ENGINEERING MANAGEMENT - MINOR

The engineering management minor complements the technical knowledge of a baccalaureate engineering degree by introducing business skills engineers need to succeed in today's job market. After completion of the requirements, the undergraduate minor in engineering management will be listed on the student's transcript at the time of graduation along with the student's bachelor's degree.

For more information, visit the program's Undergraduate Engineering Management Minor (https://www.colorado.edu/emp/current-students/undergraduate-programs/undergraduate-minors/engineering-management/) webpage.

Requirements

Eligibility
The engineering management minor is open to undergraduate students rostered in the College of Engineering and Applied Science. Please see the engineering management minor website (https://www.colorado.edu/emp/undergraduate-programs/undergraduate-minors/) for the application process.

Program Requirements
Students must complete 15 credit hours: 2 required courses totaling 6 credit hours, plus an additional 9 credit hours of electives.

A cumulative GPA of 2.000 or better is required for courses used to satisfy the requirements of this minor. Each course requires a minimum grade of D- or better (note, however, that a C- or better is required in all prerequisite courses to qualify to take a subsequent course).

To meet the minor’s residency requirement, at least three courses need to be taken at CU Boulder (in person or online).
