CREDIT BY EXAMINATION

Advanced Placement (AP) Credit

Advanced Placement (AP) credit is evaluated upon receipt of an official score report from the College Board. Credit is not granted for an AP score if the student has completed a college course that is equivalent to the course for which the student would receive AP credit.

When the credit granted for a score of 3 on an AP exam is an Arts & Sciences credit that fulfills a specific Arts & Sciences General Education or CMCI Core category, CU Boulder advises students that they are likely to be more successful in their college career if they fulfill that Core category with a CU Boulder course and use their AP credit as elective credit. There is no guarantee that all AP credit will apply to a specific degree program. The dean’s office of each college and school makes the final determination for AP credits that apply toward degree requirements.

For more information and a guide to equivalencies, refer to First-year Applicants (catalog.colorado.edu/undergraduate/admissions/admission-requirements/) and the chart in this section or visit the Office of Admission’s Transfer Students (http://www.colorado.edu/admissions/transfer/) webpage.

Note: Credits are cumulative and reflect the total credit requirement for each subject.
International Baccalaureate (IB) Credit

International Baccalaureate (IB) credit is evaluated upon receipt of an official score report from the International Baccalaureate Organization. Credit is not granted for an IB score if the student has completed a college course that is equivalent to the course for which the student would receive IB credit.

In general, credit is granted for approved International Baccalaureate (IB) examinations at the higher level with a score of 4 or better. Students admitted to the University of Colorado Boulder who have graduated from high school with an International Baccalaureate Diploma shall be granted 24 hours of college credit. This credit will be applied toward degree requirements only if approved by the college or school. Depending on the student’s degree program, some of the 24 credit hours may not be applicable toward degree requirements. No CU Boulder tuition will be charged for these credits and the 24 credits will only be granted if the student receives a score of 4 or better on an examination administered as part of the IB Diploma program. If the student scores less than 4 on each IB subject test, the credit hours granted will be reduced accordingly.

When the credit granted for a Standard Level IB exam is an Arts & Sciences credit that fulfills a specific Arts & Sciences General Education or CMCI Core category, CU Boulder advises students that they are likely to be more successful in their college career if they fulfill that General Education or Core category with a CU Boulder course and use their IB credit as elective credit. There is no guarantee that all IB credit will apply to a specific degree program. The dean’s office of each college and school makes the final determination for IB credits that apply toward degree requirements.

For more information and a guide to equivalencies, refer to Freshman Applicants (catalog.colorado.edu/undergraduate/admissions/admission-requirements/). For more information and a guide to equivalencies, refer to First-year Applicants (catalog.colorado.edu/undergraduate/admissions/admission-requirements/) and the chart in this section or visit the Office of Admission’s Transfer Students (http://www.colorado.edu/admissions/transfer/) webpage.

Notes:

1 Engineering Students: Check with academic advisor in major department. Students will need the ability to learn additional programming languages for further computer science courses.

2 Students who want to continue taking Spanish courses beyond their AP credit level must take the Spanish department placement test. If the results of this test place them below their AP level, the Spanish department strongly recommends enrolling at the lower of the two levels.

Note: This table was prepared based on spring 2020 exams. Credit awarded is subject to change based on faculty review of spring 2021 exams. The credit in this table is for students who began classes at CU Boulder in the 2021-2022 academic year. Students who started at CU Boulder in previous academic years must refer to the tables in the catalog for that year to find the appropriate credit.

</table>

**Note:** This table was prepared based on spring 2020 exams. Credit awarded is subject to change based on faculty review of spring 2021 exams. The credit in this table is for students who began classes at CU Boulder in the 2021-2022 academic year. Students who started at CU Boulder in previous academic years must to refer to the tables in the catalog for that year to find the appropriate credit.

For exams taken in prior or future catalog years, consult those academic catalogs for exam equivalency information. Exams with a CU Boulder equivalent course of ARSC 1999TC will not fill a requirement in any major or minor at CU Boulder but will fulfill a requirement in the general education curriculum of most schools and colleges at CU Boulder.

For more information and a guide to equivalencies, refer to First-year Applicants (catalog.colorado.edu/undergraduate/admissions/admission-requirements/) and the chart in this section or visit the Office of Admission’s Transfer Students (http://www.colorado.edu/admissions/transfer/) webpage. CLEP tests are administered through Career Services, 303-492-5854.

- **Humanities**: 3 credits of Arts and Humanities and 6 credits of Electives
- **Languages**: 3 credits of Arts and Humanities and 6 credits of Electives
- **History and Social Sciences**: 3 credits of Arts and Humanities and 6 credits of Electives
- **Biological and Physical Sciences**: 3 credits of Natural Sciences and 3 credits of Electives
- **Mathematics**: 3 credits of Natural Sciences and 3 credits of Electives
Any credit earned from CLEP exams that counts toward the Arts and Humanities or Social Sciences requirements in A&S General Education will also count toward the Humanities and Social Sciences requirement in the College of Engineering and Applied Science.

For students in CMCI, translate the A&S General Education categories in the following way: Arts and Humanities = CMCI’s Humanities and Arts; Social Sciences = CMCI’s People and Society; Natural Sciences = CMCI’s Natural World; QRMS = CMCI’s Quantitative Thinking

**DSST Examinations- gtPathways**

Credit for DANTES Subject Standardized Tests (DSST) in the humanities, mathematics, physical science and social sciences areas may be granted for a score of 400 or above. Credit award and course equivalency information listed in this table applies only to degree programs completed entirely at the Boulder Campus.

 Beginning Spring 2019, select exams taken January 1, 2019 and later will receive gtPathways designation.

Exams with a CU Boulder equivalent course of ARSC 1999TC will not fill a requirement in any major or minor at CU Boulder but will fulfill a requirement in the general education curriculum of most schools and colleges at CU Boulder.

For exams taken in prior or future catalog years, consult those academic catalogs for exam equivalency information.

For more information and a guide to equivalencies, refer to First-year Applicants (catalog.colorado.edu/undergraduate/admissions/admission-requirements/) and the chart in this section or visit the Office of Admission's Transfer Students (http://www.colorado.edu/admissions/transfer/) webpage.
