

HONORS PROGRAM

Arts & Sciences Honors Program

The Arts & Sciences Honors Program provides a community for highly motivated and academically engaged undergraduate students. It offers opportunities for intellectual engagement through Honors courses, academic-inspired events and Honors thesis research and creative work (through which student earn Latin Honors).

CU Boulder incoming honors-qualified first-year and transfer students, and continuing undergraduates who have a cumulative GPA of 3.3 or higher, are eligible to take one Honors Program course per semester. Students are not required to be enrolled full time; part-time students are also eligible to enroll in our courses. There is no extra cost to take an honors version of a course. Students are not required to take Honors courses, which means that students who take Honors Program courses are choosing to work at an honors level.

Admission for first-year and transfer students is done automatically through their application to CU Boulder's College of Arts & Sciences. Generally, students in the top 10 percent of the incoming class receive an invitation. This is based on numerous factors including high school GPA and application essays. Applicants to the College of Arts & Sciences are reviewed as the admissions process progresses and honors-eligible students will receive an invitation to the Honors Program after they have been admitted. Continuing students in the College of Arts & Sciences (those who have been at CU past their first year) who maintain a GPA of 3.3 or higher are automatically eligible to participate in the Honors Program. There is no Honors Program application; in all cases, eligibility is determined automatically.

Latin honors (<http://www.colorado.edu/honors/graduation/>) in the College of Arts & Sciences are conferred by the Honors Program. To graduate *cum laude*, *magna cum laude* or *summa cum laude*, honors-qualified students must successfully write and defend an Honors thesis. Most students pursue Latin honors in their major (based on departmental requirements), but students may also pursue General Honors (<http://www.colorado.edu/honors/generalhonors/>) via the Honors Program, providing students the opportunity to write an interdisciplinary thesis.

The Honors Residential Academic Program (Honors RAP (<http://www.colorado.edu/hrap/>)) is the optional residential component of the program. Honors RAP is open to a limited number of qualified incoming and continuing students. Students engage in small classes and co-curricular activities, forming an academic community in their residence hall. (See the Communities tab for more information about the Honors RAP.)

The Honors Program offers the certificate in Interdisciplinary Honors Studies (<https://catalog.colorado.edu/undergraduate/colleges-schools/arts-sciences/honors/interdisciplinary-honors-studies-certificate/>), which allows undergraduate students to develop skills in interdisciplinary theory and practice that they can draw on to address social problems. The certificate is founded on the principles of diversity: intellectual, social and experiential.

Courses

HONR 1001 (1) Honors Coseminar

Honors coseminars are designed to combine an honors seminar experience with the shared experience of an organized lecture course. Designed typically for 15 students, coseminars are taken for an additional 1 credit hour. Coseminars provide honors students with an opportunity to extend their common experience in the course lecture into an enriched interactive, critical thinking opportunity.

Repeatable: Repeatable for up to 4.00 total credit hours. Allows multiple enrollment in term.

Requisites: Enrollment allowed for first-year AS students invited into the Honors Program for the current academic year (not including Honors RAP students) and continuing AS students with a minimum cumulative GPA of 3.300.

Additional Information: Arts Sciences Honors Course

HONR 1125 (3) Heroines and Heroic Traditions

Reevaluating global heroic traditions is critical to understanding power structures. In this course we will interrogate the concept of the monomyth and redefine what it means to be a hero/ine. The course will explore comparative mythology, folklore, literature, film and television in order to reinterpret and investigate heroic traditions in diverse communities.
