

WOMEN AND GENDER STUDIES

The Department of Women and Gender Studies offers a Bachelor of Arts degree, a minor, an undergraduate certificate in global gender and sexuality studies and a graduate certificate for students enrolled in another disciplinary master's or doctoral degree program. The interdisciplinary field of women and gender studies offers students rigorous and flexible programs of study that examine women, gender and sexuality in relation to race, class, ability, nation and empire, among other variables. Students explore how gender and sexuality intersect with structures of power in a range of cultural, historical and geopolitical contexts. Areas of inquiry include but are not limited to: gender/sex systems across cultures, historical periods and epistemological traditions; gender and sexuality in literature, the arts and popular culture; legal and public policy issues around gender and sexuality; women's participation in social and cultural production; transnational and anticolonial feminisms; feminist, queer and transgender theories; and LGBTQI politics and histories.

The department houses a reading library and organizes colloquia, workshops and other cultural and educational events.

Many students combine their women and gender studies degree with other departmental offerings across campus as a second major, minor or certificate. Students have coupled the critical thinking skills they learn in women and gender studies with additional fields of study from the College of Arts and Sciences or from other colleges or schools at CU Boulder. For example, a graduate of the department who also completes studies in biology may attend medical school to specialize in women's health; by combining a women and gender studies degree with a focus in business, a graduate could better understand how gender affects the workplace. Students have gone on to careers in fields such as law, medicine, government, public health, social work, teaching, public policy, counseling, advocacy, media, public relations, academia, politics, fundraising, small business development, librarianship and arts administration, among others.
