No more than 6 credits transferred from another institution may apply to the certificate.

## Required Courses and Credits

Code	Title	Credit Hours
<b>Required Courses</b>		
CAMW 2001	The American West	3
CAMW 4840	Independent Study: The American West	3

**Electives**

Choose one course from each of three academic areas: Arts & Humanities, Natural Sciences and Social Sciences, as approved by the center.	9

## Western Civilization Studies

The Benson Center for the Study of Western Civilization offers an undergraduate certificate program, Foundations of Western Civilization, for students interested in a rigorous grounding in Western culture. The certificate promotes critical reflection and academic research on the traditions and issues that characterize Western civilization through the study of Western culture, science and government in their ancient, medieval and modern forms. It helps students understand their role as citizens in a nation founded on the ancient ideals of consensual rule and republican government.

Course code for this program is CWCV.

## Certificate

- Foundations of Western Civilization - Certificate (p. 620)

## Courses

### CWCV 2000 (3) The Western Tradition

Encourages a historical and critical investigation into the formative influences on what is often called Western culture, including religious, political, social and economic factors, and contemporary interpretations and critiques of these developments and concepts. Designed as the foundation course for the Center for Western Civilization.

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Arts Sciences Special Courses

### CWCV 2010 (3) Topics in Western Civilization

Offers in-depth consideration of one or more foundational traditions in Western civilization.

**Repeatable:** Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.

### CWCV 2840 (1-3) Independent Study

Requires sophomore standing.

**Repeatable:** Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

### CWCV 3840 (1-3) Independent Study

Requires junior standing.

**Repeatable:** Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-86 credits (Junior).

### CWCV 4000 (3) Foundations of Western Civilization

Offers in-depth consideration of one or more foundational traditions in Western civilization.

**Repeatable:** Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Arts Sciences Special Courses

### CWCV 4840 (1-3) Independent Study

Requires senior standing.

**Repeatable:** Repeatable for up to 8.00 total credit hours.

**Requisites:** Restricted to students with 87-180 credits (Senior, Fifth Year Senior).

## Foundations of Western Civilization - Certificate

Our undergraduate certificate program is for students interested in a rigorous grounding in Western culture, reflecting on its traditions and values, and the certificate itself is the equivalent of an inter-disciplinary minor. The program allows students to study Western culture, science and government in their ancient, medieval and modern forms. The curriculum embraces over 30 courses taught by faculty in departments that include art history, classics, English, German, history, humanities, Italian, philosophy, political science and religious studies.

For more information on the program, requirements and current course offerings, visit the Benson Center's Certificate in Western Civilization webpage or contact the Director.

## Requirements

The interdisciplinary curriculum of over 30 courses is taught by faculty in departments that include: classics, English, history, philosophy, religious studies, and Germanic languages and literatures.

The certificate requires the completion with a grade of C- or better of eight courses (24 credit hours), of which 12 credit hours must be at the upper-division level. Up to three courses (or 9 credit hours) may come from the student's major.

In addition, students must fulfill the requirements for a BA in a major in a school or college at the University of Colorado Boulder.

## Required Courses and Credits

The required courses are offered each year. Students will enroll in one course from each cluster (9 hours total): literature, history and science.

The elective courses are offered regularly, but not each semester. Students are advised to check with the offering department regarding availability. Some courses may have prerequisites. Additional courses may be petitioned for inclusion in meeting certificate requirements through the center director.

*Politics*

PSCI 2004	Survey of Western Political Thought
HIST/CLAS 4041/ PHIL 4210	Classical Greek Political Thought

**Total Credit Hours**

**24**

## Women and Gender Studies

The Department of Women and Gender Studies offers a Bachelor of Arts degree, a minor, an undergraduate certificate in global gender and sexuality studies and a graduate certificate for students enrolled in another disciplinary master's or doctoral degree program. The interdisciplinary field of women and gender studies offers students rigorous and flexible programs of study that examine women, gender and sexuality in relation to race, class, ability, nation and empire, among other variables. Students explore how gender and sexuality intersect with structures of power in a range of cultural, historical and geopolitical contexts. Areas of inquiry include but are not limited to: gender/sex systems across cultures, historical periods and epistemological traditions; gender and sexuality in literature, the arts and popular culture; legal and public policy issues around gender and sexuality; women's participation in social and cultural production; transnational and anticolonial feminisms; feminist, queer and transgender theories; and LGBTQI politics and histories.

The department houses a reading library and organizes colloquia, workshops and other cultural and educational events.

Many students combine their women and gender studies degree with other departmental offerings across campus as a second major, minor or certificate. Students have coupled the critical thinking skills they learn in women and gender studies with additional fields of study from the College of Arts and Sciences or from other colleges or schools at CU Boulder. For example, a graduate of the department who also completes studies in biology may attend medical school to specialize in women's health; by combining a women and gender studies degree with a focus in business, a graduate could better understand how gender affects the workplace. Students have gone on to careers in fields such as law, medicine, government, public health, social work, teaching, public policy, counseling, advocacy, media, public relations, academia,

politics, fundraising, small business development, librarianship and arts administration, among others.

For more information, visit the Department of Women and Gender Studies (<http://www.colorado.edu/wgst/>) website.

Course code for this program is **WGST**.

## Bachelor's Degree

- Women and Gender Studies - Bachelor of Arts (BA) (p. 631)

## Minor

- Women and Gender Studies - Minor (p. 635)

## Certificate

- Global Gender and Sexuality Studies - Certificate (p. 637)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

## Courses

### WGST 1006 (3) The Social Construction of Sexuality

Discusses the social determinants of sexuality. Analyzes the economic, psychological and cultural influences on human sexuality. Interactional perspective of human sexuality is presented.

**Equivalent - Duplicate Degree Credit Not Granted:** SOCY 1006

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-U.S. Perspective  
Departmental Category: Sociology

### WGST 1016 (3) Sex, Gender, and Society 1

Examines status and power differences between the sexes at individual and societal levels. Emphasizes historical context of gender roles and status, reviews major theories of gender stratification.

**Equivalent - Duplicate Degree Credit Not Granted:** SOCY 1016

**Additional Information:** GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame

Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-U.S. Perspective

Departmental Category: Sociology

### WGST 1250 (3) Introduction to World Literature by Women

This course considers how literature represents gendered experiences across multiple countries and continents. Students will read fiction and poetry by women from South Asia, East Asia, Africa, Europe, and the Americas, that address questions of sexuality, marriage, and family, politics, labor, and justice at the intersections of gender, race, and nation.

**Equivalent - Duplicate Degree Credit Not Granted:** ENGL 1250

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Departmental Category: English

### WGST 1270 (3) Introduction to American Literature by Women

This course investigates how literature by women has shaped the United States over time, from Indigenous authors, to abolitionists, to suffragists, to feminists of various waves. With attention to intersections between class, race, and sexual orientation, students will consider what it has meant and still means to be a woman writer in the United States and will explore how women have engaged, subverted, and resisted ideas about gender.

**Equivalent - Duplicate Degree Credit Not Granted:** ENGL 1270

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-U.S. Perspective

Departmental Category: English

**WGST 2000 (3) Introduction to US Gender, Race and Sexuality Studies**

Introduces students to the field of Women and Gender Studies. Examines gender issues in the United States from interdisciplinary, intersectional and transnational feminist perspectives across a range of US cultural contexts. Covers such topics as gender identity and performance, sexuality, reproductive justice, gendered violence, work and labor, imperialism and war, and the environment.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-U.S. Perspective  
MAPS Course: Social Science

**WGST 2020 (3) Femininities, Masculinities, Alternatives**

Examines the construction of gender and sexual identities in the modern world. Focuses on the role of social attitudes and material circumstances in shaping how individuals understand themselves and are understood by others, as well as the actions they take to accept, negotiate and resist these pressures.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-U.S. Perspective

**WGST 2030 (3) Introduction to Lesbian, Gay, Bisexual, and Transgender Studies**

Investigates the social and historical meanings of racial, gender, and sexual identities and their relationship to contemporary lesbian, bisexual, gay and transgender communities.

**Equivalent - Duplicate Degree Credit Not Granted:** LGBT 2000

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-U.S. Perspective  
Departmental Category: LGBT Studies

**WGST 2050 (3) Gender, Sexuality, and Popular Culture**

Explores diverse cultural forms such as film, popular fiction and non-fiction, music videos, public art, websites, blogs and zines which are shaped by, and in turn shape, popular understandings of gender at the intersections of race, class, ability, religion, nation and imperialism.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-U.S. Perspective

**WGST 2100 (3) Gender and Sexuality in Ancient Greece**

Examines evidence of art, archaeology and literature of Greek antiquity from a contemporary feminist point of view. Focuses on women's roles in art, literature and daily life. No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 2100

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Classics

**WGST 2110 (3) Gender and Sexuality in Ancient Rome**

Uses art, archaeology, and literature to study, from a contemporary feminist point of view, the status of women in works of Roman art and literature, the development of attitudes expressed toward them, and their daily life. No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 2110

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Classics

**WGST 2200 (3) Women, Gender, Literature, and the Arts**

Introduces the contributions of women to literature and the performing arts from a historical and cross-cultural perspective. Emphasizes representations of gender and sexuality, as well as the cultural contexts in which artworks are created. Stresses issues of structure, content, and style, along with the acquisition of basic techniques of literary and arts criticism.

**Recommended:** Prerequisite WGST 2000.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective

**WGST 2290 (3) Philosophy and Gender**

Analyzes critically the concepts of sex, gender, and their intersection with other aspects of identity, exploring how these impact the extent to which people face injustice because of their gender.

**Equivalent - Duplicate Degree Credit Not Granted:** PHIL 2290

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Arts Sci Gen Ed: Diversity-U.S. Perspective  
Departmental Category: Philosophy

**WGST 2500 (3) Gender, Race, Sex and the Body**

Studies the body as a site for the production of social difference, meaning and inequality. Focuses on the body as a conduit for political, social, and ethical dilemmas and conflicts. Examines a selection of these issues to help students understand what a body is, how bodily difference is constructed, and what this constructed difference signifies.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**WGST 2600 (3) Introduction to Global Gender, Race and Sexuality Studies**

Introduces students to the field of Women and Gender Studies. Examines gender issues globally from interdisciplinary, intersectional and transnational feminist perspectives across a range of global cultural contexts. Covers such topics as transnational feminism, colonialism and imperialism, indigenous feminisms, religion and politics, immigration and asylum, and climate change.

**Additional Information:** GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame

Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Diversity-Global Perspective  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Asia Content

**WGST 2700 (3) Psychology of Gender and Sexuality**

Examines psychological research on gender and sexuality as they intersect with race, class and other social categories. Points of emphasis include differences in cognition, attitudes, personality and social behavior. Conceptual themes include research methodologies, implicit and explicit attitudes, stigma and stereotypes. These elucidate such areas as close relationships, leadership, career success and mental health and happiness.

**Equivalent - Duplicate Degree Credit Not Granted:** PSYC 2700

**Recommended:** Prerequisite WGST 2000 or PSYC 1001.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-U.S. Perspective

**WGST 2800 (3) Women and Religion**

Examines roles of women in a variety of religious traditions including Judaism, Christianity, Hinduism, Buddhism and goddess traditions.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 2800

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-U.S. Perspective

Departmental Category: Religious Studies

**WGST 3012 (3) Gender and Development**

Provides a sociological perspective on gender, globalization, and economic development in the Global South. Examines a variety of topics, including feminist theories of development; poverty and inequality; women's work in the context of globalization; and women's activism and feminism(s).

**Equivalent - Duplicate Degree Credit Not Granted:** SOCY 3012

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite SOCY 3001.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Diversity-Global Perspective

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Sociology

Departmental Category: Asia Content

**WGST 3016 (3) Marriage and the Family in the United States**

Comparative and historical examination of marriage and the family within the U.S. Emphasizes changing family roles and family structures. Also considers alternatives to the nuclear family and traditional marriage exploring new definitions of family.

**Equivalent - Duplicate Degree Credit Not Granted:** SOCY 3016

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite SOCY 3001.

**Additional Information:** Arts Sci Core Curr: United States Context

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Sociology

**WGST 3020 (3) Feminist Methods of Inquiry and Praxis**

Examines various research methods and approaches in the field of feminist studies. Students will gain practical experience to be able to write a proposal for a significant research project, informed by course readings and discussions.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite WGST 2000 or WGST 2600.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**WGST 3044 (3) Race, Class, Gender, and Crime**

Overview of race, class, gender and ethnicity issues in offending, victimization and processing by the justice system. Examines women and people of color employed in the justice system.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 3044 and SOCY 3044

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite SOCY 1001 or SOCY 1004 or SOCY 1021 or SOCY 2044.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Sociology

**WGST 3046 (3) Topics in Sex and Gender**

Faculty present courses based on their area of expertise and specialization in the field of sex and gender. Students should check current sociology department notices of course offerings for specific topics.

**Equivalent - Duplicate Degree Credit Not Granted:** SOCY 3046

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Sociology

**WGST 3100 (3) Feminist Theories**

Explores a variety of alternative systematic accounts of, and explanations for, gender inequities. Social norms of both masculinity and femininity are analyzed in relation to other axes of inequality such as class, sexuality, race/ethnicity, neocolonialism and the domination of nonhuman nature.

**Requisites:** Requires a prerequisite course of WGST 2000 or WGST 2020 or WGST 2050 or WGST 2600 (minimum grade C-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**WGST 3110 (3) Feminist Practical Ethics**

Examines issues of public policy and personal ethics in light of the feminist commitment to gender justice. Readings for the course will present competing feminist points of view on topics such as: the environment, sex trafficking, immigration, abortion rights, the fashion and beauty industries, cosmetic surgery, food, and militarism. Contributes to an understanding of gender diversity from a U.S. perspective, fostering further insight into social, political, economic, and cross-cultural relations in America.

**Equivalent - Duplicate Degree Credit Not Granted:** PHIL 3110

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite WGST 2000 or WGST 2290 or PHIL 2290.

**Additional Information:** Arts Sci Core Curr: Ideals and Values

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-U.S. Perspective

**WGST 3135 (3) Chicana Feminisms and Knowledges**

Provides insight into the present socioeconomic condition of Chicanas and the concept of feminismo through interdisciplinary study of history, sociology, literary images and film portrayals.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 3136

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite ETHN 2001 or ETHN 2536.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-U.S. Perspective

Departmental Category: Chicano Studies

**WGST 3174 (3) Sex, Power, and Politics: U.S. Perspectives**

Explores how norms of sex, gender, race and sexuality find expression in institutions and policies in ways that legitimize only certain individuals as political actors, certain identities as politically relevant, and certain relationships as important. Critically examines how norms may be exposed, resisted and changed by studying the politics of the women's, gay liberation and men's movements in the U.S.

**Equivalent - Duplicate Degree Credit Not Granted:** PSCI 3174

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite PSCI 2004 or WGST 2000 or LGBT 2000.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Political Science

**WGST 3200 (3) Religion and Feminist Thought**

Examines the origin of patriarchal culture in the theology and practices of Judaism and Christianity. Explores attitudes and beliefs concerning women as Judeo-Christian culture impacts gender roles and gender stratification through reading and discussion. Women's religious experience is studied from the perspective of feminist interpretations of religiosity.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 3200

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**WGST 3201 (3) Women, Gender & Sexuality in Jewish Texts & Traditions**

Reads some of the ways Jewish texts and traditions look at women, gender and sexuality from biblical times to the present. Starts with an analysis of the positioning of the body, matter and gender in creation stories, moves on to the gendered aspects of tales of rescue and sacrifice, biblical tales of sexual subversion and power, taboo-breaking and ethnos building, to rabbinic attitudes towards women, sexuality and gender and contemporary renderings and rereadings of the earlier texts and traditions.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 3202 and HEBR 3202 and RLST 3202

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

**WGST 3208 (3) Women in Nordic Society: Modern States of Welfare**

Examines the role and status of women and marginalized social classes in the Nordic countries, whose societies have been heralded as egalitarian models since the twentieth century. Texts include a variety of media, from literature to sociological works to artifacts of political and popular culture.

**Equivalent - Duplicate Degree Credit Not Granted:** SCAN 3208

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Departmental Category: Nordic (Formerly Scandinavian)

**WGST 3210 (3) American Indian Women**

Explores the experiences, perspectives and status of American Indian women in historical and contemporary contexts. Examines representations of Indigenous women in mainstream culture. Emphasizes the agency of American Indian women-their persistence, creativity and activism, especially in maintaining Indigenous traditions.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 3213

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite WGST 2000 or WGST 2600 or ETHN 2001 or ETHN 1023.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-U.S. Perspective

**WGST 3220 (3) Women in Islam**

Examines the historical and contemporary relation between women, gender and Islamic cultures in different parts of the world. We will consider the role and rights of women in Islam, historical and literary representations of Muslim women, and the historically changing constructions of gender and sexuality in Muslim societies. In addition, we will critically explore the construction of Muslim women in western discourses, including liberal feminist discourse, and ask whether the representation of Muslim women in these discourses achieves or undermines ends that we might consider "Feminist". In attending to the wide range of Muslim women's lived experiences in Islamic communities and cultures, as well as the self-representations of Muslim women themselves, our readings will urge us to reexamine our presumptions about piety, secularism, modernity and feminism.

**Recommended:** Prerequisite WGST 2000 or WGST 2600.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Asia Content

**WGST 3250 (3) Disney's Women and Girls**

Examines the construction of gender, race, class, sexual orientation and disability in a selection of Disney's animated films. Cultivates skills of media literacy, exploring how mass media acts to enforce and maintain conventional gendered understandings of power, privilege and difference. Analyzes the political economy of the Disney phenomenon through a feminist lens.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**WGST 3267 (3) Women Writers**

This course explores how women write about a range of issues, some explicitly gendered, such as desire, sexuality, marriage, and family, and others perhaps less so, such as politics, justice, race, and class. We'll consider how women think about their craft, how they approach questions of art and beauty, and whether we should consider writing by women a separate category. Students will examine a range of literature by women, aiming to be inclusive and intersectional.

**Equivalent - Duplicate Degree Credit Not Granted:** ENGL 3267

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: English

**WGST 3300 (3) Gender, Sexuality and U.S. Law**

Contemporary and historic overview of U.S. courts' treatment of sex and gender. Using the case method, examines policy issues including, but not limited to: same sex marriage and civil unions; privacy; affirmative action; abortion; reproductive technologies; discrimination based on sex and sexual orientation in education and in the workplace.

**Equivalent - Duplicate Degree Credit Not Granted:** PSCI 3301

**Recommended:** Prerequisite WGST 2000 or PSCI 1101.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-U.S. Perspective

Departmental Category: Political Science

**WGST 3302 (3) Facilitating Peaceful Community Change**

Students gain knowledge and skills that enable them to become effective agents of community change. Focuses on understanding the processes of community building with a multicultural emphasis. Students are encouraged to apply their own life experiences and to examine themselves as potential change agents.

**Equivalent - Duplicate Degree Credit Not Granted:** INVS 3302

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**WGST 3311 (3) Gender and U.S. Politics: Protest, Polls and Policy**

Provides an overview and critical examination of women as political actors within the United States. Students will examine the gendered components of citizenship, election, political office and public policy. Furthermore, students will explore the ways in which gender intersects with class, race, ethnicity, sexual orientation and other identities in U.S. politics.

**Equivalent - Duplicate Degree Credit Not Granted:** PSCI 3311

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**WGST 3314 (3) Violence Against Women and Girls**

Focuses on aspects of the victimization of women and girls that are "Gendered" - namely, sexual abuse and intimate partner abuse. Also explores the importance of race, class and sexuality in gendered violence.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 3314 and SOCY 3314

**Recommended:** Prerequisite SOCY 1016 or WGST 1016.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**WGST 3400 (3) Gender, Personality, and Culture**

Explores the relationship among gender, culture and personality. Brings together the disciplines of psychology and sociology in the study of gender and personality formation through investigation of psychoanalytic theory and the social environment.

**Recommended:** Prerequisite WGST 2000 or WGST 2700.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**WGST 3410 (3) Gender, Sexuality and Culture in the Modern Middle East**

Examines the issues of gender and sexuality in the modern Middle East and North Africa from the colonial period to the present, focusing on how feminist movements, Arab women's writing, and constructions of gender and sexuality have been shaped by local, national and international factors. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** ARAB 3410

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Departmental Category: Arabic

**WGST 3500 (3) Global Gender Issues**

Introduces global gender issues, such as the gendered division of labor in the global economy, migration, women's human rights, environmental issues, gender violence in war, women in the military, nationalism and feminism and the representation of the Third World in the United States. Offers students the opportunity to broaden their perspectives beyond the borders of the United States.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite WGST 2000 or WGST 2050 or WGST 2600.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Asia Content

**WGST 3505 (3) Historical and Contemporary Issues of African American Women**

Explores the social, economic, political, historical and cultural role of African American women from an interdisciplinary perspective. Special emphasis is placed on African American women's rich oral and literary tradition.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite WGST 2000 or ETHN 1022 or ETHN 2001.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**WGST 3510 (3) Gender, Sexuality and Global Health**

Examines the intersections of gender, sexuality and health in global perspective. Explores how men's and women's health are shaped by gender and sexual relations in a wide range of social contexts, including South and Southeast Asia, Latin America, sub-Saharan Africa and the United States.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Diversity-Global Perspective

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Sociology

**WGST 3520 (3) Gender and Sexuality in Africa**

Examines the dramatic changes occurring across the continent of Africa that are currently reworking gender and sexuality. Foregrounds African conceptions of feminism, and explores a range contemporary issues, including gender & health, modern womanhood, new African masculinities, LGBTQ rights, and the gendered implications of environmental change.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Requisites WGST or WGST 2600.

**Additional Information:** Arts Sci Gen Ed: Diversity-Global Perspective

Arts Sci Gen Ed: Distribution-Social Sciences

**WGST 3600 (3) Latina/x Studies**

Drawing from work produced by and about Latinas/xs, discusses the social and cultural construction of race and ethnicity alongside gender and sexuality, the function of nationalism, the politics of migration and citizenship, Latina/x literary production and theory, historiographical trends, Latina feminist theory, activism and the academy, and Latina/x political organizing.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite WGST 2000 or WGST 2050 or WGST 2600.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**WGST 3601 (3) German Women Writers**

Explores writing by German/Austrian women from 1945 to the present, with special attention to the representation of the Holocaust, the continuation of avant-garde traditions, innovations in literary form and feminism. Visual arts, film and feminist theory will also be considered in their relation to literature. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** GRMN 3601

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Departmental Category: German

**WGST 3610 (3) Gender, Race, Science and Technology**

Examines the role of science and technology in forming conceptions of race, gender and class, and vice-versa. Considers how some populations benefit from scientific knowledge-production while others are excluded or come to be its subjects. Students will explore this knowledge production through historical, anthropological, literary, and philosophical investigations of technology and scientific inquiry.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Requisites WGST 2000 or WGST 2050 or WGST 2500 or WGST 2600.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-U.S. Perspective

**WGST 3620 (3) Women of Color and Activism**

Surveys the history of social activism in the United States by Women of Color with an emphasis on modes of social activism, issues that have organized specific communities of color, and issues that have crossed ethnic/racial boundaries. In order to offer students a historical understanding of how Women of Color have been marginalized, as well as how they have fought back against this marginalization, this course relies upon historical, sociological, and theoretical readings.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite WGST 2000 or WGST 2020 or WGST 2050 or WGST 2600.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**WGST 3640 (3) Black Feminist and Womanist Theories**

Examines theoretical and activist approaches concerning the oppression, agency, and liberation of Black girls, women, and femmes. Traces the development of Black feminisms and womanisms created, co-constructed, and advanced by Black women and femmes, including Black feminist thought, Africana womanism, intersectionality, Black trans feminism, hip hop feminism, pan-African feminism, and transnational Black feminism. Explores themes, assumptions, interventions, and variants of Black feminist and womanist theories and praxes.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite WGST 2000 or WGST 2020 or WGST 2050 or WGST 2600.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**WGST 3650 (3) Gender and Politics in Latin America**

Examines Latin American politics with particular focus on women's participation in social movements, war, revolution and elections. Compares women's and men's politics and activism and examines changing gender and sexuality policies, gender relations and the differential impact of political, economic, and social changes on men and women.

**Equivalent - Duplicate Degree Credit Not Granted:** PSCI 3052

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite WGST 2600 or PSCI 2012 or PSCI 3032.

**Additional Information:** Arts Sci Gen Ed: Diversity-Global Perspective

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Political Science

**WGST 3670 (3) Gender, Race, Sexuality and Global Migration**

Engages in an interdisciplinary study of the intersections of gender, race and sexuality that have created a multicultural, multiethnic and multiracial world. Focuses on the effects of political, economic, social and cultural forces on gender, race and sexuality in migrant communities.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite WGST 2000 or WGST 2600.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Diversity-Global Perspective

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Ethnic Studies

**WGST 3672 (3) Who Runs the World? Sex, Power, and Gender in Geography**

This course will examine how gender and sexuality is constructed locally, nationally, and globally, drawing on conversations about feminist pasts, presents, and futures. We will focus on how gender intersects with race, class, sexuality, ability, religion, ethnicity, and geopolitical location to structure the lived experiences of women across the globe. We will apply critical geographic perspectives to gender inequality, exploring the overlaps and differences in women's and LGBTQ+ struggles as they are shaped by ongoing socio-cultural, political, and economic conditions globally.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 3672

**Recommended:** Prerequisite GEOG 1982 or GEOG 1992 or GEOG 2002 or GEOG 2412 or WGST 2000 or WGST 2600.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Diversity-Global Perspective

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Geography

**WGST 3701 (3) Topics in U.S. Gender and Sexuality Studies (AH)**

Examines selected topics in women, gender and sexuality in the arts and humanities, from a U.S. perspective.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

**Recommended:** Prerequisite WGST 2000 or WGST 2600.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**WGST 3702 (3) Topics in U.S. Gender and Sexuality Studies (SS)**

Examines selected topics in women, gender and sexuality in the social sciences, from a U.S. perspective.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

**Recommended:** Prerequisite WGST 2000 or WGST 2600.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**WGST 3711 (3) Topics in Global Gender and Sexuality Studies (AH)**

Examines selected topics in women, gender and sexuality in the arts and humanities, from a global perspective.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite WGST 2000 or WGST 2600.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**WGST 3712 (3) Topics in Global Gender and Sexuality Studies (SS)**

Examines selected topics in women, gender and sexuality in the social sciences, from a global perspective.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

**Recommended:** Prerequisite WGST 2000 or WGST 2600.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**WGST 3750 (3) Women in Buddhism**

Explores diverse representations of the female in Buddhist literature and the social realities of actual women in Asian historical contexts. Through case studies that traverse Buddhist Asia, we delve into monastic views of the female body, philosophical analyses of the emptiness of gender, idealized images of the feminine in Buddhist tantra and contemporary issues such as the nun's revival moment.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 3750

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Religious Studies

Departmental Category: Asia Content

**WGST 3767 (3) Feminist Fictions**

Examines a series of literary texts to consider how writers across the world have used fiction to creatively stage and reimagine gender and sexuality. Attends to the formal and narrative techniques by which these texts call attention to the fictionality, and thereby the creative malleability, of gender itself. Some cinematic and performance texts will also be included.

**Equivalent - Duplicate Degree Credit Not Granted:** ENGL 3767

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Departmental Category: English

**WGST 3800 (3) Advanced Writing in Feminist Studies**

Offers expository writing and training in analytical and descriptive skills, structures or argument, critical thinking, the rhetoric of persuasion, and the development of a personal voice. Readings and papers focus on basic issues in gender studies.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite WGST 2000 or WGST 2600.

**Additional Information:** Arts Sci Core Curr: Written Communication

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Written Communication-Upper

**WGST 3930 (1-6) Women and Gender Studies Internship**

Provides field experience in local and national government and non-governmental agencies focusing on women and gender-related issues. Supervision by approved field instructors. Students must relate their academic experience to their field work experience through a portfolio and a final paper. Department enforced prerequisite: 6 hours of course work in Women and Gender Studies and 30 cumulative credit hours.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**WGST 3940 (1) Practicum in Women and Gender Studies**

Enriches the academic experience of majors and minors within Women and Gender Studies. Usually will combine readings from books with lectures and discussions, community outreach and in-house publications spanning the interdisciplinary focus of the department.

**Repeatable:** Repeatable for up to 4.00 total credit hours.

**Requisites:** Restricted to Womens Studies (WGST) majors or minors only.

**WGST 4001 (3) Advanced Topics in Gender and Sexuality Studies (AH)**

Provides and advanced interdisciplinary course organized around a specific issue in the social sciences relating to gender and sexuality.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 5001

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite WGST 2000 or WGST 2600.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**WGST 4002 (3) Advanced Topics in Gender and Sexuality Studies (SS)**

Provides an advanced interdisciplinary course organized around a specific issue in the arts and humanities relating to gender and sexuality.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 5002

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite WGST 2000 or WGST 2600.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**WGST 4010 (3) Gender, Genocide and Mass Trauma**

Studies the persistence of genocide and the effects of mass trauma on women and girls. Within the framework of political and social catastrophe, examines cataclysmic world events and the traumatic consequences for women of religious persecution, colonialism, slavery and the genocides of the 20th and 21st centuries.

**Equivalent - Duplicate Degree Credit Not Granted:** SOCY 4000

**Recommended:** Prerequisite SOCY 1016 or WGST 1016 or WGST 2000 or SOCY 3314 or WGST 3314.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Sociology

**WGST 4016 (3) Sex, Gender and Society 2**

Studies status and power differences between the sexes at individual, group and societal levels. Examines empirically established sex differences and reviews biological, psychological and sociological explanations for gender differences.

**Equivalent - Duplicate Degree Credit Not Granted:** SOCY 4016

**Requisites:** Requires a prerequisite course of SOCY 1016 or WGST 1016 or WGST 2000 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Sociology

**WGST 4073 (3) Performing Voices of Women**

Explores theories underlying the "feminine voice," varied perspectives in prose and poetry, ways of embodying these voices and perspectives in performance forms and ultimately the students' own voices through creation of autobiographical performance pieces (some to be presented for student audiences). Open to both men and women.

**Equivalent - Duplicate Degree Credit Not Granted:** THTR 4073

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Theatre

**WGST 4086 (3) Family and Society**

Studies the changing relationship between family and social structure. Examines variations in family organization and considers political, social, ideological, demographic and economic determinants of family formation.

**Equivalent - Duplicate Degree Credit Not Granted:** SOCY 4086

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite SOCY 3001.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Sociology

**WGST 4100 (3) Indigenizing Feminism: Literature, Art, Film**

Through analysis of literature and films by Indigenous and non-Indigenous writers and filmmakers, this course explores issues of gender in Indigenous communities in the Americas, gender and power distribution within Indigenous communities, related national and global politics, legal and economic systems, migration, and environmental issues, among other topics. This course also studies how colonization and the imposition of patriarchy has transformed Indigenous societies by diminishing the power, status, and material circumstances of Indigenous women.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite WGST 2000 or WGST 2600.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**WGST 4200 (3) Religion and Reproductive Politics in the United States**

Focuses primarily on how Protestant, Catholic, and Jewish conversations about sexuality and reproduction have shaped access and attitudes towards reproductive health in the US over the course of the twentieth and twenty-first centuries.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 4200, WGST 5200 and JWST 5200

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-U.S. Perspective

**WGST 4277 (3) Special Topics in Women Writers**

This course focuses on a special topic or issue in works written by women. Topics vary by semester, and may focus on a particular historical period or literary genre. Students may consider writing by women as itself a genre, asking what unites these works in terms of both subject and style. Check department description for details.

**Equivalent - Duplicate Degree Credit Not Granted:** ENGL 4277

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**WGST 4287 (3) Special Topics in Queer Literature**

This course will focus on a special topic in queer literature and non-normative genders and sexualities. Students will consider how literature reflects and represents understandings of sexuality, gender, desire, and more; the course may engage a variety of genres. Topics vary by semester. Check department description for details.

**Equivalent - Duplicate Degree Credit Not Granted:** LGBT 4287 and ENGL 4287

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**WGST 4300 (3) Sex, Power, Politics: International Perspectives**

Studies the commercial trade of sexual labor in the global economy, examining theories and assumptions about sexual-economic exchanges and gendered and racialized relations of power in the sex trade. Emphasizes prostitution.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite WGST 2600 or WGST 3100.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**WGST 4301 (3) Gender, Race and Immigration in Germany and Europe**

Introduces students to debates surrounding migration and race in contemporary Germany with comparisons to other European contexts. Emphasis on reading texts in context using tools of cultural studies, integrating analyses of gender, race, nation, and sexuality. Texts may include film, literature, television, social media, news media, political posters, etc. Topics include: race and racisms, Black and women of color feminisms, Roma feminisms, Muslim feminisms, notions of integration and citizenship, and more. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** GRMN 4301 and AHUM 4301 and GRMN 5301

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: German

**WGST 4331 (3) Gender, Race, Class, and Sexuality in Popular Culture**

Studies the construction, interconnections, and replications of gender, race, class and sexuality in popular culture and how these constructs become cultural norms and mores. Uses critical methods with a focus on producing responsible viewers and readers.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**WGST 4400 (3) Critical Inquiries in Transgender Studies**

Examines theories, methods and debates in the emerging field of transgender studies. Drawing on interdisciplinary perspectives, this course examines transgender identities, communities and political movements in different historical and cultural contexts. Focuses on crosscutting issues that shape transgender subjectivities, with special attention given to how transgender movements negotiate race, class, sexuality, labor, culture and nation.

**Equivalent - Duplicate Degree Credit Not Granted:** LGBT 5400 and LGBT 4400 and WGST 5400

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: LGBT Studies

**WGST 4471 (3) Women in 20th-21st Century Russian, East European and Eurasian Cultures**

Examines issues facing women in 20th-21st century Russia, East Europe, Caucasus and Central Asia, based on study of current events, history, literature, posters and film. Studies images of women as Amazons and rebels, salon hostesses and poets, New Soviet Women and women in combat, prostitutes and mothers. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** REES 4471 and REES 5471

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite lower level literature or culture course.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Russian

**WGST 4500 (3) Gender Politics and Global Activism**

Addresses the problems and challenges women face around the world and the ways in which women have mobilized to address them. Explores political activism at the local, national, regional and global levels. Focuses on different forms of activism, including strategies aimed at working with and within governmental institutions, as well as outside and against them.

**Equivalent - Duplicate Degree Credit Not Granted:** PSCI 4391

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite WGST 2000 or WGST 2600.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**WGST 4616 (3) History of Gender and Sexuality in the United States to 1870**

Examines the social history and cultural construction of genders and sexualities in America to 1870, exploring how discourses of race, religion, nationalism, medicine and criminality have shaped erotic encounters, informed gender and sexual identities a served as sites of political conflict.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 4616 and HIST 5616

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: History

**WGST 4619 (3) Women in East Asian History**

Considers major issues in the history of women in East Asia (China, Korea, Japan) in the 17th through 20th centuries. Focuses on gender roles in Asian family, state and cultural systems. Topic varies in any given semester.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 4619 and HIST 5619

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: History  
Departmental Category: Asia Content

**WGST 4620 (3) A Global History of Sexuality: The Modern Era**

Provides an introduction to the history of sexuality in the modern era through engagement with recent interdisciplinary research into what sexuality has meant in the everyday lives of individuals; in the imagined communities formed by the bonds of shared religion, ethnicity, language and national citizenship; on the global stage of cultural encounter, imperialist expansion, transnational migration and international commerce.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 4620

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**WGST 4626 (3) History of Gender and Sexuality in the United States from 1870**

Examines the social history and cultural construction of genders and sexualities in America from 1870, exploring how discourses of race, religion, nationalism, medicine and criminality have shaped erotic encounters, informed gender and sexual identities and served as sites of political conflict.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 4626

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: History

**WGST 4636 (3) Lesbian and Gay History: Culture, Politics, and Social Change in the U.S.**

Considers current theoretical approaches to the history of sexuality and traces the changing meaning of same-sex sexuality in the U.S. through investigation of lesbian and gay identity formation, community development, politics, and queer cultural resistance.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 4636 and HIST 5636

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite HIST 1015 or HIST 1025 or LGBT 2000 or WGST 2000 or WGST 2600.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**WGST 4640 (3) Women, Gender and War**

Study of how women experience war, how the structure, practice and memory of war, and the rights and obligations of military service (masculinity and femininity) are structured by the gender system.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 4640

**Recommended:** Prerequisite HIST 1015 or HIST 1020 or HIST 1025 or HIST 1123 or HIST 1628 or HIST 1708.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: History

**WGST 4800 (3) Senior Colloquium in Feminist Studies**

Provides students with the opportunity to actively reflect on their education and to complete a research project that incorporates an interdisciplinary and feminist approach to the study of gender, class, race, ethnicity and sexuality. Offered each spring.

**Requisites:** Requires prerequisite courses of (WGST 2000 or WGST 2600) and (WGST 3020 or WGST 3100) (all minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Womens Studies (WGST) majors or minors only.

**WGST 4840 (1-6) Independent Study**

Department enforced prerequisite: over minimum GPA of 3.3.

**Repeatable:** Repeatable for up to 7.00 total credit hours.

**WGST 4850 (3) Gender in Hagiography**

Explores gendered ideals of sainthood in medieval hagiographic literature. We draw primarily from the lives of female mystics in Buddhist and Christian sources and also examine the construction of mendicant masculinities. Reading from an array of primary sources, we query the category of mysticism and ask why visionary experience has so often been gendered female.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 4850 and RLST 5850

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Religioius Studies

**WGST 4950 (3) Honors Research**

For qualified Women and Gender Studies majors working on the research phase of departmental honors. Department enforced prerequisite: overall GPA of 3.3.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sciences Honors Course

**WGST 4999 (1-3) Senior Honors Thesis**

Qualified Women and Gender Studies majors may write an honors thesis, an in-depth research paper, on a topic of choice. Thesis hours available to majors only after successfully completing the research phase.

**Requisites:** Restricted to Womens Studies (WGST) majors only.

**Additional Information:** Arts Sciences Honors Course

## Women and Gender Studies - Bachelor of Arts (BA)

The interdisciplinary women and gender studies undergraduate major and minor offer students a rigorous and flexible program of study that examines women, gender and sexuality in relation to race, class, ability, nation and empire, among other variables. Students explore how gender and sexuality intersect with structures of power in a range of cultural, historical and geopolitical contexts. Drawing from approximately 50 courses, many cross-listed with other academic units, students fulfill the requirements of the major or minor and can design an emphasis relevant to their interests by focusing on one of three cognate areas: 1) gender/sexuality, 2) race/ethnicity and 3) global/transnational.

### Requirements

#### Program Requirements

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below.

Students must complete a minimum of 33 credit hours with grades of C- or better in approved women and gender studies courses, a minimum

of 24 credit hours of which must be upper-division (3000- or 4000-level). No more than 45 credits in WGST may be applied to overall graduation requirements. Students must have a grade point average of at least 2.000 in the major in order to graduate.

#### Required Courses and Credits

Code	Title	Credit Hours
<b>Required Courses</b>		
WGST 2000	Introduction to US Gender, Race and Sexuality Studies	3
or WGST 2600	Introduction to Global Gender, Race and Sexuality Studies	
WGST 3020	Feminist Methods of Inquiry and Praxis	3
WGST 3100	Feminist Theories	3
WGST 4800	Senior Colloquium in Feminist Studies	3
<b>Cognate Areas</b>		
At least three courses, one from each of the three cognate areas (see below)		9
<b>Electives <sup>1</sup></b>		
Two upper-division approved WGST elective courses (those listed under upper-division electives or cognate areas below)		6
Two additional lower- or upper-division approved WGST elective courses (see below)		6
<b>Total Credit Hours</b>		<b>33</b>

<sup>1</sup> Internships and independent study credit hours may apply, as well as special topics courses (WGST 3701, WGST 3702, WGST 3711, WGST 3712, WGST 4001 and WGST 4002); see advisor or department for more information.

#### Cognate Areas

Students must take three courses (for a total of 9 credit hours), one each from the three following cognate areas. Select topics offerings of special topics courses may apply to cognate areas; see advisor or department for more information.

#### Gender/Sexuality Cognate Area

Code	Title	Credit Hours
At least one course (3 credit hours) from the gender/sexuality cognate area		3
ETHN 4001	Screening Race, Class & Gender in the U.S. and the Global Borderland (may count for gender/sexuality or global/transnational, but not both)	
LGBT/ENGL 3796	Queer Theory	
RUSS 4251		
WGST/SOCY 3046	Topics in Sex and Gender	
WGST 3250	Disney's Women and Girls	
WGST 3300/ PSCI 3301	Gender, Sexuality and U.S. Law	
WGST/ETHN/ SOCY 3314	Violence Against Women and Girls	
WGST 3510	Gender, Sexuality and Global Health (may count for gender/sexuality or global/transnational, but not both)	

WGST 3520	Gender and Sexuality in Africa (may count for gender/sexuality or global/transnational, but not both)
WGST/ENGL 3767	Feminist Fictions (may count for gender/sexuality or global/transnational, but not both)
WGST 4010/ SOCY 4000	Gender, Genocide and Mass Trauma (may count for gender/sexuality or global/transnational, but not both)
WGST/SOCY 4016	Sex, Gender and Society 2
WGST/LGBT/ ENGL 4287	Special Topics in Queer Literature
WGST/LGBT 4400	Critical Inquiries in Transgender Studies
WGST/HIST 4620	A Global History of Sexuality: The Modern Era (may count for gender/sexuality or global/transnational, but not both)
WGST/HIST 4636	Lesbian and Gay History: Culture and Politics and Social Change in the U.S.

**Race/Ethnicity Cognate Area**

Code	Title	Credit Hours
At least one course (3 credit hours) from the race/ethnicity cognate area		3
DNCE 4017	Dancing Histories: Sex, Gender and Race in U.S. Concert Dance	
ETHN 3026	Women of Color: Chicanas in U.S. Society	
WGST/ETHN/ SOCY 3044	Race, Class, Gender, and Crime	
WGST 3135/ ETHN 3136	Chicana Feminisms and Knowledges	
WGST 3210/ ETHN 3213	American Indian Women	
WGST/PSCI 3311	Gender and U.S. Politics: Protest, Polls and Policy	
WGST 3505	Historical and Contemporary Issues of African American Women	
WGST 3600	Latina/x Studies	
WGST 3610	Gender, Race, Science and Technology	
WGST 3620	Women of Color and Activism	
WGST 3640	Black Feminist and Womanist Theories	
WGST 3650/ PSCI 3052	Gender and Politics in Latin America (may count for global/transnational or race/ethnicity, but not both)	
WGST 4100	Indigenizing Feminism: Literature, Art, Film (may count for global/transnational or race/ethnicity, but not both)	
WGST/GRMN 4301	Gender, Race and Immigration in Germany and Europe (may count for global/transnational or race/ethnicity, but not both)	
WGST/MDST 4331	Gender, Race, Class, and Sexuality in Popular Culture	
WGST/HIST 4619	Women in East Asian History	

**Global/Transnational Cognate Area**

Code	Title	Credit Hours
At least one course (3 credit hours) from the global/transnational cognate area		3
ANTH 3180	Gender, Culture, and Sexuality	
ETHN 4001	Screening Race, Class & Gender in the U.S. and the Global Borderland (may count for gender/sexuality or global/transnational, but not both)	
SOCY 4132	Gender, Islam and Modernity	
WGST/SOCY 3012	Gender and Development	
WGST 3220	Women in Islam	
WGST/ARAB 3410	Gender, Sexuality and Culture in the Modern Middle East	
WGST 3500	Global Gender Issues	
WGST 3510	Gender, Sexuality and Global Health (may count for gender/sexuality or global/transnational, but not both)	
WGST 3520	Gender and Sexuality in Africa (may count for gender/sexuality or global/transnational, but not both)	
WGST 3650/ PSCI 3052	Gender and Politics in Latin America	
WGST 3670	Gender, Race, Sexuality and Global Migration	
WGST/GEOG 3672	Who Runs the World? Sex, Power, and Gender in Geography	
WGST/ENGL 3767	Feminist Fictions (may count for gender/sexuality or global/transnational, but not both)	
WGST 4010/ SOCY 4000	Gender, Genocide and Mass Trauma (may count for gender/sexuality or global/transnational, but not both)	
WGST 4100	Indigenizing Feminism: Literature, Art, Film (may count for global/transnational or race/ethnicity, but not both)	
WGST 4300	Sex, Power, Politics: International Perspectives	
WGST/GRMN 4301	Gender, Race and Immigration in Germany and Europe (may count for global/transnational or race/ethnicity, but not both)	
WGST 4500/ PSCI 4391	Gender Politics and Global Activism	
WGST/HIST 4620	A Global History of Sexuality: The Modern Era (may count for gender/sexuality or global/transnational, but not both)	

**Lower-Division Electives**

Code	Title	Credit Hours
No more than 6 credit hours of lower-division electives		0-6
LING 2400	Language, Gender and Sexuality	
LGBT/ENGL 2707	Introduction to Queer Literature	
WGST/SOCY 1006 or WGST 1016	The Social Construction of Sexuality Sex, Gender, and Society 1	

or SOCY 1016	Sex, Gender, and Society 1
WGST/ENGL 1250	Introduction to World Literature by Women
or WGST 1270	Introduction to American Literature by Women
or ENGL 1270	Introduction to American Literature by Women
WGST 2020	Femininities, Masculinities, Alternatives
WGST 2030/ LGBT 2000	Introduction to Lesbian, Gay, Bisexual, and Transgender Studies
WGST 2050	Gender, Sexuality, and Popular Culture
WGST/CLAS 2100	Gender and Sexuality in Ancient Greece
WGST/CLAS 2110	Gender and Sexuality in Ancient Rome
WGST 2200	Women, Gender, Literature, and the Arts
WGST/PHIL 2290	Philosophy and Gender
WGST 2500	Gender, Race, Sex and the Body
WGST/PSYC 2700	Psychology of Gender and Sexuality
WGST/RLST 2800	Women and Religion

### Upper-Division Electives

Code	Title	Credit Hours
------	-------	--------------

Select additional courses from the three cognate areas above or from the following upper-division electives below, total credits toward the degree must equal 33 credit hours

ARTH 3209		6-12
CINE 3013	Women and Film	
COMM 3420	Gender and Communication	
ENGL 3217	Topics in Gender and Sexuality	
ITAL 4730	Italian Feminisms: Culture, Theory, and Narratives of Difference	
PSYC 4553	Women's Mental Health: A Biopsychosocial Approach	
WGST/SOCY 3016	Marriage and the Family in the United States	
WGST/PHIL 3110	Feminist Practical Ethics	
WGST/PSCI 3174	Sex, Power, and Politics: U.S. Perspectives	
WGST/JWST 3200	Religion and Feminist Thought	
WGST 3201/ JWST 3202/RLST 3202	Women, Gender & Sexuality in Jewish Texts & Traditions	
WGST/ENGL 3267	Women Writers	
WGST/INVS 3302	Facilitating Peaceful Community Change	
WGST 3400	Gender, Personality, and Culture	
WGST/GRMN 3601	German Women Writers	
WGST/RLST 3750	Women in Buddhism	
WGST 3800	Advanced Writing in Feminist Studies	
WGST/THTR 4073	Performing Voices of Women	
WGST/SOCY 4086	Family and Society	
WGST/JWST 4200	Religion and Reproductive Politics in the United States	
WGST/ENGL 4277	Special Topics in Women Writers	
WGST/RUSS 4471	Women in 20th-21st Century Russian, East European and Eurasian Cultures	

WGST/HIST 4616	History of Gender and Sexuality in the United States to 1870
WGST/HIST 4626	History of Gender and Sexuality in the United States from 1870
WGST/HIST 4640	Women, Gender and War
WGST/RLST 4850	Gender in Hagiography

### Honors

Students may take up to 6 credit hours of honors in women and gender studies; credit hours apply to upper-division electives in the major.

For more information about pursuing departmental honors, visit the department honors (<http://www.colorado.edu/wgst/students/undergraduates/wgst-honors-program/>) webpage and the main Honors Program (<http://www.colorado.edu/honors/graduation/>) webpage describing qualifications, requirements and deadlines.

Code	Title	Credit Hours
WGST 4950	Honors Research	3
WGST 4999	Senior Honors Thesis	1-3

### Internship

Students may take up to 6 credit hours of internship in women and gender studies; credit hours apply to upper-division electives in the major. See advisor or department for more information.

Code	Title	Credit Hours
WGST 3930	Women and Gender Studies Internship	1-6

### Special Topics

Students may take up to 6 credit hours in WGST topics courses; course topics vary each semester. Ask the women and gender studies advisor or department about how each course applies to major cognate area requirements, if applicable.

Code	Title	Credit Hours
WGST 3701	Topics in U.S. Gender and Sexuality Studies (AH)	3
WGST 3702	Topics in U.S. Gender and Sexuality Studies (SS)	3
WGST 3711	Topics in Global Gender and Sexuality Studies (AH)	3
WGST 3712	Topics in Global Gender and Sexuality Studies (SS)	3
WGST 4001	Advanced Topics in Gender and Sexuality Studies (AH)	3
WGST 4002	Advanced Topics in Gender and Sexuality Studies (SS)	3

### Graduating in Four Years

Consult the Four-Year Guarantee Requirements for more information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in women and gender studies, students should meet the following requirements:

- By the beginning of the second semester, declare the major.
- By the end of the fourth semester, complete WGST 2000 or WGST 2600, WGST 3020 and 9 additional credit hours of major requirements.
- By the end of the sixth semester, complete WGST 3100 and 6 additional credit hours of major requirements (24 credit hours total of the major requirements completed).
- During the seventh and eighth semester, complete WGST 4800 and 6 additional credit hours of the major requirements.

Students should consult with their advisor for specific recommendations. The following sample plan will outline the major requirements, but the order of some classes can vary greatly. It is important for students to check the degree audit and work with the major advisor each semester to make sure of the requirements and graduation timeline.

## Four-Year Plan of Study

Through the required coursework for the major, students will complete 9 credit hours of the Social Sciences area of the Gen Ed Distribution Requirement and both the US Perspective and Global Perspective categories of the Gen Ed Diversity Requirement. Depending on other courses taken for the major, students could easily complete the remaining 3 credit hours in the Social Sciences area and much of the Arts and Humanities area of the Gen Ed Distribution Requirement.

### Year One

Fall Semester		Credit Hours
WGST 2000 or WGST 2600	Introduction to US Gender, Race and Sexuality Studies or Introduction to Global Gender, Race and Sexuality Studies	3
Gen. Ed. Distribution course (example: Natural Sciences with Lab)		4
Gen. Ed. Skills course (example: Lower-division Written Communication)		3
Elective/MAPS		3
Elective/MAPS		3
<b>Credit Hours</b>		<b>16</b>

### Spring Semester

WGST Lower-division elective		3
Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/Global Perspective)		3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Elective/MAPS		3
Elective		3
<b>Credit Hours</b>		<b>15</b>

### Year Two

Fall Semester		Credit Hours
WGST 3020	Feminist Methods of Inquiry and Praxis	3
WGST Lower- or upper- division elective		3
Gen. Ed. Skills course (QRMS)		3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Elective		3
<b>Credit Hours</b>		<b>15</b>

### Spring Semester

WGST Cognate area requirement or upper-division elective (one course from each of three cognate areas required)		3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Elective		3
Elective		3
Elective		3
<b>Credit Hours</b>		<b>15</b>

### Year Three

Fall Semester		Credit Hours
WGST Cognate area requirement or upper-division elective (one course from each of three cognate areas required)		3
WGST 3800	Advanced Writing in Feminist Studies (not required, but fulfills Gen. Ed. Skills: Upper-division Written Communication and WGST Elective)	3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Elective		3
Elective		3
<b>Credit Hours</b>		<b>15</b>

### Spring Semester

WGST 3100	Feminist Theories	3
WGST Cognate area requirement or upper-division elective (one course from each of three cognate areas required)		3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Elective (Upper Division)		3
Elective		3
<b>Credit Hours</b>		<b>15</b>

### Year Four

Fall Semester		Credit Hours
WGST Cognate area requirement or upper-division elective (one course from each of three cognate areas required)		3
Elective or Gen. Ed. Distribution course (example: Arts & Humanities, if needed)		3
Elective (Upper Division)		3
Elective (Upper Division)		3
Elective or Upper-division Elective (if needed)		3
<b>Credit Hours</b>		<b>15</b>

### Spring Semester

WGST 4800	Senior Colloquium in Feminist Studies	3
WGST Cognate area requirement or upper-division elective (one course from each of three cognate areas required)		3
Gen. Ed. Distribution course (example: Social Sciences, if needed)		3
Elective (Upper Division)		3
Elective (Upper Division)		3
<b>Credit Hours</b>		<b>15</b>
<b>Total Credit Hours</b>		<b>121</b>

## Knowledge

Students will be able to:

- Analyze how power and privilege function at the intersection of gender, sexuality, race, class, ability, nationality and colonialism.

- Think critically about the historical and global variability of social norms of gender and sexuality.
- Identify the varying forms of feminism across the globe, and the relationships between feminism and other movements for social justice.

## Practical Skills

Students completing their degree with the Department of Women and Gender Studies are expected to acquire the ability and skills to:

- Analyze a range of social events, structures and movements using intersectional and decolonial feminist theories.
- Communicate complex ideas from the field of women and gender studies to academic and general audiences.
- Work collaboratively to implement and organize around a range of theoretical and methodological perspectives used in women, gender, and sexuality studies.

## Women and Gender Studies - Minor

The interdisciplinary women and gender studies minor offer students a rigorous and flexible program of study that examines women, gender and sexuality in relation to race, class, ability, nation and empire, among other variables. Students explore how gender and sexuality intersect with structures of power in a range of cultural, historical and geopolitical contexts. Drawing from approximately 50 courses, many cross-listed with other academic units, students fulfill the requirements of the minor and can design an emphasis relevant to their interests by focusing on one of three cognate areas: 1) gender/sexuality, 2) race/ethnicity and 3) global/transnational.

Declaration of a minor is open to any student enrolled at CU Boulder, regardless of college or school.

## Requirements

### Required Courses and Credits

Students must complete a minimum of 18 credit hours with grades of C- or better in approved women and gender studies courses, 12 credit hours of which must be upper division (3000 or 4000 level). Students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward a minor.

Code	Title	Credit Hours
<b>Required Courses</b>		
WGST 2000	Introduction to US Gender, Race and Sexuality Studies	3
or WGST 2600	Introduction to Global Gender, Race and Sexuality Studies	
WGST 3020	Feminist Methods of Inquiry and Praxis	3
WGST 3100	Feminist Theories	3
<b>Cognate Areas</b>		
One course each from two of the three cognate areas (see below)		6
<b>Electives <sup>1</sup></b>		
Any lower- or upper-division course listed below that has not been used to fulfill any other minor requirements.		3
<b>Total Credit Hours</b>		<b>18</b>

<sup>1</sup> Internships and independent study credit hours may apply, as well as special topics courses (WGST 3701, WGST 3702, WGST 3711, WGST 3712, WGST 4001 and WGST 4002); see advisor or department for more information.

## Cognate Areas

Students must take one course each from two different cognate areas for a total of 6 credit hours. Select topics offerings of special topics courses may apply to cognate areas; see advisor or department for more information.

### Gender/Sexuality Cognate Area

Code	Title	Credit Hours
Gender/Sexuality 0-3		
ETHN 4001	Screening Race, Class & Gender in the U.S. and the Global Borderland (may count for gender/sexuality or global/transnational, but not both)	
LGBT/ENGL 3796	Queer Theory	
RUSS 4251		
WGST/SOCY 3046	Topics in Sex and Gender	
WGST 3250	Disney's Women and Girls	
WGST 3300/ PSCI 3301	Gender, Sexuality and U.S. Law	
WGST/ETHN/ SOCY 3314	Violence Against Women and Girls	
WGST 3510	Gender, Sexuality and Global Health (may count for gender/sexuality or global/transnational, but not both)	
WGST 3520	Gender and Sexuality in Africa (may count for gender/sexuality or global/transnational, but not both)	
WGST/ENGL 3767	Feminist Fictions (may count for gender/sexuality or global/transnational, but not both)	
WGST 4010/ SOCY 4000	Gender, Genocide and Mass Trauma (may count for gender/sexuality or global/transnational, but not both)	
WGST/SOCY 4016	Sex, Gender and Society 2	
WGST/LGBT/ ENGL 4287	Special Topics in Queer Literature	
WGST/LGBT 4400	Critical Inquiries in Transgender Studies	
WGST/HIST 4620	A Global History of Sexuality: The Modern Era (may count for gender/sexuality or global/transnational, but not both)	
WGST/HIST 4636	Lesbian and Gay History: Culture and Politics and Social Change in the U.S.	

### Race/Ethnicity Cognate Area

Code	Title	Credit Hours
Race/Ethnicity 0-3		
DNCE 4017	Dancing Histories: Sex, Gender and Race in U.S. Concert Dance	
ETHN 3026	Women of Color: Chicanas in U.S. Society	
WGST/ETHN/ SOCY 3044	Race, Class, Gender, and Crime	

WGST 3135/ ETHN 3136	Chicana Feminisms and Knowledges
WGST 3210/ ETHN 3213	American Indian Women
WGST/PSCI 3311	Gender and U.S. Politics: Protest, Polls and Policy
WGST 3505	Historical and Contemporary Issues of African American Women
WGST 3600	Latina/x Studies
WGST 3610	Gender, Race, Science and Technology
WGST 3620	Women of Color and Activism
WGST 3640	Black Feminist and Womanist Theories
WGST 3650/ PSCI 3052	Gender and Politics in Latin America (may count for global/transnational or race/ethnicity, but not both)

WGST/ENGL 3267	Women Writers
WGST/INVS 3302	Facilitating Peaceful Community Change
WGST 3400	Gender, Personality, and Culture
WGST/GRMN 3601	German Women Writers
WGST/RLST 3750	Women in Buddhism
WGST 3800	Advanced Writing in Feminist Studies
WGST/THTR 4073	Performing Voices of Women
WGST/SOCY 4086	Family and Society
WGST/JWST 4200	Religion and Reproductive Politics in the United States
WGST/ENGL 4277	Special Topics in Women Writers
WGST/RUSS 4471	Women in 20th-21st Century Russian, East European and Eurasian Cultures
WGST/HIST 4616	History of Gender and Sexuality in the United States to 1870
WGST/HIST 4626	History of Gender and Sexuality in the United States from 1870
WGST/HIST 4640	Women, Gender and War
WGST/RLST 4850	Gender in Hagiography

## Global Gender and Sexuality Studies - Certificate

The Department of Women and Gender Studies offers an undergraduate certificate in global gender and sexuality studies. The ever-increasing movement of people, commodities, politics and culture that define "globalization" affects all of us in different ways.

The certificate in global gender and sexuality studies provides students with an opportunity to study how individuals and groups from diverse gender, racial, ethnic, national, class and sexual backgrounds engage with the world and how processes of global change shape gender relations locally, nationally and internationally. The certificate is designed for students who wish to understand, analyze and respond to these dramatic global transformations and their impact on women and gender relations. The certificate complements students' majors and interests and prepares them for graduate studies and employment.

This interdisciplinary undergraduate certificate program takes advantage of the research strengths of the department's core and associate faculty and enhances the experience of undergraduate students in

any major, including international affairs, political science, history, ethnic studies, geography, English, anthropology, sociology, integrative physiology, environmental studies and many others. Career specialization in international gender and sexuality has grown in both the private and public sectors, including fields such as international development, finance, public health, public policy and education.

For more details including application instructions, visit the Undergraduate Certificate in Global Gender & Sexuality Studies (<http://www.colorado.edu/wgst/ggss/>) webpage or email [wgst@colorado.edu](mailto:wgst@colorado.edu).

## Requirements

### Required Courses and Credits

Certificate requirements include 18 credit hours of specified coursework, including 12 credit hours at the upper-division level. A maximum of 6 credit hours transferred from other institutions will be accepted

Code	Title	Credit Hours
<b>Required Courses</b>		
<i>Lower-Division Required Course</i>		<b>3</b>
WGST 2600	Introduction to Global Gender, Race and Sexuality Studies	
<i>Upper-Division Required Courses</i>		<b>6</b>
Choose two:		
WGST 3500	Global Gender Issues	
WGST 3510	Gender, Sexuality and Global Health	
WGST 3520	Gender and Sexuality in Africa	
WGST 3650/ PSCI 3052	Gender and Politics in Latin America	
WGST 3711	Topics in Global Gender and Sexuality Studies (AH)	
or WGST 3712	Topics in Global Gender and Sexuality Studies (SS)	
WGST/ENGL 3767	Feminist Fictions	
WGST 4010/ SOCY 4000	Gender, Genocide and Mass Trauma	
WGST 4100	Indigenizing Feminism: Literature, Art, Film	
WGST 4300	Sex, Power, Politics: International Perspectives	
WGST 4500/ PSCI 4391	Gender Politics and Global Activism	
WGST/HIST 4620	A Global History of Sexuality: The Modern Era	
<b>Elective Courses</b>		<b>9</b>
<i>Lower-Division Electives</i>		
No more than 3 credit hours		
WGST 2050	Gender, Sexuality, and Popular Culture	
ANTH 1170	Exploring Culture and Gender through Film	
LING 2400	Language, Gender and Sexuality	
<i>Upper-Division Electives</i>		
Choose from the upper-division requirements listed above as well as the following courses, 6-9 credit hours		
WGST/SOCY 3012	Gender and Development	

WGST 3201/ JWST 3202/RLST 3202	Women, Gender & Sexuality in Jewish Texts & Traditions
WGST/SCAN 3208	Women in Nordic Society: Modern States of Welfare
WGST 3210/ ETHN 3213	American Indian Women
WGST 3220	Women in Islam
WGST/ARAB 3410	Gender, Sexuality and Culture in the Modern Middle East
WGST 3670	Gender, Race, Sexuality and Global Migration
WGST/GEOG 3672	Who Runs the World? Sex, Power, and Gender in Geography
WGST/GRMN 4301	Gender, Race and Immigration in Germany and Europe
WGST/HIST 4619	Women in East Asian History
WGST/HIST 4640	Women, Gender and War
ETHN/CINE 4001	Screening Race, Class & Gender in the U.S. and the Global Borderland
ANTH 4505	Globalization and Transnational Culture

**Total Credit Hours** **18**

Appropriate topics courses offered by other departments and programs—those that deal centrally with issues of gender and/or sexuality in global context—may count for upper division elective credit with the permission of the department's director of undergraduate studies. Students must get the director's approval beforehand, or credit toward the certificate is not guaranteed.

### Education Abroad and CU Global Seminars

Appropriate education abroad courses and CU Global Seminars that deal centrally with issues of gender and/or sexuality in global context may count for lower- or upper-division elective credit with the permission of the department's director of undergraduate studies. Only CU-sponsored education abroad programs and Global Seminars will count as CU credit. Appropriate education abroad courses taken through other accredited study abroad programs may count for elective transfer credit with the permission of the director of undergraduate studies. In all of these cases, students must get the director's approval beforehand, or credit toward the certificate is not guaranteed.

## Writing and Rhetoric, Program for

The Program for Writing and Rhetoric (PWR) is the disciplinary home for Writing Studies in the College of Arts and Sciences and is responsible for campus-wide instruction in writing. The program coordinates and oversees all writing curricula and instruction intended to meet college and campus requirements, including efforts in specific disciplines and targeted campus programs.

The program is committed to training students to think critically about the writing they produce and the texts they read, and to enable them to shape and express ideas with clarity and grace in any context: academic, professional or civic. Classes are generally conducted as intensive writing workshops, placing a premium on thoughtful, substantive revision.

The program offers both lower-division and upper-division courses, as well as some graduate seminars. Certain undergraduate courses fulfill the College of Arts and Sciences written communication requirement,

and some also fulfill graduation requirements in other colleges. Students should check with their advisors to be sure that they are taking the right course to fulfill their requirement.

For information about specific classes and their instructors, students should visit [www.colorado.edu/pwr](http://www.colorado.edu/pwr) (<http://www.colorado.edu/pwr/>).

## Courses

### WRTG 1100 (4) Extended First-Year Writing and Rhetoric

Extended version of WRTG 1150 intended for students desiring more preparation and practice in college writing. Meets the same goals and fulfills the same requirements as WRTG 1150. Includes one-hour recitation for small group work. Focuses on rhetorical analysis, argument, inquiry and information literacy. Taught as a writing workshop, the course emphasizes practicing strategies for all phases of the writing process. For placement criteria, see the arts and sciences advising office.

**Repeatable:** Repeatable for up to 8.00 total credit hours.

**Additional Information:** GT Pathways: GT-CO2 - Communication

Arts Sci Core Curr: Written Communication

Arts Sci Gen Ed: Written Communication-Lower

MAPS Course: English

### WRTG 1150 (3) First-Year Writing and Rhetoric

Rhetorically informed introduction to college writing. Focuses on rhetorical analysis, argument, inquiry and information literacy. Taught as a writing workshop, the course emphasizes practicing writing strategies for all phases of the writing process. For placement criteria, see the arts and sciences advising office.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** GT Pathways: GT-CO2 - Communication

Arts Sci Core Curr: Written Communication

Arts Sci Gen Ed: Written Communication-Lower

MAPS Course: English

### WRTG 1160 (3) CMCI First-Year Writing and Rhetoric

Rhetorically informed introduction to college writing for CMCI students enrolled in CMCI 1040. Focuses on rhetorical analysis, argument, inquiry, and information literacy. Taught as a writing workshop, the course emphasizes practicing writing strategies for all phases of the writing process.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to College of Media, Communication, and Information (CMCI) undergraduate students only.

**Additional Information:** GT Pathways: GT-CO2 - Communication

Arts Sci Gen Ed: Written Communication-Lower

### WRTG 1250 (3) Advanced First-Year Writing and Rhetoric

Advanced version of WRTG 1150 intended for more experienced writers, this course meets the same goals and fulfills the same requirements as WRTG 1150 but at a more challenging level. Focuses on rhetorical analysis, argument, inquiry, and information literacy. Taught as a writing workshop, the course emphasizes practicing writing strategies for all phases of the writing process. For placement criteria, see the arts and sciences advising office.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** GT Pathways: GT-CO2 - Communication

Arts Sci Core Curr: Written Communication

Arts Sci Gen Ed: Written Communication-Lower

MAPS Course: English

### WRTG 1840 (1-3) Independent Study in Writing

**Repeatable:** Repeatable for up to 8.00 total credit hours.

### WRTG 2000 (3) Information and Society

In an information economy, few skill sets are as fundamental to our civic, economic, and environmental well-being as information literacy. This writing course will train students to produce, categorize, and analyze information in academic and real-world contexts. In addition to information literacy, we will examine the writing thresholds and habits of mind conducive to the effective uses of information. Through extensive use of digital technologies, students will equally cultivate the skills of digital literacy.

**Recommended:** Prerequisite WRTG 1150 or equivalent.

### WRTG 2020 (3) Introduction to Creative Nonfiction

Explores from both the reader's and writer's perspectives the forms of creative nonfiction, including personal essay and memoir. Students will read and write extensively within this genre, develop skill in revision and peer critique and learn how to submit work for publication. Does not fulfill core requirements. Department enforced prerequisite: WRTG 1150 or equivalent (completion of lower-division writing requirement).

### WRTG 2090 (3) Electives in Writing

Explores a variety of academic and professional writing genres, ranging from research to technical writing, in intensive workshops. Students read and write extensively across genres. Check with program for semester offerings. Designed for self-motivated students in all majors. Does not fulfill core requirements. Department enforced prereq., WRTG 1150 or equivalent (completion of lower-division writing requirement)

**Repeatable:** Repeatable for up to 6.00 total credit hours.

### WRTG 2095 (3) Ideas for Social Change

Introduces key concepts and practices central to understanding historical and contemporary social movements in the U.S. Grounded in theories about discourse, bodies, culture, and power, the course is taught through various frameworks such as intersectionality, rhetoric, critical race theory, feminism, queer studies, decolonial studies, and/or LGTBQ+ studies. Students will discover, identify, and analyze social issues of significance to them; practice developing their own visions for social change; and present their visions in public-facing multi-modal genres. Formerly offered as a special topics course.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

### WRTG 2930 (1-6) Internship in Writing and Rhetoric

Provides academically supervised opportunity for undergraduate students to engage in writing and rhetoric as a practical and productive art. Students may work in a variety of organizations (public/government/civic/private) on writing-intensive projects related to their career goals, and thereby connect classroom theory to real-world practice. Prior approval of PWR internship coordinator required.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** This course is restricted to students with 30 credits (Sophomores) with a 3.0 cumulative GPA.

### WRTG 3007 (3) Writing in the Visual Arts

Enables students in the arts to improve their writing skills through organization, presentation, critique and revision. Writing assignments include formal writing (analysis and argument), informal writing and grant proposals. Department enforced prerequisite: WRTG 1150 or equivalent (completion of lower-division writing requirement).

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) AAAH or FILM/FMST or AASA or AASF or THTR or TBFA or DNCE or DBFA or AMST or ARCH or ATLS or BASA or CLAS or DSGN or ETHN or JADV or MDST or RLST or TMEN or EDUC majors only.

**Additional Information:** GT Pathways: GT-CO3 - Communication:

Advanced Writing Course

Arts Sci Core Curr: Written Communication

Arts Sci Gen Ed: Written Communication-Upper

**WRTG 3020 (3) Topics in Writing**

Through sustained inquiry into a selected topic or issue, students will practice advanced forms of academic writing. Emphasizes analysis, criticism and argument. Taught as a writing seminar, places a premium on substantive, thoughtful revision. Department enforced prerequisite: WRTG 1150 or equivalent (completion of lower-division writing requirement).

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students w/ 57-180 credits (Jr or Sr) in Arts Sciences (ARSCU), College of Media, Communication Info (CMCIU) or School of Education (EDUCU) or Business (BUSNU) or Comp Sci Bachelor of Arts (CSEN-BA) or Prog in Env Design (ARPLU) only.

**Additional Information:** Arts Sci Core Curr: Written Communication  
Arts Sci Gen Ed: Written Communication-Upper

**WRTG 3030 (3) Writing on Science and Society**

Through selected reading and writing assignments, students consider ethical and social ramifications of science policy and practice. Focuses on critical thinking, revision, analytical writing, and oral presentation. Taught as a writing seminar, the course addresses communication with professional and non-technical audiences.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits in Engineering, MCDB, EBIO, GEOL, ASTR, IPHY, PHYS, MATH, ECON, BCHM, CHEM, PSYC, NRSC, EDUC, ATOC, GEOG, CSCI or Program in Env Des (ARPLU) majors only.

**Additional Information:** GT Pathways: GT-CO3 - Communication:  
Advanced Writing Course  
Arts Sci Core Curr: Written Communication  
Arts Sci Gen Ed: Written Communication-Upper

**WRTG 3035 (3) Technical Communication and Design**

Rhetorically informed introduction to technical writing that hones communication skills in the context of technical design activities. Treats design as a collaborative, user-oriented, problem-based activity, and technical communication as a rhetorically informed and persuasive design art. Taught as a writing seminar emphasizing critical thinking, revision, and oral presentation skills. Focuses on client-driven design projects and effective communication with multiple stakeholders.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** GT Pathways: GT-CO3 - Communication:  
Advanced Writing Course  
Arts Sci Core Curr: Written Communication  
Arts Sci Gen Ed: Written Communication-Upper

**WRTG 3040 (3) Writing on Business and Society**

Through selected reading and writing assignments, students examine ethical and social issues in the context of business decision-making processes. Focuses on critical thinking, revision, analytical writing and oral presentation. Taught as a writing seminar, the course emphasizes effective communication with professional and non-technical audiences. Department enforced prerequisite: WRTG 1150 or equivalent (completion of lower-division writing requirement).

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Core Curr: Written Communication  
Arts Sci Gen Ed: Written Communication-Upper

**WRTG 3045 (3) Writing for Emerging Workplaces**

A rhetorically-informed professional writing course addressing key competencies needed in emerging workplaces. Intended for juniors and seniors from a wide range of majors who anticipate working in communication-intensive capacities. Taught as a writing seminar inspired by design thinking, with a focus on prototyping, revision, critical thinking, and collaborative engagement. Key topics: the future of work, rapid prototyping of career options, proposal writing, writing for policy debates, data analysis and visualization, report writing, and advanced oral presentation and multimedia skills. Satisfies A&S Upper-Division Written Communication requirement.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Written Communication-Upper

**WRTG 3070 (3) Advocating with Data**

Teaches how to use data and data-driven arguments to advocate for change on issues of concern. Via rhetorical and other critical frameworks, explores definitions of data and its relations to power, publics, and justice. Students will produce persuasive texts, including multimodal texts and data visualizations, intended for real-world advocacy and publication in a variety of media and genres. Taught as a writing workshop, with a focus on revision, critical thinking, and collaborative engagement.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Written Communication-Upper

**WRTG 3090 (1-3) Open Topics in Writing: Advanced**

Advanced topics course providing intensive, specialized writing instruction in selected topics. Check with the program for semester offerings. Does not fulfill core requirements. Department enforced prerequisite: WRTG 3007 or WRTG 3020 WRTG 3030 or WRTG 3035 or WRTG 3040 or instructor consent required.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**WRTG 3400 (3) Race and Epistemic Justice**

This course will study the visual construction of race in the United States from the slavery era to the digital age. Through analyses of diverse media (photography, cinema, television, and digital platforms), we will interrogate testimony, witnessing, and visual self-creation as long-standing forms of political agency in the United States. Finally, we will test the hypothesis that epistemic justice  $\hat{z}$  equal treatment of one another as knowers and documenters  $\hat{z}$  is an inseparable component of racial justice.

**Equivalent - Duplicate Degree Credit Not Granted:** AHUM 3400

**WRTG 3840 (1-3) Independent Study**

Department enforced prerequisite: WRTG 3007 or WRTG 3020 or WRTG 3030 or WRTG 3035 or WRTG 3040 or instructor consent required.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**WRTG 3930 (1-6) Internship in Writing and Rhetoric**

Provides academically supervised opportunity for undergraduate students to engage in writing and rhetoric as a practical and productive art. Students may work in a variety of organizations (public/government/civic/private) on writing-intensive projects related to their career goals, and thereby connect classroom theory to real-world practice. Prior approval of PWR internship coordinator required.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** This course is restricted to students with 57 credits (Juniors) with a 3.0 cumulative GPA.

**WRTG 4910 (1-3) Portfolio Curation in Writing and Rhetoric**

Provides academically supervised opportunity for undergraduate students to curate, reflect on and synthesize their learning over a range of courses through the production of an electronic portfolio. One credit hour required of students seeking the Interdisciplinary Writing Certificate. Approval of PWR Certificate coordinator required prior to registration.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors). Requires cumulative GPA of 3.0 or higher.

## Writing - Certificate

The interdisciplinary certificate in writing allows CU Boulder undergraduates to gain an understanding of and demonstrate expertise in writing studies, broadly defined. The certificate offers a curriculum that goes well beyond the writing courses that schools and colleges require of all students, thereby complementing a student's academic major, preparing students for professional life and enriching students' awareness of writing as a life-long tool for civic engagement. The certificate communicates the importance placed on writing well, and documents accomplishments of interest to graduate programs or workplaces emphasizing effective communication skills.

The certificate in writing is housed in the Program for Writing and Rhetoric (PWR), and the curriculum is intentionally interdisciplinary. Participating units beyond PWR include English, linguistics, communication, journalism, media studies and education. The certificate includes a practicum component, and culminates in a curated electronic portfolio that students can use as they pursue further professional interests.

## Requirements

Students must complete at least 18 credit hours, 9 of which must be upper-division, and adhere to the following:

- At least 6 credit hours: WRTG courses within the PWR (not including 1000-level courses).
- At least 6 credit hours: courses from outside of the PWR.
- At least 1 credit hour: required portfolio curation pass/fail course, and practicum course(s) focusing on applied professional work.

No more than two courses (6 credit hours) can be counted from a student's major, and no more than 6 credit hours of transfer work from another institution may be applied to the certificate.

## Overview of Required Courses

Code	Title	Credit Hours
<b>Writing and Rhetoric Courses</b>		
Select at least two courses (6 credits) from the following:		6
WRTG 2000	Information and Society	

WRTG 2020	Introduction to Creative Nonfiction
WRTG 2090	Electives in Writing
WRTG 2930	Internship in Writing and Rhetoric
WRTG 3007	Writing in the Visual Arts
WRTG 3020	Topics in Writing
WRTG 3030	Writing on Science and Society
WRTG 3035	Technical Communication and Design
WRTG 3040	Writing on Business and Society
WRTG 3045	Writing for Emerging Workplaces
WRTG 3090	Open Topics in Writing: Advanced
WRTG 3840	Independent Study
WRTG 3930	Internship in Writing and Rhetoric

**Courses Outside Writing & Rhetoric**

Select at least two courses (6 credits) outside of the PWR. See details below. 6

<b>Portfolio Curation &amp; Practicum Course(s)</b>		1
WRTG 4910	Portfolio Curation in Writing and Rhetoric	
<b>Electives</b>		5
<b>Total Credit Hours</b>		18

## About the Requirements

**Courses from Outside the Program for Writing and Rhetoric**

Select at least two courses (6 credits) outside the program from the following two categories, in any combination.

**Courses that Fulfill the A&S Upper-Division Written Communication Requirement**

Code	Title	Credit Hours
ARSC 3100	Multicultural Perspective and Academic Discourse	3
CHIN 3200	Adv Wrtg Topics on Chinese & Japanese Literature and Civilization	3
EBIO 3940	Written Communication in the Sciences	3
ENVS 3020	Advanced Writing in Environmental Studies	3
GEOL 3090	Developing Scientific Writing Skills	3
HIST 3020	Historical Thinking & Writing	3
HONR 3220	Advanced Honors Writing Workshop	3
IPHY 3700	Scientific Writing in Integrative Physiology	3
ITAL 3025	Advanced Composition 2: Introduction to Literary Writing	3
JPNS 3200	Adv Wrtg Topics on Chinese & Japanese Literature and Civilization	3
PHIL 3480	Critical Thinking/Writing in Philosophy	3
PHYS 3050	Writing in Physics: Problem-Solving and Rhetoric	3
RLST 3020	Advanced Writing in Religious Studies	3
SPAN 3010	Advanced Rhetoric and Composition	3
WGST 3800	Advanced Writing in Feminist Studies	3

**Courses that Treat Theories and Contexts Pertaining to Writing**

Students in the following programs may count up to two of the listed courses in their major (6 credits) toward the certificate.

Code	Title	Credit Hours
<b>Communication Majors</b>		
COMM 1210	Perspectives on Human Communication	3
COMM 1300	Public Speaking	3
COMM 2400	Discourse, Culture and Identities	3
COMM 3300	Rhetorical Thinking	3

MDST 4111	Crime, Media and Contemporary Culture	3
MDST 4211	Asian Media and Culture	3

MDST 4331	Gender, Race, Class, and Sexuality in Popular Culture	3
MDST 4371	Media and Religion	3

<sup>1</sup> Upper-division EDUC courses in Literacy Studies count toward the certificate. Consult the School of Education for offerings in any given semester.

<sup>2</sup> Just as 1000-level PWR expository writing courses do not count toward the certificate, neither is ENGL 1001 eligible.

### Practicum Course(s)

Students must complete a 1-credit, pass/fail course for portfolio curation (WRTG 4910), along with one of the three practicum options below.

Students may select the option that best suits their interest and career goals.

### Internship

Of interest to students intending to work in business, industry or nonprofits:

- Complete an internship, either with the PWR (WRTG 2930 or WRTG 3930) or with the major department (e.g., ENGL 3930 or JRNL 4931), that has a significant writing component. For an internship to count toward the certificate, it must be pre-approved by the certificate coordinator. Following the internship, the student must submit a brief (2–3 page) report describing the writing activities and how the internship contributed to learning outcomes.

### Writing Center Consultancy or School-Based Literacy Practicum

Of interest to students intending to work in education and related fields:

- WRTG 2090 Electives in Writing (3) (Writing Center Theory and Practice)
- EDUC 4321 Writing Instruction for Elementary Schools (3) (for students already accepted into the teacher licensure program)
- EDUC 4345 Secondary English Methods I (3) (for students already accepted into the teacher licensure program)

### Graduate Study in Writing Pedagogy

Of interest to students intending to conduct graduate work in rhetoric and composition:

- WRTG 5050 Graduate Studies in Writing and Rhetoric (3) (various topics, with permission).

## Learning Outcomes

The certificate in writing has at its core a set of *aspirational learning outcomes*, which are met over the course of the certificate:

- Ability to compose effectively in a variety of genres, ranging from academic genres to professional workplace genres and civic genres.
- Ability to address a range of audiences effectively, and to understand how to accommodate secondary or multiple audiences.
- Ability to analyze and/or argue effectively, and to call on available means of persuasion and apply appropriately a range of rhetorical strategies.
- Ability to draw on a range of styles as appropriate to the purpose, audience, and rhetorical situation, and to meet professional standards of correctness.
- Ability to apply disciplinary expertise to engage a range of readers, in a variety of rhetorical contexts.

- Ability to compose with digital and multi-modal tools in evolving, hybrid genres.
- Ability to understand and practice writing as an act of composing in the broader media landscape.
- Ability to seek, access, evaluate, and apply a range of information literacy resources, and to appreciate the complex, evolving role of information in disciplinary and social contexts.
- Ability to use composition skills effectively in broader contexts of communication, including public speaking.
- Ability to apply compositional skills in professional contexts and organizations, ranging from advanced academic work to business settings, and in genres ranging from PowerPoint presentations to scientific posters.
- Ability to appreciate and use composing tools in civic contexts and in life-long learning.

The student will have the opportunity to demonstrate how these aspirational learning goals have been met by creating and curating an *electronic portfolio* of work completed during the certificate experience. This portfolio asks students to synthesize their learning and articulate how it advances their academic and professional goals.

## Writing and Public Engagement - Minor

The writing and public engagement (WPE) minor is designed to help students hone the arts of persuasive writing and storytelling in diverse public-facing genres and media. Through a unique curriculum offered by the Program for Writing and Rhetoric and the English Department, students learn how to leverage a wide variety of technologies to design, produce and distribute multi-modal compositions; write in professional settings and with community partners; and write individually and collaboratively for social change. From forwarding public arguments to designing social media content to composing for nonprofits, this minor enables students to learn valuable skills, practices and tools that are crucial for communication, work and civic engagement in the 21st century.

### Requirements

Requirements for the minor in writing and public engagement include:

1. Earn 18 credits in ENGL and WRTG courses with grades of C- or better. At least 12 credits must be in upper division, and at least 9 credits must be ENGL designated courses.
2. Students may apply no more than 9 credit hours of transfer work, including no more than 6 upper division credit hours, towards a minor. This is a college residency rule for an 18-credit minor.
3. Students may apply one lower- or upper-division Creative Writing or Literature ENGL course of their choice to count towards the minor.
4. Students must maintain at least a 2.00 (C) GPA in all courses counting toward the minor.
5. All courses applied to the writing and public engagement minor must be from the Department of English (ENGL) or the Program in Writing and Rhetoric (WRTG).
6. English majors (Creative Writing or Literature and Cultural Studies) are not eligible to declare/earn this minor.

7. Must have completed the 3-credit lower-division Written Communication requirement as required by all schools and colleges at CU Boulder prior to declaring the minor.

### Required Courses and Credits

Code	Title	Credit Hours
<b>Theory</b>		<b>3</b>
Choose one:		
WRTG 2090	Electives in Writing (Select topics only)	
WRTG 2095	Ideas for Social Change	
ENGL 3377	Literatures of Race, Multiculturalism, Ethnicity (Select topics only)	
<b>Practice</b>		<b>3</b>

ENGL 3026	Syntax, Citation, Analysis: Writing About Literature	
ENGL 3830	Topics in Advanced Writing and Research (Select topics only)	
WRTG 3020	Topics in Writing (Select topics only)	
WRTG 3045	Writing for Emerging Workplaces	
<b>Action</b>		<b>3</b>
Choose one:		
ENGL 3940	Service Learning Practicum (Select topics only)	
ENGL 4116	Advanced Topics in Media Studies (Select topics only)	
ENGL 4206	Writing for the Real World (Select topics only)	
WRTG 2930	Internship in Writing and Rhetoric	
WRTG 3035	Technical Communication and Design	
WRTG 3090	Open Topics in Writing: Advanced	
WRTG 3930	Internship in Writing and Rhetoric	
<b>Electives</b>		<b>9</b>
Choose one of the following:		
Choose 9 credits from any of the courses listed above not being used to fill the Theory, Practice or Action requirements.		
Choose 6 credits from any of the courses listed above not being used to fill the Theory, Practice or Action requirements and 3 credits of any other ENGL course.		
<b>Total Credit Hours</b>		<b>18</b>

### Learning Outcomes

Upon completing the program, students will be able to:

- Synthesize and apply theories of writing, rhetoric and publics with critical race, decolonial, queer and other critical theories to a variety of rhetorical situations central to public life.
- Use a wide range of research methods including but not limited to rhetorical criticism, genre analysis, archival research, action-oriented research, iconographic tracking, case studies, ethnography, oral story telling to investigate and address a variety of complex contemporary cultural, political and environmental issues on local, national and transnational scales.

- Design, create and deliver persuasive compositions in a variety of genres, modes and media for diverse public audiences and rhetorical goals such as argument, advocacy, activism, policy change, community organizing, productive dialogue, networking and awareness raising.
- Put writing into practice with a variety of other strategic tactics to engage effectively in political and nonpolitical actions central to public life.
- Analyze, organize, create and circulate documents and artifacts that contribute to identity construction, institutional and cultural memory, organizational structures, public assemblage and policy making.
- Understand and manipulate how writing and information circulates and gets taken up in an era of misinformation, data overload, intense political division, racial intensity and algorithmic injustice.
- Design and manage an online presence for both self and community organizations through digital content and social media writing.

## Business

The new innovation economy requires—and rewards—richer knowledge, sharper skills and a global mindset. Ultimately, the edge belongs to those who are principled leaders who bring inspiration and purpose to their work and in this way drive value for society.

Within this climate, the Leeds School of Business offers an innovative agenda designed to leverage our unique assets: the intellectual capital of Leeds faculty, our innovative and best-in-class curriculum, our focus on the "whole student" experience, our strong network of alumni and industry partners and our firm commitment to student support.

Accredited by the Association to Advance Collegiate Schools of Business (AACSB-International), Leeds awards four types of degrees: Bachelor of Science (BS), Master of Science (MS), Master of Business Administration (MBA) and Doctor of Philosophy (PhD). Undergraduate students can specialize in accounting, finance, management and entrepreneurship, business analytics, marketing, and real estate. Leeds further offers certificates in a variety of areas to provide opportunities for students to explore additional areas of interest and distinction.

World-class faculty provide the foundation for breakthrough thinking—creating knowledge from research, disseminating knowledge through teaching and applying knowledge in collaboration with the business community. Faculty discoveries are frequently published in prestigious academic journals and discussed in media outlets such as the *Wall St. Journal*, the *New York Times*, CNBC and more. The cutting-edge research we produce enhances the school's reputation for innovation.

From orientation to graduation, Leeds faculty and staff guide students to discover and optimize their potential. Through an array of targeted services, students create an individualized journey that maximizes the impact of their experience and leads to future opportunities. Ethics and social responsibility are hallmarks of a Leeds education, and the school's commitment to professional development is unrivaled.

Leeds alumni and industry partners collaborate to offer a meaningful level of engagement with students and faculty. Alumni provide the support and resources that ensure graduates are poised for maximum impact. Corporate partners infuse relevance to Leeds' curriculum innovation, supporting new programs and providing the school access to professional talent. Both communities are the backbone of one of the largest mentoring programs in the world.

Leeds joins the University of Colorado and the Boulder community to generate extraordinary opportunities for students. Cross-campus collaborations with fields like engineering and science link Leeds faculty and students with more resources to put innovation into action. Our location in Boulder provides inspiration with its physical beauty as well as the intellectual energy of a thriving start-up community and high concentrations of advanced technology and socially responsible industries.

Together, these assets make Leeds uniquely qualified to deliver on our mission of educating principled, innovative leaders who drive value.

## Graduation Recognition Ceremony

Every May, the Office of the Dean and the Leeds Business Student Government sponsor a recognition ceremony honoring the graduating class, in addition to the university-wide commencement. Graduates and their families are invited to attend.

## Facilities & Research

The Leeds School of Business houses resources for the specific needs of business students:

- Burridge Center for Finance
- Business Research Division
- Career Strategy
- Center for Education on Social Responsibility
- Center for Research on Consumer Financial Decision Making
- Office of Diversity Affairs
- Real Estate Center
- Robert H. and Beverly A. Deming Center for Entrepreneurship
- Smart classrooms
- Student lounges
- Undergraduate Student Services
- Graduate Student Services
- William M. White Business Library and Information Commons

## The William M. White Business Library and Information Commons

The White Business Library (<http://www.colorado.edu/libraries/libraries/william-m-white-business-library/>) and Information Commons provide students with a wealth of information pertaining to the business world. Students have access to the business and other libraries via the university libraries online catalog. Many databases are accessible through the wireless network and off campus. These databases contain a myriad of full-text magazines and journals; business periodical indexes; corporate annual, 10-K and proxy reports of all the public companies in the United States; short profiles of both American and international companies; demographic and business statistics; industry and market information; and investment reports written by Wall Street analysts. Over 50 computers provide access to the databases and the internet, and technology-outfitted team rooms are available for group study. Knowledgeable librarians are always available to help navigate the search for information. The Information Commons is open 24 hours, seven days per week and contains 30 of the 50 computers with a full suite of software. These are accessible to students, faculty and staff of the university. In addition, Leeds has 25 technology equipped team rooms. These rooms support group study and project work, and are available

for reservation through University of Colorado Scheduling (<https://vems1.colorado.edu/>).

The White Business Library is part of the University of Colorado library system, which includes more than two million volumes, more than five million microforms and more than 24,000 periodicals and serials. The system is also a full depository for United States government, international and state documents.

All classrooms in the Leeds School of Business are equipped up to campus "smart" classroom technology standards. Technologies in a typical Leeds classroom include: a desktop computer loaded with Microsoft Office Suite applications, video projection system, ceiling speakers for audio, DVD/VCR, iClicker base station, campus cable and both wired and wireless Internet connections. All classrooms have the flexibility to support a personal laptop with connectivity in place to integrate with the video projection and sound system.

## Business Research Division

Established in 1915, the Business Research Division is one of the earliest organized state service-oriented bureaus in the country.

The Business Research Division conducts business, economic and market research that contributes to the efficient use of Colorado's resources and increases interest in and awareness of the Leeds School of Business. It also is the umbrella organization for the Rocky Mountain Trade Adjustment Assistance (TAA) Center (RMTAAC). Through its annual Colorado Business Economic Outlook Forum, held in December, the division has established a base of knowledge that adds value to its work in other areas. In addition to providing businesses, government and nonprofits with information to help them make better-informed business and policy decisions, the division specializes in economic and fiscal analysis, market research and custom research projects. It also prepares a Colorado leading economic indicator series, the *Leeds Business Confidence Index*. Research results are distributed through presentations and reports; a quarterly newsletter, the *Colorado Business Review*; and the division's website.

Funding for center activities comes from the Leeds School of Business, the university, state agencies, the federal government, state and local business firms and from the sale of research products and services.

RMTAAC is one of 11 centers across the nation funded by the U.S. Department of Commerce to manage the Trade Adjustment Assistance for Firms Program, which helps import-impacted U.S. firms develop and implement business recovery strategies to strengthen their competitiveness in the global marketplace. The TAA for Firms Program is a cost-sharing federal grant program that pays a portion of professional consultant expenses or industry-specific expert services for projects that improve a firm's competitiveness, thereby increasing sales and creating U.S. jobs. Benefits of the program include up to \$75,000 in grant funds and 50/50 cost sharing for strategic projects.

## Academic Centers

In addition to the Business Research Division, the school has five centers linking academic programs and the business community—the endowed Robert H. and Beverly A. Deming Center for Entrepreneurship, the Center for Real Estate, the Burrridge Center for Finance, the Center for Education on Social Responsibility (CESR) and the Center for Business Integration.

## The Robert H. and Beverly A. Deming Center for Entrepreneurship

As part of the Leeds School of Business, the Deming Center for Entrepreneurship's mission is to inspire and empower students, community, alumni, faculty and staff through entrepreneurship education and partnership with the community. The Deming Center does this in part by educating, engaging and partnering and focusing on student experience.

### Cutting-Edge Curriculum

Our progressive curriculum and interdisciplinary programs include:

- courses in entrepreneurial finance, marketing and business planning,
- interdisciplinary programs in engineering, business, law and environmental studies,
- undergraduate business minor (p. 667) with a certificate of entrepreneurship for students across campus,
- undergraduate certificate of entrepreneurship (p. 669) for Leeds students,
- High Growth Ventures Pathway, and
- world-renowned PhD program (p. 1450) in entrepreneurship.

The Deming Center supports the entrepreneurial curriculum and advances the Leeds School's leadership agenda through our collaborative initiatives across campus and in the business community in these key areas:

- **Education.** Our entrepreneurship students have access to a world class entrepreneurship faculty. The faculty are involved in collecting, curating and making available the latest research and thinking on entrepreneurship in the world. These faculty are inspiring and directing new research and thought leadership in entrepreneurship and constantly working with thought leaders to develop and stay ahead of the latest trends and tools for entrepreneurship education.
- **Real-world experience.** Our entrepreneurship students are challenged to turn accepted thinking on its head—in the classroom, in real-world industry projects, and by the business innovators serving as student mentors and advisors. The center helps connect students with projects, advisors and internships that challenge them to use their new skills creatively.
- **Student experience.** Staff and faculty at Deming are focused on delivering an outstanding student experience. Deming promotes the development of entrepreneurial thinkers and doers. Entrepreneurial thinkers and doers are optimistic, resilient, resourceful, persistent, calculated risk-takers, efficient, creative problem solvers and effective workers. These are teachable skills any student is capable of learning.
- **The community.** Boulder is consistently named one of the best places in the country to launch a startup. The center connects students to industry leaders via the Deming Network—an active group of world-class entrepreneurs and innovators who are accessible and hands-on. CU Boulder is also a top research university. Across campus, the Deming Center helps students access opportunities in technology transfer and the engineering, law, biofrontiers and environmental science programs

## CU Real Estate Center

The Real Estate Center, founded in 1995, is supported by an industry council with the goal of advancing academic excellence in real estate education and scholarship. The center oversees the school's real estate teaching programs and advises the faculty in designing an integrated

curriculum at both the graduate and undergraduate levels. Coursework is drawn from the law school, the colleges of architecture and engineering, construction management and others.

The center creates real-world experiences for students by providing project coursework and being a resource for securing internships, mentors and jobs. It also provides support for faculty teaching and research activities in real estate and, through the Real Estate Foundation, assists the university with its real estate portfolio.

## Burridge Center for Finance

The Burridge Center for Finance is dedicated to encouraging and supporting the creation and dissemination of new knowledge about the world financial markets with an emphasis on the U.S. financial markets by:

- facilitating the exchange of ideas and knowledge between professional investment managers, finance scholars, policy makers and the investing public,
- identifying critical research issues in the theory and practice of security analysis and valuation, and
- encouraging and supporting rigorous qualitative and quantitative research on topics relevant and useful to money managers, valuation experts and finance academics.

## Center for Ethics and Social Responsibility (CESR)

CESR's goal is to help students become outstanding business leaders of tomorrow by preparing them to meet the ethical challenges posed by a highly competitive, globally-connected business world. Accordingly, CESR oversees the infusion of values and social responsibility discussions throughout the undergraduate and graduate curricula at the Leeds School of Business. As part of the central mission at Leeds, CESR creates pedagogies that are national models and plays a leadership role carrying out the school's commitment to developing leaders of conscience. Although the Center's primary focus is on excellence in curriculum development and delivery, CESR also undertakes a broad spectrum of initiatives including a certificate program, student organizations, conferences and other extracurricular offerings as well as providing funding and administrative support for faculty research.

### Courses

CESR is directly responsible for course development, staffing and coordination of the Business requisite introduction course World of Business, and collaborates on the design and delivery of the requisite business core courses; Business Law and Business Ethics & Social Responsibility. CESR also offers leading edge electives such as CESR 4000, CESR 4005, CESR 4850, and CESR 4828.

### Certificate and Graduate Pathways

CESR offers specialized recognition for students at the undergraduate and graduate levels. Undergraduates wishing to focus on CESR-related topics may earn the certificate in social responsibility and ethics (p. 672) (SRE). At the MBA level, MBAs can participate in CESR-designed co-curricular pathways in Natural & Organics, Clean Energy, and ESG Integration and Sustainability.

### CESR Co-Curricular Activities

ESR routinely hosts events aimed at our students, our local business community and educators and industry leaders throughout the academic year. Guest speakers change each semester, but recurring events are included here:

- **CESR Business Ethics Case Competition (BECC).** The CESR BECC is an interactive way to deepen the Leeds undergraduate students' understanding of the importance of creating ethical as well as profitable business cultures. Teams are provided with a business case in the weeks leading up to the competition which they will have to analyze, create recommendations for course of action and present their solutions to a panel of professional judges. Cash prizes are awarded to the top three teams.
- **Student Center for Social Entrepreneurship.** CESR provides faculty sponsorship for SCSE, the student branch of Social Entrepreneurship for Equitable Development, an interdisciplinary, inter-generational campus group that is involved in researching, teaching and generating student involvement in the areas of social entrepreneurship and sustainable community development.
- **Net Impact Club.** CESR is home to a graduate chapter of Net Impact, an international nonprofit organization whose mission is to use the power of business to create a more socially and environmentally sustainable world.
- **New Venture Challenge Social Impact Track.** CESR developed and continues to support the Social Impact Track of the **CU New Venture Challenge**, a campus-wide initiative connecting students and faculty with teammates in a broad range of disciplines and with mentors from the business community. The goal is to provide knowledge and experience making entrepreneurship accessible to anyone on the CU Boulder campus with the enthusiasm and creativity required to start a new business.

## Career Opportunities

Leeds School of Business graduates are prepared for positions in the following fields:

- Accounting—public, private, nonprofit and governmental
- Banking and other financial institutions
- Consulting
- Corporate financial management
- Entrepreneurship and small business management
- Financial analysis
- Human resources management
- Information systems
- International business
- Investment management
- Management consulting and organization management
- Marketing and sales management
- Nonprofit management
- Operations management
- Real estate
- Retailing
- Taxation
- Technology management
- Transportation
- Venture capital

Other graduates hold positions in fields as diverse as business journalism, public relations, city planning, chamber of commerce and trade association management, college administration and government. The entrepreneurial area of application prepares students to start their

own business ventures to take positions in emerging growth companies and the venture capital industry.

## Programs & Leadership

### Professional Mentorship Program

The Professional Mentorship Program (PMP) is a unique program that offers one-on-one professional mentoring to current undergraduate students. The program's mission is to enhance business education at the Leeds School by offering hands-on learning, professional skills development, leadership opportunities and a sense of connection and community among current students, Leeds alumni and corporate partners. PMP mentors prepare and inspire our students to become the next generation of strong business leaders.

This two-year program matches students with executives or high-level business professionals who align by industry, geographic location or functional area. To ensure a quality experience for both students and mentors, the PMP provides workshops, training and additional support for participants throughout the program.

#### Program Benefits

Through this program, students gain an additional level of advising and career counseling from a business professional. Through the mentoring relationships, students can explore choice of majors, potential for graduate school, work-life balance and effective networking and job search strategies.

Other potential benefits of being involved in the PMP include:

- advice and assistance on academic questions, career options, life beyond college and more,
- access to the PMP network and networking opportunities and the opportunity to start building the student's own professional network,
- opportunities to practice and strengthen professional communication and presentation skills,
- help in defining personal and professional goals, and the strategies to achieve them,
- unique internship and job opportunities, and
- development of a life-long friend and connection in the business world.

#### Contact Information

Phone: 303-492-5881

### Study Abroad

Study abroad programs are available for students interested in international business or in cultural experiences abroad. The college-sponsored London Seminar in International Finance and Business is a five-week-long program held each summer in the financial district of London and is open to juniors, seniors and graduate students.

### Student Organizations

Listed below are undergraduate organizations that promote professional interests and provide recognition of scholastic attainment:

- Alpha Kappa Psi
- Athletic Business Club

- CU Fashion Club
- Beta Alpha Psi
- Collegiate DECA
- CESR Fellows
- CU Energy Club
- CU Finance Club
- CU American Marketing Association
- CU Investment Club
- CU Society for Human Resources Management
- Delta Sigma Pi
- International Business Club
- Leeds Ambassadors
- Leeds Association of Information Systems
- Leeds Council (Undergraduate Student Government)
- Multicultural Business Student Alliance
- Music Industry Club
- Real Estate Club
- Women in Business Club

### Leeds School of Business Student Government

Leeds Council is the governing body of the Leeds School of Business that strives to serve, support and represent the student body. The council also works to make Leeds a better business school through social, academic and professional programming. The council is made up of five primary committees and an executive board that control a significant portion of the Leeds student fees.

Two members of Leeds Council also serve as representatives on University of Colorado Student Government (CUSG) to voice the interests of business students at the main campus.

### Career Development

The Office of Career Development's mission is to advance Leeds students' career competencies through co-curricular exploration and development.

From dedicated industry coaching and professional skills development to real-world experiences and employer and alumni connections, Leeds students are equipped with all the support and resources they need to successfully transition from academia to a rewarding career after graduation.

### Industry Coaching and Career Readiness Programs

All Leeds students are assigned an industry coach by their area of emphasis. Coaches work with each student to create a four-year career development plan that allows them to develop the professional competencies and business connections needed to pursue their goals. Key services that support career readiness include, but are not limited to:

- one-on-one industry coaching sessions
- skill development workshops
- personal and career assessments
- mock interviews

### Global Programs

The globalization of the marketplace demands employees who can compete in a multicultural business environment in the United States and around the world. To prepare students for this, Leeds offers

immersive programs and experiences designed to deepen students' understanding of global cultures and international business. Through these opportunities abroad, students develop a heightened level of intercultural competence and other critical skills needed for a successful career in business.

- **First Year Global Experience (FGX):** The First-Year Global Experience (FGX) program is a spring semester elective that includes a short-term global experience during Spring Break or May term.
- **Global Business Certificate:** Students can add to their Leeds academic journey with 3 global core courses, 2 approved international courses and a global experience.
- **Global Seminars:** With a Global Seminar, students can study various topics in international business through a three to five week course taught abroad by Leeds faculty.

## Experiential Learning

Students can develop their professional skills through signature events, shadow days, micro-internships and internships. At Leeds, students are encouraged to explore career opportunities in business through hands-on learning.

- **Professional Assignments:** The World of Business course and integrated sophomore year assignments provide all Leeds first- and second-year students with a strong foundation to pursue their career interests and goals.
- **Career Treks:** Visits focused on an industry, functional area or location with in-depth opportunities for job search and connections. Previous visits have included Boulder, Denver, Chicago, Austin, Los Angeles, New York, Seattle and San Francisco.
- **Micro-internships:** Micro-internships are short-term, paid, professional assignments that enable students to demonstrate skills, explore career paths and build their network as they explore interests and seek the right full-time role.
- **Internships:** Dedicated support includes an internship advisor, internship-focused workshops and networking events.
- **Leeds Professionalism Summit:** The Leeds Professionalism Summit is a one-day professional development training delivered as part of the academic curriculum for Leeds BASE students. Students will participate with mentors, alumni, and corporate partners in panels and interactive sessions oriented around professional and business etiquette skills.

## Mentoring Programs

Participate in Leeds' award-winning mentoring pipeline that spans the entire four-year experience, pairing students with peer, alumni and professional mentors for personalized support. More than 1,500 undergraduates and 1,050 professional mentors participate in mentoring through these programs:

- **Peer2Peer:** Connects new Leeds students with trained student mentors to help students build a strong foundation and sense of belonging at Leeds.
- **Young Alumni Mentors Program:** Partners sophomores with recent Leeds graduates to provide major and career exploration, academic preparation and professional skills development.
- **Professional Mentorship Program:** Pairs juniors and seniors with experienced business professionals providing opportunities to develop and practice critical professional skills and build their professional network.

## Employer Relations

The Leeds School has created strong partnerships with more than 2,000 companies from diverse industries and locations. Our office connects students of all interests with the resources, organizations and people necessary to facilitate career success, including:

- on-campus, instant, and virtual interviews
- employer panels and webinars by industry or topic
- employer information sessions and recruitment days
- Leeds-specific career fairs and treks

## Women's and Leadership Programs

Students can harness their strengths and develop leadership skills through special programs and a leadership certificate. By offering a unique approach to creating an inclusive business environment for all students, Leeds students enter the workforce prepared to shape and influence the future of business in every discipline.

- **BE Tech Scholars:** The BE Tech Scholars Program is a unique and comprehensive effort to inspire more CU undergraduates to explore the technology industry and choose careers at the intersection of business, technology and engineering. BE Tech centers around the idea that relationships, mentorship and hands-on experiences make the difference in recruiting and retaining women in technology fields.
- **Women's Empowerment Initiative:** This one-year program for incoming first-years will engage students in leadership development both inside and outside of the classroom while examining issues of gender equity in the field of business.
- **Business Leadership Certificate:** The Business Leadership Certificate provides students with the foundations of theory and research on leadership, but emphasizes professional experiences such as mentoring, internships, and engaging in leadership roles.

 Phone: 303-492-1808

## Policies & Requirements

### Academic Excellence

#### Honors

In recognition of high scholastic achievement, upon recommendation of the faculty, the designation "With High Distinction" or "With Distinction" will be awarded at graduation. To qualify for the "With High Distinction" designation, the student's cumulative University of Colorado GPA must be at least 3.90. For the "With Distinction" designation, the student's cumulative GPA must be at least 3.75 but less than 3.90. In addition, for these designations, at least 60 credit hours must have been earned at CU Boulder.

#### Dean's List

Students in the Leeds School of Business who have completed at least 12 credit hours of CU Boulder coursework for a letter grade in any single semester with a term GPA of 3.600 or better are included on the dean's list and receive a notation on their transcript.

## Beta Gamma Sigma

Membership in Beta Gamma Sigma is an honor that must be earned through outstanding scholastic achievement. Such membership is the highest scholastic honor that a student in a school of business or management can attain.

To be eligible for Beta Gamma Sigma membership, students must rank in the top 10 percent of their junior class, the top 10 percent of their senior class or be among the top 20 percent of those students receiving master's degrees. Also, students completing all requirements for the doctoral degree conferred by a business school are eligible for Beta Gamma Sigma. It should be noted that Beta Gamma Sigma chapters may be chartered only in those schools of business and management accredited by AACSB, the International Association for Management Education.

## Scholarships

Each year the college awards a number of divisional and general scholarships. Business scholarships are for students who have completed business coursework at the university. The amount and number of the awards vary each year.

## Academic Standards

### Academic Ethics

Students are expected to conduct themselves in accordance with the highest standards of honesty and integrity. Cheating, plagiarism, illegitimate possession and disposition of examinations, alteration, forgery or falsification of official records and similar acts or the attempt to engage in such acts are grounds for suspension or expulsion from the university. Reported acts of academic dishonesty must be referred to the Honor Council.

Students are advised that plagiarism consists of any act involving the offering of someone else's work as the student's own. It is recommended that students consult with instructors as to the proper preparation of reports, papers, etc., in order to avoid this and similar offenses. Official college procedures concerning academic ethics are maintained in the Office of Undergraduate Studies.

### Standards of Performance

Students are held to basic standards of performance with respect to attendance, active participation in coursework, promptness of assignments, correct English usage both in writing and in speech, accuracy in calculations and general quality of scholastic workmanship. In general, examinations are required in all courses and for all students, including seniors.

### Good Academic Standing

To be in good academic standing, students must have an overall grade point average of C (2.00) or better for all coursework taken. Students must earn a passing grade for all required courses. This requirement applies to work taken at all university campuses.

Any student earning all or nearly all failing grades, or no academic credit for a semester will not be permitted to register without the dean's approval.

Official double-degree students must maintain required academic standards for the Leeds School as well as their other college.

Students are responsible for being aware of their academic status at all times, and late grades and/or late notification do not waive this responsibility. See campus Academic Standing policies (p. 26) for details.

Suspended Leeds School students who transfer into another school or college of the university will not be eligible to register for business courses and will be subject to administrative drops.

## Credit and Enrollment

All students are responsible for knowing and following the provisions set forth below. Any questions concerning these provisions should be directed to the college. The college cannot assume responsibility for problems resulting from a student's failure to follow the policies stated here or from incorrect advice given by those outside the Office of Undergraduate Services. Similarly, students are responsible for all deadlines, rules and regulations stated in the General Information section of this catalog. All rules and regulations are subject to change. Any questions should be directed to the Leeds School of Business, Office of Undergraduate Services, KOB 201, 303-492-6515.

### Admission to the Business Program

Prospective freshman students are encouraged to complete strong academic programs in high school. A minimum of four academic units should be completed each year with special emphasis given to writing, mathematics and science skills. For a detailed explanation of the high school preparation desired, see Undergraduate Admission in the General Information section.

Transfer students are expected to demonstrate proficiency in economics, writing and mathematics. Prospective transfer students should complete courses equivalent to those taken by University of Colorado business freshmen and sophomores.

### Residency Requirement

Complete a minimum of 45 credit hours in University of Colorado courses on the Boulder campus. Of these 45 credits, a minimum of 30 credits must be business courses completed as a matriculated student in Leeds.

### Intra-University Transfer

An undergraduate student who is enrolled on the Boulder campus and wishes to transfer to the Leeds School of Business may submit a completed application for the fall or spring semester. A cumulative university GPA of 3.00 and a cumulative GPA of 2.00 in business courses is necessary to be considered for admission. In addition, students must have 24 completed credit hours, 12 of which must be graded work at CU Boulder, 4 credit hours of MATH 1112, statistics, microeconomics and macroeconomics. Students must earn a grade of B- or better in ECON, MATH, and statistics to be considered for admission. Intra-university transfer (IUT) students must take a minimum of 30 credit hours of business courses, including their area of emphasis, in residence after admission to the college.

Visit the campus IUT webpage (<https://www.colorado.edu/advising/intra-university-transfer/>) to learn more about the IUT process.

### Registration Stops

A service indicator stop will be placed on students' records when they have earned 45 credit hours, if they have not yet declared their area of emphasis. All first and second year students will also have a service indicator and be required to attend an advising meeting before registration for the next semester.

## Registration for Business Courses

Business students may register only for those courses for which they have the stated prerequisites.

### Administrative Drops

Instructors may recommend to the Office of Undergraduate Services that students who fail to meet expected course attendance or prerequisites be dropped from their courses at any time during the semester.

### Attendance Regulations

Classroom attendance is left to the discretion of the instructor. Students are responsible for understanding each instructor's policy on attendance.

Students who are unavoidably absent should make arrangements with instructors to make up the work missed. Failure to attend regularly may result in receipt of an F in a course. Students who, for illness or other legitimate reasons, miss a final examination must notify the instructor no later than the end of the day on which the examination is given. Failure to do so may result in receipt of an F in the course.

### Concurrent Registration

Concurrent registration is for graduating seniors who must be enrolled on two campuses of the University of Colorado at the same time in order to fulfill graduation requirements.

Students enrolled in the Leeds School of Business may exercise the concurrent registration option if they are in their graduating semester or are two semesters from graduating and cannot obtain a course necessary to complete a prerequisite sequence. The course must be required for graduation and must not be offered on the Boulder campus, or the course must conflict with another required course in which the student is enrolled. Students from other colleges and schools who wish to take business courses must have the approval of their own college or school before submitting the concurrent registration form.

### Scholastic Load

The normal scholastic load of an undergraduate student in the college is 15 credit hours, with a maximum of 21 credit hours during the fall and spring semesters. A maximum of 3 credit hours may be taken during Maymester. A maximum of 6 credit hours may be taken during a five-week summer term, with no more than 12 credit hours total during the 10-week summer session.

## Credit Policies

To receive credit, all courses must be listed on the student's official transcript by the Office of the Registrar. Credit is then evaluated by the Leeds School of Business to determine degree acceptability.

### Cooperative Education Credit

No credit is given for work experience or cooperative education programs.

### Correspondence Credit

All correspondence courses must have prior approval and be evaluated to determine their acceptability.

### Advanced Placement (College Board)

For students who earn scores of 3, 4 or 5 on Advanced Placement exams, college credit will be given where appropriate. See the Admissions section for a comprehensive AP credit chart (p. 36).

## College-Level Examination Program (CLEP)

College credit for approved CLEP subject examinations may be considered, providing the scores are at 54 or above. Specific information is available in the Office of Undergraduate Student Services.

CLEP credit is only appropriate for nonbusiness requirements and nonbusiness electives. A maximum of 6 hours of credit in any one course area is allowed. CLEP may not be used in course areas where credit has already been allowed. General examinations are not acceptable. CLEP credit is not transferable.

Before taking a CLEP examination, students should check in with their academic advisor to ensure the credit will apply.

### Special Sources of Credit

The college reserves the right to accept or reject all special sources of credit that do not have prior approval of the dean.

## Independent Study

A maximum of 6 credit hours of independent study will be accepted as degree credit. Prior approval is required if the work is to be applied as degree credit. A maximum of 3 credit hours may be taken in any one semester.

### Study Abroad Credit

Transfer credit from study abroad programs may be applied to the business degree. Students planning to attend study abroad programs must meet with an undergraduate advisor and have their course selections approved prior to leaving campus.

More specific information about these opportunities is available from the Office of International Education.

### Transfer Credit

The school reserves the right to disallow any credit that it deems inappropriate degree credit.

Credits in business subjects transferred from other institutions will be limited to the number of credit hours given for equivalent work in the regular offerings of the university. Only work from regionally accredited institutions will transfer to the college. A maximum of 60 credit hours of credit may be accepted from a two-year school.

Actual equivalent courses may be substituted for required courses. Students must submit a carefully checked catalog description and course syllabus for course equivalency determination.

Business students desiring to apply coursework from another institution or University of Colorado campus toward the BS degree in business administration must have prior approval of the Leeds School of Business. Only nonbusiness requirements or elective credit is acceptable in transfer from other institutions once the student has enrolled.

All courses in the area of emphasis must be taken at the University of Colorado Boulder unless written approval is given by the associate dean of undergraduate services. Transfer students must take a minimum of 30 credit hours of business courses, including the area of emphasis, in residence after admission to the college. For more information on transfer of credit policies, see Transfer of College-Level Credit (p. 47).

## Grading Policies

In addition to the campus wide grading system and pass/fail policy (p. 49), the Leeds School of Business enforces the following policies.

### Pass/Fail

Students in the Leeds School of Business may not use the pass/fail option for courses taken to fulfill General Education Core Requirements, business core requirements, business major requirements or business electives. A grade of F when earned in a course taken pass/fail will calculate into the GPA as a failing grade. Only non-business electives may be taken on a pass/fail basis. A maximum of 6 credit hours of pass/fail credit may be applied toward the BS degree in business administration. Pass/fail determination must be made by the deadline set through the Office of the Registrar. A maximum of 6 credit hours designated pass/fail may be taken in any one semester.

Failed courses may be repeated, but the F will be included in the GPA.

### Minimum Grades

A grade of C- or above is required for classes applied to the area of emphasis. A grade of D- is a passing grade for all other degree requirements.

### Incomplete Grades

The only incomplete grade in the college is given only when documented circumstances clearly beyond the student's control prevent the student from completing the course. Generally, students should make up the missing work and not retake the entire course. Students should not register for the class a second time, unless directed by the instructor. All I grades must be made up within one year or the I will be changed to a grade of F.

### Grade Changes

Final grades as reported by instructors are considered permanent and final. Grade changes will be considered only in cases of documented clerical errors, and must be approved by the associate dean.

### Grade Appeal Policy

The following shall be the official policy of the academic units of the Leeds School, unless an academic unit submits an alternative procedure to the Dean for approval. When a student believes that a grade has been improperly assigned, and discussions between the instructor and the student have not led to any resolution of the problem, then the student may pursue the following steps:

1. The student shall have the option of making a formal written appeal to the Division Chair for the instructor's unit. The appeal must detail the basis for the appeal, including relevant written documentation, specify the remedy desired by the student, and must be submitted within 30 days of the end of the academic term in which the course was taken. The instructor will be provided the opportunity to respond in writing to the student's appeal.
2. The Chair will meet (together or separately) with the student and with the instructor who taught the course. If the Chair is unable to secure a solution mutually acceptable to both student and instructor, then
3. The Chair shall appoint an ad hoc Grade Appeals Committee, which will review the dispute. This committee shall consist of at least three impartial faculty members competent in the subject matter of the course in question. Members of this committee need not be from the Chair's division. The Chair will provide the Committee with the student's appeal and a written response from the faculty member.
4. Within 30 days, the committee will submit a report and recommendation to the Chair, and Chair will recommend to the instructor either 1) that the originally assigned grade stands; or 2) that a revised final grade be assigned.
5. In cases where a change of grade is recommended and the instructor does not wish to accept the recommendation of the Chair, the Chair

will forward the written materials associated with the appeal, together with the recommendation of the Chair, to the Dean (or a designee), who will make the final decision on the student's grade appeal.

### Withdrawal

Students may withdraw from the university any time before the beginning of the final examination period.

## Programs of Study Business Administration

The following areas of knowledge are central to the undergraduate degree in business administration:

- knowledge of core business concepts that provides students with a comprehensive understanding of the basic functional areas of the discipline
- knowledge in one or more of the four areas of emphasis, in which students are exposed to in-depth study that provides them with the tools necessary to solve complex business problems
- awareness of the interrelations between academic theory and practice in order for students to be fully equipped to make effective decisions
- strong verbal and written communication skills, proficiency in business computer applications and knowledge of international business environments
- knowledge of mathematics sufficient to facilitate the application of quantitative principles
- awareness of the importance of academic fields in the area of arts and sciences, with special emphasis placed on the study of economics, political science and other related fields

In addition, students completing a degree in business administration are expected to acquire:

- the ability to apply basic business principles to solve problems in new and recurring situations,
- the ability to conceptualize and analyze decision-making situations to facilitate solutions in an effective and timely manner, and
- the ability to effectively communicate the results of problem-solving situations, both verbally and in writing.

Having acquired these skills and knowledge, students are able to conceptualize and analyze the concept of business and problem solving as a system. They have the ability to present solutions to business problems in an understandable and useful form. Their education provides them with excellent working knowledge, not only in the field of business, but also in related academic disciplines.

The Leeds School of Business holds accreditation by the Association to Advance Collegiate Schools of Business (AACSB-International).

### Advising and Records

Undergraduate business students receive academic advising from a staff of professional advisors in the Office of Undergraduate Student Services. Advisors are available in KOB 201, Monday–Friday, 8 a.m.–5 p.m., by appointment and during drop-in hours.

Students are expected to assume responsibility for planning their program in accordance with college rules and policies. Students are

encouraged to discuss the various emphases available as well as career opportunities with the faculty of the college.

## Bachelor's Degree

- Business Administration - Bachelor of Science (BS) (p. 659)

## Minor

- Business - Minor (p. 667)

## Certificates

- Entrepreneurial Studies - Certificate (p. 669)
- Global Business - Certificate (p. 669)
- Operations and Information Management - Certificate (p. 671)
- Quantitative Finance - Certificate (p. 89)
- Social Responsibility and Ethics - Certificate (p. 672)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

## Courses

### **BADM 1250 (1.5) Designing Your Leeds**

Designing Your Leeds is a class about customizing your college experience to get the most out of it. Using a process rooted in Design Thinking, the course equips students with tools to design and prototype a college experience that best aligns with who they are and what they hope to get from college. Students will explore the purpose of college, reflect on personal values and strengths, learn about educational and career opportunities, and create a prototype of their 4 year experience. Through in-class activities and out of class assignments, students will also learn and practice professional and self-leadership skills.

**Requisites:** Restricted to Business (BUSNU) majors only.

### **BADM 1260 (2) First-Year Global Experience**

In today's world of increased mobility, globally aware students have more choices for employment upon graduation and are immediately ready to contribute in global environments. They are aware of global issues and cultural differences, and their global mindset allows them to recognize good ideas from whenever they might come and new market/product opportunities wherever they might exist. This course is the first step toward the development of a global mindset. It provides a meaningful global experience to first-year business students through an in-depth perspective of a specific country or region outside the United States and a short academic trip to the region.

**Requisites:** Restricted to Business (BUSNU) majors only.

### **BADM 2010 (1) Excel in Business**

Teaches beginner to intermediate level Excel skills, emphasizing efficient use of Excel to make sense of substantial data sets. The course is designed to increase students' proficiency with Excel through a series of hands-on workshops. The workshops have a business problem solving orientation and use real data from Leeds' corporate partners. The workshops emphasize the most important skills that employers value.

**Requisites:** Restricted to Business (BUSNU) Majors or students with a Business Minor (BUSM-MIN)

### **BADM 2020 (3) Fundamentals of Quantitative Analysis**

Focuses on the application of calculus and statistics in financial analysis with emphasis on theory and problem solving in excel. Calculus topics covered in the class will include: series, limits and continuity, calculating derivatives, graphing and optimization. Descriptive statistics will be reviewed in the context of financial data. Applications to finance will include portfolio optimization, calculation and graphing of historical stock returns, along with calculation of bond prices, returns, and duration.

**Requisites:** Restricted to students with the Business Minor (BUSM-MIN) plan.

### **BADM 2050 (3) Honors/Special Topics**

Variable topics in business, drawing from a variety of disciplines.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** At least a 3.50 cumulative GPA is required.

**Additional Information:** Arts Sciences Honors Course

### **BADM 2880 (1-3) Special Topics**

Explores historical developments, contemporary issues, industry trends and best practices pertinent to the business of sports. Designed to provide sufficient background for educated consumption of this literature and pursuit of further study if desired.

**Requisites:** Restricted to Business (BUSN) majors.

### **BADM 2900 (1-3) Independent Study**

Department consent and departmental form required.

**Repeatable:** Repeatable for up to 3.00 total credit hours.

**Requisites:** Restricted to Business (BUSNU) majors only.

### **BADM 3020 (3) Written Communication for Business Leaders**

This course focuses on business writing for professionals in an organizational setting, especially those in leadership roles. While the course focuses principally on writing, it builds on a number of skills addressed in BCOR 1030: Communication Strategy, a prerequisite for this class emphasizing oral communication. In this course, students will revisit such topics as communication channels, storytelling, persuasion, and audience analysis, but specifically in the context of writing.

**Requisites:** Requires prerequisite course of BCOR 1030 (minimum grade D-). Restricted to Business (BUSN) majors with 52 units completed.

### **BADM 3100 (1) Professional Development**

Designed to provide opportunities to understand and develop professional competencies for successful careers in business. Designed to increase knowledge of job search strategies and formulate a career management plan for transitioning to the workplace. Topics such as resumes, cover letters, personal branding, job search strategies, internships, career choices, networking and social media will be covered. A Self-Marketing Plan will be developed to help focus on long-term career goals.

**Requisites:** Restricted to Leeds School of Business majors only.

### **BADM 3200 (1.5) Internship Accelerator**

Seminar focused on developing competencies critical to a successful transition into the workplace. Apply what you have learned in the classroom to business problems. Practice problem framing, decision making, and synthesizing complex information. Reflect on which professional communication skills are the most essential complements to your classroom skills and knowledge. Craft ways to improve those most essential skills. Reflect on when to ask for help and when not to. Through hands-on projects, learn about adaptability in the workplace and deciphering professional expectations.

**Requisites:** Restricted to Business (BUSN) majors.

### **BADM 3880 (3) Special Topics**

Introduces students to the many facets of the marketing of sport and marketing through sport. Theoretical and practical applications of marketing sport are examined. Provides students with an understanding of current marketing concepts and best business practices, related to sports enterprises and a foundation for pursuit of further study and work in sports and event marketing.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

### **BADM 3900 (1) Independent Study**

Department consent and departmental form required.

**Repeatable:** Repeatable for up to 3.00 total credit hours.

**Requisites:** Restricted to Business (BUSNU) majors only.

### **BADM 3930 (1-6) Internship - London Seminar**

Student training and participation in government or industry environment under faculty supervision. Instructor consent required.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course of BASE 2104 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

**BADM 4030 (3) Crisis Communication**

In today's highly volatile, uncertain, complex, and ambiguous (VUCA; Johansen, 2012) world, successful business leaders understand that experiencing an organizational crisis is a matter of when, not if. Organizational leaders' communication and actions before, during, and after a crisis determine if the organization survives, is able to recover, and ultimately utilize the crisis as an opportunity for growth. This course takes a message-centered approach to the study of crisis communication. The purpose of this course is to explore the role of communication and strategic communication practices throughout the three stages of crisis management. Both theoretical and applied research areas are considered to provide an overview of the established and emerging perspectives on risk and crisis from the communication perspective.

**Requisites:** Restricted to Business (BUSN) majors with 52-180 units completed.

**BADM 4820 (1-6) Special Topics**

Variable topics in business drawing from a variety of business disciplines.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to Business (BUSN) majors with 52-180 units completed.

**BADM 4830 (1-3) Special Topics**

Various topics in business and society drawing from a variety of business disciplines.

**Repeatable:** Repeatable for up to 3.00 total credit hours.

**Requisites:** Restricted to Business (BUSNU) majors only.

**BADM 4900 (1-3) Independent Study**

Intended only for exceptionally well qualified business seniors. Department form required.

**Repeatable:** Repeatable for up to 3.00 total credit hours.

**Requisites:** Restricted to Business (BUSNU) majors only.

**BADM 4910 (2) VITA-Volunteer Tax Assistance**

Offers students the opportunity to gain professional work experience in an accounting position while still in school. Provides academically relevant work experience that complements students' studies and enhances their career potential.

**Requisites:** Requires prerequisite courses of BCOR 2000 and ACCT 3440 or ACCT 5440 (all minimum grade D-). Restricted to Business (BUSN) majors with 52-180 units completed.

## Business Administration - Bachelor of Science (BS)

All business students pursuing a bachelor's degree in business administration must complete the prescribed courses in at least one area of emphasis. The school offers programs in six areas of emphasis: accounting, business analytics, finance, management, marketing and real estate. An area of emphasis consists of a minimum of 18 credit hours taken at CU Boulder.

### Areas of Emphasis Accounting Emphasis

The accounting area of emphasis prepares students for careers in which they will develop, analyze and interpret complex financial data. Accounting majors become experts in "the language of business." This expertise prepares them for careers in CPA firms, business consulting, industry (from Fortune 500 companies to small entrepreneurial

enterprises), not-for-profit enterprises or government. Accountants who pursue careers in public accounting might become partners in public accounting and consulting firms. Those who begin their careers in industry might have positions as a chief executive officer (CEO), chief financial officer (CFO), chief accounting officer (CAO) or controller, tax specialist, internal auditor, accounting systems analyst, financial analyst or managerial accountant. Many students begin their careers in public accounting firms and move to industry or government after several years of experience. Employers seek students with skills in communication, interpersonal interactions, analytical thinking, problem solving and integrity.

The major branches of study in the accounting area of emphasis are:

- Financial accounting / analysis and audit
- Tax planning and compliance

Basic coursework in accounting focuses on developing a comprehensive understanding of the theory and concepts underlying the presentation of financial and operating information about an enterprise to external and internal users. Additional coursework exposes the student to income taxation of business enterprises and individuals, the practice and principles of auditing and assurance services and cost management. Specialization is available through graduate work.

**Professional Certification as a CPA or CMA**

Most accounting students from the University of Colorado earn professional credentials within a year or two of receiving their degrees. The two most widely-recognized professional certifications are the certified public accountant (CPA) and certified management accountant (CMA).

The CPA is a state-granted license, for which each state sets its own requirements. All states require 150 total credit hours of study to be licensed as a CPA, thus the bachelor's degree in business at CU, with only 120 credit hours, will not meet licensure requirements. Additionally, while the CPA requirements of most states have similar components and required courses, the specifics of those requirements differ greatly. Students interested in ultimately pursuing CPA licensure should contact the applicable state licensing board to determine any requirements they may need to fulfill in order to obtain licensure in a particular state. Most states set requirements for the following before a CPA license will be granted:

- Background checks
- Education
- CPA Exam passage
- Work experience

Not only do state requirements differ greatly from one state to another, those requirements frequently change. It is very important that the accounting student obtain the guidelines for the relevant state to ensure proper development of his or her degree plan (see [NASBA.org](http://NASBA.org) (<http://NASBA.org>) or the website of the particular state's board of accountancy).

The CPA license is a legal requirement for someone to perform financial statement audits, but is not legally required to perform other kinds of accounting work. It is important to note, however, that many professional accounting positions set CPA licensure as a job requirement even where it is not legally required, thus a CPA license is a valuable credential for any accounting professional. As a result, most students completing an accounting emphasis at Leeds continue into the concurrent bachelor's

and master's degree program (see Concurrent Degree Programs below) to seek their CPA license.

The CPA's expertise typically focuses on presentation and analysis of financial information for an external user. The CMA's primary focus is improving information for the internal user. Professional accountants' expertise in financial matters and their understanding of company operations through financial information prepare them to become key players and critical decision makers for all aspects of business creation, operation and transformation.

As is the case at most colleges and universities, simply meeting the requirements to receive a degree with an undergraduate emphasis in accounting at Leeds will not necessarily meet all of the specific requirements for CPA licensure of any particular state including Colorado. Prior to being licensed, a candidate must be granted permission by a state's board of accountancy to take the CPA Examination. As with the overall requirements for licensure, the specific requirements and timing when students can take the exam differ greatly for different states, all of which makes it crucial for the student to develop the degree plan in conjunction with applicable state requirements.

The CMA is a different type of certification because it not granted by a state, but rather by the Institute of Management Accountants, which is a professional organization. The requirements are the same regardless of where an applicant lives. The website for the Institute of Management Accountants provides information about becoming a certified management accountant (CMA). Though not legally required for any kinds of positions in any state, the CMA is also a valuable professional credential.

## Business Analytics Emphasis

The area of emphasis in business analytics focuses on the exciting and fast-growing field of big data. This interdisciplinary area of emphasis teaches students how to translate data into strategic business decisions. The coursework integrates marketing and customer analytics with operations research, information management and statistical methods. This technical, quantitative and statistically intensive curriculum prepares students to excel in the field of business analytics.

## Finance Emphasis

Finance is essential to business. Finance faculty boast expertise in foundational concepts like corporate finance and macroeconomics, as well as specialized areas like mergers and acquisitions, derivatives and foreign exchange markets. Students within the program benefit from access to the Burridge Center for Securities Analysis and Valuation and the CU Real Estate Center. Our curriculum prepares students to succeed in areas such as financial management, business economics and real estate. The finance program addresses issues in the financial services and securities area, including topics related to high technology firms, large corporations, and entrepreneurial companies. The finance program is designed to provide students with in-depth exposure to the background necessary for entry-level positions in various areas of financial management. Students study financial management, money and capital markets, investments and derivative securities, and financial institutions. This program enables students to develop the ability to evaluate financial problems and formulate sound financial decisions and policies. Although emphasis is on financial management of profit-oriented organizations, the principles and concepts covered are applicable to nonprofit and governmental organizations.

## Management & Entrepreneurship Emphasis

Advances in business knowledge and technology have radically changed business systems, organization structures, and processes. As a result, critical to today's businesses is the ability to get the right information to the right people at the right time, so that both strategic and operational decisions are made properly and quickly. Students majoring in management & entrepreneurship will learn to recognize the pivotal role that information plays in the business world and to use their knowledge to increase business competitiveness. Students completing the management & entrepreneurship area of emphasis are viewed by potential employers as having the education required to successfully compete in the team-oriented, horizontally organized and globally competitive environments of the 21st century. The management & entrepreneurship area of emphasis prepares students for careers managing people, operations, and information. Management & entrepreneurship students must choose one track: strategy & entrepreneurship, talent management, leadership, information management, operations management, or social responsibility and sustainability.

## Marketing Emphasis

The Marketing Division at the Leeds School of Business is distinguished by its scholarly impact on academic marketing thought and by exceptional teaching. Research by our faculty is our strength. Research is published in prestigious publications such as the Journal of Consumer Research. Our faculty bring marketing theory and practical solutions to students and prepare them for careers in business and in academics. The increasingly global marketplace, coupled with new communication vehicles such as the Internet, have changed the traditional tactics used in marketing. Today's marketing practitioners must understand the unique challenges of serving foreign markets and how to effectively convey their messages to consumers throughout the world. The marketing program develops students' analytic and decision-making skills in such areas as advertising, market research, brand/product management, selling and sales management, distribution, relationship marketing, international marketing, marketing consumer products and services, and marketing nonprofit organizations. Key concepts focus on identifying customer needs and wants, developing products and services to meet those demands, establishing communications to promote products and services, and monitoring transactions and customer responses to guide future activities. Marketing concepts apply to tangible products, services and ideas, consumer and business markets, and domestic and global markets.

## Real Estate Emphasis

Real estate is an essential part of all our lives—it is where we live, work and play. The real estate area of emphasis educates students about the three fundamental building blocks of real estate: real estate property markets; real estate capital markets; and the legal environment where real estate is built, bought, sold, valued, used as security for mortgages, taxed, owned and rented. The real estate curriculum for the area of emphasis consists of required courses in principles of real estate, real estate finance and investments, real estate economics and a senior seminar in real estate. Elective courses to complete the 18-hour requirement allow students to take coursework in real estate law, real estate development, real estate technology or an academic internship.

In addition to the real estate curriculum, the 300+ member University of Colorado Real Estate Center (CUREC) helps students network with industry professionals, obtain internships, part-time and full-time jobs. CUREC also sponsors various treks to visit real estate firms in

major markets, both domestic and international, to enhance students' education. Finally, CUREC sponsors additional skills development with extracurricular courses in advanced Excel for real estate applications, ARGUS Enterprise software, LEEDS Green Building certification, and real estate case analysis and presentation (which is preparation for various real estate case competitions). The program graduates real estate professionals prepared to add value for their employer on the first day of their job.

## Requirements

### Total Credit Hours

Students must complete a minimum of 120 acceptable credit hours from the following categories:

- *Business core* (30 credit hours): Consists of integrated coursework through which students develop key skills such as communication, teamwork and leadership while learning fundamentals of business and working on live cases.
- *Business area of emphasis* (18 credit hours): Emphases are available in accounting, finance, management, marketing, or real estate and require a minimum of three semesters to complete.
- *Business electives* (16 credit hours).
- *Non-business requirements* (33 credit hours): Consists of coursework from the Business General Education requirements.
- *Non-business electives* (23 credit hours).

The school reserves the right to disallow any credit that it determines is not appropriate academic credit.

### Minimum Grade Point Average

- A cumulative GPA of 2.00 in the area of emphasis and all grades in the 18 credit hours must have a grade of C- or higher (no pass/fail credit hours can be applied to the area).
- A cumulative GPA of 2.00 is required for all courses attempted at the university.
- A cumulative 2.00 is required for all business coursework attempted at the university.

### Required Courses and Credits

Code	Title	Credit Hours
<b>Business Core</b>		
BCOR 1015	The World of Business	3

BCOR 2205	Introduction to Information Management and Analytics	1.5
BCOR 2206	Principles of Operations Management	1.5
BCOR 2301	Business Law	1.5
BCOR 2302	Business Ethics and Social Responsibility	1.5
BCOR 2303	Principles of Accounting II	1.5
BCOR 2304	Strategic and Entrepreneurial Thinking	1.5

BASE 2104	BCOR Applied Semester Experience	6
<b>Area of Emphasis</b>		
Students must choose an area of emphasis in accounting, finance, management, marketing or real estate.		18
<b>Business Electives</b>		
Business courses required by specific areas in excess of the 18 credit hours listed under areas of emphasis may count as business electives.		16
<b>Nonbusiness Requirements</b>		
Students in the Leeds School of Business are required to complete coursework from the Business General Education requirements, including classes from the following categories:		33
1		
<b>Mathematical Skills</b> <sup>2</sup>		
Social Sciences <sup>2</sup>		
Written communication <sup>2</sup>		
Arts & Humanities		
Diversity - U.S. Perspective		
Diversity - Global Perspective		
Natural sciences		
<b>Nonbusiness Electives</b>		
Students are required to complete 23 credit hours of non-business electives. <sup>3</sup>		23
<b>Total Credit Hours</b>		<b>120</b>

- <sup>1</sup> A list of courses that fulfill specific requirements for each area is available on the College of Arts and Sciences' General Education Requirements webpage. <https://www.colorado.edu/artsandsciences/undergraduate/degree-requirements/general-education-requirements>.
- <sup>2</sup> Leeds students are required to take microeconomics and macroeconomics, specific math and writing courses to fulfill these categories. Contact undergraduate student services for more information, or visit [leeds.colorado.edu](https://leeds.colorado.edu) (<https://leeds.colorado.edu>).
- <sup>3</sup> Not all classes are accepted as elective credit hours. Generally, to be acceptable, electives must have a form of assessment such as a term paper and/or examinations and must be regular classroom-type courses. Course coverage must be college level, must not be repetitious of other work applied toward the degree, must be academic as opposed to vocational or technical and must be part of the regular university offerings. Contact Undergraduate Student Services or visit the school's Degree Requirements (<http://www.colorado.edu/business/academic-programs/undergraduate-programs/undergraduate-degree/degree-requirements/>) webpage for more information about the number of business elective credit hours required.

### Residency Requirement

Students must complete a minimum of 45 credit hours in University of Colorado courses on the Boulder campus. Of these 45 credits, a minimum of 30 credits must be business courses completed as a matriculated student in Leeds.

## Areas of Emphasis

### Accounting Emphasis

This emphasis may be earned by a student who takes 18 credit hours of accounting beyond the core. The 18-credit-hour requirement for the

emphasis does not meet the educational requirements to be licensed as a CPA in any state. This option might be chosen by a student who does not want to become professionally certified, but who seeks a career involving accounting and financial analysis in industry, government or nonprofit enterprises. This also might be chosen by a student choosing a dual emphasis, such as accounting and finance or accounting and information management.

Code	Title	Credit Hours
<b>Required</b>		
ACCT 3220	Corporate Financial Reporting 1	3
ACCT 3230	Corporate Financial Reporting 2	3

ACCT 4250	Financial Statement Analysis	
ACCT 4540	Accounting Information Systems	
ACCT 4620	Auditing and Assurance Services	
<b>Total Credit Hours</b>		<b>18</b>

### CPA Licensure Requirements

All states require 150 total credit hours for licensure as a CPA and most require additional accounting and other business courses. Most states do not require a master's degree. Thus, one route to licensure is obtain a BS with an accounting emphasis, but take additional coursework to meet the specific requirements of the state(s) where the student expects to practice. Students can generally find the current requirements for a particular state at the website for that state's board of accountancy, or at [NASBA.org](http://nasba.org/) (<http://nasba.org/>). It is possible that one or more courses that a state requires for CPA certification is not available to undergraduates at CU Boulder; in such a case the student could take those courses either in person or online at a different institution.

### Business Analytics Emphasis

The area of emphasis in business analytics focuses on the exciting and fast-growing field of big data. This interdisciplinary area of emphasis teaches students how to translate data into strategic business decisions. The coursework integrates marketing and customer analytics with operations research, information management and statistical methods. This technical, quantitative and statistically intensive curriculum prepares students to excel in the field of business analytics.

MKTG 3700	Digital Marketing
MGMT 4110	Supply Chain Management
MGMT 4120	
<b>Total Credit Hours</b>	<b>18</b>

### Finance Emphasis

Students with a finance emphasis must take 18 credit hours of finance courses beyond the BCOR sequence. Students interested in a finance area of emphasis should plan to take FNCE 2010 during their sophomore year.

Code	Title	Credit Hours
FNCE 2010	Quantitative Methods for Finance	3
FNCE 3010	Corporate Finance	3
FNCE 3030	Investment and Portfolio Management	3
ACCT 3220	Corporate Financial Reporting 1	3
FNCE 4040	Derivative Securities	3
FNCE 4850	Business Senior Seminar in Finance	3
<b>Total Credit Hours</b>		<b>18</b>

### Personal Financial Planning Track (PFP)

Code	Title	Credit Hours
FNCE 2010	Quantitative Methods for Finance	3
FNCE 3820	Principles of Personal Financial Planning and Insurance	3
FNCE 3010	Corporate Finance	3
FNCE 3030	Investment and Portfolio Management	3
ACCT 3220	Corporate Financial Reporting 1	3
FNCE 3040	Retirement Planning	3
ACCT 3440	Income Taxation of Individuals	3
FNCE 3060	Estate Planning	3
FNCE 4840	Personal Financial Plan Development Capstone	3
<b>Total Credit Hours</b>		<b>27</b>

The required courses represent a minimum requirement for competence in financial analysis and decision-making. Combinations of the upper division elective finance courses allow students to structure their learning in preparation for specific career paths. Completion of the optional elective focus does not appear on a transcript.

### Optional Elective Focus: Investment Banking

In addition to the required courses, students interested in a career in investment banking should consider taking the following courses as business electives:

Code	Title	Credit Hours
FNCE 4830	Seminar in Investment Banking	3
ACCT 3230	Corporate Financial Reporting 2	3
FNCE 4050	Capital Investment Analysis	3

<b>Total Credit Hours</b>		<b>18</b>

<sup>1</sup> Additional entrepreneurship (ESBM), management (MGMT) and other courses may be taken as business electives.

### Talent Management Track

The talent management track provides students with the knowledge and skills necessary to earn certification in human resources from the Society of Human Resources, the principal professional society in the field. Graduates are qualified to act as human resource generalists in small, medium and large companies; specialists in organizations with focused human resource units; or well-rounded general managers in any organization.

Students focusing on talent management are also encouraged to take INBU 3300.

## Learning Outcomes

Students graduating with a degree in Business Administration will:

- Develop a basic knowledge of core concepts in the five major functional areas of business: accounting, finance, management, marketing and operations and information management.
- Develop a specialized knowledge of one or more of the five areas of emphasis (accounting, finance, management, marketing and real estate).
- Demonstrate that they have insight into the significance of the globalization of markets and its impact on modern business functions.
- Understand the connections between academic theory and practice.
- Recognize societal issues inherent in all business decisions, including the value of diversity and the role values play in business practices.
- Possess strong analytical and problem-solving skills, enabling them to identify and critically assess business problems.

- Develop a skillset appropriate for business professionals, including strong verbal and written communication skills, proficiency in business computer applications, the ability to work as part of a diverse team and the skills to act and present themselves in a professional manner.

## Bachelor's–Accelerated Master's Degree Program(s)

The bachelor's–accelerated master's (BAM) degree program options offer currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first but begin taking graduate coursework as undergraduates (typically in their senior year).

Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree. In addition, staying at CU Boulder to pursue a bachelor's–accelerated master's program enables students to continue working with their established faculty mentors.

### BS in Business Administration, MS in Accounting or MS in Taxation

#### Admissions Requirements

In order to gain admission to the bachelor's–accelerated master's program in accounting *or* taxation, a student must meet the following criteria:

- Have a cumulative GPA of 3.1 or higher
- Must have completed four **prerequisite** courses with a minimum GPA of 3.0 averaged over the following four courses:
  - ACCT 3220 Corporate Financial Reporting I
  - ACCT 3230 Corporate Financial Reporting II
  - ACCT 3320 Cost Management/Accounting
  - ACCT 3440 Income Taxation of Individuals
- Transfer students must have completed a minimum of 24 credit hours at CU Boulder

#### Program Requirements

BAM students will be allowed to take four classes (12 credit hours) of MS coursework while still in undergraduate status (i.e. the “BAM” courses). Of the four BAM courses, a maximum of three classes (9 credit hours) will be allowed to double count toward both the undergraduate and master's degrees. All BAM courses will be charged undergraduate tuition. After receiving the undergraduate degree, all remaining coursework will be assessed graduate tuition. To advance to the remaining MS coursework, BAM students must submit a graduate admission application early in the semester in which the undergraduate requirements will be completed.

Below is a recommended sequence of courses to complete in addition to other undergraduate requirements. The BAM in accounting or taxation is a 150 credit-hour program. Students earn a BS in business administration (120 credits) with an area of emphasis in accounting, finance, or accounting and finance, and an MS in Accounting (30 credits) or an MS in Taxation (31 credits).

#### Fourth Year - Undergraduate Status

- Required for all: ACCT 6350 (counts toward ACCT 4850 requirement)
- Choose up to three of the following:

- ACCT 5450 (counts toward MS degree only)
- ACCT 5620 (counts toward ACCT 4XXX elective requirement)
- ACCT 5240 (counts toward ACCT 4XXX elective requirement)
- ACCT 5250 (counts toward ACCT 4XXX elective requirement)
- BSLW 5120 (counts toward business elective)

### Fifth Year - Graduate Status

- Take remaining MS coursework over the summer, fall and spring semesters. Most courses are offered every semester but ACCT 6620 must be taken during final semester of the program. With precise planning, it is possible to complete the remaining graduate work over one summer session and one full semester

*Note:* The MS taxation path has less flexibility than the MS accounting path; please contact the department for taxation advising.

### Additional Information

If you are interested in the bachelor's–accelerated master's degree in accounting or taxation, please contact the Leeds Graduate Program for more information at [leedsmsa@colorado.edu](mailto:leedsmsa@colorado.edu).

## Business - Minor

In 2013 the Leeds School of Business launched a 12-credit business minor so all CU Boulder students could gain business fundamentals, increasing their immediate impact as new hires. The business minor is now the largest minor on campus, attracting nearly 2,000 students from each college across the university.

Visit the Business Minor (<https://www.colorado.edu/business/academic-programs/minor-business/>) webpage to learn more about the curriculum, eligibility requirements and application process.

## Requirements

### Application

The admissions process consists of an online application (<https://www.colorado.edu/business/undergraduate/admissions/non-business%20major/business%20minor/>) and resume upload. Leeds receives many more qualified applicants than spots available; apply early for favorable admission.

### Deadlines

Round 1 applicants (standard admission) receive admission decisions before registration opens, while Round 2 applicants (late admission) receive admission decisions after registration has begun.

- Spring deadlines: Oct. 5 (Round 1) & Dec. 5 (Round 2)
- Summer deadlines: Feb. 5 (Round 1) & April 5 (Round 2)
- Fall deadlines: March 5 (Round 1) & July 5 (Round 2)

### Eligibility

To be eligible for admission students must have a minimum 2.0 cumulative GPA and have earned at least a C- in a pre-approved math reasoning course. Students currently enrolled in a pre-approved math reasoning course may apply and be conditionally admitted pending final course grade. The complete list of pre-approved math reasoning courses can be found on the Business Minor Application (<https://www.colorado.edu/business/undergraduate/admissions/non-business%20major/business%20minor/>) webpage.

## Required Courses and Credits

The Business Minor takes a minimum of two semesters to complete. Foundation courses must first be completed before moving on to the track and capstone courses.

Code	Title	Credit Hours
<b>Foundation Courses</b>		
BUSM 2010 & BUSM 2011	Principles of Marketing and Principles of Management	3
BUSM 2020 & BUSM 2021	Principles of Accounting and Principles of Finance	3
<b>Program Track</b>		
Choose one 3-credit track. (View "Track Courses" section below.)		3
<b>Capstone</b>		
BUSM 4010	Entrepreneurship and Innovation	3
<b>Total Credit Hours</b>		<b>12</b>

### Foundation Courses

Through our foundation courses students are introduced to the essential elements of marketing, management, accounting and finance. Foundation courses are available in the fall, spring and summer. Track and capstone courses are only available in the fall and spring. The global business track is the exception, as it occurs abroad during the summer months and is available to a select few.

Prospective Business Minor students interested in taking summer foundation courses should apply for the summer cohort and are expected to enroll in both BUSM 2010/BUSM 2011 and BUSM 2020/BUSM 2021 over Summer Sessions A and B.

*Note:* Business Minor course codes changed in Fall 2018: Marketing & Management was previously coded as BUSM 2001, Finance & Accounting was coded as BUSM 2002, Tracks were coded as BUSM 3001, 3002, 3003, 3004 and 3005 and the Capstone was listed as BUSM 4001.

### Track Courses

Students must complete one 3-credit track course, but may enroll in multiple tracks if desired.

Code	Title	Credit Hours
<b>Track Courses</b>		
<i>Innovation</i>		
BUSM 3010	Product Development I	1.5
BUSM 3011	Product Development II	1.5
<i>Analytics</i>		
BUSM 3020	Business and Financial Analytics I	1.5

<i>Real Estate</i>		
BUSM 3050	Introduction to Real Estate	3
<i>Environmental Sustainability</i>		

BUSM 3060	Environmental Sustainability in a Globalized World	3
-----------	--	---

### Capstone Course

Students complete the minor with an entrepreneurial capstone course that focuses on business strategy and development (BUSM 4010).

## Business Leadership - Certificate

The business leadership certificate provides students with the foundations of theory and research on leadership, but emphasizes professional experiences such as mentoring, internships, and engaging in leader roles. By the time they graduate, students should be poised to embrace leadership challenges as they unfold, make sense of leadership experiences, thrive in a dynamic business culture, and lead with an ethical compass.

The business leadership certificate is recommended for students who:

- are interested in learning about the art and science of leadership,
- have an interest in developing their own leadership to take on exciting leadership roles,
- want to accelerate their leadership development so they can best learn from their early career experiences, and
- want to start their own companies or lead important projects for social change.

## Requirements

### Admissions Requirements

Complete the Business Leadership Certificate Application Form (<https://www.colorado.edu/business/programs/leeds-certificate-programs/business-leadership-certificate/>) or email Antonio Papuzza ([antonio.papuzza@colorado.edu](mailto:antonio.papuzza@colorado.edu)) for additional details.

### Required Courses and Credits

To teach students to be leaders, we must go beyond the traditional classroom, providing students with the opportunity to engage in leadership experiences and to make sense of those experiences to prepare them for future leader roles. As such we include both classroom and experiential requirements to the certificate.

There is a minimum grade requirement is a C- or better in order for upper-division courses to apply toward a certificate requirement. In addition, students are required to maintain an overall GPA of 2.0 for the selected courses.

Code	Title	Credit Hours
<b>Required Coursework</b>		
BCOR 2202	Principles of Organizational Behavior	1.5
BCOR 2302	Business Ethics and Social Responsibility	1.5

## Entrepreneurial Studies - Certificate

Whether working for a large global corporation or a small start-up venture, graduates will be valued for their ability to innovate, lead change, recognize emerging markets and launch new products. The entrepreneurial studies program is designed to develop an individual's abilities to create, discover and exploit opportunities in start-up ventures or existing organizations.

The entrepreneurial studies program at the Leeds School of Business is internationally recognized for the quality of its instruction and the capabilities of our students. Within the Leeds School, the Deming Center for Entrepreneurship has served as a rich resource for students with interests in entrepreneurship—coordinating the academic curriculum, providing help with internship and job placement, creating links with the business community and sponsoring networking opportunities and many special events.

The curriculum focuses on experiential learning. Courses are designed to give students hands-on experiences that develop the ability to act on opportunities. Students may begin the study of entrepreneurship in their junior year.

## Requirements

A certificate in entrepreneurial studies is granted to students who fulfill the following requirements:

1. Complete the 12 credits listed below.
2. Earn at least a 3.00 GPA in the three ESBM courses.
3. Complete an approved 60-hour entrepreneurship internship with a start-up company who's been in business for 5 years or less and has less than 200 employees and complete a 2-3 page write-up about it.
4. Engage in the entrepreneurship ecosystem (attend minimum of 8 events) and provide a short write-up on their experiences.
5. Pass a written exam in entrepreneurship at the conclusion of their studies.

## Required Courses and Credits

ESBM 4830	New Venture Creation	3
<b>Total Credit Hours</b>		<b>12</b>

Note: Students seeking internships should complete ESBM 3700 prior to their internship.

For more information, visit the Leeds School's Deming Center for Entrepreneurship (<http://www.colorado.edu/business/deming/>) webpage.

## Global Business - Certificate

The globalization of the marketplace demands employees who can successfully compete in a multicultural business environment in the United States and around the world. Understanding the significant cultural, economic and political differences between countries and regions is vital to success in international business.

To develop these competencies, the Leeds School of Business offers the Global Business Certificate to its students. The certificate provides diverse exposure to global business principles and opportunities to develop intercultural self-awareness and a global mindset.

MKTG 4250	Product Strategy (Only if taken as a Global Seminar)
ORGN 4444	Global Leadership

#### International Community Connection

(Attend two events)<sup>3</sup>

**Total Credit Hours**

**14-15**

<sup>1</sup> Options for international electives include international business electives, language, geography, economics or political science. Only one foreign language course may be utilized for this requirement; the other class should be in another area.

<sup>2</sup> Students are required to attend two campus events with a global focus. Options are available on the certificate website (<https://www.colorado.edu/business/student-resources/global-initiatives/global-business-certificate/>).

### Additional Requirements

In addition to the three core courses and two elective courses as described above, the certificate program requires that students complete an experiential learning component. Students must participate in a global experience. This requirement may be satisfied in a number of ways including participation in a Leeds First-Year Global Experience, Leeds Global Seminar, global internship, or study abroad program. International volunteer experiences or service learning work that is pre-approved may also be accepted.

All courses taken for the certificate must be taken for a letter grade. The exception is coursework taken on study abroad, which automatically transfers as pass/fail credit.

For any questions about these requirements, students should contact [leeds.global@colorado.edu](mailto:leeds.global@colorado.edu).

## Operations and Information Management - Certificate

Advances in business knowledge and technology have radically changed business systems and processes—for example, how organizations buy and sell goods and services, integrate their supply chain and logistic systems and reach or retain customers. As a result, critical to today's businesses is the ability to get the right information to the right people at the right time, so that both strategic and operational decisions are made properly and quickly. To help students develop this ability, the Leeds School of Business offers the OPIM certificate.

### Requirements

The Operations and Information Management (OPIM) Certificate requires 12 total credits. Students who are not pursuing the Business Analytics Emphasis, Operations Management or Information Management track in the Management and Entrepreneurship Division can take any three courses from the certificate course options listed below. Students pursuing Business Analytics, Operations Management or Information

Management must take three certificate course options that do not already apply to their emphasis/track. Students cannot count courses toward both the OPIM Certificate and Business Analytics, Operations Management or Information Management.

To complete the OPIM certificate requirements, all students must also complete a faculty-supervised OPIM internship (MGMT 4910).

In addition, students are required to maintain an overall GPA of 3.00 or higher for the selected courses and receive a letter grade of B- or higher in each of the three certificate courses. Successful completion of the certificate program will appear on the student's transcript.

## Courses

## Personal Financial Planning - Certificate

The Personal Financial Planning Certificate is available to undergraduate students who are not enrolled in the Personal Financial Planning Track. The certificate, which includes coursework requirements and an experiential component, is designed to differentiate students seeking to position themselves for potential career opportunities within the financial services industry and acquire personal skillsets for financial planning and wealth management.

## Requirements

In addition to completing the four courses as described below, students must complete a relevant experiential learning activity, a personal reflection and an exit interview.

Code	Title	Credit Hours
<b>Required Courses</b>		
FNCE 2830	Personal Investment Management	3
FNCE 3820	Principles of Personal Financial Planning and Insurance	3
<b>Electives</b>		
Complete two of the following:		6
ACCT 3440	Income Taxation of Individuals	
FNCE 3040	Retirement Planning	
FNCE 3060	Estate Planning	
<b>Total Credit Hours</b>		<b>12</b>

## Learning Outcomes

- Upon completion of each course, students should be able to demonstrate the associated CFP Board learning objectives.
- The Certificate in Personal Financial Planning will help a student pursue job opportunities in wealth management and personal financial planning firms.

## Social Responsibility and Ethics - Certificate

CU Boulder's Leeds School of Business is one of the few undergraduate business schools in the nation that emphasizes socially responsible conduct in business throughout its curriculum. The Center for Ethics and Social Responsibility (CESR) helps undergraduate students become outstanding business leaders of tomorrow by preparing them to meet the ethical challenges posed by an increasingly competitive, globally connected business world.

CESR offers the certificate in social responsibility and ethics (SRE) to business students who seek to distinguish themselves in the field of socially responsible business, whether their unique interests lie in environmental sustainability, social entrepreneurship, corporate ethics or values-driven leadership. Students who complete the certificate will develop the practical knowledge and marketable experiences that will distinguish them as business professionals who strive to make a positive social impact.

## Requirements

The Social Responsibility and Ethics (SRE) Certificate is available to business students who seek to distinguish themselves in the field of socially responsible business, whether their unique interests lie in environmental sustainability, social entrepreneurship, or ethical leadership. Interested students need to register with the SRE office, then meet with CESR's Program Manager, and must graduate with a 3.00 GPA.

BCOR 2302	Business Ethics and Social Responsibility	1.5
<b>Business Coursework</b>		
Select three of the following courses. All courses have the minimum prerequisites of 52 credits completed and the completion of BASE 2104. Some courses have additional prerequisites.		9
ORGN 3030	Critical Leadership Skills	
CESR/ORGN 3040	Fundamentals of Socially Responsible Leadership	
CESR 3050	Sustainable Space Governance	
CESR 4000	Leadership Challenges	
CESR 4005	Business Solutions for Global Development	
CESR/MGMT 4130	Sustainable Operations	
ORGN 4100	Global Business Ethics	
ORGN 4300	Leading Diverse and Inclusive Organizations	
CESR 4430	Corporate Boards in Action	
ESBM 4830	New Venture Creation	
CESR 4850	The Sustainable Firm: ESG Strategies and Practice	
<b>Total Credit Hours</b>		<b>12</b>

*Note:* These courses are in addition to BCOR, the capstone course, as well as any other prerequisites. See course descriptions for prerequisite details.

### Experiential Learning

SRE students gain practical experience working in a field of their personal interest within sustainability and/or social responsibility. Examples include:

- **Internship (for-profit or nonprofit).** Acceptable internships will be characterized by substantive work that adds value to the organization and contributes to the student's learning. Internships must be approved for SRE credit.
- **Service learning through the Education Abroad Office.** The Office of International Education offers study abroad programs focused on service learning, generally spanning one academic quarter or semester in the host country, during which the student will participate in, and gain credit for study in a school of higher education partnered with work for local institutions and non-governmental organizations on service projects that promote community development.

- **Related coursework.** CESR 4005, MGMT 4140 and advisor-approved courses may count toward the Experiential Learning requirement or toward the Business Coursework requirement, but not both.

For course descriptions and program details, visit the CESR Learning (<http://www.colorado.edu/business/CESR/cesr-learning/>) webpage.

Code	Title	Credit Hours
MGMT 4140	Project Management	3
CESR 4005	Business Solutions for Global Development	3
ESBM 4830	New Venture Creation	3
Advisor-approved independent study in a related topic; or an advisor-approved internship of an appropriate nature		

### Personal Reflection and Exit Interview

Before graduation, students synthesize their academic and experiential experiences and set goals for their future. Students write a short essay (2-3 pages), reflecting on their experience and setting out the values that will guide their conduct and their careers. Students then meet with a staff or faculty member associated with the certificate program for their exit interview.

## Cross-College Programs International Media - Certificate

This undergraduate certificate program is designed exclusively for undergraduate students enrolled in the College of Media, Communication and Information (CMCI), and in the International Affairs major (IAFS) in the College of Arts and Sciences. This certificate allows students majoring in international affairs to explore careers in international reporting, advertising and entertainment, while CMCI majors will acquire the context and perspective necessary to work in global and international jobs.

### Requirements

The certificate requires 18 to 19 credit hours (depending on the lower-division courses chosen), 15 of which must be upper-division courses.

Students majoring in international affairs are eligible to apply for admission to the certificate program if they have completed 30 credit hours (at least 6 of which must be in their major) with a GPA of 2.75 or better.

For more information, visit the International Media Certificate page of the CMCI website (<https://www.colorado.edu/cmci/academics/journalism/international-media-cert/>).

## Native American and Indigenous Studies - Certificate

The Center for Native American and Indigenous Studies (CNAIS) offers both a graduate and undergraduate certificate in Native American and Indigenous Studies (NAIS). The certificate program offers a unique interdisciplinary curriculum for CU Boulder students interested in studying the history, cultures, languages, arts, policies and rights of Indigenous peoples from the Americas and around the globe. CNAIS encourages interdisciplinary and intersectional study that develops students' awareness of the diversity and complexity of Indigenous peoples, cultures and nations. It also encourages students to link their academic study of Indigeneity with community outreach and service learning.

A founding principle of CNAIS is to value and expand upon the connections and interdisciplinary nature of Native American & Indigenous scholarly work. The issues facing Native American and Indigenous peoples today require expertise from multiple disciplines and draw from scholarship in a number of fields, including art & art history, anthropology, ethnic studies, environmental studies, gender studies, geography, history, law, linguistics, literature and religion. CU Boulder has recruited an unprecedented number of faculty working in a wide array of areas related to NAIS, and already enjoys a high national and international reputation in several of these areas. In pursuing the NAIS certificate, students join a vibrant and growing community at CU Boulder, including graduate and undergraduate students and more than 40 professors.

For more information, visit the Center for Native American and Indigenous Studies (<http://www.colorado.edu/cnais/>) website.

## Requirements

Students pursuing this certificate must complete an undergraduate degree in any of the academic areas offered by CU Boulder, and complete a total of 18 credits of acceptable coursework from the certificate program list.

At least 6 of the 12 credit hours of elective courses must be upper division, and students may choose to apply up to 3 credits of independent study/internship toward the credit requirement. Any independent study must be undertaken with a CNAIS core faculty member, and may be done

when a student wishes to pursue an individualized course of study not normally offered in the NAIS course offers. Independent study is typically reserved for third- and fourth-year students.

Only nine credits from the student's major or minor may be counted toward the certificate, students must maintain a C average (2.0) or better, and students must earn a grade of C or better in all courses that count toward the certificate.

## Space - Minor

The space minor is part of the larger campus-wide Grand Challenge initiative and is *open to all CU Boulder students* regardless of major. The space minor is designed to provide all students enrolled in the minor with an over-arching background in all aspects of space through the required Pathway to Space (<https://www.colorado.edu/p1dfb9ae7d4d/>) course. Course topics include:

- Space science and exploration
- Human spaceflight and life sciences
- Aeronautics and near space
- Launch and spacecraft systems
- Climate and environment
- Space business, policy and politics
- Space arts, media and history

Visit the Grand Challenge Space Minor (<http://www.colorado.edu/spaceminor/>) website for more information.

## Requirements

Completion of 15 credit hours (5 courses) is required for the minor, distributed as indicated in the course list below. There may be restrictions on how many and/or which specific courses/credits can apply towards this minor as well as towards the student's degree program.

Three of the four elective courses must be completed at the CU Boulder campus. One elective course may be transferred from another institution with approval. A grade point average (GPA) of 2.000 or better is required for all courses used to satisfy the requirements for this minor. Each individual course that is counted towards these degree requirements must be passed with a D- or better. Note, however, that a C- or better is required in all prerequisite courses to move on to a subsequent course.

Code	Title	Credit Hours
<b>Required Courses</b>		
ASEN 1969	Pathway to Space	3
<b>Electives</b>		
Choose four approved elective courses, including those provided in the following partial list: <sup>1</sup>		12
ASEN 3519	Special Topics (The Politics of Space)	
ASEN 4519	Special Topics (Space: Environment and Effects)	
CMCI 3000	Special Topics in CMCI (Space Crazy! Kids, Media, and Information in the Early Space Age)	
COEN 3210	Climate Change and Engineering	
COMM 3620	Advanced Teamwork and Collaboration	
ENVD 4363	Special Topics: Physical Factors in Environmental Design (How to Build in Space)	
FYSM 1000	First Year Seminar (Astronauts & Astropolitics: Topics in Space Exploration From the Cold War)	
RUSS 3221		

ATLS 4519	Advanced Special Topics in Creative Technology & Design (Studio Space)
CINE 2001	Space Odysseys: Astrophys/Astronomy via Cinema/Arts
ENGL 1240	Planetarity
MUEL 3892	Music and Space
RUSS/ITAL 2271	
SPAN 3900	Cosmos Latinos: Hispanic Science Fiction and New Worlds
WRTG 3020	Topics in Writing (Writing about Space)

**Total Credit Hours** **15**

<sup>1</sup> See full list of approved electives on the Space Minor (<http://www.colorado.edu/spaceminor/space-minor-course-list/>) website.

## Education

The School of Education offers programs that prepare individuals to lead in a wide array of educational settings, including teaching in K-12 classrooms, conducting educational research, developing evidence-informed policy and designing innovative learning environments both in schools and in community-based settings.

Whether it is the dream to be a classroom teacher, a community activist or an innovator in research and policy, the School of Education programs are designed for a student's success with field-based experiences, mentorship and community at the core.

## Mission

Our mission in the School of Education is grounded in a lived commitment to democracy, diversity, equity and justice. We teach and conduct research to make a positive difference with and in schools and communities. The work of our faculty, researchers, staff and students leads to evidence-based policy and practice. We aim for our graduates to be engaged and informed educators, researchers, policymakers and community leaders.

## Licensure

The School of Education is authorized by the Colorado Department of Education and the Colorado Department of Higher Education to offer teacher preparation programs.

Because each state has its own laws and standards regarding teacher preparation, our teacher education programs do *not* prepare candidates for licensure in states other than Colorado. It is strongly recommended that students planning to seek professional licensure or certification in a state other than Colorado contact the appropriate licensing entity (<https://www.colorado.edu/education/out-state-licensing-or-reciprocity-co-licensure-other-states/>) in the state in which they are, or plan to be, located in order to seek information and guidance regarding licensure or certification requirements and how a degree from CU Boulder may satiate another state's requirements for licensure in advance of program completion.

## Policies & Requirements

### Admission Requirements

Individuals who are not currently enrolled at CU Boulder should apply for admission following Office of Admissions (<https://www.colorado.edu/>)

admissions/) guidelines. Students interested in the BA in Leadership and Community Engagement or the Elementary Education BA and licensure program should apply directly to the School of Education. Students interested in pursuing a license to teach at the secondary (middle or high school) level should apply to an appropriate major in the College of Arts and Sciences and, when prompted, select the option on the application indicating their desire to pursue secondary licensure.

Undergraduate students currently enrolled in a degree program at CU Boulder must complete an intra-university transfer (<https://www.colorado.edu/office-undergraduate-education/intra-university-transfer-iut/>) (IUT) application to be considered for admission to School of Education BA or licensure programs.

Individuals who have completed a baccalaureate degree at an accredited institution and wish to pursue secondary licensure only may apply by following the “Post-BA Licensure Application” link on the School of Education website (<https://www.colorado.edu/education/admissions/>).

Personal statements are required of all applicants. Decisions are made holistically, with consideration to an applicant’s academic record as well as supplemental materials.

## Scholarships and Awards

The School of Education offers over 60 scholarships each year. Application instructions and step-by-step information is accessible through CU Boulder’s scholarship application. (<http://www.colorado.edu/scholarships/>)

Students are eligible to apply for university-wide financial assistance through the Office of Financial Aid. State and federal programs are available for loan cancellation or forgiveness for Colorado teachers of certain subjects or who teach in designated schools serving students from low-income families. Information about these opportunities may be found at the School of Education Financial Aid and Scholarships (<https://www.colorado.edu/education/student-life/financial-aid-scholarships/>) page.

## Graduation with Distinction

School of Education BA students who have a cumulative GPA of 3.75 or above upon graduation are awarded “Graduation with Distinction” honors. This designation will appear on the student’s transcript and diploma.

## Academic Standards

School of Education students are responsible for familiarizing themselves with degree and/or licensure requirements detailed in the CU Boulder Catalog, the School of Education Student Handbook, and, if applicable, the School of Education Teacher Licensure Handbook. Students pursuing teacher licensure are in a professional program guided by a code of conduct and other requirements beyond classroom performance. A student not meeting professional licensure expectations may be subject to additional requirements or performance reviews even if they maintain satisfactory grades in their coursework.

## Academic Standing

Please see the Undergraduate Academic Records (<https://catalog.colorado.edu/undergraduate/academic-records/#academicstandingtext>) page for Academic Standing information.

## General Education Requirements

The School of Education General Education (Gen Ed) curriculum consists of 40 credits in three basic categories of requirements: Skills, Distribution and Diversity. Courses taken to fulfill the Skills requirements may not also count towards the Distribution requirements. Please contact the School of Education for details. Please note that EDUC 3013 fulfills both the Social Science Distribution and the US Perspectives Diversity requirements

- Skills requirement: 9 credits (6 Written Communication, 3 Quantitative Reasoning and Mathematical Skills) plus a third-level proficiency in a world language other than English
- Distribution requirement: 31 credits (12 Arts & Humanities, 12 Social Sciences, 7 Natural Sciences and Natural Sciences lab)
- Diversity requirement: 6 credits (3 US Perspectives and 3 Global Perspectives)

The world language graduation requirement for the School of Education’s undergraduate BA programs is third-level proficiency in a single modern or classical language (other than English). Students may fulfill this requirement by:

- Successfully completing three years of high school coursework in a single language, or
- Earning AP or IB credit for an appropriate third-semester college-level course that is part of a three-course sequence, or
- Passing, with a C- or better, an appropriate third-semester college-level course that is part of a three-course sequence, or
- Passing a CU Boulder approved language proficiency examination at third-level proficiency.

The world language area of the Skills requirement aligns with the School of Education’s commitment to prepare graduates who are well equipped to serve the needs of all students and advocate for educational equity and justice in our increasingly diverse communities and schools.

## Grading Policies

### Passing Grades

All undergraduate teacher licensure candidates must earn a grade of C- or better for a course to fulfill degree requirements, skills requirements, or content requirements for elementary or secondary licensure. All undergraduate teacher licensure candidates must earn a grade of B- or better in their upper-division EDUC courses to progress through course sequences required for licensure. Courses in which grades of D+, D, or D- are earned may apply toward elective credit only.

Undergraduate majors in non-licensure programs must earn grades of C- or better in all courses applied toward major requirements. A grade of D- or better is required for all other courses applied toward non-licensure undergraduate majors (e.g., skills and distribution requirements, except the world language requirement as defined above).

### Incomplete Grades

An incomplete (I) grade indicates that the student did not complete the requirements for the class by the end of the grading period for that semester, and has made a written agreement with the instructor for additional time to do so. Requests for incomplete grades must be initiated by the student and only when, for reasons beyond their control, the student is unable to complete the class requirements within the semester of enrollment.

To be eligible to request an incomplete grade in a course, a student must have

1. satisfactorily completed at least 60% of all course requirements;
2. a grade below the minimum grade required for that course to apply to degree or licensure requirements, calculating the missing coursework as zero.

If the instructor approves the request, the student and instructor should work together to generate a list of the outstanding work to be completed, its weighted value towards the final grade, and clear timelines for submission. The student must document the expectations on the Incomplete Grade Agreement Form, located on the School of Education website (<https://www.colorado.edu/education/student-life/policies-forms/>), and submit it for the instructor's signature.

Submission deadlines should take into consideration time needed to read the materials and submit the grade change paperwork before university grading deadlines. The university allows up to one year to complete requirements, but the instructor may specify a shorter time period. If no updated agreement is in place and work is not submitted by agreed-upon deadlines specified in the agreement, the instructor will update the grade based on the work that has been submitted at that time. It is the student's responsibility to keep track of their deadlines. If no update is submitted by the grading deadline of the semester one year after the semester in which the incomplete grade was earned, it will convert to an F grade per campus policies (p. 49).

### Pass/Fail and No-Credit Coursework

Coursework applied toward School of Education degree, minor, certificate, or licensure requirements may not be taken pass/fail or as a no-credit course. During the Spring 2020 semester, the Boulder campus created an exception to this policy due to the COVID-19 shutdown of in-person campus activities. In accordance with the requirements for passing grades described above, P+ grades, reflective of C- or better, are required for applicability to degree or licensure requirements for courses taken in spring of 2020.

### Grade Replacement

Students may retake certain courses for grade replacement in accordance with university policies (<https://www.colorado.edu/registrar/students/degree-planning/grade-replacement/>).

### Grade Changes

To request a change in grade status after published deadlines (e.g. pass/fail to letter grade), you must complete and submit a School of Education Petition Form, located on the School of Education (<https://www.colorado.edu/education/student-life/policies-forms/>) website. Please contact your primary academic advisor for details.

### Attendance Policy

The education discipline is collaborative, therefore classroom presence and engagement is critical to appropriately reach a class's learning goals. Classes may have a maximum number of absences after which work cannot be made up and the course is automatically failed, regardless of the nature of or reason for the absence. Each course's attendance policies and expectations for make-up work will be clearly outlined in its syllabus.

## Student Grievance Policy

The School of Education Student Grievance Procedure is intended to provide a procedure for the resolution of disputes between students and faculty or staff of the School of Education, as well as procedures

for handling student disciplinary matters. Please consult the School of Education's Student Handbook for the grievance procedures, located on the School of Education (<https://www.colorado.edu/education/student-life/policies-forms/>) website. Any question about these procedures should be directed to the Associate Dean of Students.

If you have a grievance with an individual faculty member, the first step is to speak directly to the faculty member about your concerns. However, if you feel that this would put your safety or wellbeing at risk, or if this doesn't resolve the issue, please meet with your academic advisor.

Your academic advisor will help you navigate this process. If the complaint involves your academic advisor, the Director of Advising can support you in this process. Students in INVST Community Studies should first go through that program's grievance procedures.

## Advising

Academic advisors are students' primary point of contact in the School of Education, and students should maintain regular contact with their assigned advisor, including meeting at least once per semester, to ensure that they maintain progress toward graduation and licensure requirements, if applicable. Undergraduate majors will have a hold placed on their record several weeks before their assigned registration date each term, and must meet with their advisor before they will be allowed to register unless otherwise exempted. Licensure students with majors outside the School of Education should maintain contact with their major advisors as well as their School of Education advisors. In addition to working with their advisor(s), students should familiarize themselves with all policies and deadlines.

Students may make appointments with an advisor through Buff Portal Advising or by emailing [edadvise@colorado.edu](mailto:edadvise@colorado.edu). More information is available on the School of Education's Advising (<https://www.colorado.edu/education/student-life/advising/>) webpage.

## Graduation

Students wishing to graduate at the end of a term must submit an online application to graduate in Buff Portal, meeting all appropriate application deadlines published by the Office of the Registrar. Students who do not apply to graduate will not have degrees conferred, regardless of completion of requirements, and must apply to graduate for a future term.

Both the university and the School of Education hold graduation ceremonies only at the end of the spring semester. The School of Education spring ceremony is open to School of Education majors, minors, certificate and licensure students who complete their student teaching in the spring or the previous fall semesters, those who graduated in the previous fall or summer, or those who will graduate that spring or the summer immediately following.

Students who apply to graduate but do not fulfill all degree requirements by the deadline for that term/year must submit a new online graduation application for the term in which they will fulfill remaining requirements.

## Programs of Special Interest

### CU Engage

The mission of CU Engage is to leverage the resources of the Boulder campus to work collaboratively with community groups to address complex public challenges. CU Engage, which is part of the School of Education, develops and sustains equity-oriented partnerships, organizes

opportunities for students to learn alongside community members and supports participatory research methods focused on the public good.

CU Engage provides support for two focal activities: 1) community-based learning pathways and 2) community-based research. These activities are linked through the formation of community partnerships that support both learning and research. Community-based learning pathways—including INVST Community Studies, Public Achievement, CU Dialogues and the Leadership Studies Minor—prioritize experience (learning by doing), reciprocity (work with rather than for communities) and intellectual rigor rooted in academic disciplines. Community-based research refers to projects that bring people together with varied training and expertise, working collectively in mutually beneficial ways, on research studies that matter to the public.

## Equity & Diversity Initiatives

As an important part of its mission, the CU Boulder School of Education has a strong commitment to democracy, diversity and social justice. Given that education is a cornerstone of individuals' life chances and opportunities as well as an informed and engaged public, the unwavering evidence of inequality in American education demands the sustained and dedicated attention of researchers, educators and policymakers.

### Education Diversity Scholars Program

The Education Diversity Scholars (EDS) program works with the University of Colorado's LEAD Alliance Neighborhood to provide students of color and first-generation college students with social and academic support, as well as advising on financial support and career preparation. The goal of the program is to offer students a welcoming environment and a strong support network in order to help them excel in their chosen fields. By participating in the Education Diversity Scholars neighborhood, students have access to the personal contact and support of a small community while still being able to take advantage of the benefits of a large university.

### INVST Community Studies

Consistent with their vision for a just and sustainable world, the INVST Community Studies program develops engaged citizens and leaders who work for the benefit of humanity and the environment. INVST Community Studies innovatively operates as a community-based organization, practicing service learning and participatory education. In order to fulfill this mission, the program offers:

- Comprehensive two-year Community Leadership Program (CLP) focused on developing community leaders who engage in compassionate action as a lifetime commitment;
- Community Studies electives that foster civic responsibility and leadership potential;
- Public Achievement Program where CU undergrads coach local primary and secondary school students in the design and implementation of public action projects; and
- Youth Council for Public Policy that empowers young people to use the democratic process as a tool for positive social change.

The INVST CLP offers a unique and transformational educational experience to all majors. Each year the INVST CLP admits a small group of students who are committed to making a positive difference with their lives. The two-year program is designed to cultivate deep understanding about issues facing people and the planet and to provide skills and experiences for community leaders to fulfill progressive visions for change. Specifically, students participate in theory classes, skills-training

classes and two summer service-learning experiences, one domestic and one international. In addition, students intern six hours each week with community-based organizations during their first academic year, and collectively design, implement and evaluate community leadership projects during their second academic year. Students learn and serve together in a small group environment throughout the program. Applications for the INVST CLP are due every year in February.

### Multicultural Leadership Scholars Program

The Multicultural Leadership Scholars (MLS) program offers engaging courses, advising and co-curricular activities, and is open to first-year students from all majors. Based on a social justice approach, coursework for the the MLS program emphasizes that building community, collaboration, ethical reflection, respect and valuing diversity are hallmarks of contemporary leadership practice. Taking classes as a Multicultural Leadership Scholar as a first-year student allows one to complete 8 of the 16 credits needed to earn a Leadership Studies Minor.

## STEM Initiatives

CU is a leader in Science Technology Engineering and Math (STEM) education. The School of Education, in collaboration with the College of Arts & Sciences, developed and is a national leader in the Learning Assistant model. Additionally, CU Boulder was one of the original 13 institutions selected to replicate the U Teach Model which started at the University of Texas, Austin. Both the LA and CU Teach programs help us prepare outstanding secondary math and science teachers.

The Learning Assistant (LA) Model at CU Boulder uses the transformation of large-enrollment science courses as a mechanism for achieving four goals:

- Recruit and prepare talented science majors for careers in teaching;
- Engage science faculty in the recruitment and preparation of future teachers;
- Improve the quality of science education for all undergraduates; and
- Transform departmental cultures to value research-based teaching for ourselves and for our students.

The transformation of large-enrollment courses involves creating environments in which students can interact with one another, engage in collaborative problem solving and articulate and defend their ideas. To accomplish this, undergraduate LAs are hired to facilitate small-group interaction in our large-enrollment courses.

CU Teach is a four-year degree/licensure program that allows students to complete a rigorous education in a mathematics, science or engineering major and fulfill requirements for a Colorado initial teaching license in secondary mathematics or secondary science. It is a unique collaborative program between the College of Arts and Sciences, the College of Engineering and Applied Science, and the School of Education. CU Teach students get immediate hands-on teaching experience by enrolling in the first course in the program, EDUC 2035 Designing STEM Learning Environments and Experiences. Students can enroll in EDUC 2035 as early as their first semester at CU. In addition to taking courses from research faculty in the School of Education, the College of Arts & Sciences, and the College of Engineering and Applied Science, CU Teach students get support from Mentor Teachers (current K–12 teachers) and Master Teachers (CU faculty who are veteran classroom teachers). The student organization hosts activities and events that are social as well as service-oriented, and that help students develop career networks.

## Programs of Study

The School of Education provides initial teacher licensure programs that ensure rigorous content preparation and extensive clinical experience in local partner schools. Initial teacher licensure programs are available at the undergraduate, post-baccalaureate and master's level. The School of Education collaborates with the College of Arts & Sciences, the College of Engineering and Applied Science and the College of Music to design initial teacher licensure programs for undergraduates that combine a major in Arts & Sciences, Engineering and Applied Science or Music with courses and field experiences in education. Undergraduates pursuing licensure in Secondary or K–12 Music complete the teacher licensure requirements while earning a bachelor's degree from another college on campus. Undergraduate students interested in K–6 Elementary Education pursue a major in Elementary Education.

Through the CU Engage program, undergraduates are provided opportunities to participate in community-based research and programs. Undergraduate students pursuing a major in the College of Arts & Sciences may apply for a dual degree with a major in Leadership and Community Engagement.

In addition, the School of Education offers two undergraduate minors – one in Education and one in Leadership Studies – and an undergraduate certificate in STEM Education.

**Course codes for the programs are EDUC, INST, INVS, and LEAD.**

## Bachelor's Degrees

- Education Studies - Bachelor of Arts (BA) (p. 695)
- Elementary Education - Bachelor of Arts (BA) (p. 697)
- Leadership and Community Engagement - Bachelor of Arts (BA) (p. 701)

## Minors

- Education - Minor (p. 704)
- Leadership Studies - Minor (p. 705)

## Certificates

- STEM Education - Certificate (p. 709)

## Teacher Licensure Programs

- Post-Baccalaureate (p. 710)
- Undergraduate Nondegree (p. 717)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Agnoletti, Charla ([https://experts.colorado.edu/display/fisid\\_156405/](https://experts.colorado.edu/display/fisid_156405/))

Penuel, William Richard ([https://experts.colorado.edu/display/fisid\\_149719/](https://experts.colorado.edu/display/fisid_149719/))  
Distinguished Professor; PhD, Clark University

Polman, Joseph Louis ([https://experts.colorado.edu/display/fisid\\_151296/](https://experts.colorado.edu/display/fisid_151296/))  
Professor, Associate Dean; PhD, Northwestern University

Ramirez, Karen E. ([https://experts.colorado.edu/display/fisid\\_116951/](https://experts.colorado.edu/display/fisid_116951/))  
Distinguished Teaching Professor; PhD, University of Illinois at Urbana-Champaign

Rexroth, Grace ([https://experts.colorado.edu/display/fisid\\_167469/](https://experts.colorado.edu/display/fisid_167469/))  
Assistant Teaching Professor; PhD, University of Colorado Boulder

Santiago Schwarz, Vanessa ([https://experts.colorado.edu/display/fisid\\_163872/](https://experts.colorado.edu/display/fisid_163872/))  
Assistant Teaching Professor; PhD, University of Colorado Boulder

Schultz, Kathy ([https://experts.colorado.edu/individual/fisid\\_157988/](https://experts.colorado.edu/individual/fisid_157988/))  
Professor, Dean; PhD, University of Pennsylvania

Scornovacco, Karla  
Assistant Teaching Professor; PhD, University of Colorado Boulder

Shear, Benjamin R. ([https://experts.colorado.edu/display/fisid\\_157747/](https://experts.colorado.edu/display/fisid_157747/))  
Assistant Professor; PhD, Stanford University

Shepard, Lorrie A. ([https://experts.colorado.edu/display/fisid\\_105949/](https://experts.colorado.edu/display/fisid_105949/))  
Professor Emeritus; PhD, University of Colorado Boulder

Sideris, Sabrina ([https://experts.colorado.edu/display/fisid\\_120493/](https://experts.colorado.edu/display/fisid_120493/))  
Assistant Teaching Professor; PhD, University of Denver

Sinha, Vandna ([https://experts.colorado.edu/display/fisid\\_165162/](https://experts.colorado.edu/display/fisid_165162/))  
Associate Research Professor; PhD, University of Denver

Staley, Sara J. ([https://experts.colorado.edu/display/fisid\\_155137/](https://experts.colorado.edu/display/fisid_155137/))  
Assistant Professor; PhD, University of Colorado Boulder

Stillman, Jamy A. ([https://experts.colorado.edu/display/fisid\\_156381/](https://experts.colorado.edu/display/fisid_156381/))  
Associate Professor; PhD, University of California, Los Angeles

Taylor, Edward V. ([https://experts.colorado.edu/display/fisid\\_151510/](https://experts.colorado.edu/display/fisid_151510/))  
Associate Teaching Professor; PhD, University of California, Berkeley

Valladares, Michelle  
Associate Research Professor, Associate Director; PhD, University of California, Los Angeles

Van Buskirk, Allison ([https://experts.colorado.edu/display/fisid\\_159795/](https://experts.colorado.edu/display/fisid_159795/))  
Assistant Teaching Professor; MA, Naropa University

Veveer, Elaina  
Assistant Teaching Professor; MA, University of Colorado Boulder

Webb, David C. ([https://experts.colorado.edu/display/fisid\\_141204/](https://experts.colorado.edu/display/fisid_141204/))  
Associate Professor; PhD, University of Wisconsin-Madison

Welner, Kevin G. ([https://experts.colorado.edu/display/fisid\\_115565/](https://experts.colorado.edu/display/fisid_115565/))  
Professor; PhD, University of California, Los Angeles

White, Terrenda Corisa ([https://experts.colorado.edu/display/fisid\\_152828/](https://experts.colorado.edu/display/fisid_152828/))  
Associate Professor; PhD, Teachers College at Columbia University

Wilson, Terri Suzanne ([https://experts.colorado.edu/display/fisid\\_155469/](https://experts.colorado.edu/display/fisid_155469/))  
Associate Professor, Faculty Director; PhD, Columbia University

Zarske, Malinda Schaefer ([https://experts.colorado.edu/display/fisid\\_120823/](https://experts.colorado.edu/display/fisid_120823/))  
Lecturer; PhD, University of Colorado Boulder

## Courses

### Education

#### EDUC 1001 (1) Humanities Teaching for Equity: Naming

Critically frames learning to teach for equity and justice. Focuses on naming and examining students' identities and positionalities. Orients students to the School of Education's mission and guiding principles of the Secondary Humanities program. Meets weekly on CU campus.

**Requisites:** Restricted to teacher licensure students with an EDEN-LICU, EDSS-LICU, or EDSP-LICU plan

**Grading Basis:** Letter Grade

#### EDUC 1020 (1) First Year Success at CU

Introduces first-year majors to campus resources and academic success strategies. Students learn about a wide range of topics, including time management, research, and student involvement. This course also serves as a forum for continued conversations about concepts from EDUC 3013: School in Society, as well as the social justice implications for emerging leaders and educators.

**Repeatable:** Repeatable for up to 2.00 total credit hours.

**Requisites:** Restricted to Education (EDUC) or Leadership/Community Engagement (LDCE) majors only.

#### EDUC 1080 (3) Decolonizing Education: Design for New Futures

What does critical pedagogy mean? What does it mean to be a transformative educator? What does emancipatory, critical, culturally sustaining education praxis, actually look like? These are the central questions that guide this course. In this course, students will have the opportunity to explore the intersection of curriculum design, critical pedagogy, and learning theory through conversations with scholars, teaching sample lessons, reflective writing, practice-based pedagogical activities, and examinations of current-events related to critical pedagogy. Formerly offered as a special topics course.

**Grading Basis:** Letter Grade

#### EDUC 1500 (1) Success Strategies in Higher Education

Introduces students to learning theories and a range of college success strategies to deepen their engagement with their academic work.

Students will learn metacognitive practices to identify the values and aims driving their academic ambitions and craft their most successful path through their undergraduate experience.

**Repeatable:** Repeatable for up to 2.00 total credit hours.

**Grading Basis:** Letter Grade

**Additional Information:** Departmental Category: General Education

#### EDUC 1580 (3) Energy and Interactions

Engages non-physics majors in hands-on, minds-on activities and labs to investigate the physical world, the nature of science, and how science knowledge is constructed. This introductory course is especially relevant for future elementary and middle school teachers although it will meet the needs of most non-physics and non-science majors. Physics content focuses on interactions and energy.

**Equivalent - Duplicate Degree Credit Not Granted:** PHYS 1580

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

Departmental Category: General Education

MAPS Course: Chemistry

MAPS Course: Natural Science

MAPS Course: Physics

#### EDUC 2001 (2) Humanities Teaching for Equity: Noticing

Critically frames learning to teach for equity and justice. Focuses on noticing classroom and school spaces. Orients students to the School of Education's mission and guiding principles of the Secondary Humanities program. Meets weekly on CU campus. Includes 4 hours of middle school practicum each week.

**Requisites:** Requires prerequisite of EDUC 1001 (minimum grade C-).

Restricted to teacher licensure students with an EDEN-LICU, EDSS-LICU, or EDSP-LICU plan.

**Grading Basis:** Letter Grade

#### EDUC 2015 (1) Elementary Mathematics and Science Teaching for Social Justice

Working for social justice is central to teaching mathematics and science with elementary-aged children. This course engages prospective elementary teachers with a multitude of early math and science experiences that children draw upon to understand their worlds. Participants will develop interest-driven, culturally sustaining, and inclusive action plans for teaching math and science for social justice with young learners.

**Requisites:** Restricted to Elementary Education (EDEL) majors only.

**Grading Basis:** Letter Grade

#### EDUC 2020 (2) Step 1: Inquiry Approaches to Teaching STEM

Invites science, mathematics and engineering students to explore teaching as a career by providing first-hand experiences teaching science/math lessons in local elementary classrooms. Introduces theory and practice necessary to design and deliver excellent instruction. Master teachers provide ongoing support and feedback. Meets weekly on CU campus (1.5 hours/week) and involves five visits to an elementary school.

**Additional Information:** Departmental Category: General Education

#### EDUC 2025 (1) Step 1: Inquiry Approach to Teaching in Informal Settings

Invites science, mathematics and engineering students to explore teaching and learning in informal K-12 environments. Introduces theory and practice necessary to design and deliver excellent instruction. Meets weekly on CU campus (1.5 hours/week) and requires participants to work a minimum of five hours with K-12 students at STEM-related special events such as science fairs, after school programs, and science camps.

**Requisites:** Restricted to AMEN, ASTR, BCHM, CHEM, EBIO, GEOL, IPHY, MATH, MCDB, PHYS, IDEN, NRSC, Arts and Sciences Open Option majors, Exploratory Studies or College of Engineering majors, or Education minors only.

**Additional Information:** Departmental Category: General Education

**EDUC 2030 (2) Step 2: Inquiry-Based Lesson Design**

Builds on EDUC 2020 and further develops lesson design and inquiry-based teaching practice. Offers opportunity to explore teaching career and learn about middle school culture. Master teacher provides support as students design and deliver lessons in middle school classrooms. Emphasizes assessment of student learning. Meets weekly on CU campus (1.5 hours/week) and involves five visits to a local middle school.

**Requisites:** Requires prerequisite of EDUC 2020 or EDUC 4610 (all minimum grade C).

**Additional Information:** Departmental Category: General Education

**EDUC 2035 (3) Designing STEM Learning Environments and Experiences**

This introductory course to the CU Teach licensure program will facilitate students exploring secondary STEM teaching as a career and provide foundational knowledge for the design of learning environments. Following an introduction to the theory and practice behind research-based and equity-seeking STEM instruction, students will observe and team-teach lessons in a middle school classroom to obtain introductory, firsthand experience in the design of learning environments and experiences.

**EDUC 2050 (1) Step Up to Social Justice Teaching**

Engages students in theory and practice for justice-centered teaching. This first required course for majors introduces the principles guiding the elementary program and provides opportunities for students to enact those principles in collaboration with children and teachers in public school classrooms. Meets weekly on CU campus (1.25 hours/week). Involves additional visits to local schools.

**Requisites:** Restricted to School of Education (EDUC) undergraduates only

**Additional Information:** Departmental Category: General Education

**EDUC 2125 (3) History of American Public Education**

Provides an overview of the history of American education by exploring major reforms efforts from the common school movement to "Nation at Risk." Examines what intellectuals were thinking about public schools and what ordinary people experienced in them. Assesses how differences in race/ethnicity, class, gender, and power shaped public schools.

**Additional Information:** Arts Sci Core Curr: United States Context  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: General Education

**EDUC 2130 (3) Teaching and Learning Math: Calculus, Trig and Adv Functions**

This course focuses on the design and facilitation of mathematics experiences that embody more active approaches to learning advanced mathematics topics, including advanced algebra, trigonometry, and calculus. The parallel investigation of mathematics content, task design, and issues of teaching and learning occur throughout the course; this intertwining of perspectives is accomplished through the use of various instructional materials, readings, activities, and mathematics curricula. One overarching goal is to engage participants in advanced mathematical reasoning, to reflect on their own knowledge of mathematical relationships, and to examine pedagogical ideas that can foster productive mathematical teaching and learning.

**EDUC 2150 (3) Education in Film**

Provides opportunities to view and analyze how facets of education are represented (or misrepresented) in film. Considers narratives constructed about education and how those stories fuel popular conceptions of and assumptions about students, teachers, and schools. Examines how issues of race, class, and gender are embedded in how films represent schools, teachers, students, and communities.

**Additional Information:** Departmental Category: General Education

**EDUC 2311 (3) Children's Literature and Literacy Engagement in Elementary Schools**

Focuses on teaching children's literature in elementary schools & youth organizations. Participants will understand theoretical and developmental processes associated with literary learning, methods for teaching literature in a diverse society, and the integration of classroom instruction with the Colorado Academic Content Standards that foster such processes.

**Additional Information:** Departmental Category: Elementary Education

**EDUC 2400 (3) Cultural Diversity and Awareness**

Enhances students' self-awareness in a variety of educational and cultural settings. Investigates self within a cultural context, inviting students to engage more deeply with their cultural assumptions and lenses, as well as the cultural practices and beliefs of other distinct groups. Explores themes relating to diversity through works of fiction, cultural contexts, contemplative practices, poetry, music and experiential activities.

**Additional Information:** Departmental Category: General Education

**EDUC 2411 (4) Educational Psychology for Elementary Schools**

Integrates theories and ideas from elementary school child development, educational psychology and the learning sciences. Explores theories of learning and child development and considers implications for teaching, student engagement and the design of equitable and effective learning environments. Students are required to attend a practicum off-site for this class.

**Additional Information:** Departmental Category: General Education

**EDUC 2425 (3) Foundations of Bilingual/Multicultural Education**

Provides the conceptual, linguistic, sociological, historical, political, and legal foundations that have shaped bilingual education policies, program models, and teaching and assessment practices of bilingual and multicultural education in the U.S. Designed for undergraduate elementary teacher education majors, the course presents an overview of the types of bilingual education programs and the principles that anchor equitable and quality bilingual and multicultural education for emergent bilingual students, including those identified as English learners. Can be taken concurrently with EDUC 2615 (but should not be taken after).

**EDUC 2490 (3) Educational Psychology for Elementary Schools**

This course integrates theories and ideas from human development, educational psychology, and the learning sciences. Together, we will explore theories of learning and human development and consider implications for teaching, student engagement, and the design of equitable and effective learning environments.

**Recommended:** Prerequisite EDUC 3013 School and Society.

**EDUC 2500 (3) Strategies for Social Change**

Examines strategies for social change locally and internationally. Critically explores a range of social change case studies including: community organizations, social movements, social entrepreneurship, philanthropy, political and legal advocacy and technology. Students will develop their own proposal for a social change initiative.

**Grading Basis:** Letter Grade

**Additional Information:** Departmental Category: General Education

**EDUC 2615 (3) Foundations of Language Acquisition for Bilingual Learners**

This course provides an overview of the processes associated with bilingual and biliteracy development with a focus on children who are learning and living in two (or more) languages in their homes, communities, and schools. Designed for undergraduate elementary teacher education majors and preservice teachers, the course examines the complexity of bilingualism and biliteracy in school-age children, including the roles of language and culture in schooling.

**Recommended:** Corequisite EDUC 2425.

**EDUC 2625 (3) Teaching English Language Development**

Exposes students to strategies used to teach English Language Development. Covers both theoretical and applied aspects of language learning and teaching. Exposes students to techniques, activities, strategies and resources to plan instruction for students learning English Language Development. Emphasizes oral language development, literacy and content-area instruction for teaching K-12 students.

**Additional Information:** Departmental Category: General Education

**EDUC 2800 (1-3) Special Topics**

Designed to meet needs of students with topics of interest.

**Repeatable:** Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: General Education

**EDUC 2910 (1-3) Field Practicum 1**

Offers supervised campus and off-campus experiences tied to course work in the INVST program. See also EDUC 2920.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: General Education

**EDUC 2919 (3) Renewing Democracy in Communities and Schools**

Examines curriculum theory, K-12 reform, and the concepts of citizenship, democracy, power, and diversity through classroom discussion and participation in a school-based Public Achievement program. Students will dialogue with diverse groups of people; identify multiple perspectives around controversial issues; and learn to use research and writing to articulate public problems and advocate for their solutions.

**Equivalent - Duplicate Degree Credit Not Granted:** INVS 2919

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-U.S. Perspective

Departmental Category: General Education

**EDUC 2920 (1-3) Field Practicum 2**

Offers supervised campus and off-campus experiences tied to course work in the INVST program. See also EDUC 2910.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: General Education

**EDUC 3001 (2) Humanities Teaching for Equity: Negotiating**

Critically frames learning to teach for equity and justice. Focuses on how relationships are negotiated in classroom spaces. Orients students to the School of Education's mission and guiding principles of the Secondary Humanities program. Meets weekly on CU campus. Includes 4 hours of high school practicum each week.

**Requisites:** Requires prerequisite of EDUC 1001 (minimum grade C-).

Restricted to teacher licensure students with an EDEN-LICU, EDSS-LICU, or EDSP-LICU plan.

**Grading Basis:** Letter Grade

**EDUC 3013 (3) School and Society**

Introduces students - both future teachers and those simply interested in education - to pressing issues surrounding education within the United States. The course reveals the complex relationship between schools and the larger society of which they are a part. Examines issues of diversity and equity from different disciplinary lenses, including history, philosophy, sociology and anthropology.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Core Curr: Contemporary Societies

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-U.S. Perspective

Departmental Category: General Education

**EDUC 3030 (3) Race, Class, and Gender in Young Adult Literature**

This course is designed for students who are interested in learning more about how race, class, and gender appear in literature for young people, ages 10-18, and how literary explorations of these intersecting elements of identity might enrich, complicate, and/or challenge how we see ourselves, others, and our world. Together and independently, we will read and share in conversation around several multicultural young adult texts across multiple genres, including novels, short stories, poetry, drama, and nonfiction.

**Grading Basis:** Letter Grade

**EDUC 3190 (3) Introduction to Teaching and Learning**

This course engages students in questions about what it means to teach and what it means to learn. Through readings, video, and illustrations of teaching and learning in and outside of schools, the course builds understandings about some key areas of teaching, learning, and schooling that will complement the content from other courses in the program. The course is centered in a framework of educational equity and justice that is threaded through the modules. The course is designed to support students in their post-degree goals across career contexts in which knowledge of teaching learning will enhance their work.

**Grading Basis:** Letter Grade

**EDUC 3320 (3) Literacy in the Elementary Classroom 1**

Over the two-course sequence in literacy, students in the elementary major develop a foundational knowledge of core aspects of literacy learning and instruction and apply this knowledge in practica settings, working at individual, small group, and whole-class levels. Literacy 1 focuses primarily on the structure and components of equitable and robust reading instruction in K-5 classrooms, the five pillars of the reading process (phonics, phonemic awareness, fluency, vocabulary, and comprehension), and the analysis and implementation of evidence-based reading instruction practices, with some connections to writing development and assessment and writing instruction.

**Requisites:** Requires corequisite courses of EDUC 3350 and EDUC 4535 and EDUC 4595. Restricted to Elementary Education (ELED-BA) majors only.

**Grading Basis:** Letter Grade

**EDUC 3321 (3) Literacy in the Elementary Classroom 2**

Over the course of the two-course sequence in literacy, students in the elementary major develop a foundational knowledge of core aspects of literacy learning and instruction and apply this knowledge in practical settings, working at individual, small group, and whole-class levels. Literacy 2 builds on the goals of the first course in the sequence and provides a central focus on the structure and components of equitable and robust writing instruction in K-5 classrooms. The course addresses the skills and processes of writing, how to support and engage writers, writing assessment, and the analysis and enactment of evidence-based writing instruction practices. In addition, the course includes content area literacy and continues building students' facilities with digital and multimodal literacy in elementary classrooms.

**Requisites:** Requires prerequisite courses of EDUC 3320 and EDUC 3350 and EDUC 4535 and EDUC 4595 (all minimum grade B-). Requires corequisite courses of EDUC 4205 and EDUC 4435 and EDUC 4455. Restricted to Elementary Education (ELED-BA) majors only.

**Grading Basis:** Letter Grade

**EDUC 3350 (3) Dis/Ability in Contemporary Classrooms**

Examines major issues in special education focusing on a) developing an inclusive stance to teaching all students; b) understanding laws, responsibilities and RTI/MTSS; c) planning for and delivering differentiated instruction in a universally designed classroom environment; e) the social construction and identification of disabilities; f) understanding potential variations across federal disabilities categories; g) teaching students with gifts and talents and; h) collaborating with families and professionals.

**Requisites:** Requires corequisite courses of EDUC 3320 and EDUC 4535 and EDUC 4595. Requires prerequisite or corequisite courses of EDUC 2425 and EDUC 2615 (minimum grade D-). Restricted to Elementary Education (ELED-BA) majors only.

**EDUC 3570 (3) Learning With Technology In and Out of School**

Examines ways digital media are changing the way young people learn, play, make friends, and participate in civic life. Studies widely implemented digital tools intended to support literary, math, and science learning of children ages 4-18. Involves brief internship (5 hours outside class) and design projects that integrate these tools to transform in either a classroom or after-school program.

**Additional Information:** Departmental Category: General Education

**EDUC 3621 (1-3) Art for the Elementary Teacher**

Introduces elementary education students to art education. Introduces many visual art techniques, art media and processes used in art education. Includes hands-on studio art experiences in a format that supports subjects such as literature, writing, music and social studies. Emphasizes the role of art education and materials in supporting the artistic development and visual literacy of children. Department enforced prerequisite: completion of 30 hours of course work.

**Requisites:** Restricted to School of Education (EDUC) undergraduates only

**Additional Information:** Departmental Category: Elementary Education

**EDUC 4001 (3) Framing Equity and Justice in the Humanities Classroom**

Critically frames learning to teach for equity and justice within schools as systems. Orients students to the School of Education's mission and guiding principles of the Secondary Humanities program. Provides opportunities for students to enact those principles with mentor teachers in local classrooms. Meets weekly on CU campus and involves a minimum of 50 hours in local schools.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 5001

**Requisites:** Restricted to EDEN-LICU, EDSS-LICU or EDSP-LICU students.

**Grading Basis:** Letter Grade

**EDUC 4015 (3) International / Comparative Education**

Comparatively studies education in other countries, emphasizing its role in developing nations, with an emphasis on successful models in basic literacy, primary education, secondary curriculum and teacher education. Analyzes political, social and economic policies and ideologies for their relevance to the development process, including the role of international organizations: World Bank, UNICEF, UNESCO, Peace corps and Volunteer Agencies.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 5015

**Additional Information:** Departmental Category: General Education

**EDUC 4023 (3) Differentiating Instruction in Diverse Secondary Classrooms**

Focuses on teaching culturally and linguistically diverse students, special education students, and differentiation in the classroom. Emphasizes evidence-based teaching practices and programmatic interventions that support student learning. Includes practicum.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 4351

**Requisites:** Restricted to EDEN, EDFR, EDGR, EDIT, EDJP, EDLT, EDMA, EDMU, EDSC, EDRU, EDSP, EDSS or MMED majors only.

**Additional Information:** Departmental Category: Secondary Education

**EDUC 4035 (3) Family and Community Engagement**

Supports teachers to develop, improve and maintain positive relationships between families, communities, and schools. Discusses theories of family/community engagement with focus on embracing an assets-orientation. Explores the impacts families and communities can have in education, policies that impact family/community engagement in schools, and other potential bridges and barriers to meaningful partnerships. Challenges students to understand and embrace community-driven systemic education reform.

**Requisites:** Requires prerequisite courses of EDUC 3321 and EDUC 4205 and EDUC 4435 and EDUC 4455 (all minimum grade B-). Requires corequisite courses of EDUC 4215 and EDUC 4331 and EDUC 4710.

Restricted to Elementary Education (ELED-BA) majors only.

**Grading Basis:** Letter Grade

**EDUC 4050 (3) Knowing and Learning in Mathematics and Science**

Explores current theories of learning in mathematics and science at the secondary level. This course focuses on learners' opportunities to learn mathematics and science in a classroom context from the perspective of different theoretical orientations. Students examine their own assumptions about learning, and critically examine the needs of a diverse student population in the classroom. Includes a weekly two hour field component.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 5050

**Requisites:** Restricted to AMEN, ASTR, BCHM, CHEM, EBIO, GEOL, IPHY, MATH, MCDB, PHYS, IDEN, NRSC, Arts and Sciences Open Option majors, Exploratory Studies or College of Engineering majors, or Education minors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Secondary Education

**EDUC 4060 (3) Classroom Interactions**

Students design and implement instructional activities informed by what it means to know and learn mathematics and science, and then evaluate the outcomes of those activities on the basis of classroom artifacts.

Students examine how content and pedagogy combine to make effective teaching. Students are required to work in a classroom 4 hours per week.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 5060

**Requisites:** Restricted to School of Education (EDUC), Mathematics-Secondary Education (EDMA) or Science-Secondary Education (EDSC) majors only.

**Additional Information:** Departmental Category: Secondary Education

**EDUC 4110 (1-3) Cultural Mentoring with Dual Language Learners**

Introduces students to cultural mentoring, the role of cultural identity in schooling, and culturally responsive pedagogies through a partnership with a local elementary School. Students will be assigned fifth grade mentees to work with throughout the semester and will work with other mentors to plan group activities for the after-school program. Requires 2 hours/per week outside of meeting times for participant-observation at a local elementary school. Mentors can repeat the mentoring component one time for 1-credit. This course is designed for first generation and/or students from minoritized backgrounds who can serve as role models for Elementary students in a Dual Language Program. Interested students should contact the instructor prior to enrolling. Previously offered as a special topics course.

**Repeatable:** Repeatable for up to 4.00 total credit hours.

**Requisites:** Requires prerequisite of EDUC 3013 (minimum grade C-) or Ethnic Studies (ETHN) majors. Restricted to students with 57-180 credits (Juniors or Seniors).

**EDUC 4112 (3) Adolescent Development and Learning for Teachers**

Examines current theory and research about adolescent learning and development and explore implications for secondary teaching. Topics include human diversity as a resource for learning, adversity and agency, connecting instruction to students' everyday lives, and the role of belonging and relationships in positive youth development. This course is appropriate for masters degree students.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 5112

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Departmental Category: Secondary Education

**EDUC 4125 (3) Secondary World Language Methods**

Presents and discusses issues in secondary school curriculum, instruction, and classroom management as they play out in world language classroom. Examines, analyzes, and evaluates a variety of teaching strategies, their effectiveness for students, and teacher dispositions to facilitate learning. Includes in-school experiences.

**Additional Information:** Departmental Category: Secondary Education

**EDUC 4135 (3) Story and Memoir**

Explores narrative theory and the epistemological/stylistic commitments of stories as the basis for writing memoir, as well as for studying the written and spoken memoirs of others. We use the word memoir to mean a story of "how one remembers one's own life." Introduces and discusses narrative theory and selected memoirs. Students engage in reflection on their own narrative-making processes and evaluate their practical and analytic understanding of daily narrative practice.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 5135

**Additional Information:** Departmental Category: Secondary Education

**EDUC 4150 (3) Introduction to Qualitative Research Methods**

Introduces students to qualitative research in education. Examines the foundations, design, methods and analysis of qualitative research methods. Readings include texts about the foundations and purposes of qualitative inquiry, and methodological readings about the application of research techniques. Students will complete a variety of small, hands-on projects that introduce major dimensions of qualitative research including observation, interviewing, and document analysis.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 5150

**Grading Basis:** Letter Grade

**Additional Information:** Departmental Category: General Education

**EDUC 4161 (1-3) Children's Literature**

Addresses reading and evaluation of books, children's, interests, authors and illustrators, folk literature, multicultural literature, modern fanciful tales, and trends.

**Additional Information:** Departmental Category: General Education

**EDUC 4205 (3) Elementary School Mathematics Theory and Methods**

The course focuses on learning theories, different instructional practices, models, and tools that can be utilized to elicit, assess, and build on elementary students' mathematical reasoning. The course subscribes to a view of mathematics that (1) all students can learn mathematics, (2) that powerful mathematics learning is an active process that engages students in deep mathematical inquiry, and (3) that equitable and culturally responsive teaching of mathematics requires strong mathematics knowledge for teaching.

**Requisites:** Requires prerequisite courses of EDUC 3320 and EDUC 3350 and EDUC 4535 and EDUC 4595 (all minimum grade B-). Requires corequisite courses of EDUC 3321 and EDUC 4435 and EDUC 4455.

Restricted to Elementary Education (ELED-BA) majors only.

**Grading Basis:** Letter Grade

**EDUC 4215 (3) Elementary Science Theory and Methods**

Provides pre-service elementary teachers opportunities to explore contemporary theories of learning, curriculum development, pedagogical strategies, and assessment. Blends scientific content, pedagogy, and practical applications.

**Requisites:** Requires prerequisite courses of EDUC 3321 and EDUC 4205 and EDUC 4435 and EDUC 4455 (all minimum grade B-). Requires corequisite courses of EDUC 4035 and EDUC 4331 and EDUC 4710.

Restricted to Elementary Education (ELED-BA) majors only.

**EDUC 4220 (3) Gender Issues in Education**

Provides a strong foundation in the various issues of gender and sexual diversity in education. Stimulates explorations into the ways the construct of "gender" affects and is affected by the educational system and process. Presents theory and research about contemporary educational issues related to sexism, homophobia, and transphobia. Encourages development of well-considered views about the various issues, research, and theories.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite EDUC 3013.

**EDUC 4222 (3) Language Study for Educators**

Focuses on the nature of linguistic development and performance. Examines works that reflect a range of scholarly approaches to language study, explores language use both in and out of school, takes up the relationships between language practices and power and considers implications for classroom teaching.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 5222

**Additional Information:** Departmental Category: General Education

**EDUC 4232 (3) Language and Literacy across the Curriculum**

Explores the relationship between language and learning in math and science classrooms with the goal of developing teaching practices that engage students in using language as a tool for understanding and constructing meaning across the curriculum. Explores how language/literacy take on different forms and functions in different social contexts and academic disciplines.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 5235

**Requisites:** Restricted to undergraduate Science-Secondary Education (EDSC) or Mathematics-Secondary Education (EDMA) majors only.

**Additional Information:** Departmental Category: Secondary Education

**EDUC 4240 (3) African American Education in the United States**

Explores development of schooling for African Americans in the U.S.. Emphasizes historical and contemporary struggles of this group in their quest to access meaningful educational opportunities. Examines how social, economic, political, and judicial action defined and organized policy and practice for this group. Degree credit not granted for EDUC 4240 and 6240.

**Additional Information:** Departmental Category: General Education

**EDUC 4295 (3) Narrative and Story in the Humanities**

Explores a wide variety of texts that might be used in secondary English and Social Studies classrooms. Examines philosophies and instructional approaches to the teaching of reading and literature. Considers the influence of story and storytelling in the construction of personal and societal meaning.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 5295

**Requisites:** Requires corequisite of EDUC 3001 or EDUC 4001. Restricted to teacher licensure students in English (EDEN-LICU).

**Grading Basis:** Letter Grade

**Additional Information:** Departmental Category: Secondary Education

**EDUC 4301 (3) Queer(ing) Topics in Education**

Bring critical and queer theoretical perspectives to bear on an inquiry into what's counted as "normal" in social, historical, and political contexts of education in the United States. We'll explore queerness, queer theory, and queer pedagogy, in an effort to examine schooling as a heteronormative institution that has tended toward (re)producing heterosexism, homophobia, and violence against queer bodies and identities.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 5301

**Grading Basis:** Letter Grade

**Additional Information:** Departmental Category: General Education

**EDUC 4310 (3) Social and Emotional Learning in Schools**

Explore the ways SEL benefits students through investigating its purposes and goals, the competencies it seeks to promote, the characteristics of effective programs, and the range of program formats. We frame these topics through examining ongoing dilemmas in the field. We also conduct in-depth reviews of several programs and the research that supports them.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 5310

**EDUC 4315 (3) Perspectives on Science**

Explores contemporary ideas and issues in the history, philosophy and sociology of science education and science, science as a social and cultural activity and how contemporary issues in science relate to and impact educational practice.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 5315

**Additional Information:** Departmental Category: General Education

**EDUC 4316 (3) Nature of Social Studies and Social Studies Education**

Prepares teacher education candidates for teaching social studies in a social context. Participants will understand theoretical and developmental processes associated with social studies learning, methods for teaching social studies in a diverse society, and the integration of classroom instruction with the Colorado Academic Content Standards that foster such processes.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 5316

**Requisites:** Restricted to Social Studies Secondary Education (EDSS-LICU or EDSS-LICG) students only.

**EDUC 4317 (3) Perspectives on Mathematics**

Explores the historical development of mathematics as a human construct, and the relationship between the discipline and the contemporary school mathematics curriculum. Focuses on the sociology of mathematics education and how cultural traditions and societal needs influence the school mathematics curriculum and educational practice.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 5317

**EDUC 4320 (3) Reading Instruction for Elementary Schools**

Participants will engage theories and processes of literacy learning, reading development, and equity-oriented teaching. Students will learn, develop, and enact instructional strategies and lessons to support all students' successful participation in a range of print and multimodal literacy practices embedded in reading instruction in elementary classrooms.

**Requisites:** Restricted to Elementary Education (EDEL) majors only.

**Additional Information:** Departmental Category: Elementary Education

**EDUC 4321 (3) Writing Instruction for Elementary Schools**

Participants will engage theories and processes of literacy learning, writing development, and equity-oriented teaching. Students will learn, develop, and enact instructional strategies and lessons to support all students' successful participation in a range of multimodal literacy practices embedded in writing instruction in elementary classrooms.

**Requisites:** Requires prerequisite courses of EDUC 3350, EDUC 4320, EDUC 4535 and EDUC 4615 (minimum grade C-). Requires corequisite courses of EDUC 4205, EDUC 4435, EDUC 4455 and EDUC 4595.

Restricted to Elementary Education (ELED) majors only.

**Additional Information:** Departmental Category: Elementary Education

**EDUC 4325 (3) Queering Literacy in Secondary Classrooms**

Engages theories and practices of literacy teaching and learning that challenge multiple forms of oppression. Using the tools of queer pedagogy, students will learn, develop, and enact strategies for planning and implementing literacy instruction that moves beyond inclusion of differences in the English/language arts and social studies curriculum.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 5325

**Requisites:** Restricted to students with an English-Secondary Education Licensure plan (EDEN-LICU) or Social Studies-Secondary Education Licensure plan (EDSS-LICU).

**Grading Basis:** Letter Grade

**EDUC 4330 (3) Secondary Social Studies Methods I**

Explores effective social studies teaching techniques used to prepare secondary students for success in college, career, and civic life. An emphasis is placed on interpreting sources, understanding multiple perspectives, and employing critical thinking with diverse students.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 5330

**Requisites:** Requires a prerequisite of EDUC 3001 or EDUC 4001 (both minimum grade C-). Restricted to teacher licensure students in Social Studies (EDSS-LICU).

**Grading Basis:** Letter Grade

**EDUC 4331 (3) Elementary Social Studies Methods**

Prepares teacher education candidates for teaching social studies in a social justice and equity context. Participants will understand theoretical and developmental processes associated with social studies learning, culturally responsive teaching pedagogy in social studies, methods for teaching social studies in a diverse society, and the integration of classroom instruction with the Colorado Academic Content Standards.

**Requisites:** Requires prerequisite courses of EDUC 3321 and EDUC 4205 and EDUC 4435 and EDUC 4455 (all minimum grade B-). Requires corequisite courses of EDUC 4035 and EDUC 4215 and EDUC 4710.

Restricted to Elementary Education (ELED-BA) majors only.

**Additional Information:** Departmental Category: Elementary Education

**EDUC 4340 (3) Advanced Issues of Assessment, Teaching, and Learning in Reading, Mathematics, and Science**

In this course, students engage with theories and practices of assessment and instruction in the key content areas of reading, mathematics, and science. This course is taught in two half-semester modules; one focused on reading and one on mathematics/science and occurs in the fourth and final year of the elementary major. The course addresses issues of assessment, teaching, and learning that build from and extend knowledge and practice from the assessment course and the methods courses in the three focal content areas. Modules will examine the purposes and practices of assessment in reading, mathematics and science education in elementary education. Particular attention will be given to theoretical foundations in assessment, applications of theory in classroom practice, and the design and use of assessment techniques and tools to support teaching for student understanding. While some attention will be given to large-scale assessment, this will be necessarily limited and addressed only as it pertains to the in

**Requisites:** Requires prerequisite courses of EDUC 4035 and EDUC 4215 and EDUC 4331 and EDUC 4710 (all minimum grade B-). Requires corequisite courses of EDUC 4625 and EDUC 4720. Restricted to Elementary Education (ELED-BA) majors only.

**Grading Basis:** Letter Grade

**EDUC 4341 (3) Elementary Reading Assessment and Instruction**

Builds on knowledge and teaching practices introduced in EDUC 4320. Addresses five critical components of reading. Refines understanding of research-based practices for diagnostic assessments and intervention, and teaching strategies for elementary age learners. Prepares candidates to deliver a comprehensive reading curriculum in the elementary grades.

**Requisites:** Requires corequisite courses of EDUC 4331 and EDUC 5215. Restricted to Elementary Education (EDEL) majors only.

**Additional Information:** Departmental Category: Elementary Education

**EDUC 4345 (3) Secondary English Methods I**

Explores the underlying principles and philosophies of several approaches to the teaching of English in the areas of language, writing, and speaking and the practical application of these methods in the secondary classroom. Provides support in constructing activities, assignments, assessments, and units that meet the differentiated needs of students given their diverse identities, lives, interests, and needs.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 5345

**Requisites:** Requires a prerequisite of EDUC 3001 or EDUC 4001 (both minimum grade C-). Restricted to teacher licensure students in English (EDEN-LICU).

**Grading Basis:** Letter Grade

**Additional Information:** Departmental Category: Secondary Education

**EDUC 4351 (3) Language and Equity in Inclusive Learning Environments**

Focuses on responsive instructional approaches for elementary school students, including culturally and linguistically diverse students requiring special education services. Addresses relevant educational laws and policies aimed at protecting students' rights to a quality education. Includes practicum experiences in elementary school settings.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 4023

**Requisites:** Requires corequisite course of EDUC 5205. Restricted to Music (EDMU) Education majors or Elementary (EDEL) majors only.

**Additional Information:** Departmental Category: Elementary Education

**EDUC 4355 (3) Secondary Social Studies Methods II**

Explores effective techniques associated with reading, processing, and assessing social studies subject area content with an emphasis on developing critical thinking skills and meeting the needs of diverse students.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 5355

**Requisites:** Requires prerequisite course of EDUC 4330 (minimum grade C-). Restricted to Social Studies - Secondary Education (EDSS-LICU) students only.

**EDUC 4365 (3) Secondary English Methods II**

Explores the underlying principles and philosophies of several approaches to the teaching of English in the areas of reading, thinking, and viewing and the practical application of these methods in the secondary classroom. Provides support in constructing activities, assignments, assessments, and units that meet the differentiated needs of students given their diverse identities, lives, interests, and needs.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 5365

**Requisites:** Requires prerequisite course of EDUC 4345 (minimum grade C-). Restricted to English - Secondary Education (EDEN-LICU) students only.

**EDUC 4375 (3-4) Problem-Based Math Instruction**

Focuses on curriculum, materials, methods and assessment, and related aspects of instruction. Introduces best practices in teaching mathematics in middle and high schools. Students are required to work in a classroom 4 hours per week. Examines the Colorado Academic Content Standards.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 5375

**Requisites:** Restricted to EDCI, EDSC, or EDMA majors only.

**Recommended:** Corequisite EDUC 4023.

**EDUC 4390 (3) Teaching for Equity and Justice**

Supports candidates as they continue to develop the skills and stance to teach for equity and justice in public school settings. Explores how educators for equity and justice sustain their commitments through ongoing learning and reflection, care for their students and themselves, and collaboration and advocacy. Supports candidates in making the transition from the university into the profession in a way that allows them to remain true to their vision of who they are and want to be as educators.

**Requisites:** Requires prerequisite course of EDUC 4330 or EDUC 4345 (all minimum grade C-). Restricted to English - Secondary Education (EDEN-LICU) and Social Studies - Secondary Education (EDSS-LICU) students only.

**Grading Basis:** Letter Grade

**EDUC 4425 (3) Introduction to Bilingual/Multicultural Education**

Provides an introduction for education minors and others with an interest in education policy and practice to bilingual and multicultural education programs for emergent bilinguals. Includes an overview of the history and legislation related to the education of emergent bilingual students, identification and placement, as well as the various models, theoretical and philosophical underpinnings, and pedagogical practices that constitute sound educational practices for emergent bilingual students.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 5425

**Additional Information:** Departmental Category: General Education

**EDUC 4435 (3) Culturally Sustaining Pedagogies for Bilingual Learners**

Explores multicultural education, critical pedagogy, and culturally sustaining pedagogies, including their underlying theories, curriculum design, and curriculum examples. Students will analyze curriculum with a focus on its representation of different socio-cultural groups, identities, points of view, relationship to different communities, and ideology. Students will also begin planning, teaching, and evaluating instruction anchored in critical, culturally sustaining pedagogies.

**Requisites:** Requires prereq courses of EDUC 3320 and EDUC 3350 and EDUC 4535 and EDUC 4595 (all min B-). Requires coreq courses of EDUC 3321 and EDUC 4205 and EDUC 4455. Requires prereq or coreq courses of EDUC 2425 and EDUC 2615. RSTR to Elem Ed (ELED-BA) mjrs.

**EDUC 4455 (3) Methods of Biliteracy Instruction**

Critique and analyze the linguistic, social, political and cultural factors that influence the acquisition of literacy for emerging bilingual (EB) learners. We will examine and apply evidence-based practices that support the development of reading, writing, speaking and listening in all of the students; languages regardless of the program model schools enact to serve them.

**Requisites:** Requires prerequisite courses of EDUC 3320 and EDUC 3350 and EDUC 4535 and EDUC 4595 (all minimum grade B-). Requires corequisite courses of EDUC 3321 and EDUC 4205 and EDUC 4435. Restricted to Elementary Education (ELED-BA) majors only.

**EDUC 4460 (3) Teaching and Learning Physics**

Learn how people understand key concepts in physics. Through examination of physics content, pedagogy and problems, through teaching, and through research in physics education, students will explore the meaning and means of teaching physics. Students will gain a deeper understanding of how education research is done and how people learn. Useful for all students, especially for those interested in physics, teaching, and education research.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 5460 and PHYS 4460 and PHYS 5460

**Requisites:** Requires prerequisite courses of PHYS 3210 and PHYS 3310 (all minimum grade C-).

**Additional Information:** Departmental Category: Graduate Education

**EDUC 4490 (3) Blurring Disciplinary Lines in the Humanities**

Explores theories, methods, and materials for building interdisciplinary connections within and across secondary English and Social Studies classrooms. Provides opportunities for collaborative work in building lessons and unit plans that challenge disciplinary boundaries and advocate for complex problem solving.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 5490

**Requisites:** Requires prerequisite of EDUC 4342 or EDUC 5342 or EDUC 4330 or EDUC 5330 (all minimum grade C-). Restricted to teacher licensure students in English (EDEN-LICU or EDEN-LICG) or Social Studies (EDSS-LICU or EDSS\_LICG).

**Grading Basis:** Letter Grade

**EDUC 4500 (3) Community-Based Research for Social Change**

Complete a research project that draws on theories of social change and is developed in partnership with a community or civic agency. Become skilled at doing original research to address complex social problems.

**Requisites:** Requires prerequisite course of EDUC 2500 (minimum grade B-).

**Grading Basis:** Letter Grade

**Additional Information:** Departmental Category: General Education

**EDUC 4513 (2) Education and Practice**

Meets during student teaching assignment. Includes topics of concern to teachers, such as classroom organization and management, lesson planning, assessment, preparation of edTPA, etc.

**Requisites:** Requires corequisite course of EDUC 4691 or 4712 or 4722. Restricted to EDEL, EDEN, EDFR, EDGR, EDJP, EDLT, EDMA, ED RU, EDSC, EDSP or EDSS majors only.

**Additional Information:** Departmental Category: General Teacher Education

**EDUC 4535 (3) Assessment for Bilingual Learners**

Introduce students to the theory, methods, practice, and problems in the testing and assessment of bilingual students at the classroom and large-scale level. Topics include the specification of English Learners as a student population and the assessment of their language proficiency and academic achievement. The course additionally addresses reliability, validity, and fairness in the testing of linguistically diverse populations.

**Requisites:** Requires corequisite courses of EDUC 3320 and EDUC 3350 and EDUC 4595. Restricted to Elementary Education (ELED-BA) majors only.

**EDUC 4595 (3) Practicum for Bilingual/Multicultural and ELD Education**

University supervised, school based field experiences teaching culturally and linguistically diverse students. Accompanies university coursework required for the Colorado endorsement in Culturally and Linguistically Diverse Education.

**Requisites:** Requires corequisite courses of EDUC 3320 and EDUC 3350 and EDUC 4535. Restricted to Elementary Education (ELED-BA) majors only.

**EDUC 4610 (2) Becoming a Learning Assistant**

Introduces undergraduate Learning Assistants (LAs) to education research, active learning, and strategies that support: (1) eliciting student ideas and helping all group members become active and engaged in the class; (2) listening and questioning; (3) building relationships; and (4) integrating learning theories with effective practices. Also "LA Pedagogy Course." Department enforced prerequisite: Learning Assistant Program admission. First-semester LAs requirement.

**Grading Basis:** Letter Grade

**Additional Information:** Departmental Category: General Education

**EDUC 4611 (1) Advanced Topics in Learning Assistant Pedagogy**

Builds on education research and inclusive pedagogical principles discussed in EDUC 4610, and introduces new topics for experienced Learning Assistants to learn and apply to their LA-student interactions. This course is also referred to as "Returning LA Professional Development."

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course of EDUC 4610 (minimum grade C-).

**EDUC 4615 (3) Language Acquisition for Bilingual Learners**

Provides an introduction for education minors and others with an interest in education and human development topics to the variables that interact in the process of bilingual development in emergent bilinguals, from birth to adolescence. These variables include the learner's background, motivation, linguistic, cognitive, emotional, social, cultural, and political factors. The course will examine these factors and generate understandings about how they work together to foster or inhibit successful development of bilingualism in community, home, and school contexts.

**EDUC 4620 (2) LA Mentoring I: Becoming a Mentor**

This field-based course is the second in a three-sequence course intended for Learning Assistants. This course provides opportunities for advanced Learning Assistants (LAs) to practice mentoring strategies as they mentor first-time LAs. LA mentors will observe and consult with their LA mentees each week and observe entire contexts in which LAs are used. In the seminar component of the course, LA mentors will discuss their readings about mentoring, skillful teaching, and group facilitation and they will reflect on their work with their LA mentees.

**Requisites:** Requires prerequisite course of EDUC 4610 (minimum grade C-).

**Grading Basis:** Letter Grade

**EDUC 4621 (1) Learning Assistant Mentoring in Practice: Building Inclusive Learning Communities**

Builds on education research and inclusive mentoring and pedagogical principles and practices discussed in EDUC 4610 and EDUC 4620, and creates opportunities for LA Mentors to plan for, receive feedback about, and reflect upon, their individual and group mentoring experiences.

**Repeatable:** Repeatable for up to 4.00 total credit hours.

**Requisites:** Requires prerequisite course of EDUC 4610 and prerequisite or corequisite course of EDUC 4620 (all minimum grade C-).

**EDUC 4625 (3) Methods of Teaching English Language Development**

Prepares students to teach English as a new language in K-6 U.S. public schools. Grounded in theoretical understandings of language acquisition and development, students develop resources and strategies to plan instruction for emergent bilingual children. Oral language development, literacy, and content-area language instruction are emphasized, with a focus on supporting children's linguistic, cognitive, academic and social development.

**Requisites:** Requires prerequisite courses of EDUC 4035 and EDUC 4331 and EDUC 4215 and EDUC 4710 (all minimum grade B-). Requires corequisite courses of EDUC 4340 and EDUC 4720. Restricted to Elementary Education (ELED-BA) majors only.

**Grading Basis:** Letter Grade

**EDUC 4630 (2) LA Mentoring II: Improving the Program**

This is a continuation of EDUC 4620. LA mentors will continue to mentor first-time LAs, but they will also design and test projects intended to address issues with the LA program that they have identified in the field. LA mentors will complete instructional innovation projects through cycles of design, testing, feedback, and revision. In this course, LA mentors enact projects leading to the improvement of the LA program through improved student and faculty experiences.

**Requisites:** Requires prerequisite course of EDUC 4620 (minimum grade D-).

**Grading Basis:** Letter Grade

**EDUC 4691 (10) Student Teaching: Elementary School 1**

Kindergarten through sixth grades. Department enforced prerequisite: completion of all education and content-specific arts and sciences requirements, and passing required licensure exam.

**Requisites:** Requires corequisite course of EDUC 4513. Restricted to Elementary Education (EDEL-LICU or LICG) majors only.

**Additional Information:** Departmental Category: General Teacher Education

**EDUC 4706 (3) Assessment in Mathematics and Science Education**

Examines purposes and practices of assessment in mathematics and science education. Particular attention is given to application of theoretical foundations and contemporary research in the design and use of assessment techniques and tools to support teaching for student understanding. Addresses the role of effective formative assessment in teaching and learning.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 5706

**EDUC 4710 (3) Elementary Student Teaching for Cultural and Linguistic Diversity 1**

This course is the first semester of a year-long, elementary classroom-based internship. Building on prior and concurrent Education courses, candidates are expected to design and deliver culturally and linguistically responsive instruction in collaboration with an experienced elementary teacher, as well as independently. Assignments and the required student teaching seminar support candidates to reflect critically on their practice and learning. Recommendation for a Colorado initial teaching license requires excellent performance in both semesters of student teaching.

**Requisites:** Requires prerequisite courses of EDUC 3321 and EDUC 4205 and EDUC 4435 and EDUC 4455 (all minimum grade B-). Requires corequisite courses of EDUC 4035 and EDUC 4215 and EDUC 4331. Restricted to Elementary Education (ELED-BA) majors only.

**Grading Basis:** Letter Grade

**EDUC 4712 (10) Student Teaching: Secondary School**

Student teacher apprentices in a middle/junior or senior high school. Must be admitted to a secondary teacher education program in English, Japanese, Latin, math, Russian, science or social studies. Department enforced prerequisites: completed all education and content-specific arts and sciences courses and passed required licensure exam.

**Requisites:** Requires corequisite course of EDUC 4513. Restricted to EDEN, EDJP, EDLT, EDMA, EDRU, EDSC or EDSS (LICU or LICG) majors only.

**Additional Information:** Departmental Category: General Teacher Education

**EDUC 4715 (3) Elementary Student Teaching Seminar Part 1**

This seminar supports sense making during elementary student teaching through deliberative dialogues, culture circles, and teacher inquiry. During the final year of the Elementary Education program, teacher candidates complete advanced coursework and engage in extended student teaching field experiences in local schools. These activities raise important problems of practice that can fuel teacher learning. This seminar provides structure, support, and guidance from skillful facilitators and peers to support sensemaking during the elementary student teaching experience.

**Requisites:** Requires co-requisite course of EDUC 4710. Restricted to Elementary Education (ELED-BA) majors only.

**Grading Basis:** Letter Grade

**EDUC 4716 (3) Basic Statistical Methods**

Introduces descriptive statistics including graphic presentation of data, measures of central tendency and variability, correlation and prediction, and basic inferential statistics, including the t-test.

**Additional Information:** Departmental Category: General Education

**EDUC 4720 (9) Elementary Student Teaching for Cultural and Linguistic Diversity 2**

This course is the second semester of a year-long, elementary classroom-based internship. Building on prior and concurrent Education courses, candidates are expected to design and deliver culturally and linguistically responsive instruction in collaboration with an experienced elementary teacher, as well as independently. Assignments and the required student teaching seminar support candidates to reflect critically on their practice and learning. Recommendation for a Colorado initial teaching license requires excellent performance in both semesters of student teaching.

**Requisites:** Requires prerequisite courses of EDUC 4035 and EDUC 4215 and EDUC 4331 and EDUC 4710 (all minimum grade B-). Requires corequisite courses of EDUC 4340 and EDUC 4625. Restricted to Elementary Education (ELED-BA) majors only.

**Grading Basis:** Letter Grade

**EDUC 4722 (5) Student Teaching: Secondary School 2**

Student teacher apprentices in a middle/junior high or senior high school. Department enforced prerequisites: completed all education and content-specific arts and sciences courses and passed required licensure exam.

**Requisites:** Requires corequisite course of EDUC 4513. Restricted to EDFR, EDGR or EDSP (LICU or LICG) majors only.

**Additional Information:** Departmental Category: General Teacher Education

**EDUC 4725 (3) Elementary Student Teaching Seminar Part 2**

This seminar supports sense making during elementary student teaching through deliberative dialogues, culture circles, and teacher inquiry. During the final year of the Elementary Education program, teacher candidates complete advanced coursework and engage in extended student teaching field experiences in local schools. These activities raise important problems of practice that can fuel teacher learning. This seminar provides structure, support, and guidance from skillful facilitators and peers to support sensemaking during the elementary student teaching experience.

**Requisites:** Requires co-requisite course of EDUC 4720. Restricted to Elementary Education (ELED-BA) majors only.

**Grading Basis:** Letter Grade

**EDUC 4732 (4-12) Student Teaching K-12**

Required experience for music students seeking education at both elementary and secondary levels. Department enforced prerequisites: completed all education and content-specific music courses and passed required licensure exam.

**Requisites:** Requires corequisite course of MUSC 4193. Restricted to EDMU (LICU or LICG) majors only.

**Additional Information:** Departmental Category: General Teacher Education

**EDUC 4742 (9) Student Teaching: Secondary for Engineers**

Student teacher apprentices in a middle/junior or senior high school. Must be admitted to a secondary teacher education program in English, Japanese, Latin, math, Russian, science or social studies. Department enforced prerequisites: completed all education and content-specific arts and sciences courses and passed required licensure exam.

**Requisites:** Requires a prerequisite course of EDUC 4513 or EDUC 4050 (minimum grade C-). Restricted to EDMA or EDSC majors only.

**Additional Information:** Departmental Category: Secondary Education

**EDUC 4800 (1-9) Special Topics**

Designed to meet needs of students with topics of pertinent interest.

**Repeatable:** Repeatable for up to 18.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: General Education

**EDUC 4801 (3) Race and its Implications for Science Education**

Science and science-related professionals have played an important role in supporting and challenging conceptions of race. In this class, we explore historical constructions of race and their implications for teaching and learning in science education. Our goal is to develop a deep understanding of how race manifests in educational contexts. We conclude our class by constructing our own social dream about what science education ought to be. Formerly offered as a special topics course.

**EDUC 4810 (1-9) Special Topics**

**Repeatable:** Repeatable for up to 18.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: General Education

**EDUC 4811 (3) Teaching and Learning Biology**

Provides an introduction to recent research into student learning on the conceptual foundations of modern biology, together with pedagogical methods associated with effective instruction and its evaluation.

Students will be involved in active research into conceptual and practical issues involved in biology education, methods to discover student preconceptions, and the design, testing and evaluation of various instructional interventions.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 6811 and MCDB 4811 and MCDB 5811 and EBIO 4811

**Recommended:** Prerequisite At least two semesters of Biology.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**EDUC 4815 (3) Teaching K-12 Mathematics: Number Sense**

Provides teachers opportunity to explore fundamental mathematical theories and pedagogical perspectives pertaining to the teaching and learning of number and operation. Engages students in explorations of mathematical content underlying number and operations, while highlighting relevant problem solving, reasoning and proof, and mathematical connections. Explores implications of teachers' mathematical learning on their classroom teaching. Develops practices supporting learner's number sense development.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 5815

**EDUC 4821 (3) Teaching K-12 Mathematics: Algebraic Thinking**

Uses reform-based mathematics curricula to engage participants in algebraic thinking, to reflect on their own knowledge of algebraic concepts, and to examine pedagogical ideas that can foster K-12 students' algebraic thinking and learning. Algebraic topics include patterning, variable, functions, multiple representations, equality, and solving linear and systems of equations.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 5821

**EDUC 4822 (3) Teaching and Learning Chemistry**

Explores issues related to how people learn and teach chemistry. Reviews high school and early college chemistry concepts both from the content and pedagogical perspectives. Delves into the chemistry education research, education, psychology, and cognitive science literature. Provides an opportunity to observe and/or teach K-12 or college chemistry classes.

**Additional Information:** Departmental Category: General Education

**EDUC 4831 (3) Advanced Peer Education**

Second semester of an academic year's training for students interested in peer counseling. Expand upon what you learned in ARSC 2274. Focus on presentations, leadership, and group facilitation. Basic group leadership, facilitation theory, and technique taught. Co-create and co-lead your own small groups/presentations for other CU students. Offered only spring semesters.

**Requisites:** Requires prerequisite course of ARSC 2274 (minimum grade D-).

**Additional Information:** Departmental Category: General Education

**EDUC 4833 (3) Teaching and Learning Earth Systems**

Learn and develop pedagogically effective strategies for teaching and understanding Earth Science concepts. Particular emphasis is placed on understanding the importance of geoscience habits of mind (i.e. spatial/temporal reasoning, multiple working hypotheses, geographic context). Focuses upon inquiry and evaluation of evidence, the importance of background knowledge and misconceptions, and developing effective discourse within and outside the classroom.

**Requisites:** Requires prerequisite course of ATOC 1060 or ENV5 1000 or GEOL 1010 or GEOL 1020 or GEOL 1060 (minimum grade C-).

**Grading Basis:** Letter Grade

**Additional Information:** Departmental Category: General Teacher Education

**EDUC 4835 (3) Teaching K-12 Mathematics: Geometry & Measurement**

Provides an opportunity to explore how to foster geometric thinking while examining fundamental mathematical theory underlying the content area of geometry and measurement. Emphasizes investigative approach involving problem solving, reasoning, connections, and communication as well as learning mathematics content in a flexible and conceptual way. Challenges participants to apply their understanding to teaching practices that foster geometric thinking in K-12 learners. Also see EDUC 5835.

**EDUC 4840 (1-4) Independent Study**

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: General Education

**EDUC 4844 (3) Teaching and Learning Computational Thinking**

This course is designed for current and future STEM educators interested in understanding Computational Thinking and how it can be enacted to support student learning. Computational Thinking is the process by which people make sense of problems where computation, or computational tools, could be leveraged to enact the solution. For example, when students are tasked with solving a word problem they engage in computational thinking by identifying important elements in the written problem and then leveraging mathematical or scientific methods that would lead to a solution. During this course, students will engage with research-based theories, conceptualizations, and practices for engaging with Computational Thinking in STEM learning environments and experiences. Following an introduction to Computational Thinking, students will be supported in making sense of the ideas and practices through published research, existing tools, classroom activities, and reflection on experiences of problem solving and overcoming

**EDUC 4850 (3) Teaching K-12 Mathematics: Probability & Statistics**

Focuses on teaching probability, data analysis, and statistics in K-12 classrooms. Explores curriculum and assessment strategies in the areas of probability and statistics. Examines research on students' thinking on stochastic tasks and how this research informs teaching practice. Emphasizes deepening of one's conceptual understanding of probability and statistics and their importance in the current information age.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 5850

**EDUC 4901 (3) Student Teaching**

Provides opportunities for practice around classroom community building, instruction, assessment, etc. in partnership with a mentor teacher and public school students. Experiences will vary depending upon the context, grade level, and school/course placement.

**Requisites:** Requires prerequisite of EDUC 5001 (minimum grade C-). Requires corequisite of EDUC 5330 or EDUC 5345. Restricted to MA+ teacher licensure students in English (EDEN-LICG), Mathematics (EDMA-LICG), Science (EDSC-LICG), or Social Studies (EDSS-LICG).

**Grading Basis:** Letter Grade

**EDUC 4902 (4) Student Teaching II**

Provides opportunities for practice around classroom community building, instruction, assessment, etc. in partnership with a mentor teacher and public school students. Although experiences will vary depending upon the context, grade level, and school/course placement, in this practicum students will build upon their work in Student Teaching I and take greater responsibility for teaching.

**Requisites:** Requires prerequisite of EDUC 4901 (minimum grade C-) and corequisite of EDUC 5355 or 5365. Restricted to students with an English-Secundary Education Licensure plan (EDEN-LICU) or Social Studies-Secundary Education Licensure plan (EDSS-LICU).

**Grading Basis:** Letter Grade

**EDUC 4910 (3) Peer Counseling Practicum**

Controlled enrollment. Credit given for peer counseling activities. Students are selected to participate in this class and act as peer counselors or TAs for the peer counseling training. Repeatable up to 9 total credit hours.

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Additional Information:** Departmental Category: General Education

**EDUC 4912 (1) Practicum in Teacher Education**

Provides in-school practicum experience

**Repeatable:** Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: General Teacher Education

**INVST Community Studies****INVS 1000 (4) Responding to Social and Environmental Problems Through Service Learning**

By integrating theory with required community service, students explore how problems are shaped by cultural values and how alternative value paradigms affect the definition of problems in areas such as education and the environment. Students examine different approaches to solving problems and begin to envision new possibilities.

**Additional Information:** Arts Sci Core Curr: Ideals and Values

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Invst Community Studies

**INVS 1513 (3) Civic Engagement: Using the Electoral Process as a Tool for Social Change**

Designed to educate and inspire civic engagement primarily in the area of electoral politics. Examines various explanations of why people participate in the electoral process and whom they choose to support. Develops the practical skills necessary to participate successfully in the electoral arena. Through a service component, the course provides experience working on a campaign and mobilizing others to participate in the electoral process.

**Additional Information:** Departmental Category: Invst Community Studies

**INVS 2005 (2) Puksta Scholars Practicum**

Integrates critical reflection and community-based experiences for undergraduates in the Puksta Scholars Program. This two-semester course will focus on the development of knowledge, attitudes and skills to productively engage the public realm. Examines topics includes ethical leadership, frameworks for social action, project design and participatory action research.

**Repeatable:** Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.

**Grading Basis:** Letter Grade

**INVS 2919 (3) Renewing Democracy in Communities and Schools**

Examines concepts of activism, citizenship, democracy, power, and diversity through classroom discussions and participation in a local K-12 school's Public Achievement project. Through community-based partnerships, students will develop leadership skills; dialogue with diverse groups of people; identify multiple perspectives around controversial issues; and learn to use research and writing to articulate public problems and advocate for their solutions.

**Equivalent - Duplicate Degree Credit Not Granted:** EDUC 2919

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-U.S. Perspective  
Departmental Category: Invst Community Studies

**INVS 2989 (3) Dialogue Across Difference**

Provides practical facilitation training that equips students to be change makers in any setting. Students examine models of dialogic communication and theories of intergroup relations to understand how dialogue can build deeper understanding of self/others, reinvigorate democratic values and foster a more just society. Through hands-on experience participating in, observing, and leading dialogue, students learn to facilitate dialogue among their peers.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-U.S. Perspective

**INVS 3000 (3-4) Innovative Approaches to Contemporary Issues through Service Learning**

Explores creative approaches for solving complex social and environmental issues, with a focus on peace and population. Students analyze the root causes of issues in theoretical and historical contexts, and develop their understanding of effective and innovative approaches to change. This course has a requirement of community service.

**Recommended:** Requisite upper-division status.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Invst Community Studies

**INVS 3041 (3) Self and Consciousness**

Explores human development from a psychosocial perspective, focusing on the interplay between psychological patterns and social forms. Issues such as self-image and social consciousness are studied within the larger context of individual and collective forces leading to transformation.

**Equivalent - Duplicate Degree Credit Not Granted:** SOCY 3041

**Requisites:** Requires prerequisite courses of SOCY 1001 and SOCY 3001 or SOCY 3011 (all minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Invst Community Studies

**INVS 3100 (3) Social Justice, Leadership and Community Engagement Internships**

Focuses on leadership theories and skills necessary for effectiveness in social justice settings. Students gain understanding of traditional and culturally diverse approaches to leadership and change. Community service required.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 3201

**Recommended:** Prerequisite ETHN 2001.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Departmental Category: Invst Community Studies

**INVS 3302 (3) Facilitating Peaceful Community Change**

Students gain knowledge and skills that enable them to become effective agents of community change. Focuses on understanding the processes of community building with a multicultural emphasis. Students are encouraged to apply their own life experiences and to examine themselves as potential change agents.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 3302

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Invst Community Studies

**INVS 3402 (3) Implementing Social and Environmental Change**

Examines grassroots innovation as a means for creating comprehensive, solution-based strategies to address social and environmental problems. Students develop an understanding of the root causes of problems, identify how changes are initiated at the grassroots level, and learn the theory and practice of effective and responsible change efforts.

**Additional Information:** Departmental Category: Invst Community Studies

**INVS 3671 (3) People of Color and Social Movements**

People of color the world over are struggling for sovereignty, independence, civil and human rights, food security, decent wages and working conditions, healthy housing, and freedom from environmental racism and other forms of imperialism. Course analyzes and brings alive these struggles.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 3671

**INVS 3931 (3) The Community Leadership Internship, Part 1**

Develops students' competencies as community leaders working for a just and sustainable world. Under the supervision of an instructor and a community supervisor, students learn organizational leadership skills by serving as volunteer staff members at community-based organizations. Required requisite, admission into INVST CLP.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Departmental Category: Invst Community Studies

**INVS 3932 (3) Community Leadership Internship, Part 2**

Develops students' competencies as community leaders working for a just and sustainable world. Under the supervision of an instructor and a community supervisor, students learn organizational leadership skills by serving as volunteer staff members at community-based organizations. Required requisite, membership in INVST CLP.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course of INVS 3931 (minimum grade D-).

**Additional Information:** Departmental Category: Invst Community Studies

**INVS 4302 (3) Critical Thinking in Development**

Exposes students to current issues in the political economy of development. Subjects range from globalization, democratization and economic development. Specifically explores the international and domestic determinants of economic development with special reference to currency markets, foreign direct investment, trade, and democratization.

**Equivalent - Duplicate Degree Credit Not Granted:** PSCI 4732

**Requisites:** Requires prerequisite courses of PSCI 2012 or IAFS 1000 and ECON 2010 and 2020 (all minimum grade D-).

**Recommended:** Prerequisite one upper-division PSCI course.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies  
Departmental Category: Invst Community Studies

**INVS 4402 (3) Nonviolent Social Movements**

Explores theories of democracy and development in relation to movements for nonviolent social change. Focuses on means and ends, spirituality, leadership, decision-making, civil society, cooperative economics, ecology and decentralized powers.

**Requisites:** Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Sociology (SOCY) or Political Science (PSCI) majors only.

**Additional Information:** Departmental Category: Invst Community Studies

**INVS 4919 (1-2) Teaching Social Justice for Public Achievement**

Participate as teaching assistants for the practicum course INVS 2919. Focusing on the issues of democratic education, diversity, social justice and social change, students learn how to foster undergraduates' skills as experiential educators.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires a prerequisite course of INVS 2919 (minimum grade B).

**INVS 4931 (1-6) Community Leadership in Action, Part 1**

Develops students' expertise as community leaders. Under the supervision of an instructor and a community advisor, students design a community-based project.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite courses of INVS 3931 and INVS 3932 (all minimum grade D-).

**Recommended:** Prerequisite admission to INVST CLP.

**Additional Information:** Departmental Category: Invst Community Studies

**INVS 4932 (1-6) Community Leadership in Action, Part 2**

Develops students' expertise as community leaders working for a just and sustainable world. Under the supervision of an instructor and a community advisor, students learn organizational and leadership skills by designing, implementing and evaluating a community-based project. First-hand experience provides students with a deepened understanding of the complex issues facing humanity, and competence with solution-based strategies.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course of INVS 4931 (minimum grade D-).

**Additional Information:** Departmental Category: Invst Community Studies

**INVS 4999 (1-4) Teaching Social Justice**

Students participate in a service-learning practicum under the supervision of a Community Studies instructor. They explore teaching strategies for implementing concrete educational goals. Focusing on the issues of social justice and social change, they learn how to encourage higher levels of creativity and analysis among students.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: Invst Community Studies

**LEAD****LEAD 1000 (3) Becoming a Leader**

The foundation course will prepare students to exercise leadership in business, government and community organizations. Introduces leadership skills useful in a variety of settings including community and civic activities. Helps students to improve self awareness, understand multiple theories, recognize moral courage, build analytic and critical thinking skills and adapt leadership practices to different people and contexts.

**Additional Information:** Departmental Category: CU Engage

**LEAD 1001 (3) Becoming a Leader: Multicultural Leadership Scholars**

Introduces students to the theories and practices of historical and contemporary leadership studies. Students will also examine both the moral and ethical dimensions of leadership and how cultural diversity, inclusivity and social justice apply to culturally competent leadership in the 21st century.

**Equivalent - Duplicate Degree Credit Not Granted:** LEAD 1000

**Requisites:** Requires corequisite course of EDUC 2910.

**Recommended:** restricted to students admitted into the Multicultural Leadership Scholars Program.

**LEAD 1002 (3) Becoming a Leader: Leadership & Community Engagement**

Introduces students to the theories and practices of historical and contemporary leadership studies. Serves as the foundation course for the Leadership and Community Engagement Major. Students examine the relationships between leadership and social identities, ethics, democratic engagement, diversity and inclusion, and social practices.

**Equivalent - Duplicate Degree Credit Not Granted:** LEAD 1000

**Requisites:** Restricted to Leadership/CommunityEngagement (LDCE) majors only.

**LEAD 1571 (2) Topics in Leadership: Introduction to Research Methods**

Participants will establish their understanding of research through critical exploration of research language, ethics, and approaches. The course introduces the language of research, ethical principles and challenges, and the elements of the research process within quantitative, qualitative, and mixed methods approaches. Participants will use these theoretical underpinnings to begin to critically review literature relevant to their field or interests and determine how research findings are useful in forming their understanding of their work, social, local and global environment. Their work will culminate in a research project proposal submitted to CU's Undergraduate Research Opportunity Program.

**Requisites:** Requires prerequisite courses of LEAD 1001, LEAD 2410 and INVS 3100 (all minimum grade C-).

**Recommended:** Students in the Multicultural Leadership Scholars program.

**Grading Basis:** Letter Grade

**LEAD 2410 (3) Dynamics of Power, Privilege, Oppression and Empowerment in Leadership**

Examines the theoretical frameworks of social identity and power dynamic development (individual, group, institutional, cultural) and the resulting inequalities formed by systems of privilege and oppression - and their intersections - are manifested in society and how leadership is used to continue these systems or lead to empowerment and liberation.

**Requisites:** Requires prerequisite course of LEAD 1000 (minimum grade C).

**Additional Information:** Departmental Category: CU Engage

**LEAD 4000 (4) Leadership in Context and Emerging Challenges: A Capstone**

Integrates leadership topics and experiences students pursued through the Leadership Studies Minor. Using advanced critical thinking skills, the seminar requires students to evidence their knowledge, competencies and skills related to leadership theory and practice through examining contemporary leadership challenges. Further, the seminar directs students to justify decision-making processes, demonstrating their ability to synthesize prior knowledge to effect desirable, ethical outcomes.

**Requisites:** Requires a prerequisite course of LEAD 1000 or LDSP 1000 (minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Grading Basis:** Letter Grade

**Additional Information:** Departmental Category: CU Engage

**LEAD 4501 (3) Leadership Capstone 1**

Apply skills and knowledge developed throughout the Leadership and Community Engagement Major to design and implement public action project. Critically examine local context, including organizations, agencies, firms, and movements. Identify partners and develop relationships based on reciprocity and mutually. Develop theory of change for project and design evaluation tools to measure impact.

**Requisites:** Requires corerequisite course of EDUC 4500. Restricted to Leadership and Community Engagement (LDCE) majors only.

**Recommended:** Prerequisite EDUC 4150.

**Grading Basis:** Letter Grade

**LEAD 4502 (3) Leadership Capstone 2**

Apply skills and knowledge developed throughout the Leadership and Community Engagement Major to design and implement public action project. Manage complex project with team of students and multiple community partners. Evaluate public impact of project with partners.

**Requisites:** Requires prerequisite courses of LEAD 4501 and EDUC 4500 (all minimum grade C-). Restricted to Leadership and Community Engagement (LDCE-BA) majors only.

## Education Studies - Bachelor of Arts (BA)

Education studies majors engage in a deep study of how political, cultural, social and historical dynamics shape both policy and practice in education. In addition to three core courses, students complete an additional ten courses chosen from four areas of emphasis:

- Curriculum and Instruction
- Educational Foundations, Policies and Practices
- Equity, Bilingualism and Biliteracy
- Learning Sciences and Human Development

Students work with an education advisor to select coursework that best supports their career trajectory. Education studies graduates are engaged and informed educators, researchers, policymakers and community leaders.

### Requirements

Students complete a minimum of 39 credit hours in the major. Of those 39 credit hours, 24 must be at the upper-division level. All major requirements must be completed with a grade of C- or better.

The Education Studies major consists of nine credit hours of core coursework and 30 credit hours chosen from a list of approved courses, of which at least three credit hours must include a field-based or community-engagement component.

In addition to the education studies core requirements, the major's curriculum is divided into four main areas:

- Curriculum and instruction
- Educational foundations, policies and practices
- Equity, bilingualism and biliteracy
- Learning sciences and human development

Students must complete at least one course from each of the four areas above. For the remaining credits required for the major, students work in consultation with an academic advisor to pursue a combination of coursework that will support their career trajectory.

Code	Title	Credit Hours
<b>Education Studies Core</b>		
EDUC 3013	School and Society	3
EDUC 4150	Introduction to Qualitative Research Methods	3
EDUC 4716	Basic Statistical Methods	3
<b>Curriculum and Instruction Requirements</b>		
Curriculum and Instruction undergraduate courses focus on teaching and learning in the following curricular areas: Literacy Studies and Humanities, and STEM Education. Coursework focuses on foundations of learning, foundations of education and subject matter knowledge and pedagogy. Choose at least one course from the following:		
<i>Literacy Studies and Humanities</i>		
EDUC 2150	Education in Film	
EDUC 2311	Children's Literature and Literacy Engagement in Elementary Schools	

EDUC 3030	Race, Class, and Gender in Young Adult Literature
EDUC 4135	Story and Memoir
EDUC 4222	Language Study for Educators
EDUC 4310	Social and Emotional Learning in Schools
EDUC 4316	Nature of Social Studies and Social Studies Education
<i>STEM Education</i>	
EDUC 2130	Teaching and Learning Math: Calculus, Trig and Adv Functions
EDUC 4050	Knowing and Learning in Mathematics and Science
EDUC 4315	Perspectives on Science
EDUC 4317	Perspectives on Mathematics
EDUC 4815	Teaching K-12 Mathematics: Number Sense
EDUC 4821	Teaching K-12 Mathematics: Algebraic Thinking
EDUC 4835	Teaching K-12 Mathematics: Geometry & Measurement
EDUC 4844	Teaching and Learning Computational Thinking
EDUC 4850	Teaching K-12 Mathematics: Probability & Statistics

**Educational Foundations, Policies and Practices**

Choose at least one course from the following:

EDUC 2125	History of American Public Education
EDUC 4015	International / Comparative Education
EDUC 4220	Gender Issues in Education
EDUC 4240	African American Education in the United States
EDUC 4301	Queer(ing) Topics in Education

**Equity, Bilingualism and Biliteracy**

Choose at least one course from the following:

EDUC 2625	Teaching English Language Development
EDUC 4425	Introduction to Bilingual/Multicultural Education
EDUC 4435	Culturally Sustaining Pedagogies for Bilingual Learners
EDUC 4615	Language Acquisition for Bilingual Learners

**Learning Sciences and Human Development**

Choose at least one course from the following:

EDUC 2411	Educational Psychology for Elementary Schools
EDUC 3570	Learning With Technology In and Out of School
EDUC 4112	Adolescent Development and Learning for Teachers

## Plan(s) of Study

**Year One****Fall Semester****Credit Hours**

<b>Credit Hours</b>		<b>14</b>
<b>Total Credit Hours</b>		<b>120</b>

**Learning Outcomes**

Upon completing the program, students will be able to:

- Develop and apply strong critical thinking, analysis, communication, interpersonal/team-building and problem-solving skills based on skills, knowledge and dispositions in the discipline of education.
- Demonstrate in-depth knowledge of youth development, research on teaching and learning and strengths of diverse cultural and linguistic educational contexts.
- Develop an awareness of, and appreciation for, diverse views, cultures and ideas as a means to becoming agents of change in educational and youth-serving organizations.
- Demonstrate an ability to support and create supportive learning experiences that are culturally responsive and build on the strengths and knowledges of all participants.

**Elementary Education - Bachelor of Arts (BA)**

Responding to increasing diversity and inequality in public schools, the BA in Elementary Education, with the endorsement in Culturally and Linguistically Diverse Education, is designed to dramatically change schooling for the underserved students of Colorado and the nation. The program aims to prepare reflective, ethical, anti-racist and inclusive elementary (K-6) teachers who are committed to making the world more equitable and just, through their work in public schools.

The program requires that students take a range of education courses, including those focused on the roles of schooling in the broader society and on theories of learning as they relate to historically underserved students and communities. The program also requires numerous "methods" courses, which engage students in the practices and skills needed for teaching all subject areas in self-contained classrooms, and for teaching students with a range of identities and abilities, who represent diverse cultural, linguistic, ethnic, racial, economic and religious communities. In order to be recommended for teacher licensure, students

must additionally complete extensive fieldwork in public elementary classrooms serving diverse learners.

The BA in Elementary Education's guiding principles that students will work on across their courses and field experience include learning how to engage in humanizing pedagogies; becoming critically conscious educators; developing a holistic understanding of bilingualism and a dynamic understanding of culture; designing curriculum and instruction, and enacting teaching practices, grounded in research centered on learning and learners; and viewing themselves as agents of change, who advocate on behalf of minoritized students, including bilingual learners.

To learn more, contact the Education advisors at 303-492-6555 or edadvise@colorado.edu. To apply, visit the CU Boulder Admissions (<http://www.colorado.edu/admissions/>) website.

**Requirements**

A total of 120 credit hours required. Students must complete all EDUC coursework in the final two years with a grade of B- or better. All other requirements must be completed with a grade of C- or better.

Please note that course EDUC 3013 fulfills several requirement areas: Elementary Licensure Requirement, Social Science Distribution and U.S. Diversity.

**Required Courses and Credits**

<sup>2</sup> Each science lab course has either a prerequisite or corequisite lecture.

### Skills

Code	Title	Credit Hours
------	-------	--------------

### Diversity Requirement

#### *U.S. Diversity*

EDUC 3013	School and Society	
-----------	--------------------	--

#### *Global Diversity*

Gen Ed Diversity - Global Perspective (1 course) <sup>1</sup>		0-3
---	--	-----

### Mathematics Requirement

The mathematics requirement is fulfilled by either an approved calculus course or two approved mathematics courses. 4-6

#### Calculus course option:

MATH 1300	Calculus 1	
or MATH 1310	Calculus for Life Sciences	
or APPM 1350	Calculus 1 for Engineers	

#### Approved mathematics courses option:

MATH 1110	Mathematics for Elementary Educators 1	
MATH 1120	Mathematics for Elementary Educators 2	
or MATH 1011	College Algebra	
or MATH 1012	Quantitative Reasoning and Mathematical Skills	
or MATH 1071	Finite Mathematics for Social Science and Business	
or MATH 1081	Calculus for Social Science and Business	
or MATH 1150	Precalculus Mathematics	
or MATH 1212	Data and Models	
or APPM 1235	Pre-Calculus for Engineers	
or APPM 1340	Calculus 1 with Algebra, Part A	
or APPM 1345	Calculus 1 with Algebra, Part B	

### Written Communication

The written communication requirement is fulfilled by taking an approved lower-division course and an approved upper-division course.

#### *Lower-division*

ARSC 1080	College Writing and Research	3
-----------	------------------------------	---

ARSC 1150	Writing in Arts and Sciences

WGST 3800	Advanced Writing in Feminist Studies
WRTG 3007	Writing in the Visual Arts
WRTG 3020	Topics in Writing
WRTG 3030	Writing on Science and Society
WRTG 3035	Technical Communication and Design
WRTG 3040	Writing on Business and Society

**Total Credit Hours** **10-15**

<sup>1</sup> For a complete explanation of the Gen Ed requirements, please see the College of Arts & Sciences General Education requirements (p. 78).

## Required Tests and Assessments

Students must pass all state-approved licensure exams: Praxis Teaching Reading: Elementary (test code 5205) and Praxis Elementary Education: Three Subject Bundle (test code 5901), prior to student teaching. To pass the Elementary Education: Three Subject Bundle test, students must receive a passing score on each subtest.

## Elementary Education Content Requirements

### Overview

Elementary Education students must take all Elementary Content coursework for a letter grade, and receive a passing grade of C- or higher, or or receive placement credit (as determined, for example, by scores on AP or IB exams) for an approved 3-credit course at CU Boulder.

### Elementary Content Area Requirements

Elementary Education students must demonstrate, through coursework or CU Boulder placement credit, the competencies specified below:

- American Government (3 credit hours)
- Cultural Geography (3 credit hours)
- Literature & Arts (3 credit hours)
- Mathematics (4-6 credit hours: 4-5 credit hours of an approved calculus course or 6 credit hours from two approved mathematics courses)

- Natural Science (7 credit hours: 3 credit hours of an approved biological science, 3 credit hours of an approved physical science, and 1 credit hour of an associated lab)
- U.S. History (3 credit hours)
- World History (3 credit hours)
- Written Communication (6 credit hours: 3 lower- and 3 upper-division credit hours)

### General Education Requirements

The School of Education General Education (Gen Ed) curriculum consists of 40 credits in three basic categories of requirements: Skills, Distribution and Diversity. Most of the Gen Ed requirements will be fulfilled by Elementary major or content area requirements, with the exception of the Global Perspective Diversity requirement. Courses taken to fulfill Literature & Arts or World History for the Elementary Content Area requirements *may* also fulfill the Global Perspective Diversity requirement. Courses taken to fulfill the Skills requirements may not also count towards the Distribution requirements. Please contact the School of Education for details.

- Skills requirement: 9 credits (6 Written Communication, 3 Quantitative Reasoning and Mathematical Skills, plus a third-level proficiency in a World/Foreign Language)
- Distribution requirement: 31 credits (12 Arts & Humanities, 12 Social Sciences, 7 Natural Sciences and Natural Sciences lab)
- Diversity requirement: 0–3 credits

The world language graduation requirement for the School of Education's undergraduate BA programs is third-level proficiency in a single modern or classical language (other than English). Students may fulfill this requirement by:

- Successfully completing three years of high school in a single language, or
- Earning AP or IB credit for an appropriate third-semester college-level course that is part of a three-course sequence, or
- Passing, with a C- or better, an appropriate third-semester college-level course that is part of a three-course sequence, or
- Passing a CU Boulder approved language proficiency examination at third-level proficiency.

The World/Foreign Language area of the Skills requirement aligns with the School of Education's commitment to prepare graduates who are well equipped to serve the needs of all students and advocate for educational equity and justice in our increasingly diverse communities and schools.

For a complete explanation of the Gen Ed requirements, please see the College of Arts and Sciences' General Education requirements (p. 78) in the catalog.

## Four-Year Plan of Study

### Year One

EDUC 4725	Elementary Student Teaching Seminar Part 2	3
<b>Credit Hours</b>		<b>15</b>
<b>Total Credit Hours</b>		<b>120</b>

<sup>1</sup> Due to the intensive nature of student teaching, students may not take other coursework during this semester.

## Learning Outcomes

In their development as critically conscious, CLD-endorsed elementary teachers, who value and center anti-racist, humanizing stances and practices, teacher candidates in the BA in Elementary Education program:

- Demonstrate pedagogical expertise in all subject areas, grounded in a critical understanding of how their content and instructional choices matter.
- Establish a safe and inclusive classroom community that reflects a dynamic understanding of culture.
- Plan and deliver effective, responsive instruction in all subject areas and create an environment that facilitates learning for all, including bilingual learners.
- Demonstrate professional integrity through ethical conduct, critical reflection, leadership and advocacy.

## Leadership and Community Engagement - Bachelor of Arts (BA)

The Bachelor of Arts in Leadership and Community Engagement (LDCE) prepares ethical, skilled leaders committed to addressing complex public challenges. The major integrates theory and practice. Students will learn about theories of leadership, applied research and learning in community settings. This knowledge is put into practice through structured experiences working with communities to diagnose social problems and design innovative solutions.

This major prepares students for careers in community or nonprofit organizations, higher education, international development, urban planning, social work and government, as well as for graduate study.

The coursework builds on the work of CU Engage: Center for Community-Based Learning and Research (<http://www.colorado.edu/cuengage/>).

## Requirements

### Secondary Area of Study

The Leadership and Community Engagement major requires students to complete a secondary area of study outside of the major. The secondary area of study can be fulfilled by completing a second degree, a minor or

a certificate. Leadership and Community Engagement majors may not complete a minor in leadership studies.

## Pathways

There are three pathways in the Leadership and Community Engagement major. The first is the general pathway. There are additional pathways for students in the Multicultural Leadership Scholars (<https://www.colorado.edu/lsm/coursework/minor-pathways/multicultural-leadership-scholars-pathway/>) program or the INVST Community Studies (<https://www.colorado.edu/invst/>) program. These programs are selective cohort-based programs. MLS applications are restricted to incoming first year students. INVST Community Studies Program applications are open to incoming first-year students, first-year students and second-year students.

### General Pathway Required Courses and Credits

## General Education Requirements

The School of Education General Education (Gen Ed) curriculum consists of 40 credits in three basic categories of requirements: Skills, Distribution and Diversity. Most of the Gen Ed requirements will be fulfilled by Elementary major or content area requirements, with the exception of the Global Perspective Diversity requirement. Courses taken to fulfill Literature & Arts or World History for the Elementary Content Area requirements *may* also fulfill the Global Perspective Diversity requirement. Courses taken to fulfill the Skills requirements may not also count towards the Distribution requirements. Please contact the School of Education for details.

- Skills requirement: 9 credits (6 Written Communication, 3 Quantitative Reasoning and Mathematical Skills, plus a third-level proficiency in a World/Foreign Language) Skills)
- Distribution requirement: 31 credits (12 Arts & Humanities, 12 Social Sciences, 7 Natural Sciences and Natural Sciences lab)
- Diversity requirement: 0–3 credits

The world language graduation requirement for the School of Education's undergraduate BA programs is third-level proficiency in a single modern or classical language (other than English). Students may fulfill this requirement by:

- Successfully completing three years of high school in a single language, or
- Earning AP or IB credit for an appropriate third-semester college-level course that is part of a three-course sequence, or
- Passing, with a C- or better, an appropriate third-semester college-level course that is part of a three-course sequence, or
- Passing a CU Boulder approved language proficiency examination at third-level proficiency.

The World/Foreign Language area of the Skills requirement aligns with the School of Education's commitment to prepare graduates who are well equipped to serve the needs of all students and advocate for educational equity and justice in our increasingly diverse communities and schools. Diversity requirement: 0–3 credits

## Four-Year Plan of Study

With a second degree in the College of Arts & Sciences fulfilling the Secondary Area of Study

### Year One

Fall Semester		Credit Hours
LEAD 1002	Becoming a Leader: Leadership & Community Engagement	3
Gen Ed (Natural Science with a lab is recommended)		4
Arts and Science Degree Major Course		3
Arts and Science Degree Major Course		3
Elective		3
<b>Credit Hours</b>		<b>16</b>

### Spring Semester

EDUC 2500	Strategies for Social Change	3
EDUC 3013	School and Society	3

Arts and Science Degree Major Course	3
Gen Ed (Natural Science is recommended)	3
Elective	3

**Credit Hours 15**

### Year Two

#### Fall Semester

INVS 2989	Dialogue Across Difference	3
INVS 3100	Social Justice, Leadership and Community Engagement Internships	3-4
Arts and Science Degree Major Course		3
Gen Ed		3
Gen Ed		3

**Credit Hours 15-16**

#### Spring Semester

SOCY 2061	Introduction to Social Statistics	3
Arts and Science Degree Major Course		3
Arts and Science Degree Major Course		3
Gen Ed		3
Gen Ed		3

**Credit Hours 15**

### Year Three

#### Fall Semester

EDUC 4112	Adolescent Development and Learning for Teachers	3
Arts and Science Degree Major Course		3
Gen Ed		3
Gen Ed		3
Elective		3

**Credit Hours 15**

#### Spring Semester

EDUC 4150	Introduction to Qualitative Research Methods	3
INVS 4402	Nonviolent Social Movements	3
Arts and Science Degree Major Course		3
Arts and Science Degree Major Course		3
Gen Ed		3
Elective		3

**Credit Hours 18**

### Year Four

#### Fall Semester

LEAD 4501	Leadership Capstone 1	3
EDUC 4500	Community-Based Research for Social Change	3
Arts and Science Degree Major Course		3
Gen Ed		3
Elective		3

**Credit Hours 15**

#### Spring Semester

LEAD 4502	Leadership Capstone 2	2
Arts and Science Degree Major Course		3
Arts and Science Degree Major Course		3
Gen Ed		3

Elective	3
<b>Credit Hours</b>	<b>14</b>
<b>Total Credit Hours</b>	<b>123-124</b>

## Learning Outcomes

Learning goals can be understood in terms of five strands of expertise. Upon successfully completing the degree program, students will be able to:

- Understand the theoretical foundations of leadership and community engagement.
- Developed expertise in applied research and evaluation.
- Developed understanding of learning and identity formation in community settings.
- Developed their identity as a community leader through academic study, action and reflection.
- Developed disciplinary expertise through a second major. Apply knowledge, skills and dispositions into capstone projects.

## Education - Minor

The Education Minor is designed for students who wish to supplement their academic major with studies in the field of education. The Education Minor allows students to explore the intersection of their chosen major and career path with the field of education, without committing to becoming a classroom teacher. The Education Minor provides a deep study into to how political, cultural, social and historical dynamics shape both policy and practice in education, as well as opportunities to focus on particular areas of education as a field of study and practice.

The minor, comprising three credit hours of core coursework and 15 credit hours of electives, is available to all undergraduates. Students are encouraged to meet with an education advisor to help determine which elective courses provide the best opportunities to supplement their specific field of study and/or explore a career path in the field of education.

## Requirements

### Declaration Process and Minor Requirements

Students may declare the Education Minor at any point in their undergraduate career. To declare the Education Minor, please submit a declaration form online on the School of Education website (<https://www.colorado.edu/education/academics/undergraduate-programs/education-minor/>).

A B (3.00) grade point average must be maintained in education minor coursework (with C- as lowest acceptable course grade) to complete the minor.

### Required Courses and Credits

Code	Title	Credit Hours
<b>Core Course</b>		<b>3</b>
EDUC 3013	School and Society	
<b>Elective Options</b>		<b>15</b>
Choose 5 courses from the options below:		
EDUC 1080	Decolonizing Education: Design for New Futures	

EDUC/PHYS 1580	Energy and Interactions
EDUC 2035	Designing STEM Learning Environments and Experiences
EDUC 2125	History of American Public Education
EDUC 2130	Teaching and Learning Math: Calculus, Trig and Adv Functions
EDUC 2150	Education in Film
EDUC 2311	Children's Literature and Literacy Engagement in Elementary Schools
EDUC 2400	Cultural Diversity and Awareness
EDUC 2411	Educational Psychology for Elementary Schools
EDUC 2490	Educational Psychology for Elementary Schools
EDUC 2625	Teaching English Language Development
EDUC 2919	Renewing Democracy in Communities and Schools
EDUC 3030	Race, Class, and Gender in Young Adult Literature
EDUC 3190	Introduction to Teaching and Learning
EDUC 3570	Learning With Technology In and Out of School
EDUC 4015	International / Comparative Education
EDUC 4050	Knowing and Learning in Mathematics and Science
EDUC 4110	Cultural Mentoring with Dual Language Learners
EDUC 4112/ PSYC 4114	Adolescent Development and Learning for Teachers
EDUC 4125	Secondary World Language Methods
EDUC 4135	Story and Memoir
EDUC 4222	Language Study for Educators
EDUC 4232	Language and Literacy across the Curriculum

EDUC 4615	Language Acquisition for Bilingual Learners
EDUC 4716	Basic Statistical Methods
EDUC 4811	Teaching and Learning Biology
EDUC 4815	Teaching K-12 Mathematics: Number Sense
EDUC 4821	Teaching K-12 Mathematics: Algebraic Thinking
EDUC 4835	Teaching K-12 Mathematics: Geometry & Measurement
EDUC 4850	Teaching K-12 Mathematics: Probability & Statistics

EDUC 4822	Teaching and Learning Chemistry
EDUC 4833	Teaching and Learning Earth Systems
EDUC 4844	Teaching and Learning Computational Thinking
ETHN 4306	The Chicana and Chicano and U.S. Social Systems
GEEN 4400	Teaching Design
INVS 3100	Social Justice, Leadership and Community Engagement Internships
WGST 3302	Facilitating Peaceful Community Change

**Total Credit Hours** **18**

## Learning Outcomes

The education minor curriculum values and promotes the central role of education for preparing critically/socially engaged and democratically-minded citizens for an increasingly complex, socially diverse, and culturally rich world. The education minor curriculum organizes learning experiences for non-majors that foster, among other things, critical awareness, empathy, flexibility, vulnerability, open-mindedness, imagination, comfort with ambiguity, and an understanding of common experiences, amidst diverse contexts and student histories.

- Examine the historical, cultural and ideological contexts of public schooling.
- Explore theories of learning across families, schools, peer groups, communities and cultures.
- Analyze and explore a self-selected range of topics related to education and connected to major areas of study, for example: roles and meanings of education in a democratic society; justice and equity in education; creativity and agency of youth from non-dominant backgrounds; explorations of popular representations or conventional narratives of students, teachers, and schooling; perspectives on multicultural and bilingual education; perspective on learning mathematics; teaching and reading children's literature.

## Leadership Studies - Minor

The Leadership Studies Minor prepares students to ethically and effectively lead through a combination of academic coursework, critical self-reflection and team projects. This academic credential is available to all undergraduates, regardless of major or college. By including the minor with a chosen field of study, undergraduates will gain knowledge, skills and dispositions that prepare them to lead in community, business, government and other related contexts.

Students may declare the leadership studies minor at any point in their undergraduate career. To declare the leadership studies minor, please submit a declaration form online on the School of Education website (<https://www.colorado.edu/education/academics/undergraduate-programs/leadership-studies-minor/>).

This minor offers leadership education that incorporates:

- Understanding, critiquing and applying leadership theories.
- Gaining a historical and situational analysis of leadership.
- Developing core leadership competencies relevant to everyday leadership and leadership in times of crisis.
- Practicing and observing leadership in action.
- Engaging with peers in collaborative and intentional ways.

## Requirements

### Core Requirements

The minor involves 16 credit hours of coursework, including an introductory course (LEAD 1000), nine credits of electives, and a capstone course with an experiential practicum and electronic portfolio of learning (LEAD 4000). All coursework must be completed with a grade of C- or better to fulfill the requirements.

### Pathway Options

Students enrolled in the Presidents Leadership Class, INVST, the Engineering Leadership Program, Multicultural Leadership Scholars or ROTC units should talk to their respective coordinators about how these programs can be integrated as pathways to the Leadership Studies Minor (see details below)

### General Pathway

Completion of the Leadership Studies Minor requires students to take 9 credits of elective coursework across three categories.

- **Leadership Foundations:** Courses focus on moral and ethical reasoning, ability to critically evaluate behavior, and improved decision-making in life choices. (3 credits)
- **Leadership Application:** Courses focus on enhanced ability to function in a team, building a team with diverse perspectives, and leading a team effectively to accomplish a shared goal. (3 credits)
- **Leadership in Context:** Courses focus on historical and situational analysis, critical evaluation of historical and contemporary leaders, and ability to connect leadership behaviors to organizational outcomes. (3 credits)

Students are responsible for understanding any prerequisites or conditions for chosen electives. At least two out of three elective courses must be completed to enroll in the capstone course, one elective course must be outside the student's major.

Students may petition for a course not included on the following list to count towards a minor elective. They may petition an elective be moved to a different category as needed in their plan of study. Visit the minor website (<https://www.colorado.edu/lsm/coursework/electives/>) for petition information and contact [leadershipstudies@colorado.edu](mailto:leadershipstudies@colorado.edu) with any questions.

### INVST Pathway

Students who are selected members of INVST cohorts can meet the requirements of the Leadership Studies Minor as outlined below. Students should meet with the INVST professional staff for additional guidance.

Code	Title	Credit Hours
<b>Introductory Course</b>		
EDUC 4800	Special Topics Climate Justice	3
Will accept alternative courses for cohorts impacted by COVID-19.		
<b>Electives</b>		
One elective required from each of the three categories below		
<b>1. Leadership Foundations</b>		<b>3</b>
INVS 3671	People of Color and Social Movements	

<b>2. Leadership Application</b>		<b>3</b>
INVS 3302	Facilitating Peaceful Community Change	
or INVS 3931	The Community Leadership Internship, Part 1	
or INVS 3932	Community Leadership Internship, Part 2	
<b>3. Leadership in Context</b>		<b>3</b>
INVS 4931	Community Leadership in Action, Part 1	
<b>Capstone</b>		
LEAD 4000	Leadership in Context and Emerging Challenges: A Capstone	4

### Engineering Leadership Program Pathway

Students who are selected members of the Engineering Leadership Program (ENLP) can meet the requirements of the Leadership Studies Minor as outlined below. Students should meet with the ENLP professional staff for additional guidance.

Code	Title	Credit Hours
<b>Introductory Course</b>		
ENLP 2000	Leadership, Fame and Failure	3
<b>Electives</b>		
One elective required from each of the three categories below		
<b>1. Leadership Foundations</b>		<b>3</b>
ENLP 3100	Complex Leadership Challenges	
<b>2. Leadership Application</b>		<b>3</b>
ENLP 3000	Intelligent Leadership	
<b>3. Leadership in Context</b>		<b>3</b>
ENLP 4000	The Empire of Modern Science	
<b>Capstone</b>		
LEAD 4000	Leadership in Context and Emerging Challenges: A Capstone	4

### Multicultural Leadership Scholars Pathway

Students who are selected members of the Multicultural Leadership Scholars can meet the requirements of the Leadership Studies Minor as outlined below. Students should meet with the MLS professional staff for additional guidance.

Code	Title	Credit Hours
<b>Introductory Course</b>		
LEAD 1001	Becoming a Leader: Multicultural Leadership Scholars	3
<b>Electives</b>		
All courses required from each of the three categories below		
<b>1. Leadership Foundations</b>		<b>2</b>
LEAD 1571	Topics in Leadership: Introduction to Research Methods	
<b>2. Leadership Application</b>		<b>4</b>
LEAD 2410	Dynamics of Power, Privilege, Oppression and Empowerment in Leadership	
EDUC 2910	Field Practicum 1	
<b>3. Leadership in Context</b>		<b>3</b>
INVS 3100	Social Justice, Leadership and Community Engagement Internships	
<b>Capstone</b>		

LEAD 4000	Leadership in Context and Emerging Challenges: A Capstone	4
-----------	---	---

### Presidents Leadership Class Pathway

Students who are selected members of the Presidents Leadership Class can meet the requirements of the Leadership Studies Minor as outlined below. Students should meet with the PLC professional staff for additional guidance.

Code	Title	Credit Hours
<b>Introductory Course</b>		
PRLC 1810	Leadership Foundations and Applications I	3
<b>Electives</b>		
One elective required from each of the three categories below		
<i>1. Leadership Foundations</i> 3		
PRLC 2820	Multilevel Issues in Leadership (or PRLC 4010 (Maymester) CU in D.C. Science Policy)	3
or ENLP 3100	Complex Leadership Challenges	
<i>2. Leadership Application</i> 3		
PRLC 1820	Leadership Foundations & Applications II	3
or PRLC 3810	Global Issues in Leadership	
<i>3. Leadership in Context</i> 3		
PRLC 3810	Global Issues in Leadership	3
or PRLC 3800	Global Inquiry for 21st Century Leadership	
<b>Capstone</b>		
LEAD 4000	Leadership in Context and Emerging Challenges: A Capstone	4

### Air Force ROTC Pathway

Students pursuing the Leadership Studies Minor through Air Force ROTC can meet the requirements for the Minor as outlined below.

Code	Title	Credit Hours
<b>Introductory Course</b>		
AIRR 1020	Heritages and Values II	1
AIRR 2010	Team and Leadership Fundamentals 1	1
AIRR 2020	Team and Leadership Fundamentals 2	1
<b>Electives</b>		
One elective required from each of the three categories below		
<i>1. Leadership Foundations</i> 3		
AIRR 3010	Leading People and Effective Communication 1	3
<i>2. Leadership Application</i>		
AIRR 3020	Leading People and Effective Communication 2	3
<i>3. Leadership in Context</i> 3		
AIRR 4010	National Security, Leadership Responsibilities/Commissioning Preparation 1	3
<b>Capstone</b>		
LEAD 4000	Leadership in Context and Emerging Challenges: A Capstone	4

### Army ROTC Pathway

Students pursuing the Leadership Studies Minor through Army ROTC can meet the requirements for the minor as outlined below.

Code	Title	Credit Hours
<b>Introductory Course</b>		
MILR 1011	Adventures in Leadership 1	2
MILR 1021	Adventures in Leadership 2	2
<b>Electives</b>		
One elective required from each of the three categories below		
<i>1. Leadership Foundations</i> 3		
MILR 2031	Methods of Leadership and Management 1	3
<i>2. Leadership Application</i>		
MILR 3052	Military Operations and Training 1	3
<i>3. Leadership in Context</i> 3		
MILR 4072	Leadership 1: Adaptive Leadership	3
<b>Capstone</b>		
LEAD 4000	Leadership in Context and Emerging Challenges: A Capstone	4

### Naval ROTC Pathway

Students pursuing the Leadership Studies Minor through Naval ROTC, including traditional Midshipmen programs, Seaman to Admiral (STA-21) and Marine Corps Enlisted Commissioning Educational Program (MECEP), can meet the requirements for the minor as outlined below.

Code	Title	Credit Hours
<b>Introductory Course</b>		
NAVR 4010	Leadership and Management	3
<b>Electives</b>		
One elective required from each of the three categories below		
<i>1. Leadership Foundations</i> 3		
NAVR 4020	Leadership and Ethics	3
<i>2. Leadership Application</i>		
NAVR 2020	Seapower and Maritime Affairs	3
<i>3. Leadership in Context</i> 3		
NAVR 3020	Naval Operations and Seamanship	3
<b>Capstone</b>		
LEAD 4000	Leadership in Context and Emerging Challenges: A Capstone	4

## Learning Outcomes

The Leadership Studies minor is aligned with the Chancellor's strategic imperative to "shape tomorrow's leaders." The minor contributes to preparing leaders in the following realms:

- Personal leadership development
- Leadership theory and analysis
- Ethical and moral leadership

## STEM Education - Certificate

At both the state and national level, the importance of a technologically literate workforce is essential to meeting the challenges of the 21st Century.

Preparing students for this workforce depends not only on producing high quality science, technology, engineering and mathematics (STEM) majors, but also improving their ability to communicate STEM concepts and work effectively with others. Whether they become doctors, teachers, or engineers, it is imperative that STEM majors are able to work in a variety of collaborative environments. Paramount to creating collaborative environments is recognizing the inherent strengths in embracing diverse perspectives, creating safe and affirming spaces, and valuing social justice and equitable teaching/learning.

The STEM Education Certificate provides STEM majors with skills in how to effectively communicate STEM related concepts, as well as an awareness of discipline-specific approaches to teaching and learning. Students enrolled in the STEM Education Certificate become part of a supportive CU Teach community. They work collaboratively teaching STEM concepts in local elementary and secondary schools and also experience working with youth in programs across campus and in the community. Moreover, the STEM Education Certificate allows students to graduate with a skill set that can be applied in business and industry, while providing them required foundational courses if they choose to complete a secondary mathematics or science teaching license.

The STEM Education Certificate is a collaborative venture between the School of Education, the College of Engineering and Applied Science, and the College of Arts and Sciences and focuses on creating learning environments that support the sharing of diverse perspectives in the process of solving interesting and relevant mathematical, scientific and engineering problems.

## Requirements

### Student Eligibility

Degree-seeking undergraduate students majoring in math, science or engineering (through Engineering Plus) are eligible to enroll in the STEM Education Certificate. Students must maintain at least a 3.0 GPA in the STEM Education Certificate courses.

Many of the courses included in the STEM Education Certificate are also applicable to the curriculum for obtaining licensure in secondary math or science; thus, students who decide to pursue a STEM secondary teaching license will be able to do so in a timely manner (approximately two additional semesters plus student teaching).

### Required Courses and Credits

Code	Title	Credit Hours
<b>Courses and Minimum Required Credit Hours</b>		
EDUC 2035	Designing STEM Learning Environments and Experiences	3-4
or EDUC 2020 & EDUC 2030	Step 1: Inquiry Approaches to Teaching STEM and Step 2: Inquiry-Based Lesson Design	
EDUC 4050	Knowing and Learning in Mathematics and Science	3
Choose two:		6
EDUC 1580	Energy and Interactions	

EDUC 2130	Teaching and Learning Math: Calculus, Trig and Adv Functions
EDUC 4317	Perspectives on Mathematics
EDUC/PHYS 4460	Teaching and Learning Physics
EDUC 4706	Assessment in Mathematics and Science Education
EDUC/MCDB 4811	Teaching and Learning Biology
EDUC 4815	Teaching K-12 Mathematics: Number Sense
EDUC 4821	Teaching K-12 Mathematics: Algebraic Thinking
EDUC 4822	Teaching and Learning Chemistry
EDUC 4833	Teaching and Learning Earth Systems
EDUC 4835	Teaching K-12 Mathematics: Geometry & Measurement
EDUC 4844	Teaching and Learning Computational Thinking
EDUC 4850	Teaching K-12 Mathematics: Probability & Statistics
GEEN 4400	Teaching Design

**Total Credit Hours**

**12-13**

In addition to the required courses listed above, students must complete a total of 15 hours in various STEM education and outreach institutions that partner with CU Teach (Possible collaborators/venues include tutoring in BVSD, SVVSD, CU Science Discovery, CU Fiske Planetarium, WOW! Children's Museum, Destination Imagination, Butterfly Pavilion, and Science Fair judging). Students may propose their own partnership/collaboration (future or in the past) for approval by a co-chair of CU Teach.

## Learning Outcomes

- Understand disciplinary-specific approaches to STEM.
- Effectively communicate STEM related concepts in educational, business and industry settings.
- Apply for the secondary licensure program.

## Teacher Licensure Program

The School of Education offers coursework leading to a Colorado initial teaching license to undergraduate, post-baccalaureate and master's degree students. Colorado requires public school teachers to be licensed by its state department of education. Students who successfully complete all School of Education requirements will be recommended for a Colorado initial teaching license. The initial teaching license is for Colorado only. Licensure requirements vary from state to state and from teaching area to area. Students who are interested in teaching in other states should familiarize themselves with the requirements of those states so they may plan an appropriate degree program.

Teacher education at the University of Colorado, while administered by the School of Education, is a university-wide function. Many academic departments provide coursework that supports teacher preparation. Undergraduate students follow a prescribed set of core courses that meet state content preparation standards, complete a major and satisfy professional education requirements concurrently. The program involves a combination of courses at the university and K-12 school placements.

Students interested in pursuing Elementary (grades K–6) Education teacher licensure should refer to the Elementary Education - Bachelor of Arts (BA) (p. 697) section of the catalog for more information.

## Program Mission & Commitments

The School of Education prepares educators who are able to enact commitments to social justice and equitable access to deep content learning in school, family and community contexts.

The following principles guide our work in preparing the next generation of educators:

- Teachers must position students as sense-makers and knowledge-generators, who desire to invest and succeed in school. This involves noticing children/youth, building relationships with them, valuing their perspectives and attending to their thinking, curiosities and capabilities.
- Teaching is both intellectual work and a craft. Deep knowledge of content and pedagogy, creativity and passion fuel both learning and teaching.
- Teachers must design equitable learning environments in which all children are engaged in robust and consequential learning.
- Teacher's instruction and student learning is always conducted within the context of larger social systems, structures and hierarchies.
- What we do and say matters and must be analyzed. Our language and action constructs or constrains opportunities for children to build meaningful, positive and sustained relationships to learning and one another.

## Colorado Teacher Quality Standards

Teacher education candidates engage in a planned sequence of courses and accompanying clinical experiences in local community and school sites. Courses and assessments ensure candidates have demonstrated appropriate mastery of (1) content taught in the Colorado Academic Standards and (2) professional practices and dispositions associated with the Colorado Teacher Quality Standards listed below.

1. Teachers demonstrate mastery of and pedagogical expertise in the content they teach. The secondary teacher has knowledge of literacy and mathematics and is an expert in his or her content endorsement area(s).
2. Teachers establish a safe, inclusive and respectful learning environment for a diverse population of students.
3. Teachers plan and deliver effective instruction and create an environment that facilitates learning for their students.
4. Teachers demonstrate professionalism through ethical conduct, reflection and leadership.

## Admission Requirements

To be eligible for admission to the undergraduate nondegree or the post-baccalaureate teacher licensure program, applicants must meet all of the requirements below. Please note, satisfying the minimum criteria does not guarantee acceptance.

- **GPA:** Secondary students must have and maintain a 2.75 (on a 4.00 scale) cumulative GPA, 2.75 at CU Boulder, 2.75 in their subject area (secondary teacher fields) and 2.75 in education. K-12 Music Education students must have and maintain a 3.00 overall and in their subject area.

- **Prior Degrees:** Students applying to Post-Baccalaureate programs must have a bachelor's degree from an accredited institution.
- **Basic Skills:** All teacher education students must demonstrate basic skills competence in mathematics and literacy. This may be done through acceptable grades in appropriate college coursework, or by acceptable standardized test scores. Contact the School of Education for more information.
- **Letters of Recommendation:** Students applying to an undergraduate nondegree program must have one letter of recommendation from a college-level instructor, professor, graduate student instructor, lab instructor, or a teaching assistant. Students applying to post-baccalaureate programs must have two letters of recommendation from a college-level instructor, professor, graduate student instructor, lab instructor, or a teaching assistant.
- **Personal Statement**
- **Background Check and Fee:** Please contact the School of Education for the most updated information.
- **Application Fee:** The appropriate application fee should be submitted with application materials. Fees vary by program.

## Post-Baccalaureate

The post-baccalaureate teacher licensure programs are designed for students who have previously completed a BA/BS/BM degree and are only pursuing a Colorado initial teaching license. The programs do not lead to a degree.

### Post-Baccalaureate (Non-Master's Degree) Teacher Licensure Programs

- Music Education (K–12) (p. 710)
- Middle School Math (6-8) (p. )
- Secondary Math (7–12) (p. 712)
- Secondary Science (7–12) (p. 713)
- World Languages (7 (p. 714)– (p. 713)12) (p. 714) - French, German, Japanese, Latin or Spanish

### Music Education (K–12) Teacher Licensure Program for Post-Baccalaureate Students

K-12 Music Education teacher licensure candidates must maintain a 2.00 GPA in cumulative, content and education coursework. All grades in Education courses must be a B- or better to maintain good standing in the program. All grades must be a C- or better to satisfy a content coursework requirement.

### Content Coursework Requirements

The College of Music evaluates all music content requirements, and recommends applicants to the School of Education. Students who have an undergraduate degree in music (BA, BM) may apply to the Masters of Music Education plus licensure program. Please contact the College of Music for details.

### Non-Music Content Coursework Requirements

Code	Title	Credit Hours
<b>Courses and Minimum Required Credit Hours</b>		
	Arts & Humanities (excluding music courses)	3

Quantitative Reasoning and Mathematical Skills: Three credit hours in college-level mathematics.	3
Natural Sciences	3
Social Sciences or World Language (third semester or higher)	3
Written Communication: Three credit hours in college-level composition or writing.	3
Non-music Electives: Any coursework offered outside of music, excluding any School of Education (EDUC) courses.	9

## Education Course Requirements

Code	Title	Credit Hours
<b>Courses and Minimum Required Credit Hours</b>		
EDUC 3013	School and Society	3
EDUC 4112	Adolescent Development and Learning for Teachers (Includes up to two hours per week of outside-class service learning. May be taken at any time.)	3
or EDUC 2411	Educational Psychology for Elementary Schools	
MUSC 4323	Differentiating Instruction in K-8 Music Classrooms	3
or EDUC 4023	Differentiating Instruction in Diverse Secondary Classrooms	
<b>Total Credit Hours</b>		<b>9</b>

## Student Teaching

Satisfactory completion of all content and education course requirements is a prerequisite for student teaching. No other courses may be taken during the student teaching semester.

- EDUC 4732 Student Teaching K-12 (8 credits). Pass/fail only.
- MUSC 4133 Student Teaching Practicum (3 credits). This course may be optional. Please check with the College of Music.
- MUSC 4193 Student Teaching Seminar (1 credit).

## Required Tests and Assessments

### Basic Skills: Prior to Student Teaching

Complete an appropriate, college-level math *and* composition course with a B- or better. Acceptable scores on the ACT, SAT, GRE or Praxis CORE exam will also satisfy the requirement.

### Licensure Exam: Prior to Student Teaching

Pass the state-approved licensure exam, PRAXIS Music: Content Knowledge (test code 5113).

## Middle School Mathematics (6–8) Teacher Licensure Program for Post-Baccalaureate Students

Middle School Mathematics teacher licensure candidates must maintain a 2.00 GPA in cumulative, content and education coursework. All grades in Education courses must be a B- or better to maintain good standing in the program. All grades must be a C- or better to satisfy a content coursework requirement.

## Content Coursework Requirements

Code	Title	Credit Hours
<b>Courses and Minimum Required Credit Hours</b>		
Literature & Arts		3
Natural Science		3
Social Science		3
Written Communication: College-level composition or writing		3
EDUC 2130	Teaching and Learning Math: Calculus, Trig and Adv Functions (or a 4-5 credit Calculus 1 course or equivalent.)	3-5
or APPM 1350	Calculus 1 for Engineers	
or MATH 1300	Calculus 1	
or MATH 1310	Calculus for Life Sciences

Code	Title	Credit Hours
<b>Courses and Minimum Required Credit Hours</b>		
EDUC 2035	Designing STEM Learning Environments and Experiences	3
EDUC 3013	School and Society	3
EDUC 4023	Differentiating Instruction in Diverse Secondary Classrooms (Includes up to four (4) hours per week of school-based practicum. Should be taken concurrently with EDUC 5375 Problem-Based Instruction. EDUC 4060 is a prerequisite.)	3
EDUC 4050	Knowing and Learning in Mathematics and Science (May be taken any time. Includes up to two (2) hours per week of school-based practicum.)	3
EDUC 4060	Classroom Interactions (Includes up to five (5) hours per week of school-based practicum. This course is a prerequisite for EDUC 4023 and EDUC 5375. Fall only.)	3
EDUC 4232	Language and Literacy across the Curriculum (May be taken at any time. Spring only.)	3
EDUC 4317	Perspectives on Mathematics (May be taken at any time. Fall only.)	3

EDUC 5375	Problem-Based Math Instruction (Includes up to six (6) hours per week of school-based practicum. Should be taken concurrently with EDUC 4023 Differentiating Instruction in Diverse Secondary Classrooms. EDUC 4060 is a prerequisite. Spring only.)	3	Probability & Statistics: One course in probability theory and mathematical statistics.	3
			Math or applied math coursework. Eighteen of the required 24 credit hours above must be completed at the sophomore level or higher. (May include requirements above).	24
			Recent mathematics coursework in the past five years. (May include EDUC 4317.)	6

**Total Credit Hours** **24**

## Student Teaching

Satisfactory completion of all content and education course requirements is a prerequisite for student teaching. No other courses may be taken during the student teaching semester.

- EDUC 4513 Education and Practice (2 credits). Must be taken with EDUC 4712.
- EDUC 4712 Student Teaching: Secondary School (10 credits). Must be taken with EDUC 4513.

## Required Tests and Assessments

### Basic Skills: Prior to Student Teaching

Complete an appropriate, college-level math *and* composition course with a B- or better. Acceptable scores on the ACT, SAT, GRE or Praxis CORE exam will also satisfy the requirement.

### Licensure Exam: Prior to Student Teaching

Pass the state-approved licensure exam, PRAXIS: Middle School Mathematics (test code 5164).

### Teacher Performance Assessment

Pass a performance-based, subject-specific assessment designed by program faculty.

## Secondary Mathematics (7–12) Teacher Licensure Program for Post-Baccalaureate Students

Secondary Mathematics teacher licensure candidates must maintain a 2.00 GPA in cumulative, content and education coursework. All grades in Education courses must be a B- or better to maintain good standing in the program. All grades must be a C- or better to satisfy a content coursework requirement.

## Student Teaching

Satisfactory completion of all content and education course requirements is a prerequisite for student teaching. No other courses may be taken during the student teaching semester.

- EDUC 4513 Education and Practice (2 credits). Must be taken with EDUC 4712.
- EDUC 4712 Student Teaching: Secondary School (10 credits). Must be taken with EDUC 4513.

## Required Tests and Assessments

### Basic Skills: Prior to Student Teaching

Complete an appropriate, college-level math *and* composition course with a B- or better. Acceptable scores on the ACT, SAT, GRE or Praxis CORE exam will also satisfy the requirement.

### Licensure Exam: Prior to Student Teaching

Pass the state-approved licensure exam, Praxis: Mathematics (test code 5165).

### Teacher Performance Assessment

Pass a performance-based, subject-specific assessment designed by program faculty.

## Secondary Science (7–12) Teacher Licensure Program for Post-Baccalaureate Students

Secondary Science teacher licensure candidates must maintain a 2.00 GPA in cumulative, content and education coursework. All grades in Education courses must be a B- or better to maintain good standing in the program. All grades must be a C- or better to satisfy a content coursework requirement.

### Content Coursework Requirements

Code	Title	Credit Hours
<b>Courses and Minimum Required Credit Hours</b>		
	Literature & Arts	3
	Social Science	3
	Written Communication: College-level composition or writing.	3
	Calculus I: Including or equivalent to APPM 1350, MATH 1300, or MATH 1310.	4-5
	Choose one biology course.	3
	Choose one chemistry course.	3
	Choose one earth/space science course.	3
	Choose one physics course.	3
	<i>Complete three out of four of the following content area lab courses separately or as part of a course:</i>	
	Biology lab	
	Earth/space science lab	
	Chemistry lab	
	Physics lab	
	Recent science coursework in the past five years.	6
	Students must complete 24 credit hours in one of the sections below:	24
	Biology (may include courses from biology area above). Coursework must include the study of general biology, matter & energy in living systems, ecology, evolution, genetics, molecular biology, human anatomy, environmental biology and biotechnology.	
	Chemistry (may include courses from chemistry area above). Coursework must include the study of analytical, inorganic, organic and physical chemistry.	

Earth/space science (may include courses from earth/space science area above). Coursework must include the study of environmental science, astronomy, historical & physical geology, meteorology, oceanography, and geomorphology & earth systems.

Environmental science. Coursework must include the study of ecology and astronomy, and 17 credit hours in biology.

Physics (may include courses from Physics area above). Coursework must include the study of mathematics through differential equations, astronomy, atomic & nuclear, classical mechanics, electricity & magnetism, heat & thermodynamics, optics & sound, quantum mechanics, radiation & radioactivity, relativity and waves.

EDUC 3013	School and Society	3
EDUC 4023	Differentiating Instruction in Diverse Secondary Classrooms (Includes up to four (4) hours per week of school-based practicum. Should be taken concurrently with SPAN 4650.)	3
EDUC 4112	Adolescent Development and Learning for Teachers (Includes up to two (2) hours per week of outside-class service learning. May be taken at any time.)	3
EDUC 4125	Secondary World Language Methods	3
SPAN 4650	Methods of Teaching Spanish (Spring only.)	3
<b>Total Credit Hours</b>		<b>20</b>

### Student Teaching

Satisfactory completion of all content and education course requirements is a prerequisite for student teaching. No other courses may be taken during the student teaching semester.

- EDUC 4722 Student Teaching: Secondary School 2 (2 credits). Must be taken with EDUC 4722 and SPAN 4660.
- EDUC 4712 Student Teaching: Secondary School (5 credits). Must be taken with EDUC 4513 and SPAN 4660.
- SPAN 4660 High School Spanish Teaching (6 credits). Must be taken with EDUC 4513 and EDUC 4722.

### Required Tests and Assessments

#### Basic Skills: Prior to Student Teaching

Complete an appropriate, college-level math *and* composition course with a B- or better. Acceptable scores on the ACT, SAT, GRE or Praxis CORE exam will also satisfy the requirement.

#### Oral Proficiency Interview: Prior to Student Teaching

Pass the ACTFL Oral Proficiency Interview with a score of Advanced Low or better.

#### Licensure Exam: Prior to Student Teaching

Pass the state-approved licensure exam, PRAXIS Spanish: World Language (test code 5195).

## Learning Outcomes

In their development as teachers for equity and justice who value and center humanistic, anti-oppressive, anti-racist, and queer-inclusive stances and practices, candidates in the CU licensure programs:

- Demonstrate pedagogical expertise in the disciplines they teach, grounded in an understanding of how their content and instructional choices matter.

- Design lessons that emphasize the importance of critical, collaborative sense-making and diverse perspectives.
- Strive toward teaching and learning environments that center students' knowledge and experiences, address existing status/roles of students and teachers, and challenge deficit and neutral perspectives.
- Plan and facilitate learning communities that provide opportunities for members to exercise dignity and respect for self and others, while developing disciplinary ideas and practices.
- Demonstrate professional integrity through ethical conduct, reflection and leadership.
- Foster relationships with students, families, communities and colleagues to advocate for equity and justice commitments.

## Undergraduate Nondegree

The undergraduate nondegree teacher licensure programs are designed for current, CU Boulder undergraduates in a college or school outside of the School of Education. The students will complete teacher licensure coursework simultaneously with their undergraduate degree coursework.

## Undergraduate Nondegree Teacher Licensure Programs

- Music Education (K–12) (p. 717)
- Secondary English Language Arts (7–12) (p. 718)
- Middle School Math (6-8) (p. )
- Secondary Math (7–12) (p. 719)
- Secondary Science (7–12) (p. 720)
- Secondary Social Studies (7–12) (p. 721)
- World Languages (p. 722) (French, German, Japanese, Latin or Spanish)

## Music Education (K–12) Teacher Licensure Program Grade Requirements

K-12 Music Education teacher licensure candidates must maintain a 2.00 GPA in cumulative, content and education coursework. All grades in Education courses must be a B- or better to maintain good standing in the program. All grades must be a C- or better to satisfy a content coursework requirement.

## Content Coursework Requirements

K-12 Music Education teacher licensure candidates will meet content coursework requirements with the completion of their Bachelor of Music Education (p. 1048) degree program. Please contact the College of Music for details.

## Non-Music Coursework Requirements

Code	Title	Credit Hours
<b>Courses and Minimum Required Credit Hours</b>		
	Arts & Humanities (excluding music courses)	3
	Quantitative Reasoning and Mathematical Skills	3
	Natural Sciences	3
	Social Sciences or World Language (3rd semester or higher)	3

Written Communication: Three credit hours in college-level composition or writing.	3
Non-Music Electives: any courses outside of the College of Music, excluding any School of Education (EDUC) courses.	9

## Education Course Requirements

Code	Title	Credit Hours
EDUC 3013	School and Society	3
EDUC 4112	Adolescent Development and Learning for Teachers (includes up to 2 hours per week of outside-class service learning; may be taken at any time)	3
or EDUC 2411	Educational Psychology for Elementary Schools	
MUSC 4323	Differentiating Instruction in K-8 Music Classrooms	3
or EDUC 4023	Differentiating Instruction in Diverse Secondary Classrooms	
<b>Total Credit Hours</b>		<b>9</b>

## Student Teaching

Satisfactory completion of all content and education course requirements is a prerequisite for student teaching. No other courses may be taken during the student teaching semester.

Code	Title	Credit Hours
EDUC 4732	Student Teaching K-12 (Pass/fail only.)	8
MUSC 4133	Student Teaching Practicum (This course may be optional. Please contact the College of Music.)	3
MUSC 4193	Student Teaching Seminar	1
<b>Total Credit Hours</b>		<b>12</b>

## Required Tests and Assessments

### Basic Skills: Prior to Student Teaching

Complete an appropriate, college-level math *and* composition course with a B- or better. Acceptable scores on the ACT, SAT, GRE or Praxis CORE exam will also satisfy the requirement.

### Licensure Exam: Prior to Student Teaching

Pass the state-approved licensure exam, PRAXIS Music: Content Knowledge (test code 5113).

## Secondary English Language Arts (7–12) Teacher Licensure Program

### Major Requirements

Secondary English Language Arts teacher licensure candidates must major in English Literature, Ethnic Studies, Communication, Journalism, or Humanities with a literature concentration.

### Grade Requirements

Secondary English Language Arts teacher licensure candidates must maintain a cumulative 2.00 GPA in content and education coursework. All grades in Education courses must be a B- or better to maintain good standing in the program. All grades must be a C- or better to satisfy a content coursework requirement.

## Content Coursework Requirements

Code	Title	Credit Hours
<b>Courses and Minimum Required Credit Hours</b>		
	Advanced Writing: Critical or creative writing beyond the lower-division/introductory composition level.	3
	Visual or Digital Communication: Includes theatre, film, or digital media courses.	3
	Literature: Must include a component of American literature, British literature, World literature (non-American/non-British literature), and Multicultural literature.	12
	Thirty credit hours or coursework in one of the following disciplines: Communication/Speech, Composition, Drama/Theatre, Humanities, Journalism, or Literature (may include courses from the content requirements above).	30

## Education Course Requirements

Code	Title	Credit Hours
<b>Take Prior to Final Year in the Program</b>		
EDUC 1001	Humanities Teaching for Equity: Naming	1
EDUC 2001	Humanities Teaching for Equity: Noticing	2
EDUC 3001	Humanities Teaching for Equity: Negotiating	2
EDUC 3013	School and Society	3
EDUC 4023	Differentiating Instruction in Diverse Secondary Classrooms	3
EDUC 4112	Adolescent Development and Learning for Teachers (Includes up to 2 hours per week of outside-class service learning.)	3
EDUC 4295	Narrative and Story in the Humanities	3
EDUC 4490	Blurring Disciplinary Lines in the Humanities	3

### Final Year in Program

EDUC 4325	Queering Literacy in Secondary Classrooms (Fall Only.)	3
EDUC 4345	Secondary English Methods I (Fall Only.)	3
EDUC 4712	Student Teaching: Secondary School (Spring Only.)	10
EDUC 4365	Secondary English Methods II (Spring Only.)	3
EDUC 4390	Teaching for Equity and Justice (Spring Only.)	3

**Total Credit Hours** 42

## Student Teaching

Candidates will complete an intensive final year of field experiences while taking courses. Candidates will generally not be able to take other coursework in the final Spring semester of the program. Please contact an Education advisor for more information.

## Required Tests and Assessments

### Basic Skills: Prior to Student Teaching

Complete an appropriate, college-level math *and* composition course with a B- or better. Acceptable scores on the ACT, SAT, GRE or Praxis CORE exam will also satisfy the requirement.

**Licensure Exam: Prior to Student Teaching**

Pass the state-approved licensure exam, PRAXIS English Language Arts: Content Knowledge (test code 5038).

## Middle School Mathematics (6–8) Teacher Licensure Program

**Grade Requirements**

Middle School Mathematics teacher licensure candidates must maintain a 2.00 GPA in cumulative, content and education coursework. All grades in Education courses must be a B- or better to maintain good standing in the program. All grades must be a C- or better to satisfy a content coursework requirement.

**Content Coursework Requirements**

Code	Title	Credit Hours
<b>Courses and Minimum Required Credit Hours</b>		
EDUC 2130	Teaching and Learning Math: Calculus, Trig and Adv Functions	3

GRMN 4450 or GRMN 5020	Methods of Teaching German Applied Linguistics and Foreign Language Teaching Methodology	3
Note: May not count GRMN 5020 for academic preparation in German (section C, item 6) and for methods.		
<b>Total Credit Hours</b>		<b>15</b>

### Student Teaching

Satisfactory completion of all content and education course requirements is a prerequisite for student teaching. No other courses may be taken during the student teaching semester.

- EDUC 4513 Education and Practice (2 credits). Must be taken with EDUC 4722.
- EDUC 4722 Student Teaching: Secondary School 2 (5 credits). Must be taken with EDUC 4513.
- GRMN 4460 High School German Teaching (6 credits). Pass/fail only. Must be taken concurrently EDUC 4513 & EDUC 4722.

### Required Tests and Assessments

#### Basic Skills: Prior to Student Teaching

Complete an appropriate, college-level math *and* composition course with a B- or better. Acceptable scores on the ACT, SAT, GRE or Praxis CORE exam will also satisfy the requirement.

### Oral Proficiency Interview: Prior to Student Teaching

Pass the ACTFL Oral Proficiency Interview with a score of Advanced Low or better.

### Licensure Exam: Prior to Student Teaching

Pass the state-approved licensure exam, PRAXIS German: World Language (test code 5183).

## Secondary Japanese (7–12) Teacher Licensure Program

### Grade Requirements

Secondary Japanese teacher licensure candidates must maintain a 2.00 GPA in cumulative, content and education coursework. All grades in Education courses must be a B- or better to maintain good standing in the program. All grades must be a C- or better to satisfy a content coursework requirement.

### Content Coursework Requirements

Students must complete at least 30 credits in Japanese.

Code	Title	Credit Hours
<b>Courses and Minimum Required Credit Hours</b>		
JPNS 2120	Intermediate Japanese 2	5
JPNS 3110	Advanced Japanese 1	5
JPNS 3120	Advanced Japanese 2	5
JPNS 4110	Advanced Readings in Modern Japanese 1	3
JPNS 4120	Advanced Readings in Modern Japanese 2	3
Fifteen upper-division credits in Japanese language, literature and/or culture.		15

### Education Course Requirements

Code	Title	Credit Hours

EDUC 4112	Adolescent Development and Learning for Teachers (includes up to 2 hours per week of outside-class service learning)	3
EDUC 4023	Differentiating Instruction in Diverse Secondary Classrooms (includes up to 4 hours per week of school-based practicum)	3
EDUC 4125	Secondary World Language Methods (fall only; includes up to 5 hours per week of school-based practicum)	3
<b>Total Credit Hours</b>		<b>12</b>

### Student Teaching

Satisfactory completion of all content and education course requirements is a prerequisite for student teaching. No other courses may be taken during the student teaching semester.

- EDUC 4513 Education and Practice (2 credits). Must be taken with EDUC 4712.
- EDUC 4712 Student Teaching: Secondary School (10 credits). Must be taken with EDUC 4513.

## Required Tests and Assessments

### Basic Skills: Prior to Student Teaching

Complete an appropriate, college-level math *and* composition course with a B- or better. Acceptable scores on the ACT, SAT, GRE or Praxis CORE exam will also satisfy the requirement.

### Oral Proficiency Interview: Prior to Student Teaching

Pass the ACTFL Oral Proficiency Interview with a score of Intermediate High or better.

### Licensure Exam: Prior to Student Teaching

Pass the state-approved licensure exam (at this time, exams are not available for Japanese; please contact the School of Education for more information).

## Secondary Latin (7–12) Teacher Licensure Program

### Grade Requirements

Secondary Latin teacher licensure candidates must maintain a 2.00 GPA in cumulative, content and education coursework. All grades in Education courses must be a B- or better to maintain good standing in the program. All grades must be a C- or better to satisfy a content coursework requirement.

### Content Coursework Requirements

Students must complete at least 30 credits in Latin language and literature courses beyond 1000-level language courses.

Code	Title	Credit Hours
<b>Courses and Minimum Required Credit Hours</b>		
LATN 2114	Intermediate Latin 1	4
LATN 2124	Intermediate Latin 2	4
LATN 3014	Introduction to Latin Prose	3
LATN 3024	Introduction to Latin Poetry	3
Thirty credit hours of Latin coursework above the 1000-level. May include courses from above.		30
<b>Education Course Requirements</b>		
Code	Title	Credit Hours
EDUC 3013	School and Society	3
EDUC 4112	Adolescent Development and Learning for Teachers (Includes up to two (2) hours per week of outside-class service learning. May be taken at any time.)	3
EDUC 4023	Differentiating Instruction in Diverse Secondary Classrooms (Includes up to four (4) hours per week of school-based practicum)	3
EDUC 4125	Secondary World Language Methods (Includes up to five (5) hours per week of school-based practicum. Fall only.)	3
LATN 4824 or LATN 5824	Latin Teaching Methods: Open Topics	3
<b>Total Credit Hours</b>		<b>15</b>

### Student Teaching

Satisfactory completion of all content and education course requirements is a prerequisite for student teaching. No other courses may be taken during the student teaching semester.

- EDUC 4513 Education and Practice (2 credits).
- EDUC 4712 Student Teaching: Secondary School (10 credits).

## Required Tests and Assessments

### Basic Skills: Prior to Student Teaching

Complete an appropriate, college-level math *and* composition course with a B- or better. Acceptable scores on the ACT, SAT, GRE or Praxis CORE exam will also satisfy the requirement.

### Licensure Exam: Prior to Student Teaching

Pass the state-approved licensure exam, PRAXIS Latin (test code 5601).

## Secondary Spanish (7–12) Teacher Licensure Program

### Grade Requirements

Secondary Spanish teacher licensure candidates must maintain a 2.00 GPA in cumulative, content and education coursework. All grades in Education courses must be a B- or better to maintain good standing in the program. All grades must be a C- or better to satisfy a content coursework requirement.

### Content Coursework Requirements

Students must complete at least 30 credits in Spanish at the 3000-level or above.

Code	Title	Credit Hours
<b>Courses and Minimum Required Credit Hours</b>		
SPAN 3000	Advanced Spanish Language Skills	5
SPAN 3002	Advanced Spanish Conversation	3
SPAN 3050	Spanish Phonology and Phonetics	3
SPAN 3100	Literary and Cultural Analysis in Spanish	3
SPAN 3120	Advanced Spanish Grammar	3
Hispanic Linguistics. Choose one of the following courses:		3
SPAN 3010	Advanced Rhetoric and Composition	
SPAN 4450	Introduction to Hispanic Linguistics	
SPAN 4430	Special Topics in Hispanic Linguistics	
Peninsular Literature. Choose one of the following courses:		3
SPAN 4150	Major Works and Trends in Literature and Culture in Spain Up to 1700	
SPAN 4160	Major Works and Trends in Literature and Culture in Spain: 1700-Present	
Latin American Literature. Choose one of the following courses:		3
SPAN 4170	Major Works/Trends in Literature and Culture in Latin America Up to the 19th Century	
SPAN 4180	Major Works and Trends in Literature and Culture in Latin America: 1900-Present	
Literature. One additional 4000-level course in Spanish or Latin American Literature.		3
Culture & Civilization: Peninsular or Latin American		3
Please contact an education advisor for a list of acceptable courses.		

### Education Course Requirements

Code	Title	Credit Hours
EDUC 1001	Humanities Teaching for Equity: Naming	1
EDUC 2001	Humanities Teaching for Equity: Noticing	2

EDUC 3001	Humanities Teaching for Equity: Negotiating	2
EDUC 3013	School and Society	3
EDUC 4112	Adolescent Development and Learning for Teachers (includes up to 2 hours per week of outside-class service learning)	3
EDUC 4125	Secondary World Language Methods (fall only; includes up to 5 hours per week of school-based practicum)	3
EDUC 4023	Differentiating Instruction in Diverse Secondary Classrooms (includes up to 4 hours per week of school-based practicum; should be taken concurrently with SPAN 4650.)	3
SPAN 4650	Methods of Teaching Spanish (should be taken concurrently with SPAN 4023.)	3
<b>Total Credit Hours</b>		<b>20</b>

### Student Teaching

Satisfactory completion of all content and education course requirements is a prerequisite for student teaching. No other courses may be taken during the student teaching semester.

- EDUC 4513 Education and Practice (2 credits). Must be taken with EDUC 4722 and SPAN 4660.
- EDUC 4722 Student Teaching: Secondary School 2 (5 credits). Must be taken with EDUC 4513 and SPAN 4660.
- SPAN 4660 High School Spanish Teaching (6 credits). Must be taken with EDUC 4513 and EDUC 4722.

### Required Tests and Assessments

#### Basic Skills: Prior to Student Teaching

Complete an appropriate, college-level math *and* composition course with a B- or better. Acceptable scores on the ACT, SAT, GRE or Praxis CORE exam will also satisfy the requirement.

#### Oral Proficiency Interview: Prior to Student Teaching

Pass the ACTFL Oral Proficiency Interview with a score of Advanced Low or better.

#### Licensure Exam: Prior to Student Teaching

Pass the state-approved licensure exam, PRAXIS Spanish: World Language (test code 5195).

## Learning Outcomes

In their development as teachers for equity and justice who value and center humanistic, anti-oppressive, anti-racist, and queer-inclusive stances and practices, candidates in the CU licensure programs:

- Demonstrate pedagogical expertise in the disciplines they teach, grounded in an understanding of how their content and instructional choices matter.
- Design lessons that emphasize the importance of critical, collaborative sense-making and diverse perspectives.
- Strive toward teaching and learning environments that center students' knowledge and experiences, address existing status/roles of students and teachers, and challenge deficit and neutral perspectives.
- Plan and facilitate learning communities that provide opportunities for members to exercise dignity and respect for self and others, while developing disciplinary ideas and practices.

- Demonstrate professional integrity through ethical conduct, reflection and leadership.
- Foster relationships with students, families, communities and colleagues to advocate for equity and justice commitments.

## Engineering & Applied Science

The College of Engineering and Applied Science has a tradition of excellence in engineering education dating back to 1893, and we continually update and improve our programs to reflect the highest standards in teaching and learning, discovery, innovation, community and culture. Our college is the top-ranked engineering school in the Rocky Mountain region.

### Mission & Vision

The College of Engineering & Applied Science's mission is to generate new knowledge in engineering and related fields, and to equip students from diverse backgrounds to become leaders and citizens responsible for the betterment of individuals and society. Our vision is to be a recognized world leader for excellence and innovation in engineering research and education, with an emphasis on inclusive excellence, active learning and global society.

### Degrees

The College of Engineering and Applied Science offers Bachelor of Science degrees in:

- Aerospace engineering sciences (p. 739)
- Applied mathematics (p. 750)
- Architectural engineering (p. 795)
- Biological engineering (<https://catalog.colorado.edu/undergraduate/colleges-schools/engineering-applied-science/programs-study/chemical-biological-engineering/chemical-biological-engineering-bachelor-science-bscb/>)
- Biomedical engineering (p. 762)
- Chemical engineering (<https://catalog.colorado.edu/undergraduate/colleges-schools/engineering-applied-science/programs-study/chemical-biological-engineering/chemical-engineering-bachelor-science-bs/>)
- Civil engineering (<https://catalog.colorado.edu/undergraduate/colleges-schools/engineering-applied-science/programs-study/civil-environmental-architectural-engineering/civil-engineering-bachelor-science-bs/>)
- Computer science (<https://catalog.colorado.edu/undergraduate/colleges-schools/engineering-applied-science/programs-study/computer-science/computer-science-bachelor-science-bs/>)
- Creative technology and design (p. 840)
- Electrical engineering (<https://catalog.colorado.edu/undergraduate/colleges-schools/engineering-applied-science/programs-study/electrical-computer-energy-engineering/electrical-engineering-bachelor-science-bs/>)
- Electrical and computer engineering (<https://catalog.colorado.edu/undergraduate/colleges-schools/engineering-applied-science/programs-study/electrical-computer-energy-engineering/electrical-computer-engineering-bachelor-science-bs/>)
- Engineering physics (<https://catalog.colorado.edu/undergraduate/colleges-schools/engineering-applied-science/programs-study/engineering-physics/engineering-physics-bachelor-science-bs/>)

- Environmental engineering (<https://catalog.colorado.edu/undergraduate/colleges-schools/engineering-applied-science/programs-study/civil-environmental-architectural-engineering/environmental-engineering-bachelor-science-bs/>)
- Integrated design engineering (<https://catalog.colorado.edu/undergraduate/colleges-schools/engineering-applied-science/programs-study/engineering-plus/engineering-plus-bachelor-science-bs/>)
- Mechanical engineering (<https://catalog.colorado.edu/undergraduate/colleges-schools/engineering-applied-science/programs-study/mechanical-engineering/mechanical-engineering-bachelor-science-bs/>)

Along with a Bachelor of Arts degree in Computer Science (p. 822) and a post-baccalaureate Bachelor of Science degree in Applied Computer Science (p. 830).

## Accreditation

The CU Boulder campus is accredited by the Higher Learning Commission. Programs accredited by ABET (<https://www.abet.org/>) can be found on the College of Engineering & Applied Science Accreditation (<https://www.colorado.edu/engineering/accreditation/>) webpage. The degrees in applied mathematics and engineering physics are offered in cooperation with the Department of Applied Mathematics and Department of Physics in the College of Arts and Sciences.

## Professional Registration

Professional registration is recommended for all fields of engineering in order to protect the health, safety and welfare of the public. Registration is required in all states for the legal right to practice professional engineering. Although there are variations in state laws regarding engineering licensure, there is a general four-step process for licensure candidates: earn a degree from an EAC/ABET-accredited engineering program, pass the FE exam, gain acceptable work experience under the supervision of a PE and pass the PE exam. Students typically take the FE exam during their senior year in college.

## Areas of Interest

### BOLD Center

The BOLD Center (<https://www.colorado.edu/engineering/bold/>) is part of the College of Engineering and Applied Science's commitment to creating a diverse environment where all engineering students are welcome and where students who are traditionally underrepresented in engineering—women, underrepresented minorities—are empowered to achieve their dreams. BOLD Center programs promote the recruitment, retention and development of engineering students at CU Boulder and equip them for success through graduation and beyond.

### Colorado Space Grant Consortium
