

LGBTQ STUDIES - CERTIFICATE

Lesbian, Gay, Bisexual, Transgender and Queer (LGBTQ) studies at CU Boulder is an undergraduate interdisciplinary program encompassing more than 30 courses in a dozen departments. The program offers coursework, programming and internship opportunities for students looking to explore queer and trans issues through an intersectional lens.

LGBTQ studies involves the academic investigation of sexuality in established fields such as literature, history, theatre, law, medicine, economics, sociology, anthropology, political science and the arts. With its interdisciplinary approach, LGBTQ studies interweaves complex theories and analysis into the study of sexuality and gender.

Through the certificate program and the guidance of faculty advisors, students are given an opportunity to integrate a wide variety of courses, internships, and programming in order to deepen their understanding of sexuality and gender in their academic, professional and personal lives.
